## Huge Deposits?

Yes, but not deposits alone. It is really the ability to provide BIG service. Big in every respect. From encouraging thrift amongst youngsters to providing expert financial service to businessmen. Including advice and assistance for overseas operations through a wide network of foreign branches and correspondents. And, the benefit of experienced management by a Board of Directors made up of leaders in industry and business.

Available in all Sizes & Lengths.

Inquire :

64, Commercial Chambers,  
Masjid Bunder Road, Bombay-3.

Phone : 34997. Grams : "DESIHUNAR".

# PHYSIOGRAPHY

## STATES, TERRITORIES

The country is divided into 16 States† and nine Territories. The latter are under Central administration.

The 16 States (with the capital towns in brackets) are:

Andhra Pradesh (Hyderabad), Assam (Shillong), Bihar (Patna), Gujarat (Ahmedabad\*), Kerala (Trivandrum), Madhya Pradesh (Bhopal), Madras (Madras), Maharashtra (Bombay), Mysore (Bangalore), Nagaland (Kohima), Orissa (Bhubaneswar), Punjab† (Chandigarh), Rajasthan (Jaipur), Uttar Pradesh (Lucknow), West Bengal (Calcutta), Jammu and Kashmir (Srinagar).

The nine Territories (with capital towns in brackets) are:

The Andaman and Nicobar Islands (Port Blair), the Laccadive, Minicoy and Amindivi Islands (temporary headquarters: Kozhikode, Kerala), Delhi (Delhi), Himachal Pradesh (Simla), Manipur (Imphal), Tripura (Agartala), Dadra and Nagar Haveli (Diu), Goa, Diu and Daman (Panjim) and Pondicherry (Pondicherry).

In addition, there is one territorial unit: The North-East Frontier Agency, administered by the Governor of Assam as Agent of the Central Government.

## GEOGRAPHY

India is about 1,850 miles from east to west, and about 2,000 miles from north to south. Its land frontier is about 9,425 miles long and the sea frontier about 3,535 miles.

The total land area is 12,61,817 sq. miles.

According to the 1961 census the total population is 439,234,771.

This population grows roughly at the rate of about four and half millions a year.

The land frontier with Pakistan is about 4,959 miles long (east and west together). Of this about 2,810 miles are demarcated.

In shape India is like a triangle with its base resting on the Himalaya Mountains in the north and its apex running far into the ocean in the south. At the southern extremity the triangle tapers with a pear-shaped curve to a point called Cape Comorin now called Kanya Kumari.

India lies entirely to the north of the equator. From south to north including Kashmir, it stretches from 8° north latitude to 37° north latitude, with the Tropic of Cancer cutting it roughly into two halves. West to east it stretches from about 68° 20' east longitude to 97° east longitude.

Broadly speaking, India is shut off from the mainland of Asia by the Himalaya Mountains, the highest mountain range in the world. Going from west to east along the country's land frontier are Pakistan, Chinese Turkestan, Tibet, China, Burma and Pakistan.

In the south, the country is surrounded on all sides by water—the Arabian Sea in the west, the Indian Ocean in the south and the Bay of Bengal in the east.

India is so vast and diversified that expressions like 'average rainfall,' 'average temperature' have no meaning. The average annual rainfall in the Thar desert is 4 inches, while that in Cherrapunji is 425.

Similarly places in Kashmir have a minimum temperature of 49° F. while places in Rajasthan have recorded a maximum temperature of 120° F. So one can only speak of local averages rather than of national averages.

Compared with the size of the country, the coast-line is short, as there are few bays or inlets. Hence there are also very few harbours. The fact is the west coast is rocky and the sea is deep near the coast, while in the east the sea is extremely shallow so that big ocean-going ships have to weigh anchor at some distance from the shore.

The only so-called natural harbours are Bombay and Goa, while Madras, Vishakapatnam and Port Okha are examples of purely artificial harbours built by human enterprise.

The principal ports in India are (going from west to east along the coast), Kandla, Bedi Bunder, Port Okha, Porbandar, Surat, Bombay, Mormugao, Mangalore, Kozhikode (Calicut), Cochin, Alleppey, Quilon, Tuticorin, Dhanushkodi, Nagapattinam, Karikal, Cuddalore, Pondicherry, Madras, Masulipatnam, Kakinada, Vishakapatnam and Calcutta.

## MOUNTAIN WALL

India can be divided into three natural regions—1. the mountain wall, 2. the Plain of Hindustan, and 3. the Indian Plateau.

Let us take the mountain wall first. From the Pamir Knot in the far north two mountain ranges radiate one in the south-east and easterly direction called the Himalayas, and the other in a south-western direction reaching almost down to the sea, called the Sulaiman Range in the north and the Kirthar Range in the south.

In the east the mountain wall between India and Burma is called by different names in different places. In the north, for instance, it is known as the Patkoi Hills, further south as the Naga Hills. In Assam it is called Jaintia, Khasi and Garo. Southward are the Lushai Hills, then lastly there are the Arakan Yoma which finally reach the sea at Cape Negrais and continue in the Andaman and Nicobar Islands.

Of the various ranges which constitute the mountain wall of India the Himalayas are the most noteworthy. Extending like a scimitar for a distance of 1,500 miles along the northern frontiers of the country they form the loftiest mountain range in the whole world, and contain many of the highest mountain peaks, Mount Everest 29,141 ft., Mount Godwin Austen 28,250 ft., and Kanchenjunga 28,146 ft.

There are no easy ways in and out through the mountain wall which shuts off India from the rest of Asia, but there are a few difficult passes. In the very north are the Zojila Pass and the Shipki Pass which lead out of Kashmir and Punjab respectively. Then from Shipki right down to Darjeeling there is no route across the mountain wall. Across the Burma frontier again there are a few routes but they are of little use for purposes of communication.

The following is a more detailed description of the mountain region.

In the east on the border of Burma the mountain wall is much lower. Here it can more accurately be described as a range of hills rather than of mountains. This region is wet, forested and very thinly populated. The region round about Cherrapunji in Assam has the highest rainfall in the world.

Then from Darjeeling to Kashmir are the Himalayas proper, over 1,500 miles in length and 150 to 300 miles in breadth. The Himalayas are thus not a mountain chain in the proper sense of the word. They can be described as a series of parallel but converging ranges intersected by valleys and big plateaus.

Hence the Himalayas themselves can be further sub-divided into three parallel zones, the Great Himalayas with an average elevation of 20,000 ft., always covered with snow; the Lesser Himalayas, the middle range, with an

average elevation of 15,000 feet; and finally the Outer Himalayas lying between the Lesser Himalayas and the plains with an average elevation of about 3,500 feet.

Two of the longitudinal valleys which separate the mountain ranges are worth a note. They are the Vale of Kashmir and the valley of Kathmandu in Nepal. Both the valleys are fertile, extensive and from a tourist's point of view a dream of beauty.

## PLAIN OF HINDUSTAN

Geologically, the Ganges plain can be considered as the fore-deep of the mountains to the north of it. This fore-deep extends thousands of feet below the sea-level, though since its formation it has been filled in by deposit. In the east this deposit consists of alluvial material from the mountains, in the west it consists of material blown by the wind. All through the deposit is fine grained made up chiefly of muds and sands.

The Plain of Hindustan extends from the Bay of Bengal in the east to the Pakistan frontier in the west; that is to say, it is about 1,500 miles long and from 150 to 200 miles broad. Throughout this vast tract of land not a hill can be seen. The slope from the mountains to the sea is so gradual that about 100 miles from the mouth of the River Ganges the surface is no more than 500 feet above sea-level.

The Plain of Hindustan is probably the most important part of the country. For one thing, it contains some of the richest soils in the world. Second, it is on the Plain of Hindustan that the whole drama of race conflict and race assimilation was played out, a drama which finally shaped the political and cultural destiny of both India and its neighbour Pakistan.

Going into more detail the Plain of Hindustan is formed by the basins of three distinct river systems. In the far west are the Beas and Sutlej, tributaries of the Indus draining into the Arabian Sea. Further east is the River Ganges with its tributaries the Jamuna, Gogra, Rapti and Gandak which flows south-eastwards into the Bay of Bengal. The capital of the Indian Republic Delhi stands on the water-shed between the Indus and the Ganges river basins. The third of the three river systems, the Brahmaputra rises beyond the Himalayas, turns east and enters India at its eastern extremity and joins the Ganges before reaching the Bay of Bengal. The Brahmaputra has no important tributaries.

The rivers of Hindustan are notable in three respects: 1. They give a constant supply of water, 2. The land through which they flow is broad, flat and fertile and eminently suitable for irrigation, 3. Because water flows perennially they are navigable through the greater part of the year.

As we go from west to east in the plain rainfall increases and so do the fertility of the soil and the density of population.

## INDIAN PLATEAU

The third of the natural regions into which the country is divided is called the Indian Plateau because it comprises a three-sided table-land covering the whole of the country in the south except for two narrow coastal strips in the east and the west.

The Indian Plateau is marked off from the Plain of Hindustan by a confused mass of hill ranges running with a general direction of east to west. Three of these ranges have been distinguished by the names of Vindhya, Satpura and Ajanta respectively. They stand from 1,500 feet to over 4,000 feet high and though pierced by road and railway at the present time were not easy to cross in the

\* Actually a new capital is to be built outside the city.  
† The Punjab is to be divided into the Punjabi Suba consisting of the Punjabi speaking areas in the present State and Haryana Prant consisting of the Hindi speaking areas.

old days and thus formed a barrier of hill and jungle between the northern and the southern portions of the country.

The Indian Plateau is higher in the west and the south than in the east and north. Along the western and eastern edges of the plateau run the Western and Eastern Ghats. They start southward, from the extremities of the Vindhya mountain system and run along the western and eastern coasts of the country and unite to form a sort of upheaved angle towards their southern extremity.

The Western Ghats run through the States of Maharashtra and Mysore and ascend to an average height of about 3,000 feet while some of the peaks are anything between 5,000 feet and 9,000 feet high.

The Eastern Ghats stretch down the States of Andhra Pradesh and Madras and have an average elevation of 1,500 feet.

The inner triangular plateau which the Western and Eastern Ghats form far in the south is seamed with little ranges of hills exceeding 4,000 feet in height the best known among which are the Nilgiris. It is on the Nilgiris that Ootacamund the famous summer capital of Madras State stands.

**Drainage Systems.**—There are three systems of drainage in the Indian Plateau—one towards the north, the second towards the west and the third towards the east. The drainage from the northern or Vindhya edge of the plateau falls into the Ganges. Two rivers Narmada and Tapi carry the rainfall of the southern slopes of the Vindhya and Satpura mountains respectively in almost parallel lines into the Arabian Sea.

Further south, as we have already stated, the plateau is much higher in the west than the east. So the drainage has to make its way across the whole breadth of the plateau eastwards until it falls into the Bay of Bengal.

The most important rivers are the Mahanadi, the Godavari, the Krishna and the Cauvery. These rivers differ from the rivers of the Plain of Hindustan in three ways: 1. They are fed only by the monsoon rains and therefore do not yield a constant supply of water. 2. Their valleys are less suitable for irrigation. 3. And finally, they are not navigable for certain seasons in the year when parts of the river dry up.

From a geological point of view the Indian Plateau consists mainly of very old crystalline rocks—much older than the Himalayan fold mountains.

On some of the edges of the plateau in the north-east for instance, are areas of sedimentary rocks from which the country obtains most of its coal. About nine-tenths of the coal resources of India lie in Jharia in Bihar and Ranigunj in West Bengal, though coal-bearing beds are also found in the valley of the Godavari and the northern slopes of the Vindhyas.

The north-west of the plateau is covered by vast stretches of lava called the Deccan lavas. This region is one of the largest areas of lava in the world, covering as it does an area of 250,000 square miles with a total thickness of several thousand feet. In spite of the great extent of the lavas there are few or no signs of volcano.

In the rest of the Plateau valuable minerals occur here and there among old crystalline rocks. Gold is obtained in Mysore, manganese in Andhra, Mysore and Madhya Pradesh, copper and iron in Bihar and Orissa, mica in Andhra and the south-east. The point about diamonds is of some interest. They occur in sand-stones or conglomerate in Panna in Madhya Pradesh or Kurnool in Andhra, though no diamond bearing igneous rocks are found.

Two groups of very small islands in the Bay of Bengal, the Andamans and the Nicobars, and one group in the Arabian Sea the Laccadives are part of the Republic of India.

So is the quasi-island of Kutch off the Kathiawar Peninsula in western India. Kutch is a dry, rocky, treeless country.

The main cultivated plants include rice, wheat, pulses and grains. Among the important seeds grown are castor, sesamum and ground-nut.

The chief fruit trees include mango, coconut, arecanut and certain citrus fruit. Apples, peaches, pears, apricots and walnuts are confined chiefly to the Himalayan valleys.

There are tea plantations over large areas on the mountains in the north-east and south, while coffee, cardamom, pepper and rubber are extensively grown in the south. In some of the damper regions the cinchona is successfully cultivated.

Among the wild animals are the tiger, the elephant, leopard, panther, the cheetah, the marbled and jungle cat, the wolf, jackal, wild dog, the black and the Himalayan bear, the rhinoceros, crocodile, wild hog, wild ass, antelope, gazelle, sambhar, spotted deer, bison, wild buffalo, many kinds of reptile (cobra, Russel's viper).

Among the domestic animals are cattle, buffaloes, sheep, goats, horses and ponies, mules and donkeys, camels, and of course, fowl.

Birds include the parrot, peacock, maina, different kinds of vulture and eagle, kingfisher, pigeons, ducks, partridges, plover, quail and snipe.

Among the more useful insects are the bee, silk worm, cocoon laca (the one that gives lac). Mosquitoes abound everywhere. Locust invasions are not frequent.

Edible fish include the carp family, cat fishes the hilsa and mahseer.

Note :—In calculation of excess and defects and their percentages, rainfall figures are taken correct to 0.1 mm.

## MONSOON RAINFALL SUMMARY

June to September, 1965

## Season as a whole—

The monsoon set in over south Kerala on 26th May about five days earlier than the normal date but advanced slowly with a delay of 10 to 15 days as compared with the normal dates over most parts of north and central India. It established itself over the entire country by 17th July about a week later than the normal date. On the whole the monsoon activity was sub-normal over north and central India and normal over the Peninsula. Break monsoon conditions prevailed for about a fortnight in August. Spells of heavy rains leading to floods occurred in northeast India in July and August and in west Madhya Pradesh in July. The withdrawal of the monsoon from the country outside the south Peninsula was completed by 13th October which is about the normal date. The noteworthy feature of this year's monsoon was the sub-normal activity over most parts of north and central India.

The rainfall for the season was in large defect in Himachal Pradesh and Jammu & Kashmir, in moderate defect in Uttar Pradesh, east Rajasthan, Madhya Pradesh, Gujarat Region, Kerala and the Arabian Sea Islands and in slight defect in Orissa, Bihar Plateau, the Punjab, West Rajasthan, Saurashtra and Kutch, Vidarbha and coastal and south Interior Mysore. It was normal over the rest of the country outside south Assam where it was in slight excess.

## Chief Features—

- (i) Early onset of the monsoon in South Kerala but slow advance later;
- (ii) Sub-normal monsoon activity over north and central India with break monsoon conditions for about a fortnight in August;
- (iii) Heavy rains leading to floods in northeast India in July and August and in west Madhya Pradesh in July; and
- (iv) Withdrawal of the monsoon by the normal date from the country outside south Peninsula.

## June —

The monsoon set in over south Kerala on 26th May about 5 days in advance of the normal date. Under the influence of a severe cyclonic storm in the Bay of Bengal which moved northward towards East Pakistan during the last week of May, the Bay branch of the monsoon advance into South Bay at the beginning of that week and extended into the East central Bay by the end of the month. A further advance into the northeast Bay and eastern parts of Assam took place during the first week of June.

In association with a trough of low pressure persisting over the east central Arabian Sea off the west coast during the first fortnight, the monsoon advanced slowly northwards along the west coast and covered the Konkan by the middle of the month. Fairly well distributed rainfall occurred over the Peninsula during this period with a number of heavy falls along the west coast. The monsoon did not advance further northwards during the second fortnight and its activity was moderate over the Peninsula during this period. However, it was quite active in Kerala during the third week and in parts of Maharashtra State during the last week of the month.

The rainfall activity over Assam and Sub-Himalayan West Bengal decreased considerably after the first week. A trough of low pressure persisting over the north and adjoining central Bay of Bengal caused an increase in the monsoon activity over the Bay Islands during the second week. The monsoon advanced somewhat slowly during the third week over the Central parts of the country. As upper air cyclonic circulation which developed over Gangetic West Bengal and neighbourhood on 24th intensified and a low pressure area formed over East Pakistan on 29th. Under its influence, there was well distributed rainfall over northeast India.

A western disturbance moving across the extreme north of the country during the later part of the first week caused a few thundershowers over northwest India.

## July —

The well marked low pressure area lying over East Pakistan and adjoining Gangetic West Bengal at the end of June moved westnorthwestwards in Rajasthan, weakened and later moved away northeastwards across the Western Himalayas by 6th July. Under its influence, the monsoon advanced into Gujarat State and southeast Rajasthan and extended further into Uttar Pradesh and Madhya Pradesh by the end of the first week. The axis of the monsoon trough shifted northwards and lay close to the foot of the Himalayas from 6th to 10th causing heavy rains in the northern parts of northeast India. Most of the rivers in Assam, Sub-Himalayan West Bengal and Bihar Plains rose in spate and inundated vast areas, particularly in Jorhat sub-division and in Darbhanga and Jalpaiguri districts, Western Himalayas and adjoining plains also received good thundershowers during the second week. Earlier a western disturbance moving across the extreme north of the country had caused a few thundershowers in Western Himalayas.

The monsoon activity increased generally over the country during the second fortnight as a result of the development of two deep depressions in the Bay of Bengal, a land depression over west Madhya Pradesh and a low pressure area over Orissa. The first depression formed over the northwest Bay on 13th and moving westnorthwest to northwest it merged into the seasonal low by 17th. Under its influence, the monsoon advanced further westwards and covered the entire country by 17th. The monsoon was particularly active in north Peninsula, Gujarat State and west coast. Bombay (Santa Cruz) recorded 37 cm of rain on 16th. A number of rivers in Maharashtra State were in spate affecting road traffic. This depression was followed by a low pressure area which moved from Orissa to Gujarat and thence northwestwards during the period 19th to 23rd. The second depression formed over the northwest Bay on 26th and moving inland weakened over east Uttar Pradesh by 30th. The third depression formed over west Madhya Pradesh centred near Gwalior on 31st. Abu recorded 82 cm of rain on 31st. According

to newspaper reports, a number of rivers in Orissa and adjoining Bihar State were in spate causing inundation of low lying areas. Road and rail traffic in and around Bhopal were also reported to be dislocated due to heavy rains.

#### August —

The depression lying centred near Gwalior on 31st July moved northeastwards, weakened and merged into the seasonal trough of low pressure by 2nd August. Under its influence, there was good monsoon activity over most parts of the country till 2nd. A low pressure area persisting over East Pakistan and Gangetic West Bengal on 1st and 2nd moved northwards and merged into the seasonal trough of low pressure by 4th. In association with it there was good rainfall activity over northeast India during the first week.

With the northward shift of the axis of the monsoon trough to the foot of the Himalayas by 8th, break monsoon conditions prevailed over the country for about a fortnight from the middle of the first week, when the main rainfall regions were confined to the northern parts of northeast India and to the Peninsula outside the west coast. According to press reports most of the rivers in Assam, Sub-Himalayan West Bengal and Bihar plains were in spate inundating low lying areas and damaging standing crops. Two upper air troughs moved successively westwards from the southwest Bay across the Peninsula causing good rainfall activity over the southern and northwestern parts of the Peninsula.

A well marked upper air trough moving north-eastwards from the west Central Bay of Bengal

concentrated into a depression by the evening of 23rd centred about 100 kms east of Chandballi. Moving northwestwards it crossed coast near Balasore in the early morning of 24th, weakened and merged into the seasonal trough of low pressure over Uttar Pradesh by 28th. Under its influence, the monsoon activity revived over the country with heavy rains over the belt extending from Orissa to Gujarat State and also over Uttar Pradesh. Another low pressure area moving from the east into the east central Bay of Bengal on 28th also intensified and concentrated into a depression by the morning of 31st with centre near Lat. 18°5'N and Long. 90°5'E. It caused good monsoon rains in the Bay Islands, parts of northeast India, in Madhya Pradesh and north-eastern parts of the Peninsula towards the end of the month.

#### September —

The depression lying over the north and adjoining central Bay of Bengal on 31st August moved in a westerly direction and crossed coast near Gopalpur on 1st September. Later it moved northwestwards, weakened over Uttar Pradesh and merged into the seasonal trough of low pressure by 6th. It caused good rainfall activity over central and adjoining parts of north India. Another well marked low pressure area moving from the northeast Bay of Bengal to Uttar Pradesh during the period 5th to 9th became unimportant by 11th. Under its influence, the monsoon was active in the western parts of north-east India, in east Madhya Pradesh and east Uttar Pradesh. In the wake of this disturbance the monsoon withdrew from northwest India

outside east Rajasthan by the middle of the month, which is the normal date.

Over the Peninsula the monsoon was feeble till 9th. Later a few showers occurred in association with a trough of low pressure persisting over the central Bay of Bengal from 12th to 16th. A low pressure area moving from the east across the north Andaman Sea on 16th concentrated into a depression by the morning of 19th with centre near Lat. 15°0'N and Long. 84°0'E. Crossing the Andhra Coast between Ongole and Masulipatam on the night of 19th-20th, it recurved northeastwards. It persisted over Bihar State from 24th but weakened and became unimportant by 27th. In the course of its movement, it caused heavy rains in the Peninsula particularly in the northern parts, in east Madhya Pradesh and northeast India. Sabour recorded a very heavy fall of 35 cm of rain on 25th. An upper air trough appearing over the north Andaman Sea on 25th moved slowly westwards and lay over the west central Bay of Bengal on 30th. Under its influence, the monsoon was fairly active in the Bay Islands and south peninsula.

After the withdrawal of the monsoon from northwest India, weather remained mainly dry over the area except for a spell of showers over the Western Himalayas and adjoining plains caused by a western disturbance moving eastwards across the area towards the end of the third week. The monsoon withdrew further from the remaining parts of north and central India and also from north Peninsula in stages and from 13th October, it was, confined to the south Peninsula.

## METRIC SYSTEM OF WEIGHTS AND MEASURES

**F**OLLOWING the acceptance of the metric system in principle by the Lok Sabha, the Government of India sponsored in Parliament legislation to adopt the metric system. The Standards of Weights and Measures Bill received the President's assent in December 1956. This Act defines the primary units of mass and length, units of capacity, time, electric current and luminosity, and the scale of temperature.

### PRIMARY UNITS

The primary unit of length is the metre and of mass the kilogram. The international definitions of the metre and the kilogram have been adopted in substance. According to the new definition, the metre is the length equal to 1,650,763.73 wavelengths, in vacuum, of the radiation corresponding to the transition between the 2P<sub>1/2</sub> and 5d<sub>5/2</sub> levels of the krypton atom of mass 86.

The litre or the volume of one kilogram of water under specified conditions, would be the unit of capacity. The second, the unit of time, has been defined with reference to the length of the tropical year 1900. The unit of electric current would be the ampere, and of luminosity the candela. Temperature would be measured by the Centigrade scale.

### REFERENCE STANDARDS

Since weights and measures are enforced by the State Governments they must have standard weights and measures of high accuracy. The Act has placed on the Central Government the duty of supplying a set of such Standards free to each State Government. These are called Reference Standards. The Reference Standards of weight and length are manufactured by the Bombay Mint, and verified against the National prototypes by the National Physical Laboratory. The Bombay Mint is the only organisation in India which is capable of manufacturing standards of this accuracy.

The Act lays down only the primary units. The Central Government has been authorised to declare secondary units with reference to primary

units. There is an important stipulation that every secondary unit must be an integral power of 10, positive or negative, of the corresponding primary unit.

### LAW TO ENFORCE WEIGHTS AND MEASURES

It was decided by the Central Govt. to draft a Model Weights and Measures (Enforcement) Bill in consultation with the State Governments. All the States accepted the Model Bill, and State Legislatures have enacted it into law. The Union Territories of Delhi, Himachal Pradesh, Tripura and Manipur have adopted the Rajasthan Weights & Measures (Enforcement) Act, 1958. All the States and Union Territories have also accepted and enforced Model Rules recommended to them. The Weights & Measures (Enforcement) Acts in force in States and Union Territories are, therefore, virtually identical.

The main purpose of the enforcement laws is to:

- (i) specify denominations, shapes, designs and accuracy of weights and measures used in trade, as well as the capacities, sensitiveness, accuracy and constructional details of weighing and measuring instruments,
- (ii) lay down procedures for verifying weights, measures and instruments,
- (iii) prohibit the use in transactions of non-standard or false weights, measures and instruments, and prescribe penalties for their use,
- (iv) authorise the appointment of Controllers and other officers for enforcing weights and measures, and to define their duties and powers.

Specifications for weights, measures and instruments were drawn up by a Committee appointed by the Indian Standards Institution.

Manufacturers, technical experts and the Departments of Weights and Measures, were represented in the Committee. These specifications were virtually incorporated in the States Weights and Measures (Enforcement) Rules.

### METRIC SYSTEM IN INDUSTRY

All the major industries have adopted the metric system. In buying materials and stores and selling products, prices and quantities are expressed in metric units. Accounts and statistics are also maintained in the metric system. Significant changes are introduced in the quality or design of products, to conform to the metric system. The technical descriptions of products are being progressively indicated in metric units. A number of basic products like steel, steel sections, non-ferrous sections, paper containers etc. are already being produced to national standard dimensions. Change over in the remaining spheres is now in hand.

### KILOMETRE STONES ON ROADS

The kilometre has been adopted as the unit of distance by rail. Distances along rail tracks have been marked in kilometres. With the adoption of the metric system in road transport, it has become necessary to mark distances on roads also in kilometres. But setting up kilometre stones on roads is more arduous and costly. The total length of roads including National Highways and State Roads, is about 6,000,000 kilometres. There are also other roads like District and Village Roads, Canal Roads and Forest Roads. The work will be carried out first on National Highways. The mile stones will be allowed to stand for the time being; the kilometre and the mile stones would be on opposite sides of the roads. On roads to be built in future, only kilometre stones will be set up. They will be put up on the left side of a person standing with his back to the starting point.

Kilometre stones are to be of the same design throughout the country. A suitable design recommended by the Indian Roads Congress has been accepted by the Governments. Distances will be marked on the stones in international numerals. Local or Devnagri numerals will not

be used. Place names will be written in Roman, Devnagri or the local script, only one script being used on any particular stone. The writing on the stone at the starting point or zero kilometre will be in the Roman script. Successive stones will be in Devnagri, local script, Roman script, and so on, in that order. The stone will have a white background with letters in black. The top semi-circular portion will be painted canary yellow on National Highways, brilliant green on State Roads, and white on major District Roads.

#### METRIC SYSTEM IN EDUCATION

This involves revision of school syllabi, and more important, of text-books; this task has now been accomplished.

Technical institutions imparting higher education have, however, adopted the metric system according to a phased programme. In engineering and medical colleges teaching is now based mainly on the metric system.

The metric system of weights & measures has now become compulsory throughout the country

in trade and commerce. This is a significant land-mark in the history of India where a welter of weights & measures has so long prevailed.

#### OTHER SPHERES

Metric System is now being introduced progressively in more complicated fields like the building industry, irrigation, printing and stationery, land records, transport, forests, highways etc. This complex change-over is expected to be effected during the IV Five Year Plan.

## DEFENCE SERVICES

*Chief of the Army Staff, General P. P. Kumaramangalam.*

*Chief of the Naval Staff, Vice-Admiral A. K. Chatterji.*

*Chief of the Air Staff, Air Chief Marshal Arjan Singh, D.F.C.*

THE supreme command of all the Armed Forces of the Indian Republic is vested in the President. Since the attainment of Independence, the Ministry of Defence has become the central agency for formulating and obtaining policy decisions of the Government of India on defence matters and for transmitting them to, and seeing to their implementation by the three Defence Services Headquarters.

The partition of India in 1947 was an important landmark in the history of the Armed Forces of India. They were divided between the two countries on a communal-cum-optional basis, which worked out to an approximate proportion of one-third to Pakistan and two-thirds to the Union of India. British forces, including the Royal Air Force, were completely withdrawn from India early in 1948.

In order to deal with the emergency created by the full-fledged Chinese aggression in October-November 1962, a National Defence Council has been set up with the Prime Minister as Chairman. The Council was reconstituted on Jan. 2, 1965 with 28 members. The Prime Minister

is the Chairman. This Council advises the Central Government in such matters as directly or indirectly affect the defence of the country.

The functions of the Council are to (i) take stock of the situation and arrangements for national defence, from time to time, and advise Government on matters relating to defence, (ii) assist in building up and suitably guiding the national will to fight the aggressor, (iii) suggest to the Central Citizens' Committee such measures as may be considered necessary for the utilisation of public participation in national defence, and (iv) advise Government generally on such other matters as may be helpful in prosecuting the fight against the aggressor.

The Council has formed a Military Affairs Committee with the Defence Minister as Chairman and the Service Chiefs of Staff, Lt.-Gen. Sant Singh, Lt.-Gen. S. P. P. Thorat, Dr. D. S. Kothari and the Defence Secretary as members.

The total defence outlay on revenue and capital account for 1966-67 is estimated at Rs. 918 crores as against the revised estimates of Rs. 888 crores during 1965-66.

The following is the break-up of the net Defence Services expenditure (in crores of rupees) since 1959-60 :

| Year                       | Effective |      |           | Non-Effective | Defence Capital Outlay | Total |
|----------------------------|-----------|------|-----------|---------------|------------------------|-------|
|                            | Army      | Navy | Air Force |               |                        |       |
| 1959-60 (Actuals)          | 143       | 14   | 59        | 15            | 36                     | 267   |
| 1960-61 (Actuals)          | 164       | 17   | 52        | 15            | 33                     | 281   |
| 1961-62 (Actuals)          | 198       | 20   | 53        | 19            | 23                     | 313   |
| 1962-63 (Actuals)          | 314       | 19   | 74        | 18            | 49                     | 474   |
| 1963-64 (Actuals)          | 532       | 21   | 134       | 17            | 112                    | 816   |
| 1964-65 (Actuals)          | 524       | 23   | 126       | 20            | 113                    | 806   |
| 1965-66 (Revised)          | 570       | 28   | 149       | 22            | 119                    | 888   |
| 1966-67 (Budget Estimates) | 600       | 30   | 145       | 23            | 120                    | 918   |

(See also under Public Finance).

### DEFENCE ORGANISATION

Since August 15, 1947, each Service has been placed under a separate and independent head, their present designations being Chief of the Army Staff, Chief of the Naval Staff and Chief of the Air Staff.

With the appointment of three Service Chiefs independent of each other, the task of co-ordination of the activities of the three Services has devolved on the Defence Ministry. In order to ensure expeditious handling of work, a network of committees has been established at different levels.

At the top is the Defence Committee of the Cabinet which is, for all practical purposes, the Government so far as the Services are concerned. All important policy questions relating to defence are decided by this Committee, which is presided over by the Prime Minister. Since the beginning of the present emergency, the Emergency Committee of the Cabinet, which is an ad hoc Committee of the Cabinet, deals with all important matters relating to the present emergency, including defence.

The Defence Minister is responsible to Parliament for all matters relating to the Defence Services, including appropriation and allotment of funds, correlation of all civil and ministerial activities for purposes of defence and control and direction of research policy.

The Ministry of Defence consists of the ministry proper which is responsible for work

connected with the three Services and Inter-Service Organisations, the Department of Defence Production, the Department of Defence Supplies, the Research and Development Organisation and the Border Roads Development Board.

There are a number of Inter-Services organisations, directly administered by the Defence Ministry, dealing with matters of common concern to the three Services. Some of them are the National Cadet Corps, the National Defence College, the Defence Services Staff College, the National Defence Academy, the School of Foreign Languages, the Directorate-General of Armed Forces Medical Services, the Resettlement Directorate, the Indian Soldiers', Sailors' and Airmen's Board, the Combined Inter-Services Historical Section, the Directorate of Military Lands and Cantonments, the Joint Cipher Bureau and the Directorate of Public Relations.

Among the major steps which the Government of India took after the Chinese attack was to set up in November 1962 a separate Department of Defence Production in the Defence Ministry to direct, co-ordinate and strengthen the production base for building a sound defence system.

In view of large-scale expansion in defence science activity in the country, a Research and Development Council was constituted in the middle of 1962, with the Defence Minister as Chairman, to formulate defence science programmes. It, however, does not work in isolation,

and is closely associated with civilian organisations engaged in the effective application of scientific knowledge. Apart from the Defence Minister, the other members of the Council are the Minister of Defence Production (Vice-Chairman), the Defence Secretary, the Secretary for Defence Production, the Scientific Adviser to the Defence Minister, the Director-General of C.S.I.R., the Chiefs of Staff of the Army, Navy and Air Force, the Director-General of Armed Forces Medical Services, the Financial Adviser (Defence), the Chief Controller of Research and Development and the Director-General of Inspection. The Council has under it the Defence Research and Development Organisation, headed by the Scientific Adviser, who is assisted by the Chief Controller and the Chief Scientist.

The Defence Minister's Production Committee forms part of the higher defence control evolving a co-ordinated policy in regard to the manufacture of military stores and equipment. It has under it the Department of Defence Production, for the overall production effort for meeting the requirements of the Services by the maximum utilisation of the existing capacity and creating additional capacity in the Ordnance Factories. The Director-General of Ordnance Factories, the six public sector undertakings and two departmental undertakings come under the Department of Defence Production. The Directorate-General of Inspection is responsible for the inspection of all stores for which orders are placed with the Ordnance Factories, other defence and public undertakings and private trade.

Two major changes made during 1965-66 in the Defence Ministry are the creation of a separate Department of Defence Supplies for dealing with planning for substitution of import requirements for defence purposes, implementation of schemes in this regard and co-ordination of scientific and technological research and development work in the country with that of the Defence Research and Development Organisation.

A Planning Cell has also been established in the Ministry of Defence with an Additional Secretary in charge for dealing with all wider aspects of development planning which have a bearing on the defence efforts and to ensure that planned schemes having a bearing on defence efforts are given appropriate priorities.

A Directorate of Planning and Co-ordination was formed in 1964 to provide the Secretariat for the newly constituted Defence Production Board and to discharge the planning functions in respect of defence production. In addition to reviewing and reviving the periodical defence production plans, the Directorate was also made responsible for initiating planning action on new development projects.

A Directorate of Technical Development and Production (A.I.R.) was set up in 1954 for preparing and maintaining technical data including detailed specifications for aeronautical equipment and stores used by the defence services and for advising the Indian Air Force on technical matters.

### RESEARCH & DEVELOPMENT

The Research and Development Organisation which is closely associated with the Production Organisation, includes technical establishments dealing with weapons, ammunition, military explosives, metallurgy, electronics and optical instruments. Whereas research is carried on in the laboratories, development work is concentrated at the various technical establishments scattered all over the country.

As a supporting organisation of the Armed Forces, the R. and D. Organisation has to (a) render scientific advice to Service Headquarters, (b) carry out applied research to solve the problems of the Services, (c) design and develop weapons and equipment based on the operational requirements defined by the Services, (d) evaluate and carry out technical trials of new weapons and equipment or those developed in the country, and (e) render technical guidance to civil trade for the development of new equipment. It today undertakes basic, applied and operational research and development of products and processes related to fabrication of instruments, weapons, ammunition, engineering stores and tele-communication equipment.

The Institute of Armament Technology (formerly known as the Institute of Armament Studies), apart from training Service officers, provides facilities for a comprehensive scientific study and research in the performance of weapons and equipment.

There are at present about 30 establishments, major and minor, under the R. and D. Organisation, catering to the needs of the Armed Forces. Among the new research units are the Institute of Nuclear Medicine, the Institute of Physiology, the Food Research Laboratory, the Solid State Physics Laboratory, the Electronics Research Laboratory and the Institute of Work Study.

A chain of laboratories is being established to cover new fields of activity and to evaluate the stringent conditions in different terrains of the country's frontiers. Field research stations have also been set up.

A Psychological Research Directorate of the Science Organisation was formed in 1949 under a Chief Psychologist, the main function of which is to conduct research in the assessment of human personality so that the right type of officers may be selected for the Armed Forces.

During 1964-65 the R.D. Organization was engaged in the development of a mountain-gun and anti-tank mine, and completed projects for the development of gun and mortar sights and the telescopes for the Sniper.

There are two major electronic Development Establishments in the country dealing with communication equipment, tele-communication line equipment and radars. A beginning has been made on a third establishment for the development of missiles.

A Defence Science Service has been instituted to include all civilian scientists engaged in research, development, inspection or teaching in any of the three Services or in the Ministry of Defence.

Theoretical training for the engineering profession to those already receiving practical training, consisting of lectures and tutorial classes, is now being given at defence installations in practically all parts of the country to prepare students for the Associate Membership examinations of the Institution of Engineers (India), the Institution of Tele-Communication Engineers and the Aeronautical Society of India, a pass in which is regarded as equivalent to an engineering degree. There are more than 4,800 students at present receiving this instructional training.

The Defence Production Board has been set up to examine and recommend to Government plans for defence production, production of new items and stock-piling of raw materials.

### ORDNANCE FACTORIES

The Production Organisation, which has under it 26 odd Ordnance Factories, is so designed as

to achieve self-sufficiency in respect of stores required by the three Services and has made continuous efforts to establish production of items hitherto imported. The organisation represents one of the biggest State-owned integrated enterprises.

The Ordnance Cable Factory for the manufacture of field cables for the Army started functioning in September 1963, the New Explosives Factory—in December 1964. The Heavy Vehicles (Tank) Factory has gone into production. The first Indian-made medium tank, 'Vijayanta', rolled out of the factory on Dec. 29, 1965. Of the five more ordnance factories to be set up, the Small Arms Ammunition Factory, went into production in Oct. 1964, with U.S. aid, much ahead of schedule. Another factory the Ordnance Factory, Tiruchirapalli was inaugurated by the Prime Minister on July 3, 1966. Two other new factories have been set up.

Apart from substantially augmenting the manufacture of established armaments and equipment, the Ordnance Factories took up the production of several new items during 1963-64. Significant amongst these are a 7.62 m.m. semi-automatic Ishapore rifle and its ammunition, a new heavy mortar with a longer range and its ammunition, new types of tank ammunition, new anti-tank ammunition, an anti-aircraft gun and its ammunition, improved carbines to replace sten-guns, and modified light machine-guns and bolt-action rifles to take the new rimless 7.62 ammunition.

A light mountain gun, with a higher range, has been successfully developed and its production started. A new plant has been set up at the Cordite Factory for the manufacture of semi-solvent propellants for rockets and commissioned, and so also a plant at another ordnance factory for a new type of ammunition for the Air Force.

To ease the transport problems of the Army, about 6,700 three-ton Shaktiman trucks, with an indigenous content of about 70 per cent had been manufactured in the Ordnance Factories by the end of March 1966. In addition, 12,566 one-ton Nissan carriers and 4,600 Nissan jeeps, with an indigenous content of 38 and 28 per cent respectively, have rolled out of the assembly lines so far.

The production of conventional arms, snow and ski equipment, winter and cotton clothing, supply-dropping parachutes, line-gear and saddlery items has also been greatly stepped up.

Over the years, the value of production in the Ordnance Factories has jumped from about Rs. 5 crores in 1947-48 to Rs. 19.65 crores in 1958-59, Rs. 25.37 crores in 1959-60, Rs. 33.35 crores in 1960-61, Rs. 41.88 crores in 1961-62, Rs. 64 crores in 1962-63, Rs. 111.34 crores in 1963-64 and Rs. 104.9 crores in 1964-65. During 1965-66 it was expected to be more than that in 1964-65.

### HINDUSTAN AERONAUTICS LIMITED

(See under article "Government Industrial Undertakings").

#### A.M.D. AND A.I.L.

The Aircraft Manufacturing Depot, set up at Kanpur in 1960 under the Air Force for the manufacture of the Avro-748—a medium twin-engined, turbo-prop, pressurised and air-conditioned transport aircraft, capable of short take-offs and landings, with ability to operate from unprepared surfaces—was in 1963 made a departmental undertaking under the direct control of the Department of Defence Production.

This factory has so far (1965-66) delivered five aircrafts, three Series I and two Series II to the I.A.F. One more Series II aircraft has been completed and sent to U.K. for installation of the equipment required by I.A.C.

Production of single-seater and double-seater gliders has also been undertaken by the factory. The present order is for 20 single-seater and 85 double-seater gliders. Sixty double-seater and one single-seater gliders have already been completed.

The Aeronautics (India), Ltd., was registered in Delhi in August 1963 to undertake the manufacture, under a licence agreement with the Government of the U.S.S.R., of a modified, single-engined MIG-21 supersonic fighter aircraft, complete in all respects.

The project reports prepared with the help of Soviet specialists have been accepted by the Govt. and work on setting up the factories at Nasik, Hyderabad and Koraput, is in full swing.

To streamline aircraft manufacturing industry in the country, all the existing units have been brought under the unified control of the Aeronautics (India) Ltd.

### BHARAT ELECTRONICS LTD.

(See under article "Government Industrial Undertakings.")

### SHIP-BUILDING AND REPAIRS

The Production Organisation has also under it the Mazagon Dock, Ltd., Bombay,† and the Garden Reach Workshop, Ltd., Calcutta.† While these shipyards continue to carry out refits and repairs of commercial ships, they also do so for naval ships. Their acquisition has greatly facilitated naval ship-building.

A programme, costing about Rs. 3.5 crores, has been approved for expanding the existing facilities at the Mazagon Docks, including the construction of a new building slipway. They have also been entrusted with the building of frigates for the Navy. This is the first step towards the building of modern warships for which they are suitably equipped.

A small repair yard in Goa has been handed over to the Mazagon Docks for re-activation and its permanent acquisition is under consideration.

The Praga Tools Ltd., Secunderabad and the Bharat Earth Movers Ltd., Bangalore, are the other public sector undertakings under the Department of Defence Production in the Ministry of Defence.

### NATIONAL CADET CORPS

The National Cadet Corps came into being in 1948. The aim of the Corps is (1) to develop character, comradeship, ideal of service and capacity for leadership in young men and women, (2) to stimulate interest among youth in the defence of the country, and (3) to build up a reserve of manpower to enable the Armed Forces to expand rapidly in a national emergency. The organisation is, thus, mainly of an educational and nation-building character. Officers and cadets have no liability for active military service.

A certain percentage of the total intake of candidates for commissioned ranks in the Army, Navy and Air Force, on the basis of direct entry to the Armed Forces training institutions, has been reserved for N.C.C. cadets of the three Services.

The N.C.C. consists of three divisions: (1) Junior, (2) Senior and (3) Girls'.

The strength of the Corps as on March 31, 1966, was as follows:—

| Senior Division |           |            |        |          |        | Junior Division |          |            |        |          |        | Girls' Division |        |             |        |
|-----------------|-----------|------------|--------|----------|--------|-----------------|----------|------------|--------|----------|--------|-----------------|--------|-------------|--------|
| Army Wing       |           | Naval Wing |        | Air Wing |        | Army Wing       |          | Naval Wing |        | Air Wing |        | Senior Wing     |        | Junior Wing |        |
| Officers        | Cadets    | Officers   | Cadets | Officers | Cadets | Officers        | Cadets   | Officers   | Cadets | Officers | Cadets | Officers        | Cadets | Officers    | Cadets |
| 5,985           | 10,03,400 | 236        | 11,800 | 114      | 11,400 | 4,502           | 4,34,000 | 487        | 47,000 | 568      | 54,800 | 434             | 78,800 | 768         | 75,300 |

Grand Total—Senior Division—10,32,935, Junior Division—5,41,357, Girls' Division—1,55,302.

The strength of the Corps a year earlier was: Senior Division 9,72,523, Junior Division 2,53,266 and Girls' Division 1,16,098.

† See under article "Government Industrial Undertakings." for more details.

The Senior Division provides Service training to young students and recruitment to it is from amongst students of universities and colleges. It is composed of three wings, viz. Army, Navy and Air. Recruitment to the Junior Division is from amongst students of secondary schools. It is also composed of Army, Navy and Air Wings.

The object of the Girls' Division is to develop all-round personality among girls. This Division has two wings, Senior and Junior, units of the Senior Wing being raised in colleges and universities and those of the Junior Wing in schools.

In order to better fit cadets of the N.C.C. for the officer ranks of the Armed Forces and to increase the cadet intake into the Services, Government decided in 1959 to raise Officer Training Units (O.T.U.) in the Corps all over the country. The overall strength of these training units has been fixed, for the present, at 750, the period of training being spread over three years. Eighty of the vacancies at the Indian Military Academy, Dehra Dun, have been allotted for these cadets for pre-commission training of Army officers.

From the academic session beginning from July 1963, N.C.C. training has been made a compulsory subject in the university curriculum.

In 1964 a uniform course of military training of three years was introduced for all able-bodied male college students.

The N.C.C. Organisation is headed by a Director-General in the rank of a Maj.-Gen. who has his office in New Delhi. There are 16 Directors in various States in the rank of Brigadier or Colonel. The units in each Directorate are organised into groups of ten each under the command of a Lt.-Col. There are 111 such group headquarters. The expenditure on the N.C.C. is shared between the Centre and the State Governments.

The Auxiliary Cadet Corps has been replaced by the National Fitness Corps Scheme.

The Director-General of N.C.C. is Maj.-Gen. Prem Chand.

### TRAINING INSTITUTIONS

The important training institutions common to the three Services are given below:

**National Defence College:** The National Defence College was started in 1960 in New Delhi for the training of senior officers of the three Services on the pattern of the Imperial Defence College in the U.K. Its main purpose is to enable students to study the military, scientific, industrial, social, economic and political factors involved in war as also the higher direction and strategy of warfare. Concurrently with this study, it offers a unique opportunity to senior Service officers and highly-placed civil servants of getting together and exchanging ideas so as to give them both a clearer and better understanding of each other's problems in peace and in war. The training lasts about a year and officers selected for attending the course are ordinarily of the rank of Brigadier in the Army and equivalent ranks and status in the Navy, the Air Force and the civil services, including scientists. Only those in the age-group of 38-45 years who are considered to be potential leaders in their professions are selected for the course.

*Commandant, Air Marshal R. Rajaram.*

**Defence Services Staff College:** The Defence Services Staff College is located in Wellington in the Nilgiri Hills in South India. One hundred officers drawn from all the three Services, including six officers from the U.S.A. and Commonwealth countries, are trained every year. The aim of the course is to prepare officers to hold second-grade or equivalent staff appointments or higher staff or command appointments.

*Commandant, Maj.-Gen. D. Som Dutt.*

**National Defence Academy:** The National Defence Academy at Khadakvasla, near Poona, started functioning in its present location in January 1955. Previously, it had been set up at

Dehra Dun in January 1949 as an experimental measure, with a Joint Services Wing and a Military Wing. On its move to Khadakvasla, the J.S.W. came to be known as N.D.A. At this Academy, Army, Navy and Air Force cadets receive three years' combined basic training. The first two years are devoted to common preliminary training and the third to specialised training in the respective Services. Thereafter, Army cadets join the Indian Military Academy at Dehra Dun for a further one-year course, while Naval and Air Force cadets proceed to their respective Service establishments for advanced training.

*Commandant, Maj.-Gen. Ranbir Bakshi.*

**Rashtriya Indian Military College:** Run on the lines of public schools, the Rashtriya Indian Military College, located in Dehra Dun, brings up future officers of the three Services by imparting preliminary pre-cadet training to such pupils as desire subsequently to choose a military career. It thus serves as a feeder to the National Defence Academy, which provides combined basic training to cadets of all the three Services. Called until recently as Sainik School and previously as Prince of Wales Royal Indian Military College, it was started in 1922 with the primary object of catching would-be officers of the Armed Forces at an impressionable age to be able easily to mould their character. By a carefully-framed compulsory system of P.T., drill, parades and games, students are groomed to attain certain physical standards to fit them for a Service career. Special attention is paid to fostering in them discipline, self-reliance and an aptitude for soldiering. Social training forms an important extra-curricular activity.

*Principal, S. P. Sharma.*

**School of Foreign Languages:** Located in New Delhi, the School of Foreign Languages was started in 1949 to meet the growing demand for qualified linguists. It also conducts examinations in various Indian languages for service personnel.

*Director, P. N. Banerjee.*

**Armed Forces Medical College:** The Armed Forces Medical College is an inter-services post-graduate institution designed to meet the requirements of the integrated medical services of the Army, Navy and Air Force, and is located in Poona. The College has departments of medicine, surgery, pathology, hygiene, radiology, blood transfusion and dentistry. It also now holds an M.B.B.S. course and is affiliated to Poona University.

*Commandant, Maj.-Gen. P. N. Bardhan.*

**King George's Schools:** Located at Bangalore, Ajmer, Chail, Belgaum and Dhoolpur, King George's Schools provide public-school education for the children of serving personnel.

**Sainik Schools:** There are at present 15 Sainik Schools located in the States of Andhra Pradesh, Assam, Bihar, Gujarat, Kerala, Madhya Pradesh, Madras, Maharashtra, Mysore, Orissa, Punjab, Rajasthan, Uttar Pradesh and West Bengal, imparting middle and secondary school public education with a military bias.

### ARMED FORCES MEDICAL SERVICES

The Directorate-General of Armed Forces Medical Services was created in 1948 with a view to integrating the medical services of the Armed Forces.

An officer of the rank of Lieut.-General is the head of this inter-Services organization, who maintains close contact with the three Directors of Medical Services (Army, Navy and Air Force). He is responsible to the Ministry for the over-all medical policy relating to the Armed Forces. The entire organisation relating to medical equipment and stores is directly under him. The Directorate has under it the Armed Forces Medical College and the Artificial Limb Centre now claims to be the fourth largest institution of its kind in the world.

The Centre, which functions under the control of the Director-General of Armed Forces Medical Services, also produces various types of orthopaedic boots and shoes, belts, trusses and spinal braces.

### RESETTLEMENT DIRECTORATE

The Directorate-General of Resettlement in the Defence Ministry deals with matters relating to the rehabilitation of ex-Servicemen in civil life.

In collaboration with other Ministries of the Central Government, the State Governments, the Post-War Reconstruction Fund Trust Committees and other organisations, the Defence Ministry has formulated schemes for resettling ex-Servicemen in Government and private service, land colonies, vocational and technical trades and motor transport services.

In the matter of employment, the Government have accorded preference to ex-Servicemen in filling up appointments in police, excise, watch and ward and other departments for which military training is a qualification.

Through the efforts of the Defence Services Liaison Organization, set-up in May 1956, 727 retired Armed Forces officers were selected for appointment in civil posts under the Central or State Governments and 88 in the private sector up to the end of December 1965.

### SOLDIERS', SAILORS' AND AIRMEN'S BOARD

The Indian Soldiers', Sailors' and Airmen's Board is the most important official institution connected with the welfare of serving personnel of the Armed Forces and ex-Servicemen and their families.

The Board has its seat at New Delhi and co-ordinates the activities of State boards which exist in each State. Under the control of these State boards, there exists throughout the country a network of district boards, reinforced in some cases by tehsil or taluka committees and other kindred bodies. These boards are established in all districts from which recruits have been obtained in sufficient numbers. The President of the District Board is the Collector or the Deputy Commissioner.

The Indian Soldiers', Sailors' and Airmen's Board Fund is now used primarily for payment of special pensions to blinded ex-Servicemen and to meet the expenditure on miscellaneous items, such as bank charges and audit fees in connection with the administration of the fund.

A sum of Rs. 25 lakhs was collected on the 1964 Flag Day.

### GALLANTRY AWARDS

Three gallantry awards were instituted by the President after Independence for gallantry in combat with the enemy. They are designated the Param Vir Chakra, the Maha Vir Chakra and the Vir Chakra. They came into force with effect from August 15, 1947.

The Param Vir Chakra is awarded for most conspicuous bravery, or some daring or pre-eminent act of valour or self-sacrifice whether on land, at sea or in the air. It ranks first among all awards.

The Maha Vir Chakra is awarded for conspicuous acts of gallantry whether on land, at sea or in the air.

The Vir Chakra is awarded for acts of gallantry whether on land, at sea or in the air.

A fourth gallantry decoration, named the Ashoka Chakra, in three grades, viz. Class I, Class II and Class III, was instituted for acts of gallantry other than in the face of the enemy. This also came into force with effect from August 15, 1947.

Class I of the Chakra is awarded for most conspicuous bravery, or some daring or pre-eminent act of valour or self-sacrifice. Class II of the Chakra is awarded for conspicuous gallantry and Class III for gallantry.

If a recipient of any of these Chakras again performs such an act of bravery as would have made him or her eligible to receive the same decoration, such further act of bravery is recognised by the award of a Bar attached to the ribbon by which the Chakra is suspended, and for every such additional act of bravery, an

additional Bar is added, and any such Bar or Bars is/are also awarded posthumously. For every Bar awarded a replica in miniature of the Chakra concerned, and in the case of the Param Vir Chakra of the "Indra's Vajra", is added to the riband when worn alone.

Every recipient of any of these decorations who is junior in rank to a 2nd Lieutenant in the Army, a Sub-Lieutenant in the Navy, or a Pilot Officer in the Air Force, is entitled, from the date of the act by which the decoration has been gained, to a special pension, and each additional Bar conferred carries with it an additional pension for life.

A system of Mention-in-Despatches was also instituted. A 'lotus leaf' emblem is worn by the awardees on the ribbon of the campaign/war medal concerned.

### NEW SERVICE MEDALS

On the occasion of 1960 Republic Day, the Government of India instituted six awards for the Armed Forces—Vishisht Seva (Distinguished Service) Medal, Sainya Seva (Services) Medal, Videsh Seva (Overseas) Medal, Sena (Army) Medal, Nao Sena (Navy) Medal and Vayu Sena (Air Force) Medal.

The Vishisht Seva Medal is awarded to personnel of all the three Services in Classes I, II and III in recognition of distinguished service of the "most exceptional", an "exceptional" and a "high" order respectively. Sainya Seva Medal to all Service personnel in recognition of non-operational duties under conditions of hardship and severe climate, and the Videsh Seva Medal to all ranks of the Armed Forces for duties outside India. The Army, Navy and Air Force medals are awarded in recognition of such individual acts of exceptional devotion to duty or courage as have special significance for the Service concerned.

### INDIAN ARMY

**Army HQ:** The Head of the organisation located in New Delhi, is the Chief of the Army Staff. He is assisted by the Vice-Chief of the Army Staff and four other Principal Staff Officers (the Deputy Chief of the Army Staff, the Adjutant General, the Quartermaster General, the Master General of the Ordnance) and two Heads of Branches (the Military Secretary and the Engineer-in-Chief). The functions of the Branches are indicated below:—

(i) The General Staff Branch—(i) organisation and employment of the Army, Military operations, intelligence, training combat-development, military survey including maintenance and supply of maps and plans and engineer staff matters which are dealt with by VCOAS and (ii) staff duties, selection and scale of weapons and equipment, co-ordination of policy regarding equipment including provisioning, Armoured Corps, Artillery, Signals, Infantry, Territorial Army and Defence Security Corps which are dealt with by DCOAS.

(ii) The Adjutant General's Branch deals with manpower, recruitment, leave, pay and allowances and pensions and other conditions of service, and discipline. It also deals with welfare and health of personnel and military law.

(iii) The Quartermaster General's Branch deals with movement of personnel, Stores and equipment; provision, storage, inspection and issue of fuel, food-stuffs and forage; military farms, remount and veterinary services, Army Postal, pioneer and canteen services, works policy; fire fighting services and technical examination of MES works bills.

(iv) The Master General of the Ordnance Branch deals with all aspects of procurement policy, provision, storage, recovery, repair, maintenance and issue of all stores and equipment of Ordnance Supply including M.T. vehicles, weapons and ammunition, signal equipment, general stores and clothing as well as supply of common-user items to the Navy and the Air Force.

(v) The Military Secretary's Branch deals with the issue of commissions in the Army, postings, transfers, promotions, releases, retirement, resignation, invalidment and transfer to the Reserve of all non-medical officers of the Army; maintenance of confidential reports and personal records of all non-medical officers of the Army; providing the secretariat for Selection Boards which recommend officers for promotion to the rank of Lt.-Colonel and above; recommendations for grant of honours and awards to Army officers and Honorary Commissions in the Army to civilians.

(vi) The Engineer-in-Chief's Branch deals with all matters relating to Engineering units and Engineer stores; administration of personnel of the Corps of Engineers and the MRS; design, construction and maintenance of all accommodation and works for the Defence Services.

Under the Army H.Q., the Indian Army is organised into four Commands—Eastern, Western, Southern and Central, each being under a General Officer Commanding-in-Chief of the rank of Lieutenant-General. The Commands are divided into Areas, each under the command of a G.O.C. of the rank of Major-General. The Areas, in their turn, are sub-divided into Sub-Areas each under the command of a Brigadier.

The organisation of Commanders remains broadly the same except that in 1965 Delhi was carved out of the old Delhi and Rajasthan area, Rajasthan being placed under a separate G.O.C.

Mobile formations are the Corps, Divisions, Brigade group, Independent Brigade and Brigades. Two or more Divisions or a combination of Divisions, Brigade Groups and Independent Brigades are constituted into a Corps under a Corps Commander of the rank of Lt. General, who functions under the control of the Army Commander.

### EXPANSION PROGRAMME

The Chinese aggression brought out several shortcomings and underlined the need of strengthening the Army in many ways. A Directorate of Combat Development was set up in the General Staff Branch to formulate tactical concepts. The Weapons and Equipment Directorate under the Master-General of the Ordnance was taken over as a direct responsibility of the General Staff Branch, while the Directorate of Military Intelligence was strengthened. A Recruiting Directorate was established in the Adjutant-General's Branch. A new organisation was also formed under the Master-General of the Ordnance for the procurement of equipment and stores from foreign countries.

Soon after the beginning of the emergency, six new divisions were sanctioned, and of these four were raised as mountain divisions and the remaining two as standard Infantry divisions. One of the existing Infantry divisions was reorganised as a mountain division, thus bringing the number of mountain divisions to five. Two scout battalions are also being raised, one for the Punjab-Himachal Pradesh and the other for Uttar Pradesh borders with Tibet. These battalions, drawn from the hilltribes of these areas, will perform a role similar to that assigned to the Assam Rifles in N.E.F.A.

The experience gained during the Indo-Pakistan fighting is being studied and suitable measures are being formulated and implemented to improve the state of fitness of our defence Forces.

The Army consists of a number of arms and services. They are Infantry, Armoured Corps, Regiment of Artillery, Corps of Engineers, Corps of Signals, Army Service Corps, Army Ordnance Corps, Army Medical Corps, Army Dental Corps, Corps of Electrical and Mechanical Engineers, Army Education Corps, Remounts, Veterinary and Farms Corps, Corps of Military Police and Defence Security Corps.

### TERRITORIAL ARMY

The Territorial Army was formed in India and started functioning in October 1949 to serve as a second line of defence.

The Territorial Army consists of various arms and service, i.e., the Regiment of Artillery, including anti-aircraft and coastal defence units, the Corps of Engineers, including port and railway units, the Corps of Signals, including P. and T. units, Infantry, the Medical Corps and the Corps of Electrical and Mechanical Engineers. The units raised are of two types, i.e. provincial units recruited from rural areas which undergo annual training of two to three months' duration at a stretch, and urban units recruited from large towns where Territorial Army units have been raised. They undergo training on the weekly drill system, i.e. in the evenings, Sundays and holidays with a short camp of not less than four consecutive days.

All able-bodied persons, from unskilled labourers to highly qualified technicians, provided they are citizens of India, are eligible for recruitment. The age-limits are 18 and 35 years, relaxable in the case of ex-Servants (Army, Navy and Air Force) personnel and civilians possessing technical qualifications. Government servants and employees of private concerns are also eligible to join the Territorial Army.

The role of the Territorial Army is to

- (i) relieve the Regular Army of static duties and support civil power if required.
- (ii) provide coastal defence and anti-aircraft units,
- (iii) provide units for the Regular Army if and when required.

When embodied, called out or under training, Territorial Army personnel receive the same pay and allowances as are admissible to the corresponding ranks of the Regular Army. It is obligatory for every civilian employer to reinstate a member of the Territorial Army in his civilian post on termination of his military training.

In order to provide an incentive to Territorial Army personnel for hard and meritorious work, 2½ per cent of the actual vacancies available at the Indian Military Academy are reserved for such personnel. On successful completion of the course at the Academy, they are granted regular commissions in the Army.

No officer or enrolled person is required to perform military service beyond the limits of India, save under a general or special order of the Central Government.

The Territorial Army is an auxiliary force to the regular Army and is the second line of Defence. This force consists of citizens who follow their normal avocations and receive military training in their spare time, and undergo active military service when embodied. The present authorised strength of the Territorial Army is 51,416. The actual strength is 48,213.

When Territorial Army units are embodied, the personnel of the units are assigned duties as in the regular Army.

During 1965, 65 persons were granted Officers' Commissions and 58 persons Junior Officers' Commissions in the Territorial Army. A revised policy for administering, training, etc. of Territorial Army units is under consideration. During 1965, various benefits enjoyed by the regular Army personnel were extended to the Territorial Army personnel.

Territorial Army officers have been made eligible for promotion to the acting rank of Brigadier, against a specific vacancy, on completion of 20 years of service.

Civil Government servants embodied for service in the Territorial Army are allowed to retain their civil family accommodation for two months from the date of their joining military duty if they are posted to a non-commissioned area, or until their transfer to a peace station if they are required to serve in a commissioned area.

It has been agreed by the Director of Employment Exchange, Ministry of Labour, that Territorial Army personnel embodied for service during the present Emergency would be treated as "Discharged Government Employees" and

accorded "Priority III" by Employment Exchanges for the purpose of civil employment provided they are employed on a whole-time basis against regular establishment for a period of six months or more.

### TRAINING INSTITUTIONS

Recruitment for the permanent cadre of commissioned ranks in the Army is done through the National Defence Academy, Khadakvasla, and the Indian Military Academy, Dehra Dun. After completion of their three-year course at the N.D.A., Army cadets have to spend another one year at the Military Academy before being commissioned. Direct admission to the Academy at higher age-levels also continues, though the number of cadets so taken is limited.

The Military Academy at present conducts courses for ex-N.D.A., direct-entry, T.A. and N.C.O. cadets, serving personnel, and technical graduates. Regular and direct-entry cadets commissioned in the technical branches are sent on specialised post-commission courses. The technical graduates' course was specially introduced in January 1948 as a temporary measure to give military training to qualified technicians and engineers for the Corps of Engineers, the Corps of Signals and the Corps of Electrical and Mechanical Engineers to cope with the increased requirements of technicians for the Army.

There is an Officers' Training School at Madras to train emergency commission candidates for the Army. The school is now designed to run courses for short service regular commissions.

The Armoured Corps Centre and School at Ahmednagar trains recruits as well as regimental instructors. The School of Artillery at Deolali provides training in the field, anti-tank, anti-aircraft and coastal artillery branches. The Army Ordnance School at Jabalpur imparts specialised training to all officers and ORs in identification, handling and storage of various types of items, including ammunition and explosives. Training for other ranks of the Army Ordnance Corps is also given at the AOC Centre, Secunderabad.

The Infantry School at Mhow is the home of infantry doctrines and a centre for developing infantry weapons. The School also conducts courses for senior officers and junior commanders of all corps in the Army. The Army Service Corps has two schools, one at Meerut and the other at Bangalore, giving training in organisation and administration, animal transport, mechanical transport and supplies. The Army Medical Corps has its training centres at Lucknow and Hyderabad.

The College of Military Engineering at Kirkee, near Poona, trains officers of the Corps of Engineers, the Corps of Signals and the Corps of Electrical and Mechanical Engineers to the degree standard in civil, tele-communication and electrical and mechanical engineering respectively.

The Madras, Bombay and Bengal Engineer Groups at Bangalore, Poona and Roorkee provide basic technical and specialised Corps training to officers and ORs of the Corps of Engineers as also civilian officers of the Military Engineering Service.

The Corps of Electrical and Mechanical Engineers has its training centres at Secunderabad and Bhopal, while the School of Signals, which gives technical training in tele-communication engineering to personnel of the Corps of Signals, is situated at Mhow. The Army Signals School, which trains officers and ORs of all arms as instructors in regimental signals, is located at Jabalpur.

The other training institutions in the Army are the Remounts, Veterinary and Farms Centre and School at Meerut, the Education Corps School and the Military School of Music at Pachmarhi, and the Intelligence Corps School and the Physical Training School at Poona.

The various ranks in the Army from the top downwards are: General, Lieutenant-General,

Major-General, Brigadier, Colonel, Lieutenant-Colonel, Major, Captain, Lieutenant, Second Lieutenant, Subedar-Major/Risaldar-Major, Subedar/Risaldar, Naib Subedar/Dafadar, Havildar, Naik, Lance-Naik and Sepoy/Sowar.

### INDIAN NAVY

The Indian Navy is controlled both administratively and operationally from Naval HQ in New Delhi through a chain of commands. Under the Chief of the Naval Staff are various authorities, ashore and afloat, who are directly responsible to him for the day-to-day administration of the Service.

At the Naval HQ, the Chief of the Naval Staff is assisted in his task by four Principal Staff Officers, namely the Deputy Chief of the Naval Staff, the Chief of Personnel, the Chief of Material and the Chief of the Naval Aviation.

The Deputy Chief is responsible for naval operations, policy and tactics, planning, intelligence, civil engineering and communications, as also overall co-ordination of staff. The Chief of Personnel looks after recruitment, service conditions, education and training, medical services, welfare and discipline of personnel, supply and victualling. The Chief of Material is concerned with fleet maintenance, weapons and equipment, marine engineering, naval construction, electrical engineering, armament supply and inspection and naval stores. The Chief of Naval Aviation deals with all questions relating to development of the naval air service.

The Naval Secretary, who functions also as the Secretary to the Chief of the Naval Staff, is responsible for the administration of the civilian staff of Naval Headquarters, secretarial procedures, naval budget and parliamentary questions.

The Naval HQ exercises control over the Navy through the following four commands:

1. Flag Officer Commanding, Indian Fleet.
2. Flag Officer, Bombay.
3. Commodore-in-Charge, Cochin.
4. Commodore, East Coast, Vishakapatnam.

Today, the Indian Fleet consists of I.N.S. VIKRANT (Flagship of the Navy), an aircraft-carrier, I.N.S. MYSORE, a Colony-class cruiser, I.N.S. DELHI, a Leander-class cruiser, two Destroyer Squadrons (I.N.S. RANJIT, RAJPUT, RANA, GODAVARI, GOMATI and GANGA) and a number of Frigate Squadrons, including some of the latest types of anti-submarine and anti-aircraft frigates. These new types of frigates, specially constructed for the Navy in the U.K. are I.N.S. BRAHMAPUTRA, BEAS, BETWA, KHUKRI, KIRPAN, KUTHAR, TALWAR, and TRISHUL. The former frigates are I.N.S. CAUVERY, KISTNA, AND TIR, which are now being used for cadets' training. The three Mine-sweeping Squadrons are formed by I.N.S. KONKAN, KARWAR, KAKINADA, CANNANORE, CUDDALORE, BASSEIN and BIMPATAM.

In addition, the Fleet has some survey ships, a tanker and some auxiliary craft. The survey unit of the Navy, which now comprises I.N.S. INVESTIGATOR, JUMNA, SUTLEJ and DARSHAK, carries out the necessary survey of India's coast and approaches to harbours. I.N.S. DARSHAK of 2,750 tons displacement is the first naval ship built in India.

With a beginning having already been made to build certain smaller types of naval craft in India, plans are now afoot to construct major warships, like destroyers and frigates, in the country's shipyards. The naval craft which have already been completed include the seaward defence boats—I.N.S. AJAY, ABHAY and AKSHAY, and more are now under construction. A mooring vessel I.N.S. DHURVAK has already been launched at the Hindustan Shipyard Ltd., Visakhapatnam.

The Dockyard is now equipped with a foundry, boiler, engine and ship-fitting shops, electronic and radar workshops, blacksmith, plater, joiner and carpentry shops, sail-making lofts, machine-shops, and gun-mounting and torpedo workshops. Its main function is to carry out all

types of major refits of ships of the Navy and the associated harbour craft services. To meet the demands of the growing Service, this Dockyard is being rapidly expanded.

A newly-constructed cruiser-graving dock at this Dockyard, which can also accommodate the Navy's aircraft-carrier, was commissioned for service in January 1962.

A Resident Naval Officers' Organisation has been set up at Port Blair with the necessary transport and communication facilities. Appropriately named I.N.S. JARAWA, after an ancient tribe of the Andaman and Nicobar Islands, the new establishment was commissioned on February 15, 1964. A naval garrison, with facilities for moving to the various islands on patrol, has also been stationed in the Andamans and Nicobars.

It is proposed to develop a naval base and dockyard at Visakhapatnam for which an area of about 550 acres of land is being acquired from the Port authorities. It has also been decided to develop Mormugao as a naval base; it was formally commissioned in March 1964 as I.N.S. GOMANTAK. The base includes INS HANSA the Naval Air Station at Dabolim, where facilities for the operation of jet aircraft are being developed.

All the Coast Batteries in the country hitherto run by the Army, have recently been taken over by the Navy. The Naval Coast Battery in Colaba, Bombay, has been commissioned as INS TRATA.

### NAVAL AVIATION

The Naval Air Arm, which is one of the youngest branches of the Navy, came into being in 1948 for training aircrew, followed soon after by the setting up of a Naval Air Station at Cochin. Later, the formation of a Fleet Requirements Unit was approved, aircraft, equipment and spares acquired and officers and ratings deputed for training courses abroad. The civil airfield at Cochin was acquired for the Navy in 1953 to be converted into the first Naval Air Station. Soon after, the first batch of Sealant aircraft were purchased from the U.K. and later the station was named I.N.S. GARUDA. Early in 1955, a number of Firefly target-towing aircraft were obtained from the U.K. for providing gunnery-training facilities for the Fleet. The strength of the Fleet Requirements Unit was further augmented when HT-2 aircraft were acquired from the H.A.L. to give instructional training to aircrew and other personnel. A jet flight has been added to the Fleet Air Arm with a number of Vampire jet aircraft, and forms a separate Naval Aviation Establishment, named I.N.S. HANSA.

The first aircraft-carrier, I.N.S. VIKRANT, acquired by the Indian Navy was commissioned at Belfast on March 4, 1961, in the United Kingdom. Formerly known as H.M.S. HERCULES, this light fleet aircraft-carrier, which has a displacement of 20,000 tons (full load), was acquired for the Navy in 1957. The carrier has a complement, including her flying personnel, of over 1,300 officers and sailors. The carrier arrived in India in November 1961 and a number of Sea-Hawks and Breguet-Alize aircraft have since been acquired for it. A Naval Air Training School has been set up at Cochin to train ratings in the maintenance and repair of aircraft. At the same time, the Government are considering setting up a School for Naval Airmen for training non-technical personnel.

To meet the meteorological needs of the Fleet Requirements Unit, a Naval Weather Service Organisation, manned by trained instructor officers, was established at I.N.S. GARUDA towards the end of 1952. Since then, more and more instructor officers have been trained to take over meteorological duties, both ashore and aboard ships. This organisation now also conducts courses of instruction in meteorology for naval ratings.

### TRAINING ESTABLISHMENTS

The training of other naval personnel is carried out in the shore establishments of I.N.S.

**VENDURUTHY**, Cochin, I.N.S. **CIRCARS**, Visakhapatnam, I.N.S. **ANGRE**, Bombay, I.N.S. **KUNJALI**, Bombay, I.N.S. **SHIVAJI**, Lonavla, I.N.S. **VALSURA**, Jamnagar, and I.N.S. **HAMLA**, Bombay. I.N.H.S. **ASVINI** at Bombay, I.N.H.S. **SANJIVANI** at Cochin, I.N.H.S. **KALYANI** at Vishakhapatnam and the recently commissioned I.N.H.S. **JEEVANTI** at Goa are the four naval hospitals.

The various ranks in the Navy from the top downwards are: Admiral, Vice-Admiral, Rear-Admiral, Commodore, Captain, Commander, Lieut.-Commander, Lieutenant, Sub-Lieutenant, Midshipman, Chief Petty Officer, Petty Officer, Leading Rate, Able Rate and Ordinary Rate.

### INDIAN AIR FORCE

The Air HQ is divided into three main branches—Air Branch, which deals with operations, training, policy and plans, signals, reserves and intelligence, Administration Branch and Maintenance Branch. Each is under a Branch P.S.O. who, in turn, has several Directorates under him.

There are three Operational Commands of the Air Force with headquarters at Palam, Allahabad and Shillong, respectively known as Western, Central and Eastern Air Commands. The Maintenance Command has moved from Kanpur to Nagpur, while the Training Command remains located at Bangalore.

The Operational Commands control all flying units—fighter, bomber, reconnaissance and air-transport squadrons. The Training Command has under its control training schools and colleges for both officers and airmen for technical and non-technical ground training and for aircrew flying training. The Maintenance Command controls all technical and equipment units in the Air Force. All the five Commands are headed by Air Officers Commanding-in-Chief in the rank of Air Vice-Marshal.

A build-up of the Air Force is being planned in keeping with its role to give support to ground forces and provide protection to vital establishments. Some mobile radar sets have been given by the U.S. to provide limited training to Air Force personnel. The U.K. Government has provided electronic and communication equipment and the Canadian Government has supplied a number of transport aircraft. The U.S.S.R. Government has supplied several aircraft and helicopters and other air defence equipment and given training facilities for Air Force personnel.

The fleet of transport aircraft was substantially increased during 1963-64. A number of heavy transport AN-12 planes were purchased from the U.S.S.R. under deferred payment terms. Sixteen Caribou medium transport planes were contracted for purchase from Canada under a loan given by the Canadian Government, and have already arrived in India. In addition, Canada gave a gift of eight Dakota aircraft.

The U.S.A. supplied, under its military assistance programme, 24 Fairchild-Packet aircraft in addition to two Caribous supplied earlier. The U.S.S.R. supplied some Mi-4 helicopters under deferred payment terms. A contract was signed for the purchase of some Alouette helicopters from France.

The different types of aircraft used by the Air Force are:

**Training:** HT-2, Harvard, Vampire and Dakota.

**Fighter:** Vampire, Toofani (Ouragon), Mystere, Hunter, Gnat and MIG-21.

**Transport:** Dakota, Devon, Fairchild-Packet, Otter, Viscount-Ilyushin, 14, Caribou, AN-12, Super Constellations and M1-4, Bell and Alouette-2 Helicopters.

**Bomber:** Canberra.

**Reconnaissance:** Liberator and Canberra.

### TRAINING ESTABLISHMENTS

The Air Force Flying College at Jodhpur is the nursery of pilots, navigators and air-signallers. Advance flying training to aircrew is provided at Hyderabad, a Jet Training Wing and a Transport Training Wing having been set up at Hakimpet and Begumpet respectively as part of the Air Force Station. On successful completion of their one-year training at Jodhpur, pupil aircrew have to undergo a year's training at Hakimpet or Begumpet before being awarded their wings and commissioned.

The Air Force Administrative College at Coimbatore trains officers of the ground duty branches. The Air Force Technical College at Jalahalli, near Bangalore, imparts training to engineering officers and technical airmen of certain advanced signals trades. The No. 1 Ground Training School at Jalahalli trains non-technical airmen. The No. 2 Ground Training School at Tambaram (Madras) trains technical tradesmen (airmen). The No. 3 Ground Training School at Jalahalli is intended for airmen trainees of higher signals trades.

A School of Land/Air Warfare has been set up at Secunderabad to train Army and Air Force officers in the doctrine and planning of joint operations by air and ground forces, namely close air support, air transport support and air defence. The School has been organised into three wings corresponding to these distinct categories. Likewise, instructional staff of the institution is drawn from the two Services.

The School of Aviation Medicine, set up in Bangalore in 1957, runs courses for the training of medical officers and airmen in the science of aviation medicine. It has also undertaken research in this somewhat new, though extremely fascinating, field and has already established itself as an essential link in the training and research organisation of the Air Force. Aviation medicine seeks to help in the selection of aircrew and in investigating and solving problems

associated with military aviation in general and high-speed, high-altitude jet and space flight in particular.

The I.A.F. Paratroopers' Training School at Agra, started in 1949, continues to train paratroopers for the Army, personnel for the I.A.F. Para-Medical Flights and instructors for the School itself.

### EMERGENCY MEASURES

Since the emergency, a scheme for the induction and initial training of pilots at an accelerated pace at Air Force training establishments was taken up. An Initial Training Wing was started at the Air Force Administrative College, and two new institutions were opened, one for training cadets in the flying of jet planes and the other for training in the flying of transport planes. In addition, five flying clubs have helped in the training programme by imparting elementary stage flying training.

A joint training exercise, known as 'Exercise Shiksha', with the Air Forces of U.S.A., the U.K., and Australia was held in November 1963. About 4,000 Indian officers and airmen participated in it along with about 750 personnel of the U.S.A., U.K. and Australian Air Forces. Apart from giving an opportunity for assimilation of the use of modern radar equipment under operational conditions, the exercise enabled Indian squadrons to practise alongside fighter aircraft of the three countries, and Indian personnel thus gained valuable experience in the latest techniques of air defence.

Now armed with the latest jet trans-sonic aircraft, the Air Force has made rapid headway in the sphere of technical development. It comprises a network of repair units backed by a chain of equipment and storage depots.

### AUXILIARY AIR FORCE

In pursuance of the Reserve and Auxiliary Air Forces Act of 1952, seven Auxiliary Air Force Squadrons have so far been raised at Delhi, Bombay, Calcutta, Allahabad, Madras, Bhubaneswar and Chandigarh. Similar auxiliary squadrons will be formed in other principal cities of India.

The A.A.F. is intended to assist the Regular Air Force in aerial defence and to provide air support to the Regular Army and the T.A. in an emergency. It provides part-time Air Force training to citizens and does not interfere with their normal vocational pursuits in civil life.

The various ranks in the Air Force from the top downwards are: Air Chief Marshal, Air Marshal, Air Vice-Marshal, Air Commodore, Group Captain, Wing Commander, Squadron Leader, Flight Lieutenant, Flying Officer, Pilot Officer, Master Warrant Officer, Warrant Officer, Flight Sergeant, Sergeant, Corporal, Leading Aircraftsman, Aircraftsman Class I and Aircraftsman Class II.

## INSTITUTIONS FOR THE BLIND IN INDIA

**Andhra Pradesh:** Government School for the Blind, Cuddapah; Lutheran School for the Blind, Guntur District; Government School for the Blind, Malakpet, Hyderabad; Disabled Children's School for the Blind, Amravati Road, Guntur; School for the Blind, Kottagudan; National Association for the Blind, Andhra Pradesh Branch; Andhra's Blind Model School, Rest House Road, Bhimavaram, West Guntur District; Indian Conference of Social Work Building, Red Hills, Hyderabad.

**Assam:** Blind School attached to the Sreemantha Shankar Mission, P. O. Nowgong, New Gond District.

**Bihar:** Home for the Homeless, Muzaffarpur; Maharani Adhirani Kameshwari Priya Andh Vidyalaya, Darbhanga; Netraheen Chhatra Vidyalaya, Mundichak, Bhagalpur; S.P.G.

Mission Blind School, Ranchi; Patna Blind School, P.O. Kadam Kuan, Patna; Blind Relief Society, Dhanbad; Netrabihin Kalyan Sangh and Nissahaya Balak Grih, Dayalniwas, Sinha Library Road, Patna.

**Delhi:** Blind Relief Association, Room No. 37, Theatre Communications Building, Connaught Circus, New Delhi; Blind Social Welfare Society, 96, Panchkuin Road, New Delhi; Institution for the Blind, Panchkuin Road, New Delhi; Rashtriya Virja Nand Andh Kanya Vidyalaya, New Rajinder Nagar, Shankar Road, New Delhi; National Society for the Prevention of Blindness, 11/B, Gangaram Hospital Marg, New Delhi 5.

**Gujarat:** Andh Kanya Prakash Grih (Light House for Blind Girls), Narayanapura, Ellis Bridge, Ahmedabad; Andh Mahila Vikash Grih, Gondal Road, Near Swami Narayan Gurukul,

Rajkot; Blindmen's Association Maganbha Kendra, Kameswari Poll, Ahmedabad; Krishnakumarsinhji School & Home for the Blind, Bhavnagar, Kathiawar; School for the Blind, Ellis Bridge, Ahmedabad; Govt. Blind School, Baroda; School for the Blind, Visavadar, Saurashtra; The Tata Agricultural & Rural Training Centre for the Blind, Phansa; Government School for Deaf, Mutes and Blind, Maliya Bhavan, Rajkot; The Kalpana Nursery School and Home for Deaf, Dumb and Blind Children, C/o. School for Deaf Mutes and the Blind, Navrangpura, Ahmedabad; Adult Training Centre for the Blind, Navrangpura, Ahmedabad; A. M. Andh-janshala, Race Course, Athwa Lines, Surat; The Baroda Association for the Blind, Mahajan Lane Raopura, Baroda; Dohad Andh Jan's Vidyalaya, Dohad; Meghji Pethraji Blind School, Junagadh; National Association for the Blind

(Gujarat State Branch), C/o Adult Training Centre for the Blind, Behind University Professors' Quarters, University Campus, Navrangpura, Ahmedabad 9; Shikshan Samiti, Bodehdy, P.O. Kinwat, Nadiad District; Shri Andh Sarvodaya Mandal, Gondal Road, Near Swaminarayan Gurukul, Rajkot; Shri Bharatiya Pragna Chakshu Gurukul, Porbunder.

**Jammu-Kashmir:** Residential School for the Blind, Ved Mandir, Jammu; Shri Abedananda Home for the Blind, Srinagar, Kashmir.

**Kerala:** Kerala Blind Welfare Association, Mankadapallipuram, Malappuram; School for the Blind, Kunnamkulam, Talapally, Trichur Dt.; School for the Blind, Deaf & Dumb, Trivandrum; Rotary School for the Blind, Alwaye; School for the Blind, Olessa, Kottayam; National Association for the Blind (Kerala State Branch), C/o Government Ophthalmic Hospital, Trivandrum 1.

**Madhya Pradesh:** Madhya Pradesh Welfare Association for the Blind, 83, Bozanket Market, Pandey's Building, Indore; Shri Madhav Andh Ashram, Nai Sarak, Laskar, Gwalior; School for the Blind attached to the Christian Hospital & Dispensaries, Mungeli, Bilaspur Dt.; Deaf, Dumb & Blind Vidhyalaya, Indore; Government Blind and Deaf School, Bhopal; Child Guidance Clinic & Handicapped Children's Colony, 102, Cherital, Jabalpur.

**Madras:** Blind Relief Association, 17, Gang Shala, Pondicherry; Blind Relief Association, 48, Thennamaram Street, Vellore; Government School for the Blind, Poonamallee; Government School for the Blind, Shivpet, Salem; Madras Christian College (Students Service for the Blind); Tambaram, Chingleput Dt.; School for the Blind & Deaf, Cathedral Post, Madras 6; School for the Blind, Palayamkottai, Tirunelveli 2; School for the Blind, Swedish Mission Hospital, Tirupattur, Ramanathapuram Dt.; School for the Blind, Sir T. Desikachariar Building, Puttur, Tiruchirappalli; TELC Home & School for the Blind, Moses Gnanabaraam Eye Hospital, Coimbatore-1; National Academy of Teacher of the Blind, C/o School for the Blind, Palayamkottai, Tirunelveli 2; National Association for the Blind, (Madras State Branch), 27/1-A, Mount Road, Saidapeth, Madras 15; St. Louis Institute for the Deaf and Blind, Madras 20.

Institute for the Blind, Ambala Cantt.; Soorma Singh Ashram, Amritsar; Training Centre for the Adult Blind, Sonapat; Home for the Blind, Hissar, Punjab; Central Khalsa Orphanage and Surma Singh Ashram, G. T. Road, Punjab.

**Rajasthan:** Government School for the Blind, Adarshnagar, Ajmer; Seth Anandilal Poddar Institute for the Deaf, Dumb & Blind, Jaipur; Education Department, Government of Rajasthan, Bikaner; School for the Blind, Bikaner.

**Uttar Pradesh:** Ahmedi School for the Blind, Civil Lines, Aligarh; Central Braille Press, Rajpur Road, Dehra Dun; Kashi Seva Samiti, Varanasi; Model School for Blind Children, Rajpur Road, Dehra Dun; School for the Blind (Andh Vidyalaya), 110/26, Nehru Nagar, Kanpur; School for the Blind attached to the Eye Hospital, Sitapur; Sharp Memorial School for the Blind, Rajpur Road, Dehra Dun; Training Centre for Adult Blind, Rajpur Road, Dehra Dun; Kunwarlal Singh Industrial School for the Blind, Kutcheri Road, Manipuri; Government School for the Blind, Lucknow; Allahabad School & Home for the Blind, P.O. Naini, Allahabad; Madrasa Nabeena, Nageena, Bijnor; Government School, Gorakhpur; Blind Association, 9-C, Civil Lines, Gorakhpur; Blind School, Bhadaini, Varanasi.

**West Bengal:** Blind Persons' Association, 174, Shyam Prasad Mookerjee Road, Calcutta 26; Kalimpong Home for the Blind, Kalimpong, Darjeeling District; Light House for the Blind, 174, Shyam Prasad Mookerjee Road, Calcutta 26; Ramkrishna Mission Ashram, P.O. Narendrapur, Dist. 24 Parganas; Calcutta Blind School, P.O. Behala, Calcutta-23; Association for the Prevention of Blindness, 94, Chittaranjan Avenue, Calcutta; The National Association for the Blind, 18, Netaji Subash Road, Calcutta-1.

## POSTS AND TELEGRAPHS

THE Indian Posts and Telegraphs Department comes under the administrative control of the Government of India, in the Department of Communications. The Secretary of the Department holds charge of the office of the Director-General, Posts and Telegraphs as also that of the Chairman of the Posts and Telegraphs Board. The Posts and Telegraphs Board and the Director-General, Posts and Telegraphs between them exercise all the powers of the Department of Posts and Telegraphs in administrative matters. The Department discharges also certain agency functions like the work of Post Office Savings Bank, issuing National Savings Certificates and Postal Life Insurance Policies, collection of Broadcasting Receiver Licence and antipiracy work on behalf of other Departments of the Government.

The six members of the Posts and Telegraphs Board, who are ex-officio Joint Secretaries to the Government of India, are in charge of Posts, Telecommunications Development, Banking and Insurance, Telecommunications operations, Administration and Finance.

For purposes of administration the whole country has been divided into a number of territorial and functional units. The major units are under the charge of officers in the senior administrative grade and (the minor units) under officers of junior administrative grade. There are at present 14 territorial units called P. & T. circles viz., Andhra, Assam, Bihar, Gujarat, Kerala, Madhya Pradesh, Madras, Maharashtra, Mysore, Orissa, Punjab, Rajasthan,

U.P. and West Bengal, five functional telephone units at Bombay, Bangalore, Calcutta, Hyderabad and Madras, two Telecommunication Units viz. Delhi, Jammu & Kashmir and one postal functional unit, viz. Delhi.

In addition to these, administrative units on an All-India functional basis have also been set up viz. Additional Chief Engineer, P. & T., Jabalpur; Director, Training Centre, Jabalpur; General Manager, P. & T. Workshops, Calcutta; General Manager, Electrification Circle, Calcutta; Chief Controller of Telegraph Stores, Calcutta; Deputy Director of Postal Life Insurance, Calcutta; Superintendent of Forms and Seals, Aligarh; Posts & Telegraphs Training Centre, Saharanpur. Besides, there are other regional administrative units viz. Regional Directors Telecommunications, Bombay, Madras, Calcutta; Regional Directors, R.M.S./Bombay/Madras/Lucknow, Postal Stores Depots at Calcutta/Nasik and the Postal Training Centres, Baroda and Mysore.

### Budget Estimates (1966-67).

The revised estimates for 1965-66: revenue receipts: Rs. 137.61 crores; working expenses (net): Rs. 131.41 crores; dividend to general revenues from current receipts: 6.20 crores.

1966-67 Budget: revenue receipts: 165.14 crores; working expenses (net): Rs. 145.88 crores; dividend to general revenues: Rs. 15.23 crores.

On 1st April 1965 the total capital outlay of the department stood at Rs. 243.42 crores. At the end of 1965-66 and ensuing years it was expected to be at Rs. 275.19 crores and Rs. 300.84 crores respectively.

**Staff:** 475,179 (including 176,616 extra departmental employees) and 2,686 gazetted officers (as on March 31, 1965).

**Traffic Statistics:** (1965-66 estimates): (Figures are in millions): Postal articles 6,274; Registered articles 159.1; Money orders 97.7; Savings Bank transactions 47.3; Telegrams 41.8; Trunk Calls 80.9; Value of money orders issued (in crores of rupees) 486.1; Telephones (in thousands) 871.

The no. of complaints received during 1965-66 was 723,812 and those finally disposed of were 724,116. This works out to 0.0115 per cent of the total traffic (about 6,274 millions) against 0.118 per cent in 1964.

The procedure for the licensing of Broadcast Receiver Sets has been radically revised effective from Nov. 1, 1965. The old licence in sheet form has been dispensed with.

According to the new scheme a separate licence has to be taken for every radio set without any concession for the second and subsequent sets. Issues of licences in the form of a small book which will last for the year of issue and five renewals. Renewals can be made either yearly or upto five years. A concession of Rs. 9 for renewals for five years and Rs. 3 for renewal

for 3 years respectively is allowed. Free transfer of registration will be allowed on application either at the old post office or at the office to which transfer is sought.

### POSTS

The opening of post offices in rural areas continued to be governed by the liberalised policy which came into force from 1st March 1959.

Out of the 23,000 post offices proposed to be opened during the Third Five Year Plan, 19,377 offices were opened during the first four years of the Plan period and 1,070 offices during the current financial year up to the end of December 1965, bringing the total number of new Post Offices to 20,447. Of this number 1,580 are in the urban areas and the rest in rural areas.

**Night Post Offices:**—There are 13 night post offices in the country. The names of the Night Post Offices and the circles attached to them respectively (the names of the circles being in brackets) are: Secunderabad (Andhra); Surat (Gujarat); Trivandrum (Kerala); Raipur (Madhya Pradesh); Madurai (Madras); Mysore (Mysore); Cuttack (Orissa); Chandigarh (Punjab); Ajmer (Rajasthan); Allahabad, Aminabad Park, Meerut City (Uttar Pradesh) and Siliguri (West Bengal).

Total number of letter boxes as on 1st Dec. 1964: 189,280 (rural 143,394; urban 45,886); Total number as on 1st Dec. 1965: 194,904 (rural 145,128; urban 49,776).

In India a post office covers an average area of 35.48 sq. kilometres.

**Philatelic Deposit Account Scheme:**—This scheme introduced in four philatelic bureaux viz., Bombay, Calcutta, Delhi and Madras with effect from Aug. 1, 1965 proved popular. Under this scheme philatelists open account with an initial deposit of Rs. 50.

**Mobile Post Offices:**—The urban mobile post offices at Delhi, Madras, Calcutta, Bombay and Nagpur continued to function during the year on all days including Sundays and Postal holidays. Mobile post offices for Hyderabad and Bhillai and an additional one for Delhi have also been sanctioned. A rural mobile P.O. for serving the industrial colliery belt of Hazaribagh District in Bihar State has also started functioning on an experimental basis.

**National Savings Certificates:**—With effect from 1st April 1965, 10-Year N. S. C. (first issue) of the denomination of Rs. 10, 100, and 1,000, which can be purchased by an adult or a minor or an adult on behalf of a minor or two adults jointly, have been introduced. The maximum holdings in these certificates is Rs. 25,000 for single holders and Rs. 50,000 for joint holders. On maturity after 10 years, the amounts payable on the certificates will be Rs. 18, 180 and 1,800 respectively. Interest on these certificates is liable for income-tax.

**Savings Banks:** The number of Post Offices as on Nov. 30, 1965, doing Savings Bank work, was 50,442 out of which 36,290 were Branch Offices. The limits of maximum balance for the purpose of accrual of interest were raised with effect from July 1, 1965 to Rs. 25,000 and Rs. 50,000 for individual and joint accounts respectively.

The number of Savings Bank transactions are estimated at 47.8 million for 1965-66 as against 41.6 million in 1964-65.

**Postal Life Insurance:** Total number of policies for postal life insurance accepted from April to December 1965 was 11,567 for Rs. 3,49,30,100.

**Way Pouches:** The 'Way Pouch' system, which is intended to develop local postal traffic and secure more expeditious inter-change of unregistered mails between offices lying on mail

routes, was extended to 40 more mail motor lines during 1965-66.

**Commemorative Stamps:** Occasion, date and denomination respectively are as follows:

International Co-operation Year, 26th June 1965, 0.15 P.; Indian Mt. Everest Expedition, 1965, 15th Aug. 1965, 0.15 P.; 78th Birth Anniversary of Govind Ballabh Pant, 10th Sept. 1965, 0.15 P.; 90th Birth Anniversary of Vallabhbhai Patel, 31st Oct. 1965, 0.15 P.; Birth Anniversary of Chittaranjan Das, 5th Nov. 1965, 0.15 P.; Vidyapati—celebrated poet of Mithila, 17th Nov. 1965, 0.15 P.; Jai Jawan, 26th Jan. 1966, 0.15 P.; Lal Bahadur Shastri, Republic Day 1966, 0.15 P.; Kamber—Tamil Poet Saint, 5th April 1966, 0.15 P.; 75th Birth Anniversary of Dr. Ambedkar, 14th April 1966, 0.15 P.; Babu Kunwar Singh—a hero of the 1857 War of Independence, 23rd April 1966, 0.15 P.; Birth Centenary of Gopal Krishna Gokhale, 9th May 1966, 15 P.; Acharya Mahavir Prasad Dwivedi, Hindi Writer, 15th May 1966, 0.15 P.; Dr. H. J. Bhabha, Scientist, 4th August 1966, 0.15 P.

### TELEGRAPHS

More than 4,000 telegraph offices have been opened, some even at a loss to provide telegraph facilities at district, sub-divisional and tehsil headquarters in different parts of the country. Telephone facilities are also provided at tehsil and equivalent headquarters, block headquarters, Police stations and at places with population of over 5,000. From April 1, 1965-Dec. 31, 1965, 260 offices have been provided with telegraph facilities bringing the total number of such offices to 8,555.

### TELECOMMUNICATIONS

**Departmental Telegraph Offices:** In order to ensure exclusive handling of telegraph traffic the telegraph branches of larger combined offices are being converted into Departmental Telegraph Offices. In pursuance of this policy telegraph branches of 11 combined offices have been converted into Departmental Telegraph Offices during 1965-66. The total number of such offices is 198.

**Teleprinters:** The total number of teleprinters in use as on Dec. 31, 1965 was 4,124.

**Auto-Working:** For the speedy disposal of telegraph traffic between major telegraph offices the system of advanced punching of tapes and transmitting them through auto-transmitters has been introduced on 28 circuits.

**Telex and International Telex:**—The most important development in the subscriber to subscriber transmission of printed messages was the commissioning of teleprinter exchanges at New Delhi, Bombay, Calcutta and Madras on June 24, 1963. This service has now been extended to Coimbatore, Kanpur, Ahmedabad, Bangalore, Hyderabad, Nagpur and Madurai. The department is serving 950 subscribers at the above mentioned places.

**International Telex Service from India** is available to 58 countries.

**Phonogram Service:** The total number of stations provided with phonogram service on Dec. 31, 1965 was 1,369. From April to December 1965 over 3.7 million messages were booked and 9.6 lakhs messages were conveyed to addressees on phone.

**Indian Language Telegraph Service in Devnagri Script:** This system has been introduced in 21 more offices during the year by which the total number of such offices has gone up to 2,288 on 30th December 1965.

**Greetings:** Over 2.0 million greeting telegrams in English and 13,419 in Devnagri Script were delivered in pictorial forms and envelopes during the year 1965-66.

### TELEPHONES

There has been a steady progress in the implementation of extending telephone facilities to rural and undeveloped areas.

The total number of telephones in the country as in Dec. 1965 was about 7,72,000. By the end of the Third Plan, telephone connections are expected to touch a figure of 8,61,000. As on March 31, 1966, 3,30,000 persons were waiting for telephone connections.

The total number of connections given under O.Y.T. scheme upto December 31, 1965 was 91,597 and the revenue accrued from the subscribers under the scheme was Rs. 21,89,28,083.

At present this system is in force at Ahmedabad, Amritsar, Bangalore, Bombay, Calcutta, Delhi, Hyderabad, Kanpur, Madras, Nagpur and Verawal.

**Subscriber Trunk Dialling:** In this system, a subscriber can himself directly dial the number of the distant exchange subscriber thus eliminating the need for booking and putting through of calls by operators. This facility already existed on March 31, 1965 on four routes, viz., Lucknow-Kanpur, Delhi-Agra, Delhi-Jaipur and Agra-Kanpur. S.T.D. has been commissioned in the Delhi-Patna route and Delhi-Lucknow route on July 20, 1965 and Aug. 14, 1965 respectively. In the routes of Delhi-Meerut, Delhi-Jullundur, Madras-Bangalore and Kanpur-Varanasi the above system was to be commissioned before 31st March 1966.

**Trunk Automatic Exchanges:** This system which provides facilities in connecting with different routes of S.T.D. is being installed in Bombay, Delhi, Kanpur and Madras.

**Coaxial Cables:** In order to provide a large number of high grade circuits between important cities in the country, the laying of control trunk cable was taken up in 1958.

The Bombay-New Delhi-Calcutta co-axial cable scheme, is under execution. This envisages laying of large tube co-axial cable with 2 cores for 2,960 kms., small tube co-axial cable with 2 cores for 160 kms., and paired cables for 82 kms. on the different sections of this route. This scheme would provide trunk telephonic communication connecting Calcutta, New Delhi and Bombay and other important cities on the route.

Other co-axial cable schemes taken up for execution are: New Delhi-Jullundur, New Delhi-Hapur, Bombay-Madras, Madras-Ernakulam, Ahmedabad-Rajkot, Jullundur-Amritsar.

**Microwave:** Plans have been finalised and equipment ordered for introducing microwave transmission for the first time in the public telephone network in India.

The work in respect of the Calcutta-North Bengal-Assam, Jullundur-Srinagar, Ambala-Chandigarh-Simla, Calcutta-Kharagpur and Delhi-Jaipur microwave schemes were in progress during the year 1965.

### WIRELESS

**New Wireless Links opened during 1965:**—(1) Kilar in Pangl Valley of H.P. in Aug. 1965; (2) R/T/P circuit between Delhi and Jammu, Sept. 1965; (3) Wireless station at Tuting in NEFA; (4) R/T circuit between Shillong and Tezu; (5) and temporary W/T circuit between Poonch and Jammu Tawi, Oct. 1965.

Number of wireless stations functioning in the P. & T. Deptt. at the end of 1965 was 215.

The number of wireless circuits functioning at the end of the year was: Radio Telegraph Circuits 107; Radio Teleprinter Circuits 13; Radio Telephone Circuits 19 and leased 25.

**Workshops:** The P. & T. workshops produced line and equipment stores worth Rs. 426.23 lakhs from April to Dec. 1965 against Rs. 330.80 lakhs in the corresponding period during 1964. The target for 1965-66 was Rs. 545.00 lakhs.

## SOCIAL WELFARE IN INDIA

At present there are about twenty Schools of Social Work in India, and recently they have formed an Association of Schools of Social Work. The alumni from the schools of social works have now formed a professional association namely the Indian Association of the Alumni of Schools of Social Work.

The new profession generally covers the following fields of social work: Community Welfare Services; Family, Child and Youth Welfare Service; Public Welfare Administration; Social Security Services; Services for the Mal-adjusted and Handicapped Groups; Social Defence and Correctional Administration; Services for Emergency Relief and Rehabilitation; Social Legislation and Social Action; Social Research; Training in Social Work; Tribal Welfare and Rural Welfare and Social Work Research.

The 13th biennial session of the Indian Conference of Social Work was held at Varanasi in 1964, the theme of which was "Changing Trends in Social Welfare." Besides holding conferences, it also organises national seminars. In 1964 seminars were held on "The Role of Volunteer in Social Work" in Bombay and Madras in co-operation with the Cleveland International Programme for Youth Leaders and Social Workers, Inc., U.S.A. A seminar was also held at Bhopal on "Welfare of Tribes and Denotified Communities" in 1964. In 1966 it organised a Seminar on "Vocational Rehabilitation and the Use of Normal Facilities of the Handicapped" in Co-operation with the Indian Society for Rehabilitation of the Handicapped.

Research in social welfare is becoming an important activity in the field of social work. Funds for the same are available from the Research Programmes Committee of the Planning Commission, the Dept. of Social Security and the University Grants Commission, as well as other foreign bodies such as the U.S.A.I.D. The Indian Conference of Social Work is carrying out two research projects with the financial assistance of the U.S.A.I.D., which have been approved by the Government of India.

### SOCIAL LEGISLATION

According to the present Constitution, social legislation can be formulated and implemented both by the Central and State Governments. Most social subjects are on the concurrent list, i.e. they can be legislated upon by the Central or State Governments. These subjects include: marriage and divorce, social security and social insurance, economic and social planning, welfare of labour, charities and charitable institutions, vagrancy and mental deficiency.

The Indian Conference of Social Work together with the Tata Institute of Social Sciences and Institute of Social Services and the Family Welfare Agency is promoting the Indian Adoption of Children's Bill which safeguards the rights of the adoptive parents, the child and the natural mother. It has provided for adoption in all communities and has such procedures as social investigation, probation, etc.

The Department of Social Welfare is now in charge of tribal welfare, welfare of backward classes, social security measures, chiefly relating to industrial labour as well as the implementation of old age pension schemes. It is also in charge of welfare of the handicapped, the weaker section of the society and social defence.

The States of Assam, Andhra Pradesh, Maharashtra, Gujarat, Madhya Pradesh, Punjab, Rajasthan, Uttar Pradesh and West Bengal have Departments of Social Welfare, whereas Madras possesses a Women's Welfare Department.

A scheme of family and child welfare is being organised in 2,500 blocks in close cooperation with the Community Development Department and the Central Social Welfare Board. It was proposed to set up 50 pilot projects and

training centres during 1965-66 many of which have already been set up.

The Social Defence (Care) Schemes in the Third Five Year Plan involve an outlay of Rs. 3.58 crores. It is aimed at prevention of juvenile delinquency, enforcement of suppression of Immoral Traffic in Women and Girls Act, prevention and treatment of beggary and vagrancy, welfare services in prisons and probation.

### SOME ALL-INDIA ACTS

The Special Marriage Act, 1954; The Hindu Marriage Act, 1955; The Hindu Succession Act, 1956; The Hindu Adoption and Maintenance Act, 1956; The Hindu Minority and Guardianship Act, 1956; The Mines Maternity Benefit Act, 1941; The Apprentices Act, 1950; The Children Pledging of Labour Act, 1933; The Employment of Children Act, 1938; The Reformatory Schools Act, 1897; The Lepers Act, 1898; The Indian Lunacy Act, 1912; The Untouchability Offences Act, 1955; Suppression of Immoral Traffic in Women and Girls Act, 1956; The Women's and Children's Institutions Licensing Act, 1956; The Orphanages and other Charitable Institutions Supervision and Control Act, 1960; The Probation of Offenders Act, 1958; The Union Territories Children's Act, 1960.

### Traffic in Women

The Suppression of Immoral Traffic in Women and Girls Act 1956 was implemented in most States in May 1958. It applies to the whole of India, and from the date of the coming into force of this Act, all other State Acts relating to the suppression of immoral traffic in women and girls or to the prevention of prostitution stand repealed.

From the time the Act was enforced on May 1, 1958 to March 1960 the Central Social Welfare Board set up 63 protective homes in the country.

There were no brothels in Manipur. The Laccadive, Minicoy and Amindivi Islands were also free from traffic in women and children.

The Central Social Welfare Board appointed an Advisory Committee to study the problem of social and moral hygiene in the country. Another Committee, appointed to lay down procedures for implementing the recommendations of the above Committee recommended the following pattern for setting up different types of Homes and Shelters in each State (their recommendations have been accepted):

At the State level: (i) One home for rescued women needing a fairly long period of adjustment prior to rehabilitation. (ii) Two homes for the aftercare of persons discharged from correctional institutions. (iii) Two short term rehabilitation homes for those discharged from non-correctional institutions. (iv) Strength of each Home not to exceed 100. At the District level: (i) One shelter temporarily housing persons needing aftercare (maximum period 3 months). (ii) One Reception Centre for temporary stay of women rescued from moral danger.

To meet the expenses of setting up Homes and District Units throughout the country, a total provision of Rs. 1,055 crores was made in the Second Five Year Plan.

The Association for Moral and Social Hygiene in India, which was established in the year 1928, has got fourteen State Branches with a number of Dist. Branches. (Details are given under Delhi Associations).

The Association runs a Student Counselling Centre in the University of Delhi. Centres for Family Counselling and Marriage Guidance are established in the other parts of the country. It also conducts periodical research.

The Association has its Headquarters at 6-Bhagwan Dass Road, New Delhi.

The Maharashtra Branch of the Association conducted "A Study of Prostitutes in Bombay" with reference to their family background and the report has been published under the same title based on the case histories of 350 common prostitutes. This study also gives a detailed analysis of the causes of prostitution showing that 30.50 per cent of it is due to causes of high emotional significance, 14.40 per cent due to economic causes, 28.39 per cent due to social causes, 6.78 per cent due to biological causes and 19.93 per cent due to physical causes.

### Children

Children's Acts in relation to delinquency are in force in the States of Andhra Pradesh, Gujarat, Maharashtra, Madhya Pradesh, Madras, Mysore, Punjab, Kerala, U.P., West Bengal and all Union Territories.

The Borstal Schools Acts, which are slightly different in scope, are in operation in the States of Andhra, Gujarat, Maharashtra, Madras, Mysore, Punjab, U.P., West Bengal and Kerala.

The Reformatory Schools Act of 1897 has also been enforced in all the major States and some Union Territories. But where Children's Acts are in force, the Reformatory Schools Acts are not enforced. In States where Children's Acts exist but are not enforced, the Reformatory Schools Act applies.

The problem of juvenile delinquency is mainly the concern of State Governments.

The Central Bureau of Correctional Services was established in August 1961 with the aim of developing and co-ordinating a uniform policy to standardise the collection of statistics on a national basis. It exchanges information with foreign governments and the United Nations Agencies. It promotes research, training and studies and surveys in the field of prevention and crime. The Central Government have sponsored a care programme under which assistance is given to the States. Under this programme, 40 remand homes, 17 certified schools, 5 borstal schools, 15 boys' clubs and probation hostels have been established. In addition to these, there are private institutions, as well as those existing prior to the operation of the above programme. Given below are details regarding various States:

In Andhra Pradesh there are 7 certified schools, 3 juvenile courts, and a Juvenile Aid Police Bureau of the Police Department; in Assam there is one beggars' home, in Bihar there are 7 remand homes, 2 probation hostels, 1 borstal school; in Gujarat there are 8 remand homes, 8 observation homes, 7 certified schools, 17 fit person basis institutions. There is one remand home, one certified school, one probation hostel in Delhi; one certified school, one probation hostel in Himachal Pradesh. 9 remand homes, 1 borstal school, 5 boys' clubs exist in Kerala; two remand homes, 2 certified schools, 3 probation hostels in Madhya Pradesh. In Madras one remand home, 20 State certified schools, a Juvenile Aid Police Court. In Maharashtra there are 33 certified schools, 89 fit person institutions, 24 remand homes and 21 juvenile courts. There is also a juvenile aid police unit and a certified school for mentally deficient children. In Mysore there are 18 remand homes and juvenile courts, 7 certified schools, one probation hostel. In Orissa one remand home; one certified school in Rajasthan and one certified school in Tripura.

Under the Children's Act, more children come under its purview as a result of destitution than delinquency.

A new trend in Child Welfare is the development of foster family homes, which provide homes for children in need of such home on a temporary basis. This is being promoted by the Central Social Welfare Board, through voluntary welfare agencies in Bombay and Madras. Families caring for such children are usually given a small sum for maintenance of the children.

**Beggars**

The Criminal Procedure Code treats vagrants and vagabonds alike and provides penalties under Sections 55 (i)(b) and 109(b).

Beggars may be proceeded against under Section 133 as those committing public nuisance.

Beggary within railway premises was prohibited by law as from February 15, 1941.

Special Acts have been passed by most of the States to prohibit begging in public places. In others, the municipal and police Acts provide measures against begging.

To deal effectively with persons who kidnap children for the purpose of exploiting them for begging, the Indian Penal Code (Amendment) Act, 1959, was enacted. The Act makes kidnapping or obtaining custody of a minor and the maiming of minors for the purpose of begging specific offences and provides deterrent punishment, which may extend to life imprisonment where children are maimed.

There are institutions in the States for the custody, care and assistance of beggars in their rehabilitation.

Some 26 Beggar Homes have come into existence during the Second Five Year Plan and these provide for about 25,000 beggars. 33 more homes were expected to be established before the end of the Third Plan.

**SOCIAL SERVICE AGENCIES**

The groups of voluntary social work in India largely fall under the following heads: Administrators; Professional social workers; Missionaries; The Gandhian social workers; and voluntary social workers belonging to the various private agencies.

Of these the religious believe in the traditional form of charity, the Missionaries in institutionalised social work, the Gandhian in the 14-point constructive programme.

A new experiment in Voluntary Social Work is the development of the Indian Peace Corps (Theosophy Hall, New Marine Lines, Bombay-1) on lines similar to the American Peace Corps.

The group of professionally trained social workers is small though most compact. This group consists of alumni and teachers of the following Post-graduate schools of social work in India:

The Tata Institute of Social Sciences, Sion, Trombay Road, Chembur, Bombay 71; Delhi School of Social Work, 3, University Road, Delhi 6; the Faculty of Social Work of the M. S. University of Baroda, Camp Road, Baroda; Shri Kashi Vidyapeeth, Banaras, Chavin, Banaras 2; Madras School of Social Work, 1, Jarretts Gardens (upper flat), 23-24, Casa Major Road, Egmore, Madras 8; The All India Institute of Social Welfare and Business Management, College Square West, Calcutta 7. The J. K. Institute of Sociology and Human Relations, Lucknow University, Lucknow also imparts training in social work, while the Patna University has a department to train social workers for industrial welfare work. The other institutions are: Institute of Social Service, Nirmala Niketan, New Marine Lines, Bombay 1; P. S. G. School of Social Work, Peelamedu, Coimbatore; Bombay Labour Institute, (Government of Maharashtra), Dadabhai Chamarbaugwala Road, Parel, Bombay 12; National Institute of Social Sciences, Bangalore; Udaipur School of Social Work, Udaipur; Xavier Labour Relations Institute, Jamshedpur; Department of Economics and Sociology, Andhra University, Waltair; Institute of Social Sciences, Agra University, Agra; University School of Social Sciences, Gujarat University, Ahmedabad; Department of Sociology, Labour and Social Welfare, Bihar University, Bhagalpur; Vikram University Dept. of Social Work, Indore, M.P.; Loyola College, Madras; Institute of Social Work, Bendore, Mangalore; Stella Maris College, Mysapore, Madras 2; Xavier Institute of Social Service, St. Xavier's College, Ranchi.

Schools for teaching Social Work on an undergraduate level, are slowly opening up—such as the Karve Institute of Social Services in Poona.

An association of schools of social work has been formed which is setting up criteria for accredited schools of social work. Over and above the professional schools of Social Work, there are various other training centres run by voluntary bodies for training welfare workers. Training schemes for training workers for particular programmes are also being undertaken by the Govt. in cooperation with voluntary welfare agencies.

Voluntary Social Service Agencies operating on an All-India basis are mentioned below:—

**Child Welfare**

Balkan-ji-Bari (Juhu Road, Santa Cruz (West), Bombay 54, AS); Society for the Protection of Children in India (2-B, Camac Street, Calcutta); Indian Council for Child Welfare, Room 14-15, Block 'A', 'B' Barracks, Queensway, New Delhi; Indian Council for Child Education (Sumanas, 39, Edward Elliotts Road, Madras 4).

**Youth Welfare**

Y.M.C.A. (5, Russel Street, Calcutta 16); Y.W.C.A. (Parliament Road, New Delhi); Bharat Scouts and Guides Association (Regal Building, Parliament Street, New Delhi); Bharat Sevak Samaj (27-A, Theatre Communication Buildings, Connaught Place, New Delhi); Y.M.C.A., New Delhi; Youth Welfare Association (193-E, Devnagar, New Delhi); Poor Welfare Association (29/24, Shakti Nagar, Delhi 6); 'Gyan Prakash Yuvak Sangh' (653, Chuna Kankar, Mathura, U.P.); Youth Hostels Association (2, East Park Road, New Delhi 5); Social Service League (Indraprastha College, Alipur Road, Delhi); All India Boys Scouts Association (7, Jungpura—B—Mathura Road, New Delhi 14).

**Women's and Family Welfare**

All India Women's Conference (C/o Family Planning Association of India, Metropolitan House, Dadabhoy Naoroji Road, Bombay 1); Family Planning Association of India (Metropolitan House, Dadabhoy Naoroji Road, Bombay 1); National Council of Women in India (Town Hall, Bombay 1); Kasturba Gandhi National Memorial Trust (Kasturba Gram, P.O. Indore, Madhya Pradesh).

**Health**

Tuberculosis Association of India (20, Red Cross Road, New Delhi 2); Indian Red Cross Society (20, Red Cross Road, New Delhi 2); All India Cancer Prevention Society (Tata Memorial Hospital, Parel, Bombay 12); Hind Kusht Niwaran Sangh (Red Cross Road, New Delhi); Akhil Bharat Shririk Sikshan Mahamandal (Tilak Road, Nagpur, Maharashtra).

Indian Medical Association, Hanging Bridge, Daryaganj, Delhi 7.

**Rehabilitation of the Handicapped**

Convention of the Teachers of the Deaf in India (50, Bondel Road, Ballygunj, Calcutta); All India Lighthouse for the Blind (89, Elliot Road, Calcutta); National Association for the Blind (Jehangir Wadia Building, Mahatma Gandhi Road, Bombay 1); All India Blind Relief Society (11-F, Lajpatnagar, New Delhi); The Fellowship of the Physically Handicapped, Hornby Vellard, Haji Ali Park, Bombay-34; Society for the Education of the Crippled (Child and Adult) (Chunilal Mehta Hut, Mahatma Gandhi Road, Bombay 1); The Indian Council for Mental Hygiene (Cumbatta Chambers, Eros Building, 42, Queen's Road, Bombay).

**Rural Welfare**

Sarva Sewa Sangh (K33-4 Golghar, Varanasi, U.P.); India Village Service (I.V.S. House, Marhera, Dist. Etah, U.P.).

**General Social Welfare**

Servants of India Society (Poona 4); Ramkrishna Mission (Belur, Dist. Howrah); Gandhi Memorial Fund (5, Mansingh Road, New Delhi);

Salvation Army (Moreland Road, Bombay 8); Friends' Service Unit (1, Upperwood Street, Calcutta 16); All India Seva Samiti (Seva Samiti Building, Allahabad); Indian Co-operative Union Ltd. (Janpath, New Delhi); Bharat Sevak Samaj (27A, Theatre Communication Building, Connaught Place, New Delhi).

**Rural Women's Welfare**

Kasturba Gandhi National Memorial Trust (Kasturbagram, Indore, Madhya Pradesh); Bharatiya Grameen Mahila Sangh (9/104 Jamnabar Hutments, Block II, Mansingh Road, New Delhi-11).

**Relief and Rehabilitation**

United Council of Relief and Welfare (Rashtrapati Bhavan, New Delhi).

**Social Education**

Indian Adult Education Association (17-B, Indraprastha Marg, New Delhi); Jamia Milia (Okhla, Delhi); Literacy House (Lucknow); All India Mass Education Society (Gonda).

**Welfare of Under-Privileged Groups**

Harijan Sewak Sangh (Kingsway, Delhi); Bhartiya Adimjati Sevak Sangh (Kingsway, Delhi 9).

**Social Defence**

All India Crime Prevention Society (Behari Niwas, Kanpur, U.P.); Association for Moral and Social Hygiene in India (Room No. 211, 'P' Block, Raisina Road, New Delhi).

**Co-ordination**

The national organization for the co-ordination of all welfare services is the Indian Conference of Social Work located at 42, Queen's Barracks, Foreshore Road, Bombay 1.

There is also a South-East Asia and Western Pacific Regional Office of the International Conference of Social Work which has been established in conjunction with the Indian Conference of Social Work in Bombay.

**International Welfare Agencies in India**

The following are some of the International agencies and organisations working in the country: International Conference of Social Work (Regional Office for South-East Asia and Western Pacific, 42, Queen's Barracks, Foreshore Road, Bombay 1); Asia Foundation (Post Box 149, New Delhi); Ford Foundation (32, Ferozshah Road, New Delhi); World Health Organisation (S.E.A. Office, Patiala House, Harding Avenue, New Delhi); Rockefeller Foundation (20/39, Diplomatic Enclave, Kautilya Marg, New Delhi); International Labour Organisation, Indian Branch (Mandi House, New Delhi); International Union for Child Welfare (Consultant for Far East Asia, Rooms Nos. 14 & 15, Block A, Barracks B, Queensway, New Delhi); United Nations International Children's Emergency Fund (UNICEF House, 11, Jor Bagh, Delhi); United Nations Educational, Scientific and Cultural Organisation (Old Mill Road, New Delhi); Food and Agricultural Organisation, UNO (21, Curzon Road, New Delhi); Cleveland International Programme for Youth Leaders and Social Workers Inc. (12, Hailey Road, New Delhi); The American Peace Corps in Delhi (61, Sundar Nagar, New Delhi-11).

**Bhoodan Movement**

Special mention must be made of the Bhoodan Movement initiated by Acharya Vinoba Bhave, one of the ablest disciples of Gandhiji. He is effecting a silent but nevertheless remarkable social revolution within the country by the voluntary gift of land (Bhoodan), wealth (Sam-pattidan), labour (Shramdan) and life (Jeevan-dan).

**CENTRAL SOCIAL WELFARE BOARD**

The Central Social Welfare Board was set up in August 1953. Its functions as defined in the resolution of Government of India setting up the Board, are to survey the needs and requirements

of social welfare organisations, evaluate their programmes and objectives, coordinate the assistance given by various Central Ministries and Departments and State Departments, promote the development of voluntary organisations in the areas where no such organisations exist, and to render financial assistance to deserving agencies. The Chairman of the Board is Smt. Achamma J. Matthal and Secretary is Shri K. Nath.

At the State level, there are 24 State Social Welfare Advisory Boards. These State Boards advise and assist the Central Board in the formulation of its policies and interpretation of its programmes to voluntary organisations. The Chairmen of State Boards are experienced social workers.

### PROGRAMMES

**General - Grants - In - Aid Programmes:** From its inception upto the end of March 1966, the Board had sanctioned nearly 25,300 grants amounting to about Rs. 6.16 crores under its general-grants-in-aid programme. These grants cover services for children, women and the handicapped groups of persons.

**Welfare Extension Projects (Rural):** At the end of Third Five Year Plan 264 such projects with 2,342 centres were functioning. In addition 624 voluntary organisations or newly formed Mahila Mandals were conducting the activities of 1,629 centres for which grants amounting Rs. 142.50 lakhs had been given. Mahila Mandals and local voluntary organisations are running 1,638 centres in these areas.

**Welfare Extension Projects (Urban):** The activities undertaken in these projects provide community welfare centres, creches, balwadis, anti-natal and post-natal advisory services, welfare health centres, hobby clubs, vocational guidance, and other services. By the end of March 1966, 65 such projects were functioning in 16 States for which the Board had provided assistance of Rs. 37.61 lakhs.

**Socio-Economic Programme:** Under this scheme, grants are given to voluntary welfare institutions for setting up production units of small industries, units as ancillary to large industries, handloom training-cum-production units, handicrafts training, procurement and production units, coir spinning and weaving

units, and silk spinning and reeling units. The Board has so far sanctioned 90 units, out of which 58 have started functioning and are providing work and wages to about 2,200 needy women and handicapped persons.

**Condensed Courses of Education For Adult Women:** Under this programme adult women of the lower income group are prepared for middle school or matriculation examinations in condensed courses of two years duration. Upto the end of March 1966, the Board sanctioned 825 courses in different parts of the country. A Secretariat Course has been sanctioned for Kerala to meet their special need of training educated women for secretariat jobs.

**Holiday Homes:** This scheme enables children of low income groups to be taken to holiday camps at hill stations or other summer or sea resorts, outside their home towns, during vacations, free of cost. Till now nearly 677 camps benefitting over 33,000 children have been organised with assistance totalling Rs. 23.94 lakhs sanctioned by the Board.

**Night Shelters:** Twenty-two night shelters were running at the end of March 1966 and they have been given assistance by the Board amounting to Rs. 0.26 lakhs. The implementation of this programme has been entrusted to the Bharat Sevak Samaj, with grants from the Board, according to a schematic budget. Through this scheme the Board provides shelter to the pavement dwellers in cities and towns.

**Border Area Programmes:** The Chinese Aggression of 1962, highlighted the need for welfare services in areas bordering China, Tibet and Pakistan. As a first step towards organising welfare services, a State Social Welfare Advisory Board was formed in NEFA. 12 multipurpose centres providing maternity and child welfare services, balwadis, craft classes, social education for women etc. had been sanctioned in 1962 in NEFA, three centres in Ladakh, eight centres in Lahaul and five centres in Kinnaur (H.P.). These were continued and, in addition, fifteen Welfare Extension Projects in the districts of Chamoli, Pithagarh and Uttar Kashi in Uttar Pradesh and 20 centres in Kutch and Banaskanta districts of Gujarat were started during 1965-66. Grants for organising welfare camps for women in West Bengal, five in Tripura and ten in Gujarat were also sanctioned.

A comprehensive scheme for intensifying welfare services in all border districts has been prepared and is proposed to be launched in the Fourth Five Year Plan.

**Special Child Welfare Programmes:** Demonstration projects of integrated child welfare services for meeting the total needs of children in the age group 0-6 have been set up during the Third Plan. Over 424 balwadis have been set up in 13 projects. The other special child welfare schemes which the Board took up during the Third Plan include training courses for Balsevikas (Child Welfare Workers) required for Child Welfare Services. Six Balsevikas Training Centres offering a two year course have been started in the States of Andhra Pradesh, Assam, Gujarat, Madhya Pradesh, Mysore and Orissa. Nine integrated pre-school projects have been started in the States of Assam, Gujarat, Kerala, Madras, Punjab, Rajasthan, Uttar Pradesh, West Bengal and Delhi. A foster care service unit was started at Bombay. Other programmes taken up in hand are production of pictorial literature for children of the pre-school age; standardisation of educational and recreational equipment and material for pre-schools, starting of integrated pre-school projects in urban areas; preparation of guidance material to child welfare workers; adoption of financial assistance to Indian children by foreign nationals; Channelising the milk feeding programmes for Balwadi Children and study and evaluation of social welfare projects and activities.

**Evaluation of Programmes:** The main purpose of the scheme is to maintain up-to-date information about the changing needs in the field of social welfare, evaluate the effectiveness of current programmes—and pin-point their deficiency—if any, with a view to initiating remedial action.

**Publicity:** The Board brings out two monthly journals "Social Welfare" in English and "Samaj Kalyan" in Hindi. Some of the State Boards also bring out bulletins in regional languages. Documentaries, through the Films Division of the Government of India, are also produced by the Board.

**Encyclopaedia of Social Work in India:** The manuscript of the publication is in the press. The publication is expected to be released in early 1967.

\* See main article "Bhoodan" for statistical information.

## A TOURIST'S GUIDE\*

*For all information and assistance, visitors are advised to contact the Government of India tourist offices in India. The representatives of the Tourist Department are stationed on duty at the airport and in the case of Bombay a representative of the Tourist Office always meets all important passenger liners.*

In the second half of the article we give a list of places which have come into prominence through post-independence development activity—mostly connected with the Five Year Plans.

**THE** following hints meant for foreign tourists may be useful:

1. Every foreign tourist entering India should be in possession of a valid passport issued by his Government.

He should also obtain before leaving his country a tourist visa from the Indian representative abroad (or the British representative in countries where there are no Indian representatives). Commonwealth citizens (except those of Pakistan and Ceylon) are exempt from the visa requirement, provided their passports are valid for travel to India. Persons of non-Indian origin domiciled in South Africa are, however, required to obtain visas for India.

Transit visas are not required for through air/ship passengers in direct transit by the same flight or by the next regularly scheduled flight irrespective of whether the flight is of the same or a different Airline, provided the period does not exceed 72 hours and they leave from the same place. One can however leave the airport

or ship by obtaining a landing permit for 72 hours on depositing his passport.

The normal period of stay cannot be stated. It depends upon the stay period granted by the visa issuing authority.

Normal period of stay on transit visa is 15 days.

No hard and fast rule can be laid down as regards the extension of visas. It will depend on the merits of each case. However, genuine tourists can stay for a maximum period of six months.

For short visits not exceeding 2 weeks to Pakistan, Nepal, Ceylon and Burma tourists may obtain return visas from the Deputy Commissioner of Police, Special Branch II, C.I.D., Head Police Office, Annexe-2, Crawford Market, Bombay or from State Governments. For visits exceeding 2 weeks, they may apply for 'no objection' to return to India endorsements to the Deputy Commissioner of Police, Special Branch II, C.I.D., Bombay or State

Government. However in such cases they will have to obtain visas from the Indian authorities abroad before entering India.

2. No registration is required for foreigners staying in India for 90 days or less provided they have come on visas of 3 months or less. If they land in India with visas for more than 3 months' stay, then they must report for registration within 7 days to the Registration Officer of their destination and present the "B" Form (temporary registration certificate) issued to them at the place of entry.

Commonwealth citizens are exempt from registration formalities.

Return visa or double/triple entry visa holders would be required to get themselves registered after 30 days of their actual stay in India and not after 30 days of their first entry into India.

**Departures:** Tourists, if they are registered, are exempted from reporting their movements and also from taking departure endorsements from the Registration Officer with whom they are registered.

\* NOTE: When the population of a town is not given it may be generally assumed that it is less than 20,000.

It should be brought to the notice of tourists to surrender their registration papers at the time of their departure, as it is found that tourists or others who get themselves registered before the expiry of 30 days and leave India also before completion of 30 days, carry registration papers with them.

**For holders of Entry Visas:** Visitors holding registration certificates have to obtain before departure exit endorsements from the Registration Offices of the District in which they are initially registered.

3. The Government of India have placed no health restrictions on persons entering India by sea or air, except in regard to yellow fever.

However, all persons are advised, in their own interest, to be protected against small-pox and cholera according to international requirements.

Citizens of the U.K., Australia, Canada, New Zealand, Federation of Rhodesia and Nyasaland, Singapore, Malaya, Ghana and Ireland (Eire), excluding missionaries, and nationals of Nepal, wishing to proceed to India from a place other than Nepal, are required to possess valid passports without visas.

Nepalese and Bhutanese when proceeding from their respective countries by the inland route, require no passport or visa. Inhabitants of the border districts of Tibet Region of China require passports and visas.

Nationals of Commonwealth countries (except Pakistan and Ceylon) and of the Republic of Ireland wishing to proceed to India for missionary work require special endorsements.

Nationals of all other countries require valid passports with visas. No visa is required for visitors in direct transit by air or sea within 72 hours from the same port.

Individuals without nationality or of undetermined nationality (Stateless persons, IRO refugees, persons receiving legal and political protection, holders of Nansen passports, etc.) should have valid identity documents or sworn affidavits with visas.

Diplomats when travelling as tourists receive the same facilities as their countrymen.

Collective passports and family passports issued by other Governments are recognised by the Government of India. However, if any person other than parents is an adult e.g. if he has attained the age of 16, a separate visa is necessary in addition to the one for the rest.

Tourist visas are generally valid for a single journey only, but visitors who wish to proceed on short trips to other countries and return to India within the period of validity of the Indian visa, should apply for double or triple entry visas or entry-cum-transit/transit-cum-entry visas. If a visitor coming on short term visas wishes to extend his stay in India, he can, after arrival in India, apply for further extension of stay.

Foreigners who come on visits not exceeding three months for recreational or sightseeing purposes or for attending meetings convened by the Government of India or international bodies should, in their own interest, apply for tourist visas and not entry visas. Holders of tourist visas are entitled to the grant of Tourist Introduction Cards and All-India liquor permits, reservation of accommodation in Government-owned Rest Houses and Retiring Rooms at railway stations, etc.

Foreigners who wish to break journey in India for short periods while in transit, should apply for transit visas which are issued for a maximum period of 15 days and entitle the holder to travel from the port of entry to the port of departure by a prescribed route which is not necessarily the shortest one.

Visitors holding tourist visas are advised to obtain from the visa issuing authority a printed Tourist Introduction Card. In case a bona fide tourist has not already obtained a Tourist Introduction Card from the visa issuing authority, he can obtain one from one of the Government of India Tourist Offices in India or over-

This card introduces the tourist to various Governmental authorities in India and will enable him to receive all possible assistance from them in matters concerning immigration, customs, clearance, air and rail reservations, liquor permits and reservation of accommodation in rest houses, dak bungalows and retiring rooms in railway stations.

4. All baggage is subject to customs examination. Articles of high value e.g. radios, cameras, binoculars, type-writers, transistors, etc. are exempted from duty provided they are entered in the re-export declaration form and re-exported within 6 months.

Certain personal effects are allowed to enter free. Also alcoholic liquor up to one quart of spirits or wine, provided the tourist can procure a permit on arrival by producing his Tourist Introduction Card. Liquor permits are issued to tourists at the Santa Cruz Airport, Bombay and at Ballard Pier, on application, immediately on landing. Failing this, the permit may be obtained from the Foreign Liquor Permit Office, Old Customs House, Mint Road, Fort or from the excise official at the following hotels: Taj Mahal, Greens, Ambassador, Grand, West End, Ritz, Airlines, Nataraj, Shalimar and Sun-n-Sand.

5. Tourists are allowed to bring into India foreign currency notes or coins subject to declaration:

There is no limit on the amount of Travellers' Cheques. Import and export of Indian currency are banned.

The official rates of exchange are as follows: £1 equal to Rs. 21-00; U.S. \$1 equal to Rs. 7-50. The actual buying and selling rates, however, differ slightly from these rates.

Foreign currency can be exchanged at any authorized dealer or money changer.

6. If the tourist expects any baggage to follow or his baggage has already arrived, he should obtain a "LANDING CERTIFICATE" from the Customs official on arrival, failing which all his un-accompanied baggage would be liable to import duty.

#### Additional concessions for tourists:

**Liquor Permits:**—Bona fide tourists having tourist visas/Tourist Introduction Cards can obtain All-India liquor permits valid for three months from Indian Missions abroad or from the Tourist Offices of the Government of India at Delhi, Bombay, Madras and Calcutta if they have not already an All-India Liquor Permit from Indian Missions abroad. The Government of India Tourist Office at Bombay is at 123, Queen's Road, Churchgate, Bombay-1.

**Sporting Fire-arms:**—Not more than three sporting fire-arms brought in by a tourist are allowed free of duty. These must, however, be re-exported within a period of six months.

**Cartridges:**—100 cartridges are allowed duty-free under the normal rules. Each tourist is allowed to bring in 300 cartridges, on payment of customs duty, but without an Import Trade Control Licence.

**Film:**—A tourist is allowed to import 25 rolls of film for still cameras and 8 reels of substandard movie films duty free under the normal rules. Besides he can import any number of rolls of films without limit in quantity for still cameras after paying full customs duty without a licence. The quantity in excess of the duty free limit is subject to being entered on the Re-Export Form.

On production of a certificate from an authorised officer of the Tourist Department of the Government of India, foreign tourists are allowed a concession of 15 per cent on the basic air-conditioned first class fares and 'Travel As You Like' ticket on the Indian Railways, available for 30 days in an air-conditioned class of accommodation and in first class where air-conditioned accommodation was not available at a lump sum rate of Rs. 560.

## TRAVEL AGENCIES

List of Travel Agencies Approved by the Government of India with their telegraphic addresses within inverted commas:

**Ahmedabad:** Lee & Muirhead (India) Pvt. Ltd., Kothari Mansion, Belief Road, Ahmedabad. (Branch): "LEMUIR".

**Bangalore:** Bharat Travel Service (P) Ltd., D-9, 5th Main Road, Ganjhinagar, Bangalore-9. (Branch): "EXCURSION", Ram Mohan & Co., Chamber of Commerce Building, Kempe Gowda Road, Bangalore-9. (Branch): "GACANPAC"; Thos. Cook & Son Ltd., 200, Mahatma Gandhi Road, Bangalore. (Branch): "COUPON"; Trade-Wings (P) Ltd., 15, St. Mark's Road, Bangalore. (Branch): "TRAVEL".

**Bombay:** American Express Co., Inc., Oriental Building, 364, Dr. Dadabhai Naoroji Road, P.B. No. 507, Bombay-1. (Head Qtrs.): "AMEXCO"; Asiatic Travel Service, Post Box No. 1568, 12, Murzban Road, Fort, Bombay-16. (Head Qtrs.): "AIRASIA"; Balmer Lawrie & Co. Ltd., 5, Graham Road, Ballard Estate, Bombay-1. (Branch): "BALMER"; Cox & Kings (Agents) Ltd., Lloyds Bank Building, Dadabhai Naoroji Road, P.B. No. 398, Bombay-1. (Head Qtrs.): "COXSHIP"; Everett Travel Service, 221, Dadabhai Naoroji Road, Post Box No. 523, Bombay-1. (Branch): "TRAVERETT"; Hind Musafir Agency (P) Ltd., Khorshed Building, Sir P. M. Road, Bombay-1. (Head Qtrs.): "PRAVASI"; Ind-travels (Travel Division of Airfreight (P) Ltd., Neville House, Nicol Road, Ballard Estate, Bombay. (Head Qtrs.): "AIR-FREIGHT"; Jeena & Company, Post Box No. 849, 10, Veer Nariman Road, Fort, Bombay-1. "JUSTITIA"; Lee & Muirhead (India) Pvt. Ltd., 12, Rampart Row, Fort, Bombay-1. (Head Qtrs.): "LEMUIR"; Mercury Travels (India) Pvt. Ltd., 70, Forbes Street, Fort, Bombay-1. (Branch): "MERCOTRAVEL"; N. Jamnadas & Co., Travel Agents, 16, Bank Street, Fort, Bombay. (Head Qtrs.): "ENJAYTOURS"; Orient Express Co. (Private) Ltd., Petit Building, 359, Dadabhai Naoroji Road, Bombay-1. (Branch): "OREXPRESOCO"; Thos. Cook & Son (Continental & Overseas) Ltd., P.B. No. 46, Cooks Building, Dadabhai Naoroji Road, Bombay-1. (Head Qtrs.): "COUPON"; Trade Wings (Private) Ltd., 30/32, Rampart Row, Fort, Bombay-1. (Head Qtrs.): "TRAVEL"; Travel Corporation (India) Pvt. Ltd., Queen's Hotel, Apollo Bunder, Bombay-1. (Head Qtrs.): "TURING"; Vensimal Bassarmal & Bros., 521, Kalbadevi Road, P.B. No. 2112, Bombay-2. (Head Qtrs.): "VENSIMAL"; Freight Carriers (P) Ltd., 43, Tamarind Lane, Fort, Bombay-1 (BR). (Head Qtrs.): "QUICKFREIT"; Sita World Travel India Private Ltd., Airlines Hotel, Bombay-1.

**Calcutta:** American Express Co., Inc., P.B. No. 2311, 21, Old Court House Street, Calcutta. (Branch): "AMEXCO"; Balmer Lawrie & Co. Ltd., 21, Netaji Subhash Road, P.B. No. 4, Calcutta-1. (Head Qtrs.): "BALMER"; Everett Travel Service, 1, Old Court House Street, Calcutta-1. (Head Qtrs.): "TRAVERETT"; Indian Air Travels Ltd., 22, Chittaranjan Avenue, Calcutta. (Head Qtrs.): "SKYMASTER"; Jeena & Company, 25, Netaji Subhash Road, Calcutta-1. (Branch): "TRAVELJENA"; Mercury Travels (India) Pvt. Ltd., Oberoi Grand Hotel, Calcutta. (Head Qtrs.): "MERCOTRAVEL"; N. Jamnadas & Co., 61, Lyons Range, Calcutta-1. (Branch): "ENJAYTOURS"; National Travel Agency, 3, Wellesley Place (Dalhousie Square), Calcutta-1. (Head Qtrs.): "SENOSEN"; Orient Express Co. (P) Ltd., Norton Building, 1 & 2, Old Court House Corner, Calcutta. (Branch): "OREXPRESOCO"; Sita World Travel (India) Private Ltd., 24-B, Theatre Road, Calcutta. (Branch): "SITATRAVEL"; Trade Wings (Calcutta) Pvt. Ltd., 15, Old Court House Street, Calcutta-1. (Head Qtrs.): "TRAVELLING"; Travel Corporation (India) Pvt. Ltd., Great Eastern Hotel, Calcutta. (Branch): "TRAVELAIDS"; Vensimal Bassarmal & Bros., 9, Pagiya Pally, Burra Bazar,

Calcutta. (Branch): "VENSIMAL"; Speedways International, 8, Chowringhee Square, Calcutta-13. (Head Qtrs.): "SKYINT".

**Cochin:** Harrison & Crossfields Ltd., Post Box No. 4, Cochin-1 (Head Qtrs.): "CROSFIELD".

**Dehra Dun:** A. S. Chugh & Co., 6, Astley Hall, Dehra Dun (U.P.). (Head Qtrs.): "CHUGH".

**Delhi:** American Express Co., Inc., Hamilton House, A-Block, Connaught Place, New Delhi-1. (Branch): "AMEXCO"; Ambassador Travels Private Ltd., 60, Regal Building, New Delhi-1. (Head Qtrs.): "AMBTREVEL"; Asiatic Travel Service, 1/90, Connaught Place, New Delhi-1. (Branch): "AIRASIA"; Cox & Kings (Agents) Ltd., Indra Palace, Connaught Circus, P.B. No. 134, New Delhi-1. (Branch): "COXSHIP"; Everett Travel Service, Prem House, C-Block, Connaught Place, New Delhi-1. (Branch): "TRAVERETT"; Hind Musafir Agency (P) Ltd., 2, Scindia House, Janpath, New Delhi-1. Information Assistant, Govt. of India Tourist Office, Railway Station, Jaigaon.

Director, Govt. of India Tourist Office, 177-79, King Street (West), at University, Toronto, Canada.

Govt. of India Tourist Office, No. 1, Ginza, 7 Chome, Chuo-Ku, Tokyo (Japan).

Govt. of India Tourist Office, Palmer House, Room Nos. 684-685, Chicago (U.S.A.).

Note: Most of the State Governments have Tourist Offices at the important centres.

### TOURIST CENTRES

**Mount Abu** (hill station): Pop. 8,076 (1961) in Rajasthan, about 4,000 feet above sea-level. *Places worth a visit:* 1. the Dilwara Jain temples (11th-13th century, A.D.) containing the finest marble carvings in India, 2. Achalgarh temples (15th-16th century, A.D.) and Mandakini Kund, 3. Ruins of an ancient town called Chandravati, 4. Nakki Talao (lake), 5. Arbuda Devi, a shrine cut in rock, 6. Guru Shikhar (5,646 ft.), highest point in Abu, 7. Sunset point, 8. Palanpur point, 9. Gaumukh Temple and Agni Kund, 10. the

Municipal Park. Mount Abu is reached by railway and road.

**Agra:** Pop. 5,08,680 (1961), a city in U.P., stands on the banks of the Jamuna. It was the capital of the Moghul Empire. *Places worth a visit:* 1. the Taj Mahal, regarded by many as the most beautiful building in the world, 2. the Fort, 3. the Juma Masjid, 4. Moti Masjid, 5. the tomb of Itmad-ud-Daula, 6. Akbar's tomb at Sikandra about five miles from Agra, 7. Dayal Bagh, 8. Twenty-three miles from Agra is the deserted city of Fatehpur Sikri founded by Akbar.

**Ahmedabad:** in Gujarat is the second largest textile centre in India. It contains numerous monuments of the fifteenth and sixteenth centuries. Pop. 11,49,918 (1961).

*Places worth visiting are:* 1. Jumma Masjid (1423); 2. Shah Alum's Mausoleum (1475); 3. Rani Sipri's Mosque (1540); 4. Mosque of Sidi Sayyad (1572) for traceried windows with palm and parasite design; 5. Shaking Minarets; 6. Shahi Baug where Gurudeo Tagore stayed during his youth and which supplied him with material for his *Hungry Stones* (story); 7. Teen Darwaza (three Gates); 8. Mahatma Gandhi's Sabarmati Ashram; 9. Kankaria Tank; 10. Gujarat University & Gujarat Vidyapitha; 11. ATIRA, Textile Research Institute.

**Aiholi:** near Bagalkot in Mysore State contains about fifty temples important in the development of Hindu architecture and sculpture.

**Ajanta Caves:** are 66 miles north of Aurangabad in Maharashtra. The rock-cut caves are 29 in number (5 chaityas or shrines and 24 viharas or monasteries, all Buddhist) and present a record of a unique combination of painting, sculpture and architecture of a period extending over nine centuries from about the 2nd Century B.C. to about 7th Century A.D. The caves can be reached from Aurangabad where there is a good hotel conducted by the Central Railway.

**Ajmer:** city of considerable antiquity in Rajasthan, Hindu and Muslim religious centre, contains Western Railway workshop. Pop. 2,31,240 (1961). *Places worth a visit:* 1. the Durgah of Khwaja Sahib (tomb of Muslim saint), 2. the Magazine (Akbar's old palace now museum), 3. Ana Sagar Lake (the marble pavilions round the lake were built by Shah Jehan), 4. Adhal-din-ka-bhopra (Hut of two and a half days), 5. Taragarh (Fortress built by Akbar), 6. Mayo College, 7. Pushkar, a most sacred lake in India, is about seven miles away.

**Allahabad:** (also called Prayag); city in U.P. situated at the confluence of the Ganga and the Jamuna. It has an old fort and an Asoka pillar. Sixty-five miles from Allahabad is Kosambi, where the ruins of an ancient capital are being excavated. Pop. 4,11,955 (1961).

The confluence of the Ganga and Jamuna at Prayag is the holiest bathing place for Hindus in India. Every 12 years, Kumbha Mela (religious fair) is held attracting over 40 lakhs of pilgrims during the four weeks; a smaller fair occurs every six years—Adha Kumbhi.

The old Mughal Fort contains an underground temple where well carved images are seen and the pilgrims worship at a small tree taking it to be the Eternal Banyan Tree (Akshaya Vata.)

**Almora:** headquarters of the district of the same name, in U.P. 83 miles from Kathgodam Railway Station, it is the main town in Kumaon Hills (q.v.). Perched at an elevation of 5,600 ft., it is about two miles in length, like a saddle, and is said to have been founded four hundred years ago by Raja Kalyan Chand. Almora has moderate rain-fall, temperate climate, the temperature seldom rising above 88°F., even during the summer days, and comparative freedom from fog. Within easy distance of Almora are many Himalayan peaks—Seehee Debi, Bandnee Debi and Binsar being the chief ones. Binsar Hill also known as Jhandi Dhar is only 13 miles from Almora and the bridge path leading to it, passes through enchanting jungle scenery.

Pindari Glacier can be reached from Almora at a distance of 75 miles, in eight stages, attaining an altitude of 13 to 14,000 ft. The most suitable time for this trip is either May-June or September-October.

Two other places in the Kumaon Hills are: Ranikhet and Naini Tal.

**Alwar, Bikaner, Jodhpur, Kotah**: famous for Rajput historical monuments.

**Amritsar**: city in the Punjab, sacred to the Sikhs. Pop. 3,76,295 (1961). Amritsar is the very centre of the Sikh religion and has a big trade in grain and textiles. *Places worth a visit*: 1. the Golden Temple, 2. Baba Atal Tower, 3. Akal Takht, 4. Ram Bagh Gardens, 5. Fort Govind Garh, and 6. Jalianwalla Bagh Memorial.

**Aurangabad**: in Maharashtra. *Places worth a visit are*: 1. Bibi-ka-Mughbara—the tomb of Aurangzeb's wife which is a replica of the famous Taj, 2. Panchakki (old water-mill), 3. The shrine of Shah Musafir lies nearby, 4. Eight Buddhist caves near the town. Pop. 87,579 (1961).

**Badami**: in Mysore State, is famous for sculptured caves of the 6th century and for a group of Hindu temples. Fifteen miles from Badami is Pattadakal with another group of early Hindu temples (7th or 8th century), examples of pure Dravidian architecture.

**Bangalore**: Largest city in Mysore and a health resort, is about 3,000 feet above sea-level. *Places worth a visit*: 1. Cubbon Park, 2. Lal Bagh, 3. Band-stand, 4. Race Course, 5. Maharaja's Palace, 6. Tipu's Palace, 7. Venkateswaramanaswamy Temple, 8. Vidhan Soudha (new Secretariat). Pop. 9,05,134 (1961).

**Baroda**: Capital of the former Baroda State, now part of Gujarat State, is about 250 miles to the north of Bombay, pop. 2,95,144 (1961). *Places worth a visit*: 1. Laxmi Vilas Palace (the residence of the Maharaja, one of the most beautiful palaces in India), 2. Old Nazar Bagh Palace, 3. Museum and Public Park, 4. Jubilee Garden, 5. L. F. Battery, 6. Kirti Mandir, 7. Baroda University, and 8. Kala Bhavan (Technical School).

**Belur**: in Mysore State, noted for its elaborately sculptured temples of the Hoysala period.

**Banaras\***: town in U.P. on the banks of the Ganges, very sacred to the Hindus and Buddhists alike. It is in fact the religious capital of Hindu India and contains about 1,500 comparatively large temples besides countless minor shrines. It is also reputed to be the oldest city in the country. Pop. 4,71,258 (1961). *Places worth a visit*: 1. Vishwanath Temple, 2. Bharat Mata Temple, 3. Manmandir, with Jaisingh's Observatory, 4. Aurangzeb's Mosque, 5. Gyan Wapi, 6. Nandeswar Kothi, 7. Ramnagar Fort, 8. Banaras Hindu University, and 9. Sarnath, a great Buddhist centre with many architectural remains, is about six miles from Banaras. The Buddha preached his first sermon here.

**Bharatpur**: town in Rajasthan is famous for its historic fort. Pop. 49,778 (1961).

**Bhubaneswar**: Orissa's new capital; city of temples once said to number 7,000. Pop. 38,211. *Places worth a visit*: 1. Lingaraj Temple, 2. Mukteswar Temple, 3. Parasurameswar Temple, 4. Raj Rani Temple. Nearby are the Jain and Buddhist rock-cut caves of Khandagiri and Udayagiri and Asoka's Rock Edict at Dhauhi. Bhubaneswar is on the main S. E. R. line between Waltair and Howrah, about 20 miles from Cuttack and 38 miles from Puri.

**Bijapur**: town in Mysore State, capital of the old Adilshahi Sultans of Bijapur is rich with the remains of palaces, mosques and tombs. *Places worth a visit*: 1. Jami Masjid (the greatest mosque in South India), 2. Gol Gumbaz (the tomb of Muhammad Adil Shah and the second largest dome in the world), also called the Whispering Gallery, 3. Mehtar Mahal, 4. Ashar Mahal, 5. Gagan Mahal, 6. Chini Mahal, 7. Mecca Masjid, 8. Tas-Bavry (water-tank), 9. Malik-I-Maidan (Great Gun), 10. Landi-Kasab Gun, 11. Haidar

Burj (tower), 12. Ibrahim Roza (the tomb and mosque of Ibrahim II), 13. Jala Mandir (reservoir), 14. Chand Bavri (old tank), 15. Granary, 16. Jod Gombaz (double tombs), 17. Bara Kaman Masjid, and 18. Begum Tank. Bijapur is a railway station on the Gadag-Sholapur section of the Southern Railway. Pop. 78,854 (1961).

**Bombay**: second city and port in India called the Gateway to India. Pop.†: 4,152,056. Area (Greater Bombay) 174 sq. miles. *Places worth a visit*: 1. the Gateway of India, 2. Apollo Bunder, 3. Prince of Wales Museum, 4. the Town Hall, and Central Library, 5. Rajabai Tower and University Building, 6. Victoria Terminus of the Central Railway, 7. the General Post Office, 8. Crawford Market, 9. Brabourne Stadium, 10. Chowpatty sands, 11. Malabar Hill, Hanging Gardens and Kamala Nehru Park, 12. Central Station, Terminus of the Western Railway, 13. Race Course, 14. Bhandarwada Reservoir and Gardens, 15. Victoria Gardens and Albert Museum. *Places near Bombay worth a visit*: 1. Juhu (sea-side resort), 2. Versova (sea-side resort), 3. Vihar Lake (from which the city gets part of its water-supply), 4. Kanheri Caves (rock-cut caves of Buddhist origin), 5. Jogeshwari Caves, 6. Vajreshwari (temple and hot springs of medicinal property), 7. Mandapeshwar (cave temple), 8. Nirmal (temple and lake), 9. Ambarnath (temple), 10. Pawai Lake and the Technical Institute, 11. Pali (hot springs and small game shooting), 12. Elephanta Caves, 13. Vaitarna (water supply scheme), 14. Aarey Milk Colony, 15. The oil refineries at Trombay, 16. The Atomic Energy Establishment at Trombay. The chief means of conveyance in Bombay are buses, electric railway, taxis and gharis. (See also under *Maharashtra*).

**Brindavan**: See under Mathura.

**Buddh Gaya**: near Gaya, in Bihar, a Buddhist centre of pilgrimage. It contains the famous mediaeval Buddhist temple near the Bodhi Tree under which Gautam did penance and attained Enlightenment. Pop. 6,299 (1961).

**Bundi**: in Rajasthan is well-known for its buildings. Jungles nearby provide plenty of tiger shooting. Pop. 26,478 (1961).

**Calcutta**: until March, 1912, the headquarters of the Indian Government, and now, as then, the commercial capital of India. It is the terminus of three great railways, and the port of an immense river traffic. Though it lies 84 miles from the Bay of Bengal on the River Hooghly, it has a larger foreign trade than any other Indian port, and its enterprising Port Trust has the largest revenue among Indian port authorities. It is the centre of five great industries—jute, tea, hides and skins, coal and lac. Population of (1961), West Bengal is 34.93 millions and of Calcutta City (Corporation) 2,927,289. *Places worth a visit*: 1. Victoria Memorial (contains a picture-gallery and museum), 2. the Indian Museum, 3. the Zoological Gardens, 4. the Jain Temple, 5. the Kalighat Temple, 6. Belvedere House (where the British Viceroys stayed when on visit to Calcutta), now the National Library, 7. Raj Bhavan (residence of the Governor of West Bengal), 8. Marble Palace (containing art treasures property of the Mullik family), 9. Fort William, 10. the Eden Gardens, 11. the Town Hall, 12. Haig Market, 13. Dalhousie Square, 14. the Race Course, 15. Dhakuria Lake, 16. the Hindu bathing ghata, 17. Dakshineswar Temple. *Places near about Calcutta which are worth a visit are*: 1. Bally (holy place), 2. Belur (home of the Ramakrishna Mission), 3. the Botanical Gardens (contains the biggest banyan tree in existence), 4. Diamond Harbour (fort and customs house), 5. Dum Dum (airport of Calcutta).

**Cape Comorin**: also called Kanya Kumari in Madras State, is the southern-most tip of India.

It is the place where the Arabian Sea and the Bay of Bengal meet the Indian Ocean. Tourists go to have a view of sun-rise and sun-set.

It is easily reached from Trivandrum by public transport buses or private conveyance.

The spot is sacred to the Hindus and a place of pilgrimage as the reputed abode of Kanya Kumari the virgin goddess to whom the temple there is dedicated.

**Chandigarh†**: capital of Punjab is the youngest of Indian Capital cities. Chandigarh is situated near Kalka railway station of the Northern Railway.

**Conjeevaram (Kanchipuram)**: the city of temples, the Banaras of the South, is about 45 miles to the south-west of Madras. It is one of the seven holy cities of India and the only one in the South. The place is divided into three parts, Shiva Conjeevaram, Vishnu Conjeevaram and Pillayar Paliyam, a testimony to the part played by all the main Hindu religious sects in the history of the city. There are over a thousand temples in all. *Places worth a visit*: 1. Kailasnath Temple (over 1,000 years old), 2. Vaikunth Perumal Temple (over 1,000 years old), 3. Ekambareswar Temple (400 years old), 4. Vedaraja Perumal Temple. Pop. 92,714 (1961).

Conjeevaram is on the Renigunta-Chingleput section of the Southern Railway and is easily accessible from Madras via Chingleput.

**Cooch-Behar**: in West Bengal, is known for the facilities and opportunities which it offers to shikaris in search of big game hunting. Pop. 41,922 (1961).

**Coonoor**: hill station on the Nilgiri Hills in Madras State, is about 6,000 feet above sea-level. The climate is mild and genial neither too hot in the summer nor too cold in the winter. The mean day temperature is 64 degrees. *Places worth a visit*: 1. Sim's Park (contains collection of plants), 2. Low's Waterfall, 3. Tiger Rock (hill fort). There are innumerable places for excursion and picnic purposes, e.g. the Droog, the Dolfin Nose, the Lamb's Rock, Laz Falls, Lady Canning Seat, the Ralliah Dam and Catherine Falls. The chief means of conveyance are cars which can be hired.

Coonoor lies on the narrow-gauge Mettupalayam-Ootacamund line of the Southern Railway. It is also connected by road with Ootacamund, and Kotagiri, another hill station. Pop. 30,690 (1961).

**Darjeeling**: hill station in West Bengal, lies on the lower slopes of the Himalayas about 370 miles to the north of Calcutta. It is 7,110 feet above sea-level. The maximum temperature in the summer is about 70 degrees and the minimum in the winter is about 35. The town commands picturesque views including that of Mount Kanchenjunga and on a clear day of Mount Everest. Various sports are available during the season such as fishing, shooting and horse-riding. Darjeeling has also a first-class sanatorium known as Eden Sanatorium. *Places worth a visit*: 1. Government House, 2. Town Hall, 3. Museum, 4. Observatory Hill (from where a magnificent view of Kanchenjunga can be obtained), 5. the Mall, 6. Natural History Botanical Gardens, 7. Birch Hill Park, 8. Senchal Lakes, 9. Ghoom Monastery, 10. Tiger Hill (from where the sunrise over Everest is generally viewed on clear October mornings).

Darjeeling is the terminus of the meter-gauge Darjeeling-Himalayan section of the N.E. Railway and is about 27 hours' journey from Calcutta. From Siliguri where the visitor has to change, Darjeeling can also be reached by car. Pop. 40,651 (1961).

**Daulatabad**: in Maharashtra near Aurangabad, contains the famous rock-hewn 12th century fortress. Close by is the tomb of the Moghul Emperor Aurangzeb.

**Delhi (New)**: the capital of India and the seat of the Union Government. New Delhi houses the President's House (now called Rashtrapati Bhavan), the Parliament, and the Secretariat. Pop. 2,61,545 (1961).

**Delhi (Old)**: also called Shahjahanabad, the ancient capital of India stands on the Jamuna and is enclosed by a stone wall with seven gates. No city in India contains as many historical remains as Old Delhi. Pop. 9,14,790.

\* The official name is Varanasi.

† Greater Bombay.

‡ Population 89,321 (1961).

(1951). *Places worth a visit*: Red Fort, Jama Masjid, Rajghat (Mahatma Gandhi's Samadhi), Ashoka Pillars, Feroze Shah Kotla, Purana Quila, Humayun's Tomb, Isa Khan's Tomb, Lodi Park and Lodi Tombs, Safdar Jang's Tomb, Kutab Minar, Tughlaqabad, India Gate or War Memorial Arch, Shanti Ghat (Jawaharlal Nehru's Samadhi), Rashtrapati Bhavan, Parliament House, National Museum, Shri Lakshmi Narayan Temple, Jantar Mantar or the Observatory.

Delhi is directly connected by rail and air with Bombay, Calcutta and Madras. Delhi also lies on the direct East-West transworld air routes linking India with all the major cities of the world.

**Elephanta Caves**: on an island of the same name, about 6 miles from Bombay harbour, are mainly dedicated to Shiva and the sculpture shows that God in His many forms. These belong to the 7-8th century. The main cave, almost 125 ft x 125 ft, is the only impressive structure, and the rest of the island is used more as a picnic spot by holiday makers. There is a launch service as well as a ferry steamer. An official of the Archaeological Department is available on the spot.

The main figure of three-heads, Mahesh Murti, is considered among the world's most impressive sculptures, for its size, beauty and execution.

**Ellora Caves**: are situated about 15 miles to the north-west of Aurangabad in Maharashtra. The caves which are excavated in the face of a hill are 34 in number and run north to south for a distance of a mile and a quarter. The hill has the shape of a crescent the southern, the centre, and the northern being occupied respectively by Buddhist, Hindu and Jain temples. There are 12 Buddhist caves, 17 Hindu caves and 5 Jain caves. The Hindu caves are more lavishly decorated than others and Kailash temple which is the most impressive is also the biggest cave temple in India. It stands in a court averaging 154 feet wide, 276 feet long with a scrap 107 feet high at the back. Among other notable caves are caves X, XII, XIV, XV, XXIX, XXXIII, XXXIV. It is believed that the Ellora Caves are about a thousand years old. They are reached from Aurangabad by bus or car. Thrishneshwar temple near the caves is an important place.

**Ernakulam**: in Kerala State, is famous for its backwaters. Pop. 1,17,253 (1961).

**Fatehpur Sikri**: City founded by Akbar in 1569 but abandoned soon after, is situated 23 miles from Agra. The place contains a number of palaces, shrines, mosques built of marble and red sandstone. *The more notable among the monuments are*: 1. Buland Darwaja, the Gateway of Victory, built to commemorate the conquest of Khandesh. It is 176 feet high and is the highest gateway in India. It forms the southern gateway to the most imposing structure in Fatehpur Sikri, 2. the Jami Masjid, said to be a copy of the mosque at Mecca or Medina, 3. Panch Mahal, 4. Diwan-i-Khas (Hall of Private Audience), 5. Mariam's House, 6. Palace of Jodh Bai, 7. House of Birbal, 8. Elephant Tower and 9. Khas Mahal. Fatehpur Sikri has a railway station, and the city can be easily reached by car.

**Gaya**: big town in Bihar, on the Phalgu river, sacred to Hindus and Buddhists alike. The Vishnupada, a temple, built over the footprint of Vishnu is the centre of the pilgrimage and the Akshaya Vata, the Eternal Banyan tree, is an object of veneration. See also Budha Gaya. Population 1,51,105 (1961).

**Gersoppa Falls**: See Jog Falls.

**Golconda**: 5 miles from Hyderabad is an ancient spectacular fort (Andhra).

**Gopalpur-on-Sea**: in Orissa is a sea-side resort for a quiet holiday.

**Gulmarg**: an ideal hill station in Kashmir, about twenty-nine miles from Srinagar, is a little less than 9,000 feet above sea-level. The place boasts of all modern facilities and is particularly

noted as a winter playground affording scope for skating, ski-ing, tobogganing, and golf. Round about are ideal places for walks, rides and excursions.

**Gwalior**: in Madhya Pradesh, best known for its fort lies about 200 miles to the south of Delhi. *Places worth visiting*: 1. Gwalior fort includes Man Singh's Palace and a number of temples and shrines, 2. Tansen's Tomb, 3. Rani (of Jhansi) Laxmi Bai's Chhatra, 4. the Chhatris of other Mahratta rulers, 5. Tomb of Mahomed Ghaus, 6. Jami Masjid, 7. State Museum, 8. King George Park and Zoo, 9. Motimahal Palace. Seventy-two miles from Gwalior is Shivpuri or Sipri famous for its lake and scenery. Survaya which is twelve miles again from Shivpuri contains the remains of a fortress of the early mediaeval period. Gwalior is on the main Central Railway line between Bombay and Delhi. Pop.† 3,00,587 (1961).

**Halebid**: in Mysore State is well known for its elaborately sculptured temples of the Hoysala period.

**Hampi**: in Mysore State, is the ruined capital of the Vijayanagar Empire. It is 8 miles from the Hospet Railway Station on the Southern Railway.

**Hardwar**: in U.P. on the Inner Himalayas, on the Ganga banks is a great Hindu pilgrim centre. It is situated at the foot of the Siwalik hills on the right bank of the Ganga where the river enters the plains. The object of attraction is the bathing ghat called Hari Ki Payri (step of Hari). Every twelfth year the Kumbh Mela is held, which has a special sanctity. Devout pilgrims proceed from here further up to Rishikesh, and to Badrinath. Pop. 58,513 (1961).

**Hyderabad-Secunderabad**: the twin city linked together by the Hussain-Sagar (lake), is the capital of Andhra Pradesh and is centrally situated for all-India communications. It is a railway junction as well as an important air-port, and stands on the banks of the river Musi. It has many attractions. 1. Char Minar (four Minarets) dominates the City with 80 ft. high-minarets, built in 1591; 2. Osmania University with its impressive building and Ajanta Pavilion; 3. Town Hall; 4. State Museum and Art Gallery; 5. Salarjung Museum—one of the richest and most varied collections in Asia; 6. Health Museum and Public gardens. Golconda Fort forms one of the suburbs of Hyderabad. Many new industries are coming up in the city. Pop. 12,51,119 (1961).

**Imphal**: north-east frontier town and capital of Manipur. It is celebrated for its Manipuri dance and handloom products. Pop. 67,717 (1961).

**Jabalpur**: in Madhya Pradesh; fourteen miles from Jabalpur are Marble Rocks and Dhunva Dhar (water-falls) on the Narmada. Pop.† 3,67,014 (1961).

**Jaipur**: capital of Rajasthan State, is a well laid-out modern city. Jaipur pottery, brass ware, sculpture, ivory and sandalwood work and jewellery have enjoyed a great reputation from ancient times. Pop. 4,03,444 (1961). *Places worth a visit*: 1. Maharaja's Palace, 2. Jai Singh's Observatory, 3. Amber (ancient capital), 4. Hawa Mahal, 5. Palace Armoury, 6. Cenotaphs of the Queens, 7. Galta (place of pilgrimage) and Ghat, 8. School of Arts, 9. Public Library, 10. Transport Gardens, 11. Museum.

Jaipur is on the metre-gauge line of the Western Railway between Ahmedabad and Delhi.

**Jamshedpur**: in Bihar, famous as India's 'steel town'. Pop. 3,28,044 (1961).

Today besides the two-million ton steel plant there are many subsidiary units. Tata Locomotive Engineering Co. Ltd. manufactures metre gauge locomotives and boilers and Mercedes-Benz trucks and buses. The National Metallurgical Laboratory is also situated here. The town is well-laid out with modern amenities and welfare schemes.

**Jog Falls**: also known as Gersoppa Falls in Mysore State, are one of the highest waterfalls in the world. The river Sharavati takes a big leap down a steep rock from a height of 830 feet. The breadth of the stream here is 230 feet and in four separate cascades known as the Raja, Roarer, Rocket and La Dame Blanche, it takes a magnificent leap. The best time to see them is early December.

**Junagadh**: in Gujarat, is situated below the celebrated Girnar Hill and is one of the most ancient cities in India. The temples on the hill are noted for their architecture and delicate painting. On the way to Girnar is a rock with an Asoka edict. Pop. 74,298 (1961).

In Junagadh is the famous Gir Forest—the only place in Asia where lions are found.

**Kangra Valley**: famous for its picturesque landscapes and historic temples, lies in the Punjab. Semi-urban hill stations are Kangra and Dharamsala. *Places worth a visit in Dharamsala are*: 1. Bhagsunath Water Springs, 2. State Quarries, 3. Himalayan Snow View. The chief means of conveyance are cars and buses. There is also a dak bungalow at Dharamsala where visitors can stay. To get to the Kangra Valley a visitor has to change at Pathankot into the narrow-gauge railway which runs to Nagrota. Dharamsala can also be reached from Pathankot by car.

**Kanheri**: near Bombay, is famous for its Buddhist caves dating back to the 1st century A. D. It is about twenty miles from Bombay.

**Kashmir**: unsurpassed for the beauty of its mountains, lakes and valleys is a part of the State of Jammu and Kashmir, situated in the far north of India. Its capital Srinagar on the Jhelum is 5,000 ft. above sea-level and famous for its shawls and carpets and the exquisite beauty of its wood-work, rich embroidery and papier-mache articles. Its fruits and vegetables are equally well-known. Well-furnished, luxurious house-boats moored along the winding Jhelum or in the Dal Lake provide all necessary comforts amidst gorgeous natural surroundings. The normal recreations include Shikara rides on the lakes and canals, mountain-climbing, big and small game hunting, golf, fishing and swimming. Gulmarg, Sonamarg and Pahalgam are favourite holiday resorts in the neighbouring mountains and can be reached by motorable road. The way to Srinagar is via Pathankot, which is a railway terminus. From Pathankot one goes to Srinagar by road passing Jammu on the way. There is a regular air service from Delhi to Srinagar. *Places worth a visit*: 1. The Moghul Gardens, like a. Shalimar, b. Chashmashahi, c. Acchabal, d. Nishat. 2. The lakes like a. Dal Lake, b. Wular Lake, c. Anchar Lake, d. Manasbal Lake and so on. 3. Places of historical and religious interest like a. Martand temple, b. Pandranthan temple, c. Bhaumazu caves, d. Avantipura, e. Pari Mahal and f. Sankaracharya Hill.

**Khajuraho**: in Chhattarpur in Madhya Pradesh, is famous for its group of highly ornate mediaeval Hindu temples. From the nearest railway station Harpalpur on the Jhansi-Manikpur line, it is about 60 miles by motorable road. It has dak bungalows and circuit house rooms.

**Kodaikanal**: famous hill station on the Palni Hills in Madras State. It is about 7,000 feet above sea-level and has a temperate climate. The place affords plenty of scope for such recreations as walking, hiking, boating, fishing, hill climbing and golf. For the more adventurous there is big game hunting. Kodaikanal is the delight of the gardener and flowers are in bloom all the year round. *Places worth a visit*: 1. the lake skirted by a three-mile road, 2. the water falls like a. Fairy Falls, b. Silver Cascades, c. Bear Shola Falls, d. Glen Falls, e. Pambur Falls; 3. There are viewpoints like a. Coaker's Walk, b. Pillar Rocks, c. Prospect Point, d. Vembadi Shola Peak, e. Dolphin's Nose; 4. the Solar Observatory.

There are a number of boarding houses. Kodaikanal is reached from Kodaikanal Road railway junction on the Southern Railway

† Including Morar Cantt.

‡ Including Cantt. and Khamarira.

via Tiruchirapalli. Kodaikanal town is 50 miles from the railway station and the journey can be done by car, taxi or bus on a very good motoring road. Pop. 12,860 (1961).

**Kolar Gold Fields:** in Mysore State. The entire mining and residential area is known as KGF (Kolar Gold Fields) and is a modern and self-contained unit with water supply, electricity and hospital facilities. The city occupies an area of over 30 sq. miles, and houses nearly 160,000 people. It is about 90 miles by road from Bangalore. The mines have reached a depth of about 12,000 ft. Pop. 1,46,811 (1961).

**Konarak or Konark:** in Orissa, is a huge Temple of the Sun also called the Black Pagoda. It is remarkable both as an example of ancient Indian architecture and sculpture and of engineering skill. Konarak is about 50 miles from Puri, 40 miles from Bhubaneswar. The road is open from November to May.

**Kotagiri:** A hill station on the Nilgiris. It is about 6,500 feet above sea-level and has a mean day temperature of 62°F. The town has electricity, a number of shops and boarding houses, a local board hospital and golf course. Kotagiri is reached from Coonoor or Ootacamund by car or bus. The roads are excellent and there is a regular bus service. Between Kotagiri and Ootacamund the road goes over Doddabetta the highest peak (8,760 ft.) in the Nilgiri Hills (Madras State). Pop. 15,509 (1961).

**Kulu Valley:** well-known for the variety of its scenery, fruit orchards and places of historical interest is situated in the Punjab, north of Simla. It is ideal for hiking and trout fishing. The important part of the valley from the tourist's point of view is the road which runs from Pathankot or Nagrota the rail-heads into the valley. The summer is never uncomfortably hot. The main centres of the Kulu Valley are: 1. Kulu or Sultanpur, the principal town, about 4,000 feet above sea-level. It is the main shopping centre and has a dak bungalow, and a number of rest-houses. 2. Raison, 8 miles from Sultanpur and 4,700 feet above sea-level. The available sports are golf, tennis and swimming. Mayflower and the Shacks are two hotels. 3. Katrain, is in the widest part of the Valley, 12 miles from Sultanpur and 4,800 feet above sea-level. 4. Naggar, summer headquarters, is 5,800 feet above sea-level. 5. Manali, the head of the valley and terminus of the motor road, is 23 miles from Sultanpur and is situated amid typical Alpine scenery. Accommodation for visitors is available at Sunshine Orchard, Departmental rest houses and Mission Hospital. Pathankot is the rail-head for Kulu. From Pathankot Kulu is reached by bus or car, or from Pathankot to Nagrota by metre-gauge railway and from there by bus to Kulu.

**Kumaon Hills:** in U.P. form part of the Himalayas and are known as the sportsman's paradise. Three important summer resorts are Almora, Nainital and Ranikhet. Most mountaineering parties establish their base at Ranikhet for ascent to the Pindari Glacier.

(See also 'Almora', 'Nainital', 'Ranikhet').

**Lansdowne:** in U.P. in Garhwal about half way between Mussoorie and Nainital. Pop. 6,381 (1961).

**Lonavla-Khandala:** in Maharashtra, lies in the heart of the Western Ghats. Hill forts associated with Maratha rule are in the vicinity. The Karla, Bheda and Bhaja caves, 10 miles from Lonavla, are an added attraction (see also under Poona District).

**Lucknow:** the city of gardens is the capital of U.P. It is full of places of historical interest and of architectural beauty and is generally regarded as the cultural capital of North India. It is well-known for its pottery, copper and brassware, wood and ivory carvings and gold and silver embroidery on cloth, and rich perfumes. Pop. 595,440 (1961). *Places worth a visit:* 1. Great Imambara, 2. Small Imambara, 3. Tombs of Wajid Ali Shah and his Begum, 4. Kaiser Bagh Palace, 5. Chattr Manzil, 6. Dilkusha Palace, 7. Moti Mahal, 8. Machi Bhavan

Palace, 9. Jumma Masjid, 10. Charbagh, 11. Alambagh, 12. Sikander Bagh, 13. Musa Bagh, 14. Wingfield Park, 15. Residency, 16. Have-lock's Tomb, 17. Clock Tower, 18. Museum, 19. Observatory, 20. Iron Bridge. Lucknow is a big junction on the Northern Railway.

**Madras:** the third largest city in the sub-continent and the capital of Madras State. Pop. 17,29,141 (1961 census). *Places worth a visit:* 1. Fort St. George (contains the oldest Protestant church in the country where Clive was married), 2. High Court, 3. Light House, from the top of which one can get a panoramic view of the city, 4. Marina. The Marina is one of the most beautiful promenades in the world; sea-bathing is possible at certain points, 5. The Museum, 6. Connemara Library, 7. the Zoo, 8. the Observatory, 9. Moore Market, 10. Parthasarathy Temple, 11. Mylapore Tank and Kapaleswar Temple, 12. St. George's Cathedral, 13. St. Thomas Mount, 14. Race Course, 15. The Integral Coach Factory at Perambur, where passenger coaches are made, 16. Adyar, where the headquarters of the Theosophical Society are located., 1. the ruins of the Gingee Fort famous in the days of the Vijayanagar Empire are about 95 miles from Madras and can be reached by rail and road, 2. the seven Pagodas of Mahabalipuram are 35 miles by road from Madras and can also be reached by road from Chingleput Railway Junction.

**Madurai:** the second biggest city in Madras State, is a great religious centre, a seat of Tamil literature and Hindu temple art. The silk-weaving and textile industries of Madurai are also noteworthy. *Places worth a visit:* 1. The Great Temple, actually made up of two temples one of Meenakshi and the other of Shiva, 2. Tirumala Nayak's Palace, 3. Gandhi Museum and Gandhigram. Pop. 4,24,810 (1961).

**Mahabaleshwar:** a hill station in Maharashtra.

(See under Satara District.)

Mahabaleshwar can be reached from Poona by road.

**Murud:** Maharashtra's first sea-side holiday camp, set up by the State Dept. of Tourism, can be reached by sea in four hours from Bombay. By road it is 150 miles away.

**Mandu:** in Madhya Pradesh is one of the greatest mediaeval city sites in India with extensive remains including fortifications and palaces. Seventy-eight miles west of Mandu by road via Dhar are Bagh caves adorned with fine old frescoes.

**Matheran:** the nearest hill station to Bombay is 2,650 feet above sea-level. In a walk round the eighteen-mile circumference of the hill the visitor can reach no fewer than thirty-three points of which the following deserve mention: 1. Garbut Point, 2. Panorama Point, 3. Porcupine Point, 4. Louisa Point, 5. Chowk Point, 6. Alexandra Point, 7. Belvedere Point, 8. Echo Point, 9. Monkey Point. At every one of these points the visitor will find comfortable seats, shady trees and fine views. Among other places which are worth a visit are: 1. Charlotte Lake, 2. Paymaster Park, 3. Band-stand, 4. Castle Hill Tower, 5. Race Course. The chief recreations are walking and riding. Rickshaws, munchis and horses are the chief means of conveyance.

Matheran is reached from Neral Station on the main railway line between Bombay and Poona. From Neral there is a light railway to Matheran which is about one-and-a-half-hour's journey. Alternatively one can do the journey by rickshaw or pony by previous engagement at Matheran.

**Mathura-Brindavan:** in U.P. is an important place of pilgrimage for Hindus, because of its associations with Shri Krishna. Near the railway station is an archaeological museum which houses unique relics of Kushan art. Six miles from Mathura is Brindavan. *Places worth a visit:* 1. Govind Dev Temple, 2. Gopinath Temple, 3. Ranganath Mandir.

There are travellers' bungalows. Brindavan is accessible by railway or road from Mathura. Pop. 125,258 (1961).

**Mussoorie:** A hill station in U.P. lies 18 miles to the north of Dehra Dun. It is 6,580 feet above sea-level. The town has excellent water-supply, electric lighting system, hospitals, nursing homes and some of the best schools in India both for boys and girls. Hiking and going on excursion or picnic are among the main recreations. *Places worth a visit:* 1. The falls like a. Bhatta Falls, b. Kamptee Falls, c. Hearsay Falls, d. Mossey Falls, 2. Wimper's Tank, 3. Band-stand. Mussoorie is reached from Dehra Dun by car or bus and is about two hours' journey. Pop. 9,849 (1961).

**Mysore (State):** Mysore is a picturesque land of forest and mountain presenting the most diversified and beautiful scenery. In the southern forests are found wild elephants for the capture of which khedda operations are undertaken from time to time. Tigers, leopards, bears and bisons are also numerous. *Places worth a visit in Mysore State:* 1. The Chenna Kesava Temple at Belur, 24 miles from Hassan, 2. Sivasamudram Falls on the Caverry River, 3. Hoysaleswara Temple at Halebid, 4. Gersoppa Falls also called the Jog Falls on the Sharavati River, the most famous beauty spot in Mysore. The falls are higher than Niagara, 5. Kolar Gold Fields, the biggest in India worked by electric power, 6. Nandidurg, a hill station near Bangalore, and the summer residence of Tippu Sultan, 7. Srirangapatnam of historical and religious interest as the capital of Tippu and as the city of many temples, 8. Shravanabelgola, the great Jain religious centre with the huge monolith Gomateshwara and of course the city of Bangalore and the town of Mysore.

**Mysore (City):** second city in the State, It attracts great crowds twice a year namely the Maharaja's birthday and the Dasarah. *Places worth a visit:* 1. The palaces like the Maharaja's Palace, Jaganmohan Palace and so on, 2. Chamundi Hill, with the Bull and the Temple, 3. Zoological Gardens, 4. Silk Factory, 5. Sandalwood Factory, 6. Krishnarajasagar Dam and the Brindavan Gardens, among the most beautiful in the world, about 12 miles from Mysore. Mysore is one of the termini of the Southern Railway. Pop. 2,53,865 (1961).

**Naini Tal:** hill station is about 6,350 feet above sea-level. Among the principal recreations are hiking, boating and yachting on the lake around which the town stands, and fishing and riding. *Places worth a visit:* 1. Cheena Peak, 2. Land's End, 3. Lariya Kanta Peak, 4. Sher-ka-Danda Peak, 5. Tiffin Top or Dorothy Seat, 6. Camel's Peak or Deopatta Peak. Naini Tal is 22 miles from Kathgodam railway station which is connected with Bareilly and Mathura. From Kathgodam one goes by bus or car to Naini Tal which is 22 miles away. Pop. 14,995 (1961).

**Nalanda:** in Bihar, approachable from Patna by rail or motor, contains a group of ruined Buddhist temples and monasteries and a small local museum. It was the seat of an ancient Buddhist university.

**Nasik:** in Maharashtra and 117 miles from Bombay on the N.E. line of the Central Railway, is a place of pilgrimage for Hindus and is famous for Buddhist rock-cut temples of the first century B.C. and later. Pop. 1,31,103 (1961). The golf links at near-by Deolali are an added attraction.

**Ootacamund:** hill station in Madras State stands 7,500 feet above sea-level on the Nilgiris. *Places worth a visit:* 1. Botanical Gardens, 2. Race Course, 3. Assembly Room, 4. Doddabetta, the highest peak in the Nilgiris, 5. Pykara Hydro-Electric Dam which is about 18 miles from Ootacamund. Ootacamund is the terminus of the Nilgiri mountain railway and 6. Kundah Hydro-electric Scheme which includes many lakes, dams and power houses. Pop. 50,140 (1961).

**Pachmarhi:** hill station, was summer capital of Madhya Pradesh, lies on the Mahadeo hills of the Satpura Range and is about 3,500 feet above sea-level. *Places worth a visit:* 1. Bee Dam, 2. Mahadeo Caves, 3. Dhupgarh, highest point in the Satpuras, 4. Dorothy Deep Falls, 5. Duchess Falls, 6. Lansdowne Hill, 7. Nilphur springs, 8. Waters Meet, 9. Big Falls, 10. Pansy Pool, 11. Twipram Pool, 12. Saunder's Pool, 13. Pandava Caves. Pachmarhi is reached from Pipariya Station on the main Central Railway line from Bombay to Jabalpur. From Pipariya, Pachmarhi is 32 miles. There are facilities for swimming, trekking and riding. Pop. 653 (1961).

**Padmanabhapuram:** in Kerala, is the ancient capital of the former Travancore State. *Place worth a visit:* Palace.

**Pahalgam:** in Kashmir in the lap of the Lidder Valley is situated 60 miles from Srinagar and is famous for its camping sites, and as a base for the Amarnath Cave and Kolahoi glacier. Pop. 1,920 (1961).

**Palitana:** in Saurashtra, is famous for its holy hill Shatrunjaya (see separate note) and its Jain temples. Pop. 24,561 (1961).

**Pandharpur:** town in Sholapur District in Maharashtra. It stands on the Bhima river and is one of the most frequented places of pilgrimage in Maharashtra. The centre of devotion is the temple dedicated to Vithoba, an incarnation of Vishnu. Fairs are held annually in honour of the God. Pop. 45,421 (1961).

**Patna:** capital of Bihar, stands on the site of the ancient city of Pataliputra. Pop. 3,63,700 (1961).

**Poona:** in Maharashtra and 120 miles from Bombay, has many historical buildings and one of the best race courses in India. *Places worth a visit are:* Shanwar Wada, the National Chemical Laboratory, the Defence Academy and the Central Water and Power Research Station at Khadakvasla. Other show-places near Poona are: Sinhagad and Purandar. The factory which manufactures antibiotics at Pimpri is worth a visit. See also Poona District. Pop. 7,21,896† (1961).

**Porbandar:** in Gujarat, is the birth-place of Mahatma Gandhi and an attractive summer resort. Pop. 75,081 (1961).

**Prabhas Patan:** in Gujarat, is the site of the famous Somnath Temple, which was destroyed and rebuilt several times. Its last construction was begun in 1951.

**Puri:** (*Jagannath Puri*): famous for the Jagannath Temple, is a coastal town in Orissa. Other places worth a visit are the monastic establishments (maths). Fifty miles from Puri is Konarak, the Sun Temple. Pop. 60,815 (1961).

**Rameshwaram:** This holy town in Madras State is built on an island in the Palk Straits. It contains one of India's most venerated temples, perhaps the finest example of South Indian architecture. It is in the form of a quadrangular enclosure 650 ft. by 1,000 ft. The temple is renowned for its vast pillared corridors nearly 4,000 ft. long. It is near the tip of the Indian peninsula. Pop. 6,801 (1961).

**Ranchi:** hill station and summer resort of Bihar, noted for its picturesque scenery and fine roads. It is the site of heavy machine building plants. Pop. 1,40,253.† (1961).

**Ranikhet:** is a hill station in U.P. on the Kumaon Hills. Most mountaineering parties establish their bases at Ranikhet.

**Sanchi:** small village near Bhopal in Madhya Pradesh, famous for the Buddhist stupa which is the largest and the best preserved in India. Sanchi is on the main Central Rly. near Bhopal.

**Santiniketan:** in West Bengal, is the home of the famous Visva Bharati, the international university founded by Tagore. *Places worth a visit are:* Rabindra Bhavan (the poet's residence) where his personal belongings, manuscripts, etc. are on display and the poet's mud hut where he wrote many of his famous books.

The place is 91 miles from Calcutta on the Eastern Railway and 2 miles from Bolpur Station.

**Sasaram:** in Bihar is known for the magnificent tomb of Sher Shah, Emperor of Delhi. Pop. 37,782 (1961).

**Seringapatam:** or Srirangapattana in Mysore State, 9 miles by road from Mysore city was the ancient capital of Tipu Sultan. It is situated on an island on the Kaveri. It has the Sultan's fort, mosque and palaces. There are also many old temples. Pop. 11,423 (1961).

**Sevagram:** near Wardha in Maharashtra is the village where Mahatma Gandhi founded his ashram. It has been the home of many Gandhian institutions.

**Shatrunjaya Hills.**—Shatrunjaya, near Palitana in Saurashtra, is also known to the Jains as Siddhagiri or Siddhachala or the Hill of the Perfected Ones. It is the most sacred place (*tirtha*) of Shvetambara Jains. There are a great number of temples in groups on *touks* or summits.

**Shillong:** is the capital of the Assam Government. Thirty-six miles from here is Cherrapunji, the wettest place in the world. Pop. 72,438 (1961).

**Shivpuri:** also known as Sipri is in Madhya Pradesh, 72 miles from Gwalior. It is an interesting tourist resort with good hunting and boating possibilities. Pop. 28,681 (1961).

**Simla:** the former summer capital of the Government of India and the Government of the Punjab, it is situated on a spur of the Himalayas at a height of 7,200 feet. Among the recreations of the place are hiking, riding and shooting. The roads are excellent. *Places worth a visit:* 1. President's House, 2. Race Course, 3. Jakko Hill, 4. Observatory Hill, 5. Prospect Hill, and 6. Mashobra-Mahasu, seven miles away. All through the scenery is superb, with mountain peaks or luxuriant foliage. Simla is now the capital of Himachal Pradesh. Pop. 42,597 (1961).

**Somnath:** see under Prabhas Patan.

**Sraavanabelgola:** in Mysore State, is noted for its Jain temples and the colossal statue of Gomatesvara which is 65 ft. high, the tallest monolithic in the world. It was erected in 983 A.D.

**Srirangam:** an island on the cauvery, two miles north of Tiruchirapalli (Trichinopoly), contains one of the largest temples in South India. The temple is consecrated to Ranganath (Vishnu) and contains a hall of 1,000 columns. The north gopuram is 152 feet high. Pop. 41,949 (1961).

**Tanjore:** in the delta of the Cauvery river in Madras State is noted for its temples and palaces. It was the capital of the Cholas.

*Places worth a visit:* 1. the temple of Brihadishvara built by Raja-Raja the great, 2. Naik's Court, 3. Maratha Court (the two together are often called the Palace in Tanjore).

Tanjore is reached from Madras by the Southern Railway. Pop. 1,11,099 (1961).

**Tiruchirapalli (Trichinopoly):** the third largest city in Madras State is situated on the Cauvery. It is now a great educational centre. *Places worth a visit:* 1. the Rock temple, 2. the two huge masses of granite known as the Golden Rock and Fakir Rock, 3. the Jambukeshwar Temple, two miles north of Trichinopoly dedicated to Appulinga or Siva. Pop. 2,49,862 (1961). See also Srirangam.

**Travancore:** (now constituent part of Kerala State): the most beautiful and fertile region in all southern India, has many charms to offer the traveller within its domains.

**Trivandrum:** the capital of Kerala, is accessible by well-kept roads and railway, and is also now connected by air with Bombay, Madras and Colombo. *Places worth a visit:* 1. the Palaces, 2. Museum, 3. Picture Gallery, 4. Zoo, 5. Aquarium and 6. Padmanabha Temple.

North of Trivandrum is the ancient town of Quilon and to the north of this again, a pleasant trip by boat along delightful backwaters or by car along a good motor road, is the busy seaport of Alleppey.

About seven miles south of Trivandrum is Kovalam, a pleasant seaside resort with good facilities for bathing.

On the way to Cape Comorin from Trivandrum is Shuchindra Temple which should also be seen. Pop. 239,815 (1961).

**Udaipur:** in Rajasthan, is a city of lakes with island palaces. Seventy miles from Udaipur is Chittorgarh, the abandoned capital of Mewar, famous for its Tower of Victory. Pop. 1,11,139 (1961).

**Ujjain:** on the Sipra in Madhya Pradesh, is one of the seven cities sacred to the Hindus. Also known as Avanti. The Oriental Museum has many valuable manuscripts and pieces of sculpture. Is supposed to be the seat of King Vikrama. Mahakaleswar temple is an attraction of pilgrimage. Pop. 1,44,161 (1961).

## NEW INDIA

The new India has its own show places, where much of the country's industrial life is centred. Most of them are connected with the Five Year Plan programme and are in the main a post-independence development. Some of these we give in the notes on the older towns above. Some other typical centres we give below:

**Anand:** town half way between Baroda and Ahmedabad, where the headquarters of the cooperative society producing milk, butter, cheese and baby food are located—Amul. The cooperative dairy, without keeping any cattle of its own is an up-to-date and modern unit with 40,000 farmers spread over an area of 1,300 square miles around it as members.

**Bailadia:** in Madhya Pradesh, is a rich iron ore deposit mine (public sector), capable of producing four million tons of ore per year. It is being developed with Japanese help for exporting ore to Japan. (App. cost Rs. 16 crores).

**Berauni:** Oil refinery in Bihar for processing crude oil into gasoline, turbine fuel, kerosene, diesel oil, furnace oil etc., being developed with USSR assistance. Full capacity in three stages, first two stages being complete already (capacity 2 million tonnes, App. cost Rs. 39 crores.) Also a Thermal Power Station.

**Batanagar:** an industrial town near Calcutta. The Bata Shoe Factory is located here.

**Bhadravati:** in Mysore State. The Mysore Government's iron and steel plant is located here.

**Bhakra-Nangal:** twin-towns, which have grown recently round the huge Rs. 170 crore hydro-electric and irrigation project the biggest in the country, in which the waters of the Sutlej are controlled by dams, and diverted for irrigation and the generation of electric power. A modern fertilizer factory was built and commissioned on Feb. 22, 1961 at Naya Nangal.

**Bhilai:** in Drug district of M.P., 176 miles from Nagpur on the Howrah line is the site of an integrated iron and steel plant, set up in the public sector with Russian help.

**Bokaro:** in Bihar, site of the Bokaro Steel (public sector) plant, (distinct from Bokaro thermal power station of the D.V.C.) being built with Soviet help. Bokaro Steel Ltd., as a new Co., was established in 1964.

**Burnpur and Kulti:** twin towns in which the Indian Iron and Steel Co. Ltd. has its works. Situated near Asansol on the border of West Bengal and Bihar, on the Grand Trunk Road, these works present an impressive view to the railway passengers by day or by night.

**Cambay:** a city of antiquity and an old international port in Gujarat. Today it has acquired importance again as the place—at Lunej—where oil and natural gas have

† Including Poona Cantt. & Kirkee Cantt.

‡ Including Dorenda.

been discovered. Drilling with foreign (Russian) technical help is in progress. (See article on 'Petroleum').

**Chandigarh**: Capital of Punjab was planned and built by Mons. Corbusier.

**Chandrapura**: Thermal power station of the D.V.C. (near Gomoh) 320 Km West of Calcutta, within easy reach of Dugda Coal Washery. Bokaro Steel Plant would be within 6-7 Km across the Damodar river. Three units of 125 MV, each to be set up, two already functioning.

**Chittaranjan**: near Asansol, on the border of Bihar and W. Bengal. The industrial colony came into being with the establishment of the broad gauge locomotive and boiler factory.

**Dalmianagar**: is situated on the west bank of the river Sone, 350 miles by rail from Calcutta. The Rohtas Industries Limited and Ashoka Cement Limited, manufacturers of cement paper, sugar, vanaspati, asbestos, cement sheets, etc., are located here providing employment direct and indirect to 60,000 persons.

**Durgapur**: in West Bengal, 100 miles from Calcutta, near Asansol is the site of an integrated iron and steel plant in the public sector, set up with British help. The Durgapur Coke Ovens plant run by the Government of West Bengal, the Durgapur Barrage, the canal system and thermal power house (of the D.V.C.) are also located in the vicinity. An optical glass unit is to be started nearby. Coal Mining Machinery Plant of Heavy Engineering Corp. Ltd.; a Technical Institution and Alloy Steel Plant are fast coming up.

**Dhuvaran**: In Gujarat, a thermal power station, using gas from Cambay region, with four turbo-alternators with 62.5 MW capacity each.

**D. V. C.**: The Damodar Valley Corporation, looks after the big Rs. 132 crore multi-purpose project on the Damodar River in Bihar-Bengal. Tilaiya, Konar, Maithon and Panchet Hill are the sites of the four dams with hydel generating stations attached except at Konar and thermal stations at Bokaro, Chandrapura and Durgapur. There is an extensive canal system for irrigation attached to the storage lakes.

The D.V.C. area, roughly from Hazaribagh to Durgapur in east Bihar, contains the highest concentration of high-grade mineral wealth in the country—coal, iron ore, copper and mica. A host of industries have sprung up or are under construction: Sindri, Hindustan Cables, Chittaranjan, Durgapur Steel Plant, Coke Ovens project, the heavy machine building group of industries, the Kargali and Dugda coal washeries.

**Gandhigram**: about 25 miles from Madurai (South India) is a new colony formed to put Gandhian principles into actual practice in day-to-day life. A pilot health survey project covering over 70 villages in the neighbourhood has been undertaken with American aid.

**Gandhigram (Visakhapatnam)**: near Waltair in Andhra, is one of the major ports and the site of a ship-building yard. Also, the Caltex Oil Refinery.

**Gomia**: In Hazaribagh district, site of a high explosive factory, in private sector.

**Harike**: In Punjab, site of a barrage across the Sutlej, for two canal systems (i) Rajasthan Feeder (134 miles) and (ii) Rajasthan Canal, (291 miles).

**Hirakud**: the site of the Rs. 30-crore multi-purpose project across the River Mahanadi in Orissa to provide irrigation facilities and electric power. Power is being supplied to industries round about and to the Rourkela Iron and Steel Plant. (See also under 'Irrigation').

**Jetsar**: Near Suratgarh, in Rajasthan, site of another mechanised farm about 30,000 acres.

**Jwalamukhi**: in the Kangra Hills where gas has been discovered. Drilling is in progress with foreign (Rumanian) technical help. (See article on 'Petroleum').

**Kiriburu**: Iron ore mines, in the Bonal range of Keonjhar and Singhbhum districts (Orissa &

Bihar), being developed with USA's ADF and Japanese help for exporting two million tonnes of ore annually.

**Kirloskarvadi**: In Sangli District, Maharashtra, is an industrial colony established over 50 years ago, where agricultural implements and a variety of engineering goods have been manufactured.

**Korba**: in Madhya Pradesh is the site of a new coal mine and a thermal station for the M.P. Grid, from which the Bhilai Steel Project gets most of its power supply. Coal from Korba will also be used in Bhilai.

**Kosi**: The Rs. 45-crore multi-purpose project in Bihar for flood protection, irrigation and electric power. The barrage on the river is about 30 miles below Chatra in Nepal. (See under 'Irrigation').

**Koynanagar**: in Satara district, Maharashtra, is approachable by road (30 miles) from Karad station on the Southern Railway. Here the turbulent waters of the Koyna are controlled and diverted through an underground tunnel on the other side of the hill for generating electricity in an underground power house.

**Mallapuram (Tungabhadra)**: in Bellary District in Mysore State is the site of the Rs. 60-crore Tungabhadra Dam, one of the greatest multi-purpose projects in the country.

**Motipur**: one of a large number of villages in the U.P. terai in the districts of Bijnor, Pilibhit, Naini Tal and Rampur. These villages form the largest concentration of mechanized farms in the country, the best known of which is the State Government's Terai State Farm.

**Nagarjunasagar**: See under VIJAYA-PURI.

**Nepanagar**: in M.P. on the Central Railway is the site of the only newsprint factory in India. (See also 'Government Industrial Undertakings').

**Neyveli**: in South Arcot District, in Madras State, about 150 miles from Madras, the site of lignite mines and centre of industrial development.

**Perambur**: a suburb of Madras where an integral railway coach factory is situated.

**Pimpri**: near Poona, is the place where the Hindustan Antibiotics factory is located. It manufactures penicillin. (See also under 'Government Industrial Undertakings').

**Pipri**: in Mirzapur District in U.P. is the site of the Rs. 46-crore Rihand dam across the Rihand, whose waters are used for the generation of power.

**Rourkela**: in Orissa State, about 250 miles from Calcutta on the main line to Nagpur, is the site of an Iron and Steel Plant in the public sector set up with German help. In addition, a special fertilizer plant is also being erected here.

**Rupnarayanpur**: near Chittaranjan, is a small township for telephone cable manufacturing concern—the Hindustan Cables Ltd.

**Sindri**: the site of the big fertilizer plant in Bihar.

**Suratgarh**: in Rajasthan is the largest single mechanised agricultural farm (30,000 acres) utilising complete set of machinery and equipment presented by U.S.S.R.

**Tiruverumbur**: Near Trichy (Tiruchirappalli) high pressure boiler manufacturing Plant and township, under Bharat Heavy Electricals, developed with Czech help.

**Vijayapuri (East & West)**: on either side of the Nagarjunasagar dam across the River Krishna in Andhra Pradesh 90 miles from Hyderabad.

On the site of Vijayapuri once stood the capital of the Ikshvaku Kings. The great Buddhist sage and philosopher Nagarjunacharya lived and taught here. It was a great centre of learning and the University was known as Nagarjun-konda. Extensive excavations have brought to

light important pieces of sculpture, housed in a big museum nearby.

**Walchandnagar**: In Poona district, Maharashtra, can be reached either from Poona or from Bhigvan (Central Railway) railway station. It is an industrial colony, with extensive cane cultivation on mechanised scale, sugar and alcohol production, huge workshop for manufacturing sugar making machinery, plastic buttons and dairy products.

## HOTELS

Here is a list of Western style hotels and rest houses.

### AGRA CANTT.

LAURIE'S HOTEL: Mahatma Gandhi Road. CLARKS SHIRAZ: 54, Jaj Road; IMPERIAL: Mahatma Gandhi Road; GRAND HOTEL: 137, Station Road.

### AHMEDABAD

CAMA HOTEL: Khanpur Road; RITZ HOTEL: Lal Darwaza.

### ALLAHABAD

BARNETT'S HOTEL: 14, Canning Road; ROYAL HOTEL: 24, South Road, Civil Lines.

### ALWAR

CIRCUIT HOUSE: Alwar; SILISERH TOURISTS HOME: Alwar.

### ALWAYE

TOURIST BUNGALOW.

### AMBALA CANTT.

CECIL HOTEL: 127, Staff Road; PARRY'S HOTEL: 126, Staff Road.

### AMRITSAR

GUEST HOUSE: 10, Cantonment; RITZ HOTEL: 45, The Mall; HOTEL AIRLINES: Cooper Road.

### AURANGABAD

AURANGABAD HOTEL: Aurangabad.

### BANGALORE

TOURIST HOTEL: Race Course Road; HOTEL BROADWAY: 12, Kempegowda Road; LOBO'S HOTEL: Cubbon Road, Bangalore 1; MADRAS WOODLANDS HOTEL: 5, Sampangi Tank Road, Bangalore 1; SHILTON HOTEL: St. Mark's Road, Bangalore 1; WEST END HOTEL: High Grounds.

### BELGAUM

HOTEL GREEN: 164, Camp.

### BHOPAL

IMPERIAL SABRE: Palace Grounds; PAGODA HOTEL: Hamidia Road.

### BHUBANESHWAR

TOURIST BUNGALOW; STATE GUEST HOUSE; CIRCUIT HOUSE.

### BIKANER

CIRCUIT HOUSE: Bikaner.

### BODHGAYA

TOURIST BUNGALOW: Bodhgaya.

### BOMBAY

AIR LINES HOTEL: Churchgate Reclamation; AMBASSADOR HOTEL: Churchgate Extension; ASCOT HOTEL: 38, Garden Road; GRAND HOTEL: Ballard Estate; GREEN'S HOTEL: Apollo Pier; SEAFACE HOTEL: 29, Marine Drive; SEA GREEN SOUTH HOTEL: Marine Drive; SEA GREEN HOTEL: Marine Drive; TAJ MAHAL HOTEL: Apollo Pier; RITZ HOTEL: Churchgate Reclamation, Fort; SHALIMAR, Cumballa Hill; SUN-N-SAND, Juhu; WEST END HOTEL: 45, Marine Lines; HOTEL WALDORF: 16, Arthur Bunder Road; MIRABELLE HOTEL: 33A, Marine Lines; HOTEL NATARAJ: Marine Drive; HOTEL PARKWAY: 926, Ranade Road.

### BUNDI

CIRCUIT HOUSE.

### CALCUTTA

GREAT EASTERN HOTEL: 1-3, Old Court House Street; HOTEL MINERVA: 11, Ganesh Chandra Avenue, Calcutta 13; OREROI GRAND HOTEL: 15, Chowringhee, Calcutta 13; CARLTON HOTEL: 2, Chowringhee Place; SPENCER'S HOTEL: 4, Wellesley Place; LYTTON HOTEL: 14, Sudder Street; MAJESTIC HOTEL: 46, Master Street.

## CALICUT

ALAKAPURI GUEST HOUSE: Calicut 2.

## CANNANORE

TOURIST BUNGALOW.

## CAPE COMORIN

CAPE HOTEL; KERALA HOUSE TOURIST BUNGALOW.

## CHANDIGARH

OBEROI MOUNT VIEW: Sector 10.

## CHHATARPUR

CIRCUIT HOUSE, (M.P.).

## COCHIN

MALABAR HOTEL: Willingdon Island, Cochin 3; SEA LORD HOTEL: Ernakulam; GRAND HOTEL: Ernakulam; INTERNATIONAL TOURIST HOME: Mahatma Gandhi Road; TOURIST BUNGALOW: Bolghatty, Ernakulam; WOODLANDS HOTEL: Willingdon Island, Cochin.

## COONOR (Nilgiri Hills).

HAMPTON HOTEL; RITZ HOTEL.

## DALHOUSIE

CLAIRE'S HOTEL: Court Road; GRAND VIEW HOTEL.

## DARJEELING

BELLEVUE HOTEL; OBEROI MOUNT EVEREST: Gandhi Road; WINDAMERE HOTEL: Observatory Hill; CENTRAL HOTEL: Robertson Road.

## DEHRA DUN

HOTEL WHITE HOUSE: 15-A, Lytton Road.

## DELHI

AIRLINES HOTEL: Opp. New Delhi Railway Station; ASHOKA HOTELS: Diplomatic Enclave. New Delhi; CLARIDGE'S HOTEL: 12, Aurangzeb Road, New Delhi; CENTRAL COURT HOTEL: Connaught Circus; FLORA HOTEL: Dayanand Road, Daryaganj, New Delhi; HOTEL AMBASSADOR: Sujana Singh Park, New Delhi; HOTEL BHAGIRATH PALACE; HOTEL BROADWAY: Asaf Ali Road, New Delhi; HOTEL IMPERIAL: Janpath, New Delhi; HOTEL JANPATH: Janpath, New Delhi; HOTEL MANOR: Mathura Road; NIRULA'S HOTEL: L-Block, Connaught Circus, New Delhi; OBEROI INTER CONTINENTAL: Wellesley Road; HOTEL GROVES: Asaf Ali Road; HOTEL METRO: Janpath; HOTEL SHAKHAR: 1, Daryaganj; OBEROI SWISS: 2, Alipur Road, Delhi 6; RAJDOOT HOTEL: Mathura Road, Y.W.C.A. TOURIST HOTEL: A, Jaisingh Road.

## DEOLALI

RUGBY HOTEL: 83, Rest Camp Road.

## FARIDABAD (DELHI)

HOLIDAY INN.

## GOPALPUR-ON-SEA

OBEROI PALM BEACH HOTEL: Gopalpur-on-Sea, Dist. Ganjam, Orissa.

## GULMARG (Kashmir).

GOLF VIEW HOTEL; NEDOU'S HOTEL.

## Gwalior

CIRCUIT HOUSE.

## HYDERABAD

RITZ HOTEL: Hill Fort Palace; ROCK CASTLE HOTEL; PERCEY'S HOTEL: Secunderabad.

## INDORE

INDORE HOTEL: G. P. O. Indore; LANTERN HOTEL: North Tukoganj; VIRAM HOTEL: 5, South Tukoganj.

## JABALPUR

JACKSON'S HOTEL: Civil Lines.

## JAIPUR

JAI MAHAL PALACE HOTEL: Civil Lines; KAISER-I-HIND: Near Railway Station; KHETRI HOUSE; RAJASTHAN STATE HOTEL; RAMBAG PALACE.

## KASAVLI

ALASLA HOTEL.

## KALIMPONG

HIMALAYAN HOTEL.

## KANPUR

BERKELEY HOUSE: Civil Lines.

## KHANDALA

KHANDALA HOTEL.

## KHAJURAHO

CIRCUIT HOUSE (M. P.); TOURIST BUNGALOW.

## KODAIKANAL

CARLTON HOTEL: Lake Road; HOLIDAY HOME: Golf Links Road.

## KONARAK

TOURIST BUNGALOW.

## KOTAH

CIRCUIT HOUSE.

## KOTTAYAM

HOTEL AMBASSADOR: K. K. Road; TOURIST BUNGALOW.

## KUSHINAGAR

TOURIST BUNGALOW.

## LUCKNOW

CAPOORS HOTEL: Hazratganj; CARLTON HOTEL: Shahnajaf Road.

## MADRAS

AIRLINES HOTELS: 177-179; Mount Road; CLARIDGE HOTEL: Thambuswamy Road; CONNEMARA HOTEL: Binny's Road; GUPTA'S AJANTA HOTEL: 32, Royapetta High Road; GUPTA'S STATES HOTEL: 61, Kutchery Road; HOTEL DASAPRAKASH: 50, Poonamallee High Road; HOTEL OCEANIC: 29, San Thome High Road; WOODLANDS HOTEL: 1/23, Edward Elliotts Road, Mylapore; ASHOKA HOTEL: No. 22, Pantheon Road; SAVOY HOTEL: 39, Mount Road; TOURIST HOME: 5, Gandhi Irwin Road; VICTORIA HOTEL: 3, Gandhi Irwin Road.

## MANGALORE

WOODLANDS HOTEL: Bunts Hostel Road.

## MAHABALESHWAR

FREDERICK HOTEL; RACE VIEW HOTEL.

## MANALI (Kulu-Punjab)

SUNSHINE ORCHARDS GUEST HOUSE; TOURIST BUNGALOW.

## MANDU

TOURIST BUNGALOW; ARCHAEOLOGICAL REST HOUSE.

## MANGALORE

WOODLANDS HOTEL: Bunts Hostel Road.

## MATHERAN

LORD'S CENTRAL HOTEL.

## MOUNT ABU

MOUNT HOTEL: Dilwara Road; PALACE HOTEL: Bikaner House.

## MUNNAR

TOURIST BUNGALOW.

## MUSSOORIE

HAKMAN'S GRAND HOTEL: The Mall; SAVOY HOTEL; HOTEL ROAN OKE; LIBRARY CLUB HOTEL: The Mall.

## MYSORE

HOTEL DASAPRAKASH: Gandhi Square; HOTEL KRISHNARAJASAGAR: P.O. Krishnarajasagar; HOTEL METROPOLE: Viceroy Road; HOTEL RITZ: Bangalore-Nilgiri Road.

## NAGPUR

CIRCUIT HOUSE.

## NAINI TAL

GRAND HOTEL: The Mall; BELVEDERE HOTEL; SWISS HOTEL.

## OOTACAMUND

HOTEL CECIL; SAVOY HOTEL.

## PACHMARHI

HOTEL BLOCK (PACHMARHI HOTEL); NEW PACHMARHI HOTEL.

## PAHALGAM (Kashmir)

PINE VIEW HOTEL.

## PANJIM (GOA)

HOTEL MANDOLI

## PATIALA

GREEN'S HOTEL.

## PATNA

PALACE HOTEL: Gandhi Maidan; HOTEL REPUBLIC: Lawly's Building, Exhibition Road.

## PEERMAD (Kerala).

HOTEL INTERNATIONAL; TOURIST BUNGALOW.

## PERIYAR

ARANYA NIVAS; TOURIST BUNGALOW: Edapalayam.

## PONDICHERY

GRAND HOTEL D'EUROPE: 12, Rue Saffren.

## POONA

POONA HOTEL; WELLESLEY HOTEL: 12-A, Connaught Road.

## PURI

SOUTH EASTERN RAILWAY HOTEL.

## QUILON

HOTEL NEELA; TOURIST BUNGALOW.

## RANCHI

SOUTH EASTERN RAILWAY HOTEL.

## RANIKHET

MOON HOTEL; WEST VIEW HOTEL: Mahatma Gandhi Marg.

## SALEM

HOTEL DWARAKA: Five Roads.

## SANCHI

TOURIST BUNGALOW.

## SECUNDERABAD

PERCY'S HOTEL: Secunderabad; RITZ HOTEL: Hill Fort Palace.

## SHILLONG

PINWOOD HOTEL.

## SIMLA

OBEROI CECIL: The Mall.

## SRINAGAR

NEDOU'S HOTEL; OBEROI PALACE HOTEL.

## THEKADY (Kerala)

ARANYA NIVAS, Thekady; TOURIST BUNGALOW: Edapalayam.

## TIRUCHIRAPALLI

ASHBY'S HOTEL: Spencer Buildings.

## TRICHUR

TOURIST BUNGALOW.

## TRIVANDRUM

MASCOT HOTEL; HOTEL MAGNET: Thycad.

## UDAIPUR

LAXMI VILAS PALACE HOTEL; LAKE PALACE HOTEL.

## VARANASI (BANARAS)

CLARK'S HOTEL: The Mall.

## VIJAYAWADA

WELCOME HOTEL: Sumathi Building.

## VISAKHAPATNAM

MARINA HOTEL: Beach Road.

Besides the hotels in different places there are tourist bungalows in Bijapur, Bhubaneswar, Gaya, Khajuraho, Konarak, Madurai, Mahabalipuram, Mandu, Sanchi and Tanjore.

## TOURIST TRAFFIC

TOURIST ARRIVALS IN INDIA—1965

The number of tourists arrived in India during 1965 was 1,47,900.

North America: Canada 2,974; U.S.A. 39,309.

South America: Mexico 640; Others 1,259.

Western Europe: Austria 722; Belgium 597; Denmark 760; France 5,507; Germany 6,452; Italy 1,752; Netherlands 1,295; Sweden 1,250; Switzerland 2,249; U.K. 22,368; Others 1,443.

**Eastern Europe :** Czechoslovakia 784 ; U.S.S.R. 2,377 ; Others 1,828.

**Africa :** Kenya 7,640 ; Malawi 344 ; South Africa 1,386 ; Tanzania 2,449 ; Uganda 1,789 ; Zambia 347 ; Others 1,692.

**West Asia :** Aden-Oman 1,265 ; Bahrain-Qatar 1,023 ; Iran 849 ; Others 2,144.

**East Asia :** Afghanistan 1,975 ; Ceylon 7,147 ; Japan 4,600 ; Malaysia 8,693 ; Philippines 538 ; Thailand 890 ; Others 3,507.

**Australia :** Australia 5,079 ; New Zealand 751 ; Others 226.

### DEVELOPMENT OF TOURISM

The Third Plan for development of tourism included an allocation of Rs. 8 crores—Rs. 3.5 crores in the Central Sector and Rs. 4.5 crores in the State Sector.

The Government of India has set up two corporations in the public sector for promoting tourism and providing facilities for tourist traffic in the country. For more details about the corporations see article on "All India Corporations".

**Fourth Plan :** A sum of Rs. 25 crores has been tentatively allocated for the development of tourism in the Fourth Plan. Of this Rs. 5 crores have been set apart for the recently set up India Tourism Hotel Corporation and the India Tourism Corporation.

The India Tourism Corporation proposes to open shortly "Duty Free Shops" at Bombay, Delhi and Calcutta. A duty-free shop is a tourist facility provided by many countries at international airports.

## U. N. AID TO INDIA

INDIA participates in the development programmes of the United Nations family both as a contributor and recipient of aid. UN aid is provided to Governments on request. Beginning in 1966, the UN's two main aid programmes—provided under the Expanded Programme of Technical Assistance and the UN Special Fund—were merged into the U.N. Development Programme (UNDP). In addition, some forms of assistance are given under the regular programmes of the U.N. and its related agencies. These last are financed by the organizations' regular budgets, whereas UNDP projects are financed by the voluntary contributions of Governments.

India has received aid under each of these categories. In 1965, India contributed \$850,000 to technical sector of UNDP and \$2,150,000 to the Special Fund Sector of UNDP.

### THE TECHNICAL ASSISTANCE

The Technical Assistance combines the assistance activities of the UN itself and nine participating agencies: International Atomic Energy Agency (IAEA), International Labour Organization (ILO), Food and Agriculture Organization (FAO), United Nations Educational, Scientific and Cultural Organization (UNESCO), International Civil Aviation Organization (ICAO), World Health Organization (WHO), International Telecommunication Union (ITU), World Meteorological Organization (WMO), and Universal Postal Union (UPU).

Illustrating the two-way nature of the UN technical co-operation programme is the fact that, also in 1965, Indian nationals numbering 174 served as EPTA experts in other countries, and India was host to 120 UN fellowship holders from outside.

Projects under Technical Assistance are being carried out in India in the following fields :

#### United Nations (Technical Assistance Operations)

Fertiliser manufacture ; D.N.T. and penicillin manufacture ; raw materials substitution to save foreign exchange ; training in water resources development ; petroleum geology ; port development and lighthouse engineering ; statistics, town planning and techno-economic surveys.

#### IAEA (International Atomic Energy Agency)

Training programme in prospecting, mining and processing of nuclear raw materials.

#### ILO (International Labour Organization)

Labour conditions ; social security ; employment information ; safety in mines ; productivity and management and manpower organization including vocational training.

#### FAO (Food and Agriculture Organization)

Dairy production, dairy engineering, dairy plant management, dairy technology, dairy economics and dairy training ; poultry development ; pork technology ; manufacture of egg powder and egg pulp ; improved animal husbandry methods, animal climatology, animal vaccine production and disease control, grassland management, hides and skins ; fish harbour development, fish processing, power fishing, mechanization and design of fishing craft, reservoir fishing ; physical oceanography ; river pollution ; land use and water management, forestry development, plywood research ; improvement of plant protection measures, mushroom cultivation, plant nematodes, pesticide analysis and residue limits in food ; nutrition ; establishment of a catering college and home economics education programme ; crop insurance ; horticulture.

#### UNESCO (United Nations Educational, Scientific and Cultural Organization)

Development of advanced centres of university studies in physics, botany, chemistry and geophysics, mathematics, chemical technology and post-graduate studies in engineering and technology. Assistance to the Indian Institute of Technology, Bombay (in thermo-dynamics liquid fuel technology, physical metallurgy, wood and cellulose chemistry, machine building, etc.) ; assistance to Madras University (Chemical engineering, fluid mechanics, etc.) ; Zoological Survey of India, Indian School of Mines, Dhanbad (Petroleum wing) and literacy planning. Other fields of UNESCO assistance include : Scientific documentation, research on desert problems, development of science teaching and apparatus, and assistance to the Education Commission's survey of educational objectives.

#### ICAO (International Civil Aviation Organization)

Pilot training ; radar control ; air traffic control and airport costing.

#### WHO (World Health Organization)

Control of communicable diseases, particularly malaria, tuberculosis, smallpox, trachoma and leprosy ; education and training of public health

personnel, planning and strengthening of health services, especially in rural areas ; maternal and child health ; environmental sanitation and water supply.

#### ITU (International Telecommunication Union)

Inter-city dialling, and V.M.F./V.H.F. techniques.

#### WMO (World Meteorological Organization)

Training programme in Meteorology.

### THE SPECIAL FUND

In 1965-66 the UNDP (Special Fund) was assisting 38 development projects in India involving an overall expenditure of some \$123 million over a period of five years. Of this amount, the Government of India was to provide \$86 million and the Special Fund \$37 million. The 27 projects receiving Special Fund assistance were : Industrial Instructor Training Institute, Calcutta, Regional Labour Institutes at Calcutta, Madras and Kanpur, Central Mechanical Engineering Research Institute, Durgapur, Central Public Health Engineering Research Institute, Nagpur, Power Engineering Research Organization, Bhopal and Bangalore, Fisheries Training Institute, Bombay, Central Mining Research Station, Dhanbad, Survey of Potential Hydropower Sites, Survey of Water Supply Resources of Greater Calcutta, Central Scientific Instruments Organization, Chandigarh, Cavitation Research Centre, Poona, National Aeronautical Laboratory, Bangalore, Vocational Training Scheme for Industrial Trades including a Central Instructors Training Institute in Kanpur, Central Instructor Training Institute, Madras, Institute for Petroleum Exploration, Dehra Dun, National Institute for Training in Industrial Engineering, Bombay, Central Instructor Training Institute, Hyderabad, Central Sheep and Wool Research Institute, Rajasthan, Central Instructor Training Institute, Ludhiana, Institute of Tropical Meteorology, Poona and International Meteorological Centre, Bombay, Pre-Investment Study of Forest Resources, Teacher Training for Engineering Colleges, Warangal, Assistance to Six Regional Engineering Colleges, Assistance to the Survey of India for Pre-Investment Surveying and Mapping, Establishment of Four Logging Training Centres, Centre for Research and Training on the use of Satellite Communications, Ahmedabad, Refining and Petrochemical Division, Indian Institute of Petroleum, Dehra Dun.

Extension of the Calcutta Water Resources Survey, Grassland and Fodder Development, Groundwater Surveys in Rajasthan and Uttar Pradesh, Soil Survey and Soil and Water Management Research and Demonstration in the Rajasthan Canal Area, Groundwater Investigations in Madras State, National Institute of Foundry and Forge Technology at Ranchi, Bihar, Assistance to the Calcutta Metropolitan Water and Sanitation Authority, Improvement of Milk Production in the Calcutta Area, Institute for Petroleum Exploration, Dehra Dun (Phase II), Pre-Investment Survey of Fishing Harbours, Training and Advisory Services in Tool, Die and Mould Making for the Plastic and Other Industries, Guindy, Madras.

#### AID UNDER REGULAR PROGRAMMES

Under its Regular Programme of Technical Assistance (financed under the regular United Nations budget) the United Nations has given India advisory services and help on the social and economic aspects of housing, lens grinding, transport, economics, evaluation of community development and the rehabilitation of the handicapped.

#### ILO

The ILO has one project in its regular programme of technical assistance. It concerns the utilization of rural man power much of which is currently underemployed.

#### FAO

FAO's work is to assist the Government of India in the field of agricultural production, marketing and consumption, including animal husbandry, forestry and fisheries development, plant and animal disease control, agricultural research, and improved nutrition, etc. FAO and UNICEF are taking part in the Government of India's \$25 million Applied Nutrition Programme and also in the extensive programmes to improve milk production. FAO is giving technical guidance and advice and UNICEF is contributing \$17 million towards these schemes, a considerable part of which consists of funds from FAO's Freedom From Hunger Campaign.

FAO also organizes seminars, exchanges information and advises and helps in spheres such as land reform, agricultural legislation, agricultural extension and education and in the development of agro-industries.

So far FAO is responsible for eight Special Fund projects in forestry, fisheries, sheep and wool, fodder crops and land drainage and reclamation, involving an expenditure of about

20 million dollars. Under the FAO/FFHC programme there are a considerable number of projects involving an expenditure of more than one million dollars.

#### UNESCO

UNESCO gives assistance to educational and research centres, such as, the Asian Institute of Educational Planning and Administration and the Unesco Research Centre on Social and Economic Development in Southern Asia in New Delhi and the Indian Ocean Biological Centre in Cochin. The East-West and the Reading Materials Projects are designed to promote better international understanding through exchange and provision of fellowships and literature. In addition, UNESCO organizes seminars, symposia and short training course in subjects such as soil biology, adult education, literacy, arid zone, oceanography, technical education, geology, etc.

#### WHO

The World Health Organization has an extensive programme of assistance under its regular budget. This includes: communicable disease control (malaria, tuberculosis, small-pox, trachoma, leprosy etc.); education and training of public health personnel; maternal and child health services; strengthening of rural health services as part of community development; environmental sanitation; community water supply, assistance to the Indian Council of Medical Research; medical rehabilitation; industrial and occupational health; health education.

#### UNICEF

Basic health including community development; disease control; school and pre-school feeding; nutrition education, milk conservation; pediatrics training; relief and emergency supplies. The total value of approved UNICEF assistance from May 1949 to June 1965 was \$54,000,000.

#### The World Food Programme

Intensive cattle development centres in Gujarat and Andhra Pradesh; assistance in increasing pork production in West Bengal; intensive egg and poultry production and marketing throughout India; reconstruction of bunds and tanks in Uttar Pradesh and Madhya Pradesh; manufacturing double-toned milk for low income groups in Delhi State.

Value of total approved WFP assistance in 1965: \$4,187,025.

Value of total approved WFP assistance upto June 1964: \$1,514,200.

#### International Bank for Reconstruction and Development

The total value of loans provided to India by the World Bank was \$1,010.11 million at the end of June 1965, consisting of 13 loans to the railways, six for power projects, six to ICICI for promoting industry, four to steel mills, two for coal mining and one each for agriculture and multi-purpose projects.

#### International Development Association

A loan of \$494 million was provided to India by IDA between 1961 and June 1965 for 14 development projects. During 1963 and up to July 1965 the following eight projects received sanction:

Purna Project; Koyna Project; Port of Bombay; Indian Posts and Telegraphs Department; Indian Railways; Kothagudem Project; Industrial Imports and Telecommunications in India.

#### International Finance Corporation

Assistance was rendered by the IFC to the following eight projects up to the end of June 1965 for operational investments and standby and underwriting commitments by IFC:

Republic Forge Company Ltd.; KSB Pumps Ltd.; Kirloskar Oil Engines Ltd.; Assam Sillimanite Ltd.; Precision Bearing of India Ltd.; Fort Glester Industries; Mahindra Ugin Steel Co. Ltd.; Lakshmi Machine Works Ltd.

Operational investments in all these totalled \$10,864,842.

#### India's Support for UN Aid Programmes

With contributions to Global Operating Costs:

## COLOMBO PLAN\*

(See also under Foreign Aid)

COLOMBO Plan Bureau, P.O. Box No. 596, Colombo.

Director: D. A. Strachan (United States); Information Officer: F. D. Douglas (Pakistan); Assistant Information Officer: L. P. Goonetilleke (Ceylon).

Plan period: 1951-71.

The Colombo Plan (for Co-operative Economic Development in South and South-East Asia) was conceived at a meeting of the Foreign Ministers of the Commonwealth held in Colombo in January 1950.

Over the years, the membership of the Colombo Plan has grown to 22; 16 countries within South and South-East Asia and six countries outside it.

The 16 countries within the area are Afghanistan, Bhutan, Burma, Cambodia, Ceylon, India, Indonesia, South Korea, Laos, Malaysia, Maldives

Islands, Nepal, Pakistan, the Philippines, Thailand and Viet-Nam.

The six countries outside the area are Australia, Britain, Canada, Japan, New Zealand and the United States.

Nearly one-fourth of mankind lives in the area covered by the activities of the Plan. The total population of the countries of the area is estimated to have increased from 624 million in 1950 to nearly 900 million in 1966.

The Colombo Plan is an international programme which is bilateral in operation even though it is multi-lateral in approach. It is bilateral in operation even though it is multi-lateral in approach because negotiations for assistance are made, not through any international agency, but direct between the donor and the receiving country. This procedure allows complete flexibility of action without interference from a third party and in actual practice it has resulted in considerable smoothness in operation.

The multi-lateral approach of the Colombo Plan is ensured through the deliberations of the Colombo Plan Consultative Committee and the Colombo Plan Council for Technical Cooperation in South and South-East Asia, which constitute the Colombo Plan Organization.

The Consultative Committee which is the highest deliberative body of the Colombo Plan and which meets once a year in one of the member countries takes note of the progress of the Plan and the role which external assistance plays in the development of the area and makes recommendations on the problems that arise in the implementation of development programmes. The Colombo Plan Council, located at Colombo, supervises the operation of the Colombo Plan Technical Co-operation Scheme and the dissemination of information on the Colombo Plan. The Executive arm of the Council in carrying out these purposes is the Colombo Plan Bureau, situated in Colombo.

\* Owing to the cancellation of the annual Colombo Plan Consultative Committee meeting in 1965, up-to-date aid figures had not been officially announced at the time of going to press.

Assistance has been given primarily in three forms—financial assistance and equipment for development projects; food and other commodity assistance as contribution towards economic stability and growth; and technical assistance to increase the number and range of skills and strengthen the economic and social institutions. The major part of the assistance under the Colombo Plan has come from member countries from outside the area. Internally, in the area, mutual assistance has progressively increased in recent years.

### EXTERNAL ASSISTANCE

The total of aid provided by donor countries under the Colombo Plan since its inception has been almost \$14,864 million, including technical assistance, loans and grants, provision of agricultural commodities and supply of equipment. The value of such aid contributed in 1963-64 was about \$2,165 million.

By far the greater part of the assistance under Colombo Plan comes from the six member countries outside the area—Australia, Britain, Canada, Japan, New Zealand and the United States. Brief details of some of the major items of capital aid and technical assistance given by these countries up to 1963-64 as recorded in the Thirteenth Annual Report of the Colombo Plan Consultative Committee are as follows:—

**AUSTRALIA:** During the year 1963-64, Australia's expenditure on capital aid and technical assistance under the Colombo Plan amounted to £A 4,982,280 bringing the total Australian contribution since the beginning of the Colombo Plan to £A 53,425,067. The arrival of another 711 Colombo Plan students in Australia during 1964-65 brought the total number of Australian training awards to 5,903.

In 1964-65, 307 awards were granted under the correspondence scholarship scheme, inaugurated by Australia in 1955, which brought the total number of awards to 4,104.

On 30 June, 1965, 70 Australian experts were in the field, bringing the total of Australian experts and advisers since the beginning of the Colombo Plan to 679.

Australian expenditure on technical equipment during 1963-64 was £A 697,497 which brought the total since the inception of the Colombo Plan to £A 3,091,497 and the number of projects implemented, or in the process of being met, to some 361 in 14 countries.

Expenditure of £A 2,636,000 on capital aid during 1963-64 brought Australia's contribution in this field to £A 38,477,000 spread over 135 projects in 14 countries. In addition to the above, Australia has contributed aid to the Colombo Plan area through the Indus Basin Development Fund (£A 3,000,000), Commonwealth Co-operation in Education and the Australian International Award Scheme. Australia has also given technical assistance to the Mekong Committee to the extent of £235,000.

**BRITAIN:** During the year 1963-64, the British Government spent £47.22 million on capital aid and technical assistance for development in South and South-East Asia, bringing the total of such expenditure since the beginning of the Colombo Plan in 1951 to £294.4 million. Additional commitments of the Government at 30 June, 1964, amounted to £150 million, including Britain's £12 million contribution to the Indus Basin Development Fund, which will be paid over the period up to 1971-72.

During the year ended 30 June, 1964, the British Government spent £44.97 million on capital aid, bringing the total of such expenditure since 1951 to £281.98 million. Additional capital aid commitments at 30 June, 1964 amounted to £148 million. British companies and private investors continued to be active within the Colombo Plan area. The total of British private investment in the area in 1963 is estimated to have been £33 million.

During the year ended 30 June, 1964, the British Government expenditure on technical assistance totalled £1.881 million, bringing the total of such expenditure since 1951 to £12.388

million. Commitments at 30 June 1964 totalled £2.77 million; on 30 June 1965, there were 597 Asian students in Britain undergoing training, bringing the number who have received instruction in Britain under the Colombo Plan since 1951 to 6,256; during the year ended 30 June, 1965, 93 experts were provided compared with 86 in the previous year, bringing the total provided since 1951 to 731. Equipment for training and research was provided during 1964-65 to the value of £337,865.

Out of the total of £130,000 of aid promised by Britain for the Mekong project, £69,000 had been spent by the end of June, 1963. During 1963-64 the British Government spent £.97 million from the grant of £20.8 million which it has agreed to subscribe to the Indus Basin Development Fund over the period from 1960 to 1972.

In addition, Britain has provided education assistance to the region through the Commonwealth Scholarship and Fellowship Plan and the Commonwealth Teacher Training Bursary Scheme. An important contribution to Britain's technical co-operation in South and South-East Asia is made by the British Council, a non-Government agency, which does educational work, the cost of which is not included in the figures of aid expenditure given above.

**CANADA:** To the end of the fiscal year 1963-64 Canada has made available a total of \$464.7 million for capital and technical assistance to member countries of the Colombo Plan, all in the form of grants, requiring no repayment of principal or interest. The amount made available during 1964 was \$41.5 million.

Of the \$464.7 million, approximately 48 per cent has been allocated for capital assistance, mainly in the form of construction projects (chiefly power stations, transmission lines, ground and aerial surveys, roads, bridges and harbours). Non-project items such as locomotives, transport vehicles and industrial and agricultural equipment as well as surveys and feasibility studies requiring little or no equipment are likewise included under capital assistance.

Commodity assistance accounted for about the same proportion of Colombo Plan allocation as capital assistance—i.e. about 48 per cent. Canadian commodity assistance has been concentrated in the larger countries of the area, mainly India and Pakistan.

Although technical assistance accounts for only slightly under 4 per cent of Canadian Colombo Plan aid, it is a very important aspect of the Canadian programme. Canadian technical assistance expenditure to 30 June 1965 was £7.5 million. A total of 2,997 trainees have been brought to Canada from Colombo Plan countries to the end of the last fiscal year and a total of 427 advisers and teachers have been sent to the region.

In addition to its Colombo Plan contribution as such, Canada has provided since 1951, to certain member countries loans and grants totalling \$115 million for purchase of wheat and flour. Since 1961-62 Canada has also pledged under World Bank consortium arrangements, special long-term credits for use by India and Pakistan. To the end of 1963-64 long-term credits totalling \$37.5 million had been pledged for India and \$22.5 million for Pakistan. Canada has also financed studies in Canada for students from Commonwealth countries under the Commonwealth Scholarship Plan. An aerial survey of the Lower Mekong river, costing \$1.3 million was completed in 1962-63.

**JAPAN:** Since her participation in the Colombo Plan in 1954, Japan's contributions to the Colombo Plan countries have steadily increased year by year. During the period between fiscal years 1954-55 and 1964 inclusive, budgetary appropriations for technical assistance to the Colombo Plan region have totalled 8,835 million yen.

During this period Japan sent 704 experts (including 92 for technical co-operation centres) to Colombo Plan countries and received 1,525 trainees for training in Japan. In addition, 1,887

participants from Colombo Plan countries came to Japan under the Japan-United States Third Country Training Programme. On June 30, 1964, the actual disbursements since 1956 under Japan's economic assistance to Colombo Plan countries amounted to 81,445 million yen and the outstanding balance of commitments to 126,060 million yen, including grants under the Agreements for Economic and Technical Co-operation with Cambodia and Laos and loans and lines of credit supplied to India, Indonesia, Pakistan, the Philippines and Viet-Nam under inter-governmental agreements.

During the period from 1 July 1963 to 30 June 1964, Japan provided the services of 109 experts. Japan's total expenditure on the Mekong River Development project amounted to 360 million yen.

Expenditure on experts and trainees during 1963-64 amounted to 721 million yen. In addition, Japan contributed assistance to the region through the Japanese Government scholarship programme (85 million yen for 1964), private technical co-operation by semi-governmental agencies and through private organisations mainly in the form of training awards.

**Private Investment:** The outstanding balance of Japanese private investment in the area as of 30 June 1964, amounted to 30,810 million yen, while payments made under reparations agreements for development in the Colombo Plan area amounted to 173,465 million yen, in Burma, Philippines, Indonesia and Viet Nam.

**NEW ZEALAND:** New Zealand has made available, up to 31 March 1964, a total amount of £13,146,142 for capital and technical assistance under the Colombo Plan. A further £1,000,000 has been appropriated for 1964-65.

During the year ended 30 June 1964, New Zealand's expenditure on capital aid and technical assistance amounted to £1,044,015 which brought the total expenditure on Colombo Plan activity since 1951 to £10,957,025.

The expenditure of £334,617 during 1963-64 brought the total of New Zealand's contribution in the form of capital equipment and cash grants to £7,511,434. This amount includes New Zealand's contribution to the Mekong River Survey and to the Indus Basin Development Fund. Most of New Zealand's capital aid has taken the form of direct transfers of overseas funds.

New Zealand's technical assistance expenditure during the year amounted to £709,398 bringing the total expenditure since 1951 to £3,445,591.

The arrival in New Zealand during 1964-65 of another 207 students brought the total number of New Zealand training awards to 1,763.

During 1964-65, 24 New Zealand experts were assigned to countries of the region, bringing the total number of experts since the inception of the Plan to 244.

New Zealand's expenditure on aspects of the Mekong River Survey to 30 June 1963 amounted to £61,400. A further contribution of £50,000 was transferred during 1963-64, bringing New Zealand's total to the Indus Basin Development Fund to £350,000 to date.

**UNITED STATES:** United States Government obligations and commitments for economic and technical assistance to members of the Colombo Plan totalled \$2 billion in 1964. Under the Foreign Assistance Programme, \$955 million were provided through the Agency for International Development in the form of loans, grants and technical assistance. Under the Agricultural Trade Development and Assistance Act, \$934.5 million equivalent was provided in local currency derived from the sale of agricultural commodities and additional assistance provided for emergencies and voluntary relief agencies. The Export-Import Bank provided \$76.4 million in long-term credits. Since July 1, 1951, the United States Government has provided approximately \$13.5 billion to member countries to assist in their economic development.

As of 30 June 1964, 1,385 Peace Corps members were sent to Colombo Plan countries and an additional 331 volunteers were in training.

A total of 15,709 persons from Colombo Plan countries were trained under U.S. Government auspices from 1950-65. Of these 1,825 came to the U.S. and 444 were sent to other countries for training in 1964-65 alone. The third-country training programme is a co-operative training programme in which other countries share in the training and its costs for U.S. sponsored participants.

The U.S. investment guarantee programme is designed to stimulate the flow of private capital to these areas. During fiscal year 1964, new dollar investments in the Colombo Plan region totalling \$185.3 million were guaranteed against inconvertibility, expropriation and war damage. This represents a large increase over prior years.

The International Bank for Reconstruction and Development

Up to 30 June 1964 the International Bank for Reconstruction and Development made available over U.S. \$1,702 million to member countries in the area of which about U.S. \$124 million was provided in 1963-64.

The International Development Association which came into existence in September 1960 as an affiliate of the I.B.R.D., starting operations a few months later, had committed U.S. \$482 million by the end of June 1964 (compared with U.S. \$346.5 million at the end of June 1963). The International Finance Corporation has invested U.S. \$23 million in enterprises in the area.

Since its inception in 1959 the United Nations Special Fund has approved an expenditure of U.S. \$92.3 million on projects within the Colombo Plan region.

The United Nations and its specialised agencies had provided under the Expanded Programme for 1963 \$10.5 million for countries in the Colombo Plan area.

### TECHNICAL CO-OPERATION\*

Technical co-operation—the provision of mutual assistance in expert manpower, equipment and training opportunities—remains an important and necessary element in the economic development in the area.

The total expenditure on technical assistance under the Colombo Plan in 1964-65 amounted to £39.5 million, which represents an increase of about 30 per cent over the average expenditure for the last five years. This brings the cumulative total expenditure for the 15 years of the life of the Colombo Plan to £220.6 million.

During the year 1964-65, expenditure on the provision of experts amounted to £17.6 million. This enabled a total of 1,186 experts to be provided, mainly in transport and communications, education (technical and general), administration and engineering. The cumulative total number of experts provided for the 14 year period now stands at 7,167.

Over 56 per cent of the 1,186 experts provided this year have been from the United States (673). India (238) is the second largest supplier of experts with Britain (93) coming next.

The largest recipient of experts is Viet Nam (362) which is followed by Nepal (283) and Pakistan (103). The majority of experts to Nepal have been provided by India and they have been assigned to capital aid projects such as the Trisuli Hydel Project as well as in technical assistance fields as surveyors, road engineers, construction engineers, university lecturers etc. The majority of experts to Pakistan and Viet Nam have been provided by the United States.

Expenditure on equipment amounted in 1964-65 to £14.7 million compared with £16.1 million in the previous year, bringing the cumulative total to over £84 million. A good part of the equipment was provided for training and research institutions in the region.

### Expenditure on Technical Co-operation (£ Sterling)

The following table gives the expenditure by supplying and receiving country, 1 July 1960 to 30 June 1965.

| Receiving<br>Country | Supplying Country |            |       |           |         |           |           |          |                |          |             |                  | Total       |
|----------------------|-------------------|------------|-------|-----------|---------|-----------|-----------|----------|----------------|----------|-------------|------------------|-------------|
|                      | Australia         | Britain*   | Burma | Canada    | Ceylon  | India     | Japan     | Malaysia | New<br>Zealand | Pakistan | Philippines | United<br>States |             |
| Afghanistan          | 6,720             | 22,469     | —     | —         | —       | 2,572     | 56,238    | —        | 366            | —        | —           | 6,032,134        | 6,120,499   |
| Australia            | —                 | —          | —     | —         | —       | 3,044     | —         | —        | —              | 1,215    | —           | —                | 4,259       |
| Bhutan               | —                 | —          | —     | —         | —       | —         | 3,956     | —        | —              | —        | —           | —                | 39,56       |
| Brunei               | 25,727            | 710        | —     | 6,571     | —       | 915       | 538       | 5,671    | 3,151          | —        | —           | —                | 43,283      |
| Burma                | 756,859           | 1,021,713  | —     | 455,570   | —       | 19,553    | 86,631    | 2,668    | 182,580        | 5,488    | —           | 666,785          | 3,202,262   |
| Cambodia             | 203,266           | 150,472    | —     | 227,150   | 4,410   | 60,986    | 182,700   | 829      | 790            | 1,004    | —           | 6,055,141        | 6,882,347   |
| Ceylon               | 602,136           | 1,490,205  | —     | 686,836   | —       | 119,061   | 291,478   | 8,898    | 294,019        | 2,557    | —           | 2,587,095        | 6,082,285   |
| India                | 1,025,741         | 3,917,789  | —     | 1,402,565 | —       | —         | 423,162   | 322      | 173,021        | —        | —           | 22,797,109       | 29,739,709  |
| Indonesia            | 2,219,986         | 531,921    | —     | 732,424   | 562     | 26,037    | 302,126   | 3,591    | 728,785        | 12,631   | —           | 36,436,256       | 40,994,319  |
| Japan                | —                 | —          | —     | 7,915     | —       | 4,108     | —         | —        | —              | 1,082    | —           | —                | 13,105      |
| Korea                | 88,443            | 55,833     | 315   | 10,885    | —       | 10,286    | 19,559    | 1,856    | 10,206         | 2,496    | —           | 6,922,470        | 7,122,349   |
| Laos                 | 260,780           | 298,092    | —     | 143,491   | —       | 1,003     | 36,787    | 1,130    | 3,590          | 209      | —           | 8,115,262        | 8,859,744   |
| Malaysia             | 3,581,596         | 1,103,911  | 2,160 | 1,669,483 | 2,155   | 80,976    | 247,363   | 23,645   | 1,500,449      | 12,240   | —           | —                | 8,223,989   |

\* Figures do not include aid given by Britain under the Colonial Development and Welfare Acts and for Educational Co-operation in the Commonwealth.  
† Expenditure on Technical Assistance to the Mekong project by other countries is included elsewhere.

New training places provided under the Colombo Plan during 1964-65 numbered 4,920 compared with 4,551 in 1963-64. The largest number of awards were in the field of Education—1,262. Technical education awards amounted to 357 in 1963-64 as in 1964-65. Other major fields of training include Administration (704) Food, Agriculture and Forestry (690) and Medical and Health (546).

The United States has provided 2,269 i.e. 46 per cent of the training places and ranks as the major donor. Australia (711) and Britain (597) are second and third largest donors respectively, while Canada (382) retains fourth position followed by Japan (366) and India (280).

India (828) was the major recipient of training awards: she is followed by Thailand (650) and Malaysia (573). A significant feature is that an increasing proportion of training awards are being taken up by the newer members of the Plan.

### MUTUAL AID

From the inception of the Colombo Plan in 1950 to June 1965, the countries of the region have taken in 3,446 trainees from neighbouring countries, representing 9 per cent of the total number of training places (37,966) provided during the same period.

India ranks as the major donor of training places within the region, having provided 2,720 of which 1,628 were to Nepal and 1,092 to other countries of the region. The other countries have provided 726 training places; Malaysia (341) and Pakistan (218) are second and third largest donors respectively. Other participants in providing intra-regional training are Ceylon (77), Philippines (30), Burma (32), Indonesia (18) and Thailand (10).

During the year 1964-65, 388 training places have been provided within the region as compared with 367 provided last year. India, the major donor, has provided 280 places during the year i.e. 73 per cent of the total. Pakistan is the second largest donor within the region having provided 54 places. Malaysia (46) is the third most important regional donor, while Burma provided 7 places and the Philippines provided one place.

### AID FROM INDIA

During 1964-65 India provided 280 training places to the following countries: Australia (4), Burma (3), Ceylon (45), Korea (20), Malaysia (38), Philippines (23), Thailand (54), Nepal (89). Since the inception of the Colombo Plan 2,720 training places have been provided by India as follows: Australia (7), Burma (74), Ceylon (147), Cambodia (2), Indonesia (56), Japan (10), Korea (28), Laos (12), Malaysia (302), Nepal (1,628), New Zealand (1), Pakistan (39), Philippines (166), Thailand (206) and Viet Nam (27). Training facilities were provided in general education; civil, mechanical and electrical engineering; statistics; forestry; fisheries; community development and co-operation; social services; water resources development; agriculture; medicine and allied subjects; sanitation, sericulture; economic planning; power and fuel development; transport and communications; parliamentary affairs; insurance; banking, chartered accountancy; budgetary procedures; taxation; atomic energy and handloom production and tourism. The cost of these services has been over £ 1.5 million.

India also provided training facilities for trainees from Colombo Plan countries in the fields of accounting and auditing of public co-operations, agriculture, meteorology, demography, community development and statistics, under the United Nations Technical Assistance Programme, and for 51 trainees from Colombo Plan countries in the fields of jeep maintenance, literacy education, irrigation practices, community development, agricultural planning and malaria eradication, under the United States Third Country Programme.

India has so far provided 90 experts, including 238 during 1964-65.

These experts covered various fields such as irrigation, sericulture, iron and steel (works and training), organisation of urban milk supply, railways, electrical engineering, taxation, broadcasting, organization and methods, banking and insurance, timber research, small savings, sugar technology, tractor engineering, forestry, road research, leather technology, use and maintenance of HT2 aircraft, cultivation of potatoes and cashewnuts, statistics, doll-making and small scale industries, agriculture, transport and aeronautical ground engineering.

### Mekong River Project

India's assistance for the Tonle Sap Sector of the Mekong River Project was stepped up. An Indian team went to Cambodia to prepare designs and cost estimates. A silt and concrete laboratory has been set up in Cambodia. Also investigational work is going on in Poona on proposed barrages on the Mekong system.

### Assistance to Nepal

During 1963-64 the financial and technical aid given by India was around Rs. 37 million. About 200 Indian experts and technical personnel were working with their Nepalese counterparts in several fields like road, airport and building construction, irrigation, agriculture, education, and health. In the Chatra Canal Project under the Colombo Plan, excavation works totalling 990 million cubic feet are completed. With the ending of the tripartite agreement for road construction, work on the Kathmandu-Trisuli Road, was continued under bilateral agreement. Work on the Tripureshwar-Thankot Road linking the capital with Tribhuvan Rajpath has been completed; considerable progress has been made on the Kathmandu-Daksinkali Road. Considerable progress was also made in the construction of airports, including ancillary buildings at Pokhara, Bhairawa, Janakpur and Simra and also in the completion of preliminaries at Biratnagar.

In the field of irrigation and water supply, progress was marked by the commencement of the laying of pipes required for the Rs. 8 million Kathmandu water supply scheme.

Work on the Trisuli Hydel Project continued to make progress, as also excavation, concreting and masonry work on the barrage, power channel, aqueducts, balancing reservoir, intake structure and power house. All the generating equipment etc. have been received. The dam, power channel and earth-work for power house foundations for Pokhara Hydel Scheme have been completed and necessary equipment and material received at Bhairawa for air-lifting to site.

In the fields of horticulture valuable research and field experiments were carried out at the research stations and trial orchards and the results were made available to progressive farmers.

Six more veterinary-cum-cattle breeding centres were established during the year. The construction of the Biological Products Laboratory is nearing completion and equipment etc. are being procured. The Rinderpest Eradication campaign has been restarted and another six million cattle were vaccinated. The programme of training Stock Supervisors was completed and the last batch of stockmen was receiving training at the end of the year.

The first phase of the Industrial Estate at Patan was inaugurated and different industries were functioning in the various workshops. The construction of the second phase has been taken up. The main building of the Institute for the training of rangers and foresters together with a hostel building is being constructed and all the necessary ancillary buildings have been completed for shifting the institute at Hathauda.

The construction of the Science Block building at the new campus of the Tribhuvan University is nearing completion and work on their buildings has begun. The Science extension for the Trichandra College has been completed and equipped. Preliminary work on provision of buildings for the second phase of the Tribhuvan Adarsh Vidyalaya has been started. Under the National

Archives Scheme, the construction of the Stack portion of the buildings and preparation of catalogues, micro-filming of selected manuscripts etc. continued with the help of the Indian Experts.

Indian assistance was also continued in other fields such as Archaeology, running of engineering schools, construction of nurses' quarters and kitchen block for the Maternity Home Child Welfare Centre and for the geological surveys and mineral investigations and topographical survey in Nepal.

### AID TO INDIA

**AUSTRALIA:** Australian capital aid valued at £ A 492,000 was provided to India during 1963-64 and included diesel locomotives and 2,000 units of rolling stock for the Railways; Radio and electrical equipment and heavy earthmoving equipment and commodity aid earmarked for the Tungbhadra Dam Project. This brought the total value of capital aid provided by Australia to £A 13,208,800. Australia has continued her programme of paper supplies for school texts and equipment for the Bombay Milk Scheme.

Since the inception of the Plan, 698 training awards have been provided for India. 33 Australian experts and advisers have visited India, 2 in 1964-65. Technical equipment provided by Australia included a cobalt 60 beam source, workshop equipment for the Government Precision Instruments Factory, Lucknow, equipment for the Central Road Research Institute, equipment for the Arid Zone Research Institute at Jodhpur.

**CANADA:** To the end of the fiscal year 1963-64 Canada had allocated \$ 238,956,000 million for capital assistance to India.

A summary of the Canadian 1963-64 capital and commodity assistance programme is as follows:

|                              |       | \$                  |
|------------------------------|-------|---------------------|
| Umtru Power Project          | .. .. | 650,000             |
| Idikki Power Project         | .. .. | 3,000,000           |
| Gamma Cell Units             | .. .. | 60,000              |
| Cobalt Therapy Units         | .. .. | 200,000             |
| Power Transmission Equipment | .. .. | 2,800,000           |
| <b>Commodities:</b>          |       | <b>\$</b>           |
| Wheat                        | .. .. | 1,500,000           |
| Copper                       | .. .. | 3,000,000           |
| Aluminium                    | .. .. | 3,000,000           |
| Zinc                         | .. .. | 2,150,000           |
| Asbestos                     | .. .. | 2,000,000           |
| Nickel                       | .. .. | 500,000             |
|                              |       | <b>12,150,000</b>   |
|                              |       | <b>\$18,860,000</b> |

Under Canadian technical assistance arrangements, 810 Indian students have received training in Canada and 47 Canadian advisers or teachers have served in India.

In 1963-64 Canada pledged Rs. 130 million for the Rajasthan Atomic Power Station. Canadian allocations for the Indus Basin Fund now stand at \$13.1 million.

**JAPAN:** Forty-two Indian trainees went to Japan for training. Of these 7 were in agriculture, engineering (24), power and fuel (2), medical and health (1), transport and communications (4) and administration (3). Japan provided six experts: agriculture (5) and transport and communications (1). At the tenth Consortium Meeting in May 1964, Japan expressed her readiness to extend additional credits of 21,600 million yen during the Fourth year of the Five Year Plan, bringing the total commitments by Japan to 82,800 million yen.

**NEW ZEALAND:** The total capital aid contribution by New Zealand to India since 1951 stands at £2,738,949 the highest to any one country. Of this £2,581,932 has taken the form of capital assistance, roughly half for the All-India Institute of Medical Sciences and half for dairy development in various parts of the country. In the latter field grants totalling

£170,000 were approved in 1963-1964 for projects at Bombay and Dehra Dun, and negotiations are under way for further substantial assistance. Another adviser in dairying was assigned to India during 1963-64, bringing the total sent since 1951 to 18, and 18 new training awards were granted in 1964-65 making a total of 116. Most of the training provided has been in the field of agriculture, and the experts have been mainly in this field and that of health.

**UNITED KINGDOM:** United Kingdom loan aid to India's Second Five-Year Plan (1956-61) amounted to £80.5 million. The aid which has been pledged so far to the Third Five-Year Plan (1961-66) amounts to £155 million, against which loan agreements totalling £125 million had been agreed up to 30 June 1964. New agreements concluded between 1 July 1963—30 June 1964 amounted to £26.5 million. Disbursements of United Kingdom aid in this period amounted to £29.9 million. 140 new training places were provided in 1964-65 bringing the total training awards by Britain to 2,032, and 307 experts and advisers have visited India, 27 of whom were sent in 1964-65.

New appointments of experts included 8 in technical education subjects, and 3 in medical and health (a team visit to several centres in India to demonstrate a special application of neuro-surgery). A Plant Pathologist was provided for six months to study a potato virus disease at Ootacamund in Madras State. During the year British equipment was supplied to the Indian Institute of Technology, Delhi, in continuation of a programme of assistance under which eight professors have been provided for the Institute by the United Kingdom Government since 1960, and seven more are to be provided over the next two to three years, as well as other experts. Up to June 1964, nearly £140,000 worth of equipment was supplied by the United Kingdom Government, and a further £77,000 worth was provided by British Industry. This is part of the programme under which £650,000 worth of equipment is altogether being provided for the Institute by the Government and British industry over a period of years. Other United Kingdom Government gifts of equipment

included £2,500 worth to the Tractor Testing and Training Station, Budni, and £5,700 worth to the Indian School of Mines, Dhanbad, in continuation of earlier aid.

During 1963-64 the United Kingdom Government paid £967,000 into the Indus Basin Development Fund, bringing up to £8.734 million the sums disbursed by 30th June 1964, from the original United Kingdom grant contribution of £20.86 million for the Indus Basin Development Plan. The United Kingdom Government has agreed, subject to Parliamentary approval to commit a further sum of £13.9 million under the Supplemental Agreement signed in April 1964.

**UNITED STATES:** United States assistance to India continued in 1964 with the following categories of aid: (1) development grants for technical assistance (\$6.9 million); (2) development loans for commodity and capital goods imports (\$337.2 million); (3) agricultural commodities under PL 480 (\$501.1 million) and (4) Export-Import Bank loans (\$57.2 million).

During fiscal year 1964-65, 49 resident American technicians were in India to work on joint projects or project support. Training programmes were planned for 454 participants. "Training of trainers" projects have been increasingly emphasized. Prominent among the projects are those contributing to the founding of new educational training institutions.

Development loans are extended by the United States to India to finance the purchase and importation of capital goods, commodities, and related services, for development projects and programmes. Credits have been extended mainly for public power development, railroad improvement and expansion, steel imports, fertilizer, and for capital goods imports required by the private and public sectors for industrial expansion. The Export-Import credits assist in the implementation of India's Third Five Year Plan and will find factories to produce fertilisers, cellulose and plastics.

The \$501.1 million in United States agricultural commodities supplied to India under sales

agreements and grants have constituted a major factor in India's ability to feed and clothe her people and to carry out her economic development programme. The \$24.5 million donated under Title III consisted of milk, cornmeal and other commodities distributed by CARE, UNICEF and three other voluntary agencies.

The Peace Corps has been active in India since December 1961. As of 30 June 1964, 153 volunteers were active in agriculture, health, nursing and teaching activities.

#### WORLD BANK, I.D.A. AND I.F.C.

Thirty-one of the 80 loans made by the I.B.R.D. (World Bank) have been to India, whose total borrowings of \$847 million make it easily the Bank's largest single customer.

I.D.A. extended a credit of \$90 million to enable companies in three major industries—commercial vehicles, industrial machinery and construction equipment—to import components and materials on a larger scale than has been possible up to now, and thus to make fuller use of existing capacity and to produce more capital goods.

I.D.A. extended two other credits—one of \$33 million for the development of telecommunications and another of \$62 million to help finance the railway development programme.

I.F.C. undertook the following commitments: to invest \$1.2 million in loan and share capital to help complete the financing of an \$8.4 million programme to enlarge and diversify the electric cable production of a company in Calcutta, to provide loan and share capital amounting to \$3.4 million to a new company which will build and operate a cotton textile machinery plant.

A study of the problems of coal transport has been completed at a cost to the Bank of some \$855,000. Field work on a study looking toward a new crossing on the Hooghly River was completed. The Bank has allocated \$116,000 to cover part of the cost.

The Bank continued to station a Resident Representative in New Delhi.

## COMMUNITY DEVELOPMENT PROJECTS AND PANCHAYATS

At the Centre the Ministry that is responsible for community development projects is the Ministry of Community Development and Co-operation. The Ministry is responsible also for village panchayats.

The C. D. programme, which was launched on Oct. 2, 1952, entered its 14th year of operation on Oct. 2, 1965.

The Government proposes to set up 1,000 additional community development blocks during the Fourth Plan period.

The entire country has now been covered by the C. D. programme. Out of 5,261 blocks into which the entire rural India has been delimited 2,315 are in stage I, 2,167 in stage II and 759 in the post stage II face.

Out of the 450 Tribal Development Blocks which were to be opened during the Third Plan period 415 have so far been allotted.

#### BUDGET

(Rs. in lakhs)

#### COMMUNITY DEVELOPMENT

An outlay of over Rs. 4,137.44 lakhs for the Community Development programme has been approved by the Planning Commission for 1966-67.

An analysis of the utilization of Plan outlay under Community Development during the Third Plan period shows that for the country as a whole, out of the total approved Plan outlay of Rs. 287.57 crores only Rs. 273.82 crores (95.2 per cent) have been spent at the close of the Third Plan period.

**Agriculture:** Agricultural production has continued to be the main focus of Community Development. The administrative structure has been streamlined from the State to the village level to achieve a rapid increase in agricultural production.

During the year 1965-66, guidelines were indicated to the State Governments suggesting specific responsibilities to be assigned to Panchayati Raj institutions and the Community Development Organisations in the emergency food production drive.

The Committee on Agriculture and Irrigation of the National Development Council and the Panel of Experts on Agricultural Administration suggested that the States should be requested to undertake a comprehensive review of the legislative, organisational and administrative measures required to enable the Panchayati Raj institutions to make the maximum possible contribution to agricultural production.

The recommendations of the Working Group on classification of blocks for developing an intensive approach to selected programmes was pursued by the State Govts. The Planning Commission had indicated to the State Governments that the categorisation of the blocks on the lines suggested by the working group should be kept in view, whilst formulating agricultural production plans for the Fourth Plan.

**Fisheries :** Considerable progress was recorded in the implementation of the special scheme for intensive development of fisheries in 786 selected blocks. An additional 430 blocks are proposed to be brought under the programme in 1966-67.

**Poultry :** Poultry programme recorded good progress during the year under review. Development of poultry in C. D. blocks around large urban centres was taken up by 13 States and three Union Territories. The States have been asked to strengthen arrangements for marketing poultry produce on cooperative lines.

**Village and Small Scale Industries :** Almost all States have accepted the minimum target of four village industries in each block. This target has been achieved in almost all cases. To encourage the development of small industries in the rural areas, an amount of Rs. 50 lakhs has been earmarked for issuing import licences for raw materials required by units in rural industrial estates, rural industries project areas, industrial cooperatives and Panchayati Samiti industries. The Khadi and Village Industries Commission has agreed to provide necessary funds for promoting Khadi and Village Industries programmes in the block.

**Health :** There were 4,742 Primary Health Centres at the end of Sept. 1965.

**Adult Literacy :** During the year ending Sept. 1965, about 54,000 adult literacy centres and 13,400 rural reading rooms/libraries were started; nearly 11 lakh adults attended the literacy centres, making a total of about 97 lakh adults made literate.

**Community Listening Sets. :** About 2 lakh community listening sets have been already supplied and located in the rural areas. The number of radio rural forums exceeded 12,500 by Dec. 1965.

### SPECIAL PROGRAMMES

**Applied Nutrition :** The Applied Nutrition Programme has been taken up for implementation in 222 selected blocks. The programme aims at increased production at the village level of various protective and body-building foods and training and education of the villagers in the

production, preparation and consumption of these foods. This programme is now in operation in 220 blocks in the States of Andhra Pradesh, Bihar, Delhi, Himachal Pradesh, Kerala, Madhya Pradesh, Madras, Maharashtra, Mysore, Orissa, Punjab, Rajasthan, Uttar Pradesh and West Bengal.

**Youth and Women's Programme :** The strengthening of the youth and women's groups is being given special emphasis in the blocks selected for applied nutrition and intensive production programmes and also an effective programme for rural youth and women through Yuvak and Mahila Mandals was maintained. During 1965-66 the membership of the above organisations was 25 lakhs and 14 lakhs respectively.

**Balwadis :** The Coordinated Welfare Extension Projects continued to function in 300 blocks. The integrated Child Welfare Projects promoted by the Deptt. of Social Welfare, continued likewise in all States. A little over 21,000 balwadis were reported to be functioning during the year.

**Rural Works :** The programme which started in 1960 on a pilot basis in 32 blocks, now covers 998 blocks. This programme seeks to create additional employment opportunities to agricultural workers in areas exposed to unemployment and underemployment. An amount of Rs. 5 crores has been provided for this programme for 1965-66.

### PANCHAYATI RAJ

Panchayati Raj was in force at the end of 1965-66 in all the States except Madhya Pradesh, Kerala, Jammu & Kashmir and Nagaland.

### CONSULTATIVE COUNCIL

During 1964-65 a consultative council on Panchayati Raj was set up. The interim report of the committee is yet to be finalised. (March 1966).

#### Santhanam Committee

The recommendations of the Santhanam Committee were considered at length by the last annual conference which accepted them as guidelines for policy; it was felt that they could be taken into account when opportunities for amending the existing legislations arose in the future.

The more important of the recommendations endorsed by the annual conference are :

(a) At the Village Panchayat level all members should be elected. Co-option might, however be resorted to if reservation for women,

Scheduled Castes/Scheduled Tribes beca infructuous for want of candidates ;

(b) There should otherwise be no nomination or co-option on the score of eminence or experience ;

(c) The Chairmen of Samitis and Parishads should be elected by a broad-based electoral college ;

(d) Ability to read and write the local language should be laid down as the minimum qualification for election as Sarpanch of the village institution and member or office bearer of a Panchayat Samiti or Zila Parishad ; and

(e) It would be desirable to entrust supervision of Panchayati Raj elections to the State Chief Electoral Officer.

The above recommendations are at various stages of implementation in the States.

**Finance :** The Santhanam Study team made a series of recommendations designed to increase the tax proceeds of Panchayati Raj bodies. The more important among them included compulsory levy of house tax, profession tax and vehicle tax, prescription of maximum and minimum rates for profession tax and specification of minimum rates of vehicle tax and levy of pilgrim tax by the higher tier Panchayati Raj institutions. The Consultative Council on Panchayati Raj had also made several suggestions including assignment of larger revenues to Panchayati Raj institutions and provision of matching assistance and equalisation grants to these bodies. The above recommendations are at different stages of implementation in the States.

**Safeguards :** Regarding safeguards the annual conference recommended that powers of recruitment, promotion and disciplinary action in respect of the staff working in Panchayati Raj institutions should vest in an authority independent of the elected wing of these bodies. Precise definition of the financial powers of the Panchayati Raj Institutions, the Standing Committees and their chief executive officers and formulation of an appropriate code of conduct for the elected representatives and office bearers of Panchayati Raj institutions were also recommended.

### TRAINING

The training programmes have been maintained on a country-wide basis for both officials and non-officials engaged in the implementation of the development programmes. This is a continuous process.

## THE CO-OPERATIVE MOVEMENT (1963-64)\*

### CREDIT SOCIETIES

The number of all types of co-operative credit societies stood at 2,32,961 at the close of the year 1963-64, representing a decrease of 1,101 from the previous year. The five States of Uttar Pradesh, Maharashtra, Punjab, Andhra Pradesh and Bihar accounted for more than half of the total number of societies.

The membership of the primary credit societies at 320.31 lakhs as on 30 June 1964 meant an increase of 24.57 lakhs or about 8 per cent over the last year. By the end of 1963-64, roughly 33.87 per cent of the total population was covered by the primary credit societies. The owned funds and working capital of all credit societies increased from Rs. 282.60 crores and Rs. 1,384.84 crores as on 30 June 1963 to Rs. 326.13 crores and Rs. 1,648.34 crores respectively as on 30 June 1964. Loans advanced by all primary credit societies during 1963-64 were Rs. 523.06 crores, representing an increase of Rs. 77.21 crores over the amount advanced during the previous year. Total loans repaid during 1963-64 amounted to Rs. 433.79 crores as against Rs. 368.68 crores last year, while loans outstanding stood at Rs. 584.27 crores as compared to Rs. 495.56 crores in the previous year. Overdues at the end of the year showed a very slight increase, being Rs. 91.54 crores as against Rs. 89.33 crores at the end of the previous year and formed 15.6 per cent of total loans outstanding.

### STATE CO-OPERATIVE BANKS

The state co-operative banks numbered 21. There was a net decline in the membership by 447; the reduction in the membership of co-operative institutions by 677 was offset by the increase in membership of individuals and others by 230. The paid-up share capital of the state co-operative banks in all States increased by Rs. 2.30 crores to Rs. 25.48 crores as on 30 June 1964. Of this increase, only Rs. 0.23 crore was accounted for by contribution by Government. The total working capital which stood at Rs. 281.51 crores as on 30 June 1963 increased to Rs. 328.21 crores as on 30 June 1964. The increase was mainly due to increase in deposits and borrowings from the Reserve Bank of India of the order of Rs. 14.97 crores and Rs. 24.79 crores respectively.

The distribution of resources of the apex banks as on 30 June 1964 revealed that Rs. 42.97 crores (including call deposits of Rs. 17.95 crores) were in the form of cash and balances with banks, Rs. 51.61 crores represented investments (Rs. 32.79 crores in government and trustee securities, Rs. 13.63 crores in fixed deposits and Rs. 5.18 crores in other investments, chiefly shares of other co-operative institutions), while outstanding loans accounted for Rs. 241.23 crores. Among individual apex banks, Maharashtra was, by far, the largest with a working capital of Rs. 69.08 crores, followed by the Uttar Pradesh and Madras banks.

### CENTRAL CO-OPERATIVE BANKS

The number of central co-operative banks showed a further decline from 375 (excluding the

industrial co-operative banks) on 30 June 1963 to 372 on 30 June 1964. The reduction in number was accounted for by Uttar Pradesh (2 banks) and Madhya Pradesh, West Bengal and Rajasthan (one bank each) and was offset by an increase of 2 banks in Kerala. The membership of the central co-operative banks stood at 3,65,009 recording a decline of 25,655 mainly on account of the fall in membership of individuals and others by 29,781. The membership at the end of June 1964 consisted of 1,878 central societies, 2,54,673 primary societies and 1,08,458 individuals and others. The working capital of central banks showed an increase from Rs. 394.85 crores as on 30 June 1963 to Rs. 460.32 crores as on 30 June 1964, representing an increase of 16.6 per cent.

#### Working Capital of Central Co-operative Banks (Crores of rupees)

| 3. Deposits .. ..        | 172.27                 |
| 4. Borrowings .. ..      | 205.84                 |

The working capital of central banks in Maharashtra was Rs. 92.51 crores, of those in Madras Rs. 64.80 crores, Gujarat Rs. 52.94 crores, Uttar Pradesh Rs. 54.20 crores and Andhra Pradesh Rs. 34.96 crores.

Total loans advanced by central co-operative banks during 1963-64 amounted to Rs. 529.14 crores as against Rs. 434.11 crores during 1962-63. The former comprised Rs. 497.74 crores of short-term loans and Rs. 31.39 crores of medium-term loans respectively. Advances by central co-operative banks in the three States of Maharashtra (Rs. 144.07 crores), Gujarat (Rs. 94.39 crores) and Madras (Rs. 79.42 crores) accounted for nearly 60 per cent of the total. The other important States were Uttar Pradesh (Rs. 49.49 crores) followed by Mysore (Rs. 35.66 crores), Madhya Pradesh (Rs. 31.92 crores), Andhra Pradesh (Rs. 30.51 crores) and Punjab (Rs. 20.95 crores).

The outstanding loans of central co-operative banks as on 30 June 1964 amounted to Rs. 340.10 crores, of which Rs. 337.36 crores were due from societies and Rs. 2.74 crores from individuals and others. The total overdues amounted to Rs. 53.51 crores, constituting 15.7 per cent of the outstandings; the corresponding figures at the end of 1963 were Rs. 51.92 crores and 17.9 per cent respectively.

### AGRICULTURAL CREDIT SOCIETIES

The primary agricultural credit societies numbered 2,09,622 as on 30 June 1964 as against 2,11,182 at the end of 30 June 1963. In ten of the major States and five of the Centrally administered areas there was a net increase in the number. Of the total, two-thirds were of the limited liability and the remaining of the unlimited liability type. The number of dormant societies at the end of 1963-64 was 33,675 as against 39,129 at the end of 1962-63 and they constituted 16.0 per cent of the total number of societies as against 18.5 per cent in 1962-63.

The membership of agricultural credit societies was 237.28 lakhs at the end of 1963-64 as against 217.34 lakhs at the beginning of the year, a rise of 9.1 per cent. All the States excepting Orissa shared the increase. The rise in membership during the previous year was 11.0 per cent.

Though the number of members who borrowed during the year increased from 104.53 lakhs to

109.19 lakhs, their percentage to the total decreased from 48 during 1962-63 to 46 during 1963-64.

As on 30 June 1964, the working capital of primary agricultural credit societies amounted to Rs. 440.39 crores representing an increase of Rs. 70.36 crores over the previous year, the percentage of increase being 19 as against 12.1 during 1962-63. The paid-up share capital of these societies amounted to Rs. 92.28 crores, of which Rs. 9.00 crores were contributed by the State Governments in 17,104 societies. The total deposits of these societies increased by Rs. 5.73 crores to Rs. 26.06 crores forming 5.9 per cent of their working capital. Their total borrowings amounted to Rs. 296.54 crores and formed about 67.3 per cent of the working capital. Of these, as much as Rs. 282.05 crores were from central co-operative banks. On the assets side, the cash on hand and balances with banks together amounted to Rs. 26.37 crores and investments to Rs. 57.25 crores, while loans and advances stood at Rs. 342.93 crores comprising short-term loans of Rs. 293.33 crores and medium-term loans of Rs. 49.60 crores. Of the active societies, only 1,65,554 societies issued loans amounting to Rs. 297.14 crores consisting Rs. 268.00 crores under short-term and Rs. 29.14 crores under medium-term. Their total recovery during the year amounted to Rs. 246.76 crores, the overdues amounting to Rs. 77.31 crores and forming 22.5 per cent of the loans outstanding, as compared to Rs. 77.18 crores overdues at 25.5 per cent of outstandings at the end of 1962-63.

The all-India averages of membership, share capital, deposits, working capital and loans advanced per borrowing member for agricultural credit societies; recorded a slight improvement over the previous year.

The non-credit operations of agricultural credit societies comprised mainly marketing of agricultural produce and distribution of agricultural requisites and consumer goods. 4,736 societies marketed agricultural produce of the value of Rs. 12.57 crores during 1963-64 as against 4,519 societies of the value of Rs. 11.52 crores during 1962-63. There were a few agricultural credit societies in Gujarat and Maharashtra which undertook processing also. In regard to supply of farmer's requisites, the number of societies engaged in the work increased from 76,769 during the previous year to 89,347 during 1963-64, while the value of goods distributed by them increased from Rs. 51.25 crores to Rs. 95.61 crores. Consumer goods, fertilizers and seeds were important constituents. The value of seeds and fertilizers distributed showed an increase from Rs. 6.03 crores and Rs. 25.52 crores to Rs. 6.39 crores and Rs. 36.77 crores respectively, while the value of consumer articles increased substantially from Rs. 14.07 crores to Rs. 44.26 crores.

As on 30 June 1964, Uttar Pradesh had the largest number of agricultural credit societies at

\* Source : Statistical Statements Relating to Co-operative Movement in India, 1963-64 by Reserve Bank of India.

46,231, while Maharashtra came next with 19,938 societies; the number of such societies in Punjab, Bihar and Madhya Pradesh was 19,801, 19,568 and 17,494 respectively. More than 30 per cent of the societies were dormant in Assam, Rajasthan and West Bengal. The membership of these societies in Uttar Pradesh was 45.85 lakhs, while in Madras it was 37.46 lakhs.

The value of produce marketed by agricultural credit societies during 1963-64 in Maharashtra, Gujarat and Assam amounted to Rs. 4.19 crores, Rs. 3.03 crores and Rs. 1.66 crores respectively. The value of goods distributed amounted to Rs. 22.49 crores in Gujarat, Rs. 22.00 crores in Maharashtra, Rs. 10.82 crores in Uttar Pradesh and Rs. 10.64 crores in Punjab, these four States together accounting for over 69 per cent of the value of goods distributed by agricultural credit societies in all the States.

### GRAIN BANKS

The number of grain banks showed a fall from 9,083 as on 30 June 1963 to 9,007 as on 30 June 1964, the reduction being accounted for by Madhya Pradesh 21, Maharashtra 183, Mysore 4, and Madras 1; there was an increase in their number in Andhra Pradesh 2, Bihar 9, Orissa 18 and West Bengal 94. Of the total as much as 3,109 grain banks were dormant, while 5,898 were active. Their overall operations, however, showed some increase. Their working capital which stood at Rs. 7.00 crores as on 30 June 1963 increased to Rs. 7.35 crores as on 30 June 1964. The loans advanced by them during the year 1963-64 amounted to Rs. 3.14 crores as against Rs. 3.08 crores in the previous year. The grain banks were active mainly in Orissa and the loans advanced by them during 1963-64 amounted to Rs. 2.74 crores. 2,336 grain banks in the State had 7.07 lakh members, their membership being even more than those of agricultural credit societies in the State viz. 4.20 lakhs. The overdues of all grain banks in the country and in Orissa as on 30 June 1964 were Rs. 2.75 crores and Rs. 1.77 crores forming 47.7 per cent and 40 per cent of the amount outstanding respectively.

### NON-AGRICULTURAL CREDIT SOCIETIES

The non-agricultural credit societies mainly consisting of urban banks and employees' credit societies, which cater to the credit requirements of small traders, government servants, other salaried employees and other urban and semi-urban residents including artisans, numbered 13,323 as on 30 June 1964, as against 12,850 at the end of the previous year. Their membership also showed an increase from 55.03 lakhs to 56.77 lakhs. The working capital of these institutions was of the order of Rs. 217.85 crores, showing an increase of about Rs. 32.53 crores over the previous year. Their deposits at Rs. 135.95 crores compared favourably with those of all the state and central co-operative banks in the country, which amounted to Rs. 112.28 crores and Rs. 172.27 crores respectively on the same date. Two-thirds of these deposits were accounted for by the three States of Maharashtra, West Bengal and Madras. Individually, Maharashtra accounted for Rs. 40.37 crores, West Bengal for Rs. 35.72 crores and Madras for Rs. 15.54 crores. The loans advanced by these societies during 1963-64 amounted to Rs. 199.57 crores, showing an increase of over Rs. 33.36 crores over the previous year.

### LAND MORTGAGE BANKS

**Central Land Mortgage Banks:** The number of central land mortgage banks showed a decline from 19 to 18 over the year 1963-64 because one central land mortgage bank in Ajmer (Rajasthan) continued to remain dormant and data in respect of this were excluded this year. The membership of all central land mortgage banks as on 30 June 1964 consisted of 573 primary land mortgage banks, 196 other co-operative institutions and 2,65,755 individuals (regular members) as against 553, 177 and 2,334,451 respectively at the end of the previous year. Their share capital showed an increase from Rs. 7.81 crores to Rs. 9.59 crores. Total borrowings of all central land mortgage banks as on 30 June 1964 amounted to Rs. 99.87 crores, of which Rs. 92.59 crores were in the form of debentures, as compared to Rs. 75.17 crores and Rs. 68.19

crores respectively, as on 30 June 1963. Total investments on 30 June 1964 amounted to Rs. 23.77 crores, of which Rs. 20.56 crores were in respect of sinking fund, while the loans outstanding to them stood at Rs. 90.18 crores. Their overdues on 30 June 1964 were Rs. 1.92 crores. These banks floated debentures of the value of Rs. 25.04 crores during the year 1963-64, while Rs. 24.99 crores were actually subscribed to. Of the 18 central land mortgage banks in the country, 11 issued ordinary debentures worth Rs. 23.21 crores and 6 issued rural debentures worth Rs. 1.78 crores during the year. The loans advanced by them during 1963-64 amounted to Rs. 29.58 crores against Rs. 24.62 crores during the previous year. During 1963-64 an amount of Rs. 15.22 crores was advanced for land improvement, Rs. 8.58 crores for purchase of machinery and Rs. 3.93 crores for redemption of debt.

**Primary Land Mortgage Banks:** The primary land mortgage banks increased in number from 571 as on 30 June 1963 to 583 as on 30 June 1964 (including the land mortgage banking sections of 9 central co-operative banks). Mysore, Andhra Pradesh and Madras accounted for about 65 per cent of the total number of primary banks. In some of the States such as Gujarat, Jammu & Kashmir, Bihar and Uttar Pradesh, the central land mortgage bank continued to finance individual members directly or through branches. The membership of the primary land mortgage banks showed an increase from 10.51 lakhs to 12.78 lakhs, while their working capital increased from Rs. 55.02 crores to Rs. 74.08 crores. The loans outstanding to these banks as on 30 June 1964 were Rs. 68.88 crores as against Rs. 51.36 crores in the previous year.

### STATE PARTNERSHIP

The following table shows the participation by Government in the share capital of various types of societies. The total of such contribution as at the end of 1963-64 was Rs. 38.21 crores as against Rs. 35.09 crores at the end of the previous year.

## GOVERNMENT CONTRIBUTION TOWARDS THE SHARE CAPITAL OF CO-OPERATIVE CREDIT SOCIETIES—By State and Type of Society

(Thousands of rupees).

| State                                          | Credit Societies |                          |                            |                        |                            |                    |

<sup>1</sup> Data relate to 1962-63.

**Profit and Loss of Credit Co-operatives:** The net result of the operations of co-operative credit societies during 1963-64 and 1962-63: The first two figures represent the number of societies which earned a profit and the profit earned in Rs. lakhs in 1963-64 giving within brackets the number which earned profit and the profit earned in Rs. lakhs respectively in 1962-63. The next figures indicate the number of societies which incurred a loss and the loss incurred in Rs. lakhs in 1963-64 showing within brackets the number of societies which incurred a loss and the loss incurred in Rs. lakhs during the year 1962-63: State co-operative banks 20; 2,33 (21; 2,18); 1; 0.16 (—;—); Central co-operative banks 356; 5,21 (357; 4,58); 9; 2 (12; 3); Industrial co-operative banks 12; 8 (10; 7); 3; 0.11 (—;—); Primary agricultural societies 146,064; 8,52 (143,666; 6,74); 44,473; 195 (48,940; 1,86); Grain banks 4,561; 44 (4,552; 40); 878; 10 (1,069; 11); Central land mortgage banks 16; 62 (18; 53); 2; 0.10 (—;—); Primary Land mortgage banks 369; 37 (321; 26); 198; 12 (224; 11); Primary non-agricultural societies 8,594; 4,23 (8,350; 3,81); 2,295; 25 (2,459; 19); Total: 159,992; 21,80 (157,295; 18,57); 47,859; 2,44 (52,704; 230).

### NON-CREDIT SOCIETIES

The number of all types of co-operative non-credit societies, both agricultural and non-agricultural, which stood at 1,23,448 at the close of the year 1963-64 represented an increase of 11,337 over the position at the end of the previous year. In number, the weavers (12,871) and other industrial societies (25,065) continued to be the largest single groups. Next in importance are consumers societies (10,096), other processing societies (10,049), housing societies (9,896), sugarcane supply societies (9,340), milk supply societies (6,068), farming societies (5,868), marketing societies (3,347) and fisheries societies (2,933).

The membership of all primary non-credit societies which stood at 131.90 lakhs as on 30 June 1964 showed an increase of 12.40 lakhs or about 10 per cent over the position as on 30 June 1963.

### AGRICULTURAL MARKETING SOCIETIES

**National and State Marketing Societies:** The National Agricultural Marketing Federation with its headquarters at Delhi continued to function with 37 societies as members. It sold agricultural produce worth Rs. 72.85 lakhs.

At the State level, there were 21 state societies consisting of 19 general purpose marketing societies, one society for arecanut in Mysore and one for fruits and vegetables in Delhi. The state societies had 4,939 societies and 546 individuals and others as their regular members and 462 nominal members. Their working capital as on 30 June 1964 amounted to Rs. 14.48 crores, consisting of Rs. 3.88 crores of owned funds, Rs. 0.48 crore of deposits, and Rs. 10.11 crores of borrowings; Rs. 7.63 crores of the borrowings were from Government. The societies in Assam, Gujarat and Maharashtra had effected sales of agricultural produce of over Rs. one crore each while 9 societies had effected sales less than Rs. 10 lakhs. The total value of agricultural produce sold by them, both as owners and as agents was Rs. 11.97 crores as compared to Rs. 9.38 crores in 1962-63. These institutions also sold agricultural requisites of the value of Rs. 28.17 crores, of which as much as Rs. 26.71 crores represented fertilizers.

**Central Societies:** These societies which were functioning at the district or regional level numbered 159 as on 30th June 1964. Of these, 4 dealt in cotton, 4 in fruits and vegetables, 1 in tobacco and 150 were of the general purpose type. Their sales of agricultural produce amounted to Rs. 11.05 crores; the sales by the societies in the three States of Madras, Maharashtra and Uttar Pradesh accounted for the major part of the total sales. The value of agricultural requisites sold by them was higher at Rs. 33.46 crores and was mainly accounted for by 6 States namely, Maharashtra, Andhra Pradesh, Madras, Punjab, Uttar Pradesh and Gujarat. The value of consumer

articles sold by them amounted to Rs. 25.75 crores as against Rs. 4.70 crores in the previous year; the important States in this regard were Maharashtra, Madras and Punjab.

**Primary Marketing Societies:** The total number of primary marketing societies in the country as on 30th June 1964 was 3,166 comprising 94 societies dealing in cotton, 227 in fruits and vegetables, 23 in arecanut, 14 in tobacco, 62 in coconut, 105 in other specialised commodities and 2,641 general purpose marketing societies. Their membership consisted of 1,30,567 societies, 17,16,800 individuals and others as regular members and 68,278 nominal members. Their working capital as on 30th June 1964 was Rs. 41.49 crores consisting of Rs. 10.82 crores of share capital, Rs. 6.44 crores of reserve and other funds, Rs. 4.12 crores of deposits and Rs. 20.11 crores of borrowings. The total value of their purchases was Rs. 106.36 crores while their total sales amounted to Rs. 176.71 crores, of which as much as Rs. 83.22 crores were as agents. Of the total sales, agricultural produce accounted for Rs. 82.62 crores and agricultural requisites for Rs. 40.53 crores. Important commodities, under agricultural produce, dealt with by the societies were paddy (Rs. 14.83 crores), other foodgrains (Rs. 10.02 crores), cotton (Rs. 7.05 crores), wheat (Rs. 5.84 crores), oilseeds (Rs. 5.15 crores), jaggery (Rs. 4.56 crores), and fruits and vegetables (Rs. 2.32 crores). Sales of agricultural requisites consisted chiefly of fertilizers which accounted for Rs. 27.89 crores. During the year, 657 societies advanced loans to societies and 1,266 societies advanced loans to individuals, to the extent of Rs. 5.14 crores and Rs. 24.87 crores respectively. The working results also showed improvement; 1,881 marketing societies earned a profit of Rs. 1.94 crores and 809 societies incurred loss of Rs. 0.40 crore, while 476 societies worked without profit or loss. 1,548 marketing societies owned 2,651 godowns with an estimated capacity of 2 lakh cubic feet and 69.50 lakh quintals. 1,268 societies hired 4,193 godowns.

**Sugarcane Supply Societies:** Most of the sugarcane supply societies were concentrated in Bihar and Uttar Pradesh. At the end of 1963-64 there were 9,340 societies consisting of 2 states societies, 69 central societies and 9,269 primary societies. The state societies were located in Uttar Pradesh and Delhi. All the 69 central societies and 9,098 primary societies out of a total of 9,269 were in Bihar. The membership of primary societies numbered 2,107 societies and 26.73 lakh individuals; of these, 2,089 societies and 21.41 lakh individuals were in Uttar Pradesh. The working capital of the state, central and primary societies stood at Rs. 43.81 lakhs, Rs. 95.32 lakhs and Rs. 1,361.71 lakhs respectively. The value of sugarcane marketed by the primary societies was Rs. 65.28 crores; of this, the societies in Uttar Pradesh alone accounted for Rs. 58.48 crores. The primary sugarcane supply societies also distributed agricultural requisites of the value of Rs. 8.15 crores, both as agents and as owners.

**Co-operative Sugar Factories:** The number of co-operative sugar factories increased by 2 during the year bringing the total to 68 at the end of 1963-64. They had 10,538 societies, 2.18 lakh growers and 11,484 others (including non-grower individuals and institutions other than co-operative societies and Government) as their members during 1963-64 as against 10,803, 1.99 lakhs and 16,955 respectively during the previous year.

During 1963-64, 48 factories were in production as against 39 during the previous year. The paid-up share capital of all sugar factories was Rs. 23.52 crores of which Government contribution was Rs. 8.82 crores as against Rs. 21.51 crores and Rs. 8.57 crores respectively in the previous year. Their borrowings at the end of 1963-64 were of the order of Rs. 47.79 crores, of which Rs. 14.99 crores were from co-operative banks, Rs. 4.87 crores from the State Bank of India, Rs. 19.20 crores from the Industrial Finance Corporation and Rs. 0.95 crore from Government. Fixed assets amounted to Rs. 66.01 crores, of which Rs. 45.98 crores were in plant

and machinery and Rs. 12.32 crores in land and buildings. The value of sugar produced by the factories was Rs. 64.70 crores during 1963-64 as against Rs. 47.80 crores in the previous year, while their sales of sugar during 1963-64 amounted to Rs. 64.71 crores as against Rs. 64.98 crores in 1962-63. The value of sugar stocks at the end of the year stood at Rs. 17.37 crores as against Rs. 16.68 crores at the end of 1962-63 and Rs. 31.21 crores at the end of 1961-62. Among the States, Maharashtra had the largest number of sugar co-operatives viz., 20 and all of them were in production. The value of sugar produced by them was Rs. 37.55 crores, forming more than half of the total production by co-operative sugar factories in the country. Sixteen of the twenty factories in Maharashtra assisted in the recovery of loans advanced by 871 primary agricultural credit societies for production purposes to the extent of Rs. 5.31 crores and in Gujarat one factory recovered loans to the extent of Rs. 0.26 crore advanced by 52 credit societies.

**Agricultural Processing Societies-Cotton Ginning and Pressing Societies:** All the 151 societies engaged in cotton ginning and pressing were primary societies, and they had 4,963 societies and 78,868 individuals as members; besides these, 51 marketing societies undertook processing. The cotton ginning and pressing societies had a total working capital of Rs. 5.80 crores. Of these, 97 societies operated 97 ginning factories and ginned 25.64 lakh quintals of cotton. Forty-eight societies having 54 pressing units, pressed 5.76 lakh bales during 1963-64. These societies sold cotton of the value of Rs. 19.09 crores; they also sold agricultural requisites amounting to Rs. 0.87 crore. They advanced, mostly in Gujarat, Rs. 8.76 crores as loans and recovered Rs. 8.67 crores. Six of these units recovered loans advanced by 78 agricultural credit societies to the extent of Rs. 0.28 crore. Of the total sales of Rs. 19.09 crores, sales valued at Rs. 17.86 crores were effected by the societies in Gujarat.

**Other Agricultural Processing Societies:** Other agricultural processing societies are mainly grouped under the following five heads: (i) Paddy husking other than rice mills, (ii) Rice mills; (iii) Oil crushing; (iv) Fruits and vegetables; (v) Others.

### OTHER NON-CREDIT SOCIETIES

#### Agricultural Non-credit Societies

(a) **Farming Societies:** There has been 30.1 per cent increase in the number of joint farming societies which stood at 4,034 as on 30 June 1964 as against 3,101 as on 30 June 1963; their total membership increased from 67,351 to 86,642. The number of members working full-time in field operations increased from 31,143 to 40,950, while those engaged in part-time field operations increased from 12,376 to 13,474. The area commanded by these societies was 5.20 lakh acres of which 3.77 lakh acres were under cultivation as compared to 4.37 lakh acres and 3.25 lakh acres, respectively in 1962-63. The value of production showed an increase from Rs. 1.87 crores to Rs. 2.15 crores, while their sales increased from Rs. 1.60 crore to Rs. 2.17 crores.

Over the year 1963-64, the collective farming societies increased in number from 1,411 to 1,834 while their membership rose from 46,488 to 61,117. The area commanded and brought under cultivation by them also increased from 2.46 lakh acres and 1.55 lakh acres to 2.96 lakh acres and 1.91 lakh acres respectively. The value of their production increased from Rs. 0.60 crore to Rs. 0.66 crore while their sales remained steady at Rs. 0.63 crore.

(b) **Irrigation Societies:** The number of irrigation societies showed a slight increase from 1,466 to 1,499 while the area commanded by them decreased from 2.95 lakh acres to 2.92 lakh acres. The area actually irrigated by them slightly increased from 1.53 lakh acres to 1.68 lakh acres. The societies had Rs. 182.33 lakhs worth of irrigation works at the end of the year 1963-64.

(c) **Fisheries Societies:** The fisheries societies numbered 2,933 as on 30 June 1964 with 3.01 lakh members as against 2,729 societies and 2.79 lakh members at the end of the previous year. They advanced loans to the extent of Rs. 71.38 lakhs. The value of their catch was Rs. 1.71 crores, while their sales were of the order of Rs. 2.52 crores.

### INDUSTRIAL SOCIETIES

**Handloom Weavers' Co-operative Societies:** There were 21 apex weavers' societies, 117 central societies and 12,733 primary weavers' societies as on 30 June 1964. The apex societies had 6,286 societies and 1,537 individuals as members; the central societies had 3,235 societies and 4,460 individuals as members and the primary societies had 68 societies and 13.13 lakh individuals as members. The total working capital of the apex societies was Rs. 7.68 crores consisting of Rs. 1.18 crores of share capital, Rs. 0.92 crore of reserve and other funds respectively and Rs. 5.59 crores of borrowings. Of the total borrowings, Rs. 2.86 crores were from Government and Rs. 2.22 crores were from co-operative banks. The value of cloth purchased, including production, by them amounted to Rs. 9.38 crores, while their sales were of the order of Rs. 10.35 crores.

The central weavers' societies had Rs. 1.55 crores of working capital of which Rs. 0.92 crore were in the form of borrowings (Rs. 0.28 crore from Government and Rs. 0.33 crore from central financing agencies). The value of cloth sold by them amounted to Rs. 1.88 crores.

The primary weavers' societies had Rs. 27.12 crores as working capital consisting of Rs. 5.28 crores of share capital, Rs. 3.56 crores and Rs. 2.05 crores of reserve and other funds respectively, and Rs. 18.25 crores of borrowings. Of the total borrowings, Rs. 6.76 crores were from Government, Rs. 6.46 crores were from the

central financing agencies and Rs. 3.02 crores from other sources. The primary weavers' societies produced during 1963-64 cloth worth Rs. 48.25 crores and sold cloth valued at Rs. 52.11 crores. They had 1,594 sale depots, 65 pattern making factories and 684 dye houses. The total number of looms under these societies was 12.82 lakhs, of which 7.23 lakhs were active. Of the total production, Madras accounted for Rs. 11.91 crores followed by Andhra Pradesh, (Rs. 8.44 crores), Maharashtra (Rs. 5.78 crores), West Bengal (Rs. 4.25 crores), Uttar Pradesh (Rs. 3.96 crores) and Bihar (Rs. 3.38 crores).

**Other Industrial Societies:** There were 17 State, 98 central and 24,950 primary industrial societies as on 30 June 1964. The membership of the primary societies consisted of 3,480 societies and 11.62 lakh individuals. The working capital of the state, central and primary societies stood at Rs. 1.75 crores, Rs. 1.76 crores and Rs. 23.13 crores respectively. The value of production by the societies at the three levels was Rs. 0.33 crore, Rs. 0.56 crore and Rs. 16.53 crores respectively; their sales amounted to Rs. 0.93 crore, Rs. 2.39 crores and Rs. 17.93 crores respectively.

**Spinning Mills:** The total number of co-operative spinning mills as on 30 June 1964 was 47 with 9,288 societies and 22,950 individuals as members. These societies had a total working capital of Rs. 13.15 crores and the number of spindles under their fold was 5.03 lakhs. The value of yarn sold by them during 1963-64 amounted to Rs. 4.73 crores. They had fixed assets valued at Rs. 8.68 crores, of which Rs. 5.29 crores represented plant and machinery.

**Consumers' Stores:** The number of wholesale consumers' stores nearly doubled from 100 to 196 during the year under review. There were 32 societies in Maharashtra, 26 in Uttar Pradesh, 19 in West Bengal and 16 in the Punjab. Their sales increased from Rs. 5.60 crores in 1962-63

to Rs. 27.53 crores in 1963-64. As many as 138 societies worked at profit. The primary stores also showed an increase from 8,407 to 9,900. The primary stores had a net-work of 1,036 branches and had 19.33 lakh members. As on 30 June 1964, their paid-up share capital was Rs. 4.04 crores and reserve and other funds Rs. 3.71 crores; their borrowings amounted to Rs. 4.86 crores and the total working capital was Rs. 12.61 crores. The purchases and sales of the primary stores during the year 1963-64 amounted to Rs. 56.33 crores and Rs. 60.05 crores respectively.

**Housing Societies:** There were 10 state and 9,886 primary housing societies at the end of 1963-64 with 4,154 and 6.20 lakh members respectively. The two States Maharashtra (3,091) and Gujarat (2,292) accounted for more than half the total number. The working capital of state societies amounted to Rs. 18.67 crores of which borrowings accounted for Rs. 16.27 crores. The total working capital of primary societies amounted to Rs. 95.73 crores, of which Rs. 73.75 crores were in the form of borrowings. The amount of loans outstanding to them was Rs. 26.71 crores, while the value of land and buildings owned by them amounted to Rs. 74.20 crores. The number of independent houses and tenements constructed by these societies during 1963-64 was 10,211 and 18,952 valued at Rs. 8.61 crores and Rs. 28.94 crores respectively, while the number of houses constructed by members was 13,890 valued at Rs. 11.16 crores.

### STATE PARTNERSHIP IN NON-CREDIT SOCIETIES

The following table shows the participation by Government in the share capital of various types of non-credit societies. The total of such contribution as at the end of 1963-64 was Rs. 23.38 crores as against Rs. 20.42 crores at the end of the previous year.

### GOVERNMENT CONTRIBUTION TOWARDS THE SHARE CAPITAL OF CO-OPERATIVE NON-CREDIT SOCIETIES—

By State and Type of Society

(Thousands of rupees)

| State                                 | Total    | Marketing Societies |         |         | Sugar-cane Supply Societies | Farming Societies | Cotton ginning & pressing Societies | Sugar-factory Societies | Other agri-cultural processing Societies | Weavers' Societies | Other industrial Societies | Spinning mills | Fisheries Societies |

<sup>1</sup> Data relate to 1962-63.

## CO-OPERATIVE UNIONS AND INSTITUTES

At the end of 1963-64, there was one national union, viz., National Co-operative Union of India, 19 state unions and 207 divisional, district and sub-divisional unions and institutes. The state and central unions had 52,716 and 44,702 societies affiliated to them respectively. The state unions imparted training during the year to 10,586 members of staff of co-operative institutions, 89,078 honorary office bearers and 4,72,252 members, while the central unions trained 3,383, 19,573 and 73,073 persons of the above categories respectively. The state unions had 868 teaching and propaganda staff while the central unions had 219 of such staff. The state unions and central unions received Rs. 100.67 lakhs and Rs. 8.81 lakhs as Government grants respectively.

## GENERAL INSURANCE SOCIETIES

The number of these societies increased by one to 7 at the end of December 1963 while their membership increased to 11,033 from 10,195 during the year 1963. Their income by way of premia (less reinsurance paid) amounted to Rs. 85.94 lakhs as against Rs. 73.99 lakhs in 1962. They paid claims of the value of Rs. 37.15 lakhs during 1963 as against Rs. 19.11 lakhs in previous year.

SOCIETIES (both credit and non-credit)  
UNDER LIQUIDATION

The number of societies under liquidation at the beginning of the year was 25,447, of which 17,525 were pending for two years and more. 6,495 societies were brought under liquidation during the year, while the liquidation proceedings were finalised in respect of 3,613 societies, leaving 28,303 societies under liquidation at the end of the year. The assets realised and the liabilities paid off during the year were Rs. 1.12 crores and Rs. 1.07 crores respectively. The total liabilities and assets of societies under liquidation at the end of the year were Rs. 12.18 crores and Rs. 10.58 crores respectively.

**Profit and Loss of Non-Credit Co-operatives:** The net result of the operations of non-credit co-operative societies during 1963-64 and 1962-63: The first two figures represent the number of societies which earned a profit and the profit earned in Rs. lakhs in 1963-64 giving within brackets the number earning profit and the profit earned in Rs. lakhs respectively in 1962-63. The next figures indicate the number of societies which incurred a loss and the loss incurred in Rs. lakhs in 1963-64 showing within brackets the number of societies which incurred a loss and the loss incurred in Rs. lakhs during the year 1962-63:

Marketing societies 2,017; 3,02 (1,772; 2,05); 841; 1,22 (1,087; 60); Sugarcane supply societies 121<sup>1</sup>; 51 (6,651; 28); 42<sup>1</sup>; 5 (1,743; 9); Milk supply unions and societies 2,860; 62 (2,265; 47); 2,057; 23 (1,648; 20); Ghee, eggs and other livestock products 582; 4 (466; 3); 495; 2 (433; 2); Irrigation societies 339; 7 (313; 12); 490; 6 (524; 6); Farming societies 2,190; 37 (1,599; 22); 2,311; 40 (1,856; 30); Cotton ginning and pressing societies 94; 13 (66; 8); 47; 4 (56; 4); Sugar factory societies 28; 1,40 (30; 1,39); 25; 2,76 (26; 1,25); Other agricultural processing societies 2,746; 25 (2,342; 18); 3,992; 36 (3,416; 25); Other non-credit societies (Agricultural) 4,427; 3,60 (3,704; 75); 2,242; 27 (2,949; 25); Other non-credit societies (Non-agricultural) 4,833; 153 (4,382; 1,21); 2,957; 74 (2,819; 58); Consumers' Co-operative stores 4,655; 1,27 (3,293; 81); 2,676; 65 (2,366; 50); Housing societies 3,406; 96 (3,026; 70); 3,655; 56 (3,188; 54); Weavers' societies 5,329; 2,33 (5,013; 2,04); 4,608; 1,48 (4,623; 1,41); Other industrial societies 8,049; 1,04 (7,599; 89); 9,685; 1,21 (8,776; 91); Spinning mills 21; 21 (14; 16); 15; 26 (10; 26); Fisheries societies 1,092; 15 (1,067; 16); 1,193; 14 (1,050; 10); Total 42,789; 17,50 (43,602; 11,54); 37,331; 10,45 (36,470; 7,36).

\* Revised series year (1960 = 100). Consumer price Index Numbers (Dec. 1965) for Industrial workers of certain centres (revised series year 1960=100) are: Ahmedabad 132; Amritsar 144; Bangalore 153; Digboi 140; Hyderabad 147; Indore 144; Jaipur 141 (Nov. 1965); Jamshedpur 141 (Sept. 1965); Kanpur 152 (Sept. 1965); and Srinagar 145.

## OVERSEAS COMMUNICATIONS SERVICE

**INDIA'S Overseas Telecommunications network** of telegraph, telephone, radio-photo and telex services are managed by the Overseas Communications Service. The administrative Head of the department is the Director-General with headquarters at Bombay.

The Service has 4 gate-way Centres for handling international communications at Bombay, Calcutta, New Delhi and Madras. The network consists of submarine telegraph cable systems from Bombay and Madras and wireless telegraph and radio-telephone systems from all the 4 Centres. The submarine telegraph cables as such are owned and maintained by Cable & Wireless Limited, London.

As on 20th June 1966, the Overseas Telecommunications network of India consists of:—

**Direct Wireless Telegraph Services:—**With Afghanistan, Australia, United Kingdom (4 independent circuits), Burma, China (2 links: Peking & Shanghai), U.A.R., France, Federal Republic of Germany, Indonesia, Iran, Iraq, Italy, Japan, Malaysia, Poland, Philippines, Roumania, Switzerland, Thailand, U.S.A. (2 independent circuits), U.S.S.R., Viet Nam (North), Viet Nam (South) and Yugoslavia.

**Direct Radio-Telephone Services:—**With Aden, Afghanistan, Australia (2 independent circuits), Bahrain, United Kingdom (4 independent circuits), Burma (2 independent circuits) (2 links from Poona & Calcutta), China, Kenya, U.A.R., Ethiopia, France, Federal Republic of Germany, Hongkong, Indonesia, Iran, Iraq, Italy, Japan (2 independent circuits), Singapore, Poland, Saudi Arabia, Switzerland, Thailand, U.S.S.R. and Viet Nam (South).

**Direct Radio-photo Services:—**With United Kingdom, China, France, Federal Republic of Germany, Italy, Japan, Poland and U.S.S.R. All these services, with the exception of those with China and Poland, are operated directly from Bombay, Calcutta as well as New Delhi. The above services, with the exception of those with Japan, China and Poland are also operated directly from Madras. The services with China and Poland are operated from New Delhi only. Through these direct connections with international trunk routes, telegraph services are available with practically all the countries of the world. Similarly telephone service is available with a large number of countries in the world as given below.

**Switched Radio-Telephone Services:—**Alaska, Algeria, Argentina, Austria, Balearic Islands, Barbados, Belgium, Bermuda, Brazil, British Guinea, Bulgaria, Burundi, Canada, Canary Islands, Central Africa Republic, Ceuta, Chad Republic, Chile, Congo, Cuba, Costa Rica, Cyprus, Czechoslovakia, Denmark, Doha, Dubai, Faroe Islands, Federal Republic of Germany, Fiji, Finland, France, French Sahara, Forbisher Bay (Canada), Gabon Republic, German Democratic Republic, Ghana, Gibraltar, Goosbay Labrador (Canada), Greece, Guatemala, Hawaii, Honduras, Hungary, Iceland, Irish Republic (Eire), Israel, Italy, Jamaica, Jordan, Kenya, Kuwait, Lebanon, Leeward Islands, Libya, Luxembourg, Malawi, Malaysia, Malta, Mauritius, Mongolian People's Republic, Manila, Mexico, Morocco, Muscat, Netherland Antilles, Netherlands, Newfoundland, New Zealand, Nicaragua, Nigeria, Norway, Panama, Philippines, Poland, Qatar, Rhodesia, Roumania, Ruanda, Ryukyu Islands, Sarawak, Sierra Leone, Spain, Spanish North Africa, South Africa, South West Africa, Sudan, Sweden, Switzerland, Tanzania, Tangier, Trinidad, Tunisia, Uganda, U.A.R., United States of America, Vatican City, West Irian, Windward Islands, and Yugoslavia, Zambia and Ocean Liners which are equipped with the necessary equipment.

Radio-photo service is available with 24 other countries as shown below:

**Switched Radio-photo Services:—**Australia, Belgium, Canada, Czechoslovakia, Cyprus, Denmark, U.A.R., Finland, France, Germany, Greece, Ghana, Italy, Jamaica, Malaysia, Nigeria, Norway, Portugal, Roumania, Sweden, South Africa, Switzerland, Yugoslavia and U.S.A.

**Multi-Address Press Broadcast (Telegraph) Services:—**The Overseas Communications Service provides news transmissions by radio-telegraph on behalf of the Ministry of External Affairs simultaneously to about 39 Indian Consular posts around the world. Similar facilities for broadcasting news transmission to multiple reception-point are also provided to the Press Trust of India from Bombay.

**Programme Transmissions Service:—**Facilities are offered for "programme transmissions" i.e. spoken despatches by representatives and correspondents of foreign Broadcast Organisations for broadcast by their respective principals.

**Leased Telegraph Channels Service:—**Leased teleprinter channels for private customers on rental basis were introduced as a new facility by O.C.S. in the year 1957. This Service has since then expanded rapidly and 25 such channels are in use, as on 20th June 1966, by business concerns etc. This facility provides means of communication by teleprinters directly between the parties.

**International Telex Services:—**The international telex service is the most modern form of facility available to the public and, as with other countries in the world, there is a very large and phenomenally growing demand for the provision of such service.

International telex service was introduced for the first time in India in June, 1960 linking the Bombay/Ahmedabad group of subscribers with London, and via London with a number of countries in the world.

**Direct Telex Services:—**United Kingdom (3 independent circuits—one each from Bombay, Calcutta and New Delhi) Japan, Federal Republic of Germany and Philippines. Through these direct connections with International network, telex service is available with 58 other countries as shown below.

**Switched Telex Services:—**Aden, Algeria, Argentina, Australia, Austria, Bahrain, Belgium, Bermuda, Brazil, Bulgaria, Canada, Chile, Czechoslovakia, Denmark, Doha, Dubai, Ethiopia, Faroe Islands, Fiji, Federal Republic of West Germany, Finland, France, German Democratic Republic, Ghana, Greece, Hongkong, Hungary, Iceland, Irish Republic, Israel, Italy, Jamaica, Kenya-Uganda-Tanzania, Lebanon, Luxemburg, Malaysia, Malta, Mexico, Netherlands, New Zealand, Norway, Peru, Philippines, Poland, Republic of Sudan, Roumania, Singapore, Spain, Sweden, Switzerland, Turkey, Uruguay, U.S.A., USSR, Thailand and Yugoslavia.

All International Telex services are integrated with the internal telex system, which the Indian P. & T. has made available to the Indian public in 13 cities viz. Calcutta, Bombay, New Delhi, Madras, Ahmedabad, Secunderabad-Hyderabad, Bangalore, Kanpur, Coimbatore, Nagpur, Patna, Madurai and Poona.

## PRODUCTION (INDUSTRIAL) 1965

## ARECANUT INDUSTRY

**A**RECANUT is one of the most important commercial crops of India. It has an important place in the religious, social and cultural life of our people irrespective of caste, creed or social status. Chewing of arecanut with betel leaves and lime (Thambulam, Pan Supari) has become a habit with some people and a luxury of many in the country.

India ranks first in the world both in the acreage and production of arecanut. It is a source of livelihood for nearly three million people in the country.

The chief arecanut growing States in the country are Kerala, Mysore and Assam. These States accounted for nearly 94 per cent of the area under cultivation and 95 per cent of the total production of the crop according to the latest official estimates. The other arecanut growing States are Maharashtra, West Bengal and Madras. It is also grown as stray in Andhra Pradesh and Orissa.

The overall average per capita consumption of betelnut in India is estimated at 0.33 kg. The highest per capita consumption is in Assam with 2.8 kg. In Kerala it is 0.67 kg. and in Mysore 0.66 kg. Among the cities, Delhi and Nagpur are two of the most important consuming markets.

Betelnut (processed arecanut) varieties are numerous in India and can be broadly classified into unboiled, boiled and coloured varieties.

It is estimated that during 1964-65 the country had 125,145 hectares under arecanut cultivation with a production of 117,602 tonnes of cured nuts. Statewise details of area and production during 1964-65 are given below :

| State                  | Area Hectares  | Production (Metric tons) |
|------------------------|----------------|--------------------------|
| Kerala .. .. .         | 59,500         | 48,700                   |
| Mysore .. .. .         | 34,170         | 38,500                   |
| Assam .. .. .          | 24,574         | 24,048                   |
| West Bengal .. .. .    | 2,198          | 2,460                    |
| Maharashtra .. .. .    | 2,088          | 1,480                    |
| Madras .. .. .         | 2,380          | 2,246                    |
| Andhra Pradesh .. .. . | 208            | 162                      |
| Orissa .. .. .         | 27             | 6                        |
| <b>Total .. .. .</b>   | <b>125,145</b> | <b>117,602</b>           |

The internal production continued to be insufficient to meet the requirements and imports had to be continued.

### IMPORTS OF ARECANUT

| Year            | Quantity in thousands of quintals | Value in lakhs of Rupees |
|-----------------|-----------------------------------|--------------------------|
| 1959-60 .. .. . | 141.75                            | 71.86                    |
| 1960-61 .. .. . | 111.70                            | 64.63                    |
| 1961-62 .. .. . | 100.41                            | 45.32                    |
| 1962-63 .. .. . | 89.78                             | 34.61                    |
| 1963-64 .. .. . | 28.10                             | 13.87                    |
| 1964-65 .. .. . | 32.75                             | 19.26                    |

### EXPORT OF ARECANUT

| Year            | Quantity in quintals | Value in lakhs of Rupees |
|-----------------|----------------------|--------------------------|
| 1959-60 .. .. . | 2,078                | 12.68                    |
| 1960-61 .. .. . | 1,513                | 9.73                     |
| 1961-62 .. .. . | 1,229                | 8.60                     |
| 1962-63 .. .. . | 1,099                | 8.62                     |
| 1963-64 .. .. . | 957                  | 7.24                     |
| 1964-65 .. .. . | 2,150                | 14.80                    |

(The quantity available for consumption for the year 1964-65 was 12.07 lakh quintals of arecanut.)

**Development :** During the Fourth Five Year Plan, it is proposed to have an additional production of 8,500 metric tonnes. The various measures proposed for the purpose are distribution of fertilisers and plant protection materials, issue of loans for digging wells for irrigation purposes and purchase of pump sets etc. and raising and distributing quality seedlings for underplanting in the existing gardens. The Fourth Plan programme is proposed to be restricted to the major arecanut growing states of Kerala, Mysore and Assam. No increase in area under arecanut is proposed during the Fourth Plan.

**Agricultural Research :** To step up production of arecanut and thereby making the country self-sufficient, the erstwhile Indian Central Arecanut Committee had established a Central Arecanut Research Station at Vittal, South Kanara, Mysore State, and a series of Regional Research Stations in Kerala, Mysore, Assam and West Bengal. The Regional Arecanut Research Station functioning at Thiruvahallur under the administrative control of the Mysore State Govt. was also sponsored and partly financed by the Committee. The administration of the Central and Regional Research Station has since been passed on to the Indian Council of Agricultural Research.

Apart from distribution of quality seedlings, the Central and Regional Research Stations undertake fundamental and applied research in Botany, Physiology, Agronomy, pests and diseases of the crop. Researches into the causes and remedial measures of serious diseases like *Mahali* (fruit-rot), *Hidimundigae* disease (which makes the palm barren), *Anabe Roga*, root, bud and stem rot, and yellow leaf diseases are also undertaken.

**Technological Research :** To find ways and means for utilising arecanut and its by-products for industrial and other purposes, researches have been undertaken by the various institutes and Universities in the country. The Arecanut Technological Research Institute, Mysore, has evolved a new technique by which the fresh ripe fruits can be preserved with standard preservatives for a sufficiently long time. The preserved nuts retain the original colour and the kernel is also seen to retain its freshness. A boiler-cum-drier for drying arecanuts has also been devised.

**Nurseries :** To meet the demand of quality seedlings, a net-work of nurseries (Grant-in-aid nurseries, State nurseries, nurseries attached to Research Stations and certified nurseries) has been established in all the States where arecanut crop is grown. To demonstrate improved methods of its cultivation to the growers, demonstration plots have also been laid out in suitable centres.

**Marketing :** The Indian Central Arecanut Committee has been bestowing particular attention to the development of marketing of arecanuts with special emphasis on co-operative marketing, by encouraging organisation and

development of co-operative marketing societies for arecanut growers in all the important arecanut growing states. The Committee gives financial assistance to meet the cost of management of the societies during the initial period in collaboration with the concerned State Governments. There are thirty four arecanut Co-operative marketing societies located in the States of Kerala, Mysore, Madras, Maharashtra, West Bengal and Assam, of which five societies are receiving financial assistance from the committee during 1964-65. Mysore State occupies a predominant position in the co-operative marketing of arecanuts. The co-operative societies in Mysore handled about 40 per cent of the marketable surplus during 1964-65. To co-ordinate the activities of the primary arecanut marketing co-operative societies, a co-operative marketing federation has been organised in Mysore State with its area of operation extended to cover also the neighbouring States of Kerala, Madras and Maharashtra, so as to confer the benefits of co-operative marketing of arecanuts to the members of the primary

arecanut marketing societies of these States. With a view to preventing adulteration of arecanuts, the Indian Central Arecanut Committee has sponsored a scheme for analysis of arecanuts for prescribing quality grade standards which is being worked at the Central Food Technological Research Institute, Mysore. Another scheme for grading of arecanuts on an experimental basis in selected grading centres through the arecanut co-operative marketing societies, is in operation in the States of Mysore and Madras with financial assistance from the Central and the concerned State Governments.

The total quantity of arecanuts sold by the co-operative marketing societies during 1964-65 was 1,18,127 quintals valued at Rs. 6.16 crores, which formed about 13 per cent of the total marketable surplus in the country, against 1,06,728 quintals valued at Rs. 6.02 crores sold during 1963-64. The total membership and share capital of these societies rose from 28,181

and Rs. 17.22 lakhs during 1963-64 to 34,600 and Rs. 21.61 lakhs respectively during 1964-65.

**Regulated Markets:** With a view to regulating the market practices and preventing exploitation of primary producers, regulated markets have been established in the important assembling centres in Mysore and Kerala States under the Agricultural Produce Markets Act. The regulated markets also collect and disseminate market intelligence for the benefit of growers and traders.

**Publicity:** Necessary steps have been taken by the Government to publish, for the information of the general public, the useful results of the research done and scientific methods of cultivation of arecanut, control of arecanut pests and diseases etc. Market prices of important trade varieties in forwarding, distributing and consuming markets and other matters of general importance to the farmers are also published from time to time.

## COFFEE INDUSTRY

**C**OFFEE cultivation is mainly confined to the hilly tracts of south India, from one thousand to six thousand feet above the mean sea level, and is centred in the Malnad area of Mysore, Madras and Kerala. In the lower elevations, which have a higher rainfall, the more delicate but better quality Arabica coffee has given place to the harder but coarser Robusta coffee.

Investments on coffee estates in India have been estimated at 1,500 million rupees. The daily labour employed is about 2,22,000\*. Ancillary industries like curing and transport employ about 20,000.

The coffee industry's contribution to agricultural income is estimated at 190 million rupees out of a total of 67,780 million rupees or 0.3 per cent.

There are only two types of coffee grown on commercial scale in India, the one most extensively cultivated being Coffee Arabica and the best in quality, with Robusta coming next in importance. About 50 species and sub-species of coffee are being grown in the Coffee Board's research stations. Many of the coffee estates are interplanted with orange, cardamom and pepper. There are about 47,000 coffee estate owners.

The area and production from 1959-60 of the two varieties of coffee are as under:

### AREA IN THOUSAND ACRES

| Year    | Arabica | Robusta | Total |
|---------|---------|---------|-------|
| 1958-59 | ..      | 167     | 105   |
| 1959-60 | ..      | 174     | 121   |
| 1960-61 | ..      | 174     | 123   |
| 1961-62 | ..      | 179     | 129   |
| 1962-63 | ..      | 180     | 132   |
| 1963-64 | ..      | 186     | 134   |

### PRODUCTION IN M. TONNES

| Year        | Arabica | Robusta | Total  |
|-------------|---------|---------|--------|
| 1959-60     | ..      | 32,300  | 17,490 |
| 1960-61     | ..      | 39,445  | 28,575 |
| 1961-62     | ..      | 29,300  | 16,750 |
| 1962-63     | ..      | 34,000  | 22,200 |
| 1963-64     | ..      | 39,120  | 30,180 |
| 1964-65     | ..      | 42,290  | 18,725 |
| 1965-66 (E) | ..      | 38,750  | 21,400 |

(E) Estimates.

\* Provisional and subject to revision.

Final receipts of 1964-65 crop into the pool amounted to 60,610 tonnes made up of 31,200 tonnes plantation, 10,920 tonnes arabica cherry and 18,490 tonnes robusta. The receipts of 1963-64 crop were 68,922 tonnes comprising 28,400 tonnes plantation, 10,470 tonnes arabica cherry and 30,052 tonnes robusta. The deliveries of 1965-66 crop and the pool have so far amounted to 42,896 tonnes comprising 23,795 tonnes plantation, 10,503 tonnes arabica cherry and 8,595 tonnes robusta upto 18th March 1966.

Increase in production has been followed by a rise in exports and internal consumption.

The following table gives the trend of exports :

| Year    | Exports in Metric Tons* |
|---------|-------------------------|
| 1958-59 | .. .. 16,400            |
| 1959-60 | .. .. 18,180            |
| 1960-61 | .. .. 32,271            |
| 1961-62 | .. .. 19,829            |
| 1962-63 | .. .. 22,411            |
| 1963-64 | .. .. 33,005            |
| 1964-65 | .. .. 23,003            |

\* Out of the season's crop.

There is no export duty on coffee at the moment.

The annual average prices realised in the pool sales for each type of coffee from the year 1958 (in Rs. per 50 kg. inclusive of Central Excise Duty).

| Year | Plantation 'A' | Arabica cherry Flats/Arabica cherry AB | Robusta cherry Flats/Robusta cherry AB |
|------|----------------|----------------------------------------|----------------------------------------|
|      | Rs. P.         | Rs. P.                                 | Rs. P.                                 |
| 1958 | 214.80         | 182.79                                 | 157.21                                 |
| 1959 | 236.02         | 186.96                                 | 155.64                                 |
| 1960 | 222.46         | 180.72                                 | 157.54                                 |
| 1961 | 229.45         | 189.27                                 | 152.94                                 |
| 1962 | 247.85         | 200.61                                 | 153.42                                 |
| 1963 | 247.19         | 210.73                                 | 176.78                                 |
| 1964 | 268.48         | 225.32                                 | 205.33                                 |
| 1965 | 259.50         | 218.00                                 | 225.82                                 |

The possibilities of further expansion of the coffee cultivation in Andhra, Assam and West Bengal States and in the Andamans are being explored at present. Some coffee plantations have already been started in Andhra and the Andamans.

Loans totalling Rs. 57,81,184 were sanctioned to 750 applicants as on 31st March 1966.

### AVERAGE INDEX NUMBERS OF WHOLESALE PRICES OF COFFEE (Base 1952-53 : 100).

| Year | Index      |
|------|------------|
| 1955 | .. .. 80.3 |
| 1956 | .. .. 81.0 |
| 1957 | .. .. 86.6 |
| 1958 | .. .. 85.7 |
| 1959 | .. .. 88.7 |
| 1960 | .. .. 87.1 |
| 1961 | .. .. 87.6 |
| 1962 | .. .. 90.7 |

### COFFEE BOARD

The Coffee Board is a statutory organisation constituted under the Coffee Act, (Act No. VII of 1942), and functions under the administrative control of the Government of India in the Ministry of Commerce. The functions of the Board are as under :

- (1) the promotion of the sale and consumption in India and elsewhere of the coffee produced in India ;
- (2) the promotion of agricultural and technological research in the interest of the coffee industry ;
- (3) assistance to coffee estates for their development ;
- (4) the securing of better working conditions and the provision and improvement of amenities and incentives for workers ; and
- (5) the working of the measures enumerated in the Act relating to the operations of the surplus pool.

The Coffee Board consists of the Chairman and 32 other members representing the interests of coffee growers, the State Governments of Mysore, Madras and Kerala, labour, curing establishments, the trade and such other interests as in the opinion of the Central Government ought to be represented on the Board. The Board was re-constituted as from 19th April 1965 for a period of three years.

## COIR INDUSTRY

**COIR** is the trade name given to the fibre obtained from the husk of the coconut fruit. This golden coloured fibre is also known in Europe as "Cocos Fibre".

India and Ceylon have a virtual monopoly in the production of this by-product of the coconut industry.

India produces about 4,720 million coconuts a year. The area under coconut cultivation is about 7.46 lakh hectares.

In India the coir industry is practically confined to the coastal strip of Kerala State. It accounts for 5.05 lakh hectares of the coconut growing areas out of a total of 7.46 lakh hectares under coconut cultivation in India. The distribution of the area under cultivation and production of coconuts for 1961-62 (latest available) is as follows :—

| States.                          | Area in hectares. | Production of nuts in thousands. |
|----------------------------------|-------------------|----------------------------------|
| Kerala .. ..                     | 5,04,818          | 32,47,000                        |
| Madras .. ..                     | 55,153            | 4,45,348                         |
| Mysore .. ..                     | 97,044            | 4,36,926                         |
| Andhra Pradesh ..                | 33,866            | 3,06,005                         |
| Maharashtra ..                   | 7,096             | 27,237                           |
| Gujarat .. ..                    | 5,261             | 27,300                           |
| Orissa .. ..                     | 4,491             | 61,581                           |
| West Bengal ..                   | 6,677             | 22,205                           |
| Assam .. ..                      | 3,148             | 10,232                           |
| Andaman and Nicobar Islands ..   | 7,487             | 33,273                           |
| Laccadive & Amin-divi Islands .. | 2,371             | 8,751                            |

| Goa .. ..                        | 16,997            | 82,000                           |
|                                  | 7,45,688          | 47,20,396                        |

Source : Indian Central Coconut Committee, Ernakulam.

The coir industry is organised partly on cottage basis and partly in factories. The production of coir fibre, yarn and rope is essentially a cottage industry, while coir mats, mattings, rugs, carpets, mourzouks, etc. are manufactured in factories.

It is estimated that in the spinning sector the industry provides employment to about

five lakhs of people. The spinning sector is spread along the entire coastal region of Kerala State. In the manufacturing sector about 25,000 people are engaged. The manufacturing sector is mainly concentrated in and around Alleppey and Shertallai. The Kerala Government have fixed minimum wages under the Minimum Wages Act in respect of the spinning sector of the industry.

About 1,62,000 metric tonnes of coir fibre and 4,43,000 metric tonnes of coir yarn are estimated to be produced annually.

The yarn produced in the spinning districts is marketed chiefly in Alleppey where there are a large number of factories for the manufacture of mats, mattings, rugs, carpets, mourzouks, etc. and also exporters of yarn.

On an average, 25,700 metric tons of coir yarn are utilised in the manufacture of coir floor coverings such as mats and mattings; 54,800 metric tons are exported as coir yarn; and about 62,500 metric tons are consumed within India itself for various purposes including manufacture of coir cordages and ropes.

According to the latest information available there were 144 coir factories in Kerala State registered under the Factories Act as on 31st December 1965.

One of the recent innovations is the manufacture from Coir Fibre of rubberised coir which is an effective substitute for foam rubber for a variety of purposes. The rubberised coir is extensively used in the manufacture of mattresses, pillows, moulded cushions, upholstery parts, packaging material etc. These products are considerably cheaper than foam rubber, but have all the advantages and comforts of foam rubber.

On an average exports of coir and coir products earn about Rs. 12 crores of foreign exchange every year.

The Act also provides for the control of the industry by the Union Government for the levy of a customs duty on export of coir fibre, coir yarn and coir products.

At present, the duty levied on coir fibre, coir yarn is at the rate of 98 P. per quintal. The annual revenue on this account comes to about Rs. 6 lakhs.

The coir industry in India is subject to violent fluctuations in prices and exports, causing often hardship to a large section of the population. This induced the Government of India to set up a Coir Board by special legislation called the Coir Industry Act, 1953.

The Coir Board was established on July 7, 1954. Its chief function is the improvement of markets at home and abroad, thereby establishing a balance between internal consumption and exports so as to give the industry the required economic stability. The Board was reconstituted in 1963-64.

In view of the importance of the coir industry in its export and the internal consumption aspects the Government of India had allotted a sum of Rs. 313.41 lakhs for the development of the coir industry during the 3rd Five Year Plan. Rs. 75.00 lakhs for Central Schemes to be executed by the Board direct, Rs. 234.40 lakhs for State Schemes and Rs. 4.01 lakhs for the Union Territories' Schemes.

The Third Five Year Plan Schemes of the Coir Board envisaged the establishment of Research Institutes, sending out foreign delegations for market survey and study of the uses of yarn in importing countries, opening of show-rooms and sales-depots and propaganda.

A Central Coir Research Institute has been established at Kalavoor, Alleppey District. A mechanised factory for the manufacture of coir mattings on power looms is being set up by the Coir Board at Kalavoor shortly. A Regional Coir Research Station has started functioning at Uluberia, West Bengal. A National Coir Training and Design Centre has been set up recently at Alleppey.

The Central Scheme consists of two parts, viz. continuation schemes and new schemes.

Continuation schemes include scientific research on chemical, biological and other basic properties of coir fibre and coir yarn, applied research on the various methods of extraction of fibre, studies on motorised spinning machine, work on utilisation of coconut pith and coir waste, studies dyeing of coir in the fibre and yarn, working of the Coir Research Station in West Bengal, statistical and economic research, maintenance of show-rooms, etc.

New schemes include setting up of a mechanised coir factory at Kalavoor for the manufacture of mattings on powerlooms and dye house, etc.

A compulsory pre-shipment inspection scheme for export of coir door mats of the types creel, bit, fibre and rod has come into force with effect from the 20th December 1965. The Coir Board is the agency for inspection. The basis of inspection is the specifications recognised under the scheme. A voluntary pre-shipment inspection scheme for export of coir yarn is introduced with effect from April 1966.

### STATEMENT SHOWING THE EXPORT OF COIR AND COIR GOODS FROM THE INDIAN PORTS DURING THE YEARS

1960-61 to 1964-65 (April-March)

| Year<br>(April-March) | Coir fibre |       | Coir yarn |        | Coir Products<br>(excluding rope) |        | Coir cordage<br>and ropes |       | Total    |          |
|-----------------------|------------|-------|-----------|--------|-----------------------------------|--------|---------------------------|-------|----------|----------|

## JUTE INDUSTRY

The jute industry maintains its position as India's largest foreign exchange earner. The total value of jute goods exports in 1965 was approximately Rs. 185 crores which was 23 per cent of total foreign exchange earnings during the year. As a dollar-earner, jute goods accounted for about 50 per cent of the total receipts of that currency. The value of manufactured jute exported was Rs. 150 crores in 1962, Rs. 159 crores in 1963 and Rs. 162 crores in 1964. Total production of jute goods in 1965 was the highest on record at an estimated 14.40 lakh metric tons, representing an increase of 70,000 metric tons over 1964.

There are 79 mill companies in India with a total loomage of 75,265. Of the 79 mill companies, 68 are in West Bengal, 4 in Andhra, 3 in Bihar, 3 in U.P., and 1 in M.P. The mills in West Bengal are concentrated in and around Calcutta on both banks of the Hooghly.

The industry has spent Rs. 50 crores on the modernisation of its productive apparatus. Good progress has also been made towards an increase in capacity utilisation. As compared with 1948/49, the output in 1964/65 was about 25 per cent higher in tonnage, the share of carpet backing being about eight per cent. About 10 per cent of this increase can be attributed to increased capacity utilisation. The remainder is

entirely due to the increase in productivity in both looms and spinning frames.

The industry employs about 2½ lakh workers.

The jute industry has diversified its production. It is a supplier of wide hessian backing cloth for tufted carpets to the U.S.A. Intensive research on fibre technology and product development, both locally and overseas, goes to employ the world's best talents in textile science and engineering.

**Raw Jute Production:** The Government of India has fixed a production target of 11 million bales of raw jute and mesta for the last year of the Fourth Plan against the Third Plan achievement of an average of 76 lakh bales per year.

The additional production of 34 lakh bales is sought to be achieved partly through double cropping 8,30,000 acres of land with jute and paddy in canal and tube-well irrigated areas but mainly through an increase in the unit yield from the present 2.8 bales to 4.5 bales per acre by intensive cultivation methods. In recent years the average consumption of jute by mills has been 80 lakh bales.

The table below gives the production and exports of jute goods during the past few years:

### PRODUCTION AND EXPORTS OF JUTE GOODS

| Year<br>(July-June) |    |    | Hessian | Production (000 tons) |        | Total | Exports<br>(all-India)<br>April-March<br>(000 tons) | April-March<br>Value<br>(Rs. in<br>crores) |
|---------------------|----|----|---------|-----------------------|--------|-------|-----------------------------------------------------|--------------------------------------------|

| 1965-66         | .. | .. | 18.49      | 4,449                              |

N.B.—The jute season is from July to June.

The all-India yield per acre was 1,110 lbs. in 1963-64, as against 1,153 lbs. in 1964-65 and 962 lbs. in 1965-66. Production of jute and mesta during 1964-65 (according to official forecast) was 75.5 lakh bales and during 1965-66 (according to official forecast) about 60 lakh bales.

Supply and distribution of jute and mesta during the seasons 1964-65 and 1965-66 are as follows:

|                     |         | (Lakh bales)             |       |

## LAC INDUSTRY

**L**AC is a resin which finds extensive application in industries. It is a resinous protective secretion of an insect which lives by sucking the sap of certain trees and shrubs called lac hosts.

There are four crops of sticklac, named after the Hindu months in which the collection of each crop commences. These are 'Baisakhi' and 'Katki' from one strain of the insect (Rangeeni) and 'Jethwi' and 'Aghani' from another strain (Kusumi). The first processed product, after the crushing and washing of sticklac is known as 'seedlac'. From this shellac is manufactured either by melting it (seedlac) manually in cloth bags held near a fire place called 'bhattas' or by the mechanised process of extraction with suitable solvents.

### PRODUCTION

India is the chief source of supply of sticklac and till 1950 accounted for nearly 85 per cent of the world production. But since then production in Thailand has rapidly increased and now accounts for about 30 per cent of the world production. The average production of sticklac in different States based on the annual production during the years 1954-64 is as follows:—

| State                  | Average Crop<br>(in tonnes*) |
|------------------------|------------------------------|
| Bihar .. .. .          | 1,92,820                     |
| Madhya Pradesh .. .. . | 1,26,140                     |
| West Bengal .. .. .    | 53,455                       |
| Maharashtra .. .. .    | 18,895                       |
| Uttar Pradesh .. .. .  | 10,825                       |
| Orissa .. .. .         | 6,560                        |
| Assam .. .. .          | 2,370                        |
| Gujarat .. .. .        | 2,680                        |
| Other States .. .. .   | 5,505                        |
| <b>Total .. .. .</b>   | <b>4,19,240</b>              |

The actual production in 1964-65 was 17,660 tonnes as against 28,720 tonnes in 1963-64.

The average annual production of shellac including buttonlac is 15,500 tonnes and that of seedlac 11,000 tonnes.

### MARKETING

There are no regulated markets for trading in sticklac. The manufacture of shellac is a cottage industry and the number of shellac factories varies from season to season. According to the latest information there are about 210 factories in the country; only one of these located in Calcutta is fully mechanised.

Yield from sticklac varies from year to year and locality to locality.

Roughly the yield of seedlac and shellac is 65 per cent and 55 per cent of sticklac respectively.

The cost of manufacturing one maund of shellac from seedlac is about Rs. 16 and of converting sticklac into seedlac is Rs. 3. In 1939 these were roughly Rs. 3-8 and As. 8 respectively.

### PRICES

The falling tendency in prices observed during 1957-58 continued and by April 1958 prices of T.N. Shellac touched the lowest level of Rs. 57 in post-war years. This necessarily caused concern to Government and the trade alike.

The general objectives of the Government of India in regard to lac industry therefore were: (i) that the country should earn the maximum foreign exchange possible by export of the commodity without impairing the competitive strength of the commodity against the only competitor Thailand and (ii) to create conditions so that the cultivator or primary producer

gets the maximum possible price on the basis of the export prices. This policy has continued throughout.

**Minimum Export Prices:** In regard to the first when the export prices of the commodity started dwindling rapidly since 1956-57, the Government of India encouraged in 1958 the formation of the Indian Lac Exporters' Association and assisted that Association to operate a system of minimum export prices. This measure ensured a dependable rate of foreign exchange earning although the actual value earned still depended upon the quantities exported. Since, however, the demand for Indian lac, as judged from the exports during the past few years, has dropped by about 20 per cent, the earnings have also naturally dropped proportionately.

The minimum export prices were also revised twice downwards once in 1961 and again in 1963 by about 10 per cent on each occasion as a stimulant for export.

**Regulation of Prices:** In order to reduce the gap between the internal price and the minimum export price and thus mop up the excessive profit of the middlemen, an export duty of Rs. 160 per tonne on seedlac or shellac and Rs. 125 per tonne on other lacs was levied from October 1961. This, however, was abolished from January 1964 as it was considered, the situation did not warrant its continuance.

**Buffer Stocks:** In regard to the prices received by the cultivators, these had not been, in recent years, in any way related to the minimum export prices. There was an ever widening gap between the two. For this reason, the Government had to introduce other price stabilization measures. The State Trading Corporation was authorized to set up a Seedlac Buffer Stock. The Indian Lac Exporters' Association also had earlier set up a limited buffer stock at Calcutta. The State Trading Corporation operated in a comparatively bigger way, purchasing seedlac in most of the major lac refining centres. Despite this, the cultivators' condition remained unchanged.

In regard to the buffer stock price, the State Trading Corporation started purchasing seedlac in different centres at different rates based on minimum export price at Calcutta. The price differential for the various centres was worked on the basis of the cost of handling and transport from the respective centres to Calcutta. This was later revised and a single price for the whole country at a reduced level was introduced in 1963. The prices have now been revised upwards from March 1964 by about 5 to 10 per cent because of the general rise in the market prices. Nevertheless no lac is being offered to the State Trading Corporation's buffer stock at the moment.

The State Trading Corporation on the other hand have liquidated their buffer stocks periodically on the basis of 25 per cent of the export requirements of individual shippers on production of relevant export orders.

**Non-Price Measures:** (a) The main aim is to increase the off-take of Indian lac by consuming countries. Towards this end, publicity campaigns in the largest consuming country, namely, United States, were partly financed by the Indian Lac Exporters' Association. The Indian Lac Exporters' Association also sponsors research in overseas laboratories for developing new and improved uses of lac.

The Government of India is providing increasing funds for intensifying research at the Indian Lac Research Institute.

(b) An official delegation jointly sponsored by the Indian Lac Exporters' Association and the Shellac Export Promotion Council visited Thailand, the only other country producing lac, to arrive at a suitable price and trade policy for mutual advantage.

**Cumulative Effect:** The prices for raw lac received by cultivators declined continuously during the last four years and reached perhaps the lowest levels in the post-war period towards the end of 1963. The result has been that the major portion of Katki crops of 1963 was not harvested and there was no incentive to initiate further cultivation with the result that all the four lac crops of the year failed and were lowest on record. This shortfall in production resulted in pushing up the prices substantially. With prices remaining at reasonably steady levels during 1964, infection was done on a larger scale and crops during 1965, favoured by good climatic conditions fared better. In order however to meet fully the export commitments, the Government of India allowed imports of lac to the extent of 40 per cent of the export value. The position further improved during 1966 and prospects of a normal crop are bright.

### EXPORTS

About 90 per cent of the total quantity of processed goods is exported.

The U.S. is the best customer followed by the U.K. and Germany. Since 1953 the U.S.S.R. and China have also been buying sizable quantities.

Exports of all kinds of lac to foreign countries have averaged seven lakh maunds in the past five years; but there has been a drop in foreign exchange earnings to the tune of over Rs. 3 crores due to lower prices of lac during 1958 and 1959. The average value of exports which stood at Rs. 10 crores till 1956-57 has now declined to about Rs. 5 crores.

The table below gives exports of lac to important countries during 1963-64 and 1964-65.

(The figures are in quintals†)

|                                      | 1963-64            | 1964-65            |

Lac has made significant contributions to the development of art and industry.

Shellac is consumed chiefly by five industries. The gramophone industry consumes about 11 to 13 thousand tons.

The varnishes and paint industry absorbs something like 4 to 6 thousand tons.

\* One tonne = 1,000 Kg. = 26.79 maunds.

† One quintal = 100 Kg. = 2.679 maunds.

The total demand from the electrical industry is estimated at 3,000 tons as against 1,000 tons in pre-war years.

Nearly 3,000 tons are used in the hat industry as a stiffening material.

The manufacture of sealing wax requires about 1,500 tons.

For the promotion of the improvement of methods of cultivation and manufacture of lac in India the Indian Lac Association for Research was formed by traders in Calcutta in 1921 and the Government found the funds by levying a cess on all exports of lac other than refuse lac at annas four per maund and for refuse lac annas two per maund. This association set up the Indian Lac Research Institute at Namkum (Ranchi).

The Indian Lac Research Institute at Namkum along with all research schemes has merged in the Indian Council of Agricultural Research. Other activities, namely, Development, Statistics, Marketing etc. have been taken over by the Department of Agriculture, Government of India.

An Export Promotion Council for shellac has also been formed under the Central Ministry of Commerce to promote exports of shellac.

At the suggestion of the Bihar Shellac Enquiry Committee and the Indian Lac Cess Committee the Government of India banned future trading in shellac and seedlac.

A new office has been created namely "Regional Office, Lac Development", at Ranchi under the Ministry of Food and Agriculture, Community Development and Cooperation (Deptt. of Agriculture) with effect from April 1, 1966. The head of the office has been designated as Director, Lac Development.

The Indian Lac Cess Committee has been dissolved with effect from April 1, 1966.

#### RESEARCH AND DEVELOPMENT

Nucleus Broodlac Farms which had been set up continued to supply broodlac which, along with that purchased was used for supply to various State Governments and other agencies for extension of lac cultivation. In pursuance of

the decision of the working group on the Fourth Five Year Plan, emphasis is being shifted to extend cultivation of lac of the improved variety, namely, of the Kusumi and Moghania varieties.

Service trials of the shellac *etch primer* in the railways and road transports have been completed and reports of satisfactory performance received from the Chief Mechanical Engineer, S.E. Bly and Works Manager, Maharashtra State Road Transport Corporation, Poona. The commercial manufacturers are continuing its production and supply on a large scale.

In the meanwhile a heat and water proof French polish has been developed by combining shellac and synthetic resins. A water composition of baking type has also been developed which holds particular promise for use in tin plate lacquers.

As a price support policy, a Processing Unit has been set up at the Indian Lac Research Institute to process sticklac into seedlac purchased by the co-operative organizations for sale to the State Trading Corporation.

## PAPER INDUSTRY

THE bulk of the production comprises the more common types of paper, especially printing and writing paper. The manufacture of superior varieties is

also undertaken but on a restricted scale.

The following table gives the trend of production :—

(In thousand tonnes)

|                            | 1960   | 1961  | 1962  | 1963  | 1964  |
|----------------------------|--------|-------|-------|-------|-------|
| Printing & Writing .. .. . | 216.7  | 229.5 | 234.4 | 300.0 | 320.5 |
| Wrapping .. .. .           | 67.4   | 59.9  | 75.5  | 75.0  | 85.0  |
| Special Varieties .. .. .  | 8.53   | 9.0   | 8.0   | 6.6   | 6.5   |
| Paper Boards .. .. .       | 57.37  | 65.5  | 69.7  | 80.0  | 80.4  |
| Total .. .. .              | 350.00 | 363.9 | 387.6 | 461.6 | 492.4 |

According to the Annual Survey of Industries the total factory sector as a whole employed Rs. 91.5 crores (productive capital) in paper industry in 1962.

At present there are 56 paper mills manufacturing paper and paper boards with a total installed capacity of 6.5 lakh tonnes. The aggregate installed capacity of the paper industry was 433,800 tonnes in 1962, as compared to 409,992 tons in 1961, 400,000 tons in 1960, 321,000 tons in 1959, 268,600 tons in 1958. The consumption of paper was 411,000 tons in 1962-63 and 399,000 tons in 1961-62. The demand was expected to reach 7 lakh tons per annum by 1965-66 and at the end of the Fourth Plan it is expected to reach 1.2 million tonnes.

The Statewise distribution of the industry as on March 1, 1964 is as follows:

| State                  | Position as on 1-3-1964 |                                  |
|------------------------|-------------------------|----------------------------------|
|                        | No. of units            | Annual installed capacity (tons) |
| West Bengal .. .. .    | 5                       | 1,14,550                         |
| U.P. .. .. .           | 2                       | 31,200                           |
| Bihar .. .. .          | 2                       | 63,000                           |
| Orissa .. .. .         | 3                       | 98,000                           |
| Punjab .. .. .         | 4                       | 45,760                           |
| Gujarat .. .. .        | 5                       | 15,050                           |
| Maharashtra .. .. .    | 11                      | 48,310                           |
| Andhra Pradesh .. .. . | 2                       | 43,000                           |
| Mysore .. .. .         | 5                       | 53,640                           |
| Kerala .. .. .         | 1                       | 8,640                            |
| Madras .. .. .         | 1                       | 20,000                           |
| Madhya Pradesh .. .. . | 1                       | 8,000                            |
| Total .. .. .          | 42                      | 5,49,150                         |

The following are the leading industries in paper and paper industries having an annual installed capacity of more than 30,000 tonnes, statewise.

| State             | Name and location of the company                | Annual capacity (tonnes) |
|-------------------|-------------------------------------------------|--------------------------|
| West Bengal ..    | Messrs. Titaghur Paper Mills, Titaghur .. ..    | 50,000                   |
|                   | Bengal Paper Mills, Raniganj .. ..              | 36,000                   |
| Bihar ..          | .. Rohtas Industries Ltd., Dalmianagar .. ..    | 60,000                   |
| Orissa ..         | .. Orient Paper Mills Ltd., Brajrajnagar .. ..  | 68,000                   |
| Punjab ..         | .. Shree Gopal Paper Mills Ltd., Yamunanagar .. | 40,000                   |
| Andhra Pradesh .. | Sirpur Paper Mills Ltd., Sirpur .. ..           | 40,000                   |
| Mysore ..         | .. West Coast Paper Mills, Dandell .. ..        | 30,000                   |

The Madhya Pradesh Government sanctioned the establishment of a paper mill at Amlai (Sahdot), with an annual capacity of 48,000 tonnes. This project costing Rs. 17 crores was inaugurated on April 16, 1965 and is expected to produce well over 200 tons of fine writing printing grades of paper per day. Two new factories for the manufacture of paper will soon be established in Maharashtra. These units will be located at Ahmednagar District by Mr. Sohan Lal of New Delhi and Messrs. K. L. Gupta & Co.,

of Bombay, the annual capacity of these units being 42,000 and 37,200 tonnes respectively.

India imported paper and paper boards worth Rs. 13 crores in 1964-65. Exports were valued at Rs. 71 lakhs in 1964-65. The leading countries importing Indian paper and paper boards were Indonesia, Turkey, Egypt, Ceylon and East and West Pakistan. Cigarette paper alone accounted for Rs. 43 lakhs in 1964-65.

The Tariff Commission in its report submitted to the Government in 1959, recommended a substantial reduction in the ex-works and selling price of paper and paperboards and fixed fair prices of paper and paperboards of 24 varieties.

The selling prices of white printing and creamlaid paper have now been fixed at Rs. 1.55 and Rs. 1.61 respectively (per Kg.), excluding excise duties, State Government and local levies.

#### DEVELOPMENT PROGRAMME

The Union Government have also approved and granted licence for 15 new (large) units with a total capacity of 397,000 tonnes and 35 small units for production of paper and paperboards. Out of these 15 (large) units, 11 will be bagasse based units. The three units, which are reported to manufacture paper and paper boards from bagasse are, Rohtas Industries, Mandya National Paper Mills, and Seshasayee Paper and Boards Ltd.

The Planning Commission had envisaged production and capacity targets of 70,000 tons and 90,000 — 100,000 tons per year respectively, for 1965-66. As on March 1, 1964 there were 30 units with an annual capacity of 92,404 tonnes. Fourteen new units with an annual capacity of 47,100 tonnes have been licensed. With the implementation of these schemes, the indigenous capacity would increase to 1.4 lakh tonnes.

The target for paper and paper boards in the Fourth Plan is 1.5 million tons against the Third Plan target of 820,000 tons. In order to reach the Fourth Plan target, it was estimated that 25 to 30 new paper mills each having a capacity of 100 tons per day would have to be set up. The Fourth Plan target suggested by the Development Council for Paper, Pulp and Allied Industries are: 1) Paper and Paperboard 1.4 million tons; 2) Newsprint 330,000 tons; 3) Pulp 220,000 tons.

The Second Plan envisaged the establishment of three hardboard factories. Of these, one, namely, Anil Hardboard Ltd. in Bombay, went into production in November 1958. The

annual capacity of this factory is 6,000 tons. The company proposes to double the capacity of its hardboard plant and secured licence to import plant and machinery worth Rs. 29 lakhs. The other two factories now being set-up are the 6,000 tons Madhya Pradesh Industries Ltd. and

the 3,700-ton Western Indian Plywood Ltd. at Baliapattam.

The progress made by the paper industry during the First and Second Plan periods and the targets set for it in the Third Plan are indicated below :

(In '000 tons)

|                                        | Paper and<br>paper board | Newsprint | Security<br>paper<br>(In tons) |
|----------------------------------------|--------------------------|-----------|--------------------------------|
| 1955-56 Production .. .. .             | 187                      | 4.2       | ..                             |
| 1960-61 Production (anticipated) .. .. | 320                      | 28        | ..                             |
| <b>Third Plan</b>                      |                          |           |                                |
| 1965-66 Target Capacity .. .. .        | 820                      | 150       | 1,500                          |
| 1965-66 Target production .. .. .      | 700                      | 120       | 1,500                          |

An increase in the production of paper to the extent of 700,000 tons was envisaged during the Third Plan period, i.e., by 1965-66.

In order to achieve self-sufficiency, a production target of 700,000 tons and a capacity target of 820,000 tons was fixed. It was expected to attain production of 680,000 tons by 1965-66. The utilization of capacity in the paper industry has been over 95 per cent during the last several years.

The National Industrial Corporation of the Government of India has prepared the feasibility report for setting up two paper plants costing Rs. 22 crores in Jammu and Kashmir to be implemented during the IV Plan, for manufacturing rayon grade pulp and newsprint and white printing paper.

Besides, it has been proposed to start one newsprint factory in Punjab and another in U.P. with a capacity of 60,000 tonnes and 30,000 tonnes per year respectively.

The *per capita* consumption of paper in India at present stands at 2.6 lbs., as compared with 453 lbs. in the U.S., 126.4 lbs. in Japan and 207 lbs. in the U.K. Hence, it is imperative that

the industry should expand even though there is actually a glut in certain varieties of paper such as ordinary writing paper, printing and wrapping paper.

### NEWSPRINT

The National Newsprint and Paper Mills Ltd. (NEPA) is India's first newsprint mill. (For details see under Government Industrial Undertakings.)

The total licensed capacity of newsprint at present is 180,000 tonnes per year. Of the three new schemes licensed, viz. Messrs. Birla Gwalior Pvt. Ltd. (U.P.), Shree Gopal Paper Mills Ltd. (Punjab) and Rohtas Industries (Maharashtra), only the first two are likely to materialise by the end of the Fourth Plan. It has also been agreed in principle to expand the capacity of the NEPA Mills from 30,000 tons to 60,000 tons per annum.

It was estimated by the Planning Commission that by 1965-66, the annual demand for newsprint would be of the order of 150,000 tons. An inhibiting factor in the growth of these industries was the dearth of raw materials. In the Third Plan, a target capacity of 150,000 tons per year had been fixed for newsprint, to meet

the estimated consumption of 120,000 tons in 1965-66. This demand is based on the actual consumption of newsprint under the restrictive policy for newsprint adopted by the Government. The target for the Fourth Plan is 330,000 tons.

The table below will throw some light on the expansion of the newsprint industry during the Plan periods.

The following table summarises the development of paper and paper board industry envisaged during the period of the Third Plan.

('000 tons)

|                                | 1960-61 | 1965-66  |
|--------------------------------|---------|----------|
| Annual rated capacity          | 410.0   | 820.0    |
| Production                     | 343.2   | 700.0    |
| Annual rated capacity          | 30.0    | 150.0    |
| Production                     | 22.9    | 120.0    |
| Paper and paper board          | 77.4    | 90-100.0 |
| Newsprint ..                   | 30.0    | 22.9     |
| Strawboard and boards other .. | 77.4    | 54.5     |

The Import of newsprint is given in the table below.

| Year                         | Value<br>(Rs. crores) |
|------------------------------|-----------------------|
| 1960-61 .. .. .              | 5.95                  |
| 1961-62 .. .. .              | 9.71                  |
| 1962-63 .. .. .              | 7.63                  |
| 1963-64 (April-Dec.) .. .. . | 5.06                  |
| 1964-65 .. .. .              | 7.40                  |

The main supplying countries of newsprint to India are Canada, Finland, Norway, Poland Sweden and U.S.S.R.

## SERICULTURE AND SILK

**N**EXT to handloom and khadi, sericulture is the biggest village industry extending part or full employment to about 2.8 million people and generating income to the tune of Rs. 90 million in a year. Sericulture provides raw materials for India's traditional handlooms which consume over 90 per cent of raw silk output. Exports of pure silk fabrics fetched Rs. 21 million in foreign exchange in 1964. The target of pure silk exports during the Fourth Plan has been fixed at Rs. 20 crores. Silk cultivation today upholds not only a cherished tradition, but also plays a vital role in India's economic planning.

A provision of Rs. 15 crores for the development of sericulture industry has been proposed for the Fourth Plan. The industry was allocated Rs. 7.03 crores in the Third Plan and Rs. 5 crores in the Second Plan.

The target fixed for the Fourth Plan is 31 lakh kgm. of silk of all varieties against the estimated production of 21.53 lakh kgm. at the end of the Third Plan.

Silk is cultivated in 12 out of 15 States and in three of ten Union Territories. Mulberry is raised mainly in three States of Mysore, West Bengal and Jammu and Kashmir which jointly contribute about 98 per cent of the total mulberry silk production. The rest of the States having a small mulberry production are Andhra Pradesh, Assam, Bihar, Kerala, Madhya Pradesh, Madras, Punjab and Uttar Pradesh and the

Union Territories of Himachal Pradesh and Manipur. The non-mulberry culture is confined to the eight States of Andhra Pradesh, Assam, Bihar, Madhya Pradesh, Maharashtra, Orissa, Uttar Pradesh and West Bengal and the Union Territories of Manipur and Tripura. Among the non-mulberry kinds, tasar is extensively grown in the dense forests of Bihar, Madhya Pradesh, and Orissa and, on a limited scale, in Andhra Pradesh, Tripura, West Bengal and Maharashtra. Sericulture is practised mainly in Assam claiming over 90 per cent of eri silk production and, on a minor basis, in Bihar, Orissa and West Bengal. The *muga* is exclusively reared within Assam. In some of the States sericulture has been extended in the recent years. Even among the three non-producing States, Maharashtra and Rajasthan have very recently taken to silk cultivation on experimental basis. The only exception is Gujarat which though a traditional silk weaving State has no sericulture.

There are at present two spun silk mills—one Government spun mill at Channarayana in Mysore State and the other—Assam Spun Silk Mills at Jagi Road near Gauhati.

### SILK INDUSTRY IN STATES

The extent and nature of silk industry in each State is briefly as follows :

#### Andhra Pradesh

Andhra Pradesh has a small production of both mulberry and eri silk but has a substantial

potential for wild tasar. Mulberry silk industry is spread over the districts of Anantpur, Chittoor, Karimnagar, Visakhapatnam and Warangal and ericulture in Mahbubnagar and Kurnool and tasar in the forests flanking the river Godavari.

Introduced in recent years, mulberry silk cultivation is growing. The bulk of cocoons is, however, exported to Mysore. For development of mulberry silk industry the State has at present 2 graft nurseries, 10 sericultural farms, 2 chawki units, one grainage and 2 reeling units. A silk throwing factory with 2,426 spindles is located at Peddapuram. Ericulture in the State has good prospects. Although about 8 lakh acres are under castor cultivation, only a limited percentage is used for silkworm rearing, the bulk being used for oilseed purposes. There are 2 eri seed farms and one propaganda station. Tasar cultivation is traditional with tribals deriving their livelihood therefrom. There are 5 tasar seed stations. The State has production of tasar silk to the tune of 340 kgms.

#### Assam

Assam is the biggest non-mulberry State having an extensive ericulture, exclusive *muga*-culture and a little of mulberry silk production. The main silk-cultivating districts are Goalpara, Kamrup and Nowgong (in the Assam Valley) having silk fauna producing eri, *muga* and *pat* (mulberry). Sibsagar is the main area for mulberry production. Since there are no large-scale

industries in this border State, silk cultivation plays a vital role in its economy. It is estimated that over 8.5 lakh people, mostly backward belonging to *Jago* or *Katoni* caste and a few Mohammedan families, derive their livelihood from silk cultivation.

There are 11 silk farms, one mulberry grafts nursery, four mulberry silk reeling units, 10 muga farms, 12 eri grainages and 27 cocoon growers' and reeler's cooperatives and one experimental tasar seed station. Reeling units are at Aljal, Gaurisagar and Shillong and the eri and muga production centres at Domta, Kamrup, Rana and Saulkuchi. Three cocoon marketing centres have been set up. There is also a well-equipped sericultural training institute and a research institute at Titabar. For utilisation of silk waste, the State Government has recently inaugurated a 3,000-spindle Assam Spun Silk Mills at Jagi Road.

#### Bihar

Bihar is predominantly a tasar-producing State, contributing about 40 per cent of India's total tasar silk production. It is also the biggest eri silk-cultivating State after Assam. Bihar has also a small mulberry silk production. About 100,000 people, it is estimated, derive their livelihood from silk cultivation.

Tasar cultivation is almost exclusively practised by *Adibasis*, *Santhals*, *Pahadias* and other scheduled tribes. Bihar produces over 1,03,181 kgs. of tasar raw silk annually. For development of tasar silk industry, the State Government has set up in recent years 13 tasar seed supply stations, 25 sub-stations, 10 training centres, four marketing centres and 15 co-operatives. There is also a silk institute in Bhagalpur. Under the Third Plan more such centres were expected to be set up.

The eri silk production is about 8,295 kgs. Eri silk is spun by *takli*, spinning wheels and improved pedal spinning machines. There are at present six eri seed supply stations and 28 demonstration units. There is also a research centre at Ranchi. Mulberry cultivation in Purnea is practised on the lines of adjoining areas in West Bengal. The output is over 1,032 kgs.

The State recently reorganised the sericulture section into three divisions with an Assistant Director in charge of each division with a view to supervising the implementation of developmental programme. The Central Silk Board has established a central tasar research station at Ranchi in 1964.

#### Jammu & Kashmir

Kashmir is considered as a prolific source for univoltine silk in India. The industry is mainly practised in the districts of Anantnag, Baramulla, Doda, Jammu, Rajasi and Udhampur. The annual production of raw silk is estimated at about 53,074 kgs. or about 7 per cent of the total mulberry silk output. The industry provides employment to about 3,60,000 persons. The Kashmir Valley has the most suitable climate for univoltine silkworm rearing.

There are also 32 mulberry nurseries — 18 in Jammu and 14 in Kashmir, and 4 basic graft nurseries — 2 in Jammu and 2 in Kashmir. In recent years two basic seed cocoon farms have been set up. Besides, there are two hibernation centres at Srinagar and Batote. The CSB has also established a Central Silkworm Seed Station in Srinagar for production of grand parent stock seed and evolving suitable race of silkworms.

The entire cocoon output is reeled by filatures. The factory at Srinagar has three units. The installed capacity of both these units is 192 basins each. There are no cottage basins or charkas in the State.

The State Government have recently reconstituted the small-scale and cottage industries as a commercial undertaking "J. & K. Industries Limited" which includes sericulture and is being looked after by a Manager in each province. A sericultural training school has been recently started at Srinagar.

#### Kerala

Sericulture was extended to this State by bringing about 16 hectares of land under mulberry at Ambalavayal in Wynad in 1962, a colony of ex-military personnel. About 20 hectares are under private mulberry plantations and the rest is owned by the Government. The total cocoon yield is about 500 kgs.

#### Madhya Pradesh

Madhya Pradesh is the leading tasar producing State. The industry provides employment for about 42,000 rural people.

There are nine mulberry silk farms, one grainage, one graft nursery and a reeling unit—eight tasar seed farms, two tasar training centres, six tasar cocoon markets, a tasar research unit and one reeling and spinning unit. The Central Silk Board established a Central Tasar Seed Supply Station at Lakha in 1964.

#### Madras

The sericulture industry in Madras is at present confined to the districts of Coimbatore, Nilgiris, Salem and Tirunelveli. The industry provides employment to about 6,000 people. Mulberry is raised as 'bush'. The area under mulberry was 1,478 hectares by 1964. There are 11 mulberry graft nurseries, one basic seed farm, four Government silk farms, one Government grainage, two chawki units, one reeling unit, 25 basins, four cocoon markets, one gut section at Coonoor and a Sericultural Cooperative Society at Talvadi. Madras State at present produces about 3,000 kgs. of raw silk.

#### Maharashtra

Bhandara and Chandrapur districts have traditional tasar culture; the State has also taken up eri cultivation on experimental basis. Under the Second Plan, two schemes—one relating to training-cum-production centre for eri at Nasik and second for tasar development in Vidarbha—were executed. Under the Third Plan programme a third scheme had been sanctioned.

#### Mysore

Mysore is now the biggest polyvoltine mulberry silk producing State in India contributing over three-fourths of the total mulberry silk production. The industry is concentrated in the districts of Bangalore, Kolar, Mandya, Mysore and Tumkur and to a small extent in Belgaum and Coorg. About five per cent of the total population of the State derives livelihood from silk cultivation. Recently the State Sericultural Department spotted the presence of tasar silkworm in the forests of Sirsi (North Kanara District) and a scheme for development of tasar industry was approved in 1964-65.

There are about 77,000 hectares under mulberry cultivation. The yield of leaf per acre from rainfed plantations is about 1,800 kgs. and from irrigated areas about 3,600 kgs. per year. Nearly 5 to 6 crops are taken from irrigated plantations and 4 to 5 from rain-fed ones. There are four graft nurseries producing over six lakh grafts of improved strains.

At present there is a silk rearing station at B. R. hills for preservation of stock races and their amelloration.

Raw silk reeling is done by traditional *charkas*, recently by improved *cottage basins* and also by modern filatures. Mysore produces about 5,76,000 kgs. of *charka* silk (and 38,000 kgs. of dupion silk), over 3,63,000 kgs. of cottage basin and 1,03,000 kgs. of filature silk. The State has at present over 3,100 active *charkas*, 3,074 cottage basins and 936 filature basins (active).

The Silk Marketing Co-operative Society, Bangalore, has recently set up a branch at Nanjangud. There are 61 government cocoon markets established under Mysore Silkworm Seed Act in addition to a voluntary cocoon market at Ramnagaram. The State established four sericultural cooperatives. For utilisation

of silk waste, the State has recently reopened the Mysore Spun Silk Mills. Besides, the State has a sericultural training school at Channapatna and a silk conditioning house in Bangalore. The Central Sericultural Research and Training Institute, Mysore is a central project functioning at Mysore.

#### Orissa

Orissa is a non-mulberry State having both traditional tasar and eri silk industries. The annual production of tasar silk is about 16,500 kgs. and eri 48 kgs. About 23,000 rural people depend for their bread on these two pursuits. The State has no mulberry culture.

The State has now three seed supply stations, two eri seed stations, one reeling and spinning centre, one research unit and 19 tasar rearers' cooperative societies. The State has established a Tasar Cooperative Society in 1963. Besides tasar rearers Cooperatives, four weavers Cooperatives have also been organised.

#### Punjab

Punjab has a century-old sericulture industry, although silk weaving dates to antiquity. The industry is practised mainly in districts of Amritsar, Gurdaspur, Hoshiarpur and Kangra and to some extent in Ferozepur, Jullundur and Karnal. It provides employment to about 1,500 families. The State produces about 1,690 kgs. comprising mostly of *charka* silk.

Mulberry is raised as tree growing as high as 12 metres, mainly cultivated for their fruits and timber. Mulberry nurseries and demonstration farms have been set up under the Plan schemes. There are about 65,000 mulberry trees and 71 hectares under bush mulberry.

The silkworm seed requirement is to a great extent met by two grainages at Dalhousie and Palampur. A foreign race seed station is functioning at Nagrota. Several chawki rearing centres have come up in recent years. About 75 per cent of total cocoon output is reeled on 'charkas'. A demonstration training centre has been opened in Dinanagar. For cocoon marketing, a society has been recently formed in Pathankot district. Under the Third Plan, efforts are made towards extension of mulberry area, augmenting seed production and improvement in all sectors of silk industry. A small unit of filature has been established in Dinanagar.

#### Rajasthan

Tasar culture is just being introduced in this State in Shahbad area and a number of tribals practise tasar cultivation as a cottage industry. The State Government intends to establish a demonstration centre for spinning and weaving in this area.

#### Uttar Pradesh

Mulberry silk industry is practised in 6 districts of Dehra Dun, Etawah, Garhwal, Gorakhpur, Nainital and Saharanpur. Sericulture is carried on in two districts of Rampur and Deoria and tasar culture is found in Mirzapur district.

Mulberry is cultivated both as 'bush' and 'tree'. From over 6,40,431 mulberry trees growing in the State only about 50,000 are utilised for silkworm rearing, the large number being used for obtaining timber for sport goods. The area under bush mulberry comprising Government farms and private gardens is about 214 hectares. There are 13 mulberry farms and 7 graft nurseries.

Both univoltine and polyvoltine silkworm races are reared. 45 chawki rearing centres and four demonstration silk farms have been set up. For production of disease-free seed, there are three grainages, and for production of basic seed cocoons, four farms. The cocoons are purchased by the State department at fixed rates and sold to the Doon Valley Sericultural Society. Recently 35 rearers' cooperatives and an apex society have been organised in the State. A cooperative silk filature of 30 basins has been established in 1964. The annual production of raw silk in the State is 3,585 kgs.

LIBRARY

## West Bengal

At present mulberry culture is practised in the districts of Bankura, Birbhum, Darjeeling, Malda and Murshidabad. The annual production of mulberry silk in the State is 3,10,565 kgms. Mulberry is cultivated as 'bush'. There are about 6,494 hectares under mulberry. There are eight mulberry nurseries, and grainages and 21 aided grainages. The State has also four mulberry graft nurseries three in Malda and one in Murshidabad district. Three tasar seed stations with their sub-stations and three eri seed stations are functioning in the State.

The State has already got four fixed hybrids called *Nismo*, *Nistid*, *Ichol* and *Itan*, which give better yield than indigenous races. There is a foreign race seed station at Kalimpong and a hill nursery for raising F1 seed of foreign races at Matigara. Two chawki rearing centres have also been set up.

Raw silk reeling is done on native *charka*. Efforts are made to introduce cottage basins. A 100-basin filature is also being set up at Malda. The State has established two training institutes — one for sericulture at Berhampore and other for reeling at Peddie (Malda). Besides, the Central Government's Central Sericultural Research Station is also located at Berhampore. The silk conditioning house is stationed at Calcutta.

## UNION TERRITORIES

## Himachal Pradesh

Producing about 251 kgms. of raw silk, Himachal Pradesh is a potential univoltine zone. Mulberry Silk cultivation is at present conformed mainly to two districts, Mandi and Sirmoor. Out of about 100,000 mulberry trees growing in the Territory, only about 15,500 are used for silkworm rearing. The Territory has 12 mulberry farms, five nurseries and two reeling demonstration-cum-training centres. A number of development schemes have been initiated with the object of fully exploiting the existing potential for sericulture industry.

## Manipur

Situated in the neighbourhood of Assam, Manipur has both mulberry and eri silk cultivation and a potential for muga culture. Manipur produces about 434 kgms. of mulberry and over 591 kgms. of non-mulberry silk. The Territory has 3 silk farms, and demonstration centres for eri and muga.

## Tripura

Sericulture has been recently introduced. During the Second Plan, two demonstration centres one for eri rearing and the other for tasar-rearing have been set up. Some 50 families have taken up silk cultivation as source of their livelihood.

## CENTRAL SILK BOARD

An apex body consolidating and coordinating the sericulture industry in States, is the Central Silk Board, set up in 1949 by the Government of India. CSB is a 'body corporate' charged with functions 'to promote development of silk industry by such measures as it thinks fit.' The measures include rendering financial and technical assistance, 'undertaking, assisting or encouraging scientific, technological and economic research', 'devising means for improvement of all sectors', collection of statistics and to advise the Central Government on all matters relating to the raw silk industry, including import and export of raw silk.

**Liaison Offices:** In order to co-ordinate the developmental activities of silk industries in the States, the Board has recently strengthened its liaison offices by providing technical officers at Bangalore, New Delhi, Calcutta. A new liaison office has also been set up at Srinagar in 1965.

CSB's main activities are:

1. **Providing Funds for Silk Schemes:** CSB extends financial assistance in the form of either grant-in-aid or loan for execution of silk schemes by the State Governments. For the Third Plan Rs. 70 million have been earmarked for sericulture development.

2. **Providing Technical Know-How:** CSB gives assistance for scientific and technical work undertaken by State's sericulture departments and helps them to secure technical personnel and guidance. The Board has so far sponsored

visits of four sericultural experts from Japan and deputed 20 Indian sericulture officials to Japan and two to China. CSB also appoints experts' committees to help States to overcome major problems.

**Service Stations:** CSB has established two service stations—All India Sericultural Training Institute at Mysore for training personnel deputed by the State Governments and Central Silkworm Seed Station at Srinagar for production of basic seed. Besides, it has also taken over from the Government of Madras, the Hill Rearing Station at Coonoor (Nilgiri District) now named as Silkworm Seed Station, to function as a sub-station for the Central Silkworm Seed Station at Srinagar. The Board is also setting up a pilot centre in Himachal Pradesh for demonstrating application of modern methods and appliances.

In 1964, the Central Tasar Silkworm Seed Station was set up at Lakha (Madhya Pradesh) to cater to the needs of tasar States in regard to basic seed of tasar silkworm.

**Sericultural Research:** CSB has decided to centralise and coordinate sericultural research on Japanese model. CSB has taken over regional research stations. Under the research project the CSB has already taken over the Central Sericulture Research Institute, Mysore from the Government of Mysore and has got technical control over the Central Sericultural Research Station, Berhampur (W.B.). Besides, the Board has also set up a research cell for univoltine area at Dehra Dun.

The Board has taken over the Central Tasar Research Station, Ranchi.

The Board also renders financial and technical assistance to the Sericulture Research Institute, set up by the Government of Assam at Titabar for tackling the problems of eri and muga silk industries.

**Distribution of Imported Silk:** CSB advises Government of India on import policy.

**Export Promotion:** With effect from 1st July 1964, the exporters of mulberry and tasar silk fabrics, ready-made garments and made-up articles of raw silk of these varieties are permitted to import raw silk themselves against their entitlements.

With effect from 2nd January 1965, the Central Silk Board introduced two new schemes viz., Quality Inspection of Tasar Silk Fabrics and Stamping of "Centrosilk" Certification Trade Mark for pure silk fabrics. The former is compulsory. The tasar fabrics to be exported from the year 1965 will have to conform to minimum specifications prescribed with a view to ensuring a sound foundation for export trade in tasar fabrics. The latter one is purely voluntary. The main object of the scheme is to counter the unhealthy tendency of passing cheap substitute as pure silk, with a view to creating confidence in overseas buyers. The response to this scheme has been quite encouraging.

The export of pure silk fabrics has been steadily increasing in the non-traditional markets of Europe and America. Each year pure silk fabrics worth approximately Rs. 21 million are exported to over 50 countries of the world. The exports include sarees, brocades, scarves and piece-goods. Pure silk worth Rs. 173.10 lakhs was exported during 1965 as against exports of Rs. 138.51 lakhs during 1964. The export of tasar fabrics has risen remarkably particularly to the United States—from Rs. 0.3 million in 1958 to about over Rs. six million in 1965. In 1965, 6.41 lakh metres of tasar silk fabrics worth Rs. 71.87 lakhs were exported. The tasar fabrics are exported under the Indo-American trade agreement. In 1964, silk production was 19.43 lakh kg. as against 19 lakh kg. in 1963.

**Protection to Sericulture Industry:** The Government of India have accepted the recommendation of the Tariff Commission that protection to the sericulture industry should be continued for a further period of three years up to the 31st of December 1966 at the existing rate of protective duty.

## SUGAR INDUSTRY

THE sugar industry is today ranked as the second largest industry in the country next only to textiles. It provides employment to 2,00,000 skilled and unskilled workers and about 3,600 university educated men, and caters to the sugar needs of the vast populace about 485 million. The total earnings of workers and benefits are about Rs. 30 crores. Besides, the industry supports another 20 million cultivators and their families who derive about Rs. 190 crores as payment for cane. The industry's contribution to the national exchequer in levies was about Rs. 88 crores in 1964-65.

The Third Plan target initially fixed at 30 lakh tonnes was revised to 35 lakh tonnes.

1965-66 Season:

During 1965-66 which incidentally is the last year of the Third Five Year Plan cane crop prospects were satisfactory. With Gur and Khandasari prices ruling at a rather low level, factories generally obtained sufficient cane for crushing. Up to 30th April, 1966, factories had already produced about 32.10 lakh tonnes of sugar and out of the total number of 198 factories working in the season, 124 factories continued to crush. The production trends clearly indicate that the prospects of not only attaining but exceeding the Third Plan production target of 35 lakh

tonnes are also there. The Sugar Industry had to its credit the unique distinction of exceeding production targets laid down during First, Second and Third Plan periods.

**Exports:**

Against about 2.80 lakh tonnes exported last year, there are prospects of exporting 4.5 to 5 lakh tonnes of sugar from the country in the current season.

The country-wise break-up of sugar exports during the years 1964 and 1965 are given below:

(metric tonnes)

| Country                    | 1964     | 1965     |
|----------------------------|----------|----------|
| U.S.A. .. .. .             | 99,583.7 | 92,094.0 |
| Japan .. .. .              | 60,865.7 | —        |
| U.K. .. .. .               | 10,525.4 | 75,842.1 |
| South Viet Nam .. .. .     | 19,346.1 | —        |
| Malaya & Singapore .. .. . | 12,034.6 | 35,961.0 |
| Hongkong .. .. .           | 10,469.3 | —        |
| Italy .. .. .              | 19,153.3 | —        |
| Canada .. .. .             | —        | 52,761.6 |
| Korea .. .. .              | —        | 9,519.0  |
| Persian Gulf .. .. .       | —        | 999.9    |
| Viet Nam .. .. .           | —        | 9,725.0  |

The statewide destination break-up of raw sugar production in 1964 and 1965 is given below:—

(metric tonnes)

| State               | 1964       | 1965       |
|---------------------|------------|------------|
| Bihar .. .. .       | 1,135.2    | 9,946.7    |
| U.P. .. .. .        | 84,966.2   | 42,843.3   |
| Andhra .. .. .      | 39,818.0   | 60,273.1   |
| Maharashtra .. .. . | 98,050.0   | 1,57,026.8 |
|                     | 2,23,969.4 | 2,70,089.9 |

In 1963, 1964 and 1965 India exported 4.78, 2.32 and 2.77 lakh tonnes respectively. The respective foreign exchange earnings are Rs. 32.25 crores, Rs. 18.09 crores and Rs. 11.54 crores.

**Enquiry Commissions:**

The Sugar Enquiry Commission appointed by Government on 3rd August 1964 under the chairmanship of Dr. S. R. Sen of the Planning Commission to inter alia enquire into determination of price submitted its report to the Government in October 1965. The report is a comprehensive document which deals with the various aspects of the sugar industry in detail.

**Increased Excise Duty :**

Under the 1966-67 Budget proposals excise duty on sugar has been increased by Rs. 8.35 per quintal i.e. from Rs. 28.65 to Rs. 37 per quintal. Sugar even before the increase in excise duty was subject to very high taxation at the hands of both the Central and State Governments and the levies amounted to about 45% of the cost of production. With the recent increase in excise duty this would go up further to 55 per cent.

Even before the imposition of the higher duty the tax disparity between sugar and khandasari was as much as Rs. 11.50 per quintal. Now this difference has been widened to 15.50 per quintal. Consequently the problem of large diversion of cane from factory areas is likely to be aggravated in seasons of cane shortage and sugar output is bound to suffer. If appropriate relief from the heavy tax burden is not provided the precarious balance between the divergent forces of supply and demand will be violently disturbed and the industry will never be able to get out of the recurring cycle of over production and shortages.

**Second Wage Board :**

In September, 1965 the Second Wage Board for the Sugar Industry was appointed on the understanding that workload studies in the sugar industry will be conducted as recommended by the First Wage Board for the Sugar Industry in 1960, and the report of the Workload Studies will be made available to the Second Wage Board within one year.

**Sugarcane**

The principal raw material is sugarcane. The total cane crushed in 1964-65 season was 33.46 million tonnes for a production of about 32.60 lakh tonnes. Approximately, 30 per cent of cane is consumed by factories while the balance goes to production of gur and khandasari for chewing and for other purposes.

The following table gives the area under cane and sugar production for the last few years:

| Year                         | Acre under sugarcane (000 acres) | Total production of sugarcane (000 tonnes) |
|------------------------------|----------------------------------|--------------------------------------------|
| 1959-60 .. ..                | 5,220                            | 76,404                                     |
| 1960-61 .. ..                | 5,789                            | 1,04,122                                   |
| 1961-62 .. ..                | 5,988                            | 98,276                                     |
| 1962-63 .. ..                | 5,635                            | 92,978                                     |
| 1963-64 .. ..                | 5,577                            | 1,04,907.9                                 |
| 1964-65 Final estimate .. .. | 6,286.7                          | 1,22,126                                   |

The system of linking the cane price with recovery was continued in 1963-64, 1964-65, and 1965-66 seasons also. The ultimate objective of the scheme is to pay the cane price to individual growers also. The minimum cane price presently fixed is Rs. 2 per maund linked to a recovery of 10.4 per cent.

The ultimate objective of the scheme is to pay cane price to individual growers on the basis of the quality of their cane. The cane price presently paid on collective basis will be extended to village and group levels, the ultimate objective being to extend it to individual growers. In fact some factories in the South have successfully paid cane price to individual growers on the basis of the quality of cane supplied by them.

**Fourth Plan**

The Development Council for Sugar Industry has recommended for a production and capacity target of 45 lakh tonnes for the Fourth Five Year Plan. Against this Fourth Plan capacity target, Government have already licensed capacity of 43.3 lakh tonnes.

The licensed capacity of the sugar industry in the 1964-65 season stood at about 32 lakh tonnes. Thereafter Government has issued industrial licences to 89 sugar factories to effect substantial expansion and 16 new units have been licensed raising the total licensed capacity in the sugar industry to 43.3 lakh tonnes.

The intensive cane development schemes initiated in the State of Uttar Pradesh a couple of years ago, has started yielding results. The cane yield per acre in the intensive development blocks has increased to 473 maunds from 425 maunds. Almost all the sugar factories have joined the scheme of intensive cane development, under which the expenses are to be borne by the Central Government, State Government, the sugar factories and the cane growers in the ratio of  $\frac{1}{3} : \frac{1}{3} : \frac{1}{3}$ . The development scheme, initially started to cover 4,000 acres has been extended to a second block of 4,000 acres. Similar schemes are also envisaged in the States of Bihar and the Punjab. In order to crush the increasing quantities of cane that will be available in their respective areas, the factories concerned should have additional capacity, as otherwise the cane growers will be confronted with the acute problem of marketing their produce.

**SUGAR MACHINERY**

Two consortia of manufacturers, the first consisting of Messrs. Walchandnagar Industries, TEXMACO and Indian Sugar and General Engineering Corporation, and the second consisting of K.C.P. Ltd., Binny & Co., and Buckau Wolf New India Engineering Works Ltd. Pimpri, Poona 18, have been formed to manufacture complete plants in India.

The Third Plan has envisaged a target of 14 complete plants valuing Rs. 10 crores. 85 per cent of the plants will have indigenous content.

The production of sugar machinery in the country has been gradually increasing and the value of such machinery was as follows : 1955 : Rs. 19 lakhs, 1956 : Rs. 32 lakhs, 1957 : Rs. 162 lakhs, 1958 : Rs. 200 lakhs, 1959 : Rs. 320 lakhs, 1960 : Rs. 350 lakhs (est.).

By the time the existing manufacturers are expected to achieve full production, the industry will be in a position to supply every year 12 complete sugar plants of the capacity of 1,000 to 1,250 tonnes and the equivalent of about nine complete plants by way of expansion and replacement requirements of the sugar industry. This will meet the needs of the country except in regard to turbo-alternators and mill engines.

**CO-OPERATIVE SECTOR**

The position of production of sugar of the co-operative sugar factories is compared in the following table with the total production and the production in the private sector :

(From Nov. 1st to 28th Feb.)

(Fig. in lakh m. tons)

|                     |    |    |    |    |    | INCREASE |         |            |
|---------------------|----|----|----|----|----|----------|---------|------------|
|                     |    |    |    |    |    | 1965-66  | 1964-65 | Quantity % |
| Co-operative Sector | .. | .. | .. | .. | .. | 5.50     | 4.87    | 0.63 12.04 |
| Private Sector      | .. | .. | .. | .. | .. | 15.58    | 15.51   | 0.07 0.45  |
| Total               | .. | .. | .. | .. | .. | 21.08    | 20.38   | 0.70 3.43  |

The following table shows the position of Co-operative Sugar Factories as on 31st December, 1965 in different States.

|                                            |    |    |          |                               | Rs. in lakhs   |                               |                                           |                        |
|--------------------------------------------|----|----|----------|-------------------------------|----------------|-------------------------------|-------------------------------------------|------------------------|
| States and number of factories in brackets |    |    |          |                               | No. of Members | Total Amount of share capital | State Govt. Contribution to share Capital | I.F.C. Loan Sanctioned |

| U.P. (5)                                   | .. | .. | 12,559   | 317.96                        | 89.99          | 290.00                        |                                           |                        |
| Grand Total                                | .. | .. | 2,62,108 | 317.96                        | 962.33         | 3,865.50                      |                                           |                        |

The total quantity of sugar produced by co-operative sugar factories during 1964-65 was 8.06 lakh metric tons. Total cane crushed during 1964-65 season was 75.70 lakh metric tons.

The co-operative sugar factories in the country produced 5.50 lakh metric tonnes (excluding 0.35 lakh metric tonnes produced prior to 1st Nov.) of sugar upto 28th February 1966 during 1965-66, as against 4.87 lakh metric tons (excluding 0.23 lakh metric tonnes) produced by them during the corresponding period last year.

Out of the 65 co-operative sugar factories licensed so far, 51 factories started their crushing operations during 1965-66, as against 50 factories in 1964-65.

The co-operative sugar factories are manufacturing raw sugar this season also. Nearly 1.91 lakh metric tons of raw sugar has been manufactured upto 28-2-66.

It would be seen that the production of co-operative sugar factories this year upto 28th Feb. 1966 shows an increase of about 13 per cent over that of last year for the same period, while the corresponding increase in the private sector is about 0.45 per cent and for the industry as a whole is 3.43 per cent.

During the 1964-65 season 50 cooperative sugar-factories were in production. They crushed 75.70 lakh metric tons of sugarcane. Nearly 90 per cent of the total crush was supplied by the members and only 10 per cent of sugarcane was drawn from non-members.

A National Federation of Cooperative Sugar Factories was set up in December 1960 with a view to coordinating and facilitating the working of cooperative sugar factories. State and Zonal Federations are assisting in the promotion of organisation of new cooperative sugar factories.

Total sugarcane crushed and sugar produced respectively in metric tons during the 1964-65 season in the States:

**Andhra Pradesh** (Total): 9,37,415; 86,734; Amadalavalasa 1,16,207; 11,060; Anakapalle 64,133; 5,970; Chittoor 1,79,090; 17,467; Chodavaram 1,30,040; 11,729; Etikoppaka 1,35,879; 12,589; Palakol 1,56,829; 14,871; Tuni 54,691; 4,536; Nizamabad 1,00,546; 8,512; **Assam** (Total): 66,697; 6,081; Barubamungaon 66,697; 6,081; **Gujarat** (Total): 4,26,258; 43,416; Bardoli 1,06,440; 10,907; Gandevi 50,553; 4,634; Kodinar 2,69,265; 27,875; **Madras** (Total): 6,82,139; 63,610; Amravathi M 65,361; 6,187; S 1,10,053; 10,319; Ambur 1,51,990; 14,871; Madurantakam 1,41,871; 11,671; Salem M 1,63,750; 15,895; S 49,114; 4,667; **Mysore** (Total): 6,49,447; 68,673; Kampli 2,44,458; 22,204; Pandavapura 2,30,826; 26,318; Sankeshwar 1,74,163; 20,151; **Maharashtra** (Total): 3,532,809; 4,14,911; Ashoknagar 2,13,521; 24,573; Bhogawati 2,14,211; 24,959; Dudhganga 1,30,084; 14,729; Ganeshnagar 1,88,537; 22,171; Girna 1,56,846; 17,388; Kumbli-Kasari 1,51,260; 17,534; Karad (Krishna) 2,46,533; 31,905; Kopargaon 1,84,145;

Besides processing of sugarcane, the cooperative sugar factories have all along been exploring the possibilities of reducing the cost of manufacture of sugar. In this, the idea of utilising effectively the bye-products of the industry i.e. Bagasse, Molasses and Press Mud etc. has been mooted out. A group of cooperative sugar factories have joined together forming a society or establishing paper plant for utilising Bagasse. Three such societies have been formed and a licence has already been issued for establishing a newsprint Plant in Sangli, Maharashtra State. Factories have combined together for establishing distilleries for utilising Molasses.

## TEXTILE INDUSTRY

THE cotton textile industry is the largest single industry in the country. India holds the third place among the countries of the world in its capacity for yarn and cloth based on mechanical equipment and stands second on the basis of cotton consumption.

In addition to providing means of livelihood for nearly 10 million handloom weavers, the mill industry provides direct employment to nearly 800,000 workers.

The total number of mills in the country in January 1966 was 519, the number of spindles installed 16.00 million, of looms 209,005. The average number of workers employed daily in all shifts was 789,809 and the consumption of raw cotton (in bales of 180 Kg. each) was 436,396.

The capital invested is estimated at Rs. 137 crores, and the annual value of the output amounts to Rs. 430 crores.

### THIRD FIVE-YEAR PLAN

Out of the total target for cotton cloth of 9,300 million yards, 3,500 million yards had been allocated as the share of the decentralised sector (handloom, powerloom and khadi). The production target allocated to the mill sector was 5,800 million yards as against the current level of output and estimated effective capacity of about 5,000 million yards. To achieve the additional production of 800 million yards in the mill sector, it was envisaged that about 25,000 automatic looms will have to be installed during the Third Plan.

On the basis of a cloth production target of 9,300 million yards, and taking into account also the yarn required for purposes other than cloth weaving, e.g. hosiery and newar, the yarn production target had been fixed at 2,250 million lb. To reach this target of 2,250 million lb. of yarn it was necessary to increase the active spindleage of the mills to about 16.5 million as compared to 12.7 million at the end of the Second Plan. Out of the additional capacity for spindles and looms envisaged for installation during the Third Plan, it was proposed that a substantial proportion of the additional loomage shall be export-oriented.

**Automatic Looms**  
The estimated cost of 4 million spindles and 25,000 automatic looms—the additional equip-

ment that was proposed to be acquired during the five-year period of the Third Plan—was Rs. 120 crores.

The following table gives details about the distribution of mills in India as in January 1966.\*

\* The No. of textile mills as of Sept. 1966 was 577 with about 17 million spindles and about two lakh looms.

## PRODUCTION

The actual production of yarn and cloth by the mills sector is as follows:—

| Year   | Yarn in 000 kg | Cloth in 000 metres |           |           |          |           |           |
|--------|----------------|---------------------|-----------|-----------|----------|-----------|-----------|
|        |                | Coarse              | Medium B  | Medium A  | Fine     | Superfine | Total     |
| 1961.. | 8,62,294       | 7,90,162            | 15,27,564 | 19,86,345 | 1,79,325 | 2,18,046  | 47,01,442 |
| 1962.. | 8,59,563       | 7,60,778            | 14,03,866 | 19,46,346 | 1,96,660 | 2,52,604  | 45,60,254 |
| 1963.. | 8,92,574       | 8,09,750            | 13,20,991 | 18,07,914 | 2,04,257 | 2,79,945  | 44,22,857 |
| 1964.. | 9,64,819       | 8,68,474            | 14,75,272 | 18,07,974 | 1,95,035 | 3,06,754  | 46,53,509 |
| 1965.. | 9,39,236       | 8,02,623            | 14,04,025 | 18,40,351 | 2,19,540 | 3,20,927  | 45,87,466 |

The production of cotton yarn in million kilograms, cloth yarn in million metres, and Stock position — sold and unsold — in lakh bales from Aug. 1965 to Jan. 1966 are given in the following table:

|                   | Production       |               | Composite mills stock (lakh bales) |        |
|-------------------|------------------|---------------|------------------------------------|--------|
|                   | Million kilogram | Million metre | Sold                               | Unsold |
| August 1965 ..    | 79               | 386           | 1.92                               | 1.94   |
| September 1965 .. | 78               | 379           | 1.99                               | 2.23   |
| October 1965 ..   | 70               | 340           | 2.02                               | 2.27   |
| November 1965 ..  | 75               | 368           | 1.90                               | 2.19   |
| December 1965 ..  | 77               | 377           | 1.77                               | 1.95   |
| January 1966 ..   | 68               | 325           | 1.61                               | 1.69   |

The total production of mill-made cloth in January-Dec. 1965, touched 4,587 million metres showing a shortfall of 67 million metres over the output of 4,654 million metres in the last year.

The total production of yarn in the year 1965 was 939 million kgs. compared to 965 million kgs. in the year 1964.

The total production of cotton cloth by all the sectors in India during 1965 was about 7,643 million metres. Of this the mill sector accounted for 4,587 million metres and the decentralised sector for 3,056 million metres.

The exports of cotton textiles produced by the mills in 1965 works out to 500 million metres fetching foreign exchange to the extent of 4,676 lakhs of rupees.

In the production of mill-made cloth, Maharashtra leads other States. Maharashtra accounted for about 1,565 million metres in 1965 out of a total output of 4,587 million metres.

The production figures for different States during the year 1965 are as follows: (Figures are in million metres):

Andhra Pradesh 34; Bihar 1.6; Gujarat 1,378; Kerala 19; Madhya Pradesh 380; Madras 151; Maharashtra 1,565; Mysore 94; Orissa 36; Punjab 76; Rajasthan 66; Uttar Pradesh 328; West Bengal 244; Delhi 161; Pondicherry 52; Total 4,587.

During 1965 the cotton consumption by mills was 61.13 lakh bales of 180 kg. each of which, Indian cotton accounted for 53.64 lakh bales and foreign cotton for 7.49 lakh bales.

Unsold stock of cloth with the mills at the end of 1965 was 292 million metres equivalent to about 13 days production. The stock shows a rise from the level of 227 million metres at the end of 1964.

**Third Shift Working:** The need for increased utilisation of the existing installed capacity as a means of ensuring greater production has been repeatedly impressed on the industry and it is somewhat gratifying that there has been a slow but steady increase in the number of spindles and looms worked in the second as well as in the third shifts. The daily average number of spindles

worked in each of the 3 shifts during 1962 to 1965 are as shown in the table given below.

| (In million) |           |           |           |  |
|--------------|-----------|-----------|-----------|--|
|              | 1st Shift | 2nd Shift | 3rd Shift |  |
| 1962 ..      | 12.4      | 12.2      | 8.0       |  |
| 1963 ..      | 12.6      | 12.5      | 8.7       |  |
| 1964 ..      | 13.2      | 13.2      | 10.1      |  |
| 1965 ..      | 13.3      | 13.4      | 10.0      |  |

So far as looms are concerned the shift-wise working is given in the table below:

| Daily average number of looms worked in |           |           |           |  |
|-----------------------------------------|-----------|-----------|-----------|--|
|                                         | 1st Shift | 2nd Shift | 3rd Shift |  |
| 1962 ..                                 | 1,80,429  | 1,75,021  | 51,906    |  |
| 1963 ..                                 | 1,78,854  | 1,73,815  | 51,488    |  |
| 1964 ..                                 | 1,84,025  | 1,80,834  | 61,859    |  |
| 1965 ..                                 | 1,84,822  | 1,80,326  | 61,599    |  |

A target of 78 lakh bales of cotton production under the 3rd Five Year Plan was recommended by the Cotton Forecast Sub-Committee of the Indian Central Cotton Committee.

## TEXTILE ENQUIRY COMMITTEE

The Report of the Committee was unanimous. It was signed on 15th July 1958 and submitted to the Government thereafter.

The composition of the Committee, the report as well as Government reaction are summarized in the 1959-60 edition of the Directory.

## IMPORTS AND EXPORTS

The following table gives the sea-borne export trend of all cloth:—

| Year                 | Twist and Yarn |               | Cloth        |               |
|----------------------|----------------|---------------|--------------|---------------|
|                      | Million Kgs.   | Rs. in crores | Million mts. | Rs. in crores |
| 1959 ( Jan. to Dec.) | 9.68           | 3.80          | 745.0        | 55.44         |
| 1960 ( Do. )         | 6.42           | 3.70          | 635.4        | 58.29         |
| 1961 ( Do. )         | 6.90           | 3.76          | 522.0        | 45.85         |
| 1962 ( Do. )         | 10.44          | 5.30          | 464.9        | 39.96         |
| 1963 ( Do. )         | 13.58          | 6.21          | 485.7        | 41.02         |
| 1964 ( Do. )         | 12.37          | 5.88          | 502.9        | 48.86         |
| 1965 ( Do. )         | 12.76          | 6.03          | 499.6        | 46.76         |

**Cotton Textiles Export Promotion Council:** The Cotton Textiles Export Promotion Council is an autonomous body incorporated under the Companies Act. The Council is a non-profit making

## N.I.D.C.'s WORKING GROUP FOR THE COTTON TEXTILE INDUSTRY

Several important proposals of the National Industrial Development Corporation's Working Group for the cotton textile industry, including the one calling for a "minimum level of modernisation of the industry," had been accepted by the Government, according to a resolution presented to Parliament on March 29, 1961.

The other proposals accepted by the Government included the establishment of five new units for the production of quality cloth for export the setting up of a suitable machinery to help resolve problems of rationalisation and compulsory scrapping of units where "rehabilitation is not worth-while."

Headed by the then Textile Commissioner Mr. D. S. Joshi, the Working Group, set up in August, 1959, by the N.I.D.C., comprised Mr. K. Thakersey, Mr. G. D. Somani, Mr. K. Sreenivasan, Mr. S. R. Vasavada, Mr. Ram Ratan Gupta, Mr. Trilokinath Sharma, Mr. N. Majumdar and Mr. K. R. Aravamuthan.

The cost of modernisation and rehabilitation in the textile industry in India is estimated to be about Rs. 180 crores according to the Working Group.

## CENTRAL WAGE BOARD

The first Central Wage Board for the cotton textile industry was set up in 1957 with Mr. Feroze Jeejeebhoy as Chairman.

The Government of India has appointed in August 1964, a second wage board for textile industry to consider further revision of the wage structure with headquarters in Hyderabad.

The Board consists of: **Chairman:** K. Bhimasankaran; **Members:** D. C. Kothari, Surettam P. Hatheesing (representing employers); G. Ramanujam, A. N. Buch (representing employees); Tulsidas Jadhav, M.P., and Prof. M. B. Desai (independent members).

## COTTON

The statistical position of cotton in India during the season 1964-65 is summed up in the following table:—

| (In lakh bales)                                               |    |    |       |                     |
|---------------------------------------------------------------|----|----|-------|---------------------|
| Stocks carried over from the previous year (Indian & Foreign) | .. | .. | 18.55 |                     |
| Actual production                                             | .. | .. | 54.98 |                     |
|                                                               |    |    |       | (Bales of 392 lbs.) |
| Total import                                                  | .. | .. | 8.17  |                     |
|                                                               |    |    |       | (180 kg.)           |
| Total consumption:—                                           |    |    |       |                     |
| Indian                                                        | .. | .. | 56.12 |                     |
|                                                               |    |    |       | (180 kg.)           |
| Foreign                                                       | .. | .. | 7.59  |                     |
|                                                               |    |    |       | (180 kg.)           |
| Total export                                                  | .. | .. | 2.39  |                     |
|                                                               |    |    |       | (180 kg.)           |

\* 25,000 automatic looms had been sanctioned for the Third Plan period.

† For cotton mills' consumption alone.

†† Including 18,000 automatic looms.

\*\* While four million additional spindles had been sanctioned for the Third Plan, licences for three million spindles had been given for immediate release. The question of the balance of one million spindles was expected to be considered in the third year of the Plan.

## TOBACCO INDUSTRY

INDIA is the third most important tobacco producing country next to U.S.A. and China and accounts for 8 to 9 per cent of the total world tobacco production. She is also the fourth biggest exporter of tobacco in the world.

It is estimated that about 9 lakhs of tobacco growers and about 6 lakhs of curers are engaged in the tobacco industry, besides several lakhs employed in grading, marketing and manufacturing. The annual value of the tobacco crop in the country at present is estimated to be about 58 to 62 crores of rupees. During 1964-65, it fetched to the national exchequer a revenue of about Rs. 96 crores by way of Central Excise Duty. It earned about Rs. 25.8 crores of foreign exchange during the same year. It also brings about 2 crores of rupees by way of agricultural cess on export, and import duty.

India produces several types of tobacco which fall under two botanical species namely *N. tabacum* and *N. rustica*, and are used for different purposes such as in the manufacture of cigarettes, bidis and for chewing, hookah, snuff, etc. The estimated production of tobacco in million kg. under different types during the last 3 years ending 1964-65 is given below :

| Types                              | 1962-63 | 1963-64 | 1964-65 |
|------------------------------------|---------|---------|---------|
| Virginia Tobacco                   | 84.3    | 104.4   | 110.5   |
| Bidi Tobacco                       | 102.5   | 86.0    | 90.0    |
| Snuff Tobacco ..                   | 5.5     | 4.5     | 5.5     |
| Cigar & Cheroot Tobacco ..         | 22.0    | 20.5    | 19.5    |
| Hookah Tobacco..                   | 43.0    | 36.0    | 37.0    |
| Chewing Tobacco                    | 66.0    | 62.0    | 62.0    |
| Others including Natu, Burley etc. | 42.5    | 45.0    | 45.2    |
| Total ..                           | 365.8   | 358.4   | 369.7   |

Andhra Pradesh, Gujarat, Mysore, Madras, Maharashtra, Uttar Pradesh, Bihar and West Bengal are the important tobacco growing States in the country. Virginia flue-cured tobacco is largely produced in Andhra Pradesh and to a small extent in Mysore and Gujarat, bidi tobacco in Gujarat, Mysore and Maharashtra States, chewing, hookah and snuff tobacco in Madras, Uttar Pradesh, Bihar and West Bengal while cigar and cheroot tobacco are mainly grown in Madras and Andhra Pradesh.

In view of the importance of tobacco to the nation, the Government of India in November, 1945 set up the erstwhile Indian Central Tobacco Committee for coordinating all measures for the improvement in production and marketing of tobacco in the country. For undertaking agricultural research, the Committee established the Central Tobacco Research Institute, Rajahmundry for fundamental research on all types of tobacco and regional research stations one each at Veda sandur, Madras State, for cigar, Cheroot and Chewing tobacco, at Pusa (Bihar) for Hookah and Chewing tobacco, at Dinhat (West Bengal) for Chewing, Wrapper and Hookah tobacco, at Guntur (Andhra Pradesh) for Cigarette and Natu tobacco and at Hunsur (Mysore State) for V.F.C. tobacco. Besides, the Committee also financed fully the Bidi Tobacco

Research Scheme, Anand and the Bidi Tobacco Research Station, Nipani and several other schemes with the State Governments of Uttar Pradesh, Punjab, Madras, Orissa, etc.

Since the inception of the Committee and the establishment of Research Institute/Research Stations, several findings of important practical value relating to manuring, topping, irrigation, improved varieties and control measures for pests and diseases have been recommended and adopted by the farmers.

Effective research work has been taken up in the States of Andhra Pradesh, Mysore, Madras, Gujarat, Bihar and Uttar Pradesh through demonstrations and training imparted to the tobacco growers in the proper methods of cultivation, curing, handling, grading etc. and through supplying pure seeds and seedlings. The all India cultivation of tobacco during 1964-65 with area and production respectively was 4,231,000 hectares and 3,69,700 kilograms.

With a view to locating new areas suitable for production of quality tobacco for export, small plot trials were laid out in the different States. On the basis of small trials conducted in several areas, trials on larger scale have been undertaken for flue-cured Virginia tobacco in Hosur area of Madras state, Thasra and Jabugam areas of Gujarat State, and for Burley tobacco in Bihar and Mysore States.

Based on the recommendations of the Second Joint Indo-American Team appointed in 1959, the Govt. of India have reorganised the agricultural research on all commodities including tobacco in the interest of consolidating the Central Agricultural Research Programme and assuring adequate coordination, to bring all Central Institutes under the full technical and administrative control of the Indian Council of Agricultural Research, the Commodity Committees have been abolished and the research work conducted by them integrated with the I.C.A.R.

There are 13 cigarette manufactories.

Export of tobacco is allowed without any restrictions. There is no export duty on tobacco meant for export, but an agricultural produce cess of half per cent *ad valorem* is collected on all tobacco exported outside India. The excise duty collected on tobacco is refunded if the tobacco is exported to foreign countries.

Statewise figures of tobacco production, are as follows :—

Production of Tobacco in thousand Kilograms.

| State                            | 1964-65 |
|----------------------------------|---------|
| Andhra Pradesh .. ..             | 175,900 |

## ADMINISTRATION OF JUSTICE

THE Indian Union though a dual polity has no dual judiciary at all. The Supreme Court and the High Courts form one single integrated judiciary having jurisdiction and providing remedies in all cases arising under the constitutional law, the civil law or the criminal law. This is done in order to eliminate all diversities in remedial procedure.

The writs are now issued by the Supreme Court of India and the various High Courts in the territory of India. All laws which existed before independence continue to operate in India as before subject to adaptation and modification made therein. Article 372 of the Constitution provides *inter alia* that, subject to the other provisions of the Constitution all laws in force in the territory of India immediately before the commencement of the Constitution shall continue in force therein until altered, repealed or amended by a competent Legislature or other competent authority.

The indigenous law of India is personal and divisible with reference to the two great classes of the population, Hindu and Muslim.

### SUPREME COURT

Art. 124 of the Constitution provides for the establishment of a Supreme Court of India consisting of a Chief Justice of India and seven other judges. There is provision in law for the appointment in all of 13 other judges. At present there are 11 judges including the Chief Justice (see Act 17 of 1960). Every judge of the Supreme Court shall be appointed by the President and shall hold office until he attains the age of sixty-five years. In the course of appointment of a Judge the Chief Justice shall always be consulted. Only a citizen of India who has been for at least 5 years a judge of a High Court, or for 10 years an advocate of a High Court, or a person, who in the opinion of the President, is a distinguished jurist, is qualified to be appointed judge of the Supreme Court.

A judge of the Supreme Court is not liable to be removed from his office except by an order of the President passed after an address by each House of Parliament, supported by a majority of the total membership of that House, and by a majority of not less than two-thirds of the members of that House present and voting, has been presented to the President in the same session for such removal, on the ground of proved misbehaviour or incapacity. No person who has held office as a judge of the Supreme Court shall plead or act in any court or before any authority within the territory of India.

The Supreme Court is a court of record with all the powers of such a court including the power to punish for contempt. The seat of the Court is to be in Delhi or such other place as the Chief Justice with the approval of the President may from time to time appoint.

The Supreme Court has exclusive original jurisdiction in any dispute (a) between the Government of India and one or more States; (b) between Government of India and one or more States on the one side and one or more other States, on the other; (c) between two or more States, if and in so far as the dispute involves any question (whether of law or fact) on which the existence or extent of a legal right depends (Article 131).

The appellate jurisdiction of the Supreme Court extends over all appeals from any judgment, decree or final order of a High Court, in civil, criminal or other proceedings, if the High Court certifies that the case involves a substantial question of law as to the interpretation of the Constitution. If the High Court refuses such a certificate the Supreme Court may grant special leave to appeal in a proper case (Art. 136). An appeal shall also lie to the Supreme Court from a High Court in civil matters, when the amount or value of the subject matter in dispute is not less than Rs. 20,000 or the High Court certifies the

case to be a fit one for appeal to the Supreme Court (Art. 133).

In criminal matters under Art. 134 an appeal lies to the Supreme Court from any judgment, final order or sentence of a High Court, if the High Court has (a) on appeal reversed an order of acquittal of an accused person and sentenced him to death; or (b) has withdrawn for trial before itself any case from a subordinate court and has in such trial convicted the accused person and sentenced him to death; or (c) the High Court has certified that the case is a fit one for appeal.

For purposes of appeals to the Supreme Court, the Judicial Commissioners' Courts are to be considered as High Courts.

Under Art. 136 discretion is given to the Supreme Court to grant special leave to appeal from any judgment, decree, sentence or order, in any matter passed by any Court or Tribunal in the territory of India.

The Supreme Court has also power to review its own judgement (Art 137).

The jurisdiction and powers of the Federal Court under the existing law are also exercisable by the Supreme Court (Art. 135) including the advisory power to give its opinion on questions of law or fact referred to it by the President (Art. 143).

The law declared by the Supreme Court shall be binding on all courts in the territory of India excepting the Supreme Court itself.

The dual system in the Supreme Court was abolished with effect from January 26, 1955.

Parliament has the power to legislate on the constitution, organisation, jurisdiction and powers of the Supreme Court.

Article 32 of the Constitution guarantees the right to move the Supreme Court by appropriate proceedings for the enforcement of Fundamental Rights; and for the enforcement of such rights the Supreme Court has power to issue directions or orders or writs, including writs in the nature of Habeas Corpus, mandamus, prohibition, *quo warrant* and *Certiorari* whichever may be appropriate.

Power is given to Parliament to enlarge the jurisdiction of the Supreme Court by appropriate legislation (Art. 138).

The royal prerogative to grant pardons, reprieves, respites or remissions of punishments now resides in the President (Art. 72).

Under Art. 348, all proceedings in the Supreme Court and in every High Court in India and the authoritative text of all Bills and Acts of Parliament and the State Legislatures and of all Ordinances promulgated by the President or Governors and of all orders, rules and regulations issued under the Constitution or any law shall be in the English language. If this language is to be replaced by any other language, Parliament must legislate to that effect. Parliament has passed the Official Languages Act (No. 19 of 1963). Though the Act enables the Governor of a State to authorise the use of Hindi or the official language of the State in the High Court, it does not include any provision, with respect to the language in the Supreme Court.

All authorities, civil and criminal in the territory of India, have to act in aid of the Supreme Court (Art. 144). The independence of the judges of the Supreme Court, is secured by charging their salaries on the Consolidated Fund of India, and by prohibiting any discussion in the legislature on the conduct of the judges in their official capacity.

### HIGH COURTS

Every High Court is a court of record and has all powers of such court including the power to commit for contempt of itself.

Every judge of a High Court is appointed by the President after consultation with the Chief Justice of India, the Governor of the State and the Chief Justice of the particular High Court; and he holds office until he attains the age of sixty-two years.

A person is not qualified to be appointed a judge of a High Court unless he is a citizen of India and has either held judicial office or practised as an advocate for 10 years in any of the States.

A High Court judge is not liable to be removed from his office except in the manner provided in Art. 124 (4) for the removal of a judge of the Supreme Court of India.

There is provision in the Constitution for the appointment of additional or acting judges.

The High Courts have powers of superintendence over all subordinate Courts and tribunals within their respective jurisdiction.

Legislation affecting constitution and organisation of the High Courts can be passed by Parliament alone.

The Law Commission appointed by the Government of India has rejected the suggestion that the powers of the High Courts under Art. 226-227 should be curtailed.

The Commission has also recommended to the Government of India that a High Court should not have Benches. It has also expressed the view that the establishment of tribunals will be necessary in view of the ideal of a Welfare State.

Some of the other recommendations of the Commission were given in the previous edition of the Directory.

On an average more than 14,000 cases are filed in the High Courts of India every month.

The Central Government has made separate judicial arrangements in the Union Territories, Delhi, Goa, Daman and Diu, Himachal Pradesh, Manipur, Tripura, Andaman and Nicobar Islands and Laccadive, Minicoy and Amindivi Islands.

Under Article 241 of the Constitution, Parliament can by law constitute a High Court or a Union Territory or declare any court in any such territory to be a High Court for all or any purposes of the Constitution. Judicial Commissioner's Court in Goa, Daman and Diu is declared a High Court for certain purposes.

There is a proposal to constitute a Central High Court for taxation cases. This High Court will have benches at Delhi, Calcutta, Bombay and Madras.

### LOWER COURTS

The Code of Criminal Procedure provides for the constitution of inferior criminal courts styled as courts of session and courts of magistrates.

Every State, outside the towns of Madras, Bombay and Calcutta, is divided into sessions divisions consisting of one or more districts, and every sessions division has a court of session and a sessions judge, with assistants if need be. These stationary sessions courts are like the English Assizes, and are competent to try all accused persons duly committed, and to inflict any punishment authorised by law, but sentences of death are subject to confirmation by the highest court of criminal appeal in the State.

Magistrates' courts are of three classes with descending powers. Provision is made and largely utilised in the towns, for the appointment of honorary magistrates. In the towns of Madras, Bombay and Calcutta, Presidency Magistrates deal with magisterial cases and benches of Justices of the Peace or Honorary Magistrates dispose of the less important cases.

Next come the Subordinate Judges and Munsiffs, the extent of whose original jurisdiction varies in different parts of the country.

There are in addition a number of Courts of Small Causes, with jurisdiction to try money suits up to Rs. 500. In the towns of Madras, Bombay and Calcutta where the High Courts have original jurisdiction, Small Causes Courts dispose of money suits up to Rs. 3,000.

In Bombay and Madras there are also City Civil Courts. The City Civil Court in Bombay has a pecuniary jurisdiction of upto Rs. 25,000.

As Insolvency Courts the High Courts of Calcutta, Bombay and Madras have jurisdiction in the Presidency towns. In the mofussil similar powers are conferred on the District Courts by the Provincial Insolvency Act of 1920.

There are Coroners only for the Presidency Towns of Calcutta and Bombay. Elsewhere their duties are discharged by the ordinary staff of magistrates and police officers unaided by jurors.

### SPECIAL COURTS

Labour Courts and Industrial Courts now exist in most States.

A Labour Court consists of a single judge.

These Courts decide upon disputes regarding (a) propriety or legality of an order passed by an employer, (b) the application and interpretation of standing orders, (c) they also decide disputes referred to them by Government for arbitration. Legality or otherwise of strikes or lock-outs or closure, etc. is also decided by them.

An appeal against the judgment of the Labour Courts lies to the Industrial Court. This court has also original jurisdiction regarding matters referred to it by the Government or by representative Unions. It decides upon questions of law referred to it by Wage Boards and references regarding interpretation of the Act and the Rules. It has power of superintendence over Labour Courts.

The Industrial Disputes Act was passed by the Central Legislature in 1947 for the investigation and settlement of industrial disputes.

Industrial Tribunals were established under this Act. If the conciliation bodies set up under this Act fail to bring about a settlement, the matter is referred to the Industrial Tribunals.

Neither party to a dispute is entitled to be represented by a legal practitioner except with the consent of the other party and by leave of the Tribunal.

Industrial Tribunals are not permanent Courts. Whenever a matter is referred to the Government regarding an industrial dispute the Government appoints one or more persons as Industrial Tribunal to adjudicate upon the dispute.

The Industrial Disputes (Amendment and Miscellaneous Provisions) Act No. 36 of 1956 makes provision for the constitution of the following courts and tribunals:

1. Labour Courts to be constituted by the appropriate Government. A court is to consist of one judge only.

2. Industrial Tribunals. A Tribunal is to consist of one judge only. A person is not qualified to be a member of a Tribunal unless he has been judge of a High Court. The Tribunals will be constituted by the appropriate Government.

3. National Tribunals. These Tribunals will be constituted by the Central Government. Here also a tribunal is to consist of one judge only.

This Act came into force on 1st Sept., 1956.

The Industrial Disputes (Amendment) Act 41 of 1956 and the Dock Workers (Regulation of Employment) Act, 1948, are two other Acts with respect to labour cases.

Administration of labour laws is a divided responsibility. The Central Government has the following organisations for the administration of labour laws. (1) The Office of the Chief Labour Commissioner, New Delhi. (2) The Office of the Coal Mines Welfare Commissioner, Dhanbad. (3) The Office of the Coal Mines Provident Fund Commissioner, Dhanbad. (4) The Office of the Welfare Commissioner, Mica Mines Labour Welfare Fund, Dhanbad and Nellore. (5) The Office of the Chief Inspector of Mines, Dhanbad. (6) The Office of the Chief Adviser of Factories, New Delhi. (7) The Office of the Director-General, Employees' State Insurance Corporation, New Delhi. (8) The Office of the Controller of Emigrant Labour, Shillong. (9) The Office of the Director, Labour Bureau, Simla. (10) The Office of the Central Provident Fund Commissioner, New Delhi.

The State Governments also have their own organisations for the administration and enforcement of labour laws.

Juvenile offenders are tried by the Juvenile Courts.

Panchayat Courts (called Nyaya Panchayat) are in existence in many States. The members

of the Panchayat Court are elected by the Village Panchayat. Sections 30-44 of the Act lay down rules about the suits that may be tried and the suits that may not be tried by the Court. A Nyaya Panchayat cannot alter or revise its decision. An appeal against a decision of the Nyaya Panchayat lies to the District Judge.

Under the Defence of India Act (No. 51 of 1962) provision is made for the establishment of Special Tribunals (section 13) for trying offences under any rule made under section 3.

### LAW OFFICIALS

The Government of India have their own law colleague in the Law Minister of the Union Cabinet. All Government measures are drafted in his Ministry after their substance is decided upon by the administrative departments concerned.

Outside the Cabinet the principal law officers of the Government of India are the Attorney-General, Solicitor-General and Additional Solicitor-General appointed by the President. At Bombay and Calcutta the Government of India have their own law officers.

Each of the State Governments has its own Advocate-General.

In addition to the Advocate-General there is also a Government Pleader in many States. He usually belongs to the Appellate Side of the High Court while the Advocate-General belongs to the Original Side where the High Court has both Original and Appellate Sides. The Government Pleader is assisted by an Assistant Government Pleader and they look after criminal work.

The State Governments have their own law officers, in addition to the Advocate-General and the Government Pleader. The law officer is designated Remembrancer of Legal Affairs.

Sheriffs are attached to the High Courts of Bombay, Calcutta and Madras.

There are Official Assignees in three States—Maharashtra, W. Bengal and Madras. The appointment is made by the Chief Justice of the High Court concerned.

In addition to the Official Assignee, a Deputy Official Assignee may also be appointed. Another officer of the court is the Insolvency Registrar who may be vested with the powers mentioned in section 6 of the Presidency Towns Insolvency Act.

### HINDU LAW REFORM

As a result of increasing consciousness on the part of Indian women of their social and political status, there has in recent years been a move to revise and codify the somewhat vague and contradictory law governing the Hindu home, especially as it affects marriage, divorce, succession to property, etc.

The following are the various enactments in this connection.

In 1937 the Indian Legislature enacted the Hindu Women's Rights to Property Act. This Act, for the first time, gave to Hindu widows a right to claim a share in the husband's property and demand partition.

The Hindu Marriage Disabilities Removal Act of 1946, legalised marriages between Hindus belonging to the same Gotra or Pravara.

The Hindu Married Women's Right to Separate Residence and Maintenance Act of 1946 enabled a married Hindu woman to claim from her husband separate residence and maintenance on certain grounds.

The Hindu Marriage Validating Act, 1949 removed the caste-barriers from the sphere of marriages and validated even the Pratiloma marriages.

The Child Marriage Restraint (Amendment) Act of 1949 raises the marriage age of girls from 14 to 15 years.

The Madras Legislature passed the Madras Devadasis (Prevention of Dedication) Act in 1947. This Act puts an end to the unhealthy practice of dedicating Hindu women as 'devadasis' to Hindu deities.

Bombay Hindu Women's Right to Property Act (Extension to Agricultural Land) extended the application of the Hindu Women's Right to Property Act, 1938 to agricultural land also. A similar law was passed in Madras.

Though the Hindu Code Bill was dropped, the Government of India have passed several Acts affecting Hindu Law.

The Special Marriage Act of 1954 repeals the Special Marriage Act of 1872. Though the Act of 1954 is not a part of Hindu Code, it affects Hindus in so far as it provides for civil marriages both for Hindus and non-Hindus.

The Hindu Marriage Act of 1955 came into force on 18th May, 1955. The Act has repealed the following laws:—

1. The Hindu Marriage Disabilities Removal Act of 1946;
2. The Hindu Marriage Validity Act of 1949;
3. The Hindu Divorce Act of 1947 (Bombay Act);
4. The Prevention of Hindu Bigamous Marriage Act of 1946;
5. The Madras Hindu (Bigamy Prevention and Divorce) Act;

6. The Saurashtra Prevention of Hindu Bigamous Marriage Act;
7. The Saurashtra Hindu Divorce Act.

Under the Hindu Marriage Act 25 of 1955, monogamy has become a rule in Hindu Society. Divorce is allowed on certain grounds. Inter-caste marriages and Sagotra marriages are valid.

The Hindu Minority and Guardianship Act (32 of 1956) seeks to regularise the law regarding guardianship.

The Hindu Succession Act 29 of 1956 aims at simplifying the Hindu Law of succession. It does away with the distinction between the Mitakshara and Dayabhaga law of succession. However, special provision is made for regulating succession to the property of intestates governed by Marumakkattayam, Aliyasantana or Nambudri laws of inheritance. The Act creates two classes of heirs. Preferential heirs are included in Class I. The Act confers a right to a share on a daughter, a provision unknown to the previous Hindu Law.

The Hindu Succession Act has also made the following changes, which are revolutionary, in the old Hindu Law:

All property held by a Hindu woman is now her absolute property and there are no restrictions on her rights.

The heirs of a deceased Hindu are entitled to get a share even in the undivided interest in the Mitakshara coparcenary property. A Hindu can make a will even of his undivided interest in the coparcenary property.

The Hindu Adoptions and Maintenance Act 79 of 1956 was passed in December 1956. Under the Act the adoption of a son or a daughter is permitted. The consent of the wife is necessary

for adoption, which is now purely secular in character.

### SOCIAL REFORMS

Besides these laws, Parliament has passed two important Acts relating to social reform. The Suppression of Immoral Traffic in Women and Girls' Act (No. 104 of 1956) was passed in December 1956. This Act provides in pursuance

of the International Convention signed at New York on 9th May 1950 for the suppression of immoral traffic in women and girls. The Women's and Children's Institutions Licensing Act (No. 105 of 1956) was passed in December 1956. This Act provides for the licensing of such institutions and of matters relating to them.

Yet another Act, in social reform is the Probation of Offenders Act (20 of 1958).

### LAW COMMISSION REPORT

A Law Commission to revise the Statute Law of the country and suggest ways and means of improving the system of judicial administration was appointed on Aug. 5, 1955 with Mr. M. C. Setalvad as Chairman. The names of the other members are given in the 1961-62 Directory.

The Commission was to function in two sections. The first section consisting of the Chairman and the first three members was to deal mainly with the question of the reform of judicial administration. The second was to consist of the other seven members and was to deal with the revision of statute law. The two sections would however work in close co-operation under the direction of the Chairman.

While the section dealing with the revision of statute law submitted periodical reports, the one dealing with judicial administration submitted its full report sometime in the second half of 1958. It was laid on the table in Parliament on 25th Feb. 1959.

In Dec. 1958 the Law Commission was re-constituted for a period of three years with Mr. T. L. Venkatarama Iyer as Chairman to enable it to continue the work of statute revision. Names of other members are given in 1961-62 Directory.

In Dec. 1961, the Commission was again re-constituted with Mr. Justice J. L. Kapur as

Chairman. The Law Commission has till now (June 66) submitted to the Government altogether 30 reports.

In Dec. 1964 the Commission was again reconstituted with the following members: Mr. Justice J. L. Kapur (*Chairman*); Mr. S. K. Hiranandani, Mr. S. P. Sen-Verma, Mr. K. G. Datar (*Whole-time members*); Principal T. K. Tope, Mr. Rama Prasad Mukherjee (*Part-time members*).

A summary of the report of the Law Commission on judicial administration is given in the 1959-60 edition of the Directory.

## CONSTITUTION OF INDIA

THE present constitution of India was drawn up by a Constituent Assembly which first met on 9th December 1946. A draft constitution was published in February 1948. The constitution with amendments in the original draft was finally adopted on 26th November, 1949. It came into effect on 26th January 1950.

There were seventeen amendments to the constitution upto the end of May 1966. One more amendment the eighteenth amendment was passed in Aug. 1966.

A whole Schedule, the Ninth Schedule, was added by an amendment in 1951. This Schedule was considerably amended by the 17th amendment.

A major amendment was concerned with the re-formation of the constituent units of the Union. The States as re-formed came into existence on 1st Nov., 1956.

A smaller change came on May 1, 1960 when one of the States Bombay was divided into two States, Maharashtra and Gujarat. A proposal to divide the State of Punjab into two States has been passed in the Parliament.

### STATES

India, that is, Bharat is a sovereign democratic republic.

It is variously called the Republic of India, the Union of India, The Indian Union.

The Union is made up of 16 States† and 9 Union Territories.

The States with their capitals given in brackets are:

Andhra Pradesh (Hyderabad); Assam (Shillong); Bihar (Patna); Maharashtra (Bombay); Gujarat (Ahmedabad)\*; Kerala (Trivandrum); Madhya Pradesh (Bhopal); Madras (Madras); Mysore (Bangalore); Orissa (Bhubaneswar); Punjab (Chandigarh); Rajasthan (Jaipur); Uttar Pradesh (Lucknow); West Bengal (Calcutta); Nagaland (Kohima).

Jammu and Kashmir (Srinagar).

The 9 Union Territories with their capitals in brackets are:

Delhi (Delhi); Himachal Pradesh (Simla); Manipur (Imphal); Tripura (Agartala); Laccadive, Minicoy and Amindivi Islands (Kozhikode, provisional headquarters); Andaman and Nicobar Islands (Port Blair); Dadra

and Nagar Haveli (Silvassa); Pondicherry (Pondicherry); Goa, Diu & Daman (Panjim).

The States are administered by State Governments, the Union Territories by the Central Government. The Union Territories of Himachal Pradesh, Manipur, Tripura, Goa, Daman and Diu and Pondicherry have a legislature and a Council of Ministers, under an Act of Parliament. (Act 20 of 1963).

In addition to the States and Territories mentioned above there is one administrative unit—the North-East Frontier Agency, called NEFA for short.

The NEFA is administered by the Governor of Assam as agent of the Central Government.

### FEDERATION

The constitution of India is quasi-federal in nature.

The distribution of power between the Centre and the local administrations follows the accepted principle that subjects which for convenience and efficiency ought to be administered on an all-India basis are vested in the Union Government, while others (of the nation-building sort) which can be conveniently administered on a local basis are vested in the State Governments.

Thus, defence, foreign affairs, transport and communications, currency and coinage, banking, customs and export duties, and the administration of justice at the higher level are all Central subjects, while State powers include those over police, public health, education, agriculture, forests and so on.

There is a third group of subjects that fall betwixt and between such as trade and industry, economic and social planning, social security and insurance, labour welfare, price control, electricity, newspapers and books and vital statistics. On these subjects both the Centre and the State can freely legislate, it being understood that whenever there is conflict between Union and State legislation the Union laws will ordinarily prevail.

Three detailed lists of subjects are drawn up, the Union List, the State List and the Concurrent List, and the residuary power rests with the Union. That is to say, if at any time, a subject which does not figure in any of the three lists, comes up for consideration the power of dealing with it lies with the Union Government.

The three lists are given in the Seventh Schedule.

It may be added that the Union List has 97 entries, the State List 65 and the Concurrent List 47.

All elections are directed and controlled by an Election Commission. Elections to the Lok Sabha and the Legislative Assemblies of the States are on the basis of adult suffrage. Seats are reserved in the Lok Sabha for the Scheduled Castes and the Scheduled Tribes.

There is a Public Service Commission for the Union and also for the States. Two or more States may agree to have only one Commission for the group. Actually, every State has a Public Service Commission at present while the Union Public Service Commission operates for the Union Territories as well. Appointment of members of the Commission are made by the President or the Governor as the case may be. The Commissions conduct examinations for appointments to the services of the Union or the States. The Union Commission submits an annual report to the President.

Provision is made for removing differences between the various States by empowering the President to establish an Inter-State Council. Such a Council, however is not established as yet.

### FUNDAMENTAL RIGHTS

In the Indian Union the rights of Indian citizenship are given to 1. One who is born in India, 2. Either of whose parents was born in India, and 3. Who has been a resident of India for five years. Provision is also made for persons who are affected by the partition of the sub-continent.

Details were filled in by the Citizenship Act of 1955 which also provides for the termination and deprivation of citizenship under certain conditions. The Act also empowers Government to extend the rights of citizenship to any country in the Commonwealth and the Republic of Ireland on a reciprocal basis.

Certain fundamental rights are guaranteed to every citizen for the first time. All persons are equal before the law and no discrimination is made on grounds of religion, sex, caste, etc. All citizens have equal opportunities.

Freedom of speech and expression is guaranteed, and the right to hold meetings (without arms), to form unions and associations, to move freely in India and to reside in any part, to acquire property and to practise any profession are also assured to the citizens of India under the Constitution.

† It has been decided to divide one of the 16 States—the Punjab—into two States, the Punjabi Suba and Haryana Prant.

\* Temporary Capital.

Life and personal liberty are protected under the law, and there will not be punishment for the same offence more than once. Preventive detention is also forbidden except in certain cases.

Children under the age of 14 will not be allowed to be employed in factories and forced labour like *begar* is prohibited.

India is a secular State and as such there is freedom of conscience. Citizens are allowed to profess, practise and propagate any religion; and the State will not ordinarily interfere in religious questions. The minorities are assured of cultural and educational rights.

The State can acquire compulsorily property for public purposes, but compensation may be paid to the owner of the property concerned although questions relating to the quantum of compensation are not justiciable. But property may also be acquired without compensation in certain cases.

All titles, except military or academic, are also abolished, though honours for meritorious service may be conferred.

Untouchability is abolished.

These fundamental rights can be enforced by the Supreme Court and by High Courts which have the authority to issue prerogative writs such as *habeas corpus*, *certiorari*, *prohibition*, etc.

In respect of the Defence Forces, however, Parliament has power to legislate on these fundamental rights and restrict these rights as regards them.

It must also be pointed out that some of these fundamental rights can be suspended in case of emergency, and the remedies available for their enforcement may also be suspended by an order of the President. Accordingly as a result of the proclamation of emergency in October 1962, fundamental rights guaranteed by Article 19 are suspended and the President has also issued an order declaring that enforcement of rights under articles 14, 21 and 22 will remain suspended.

There are also certain Directive Principles in accordance with which the State has to direct its policy. These principles are of a recommendatory character and cannot be enforced in a court of law. However the State is expected to look upon them as a kind of touch-stone for its policy and action.

These principles include organization of village panchayats, provision for just and humane conditions of work, equal pay for equal work, unemployment benefit, assistance in old age and sickness, maternity relief, a uniform civil code for the citizens, provision for compulsory and free education of children and separation of judiciary from executive.

Other principles are the organization of agriculture and animal husbandry on modern and scientific lines, prohibition of intoxicating drinks and drugs, protection of national monuments, promotion of international peace and security and settlement of international disputes by arbitration.

There are special provisions to safeguard the interests of two groups—The Anglo-Indians and the Scheduled Castes and Tribes.

The Scheduled Castes and Tribes have special representation in the legislatures of the country upto 1970 (see separate articles on the Scheduled Castes and Tribes). In certain tribal areas there are autonomous administrative bodies.

As for Anglo-Indians, the President may nominate not more than two members of the Anglo-Indian community to the Lok Sabha if he thinks that the community is not adequately represented. Similar power is given to the Governor of a State. The Governor can nominate one member to the Legislative Assembly. In West Bengal, however, he can nominate not more than two.

The claims of the Scheduled Castes and the Scheduled Tribes are to be considered in making appointments to services, and for two years after the commencement of the Constitution the Anglo-Indians were to have the same proportion in the services as they had immediately before 15th August 1947. This reservation was to be progressively reduced by 10 per cent every two

years in such a way that it was to cease completely ten years after the commencement of the Constitution. Accordingly it ceased in 1960.

Originally all reservation including reservation of seats for Scheduled and Tribal classes were to cease ten years after the commencement of the Constitution.

In 1960 the constitution was amended—it was the eighth amendment to the constitution—to extend the period of reservation of seats in the legislatures for another ten years from 1960.

A special officer for the Scheduled Castes and the Scheduled Tribes has been appointed.

### UNION EXECUTIVE

The executive head of the Indian Union is the President. He is elected by the elected members of the Houses of Parliament and the Legislative Assemblies of all the States. His term of office is five years, and he is eligible for re-election. Only a person who is a citizen of India and has completed the age of thirty-five years is qualified to contest the election.

He is the Supreme Commander of the Armed Forces.

He has the power to grant pardons or remission of punishment.

The President is entitled to the use of an official residence without payment of rent, and a salary of Rs. 10,000 per month and allowances. Provision has also been made by an Act of Parliament for a pension of Rs. 15,000 per annum. He is also entitled to a maximum of Rs. 12,000 per annum for the sake of secretarial staff and other expenses.

The President has the power of summoning, proroguing and dissolving Parliament. At the commencement of each session he addresses both Houses of Parliament assembled together. He has the right of sending messages to Parliament and sending back a Bill presented to him for his assent. This power however can be used by him only once.

The President has legislative powers under certain circumstances. When neither of the Houses of Parliament is in session and the President is satisfied that circumstances exist which make immediate action necessary he may promulgate an ordinance.

Such ordinance must be put before both the Houses of Parliament and will cease to operate at the expiration of six weeks from the re-assembly of Parliament.

The President can also declare emergency if he is satisfied that the security of India or any part thereof is threatened either by war or internal disturbances when the legislature is in session. Such a proclamation would give additional powers to the Union executive and the Legislature.

Accordingly the President issued the proclamation of emergency in October 1962 as a result of the Chinese aggression.

The judges of the Supreme Court and the High Courts, the Attorney-General of India and

the Comptroller and Auditor-General of India are all appointed by the President. The heads of States, i.e., Governors are also appointed by the President.

The President has the power of appointing ambassadors abroad and receiving diplomatic representatives of foreign States.

The President places a number of annual reports before Parliament: the Annual Financial Statement, the report of the Auditor-General of India relating to the accounts of the Government of India, the annual report of the Union Public Services Commission and the report of the Special Officer for Minorities.

All executive action of the Government of India is taken in the name of the President and it is the duty of the Prime Minister to communicate to the President all decisions of the Council of Ministers.

Provision is made for the impeachment of the President, by Parliament, for violation of the Constitution. If such a resolution is passed by a majority of not less than two-thirds of the total membership, such a resolution has the effect of removing the President from office.

In the exercise of his functions, the President has the aid and advice of a Council of Ministers, with the Prime Minister at the head of it. The President appoints the Prime Minister and other Ministers are appointed on the advice of the Prime Minister.

The Council of Ministers is collectively responsible to the Lok Sabha (the Lower House). Every Minister must be a member of either House of Parliament, and he is required to take an oath of office and secrecy.

The salaries and allowances of Ministers are determined by Parliament.

There is a Vice-President of India, who is ex-officio Chairman of the Rajya Sabha (the Upper House). The Vice-President acts as President during a casual vacancy in the office of the President. He is elected by the members of both Houses of Parliament and his term of office is five years.

### UNION PARLIAMENT

The Parliament consists of the President and two Houses known as, as already mentioned, the Lok Sabha and the Rajya Sabha. It must meet at least twice a year. The maximum strength of the two Houses is fixed at 250 (12 nominated) for the Rajya Sabha and 525 for the Lok Sabha (not more than 500 from the States and 25 from the Territories).

In January 1965 the Rajya Sabha had a total strength of 238. Of these members 12 were nominated by the President.

In January 1965, the Lok Sabha had a total strength of 510. Of these 13 members were nominated. The fourth General Election to the Lok Sabha will be held in February 1967.

A new delimitation order was issued in March 1963. The allocation of seats for the next General Election would be as follows:—

| Name of the State         | Total No. of Seats | Scheduled Castes | Scheduled Tribes |
|---------------------------|--------------------|------------------|------------------|
| Andhra Pradesh .. .. .    | 43                 | 6                | 2                |
| Assam .. .. .             | 12                 | 1                | 2                |
| Bihar .. .. .             | 53                 | 7                | 5                |
| Gujarat .. .. .           | 22                 | 2                | 3                |
| Kerala .. .. .            | 18                 | 2                | Nil              |

A Delimitation Commission has been appointed to recommend the allotment of seats in the various Houses of Legislature and the House of the People.

The Rajya Sabha is elected by the elected members of the Legislative Assemblies of the States and of the Union Territories of Himachal Pradesh, Manipur, Tripura and Pondicherry, while the Lok Sabha is elected directly by the voters in the country.

The electoral college for the Territory of Delhi consists of persons who were members of the Delhi Legislative Assembly immediately before 1st November 1956.

A bill providing a Metropolitan Council for Delhi was introduced in Parliament in 1965 (Bill No. 72 of 1965). The Bill also provides for the administrator's Executive Council.

The elections to the Lok Sabha are based on adult suffrage and joint electorates. There is no reservation of seats for any group except Scheduled Castes and Scheduled Tribes.

The representatives of Jammu and Kashmir in the Lok Sabha are appointed by the President on the recommendation of the legislature of the State.

The Rajya Sabha is a permanent body with one-third of its members retiring every second year. The Vice-President of the Union is also the Chairman of the Rajya Sabha. The Rajya Sabha has also a Deputy Chairman.

The Lok Sabha has a duration of five years, ordinarily. There is a Speaker and a Deputy Speaker of the House both of whom are elected by its members.

All these posts carry a salary and allowances.

Under certain circumstances, the members can be disqualified and their seats declared vacant.

All legislation requires the consent of both Houses of Parliament, and every question is decided by a simple majority of those present and voting except on amendments to the constitution.

Money Bills can be introduced only in the Lok Sabha. The Rajya Sabha can only return a bill with its recommendations to the Lok Sabha within a period of fourteen days of its receipt. Bills passed by Parliament are submitted to the President for his assent. Only on such assent being given does the Bill become law.

A Bill normally goes through the following stages. It is first published. After introduction there is a general debate. Third, there is a clause-by-clause discussion. Then it is voted upon. A specially important measure may go before a select committee or a joint select committee. A Money Bill has a slightly different passage. After it has been passed in the Lok Sabha it is sent to the Rajya Sabha which has to return it within fourteen days with its recommendations which may be accepted or rejected.

The quorum is fixed at one-tenth of the membership of the House.

The language used in Parliament is either Hindi or English.

#### Distribution of Seats

The distribution of seats in the Rajya Sabha is as follows:

Andhra Pradesh 18; Assam 7; Bihar 22; Gujarat 11; Kerala 9; Madhya Pradesh 16; Madras 18; Maharashtra 19; Mysore 12; Orissa 10; Punjab 11; Rajasthan 10; Uttar Pradesh 34; West Bengal 16; Jammu and Kashmir 4; Delhi 3; Himachal Pradesh 2; Manipur 1; Pondicherry 1; Tripura 1; Nagaland 1; Total 226.

The President has nominated 12 members. Thus the total of elected and nominated members is 238.

The allocation of seats in the Lok Sabha is as follows:

Andhra Pradesh 43; Assam 12; Bihar 53; Gujarat 22; Kerala 18; Madhya Pradesh 36; Madras 41; Maharashtra 44; Mysore 26;

Orissa 20; Punjab 22; Rajasthan 22; Uttar Pradesh 86; West Bengal 36; Jammu and Kashmir 6; Delhi 5; Himachal Pradesh 4; Manipur 2; Tripura 2; Andaman and Nicobar Islands 1; Laccadive, Minicoy and Amindivi Islands 1; Nagaland 1; North-East Frontier Tract 1; Dadra & Nagar Haveli 1; Goa 2; Pondicherry 1; two Anglo-Indians are nominated.

As mentioned above the six members from Jammu and Kashmir are also nominated by the President on the recommendation of the State legislature.

Parliament's control over the administration is also exercised through a series of committees. The Committees can summon witnesses or require documents to be produced. There is a Committee on Privileges which sees to breaches of Parliamentary privilege, a Business Advisory Committee which helps the Ministry of Parliamentary Affairs in drawing up the programme for a session.

Two very important Committees are the Public Accounts Committee and the Estimates Committee. They are elected by the House of the People and Ministers are barred from membership. The Public Accounts Committee ensures that money is spent for the purpose for which Parliament has voted it, and criticises cases of waste, or extravagance. The Estimates Committee examines possibilities of economy and reform in financial administration and the manner in which estimates may be presented to Parliament.

The programme of work for any session is worked out by the Ministry of Parliamentary Affairs.

#### SUPREME COURT

(See under 'Administration of Justice'.)

#### STATE GOVERNMENT

The 16 States have Governors at their heads, the Union Territories Andaman & Nicobar Islands, Delhi, Manipur and Tripura have Chief Commissioners, Himachal Pradesh, Goa and Pondicherry have Lieutenant-Governors, Laccadive and Dadra have Administrators.

#### Zonal Councils

The States and Union Territories are grouped into geographical zones, and for each zone there is a Zonal Council, which is an advisory body.

These came into existence as part of the scheme relating to the reorganization of States embodied in the States Reorganization Act of 1956.

There are five zones: Northern zone (Punjab, Rajasthan, Kashmir, Delhi and Himachal Pradesh); Central zone (Uttar Pradesh and Madhya Pradesh); Eastern zone (Bihar, West Bengal, Orissa, Assam, Manipur and Tripura); Western zone (Gujarat, Maharashtra and Mysore); Southern zone (Andhra Pradesh, Madras, and Kerala and also Mysore as a permanent invitee).

(More details were given in the previous edition of the Directory).

#### States

The Governor of a State is appointed by the President. Executive power is vested in the Governor who is appointed for a term of five years, ordinarily. Only a citizen of India and one who has completed 35 years of age, is eligible for such an appointment.

The Governor, like the President, has power to grant pardon, etc. He will have a Council of Ministers to aid and advise him. The Governor also appoints an Advocate-General for the State.

#### Legislature

Ten States, Andhra Pradesh, Bihar, Kashmir, Madhya Pradesh, Madras, Maharashtra, Mysore, Punjab, Uttar Pradesh, West Bengal have two Houses of Legislature; the others, only one. The two Houses are called the Legislative Assembly (sometimes Vidhan Sabha) and the Legislative

Council (sometimes Vidhan Parishad). The former has a duration of five years, while the latter is a permanent body with one-third of the members retiring every second year.

The minimum strength of an Assembly is 60 and the maximum 500.

The minimum strength of a Council is 40, and the maximum one-third of the State Assembly.

An Assembly is elected directly on a basis of adult franchise with reservation of seats for the Scheduled Castes and Tribes. The composition of a Council is more complicated. About a third are elected by the Assembly, another third by local authorities (municipalities, district boards), about a twelfth by registered teachers in schools not lower than the secondary school standard, and about a twelfth by registered graduates of not less than three years' standing. And the rest are nominated by the Governor from among persons who have distinguished themselves in art, science, literature, co-operation and social service.

The Legislature must meet at least twice a year. While the Assembly consists of members who are directly elected from territorial constituencies, the Council consists of members nominated by the Governor, elected by the Assembly and of representatives of local bodies and special interests.

The legislature can frame its own rules of procedure but it is more or less the same as in Parliament. The quorum for a meeting is one-tenth of the membership or ten whichever is higher.

In case of disagreement, if the Bill is passed a second time after three months of its reference to the Council it automatically becomes law after one month of its passage in the lower house.

The State legislature too has its Committees like Parliament.

The number of seats (including nominated members) in the Legislative Assembly and the Legislative Council is as follows (the first figure shows the number of seats in the Assembly, and the second in the Council):

As on June 1, 1964: Andhra Pradesh: 301; 90; Assam: 105; —; Bihar: 319; 96; Gujarat: 154; —; Kashmir: 100; 36; Kerala: 127; —; Madhya Pradesh: 289; 90; Madras: 207; 63; Maharashtra: 265; 78; Mysore: 209; 63; Nagaland: 46; —; Orissa: 140; —; Punjab: 154; 51; Rajasthan: 176; —; Uttar Pradesh: 430; 108; West Bengal: 256; 75.

The total number of seats in the Vidhan Sabha of Himachal Pradesh is 43, Legislative Assembly of Manipur 30 and of Tripura 30. The number of seats in the Pondicherry Legislative Assembly is 30. Goa Legislative Assembly 30.

About the Kashmir Assembly it may be mentioned that 25 seats are now vacant waiting to be filled in by members from that part of Kashmir now under occupation by Pakistan troops.

The effective strength of the Assembly is 75.

The right of summoning, proroguing and dissolving the legislature is vested in the Governor, who addresses the legislature at the commencement of each session.

Like the Parliament there is a Speaker, a Deputy Speaker, a Chairman and a Deputy Chairman for the Legislative Assembly and the Legislative Council respectively. These officers of the legislatures are entitled to salary and allowances.

The language in the legislature can be either Hindi or English or any other language allowed by the Speaker.

The State Legislatures cannot discuss the conduct of any judge of the Supreme Court or of a High Court in the discharge of his duties.

As the Governor is a part of the legislature, he has certain legislative powers. He can promulgate ordinances during the recess of the legislature; such ordinances must be placed before the legislature and cease to operate at the expiration of six weeks from the reassembly of the legislature.

The salary of the Governor is Rs. 5,500 per month and he is also entitled to certain allowances.

If the government of a State cannot be carried on in accordance with the provisions of the Constitution, and the Governor makes a report to that effect to the President, the President may by proclamation assume to himself all or any of the functions of the Government of the State. He may also declare that the powers of the State legislatures shall be exercised by Parliament, and suspend any provision of the constitution relating to the State.

However, he cannot assume to himself, or suspend any of the provisions of the Constitution relating to High Courts.

### UNION TERRITORIES

(See the earlier part in this article).

There are special provisions for Hill Areas of Manipur (Section 52).

The Act also provides for appointment of a Judicial Commissioner.

Provision is also made for introduction of President's rule in case of failure of constitutional machinery in the Union Territory.

There is a High Court for each State and a Judicial Commissioners' Court each for the Union Territories of Himachal Pradesh, Manipur, Tripura and Goa, Daman and Diu.

The salary of a Chief Justice of a State is Rs. 4,000, and of a High Court Judge Rs. 3,500.

The highest court for Delhi is the District Court. Appeals from here go to the Punjab High Court, a circuit bench of which sits in Delhi. There is a proposal to have a separate High Court for Delhi. For Andamans, the highest court is the Chief Commissioner's Court. Appeals go to the Calcutta High Court.

### OFFICIAL LANGUAGE

(See article on "Official Language Problem.")

### EMERGENCY PROVISIONS

If the President is satisfied that a grave emergency exists, and the security of India or any part thereof is threatened either by war or internal disturbance, he may make a declaration to that effect. Such proclamation must be approved by both the Houses of Parliament, before the expiration of two months, otherwise it ceases to operate at the end of that period. As a result of this proclamation Parliament will be authorised to legislate on items included in the State list and the President, to issue directions to the Governor. The President of India made a Proclamation of Emergency in October 1962 after the Chinese aggression.

The President may proclaim a failure of constitutional machinery in a State if he learns that the Government of the State cannot be carried on according to the provisions of the constitution. If this is done, President's rule will be introduced in the State.

This, however, would not be applicable to the functions of the High Courts. Somewhat similar provision is also made for financial emergency.

### AMENDMENT OF THE CONSTITUTION

For purposes of amendment the items are divided into three classes with a different procedure for each class.

For amendment of the provision with respect to the Supreme Court and the High Courts, the distribution of legislative powers between the Centre and the States, the representation of the States in Parliament, etc., the amendment must be passed by both the Houses of Parliament by a majority of the total membership of the House and by a majority of two-thirds of the members present and voting, and must further be ratified by the legislatures of not less than one-half of the States.

In other cases no reference to the State legislatures is necessary. Parliament by itself can amend the Constitution in the manner mentioned above. In some cases amendments can be effected even by a bare majority such as is required for the passing of any ordinary law.

There were eighteen amendments to the Constitution from the coming into force of the constitution on 26th January 1950 to the end of August 1966.

The Constitution (First Amendment) Act, 1951 aimed among other things at enabling the State to make special provision for the advancement of socially and educationally backward classes. It also gave the State broader powers to restrict freedom of speech and writing in the interests of friendly relations with foreign States, public order, decency, morality and in relation to defamation or incitement to an offence.

Two new articles were added after Art. 31 to save the laws relating to the acquisition of estates and the validation of certain land reforms, Acts and Regulations passed by certain States. These Acts were specified in an extra Schedule added to the list, the Ninth Schedule.

The Articles affected by the First Amendment were 15, 19, 85, 87, 174, 176, 341, 342, 372 and 375. It added two new Articles 31A and 31B and a new Schedule, the Ninth Schedule.

The object of the Constitution (Second Amendment) Act, 1952 was to make adjustments in the representation in the Lok Sabha consequent on the completion of the 1951 census. The Article affected was Article 81.

The Constitution (Third Amendment) Act, 1954 changed entry No. 33 in the Concurrent List in the Seventh Schedule by adding food-stuffs, cattle fodder, raw cotton and jute whose production and supply could be controlled by the Centre if necessary.

The Constitution (Fourth Amendment) Act, 1955 enables the State to acquire private property compulsorily for a public purpose and bars any reference about the quantum of compensation fixed by the legislature to a court of law. Also, the temporary taking over of private property in the public interest or to secure better management is excluded from the compensation clause. Laws providing for State monopolies are also saved from invalidation. Seven new entries were made to the Ninth Schedule.

The Articles affected were 31, 31A, 31(2) and 305.

The Constitution (Fifth Amendment) Act, 1955 merely fixed a time for State legislatures to give their opinion on Central laws affecting the area, boundary etc. of the State concerned. The Article affected was 3.

The Constitution (Sixth Amendment) Act, 1956 added a new entry in the Union List in the Seventh Schedule, thus giving the Centre authority to legislate on the taxes, on the sale and purchase of goods in the course of inter-State transactions.

The Constitution (Seventh Amendment) Act, 1956 dealt with a whole host of problems thrown up by the reorganisation of the States, such as the alteration of State boundaries, the creation of new States, the classification of certain areas as Union Territory, the allocation of seats in the Rajya Sabha, the provision of a bicameral legislature for certain States. Other points the Amendment dealt with are the original jurisdiction of the Supreme Court, the High Courts and safeguards for linguistic minorities.

Some articles affected were 1, 80, 81, 82, 131, 168, 216, 217, 220, 222, 224 and the First Schedule, and the Fourth Schedule. Four new Articles 290A, 350A and 350B and 372A were added.

The Constitution (Eighth Amendment) Act, 1959 is concerned with the representation of Scheduled Castes and Tribes and Anglo-Indians in Parliament and State legislatures. Article 334 of the Constitution lays down that the reservation of seats in these bodies should cease ten years after the commencement of the Constitution, that is, in 1960. The Amendment proposes that the reservation of seats for the Scheduled Castes and Tribes and the representation of Anglo-Indians by nomination should continue for a further period of ten years—till 1970.

Article 333 is also amended so that the number of members so nominated to a State legislature may be fixed—not more than two in West Bengal and not more than one elsewhere.

The Constitution (Ninth Amendment) Act, 1960, gives effect to the transfer of territories between India and Pakistan under the Nehru-Noon Agreement of 1958.

The Constitution (Tenth Amendment) Act amends the First Schedule to the Constitution of India for integration of the territory of Dadra and Nagar Haveli with the Union of India.

The Constitution (Eleventh Amendment) Act provides for a slightly new procedure for the election of the President and Vice-President.

The Constitution (Twelfth Amendment) Act incorporates Goa, Daman and Diu in India and designates it as Union Territory.

The Constitution (Thirteenth Amendment) Act introduces a new Art. 371A regarding the administration of the State of Nagaland.

The Constitution (Fourteenth Amendment) Act incorporates Pondicherry as a Union Territory.

The Constitution (Fifteenth Amendment) Act among other things raises the retirement age of judges from 60 to 62 and also amends the clause on disciplinary action against Government servants.

The Constitution (Sixteenth Amendment) Act. This Act amends Art. 19 with a view to conferring on the Government adequate powers for maintaining the integrity and sovereignty of the Union. Arts. 84 and 173 are also amended.

The Constitution (Seventeenth Amendment) Act amends Art. 31A by inserting an additional proviso after the existing proviso and the ninth schedule. Forty-four new Acts are added to the ninth schedule.

The Constitution (Eighteenth Amendment) Bill which would enable the linguistic reorganisation of the Punjab into a Punjabi-speaking State and a Hindi-speaking Haryana.

## LAWS OF 1964

**T**HE Indian Parliament placed on the Statute book altogether 55 Acts during the year 1964. It also passed the Constitution (Seventeenth) Amendment Act. The date mentioned against the Act indicates the date on which the corresponding Bill received the assent of the President.

1. The Appropriation (Railways) Act No. 1 of 1964 : 14th March 1964.

2. The Appropriation (vote on account) Act No. 2 of 1964 : 18th March 1964.

3. The Appropriation Act No. 3 of 1964 : 19th March 1964.

4. The Appropriation (Railways) No. 2 Act No. 4 of 1964 : 19th March 1964.

5. The Finance Act No. 5 of 1964 : 28th April 1964.

This Act gives effect to the financial proposals of the Government of India for the financial year 1964-65. The Act *inter alia* made certain categories of assesses liable to annuity deposit.

6. The Appropriation (No. 2) Act No. 6 of 1964 : 29th April 1964.

7. The Companies (Profits) Surtax Act No. 7 of 1964 : 2nd May 1964.

8. The Appropriation (No. 3) Act No. 8 of 1964 : 5th May 1964.

9. The Armed Forces (Special Powers) Continuance Act No. 9 of 1964 : 9th May 1964.

10. The Public Employment (Requirement as to Residence) Amendment Act No. 10 of 1964 : 9th May 1964.

This Act extends for a further period of five years domicile rules framed under section 3 in respect of the Telangana area of Andhra Pradesh or the Union Territories of Himachal Pradesh, Manipur or Tripura for appointment in subordinate services.

11. The Taxation Laws (Continuation and Validation of Recovery Proceedings) Act No. 11 of 1964 : 12th May 1964.

12. The Indian Railways (Amendment) Act No. 12 of 1964 : 12th May 1964.

13. The Drugs and Cosmetics (Amendment) Act No. 13 of 1964 : 12th May 1964.

The provisions of the Drugs and Cosmetics Act 1954 did not apply to medicines and substances exclusively used or prepared in accordance with the Ayurvedic or Unani system of medicine. This Act brings these drugs within the scope of the 1954 Act.

14. The Dakshina Bharat Hindi Prachar Sabha Act No. 14 of 1964 : 12th May 1964.

This Act declares the Dakshina Bharat Hindi Prachar Sabha to be an institution of national importance. It empowers the Sabha to grant degrees, diplomas and certificates for proficiency in Hindi.

15. The East Punjab Ayurvedic and Unani Practitioners (Delhi Amendment) Act No. 15 of 1964 : 12th May 1964.

16. The Goa, Daman and Diu Judicial Commissioners Court (Declaration as High Court) Act No. 16 of 1964 : 16th May 1964.

This Act declares the Judicial Commissioners Court for Goa, Daman and Diu to be a High Court for certain purposes.

It provides for appeals to the supreme court under the provisions of Articles 132 or 133 or 134.

17. The Indian Coinage (Amendment) Act No. 17 of 1964 : 16th May 1964.

18. The Industrial Development Bank of India Act No. 18 of 1964 : 16th May 1964.

This Act establishes a new institution known as the Industrial Development Bank of India. It is a wholly-owned subsidiary of the Reserve Bank of India. This Bank will be able to provide finance for industries.

19. The Oil and Natural Gas Commission (Amendment) Act No. 19 of 1964 : 16th May 1964.

This Act substitutes a new section in place of old section 24 and empowers the Commission to acquire land for the purpose of carrying out its function under the Act. It further lays down that such acquisition shall be deemed to be for public purpose.

20. The Durgaha Khawaja Saheb (Amendment) Act No. 20 of 1964 : 16th May 1964.

21. The Advocates (Amendment) Act No. 21 of 1964 : 16th May 1964.

22. The Appropriation (No. 4) Act No. 22 of 1964 : 10th June 1964.

23. The Delhi (Delegation of Powers) Act No. 23 of 1964 : 16th June 1964.

24. The Indian Medical Council (Amendment) Act No. 24 of 1964 : 16th June 1964.

25. The Coir Industries (Amendment) Act No. 25 of 1964 : 16th June 1964.

26. The Salaries and Allowances of Members of Parliament (Amendment) Act No. 26 of 1964 : 20th September 1964.

This Act raises the salary of the Members of Parliament to Rs. 500 per month and daily allowance to Rs. 31 per day. It also entitles them to two return air journeys during a session of two months duration and one return air journey for a session of lesser duration where the members have their places of residence beyond 750 Kilometers.

27. The High Court Judges (Conditions of Service) Amendment Act No. 27 of 1964 : 30th September 1964.

28. The Legal Tender (Inscribed Notes) Act No. 28 of 1964 : 30th September 1964.

29. The Appropriation (No. 5) Act No. 29 of 1964 : 3rd October 1964.

30. The Kerala State Legislature (Delegation of Powers) Act No. 30 of 1964 : 5th October 1964.

This Act confers on the President of India the power of the Legislature of the State of Kerala to make laws.

31. The Direct Taxes (Amendment) Act No. 31 of 1964 : 6th October 1964.

32. The Companies (Amendment) Act No. 32 of 1964 : 9th October 1964.

This Act inserts a new section 635 D in the Companies Act.

33. The Representation of the People (Amendment) Act No. 33 of 1964 : 9th October 1964.

34. The Wakf (Amendment) Act No. 34 of 1964 : 10th October 1964.

This Act amends the Wakfs Act of 1954 in order to ensure better management of wakfs by mutawallis.

35. The State Bank of India (Amendment) Act No. 35 of 1964 : 10th October 1964.

36. The Industrial Disputes (Amendment) Act No. 36 of 1964 : 9th December 1964.

37. The Food Corporations Act No. 37 of 1964 : 10th December 1964.

This Act provides for the establishment of Food Corporations for the purpose of trading in food grains and food stuffs.

38. The Indian Trade Unions (Amendment) Act No. 38 of 1964 : 10th December 1964.

39. The Appropriation (No. 6) Act No. 39 of 1964 : 17th December 1964.

40. The Anti-Corruption Laws (Amendment) Act No. 40 of 1964 : 18th December 1964.

This Act amends the Indian Penal Code, the Code of Criminal Procedure, the Criminal Law Amendment Ordinance 1944, the Delhi Special Police Establishment Act 1946, the Prevention of Corruption Act 1947 and the Criminal Law Amendment Act 1952 for certain purposes.

41. The Mineral Oils (Additional Duties of Excise and Customs) Amendment Act No. 41 of 1964 : 18th December 1964.

42. The Kerala Appropriation Act No. 42 of 1964 : 20th December 1964.

43. The Slum Areas (Improvement and Clearance) Amendment Act No. 43 of 1964 : 20th December 1964.

44. The Hindu Marriage (Amendment) Act No. 44 of 1964 : 20th December 1964.

This Act amends section 13 of the Hindu Marriage Act by substituting new clauses (VIII) and (IX) in place of the old clauses.

45. The Provisional Collection of Taxes (Amendment) Act No. 45 of 1964 : 22nd December 1964.

46. The Wealth-Tax (Amendment) Act No. 46 of 1964 : 22nd December 1964.

47. The Essential Commodities (Amendment) Act No. 47 of 1964 : 24th December 1964.

48. The Official Trustees (Amendment) Act No. 48 of 1964 : 25th December 1964.

49. The Prevention of Food Adulteration (Amendment) Act No. 49 of 1964 : 25th December 1964.

50. The Appropriation (Railways) No. 3 Act No. 50 of 1964 : 25th December 1964.

51. The Indian Tariff (Amendment) Act No. 51 of 1964 : 28th December 1964.

52. The Repealing and Amending Act No. 52 of 1964 : 29th December 1964.

53. The Payment of Wages (Amendment) Act No. 53 of 1964 : 30th December 1964.

54. The Standards of Weights and Measures (Amendment) Act No. 54 of 1964 : 30th December 1964.

55. The Foreign Exchange Regulation (Amendment) Act No. 55 of 1964 : 30th December 1964.

# CHURCHES IN INDIA

## CATHOLIC CHURCH

India is divided into Dioceses and Prefectures Apostolic, which are grouped in 17 Ecclesiastical Provinces or Archdioceses, as follows:—Archdiocese of: 1. Agra with the Dioceses of Ajmer-Jaipur, Allahabad, Jhansi, Lucknow, Meerut and the Prefecture Apostolic of Banaras and Gorakhpur; 2. Bangalore with the Dioceses of Bellary, Mangalore, Mysore, Chikmagalur; 3. Bombay with the Dioceses of Ahmedabad, Belgaum, Poona; 4. Calcutta with the Dioceses of Dibrugarh, Jalpaiguri, Krishnagar, Bhagalpur, Patna, Dumka, Darjeeling, Shillong, Tezpur and the Prefectures Apostolic of Haflong; 5. Changanacherry (Syro-Malabar) with the Dioceses of Kottayam and Palai; 6. Delhi with the Dioceses of Simla-Chandigarh and the Prefectures Apostolic of Jammu-Kashmir and Jullundur; 7. Ernakulam (Syro-Malabar) with the Dioceses of Kothamangalam, Tellicherry and Trichur; 8. Goa and Daman; 9. Hyderabad with Dioceses of Guntur, Nellore, Vijayawada, Visakhapatnam and Warangal; 10. Madras-Mylapore with the Dioceses of Coimbatore, Ootacamund and Vellore; 11. Madurai with the Dioceses of Kottar, Tiruchirappalli and Tuticorin; 12. Nagpur with the Diocese of Amravati and the Prefecture Apostolic of Raipur and the Oriental Ordinariate of Chanda; 13. Pondicherry and Cuddalore with the Dioceses of Kumbakonam, Salem, and Tanjore; 14. Ranchi with the Dioceses of Cuttack, Jamshedpur and Sambalpur; 15. Trivandrum (Syro-Malankara) with the Diocese of Tiruvalla; 16. Verapoly with the Dioceses of Alleppey, Calicut, Cochin, Quilon, Trivandrum (Latin) and Vijayapuram; 17. Bhopal, with the Dioceses of Indore, Jabalpur, Raigarh-Ambikapur.

In all there are 17 Archdioceses (Metropolitan Sees), 55 Dioceses (Suffragan Sees) and 5 Prefectures Apostolic. At the head of an Ecclesiastical Province or Archdiocese there is an Archbishop; at the head of a Diocese there is a Bishop; and at the head of a Prefecture Apostolic there is a Prefect Apostolic.

**The Apostolic Internuncio:** His Excellency The Most Rev. Dr. James R. Knox (Apostolic Internunciature, Chanakya Puri, New Delhi 21).

**The Cardinal:** His Eminence Valerian Gracias, D.D., M.Agg. (Archbishop's House, Bombay 1).

## PROTESTANT CHURCHES

Below are given particulars about Protestant churches in India which may be of interest.

**Places of Worship:** 28,533; **Ordained Ministers:** National: 6,885; Foreign: 1,033; **Laymen:** National: 24,636; Foreign: 363; **Women Foreign Workers:** 1,426; **Christian Colleges:** 46; **High Schools:** 314; **Industrial Schools:** 42; **Hospitals:** 258; **Leprosy Institutions:** 49; **Tuberculosis Sanatoria:** 12; **Homes for Blind Deaf, etc.:** 8; **Homes for Women:** 15; **Orphanages:** 85; **Social & Welfare Organisations:** 87.

### Assemblies of God

**Assemblies of God in Great Britain and Ireland in India:** 25, Third Street, Tatabad, Coimbatore.

**Australian Assemblies of God Mission:** Mission Bungalow, Khed, Taluka Khed, Poona Dist.

**South India Assemblies of God:** Bethel Bible School, Punalur P.O., Kerala.

### Baptist Churches

**Baptist Union of India, Pakistan, Burma and Ceylon:** The union functions as the representative of the affiliated churches and missions in relation to the National Christian Council, the Baptist World Alliance and in other ways that call for concerted voice and action.

**Address:** Ramapatnam, Nellore Dist., Andhra Pradesh.

**Council of Baptist Churches in Northern India:** 44, Acharya Jagadish Bose Road, P.O., Park Street, Calcutta-16.

**Baptist Union of North India:** Collier Memorial Hostel, Bankipore, Patna.

**Bengal Baptist Union:** 95-A, Elliott Road, Calcutta-16.

**South Mizo Presbytery, Assam (Zo Ram Baptist Church):** Baptist Mission, Lungbh, Mizo Dist., Assam.

**Utkal Christian Church Central Council:** Madhusudhan Road, Cuttack, Orissa.

**United Christian Missionary Society:** 336, Napier Town, Jabalpur, M.P.

**Samavesham of Telugu Baptist Churches:** C. A. M. Compound, Nellore, Nellore Dist., A.P.

**American Baptist Telugu Mission:** C.A.M. High School Compound, Nellore, A.P.

**Christian Service Society:** Balasore, Orissa.

**Council of Baptist Churches in Assam and in Manipur:** A. B. Mission, Gauhati, Assam.

**Garo Baptist Union:** Bagpara P.O., Bongalgaon, Goalpara Dist., Assam.

**Mid Missions:** Makunda, Hatikhira P.O., Cachar Dist., Assam.

**North Bank Baptist Association:** Biswanathghat, Darrang, Assam.

**Baptist General Conference of America:** Baptist Mission, Tezpur, Assam.

**Convention of the Baptist Churches of the Northern Circars:** McLarin High School, Kakinada P.O., E. Godavari, Andhra Pradesh.

**Canadian Baptist Mission:** Kakinada, Andhra Pradesh.

**Goalpara Boro Baptist Church Union:** Bengtol P.O., via Bongalgaon, Dist. Goalpara, Assam.

**North Goalpara Garo Baptist Union:** P.O. Bongalgaon, Dist. Goalpara, Assam.

**Australian Baptist Foreign Mission Inc.:** Bongalgaon, Goalpara Dist., Assam.

**Tripura Baptist Christian Union:** Arundhatinagar P.O., Agartala, Tripura.

**New Zealand Baptist Missionary Society:** Arundhatinagar, Agartala, Tripura.

**Central India Baptist Mission:** Ellichpur, P.O., Amravati.

**Freewill Baptist Mission:** Krishnaganj, Purnea Dist., Bihar.

**Strict Baptist Mission:** Morupatti, Mettupalayam, Tiruchirappally.

**Swedish Baptist Mission:** Padrauna, Deoria Dist., U.P.

**Christian & Missionary Alliance of India:** Akola, Maharashtra.

### Church of the Brethren

**First District Church of the Brethren:** Anklesvar, Broach District.

**Second District Church of the Brethren:** Ahwa, Dangs District.

**The Joint Council Church of the Brethren:** J. C. Office, Bulsar, Surat Dist.

**General Brotherhood Board, Church of the Brethren (U.S.A.):** Post Box 92, Bombay 1.

### Churches of Christ

**Conference of Churches of Christ in Western India:** P.O. Box 26, Baramati, Dt. Poona.

**Australian Churches of Christ Foreign Mission Board Inc.:** Shrigonda, Ahmednagar Dt.

**Convention of Churches of Christ:** Jabalpur P.O., M.P.

**Mandliyon Ki Pratinidhi Kamiti:** Nawa Bhandaria, Palamanu Dist., Bihar.

**United Christian Missionary Society:** B. D. 336, Napier Town, Jabalpur P.O., M.P.

**Churches of Christ in Great Britain and Ireland Missionary Committee:** Nawa Bhandaria, Palamanu District, Bihar.

**Kulpahar Church of Christ Mission:** Kulpahar, Hamirpur Dist., U.P.

## Churches of God

**American Churches of God Mission:** Ulubaria, Howrah District, W. Bengal.

**Church of God Mission (Orissa):** The Shelter, Cuttack, Orissa.

**Church of God in South India:** Grideepam, Chengannur, Kerala.

**Church of God, Autonomous Churches in Assam, W. Bengal and Orissa:** Goalapetty, Shillong, Assam.

**Church of God in India:** Mulakuzha, Chengannur, Kerala.

**Church of God:** P.B. 60, Coimbatore, Madras State.

**Open Bible Church of God:** Site No. 141, Tatabad, Coimbatore, Madras State.

## The Church of India, Pakistan, Burma & Ceylon

**Bishop's House,** 51, Chowringhee Road, Calcutta-16.

**Dioceses in India:** Assam (Bishop's Kutl, Shillong); Amritsar (Taylor Road, Amritsar, Punjab); Barrackpore (86, Middle Road, Barrackpore, W. Bengal); Bhagalpur (Bishop's House, P.O. Champnagar, Bhagalpur, Bihar); Bombay (S. John's House, Duxburylane, Colaba, Bombay 5); Calcutta (Bishop's House, 51, Chowringhee Road, Calcutta-16); Chota Nagpur (Bishop's Lodge, Ranchi 1, Bihar); Delhi (1, Church Lane, New Delhi); Lucknow (Bishop's House, 11, Mahatma Gandhi Road, Allahabad, U.P.); Nagpur (Cathedral House, Nagpur); Nasik (No. 1, Outram Road, Ahmednagar, Maharashtra); Nandyal (Bishop's House, Nandyal, Kurnool, Andhra Pradesh).

**Oxford Mission to Calcutta:** 111, Vivekananda Road, Calcutta-6.

**Cambridge Mission to Delhi:** 7, Court Lane, Delhi-6.

**Dublin University Mission to Chota Nagpur:** P.O. Box 5, Hazaribagh, Bihar.

**Old Church Chinese Mission & Old Church Hebrew Mission:** 11, Mission Row, Calcutta.

## The Church of South India

**The Synod Office, Cathedral, Madras-6.**

**Moderator and Bishop in Dornakal:** Most Rev. P. Solomon, B.D., Bishop's House, Dornakal, C. Rly.

**Dioceses:** Coimbatore (Diocesan Office, Coimbatore); Dornakal (Diocesan Office, Dornakal, Warangal Dist.); Jaffna (C.S.I. Araby, Vaddukoddai, Ceylon); Kanyakumari (C.S.I. Nagarcoil, Kanyakumari Dist.); Krishna and Godavari (Bishop's House, Eluru, W. Godavari Dist.); Madras (Diocesan Office, Cathedral P.O., Madras-6); Madurai and Ramnad (College Compound, Tallakulam, Madurai-2); Medak (Bishop's House, Medak, Andhra Pradesh); Mysore (2, Mission Road, Bangalore-2); Madhya Kerala (Bishop's House, Kottayam, Kerala); North Kerala (Diocesan Office, Shoranur, Kerala); Rayalseema (Cuddapah); Tiruchirappally-Tanjore (Diocesan Office, Puthur, Tiruchirappally); Tirunelveli (Palamcottah, Tirunelveli Dist.); South Kerala (Diocesan Office, Trivandrum 1, Kerala).

## Local Autonomous Churches

Throughout the country there are a large number of local churches, generally of a congregational order, which are fully autonomous.

This group consists of hundreds of local independent churches or assemblies on the simple N.T. pattern throughout India, having no common centralised set up but maintaining close fellowship with one another.

## Other Groups

Some of the other Independent Churches have been unified under two organisations:

(1) THE ALL INDIA FEDERATION OF NATIONAL CHURCHES. (2) THE FELLOWSHIP OF CHRIST IN INDIA—BHARAT CHRIST SANGH—in Northeast India.

### Lutheran Churches

**Federation of Evangelical Lutheran Churches in India:** is an expression of the spiritual unity of the Lutheran churches.

The Federation started in July 1953, a Theological College in Madras. This institution is named as *The Gurukul Lutheran Theological College and Research Institute*. It is established at Gurukul, Madras 10.

**Andhra Evangelical Lutheran Church:** Guntur, Andhra Pradesh.

**United Lutheran Church Mission:** Rajahmundry, Andhra Pradesh.

**Arcot Lutheran Church:** Tiruvannamalai, North Arcot Dist., Madras State.

**Northern Evangelical Lutheran Church:** Benagaria P.O., Santal Parganas, Bihar.

**Santal Mission of the Northern Churches:** Dumka P.O., Santal Parganas, Bihar.

**Evangelical Lutheran Church in Madhya Pradesh:** Saugor, M.P.

**Evangelical National Missionary Society of Stockholm:** Chindwara, M.P.

**Gossner Evangelical Lutheran Church:** Ranchi, Bihar.

**India Evangelical Lutheran Church:** Ambur, North Arcot Dist., Madras State.

**Jeypore Evangelical Lutheran Church:** Jeypore, Koraput Dist., Orissa.

**South Andhra Lutheran Church:** Nayudupet, Nellore Dist.

**American Lutheran Conference:** Pilar Chittoor Dt., Andhra Pradesh.

**Tamil Evangelical Lutheran Church:** Tranqualliar House, Tiruchirapalli 1.

**Church of Sweden Mission:** Margaret Cottage, Raja Street, Coimbatore 1.

### Elim Churches

**Elim Churches of India:** Dudhi, Mirzapur Dist., U.P.

**Elim Church (New Zealand):** Karmala P.O., Sholapur Dist.

**The Evangelical Alliance Mission:** Parola, Jalgaon.

### Mennonite Churches

**Mennonite Church in India:** Dhamtari P.O., Raipur District, M.P.

**Telugu Mennonite Brethren Convention and American Mennonite Brethren Mission:** Shamshabad, Hyderabad Dist., Andhra.

**Mennonite Brethren Churches of North America:** Medical Centre, Jadcherla, Andhra Pradesh.

**General Conference Mennonite Church:** Jagdeeshpur P.O., via Mahasamund, Raipur Dist., M.P.

**Danish Missionary Society:** Gunupur, Koraput Dist., Orissa.

### The Methodist Church

**The Methodist Church of North India:** P.O. Garh-Raipur, Bankura Dist., W. Bengal.

**Methodist Missionary Society:** Wesley House, 62, The Causeway, Bombay-1.

**Methodist Overseas Mission:** Azamgarh, U.P.

**The Methodist Church in Southern Asia:** Robinson Memorial, Sankli Street, Byculla, Bombay; Inter Mission Business Office, P.O. 92, Bombay-1.

**Wesleyan Methodist Church, India Conference:** Pardi, Surat Dist.

**Wesleyan Methodist Church of America Missionary Society:** Pardi, Surat Dist.

**Free Methodist Church of North America, General Missionary Board:** Garden Bungalow, Yeotmal.

### Pentecostal Churches

**Ceylon Pentecostal Mission:** 48, Main Road, Royapuram, Madras.

**India Christian Assemblies (Finnish Pentecostal Mission):** Chhllakalapudi, Krishna Dist.

**Indian Pentecostal Church of God:** The Indian Pentecostal Church of God is a group of indigenous independent churches established since 1924 in several parts of India and having fellowship with one another.

**Address:** Faith Home, Vijayawada 2, Andhra. **Maisihi Mandli (Autonomous and Indigenous Church):** Dehra Dun, U.P.

**Pentecostal Holiness Church:** Madhupur, Santal Parganas, Bihar.

**Swedish Free Mission:** 25, New Cantt. Road, Dehra Dun, U.P.

**United Pentecostal Church:** Box 347, Kanpur, U.P.

### The Presbyterian Church

**Commission on Ecumenical Mission and Relations of the United Presbyterian Church in the U.S.A.:** "Lowrison", 51, Rajpur Road, Dehra Dun, U.P. & C.O. Inter Mission Business Office, P.O. 92, Bombay 1.

**Bible Presbyterian Church of India:** Box 347, Kanpur, U.P.

**Independent Board for Presbyterian Mission:** Box 347, Kanpur, U.P.

**Canadian Presbyterian Mission:** Amkhut, via Dohad, M.P.

**Reformed Presbyterian Mission:** Roorkee, U.P.

**Presbyterian Church of Ireland Foreign Mission:** I. P. Mission, Parantij, Sabarkantha Dist.

**Presbyterian Church of Wales Foreign Mission:** Theological College, Cherrapunji, Assam.

**Church of Moravian Brethren:** Leh-Ladakh, Kashmir.

**Presbyterian Church of New Zealand Mission:** Committee, U.N.C.I. Compound, Ferozepur Cantt., Punjab.

### Seventh Day Adventist Church

(Salisbury Park, Poona).

See under 'Christian Missions' for detailed note.

### Syrian and Armenian Churches

**The Apostolic Holy Church of Armenia:** The church of the first nation to become Christian. Efforts to evangelise date from A.D. 34 (Thaddeus and Bartholomew). The *See of Edgmatzen* (near Eravan) dates from A.D. 300. In Calcutta the oldest church belongs to the Armenians—The *Holi Church of Nazareth* (1704); there are a college and Girls' High School also. Other churches in India are in Bombay, Surat, Saldabad, Madras, Chinsurah and Agra.

**Apostolic Legation of the Holy See of Antioch in Malabar:** Omallur, Kaipattur P.O., Kerala.

**Chaldean Syrian Church:** Church of the East, Trichur, Kerala State.

**Mar Thoma Syrian Church:** Sabha Office, P.O. Thiruvalla, Kerala State.

**Mar Thoma Syrian Christian Evangelic Association of Malabar:** Thiruvalla, Kerala.

**The Orthodox Syrian Church of Malabar:** Kottayam, Kerala State.

**Malabar Independent Syrian Church:** Thoshiyoor, Kottapadi, S. Malabar, Kerala State.

**Malankara Syrian Knanaya Diocese:** Mar Ephraim Seminary, Chingavanam P.O., Kerala.

### United Basel Mission Church

**Address:** Balmatta, Mangalore-1.

### The United Church of Northern India

**Head Quarters:** 41, Red Cross Road, Civil Lines, Nagpur-1.

The United Church of Northern India was organised in 1924 from the union of the Presbyterian Church and the Congregational Church in Northern India.

**Moderator:**—The Rt. Rev. Dr. Gurbachan Singh, Gass Memorial Centre, Raipur (Madhya Pradesh).

**Vice-Moderator:**—The Rev. P. S. Bhonsale, "Hillcrest", Satara (Maharashtra).

**Executive Secretary:**—The Rev. R. S. Bhandare, 41, Red Cross Road, Civil Lines, Nagpur-1. "Hillcrest", Satara (Maharashtra).

## PORTS

**THIRD** Plan allotment for major and minor ports were Rs. 75 crores and Rs. 6.5 crores respectively.

There are eight major ports in India, 21 intermediate ports and 144 working minor ports. Mangalore and Tuticorin are being developed as major ports.

Technically a major port is one which is capable of taking in ocean-going steamers with a registered tonnage of 4,000 or more and berth them along wharves.

The eight major ports are Bombay, Calcutta, Cochin, Kandla, Madras, Marmugao, Paradip and Visakhapatnam.

State-wise distribution of intermediate ports and the number of minor ports respectively are:

**MYSOOR:** Karwar and Mangalore and 10 minor ports.

**MADRAS:** Cuddalore, Nagapattinam and Tuticorin and seven minor ports.

**MAHARASHTRA:** Ratnagiri and Redi, and 47 minor ports.

**GUJARAT:** Okha, Porbander, Bhavnagar, Navlakhi, Bedi, Veraval, Broach, Mandvi, Sikka and Surat, and 40 minor ports.

**Kerala:** Alleppey and Kozhikode, and nine minor ports.

**ORISSA:** There is one minor port.

**ANDHRA PRADESH:** Masulipatam and Kaklana, and five minor ports.

**PONDICHERRY:** There is one minor port of Pondicherry only.

**ANDAMAN & NICOBAR ISLANDS:** There are 15 minor ports.

All the major ports with the exception of Paradip are administered by Port Trusts, which are statutory bodies. The Port of Paradip is administered by the Ministry of Transport and Aviation, Government of India.

The intermediate and minor ports are administered by State Governments.

**The National Harbour Board:** The Board which was set up in 1950 to advise the Central Government on matters of general policy relating to port management and development including their effects on industry, commerce, shipping, railways etc. so as to ensure integrated consideration of all important port matters, has been meeting once in every year.

## FIVE-YEAR PLANS

The capacity achieved at the end of the Second Plan was about 38 million tons as detailed below (in million tons):

Calcutta 12.16; Bombay 14.50; Madras 3.20; Cochin 3.25; Visakhapatnam 3.50; Kandla 1.60. The capacity of major ports including Paradip at the end of the Third Plan period has been estimated to be 60 m. tonnes.

The overall cost of the physical programme relating to major ports included in the Third Five Year Plan was about Rs. 175 crores including Rs. 30 crores for the development of a satellite dock system to Calcutta at Haldia, Rs. 14 crores for the development of Tuticorin into a major port and Rs. 15 crores for the development of Mangalore into a major port. But the financial ceiling for expenditure to be incurred during the Third Five Year Plan was Rs. 75 crores.

During 1964-65 the seven major ports had between themselves handled a total traffic of 48.4 m. tonnes. It is expected that at the end of the Fourth Plan the capacity of the major ports will be about 80 m. tonnes.

The schemes relating to major ports are making satisfactory progress.

(i) **Calcutta Port:** The work relating to the development of "B" Berth, K. G. Dock into a general Cargo Berth and conversion of "C" Berth into an Oil Berth has been completed. All the twelve berths in Dock No. 1, Kidderpore Docks, have been reconditioned. Two floating cranes, one of 30-ton and the other of 60-ton, have been acquired. A new bucket dredger "Ajoy" and a new suction dredger "Churni" have been commissioned. The reconditioning of the existing dredger "Gunga" has been completed. One Estuarine Dredger "Mohana" has been acquired. The building of a new tea warehouse has been completed. Two new pilot vessels, one grab dredger and two additional copper barges have also been delivered.

Considerable progress has been made in the detailed planning of the various facilities to be provided at the new docks at Haldia.

(ii) **Bombay Port:** The work relating to dock expansion scheme is in progress.

**Cruiser-Dock:** One of the most modern docks of its type and size in the East, this dry-dock is the first major project of the Naval Dockyard Expansion Scheme to be brought into use.

The Pir Pau oil jetty in Bombay is being modernised at a cost of Rs. 23 lakhs to help the movement of products from the Trombay oil refineries to storage installation at Sewri. The scheme is part of the Rs. 10 crore project to develop the oil terminal at Butcher Island.

(iii) **Madras Port:** The sixth-berth wet dock known as "Jawahar Dock" has been commissioned. A scheme for the installation of a new plant for mechanical handling of iron ore costing about Rs. 3.60 crores is under active consideration. The work relating to the preparation of detailed designs has been entrusted to an Indian firm.

(iv) **Visakhapatnam Port:** The programme for Visakhapatnam port provides for the completion of four additional berths, a lighterage wharf and the installation of an iron ore handling plant at the ore berths. The scheme estimated to cost Rs. 7 crores is in progress. The two ore berths have been commissioned. A mechanical iron ore handling plant has been installed.

(v) **Cochin Port:** All the 4 berths constructed at Ernakulam channel have been put into commission. The construction of a new oil jetty is in progress. A floating crane has been acquired. A fire float has been ordered for.

(vi) **Kandla Port:** The fifth cargo berth has been completed. The work relating to the sixth berth has been postponed for the present. A new dredger has been acquired.

(vii) **Mangalore and Tuticorin Ports:** Work relating to the development of these ports into major ports is making satisfactory progress.

(viii) **Haldia Port:** The preliminaries relating to the setting up of a satellite port at Haldia have been completed. The final project report is being drawn up.

(ix) **Mormugao Port:** A comprehensive project for expansion of facilities at Mormugao Port to handle iron-ore in bulk is under active consideration. Meanwhile, a dredger has been acquired.

(x) **Paradip Port:** The work relating to Paradip Port has been taken over by the Central Government from the Orissa State with effect from June 1, 1965. The Project is estimated to cost Rs. 20 crores. The harbour, which was inaugurated on 12th March, 1966, can accommodate 60,000-ton ships.

**Minor Ports:** A provision of Rs. 6.5 crores against the physical programme of Rs. 11.09 crores had been made for the development of minor ports in the Third Plan.

## LIGHTHOUSES

Lighthouses are divided into general and local according to the utility of a particular lighthouse to navigation. The superintendence and management of general lighthouses are vested in the Union Government while local lighthouses are managed by the local lighthouse authorities such as State Governments, Port Trusts, etc.

The Department of Lighthouses & Lightships is a self-supporting Department; its revenues being derived from the light dues levied on shipping under the provisions of the Indian Lighthouse Act, 1927.

A statutory body—the Central Advisory Committee for Lighthouses, appointed under the Indian Lighthouses Act, advises the Union Government on matters connected with the erection, additions, alterations, improvements, etc. of lighthouses.

There are 269 lighthouses, 8 lightvessels, 156 lightbuoys, 236 unlighted buoys, 233 beacons, 7 fog signals, 5 M. F. radio beacons, 2 harbour radars, 2 Decca navigator chain, 299 land marks; 716 other marks, making a total of 1,936 aids to navigation strewn over the coastline of approximately 4,340 miles including Andaman, Nicobar, Laccadive and Minicoy Islands.

**Fourth Five Year Plan:** The Planning Commission has tentatively allocated a sum of Rs. 6 crores for the development of aids to navigation during the 4th Plan Period. This includes also the expenditure on 3rd Plan carry-over Schemes. The new items included in the IVth plan comprise the construction of 45 new lighthouse towers and their ancillary buildings; purchase and installation of 45 optical equipments; establishment of one Decca Navigator Chain, two Radio Beacons, Four V.H.F. sets, a Fog Signal, a buoy, a buoy tender and a factory for manufacturing the equipment; provision of radar reflectors; and construction of workshop-cum-office building at Madras, office building at Jamnagar, residential and office accommodation at Port Blair, Buoy Yard at Port Blair, etc.

**Programme For The Year 1966-67.** (a) Establishment of new powerful lights at Savai Bet, Minicoy, Gopalpur, Chandrabagha, Landfall Island, Sir Hugh Rose Island, Androth Island, Kiltan, Diu Head, False Devi Point, Mangalore, Pudimadaka, Trivandrum, Cape Comorin, Narasapur, Perseverance Point, Manner's Strait, Car Nicobar and Darlapur; (b) Fog signal at Okha; (c) Improvement of Nagapattam, Tapti, Vengurla point and Piram Island Lighthouses; (d) Provision of lightvessels for Lushington Shoal and Perigee Rocks; (e) Provision of buoys at Goose and Siri Reefs (Lighted), Lushington Shoal and Wreck Marking Buoys for S. & K., Calcutta, Madras Lighthouse District; (f) Purchase of Motor Launches for Andaman and Car Nicobar Islands; and for Piram Island and a sailing craft for Navinal; (g) Purchase of V.H.F. sets for Sangor, False Point, Khanderi and Diu Head Lighthouses.

**Progress of Work During The Year 1965-66.** Capital and development works which were started in the previous years have been progressing satisfactorily.

The following major works have been completed: (1) Construction of a lighthouse tower, etc. at Coondapur; (2) Construction of foundations, etc. for the lighthouse tower at Landfall Island; (3) Construction of a tower, etc. at Tapti; (4) Construction of compound wall at Pulicat lighthouse; (5) Laying of buoys in the Mormugao Harbour and installation of lighting equipment on them; (6) Laying of deep sea tail fairway buoy and installation of lighting equipment on it at Sikka; (7) Laying of a Deep sea tail buoy at Gurur Shoal; (8) Installation of optical and fog signal equipments at Veraval lighthouse; (9) Installation of optical and fog signal equipments at Rajapur Bay Lighthouse; (10) Installation of optical equipment at Coondapur lighthouse; (11) Installation of optical equipment on the Mundra Port Beacon; (12) Installation of optical and fog signal equipments at Mithivirdi Lighthouse; (13) Installation of optical equipment on board Lushington Shoal Lightvessel; (14) Replacement of optical equipment on board Perigee lightvessel; (15) Manufacture of 7 nos. BTB-15 sets and 6 nos. 140 m/m equipment by the lighthouse workshops, Madras.

The following aids have been commissioned into service during the year 1965-66: (1) New light at Jakhu; (2) New light and fog signal at Rajapur Bay; (3) New light and fog signal at Navinal; (4) New main and auxiliary lights at Ratnagiri; (5) Fairway light buoy at Sikka; (6) New light at Mithivirdi; (7) New light at Coondapur; (8) New light at Mundra new port.

**Other Important Works in Progress.** (1) Construction of lighthouses at Cavalerio (Diu), False Devi Point, Trivandrum, Narasapur, Kiltan, Darlapur, Chandrabagha, Gopalpur, Nagapattam, Cape Comorin, Diu Head, Piram Island, etc.; (2) Installation of optical and Fog Signal equipment at Savai Bet, Radio Beacon at Vengurla Point, and optical equipment at Tapti.

**Lighthouse Tending Service M.V. 'Sagar-deep.'** The Lighthouse tender M.V. 'Sagar-deep' attended to the following works during 1965-66. (a) Recovery of Ranwara Shoal buoy; (b) Laying of deep sea tail buoy at Sikka; (c) Laying of deep sea tail buoy at Gurur Shoal; (d) Tending of the Veraval buoy; (e) Transporting the new Lushington Shoal lightvessel from Bombay to Bedi Port; (f) Transporting the moorings from Goa to Port Blair and laying the same there. (g) Search for the Meteorological Department's floating weather station (NOMAD) in the Bay of Bengal.

**Navigational aids in the Minor Ports of Mysore State:** At the instance of the Mysore State Government, the Central Lighthouse Department has undertaken the work of providing additional navigational aids at the ports of Karwar, Bhatkal, Malpe, Honavar, Belkeri and Coondapur. The civil engineering works are in progress and the lighting equipment therefore have been ordered from abroad.

**Lighthouse workshops:** The Lighthouse Workshops at Bombay, Madras, Calcutta, and Jamnagar continued to attend to the defects and repair works at various lighthouses. Besides carrying out the schedule of maintenance works, the Madras Lighthouse Workshop has completed manufacture of 6 nos 140 m/m equipments and 7 nos. IBTB-15 sets for the Ganga-Brahmaputra Water Transport Board, and also flashers required for the Androth Island Lighthouse.

**Optical Laboratory:** In addition to the research work on the various problems connected with lighthouse engineering, the equipments manufactured in the departmental workshops are being checked in the laboratory for their optical as well as other performances. Research on the atmospheric transmission factor for the various stations on the coastline is also in progress.

**Training centre:** A course of training for Assistant Lightkeepers was commenced in December 1965 at the Training Centre, Calcutta.

**Laying of Buoys in the Mormugao Harbour:** Four lightbuoys have been laid in the Mormugao Port to facilitate night navigation in the port.

\* This excludes a sum of Rs. 69,77,734

**Bombay:** The Port of Bombay has three wet docks—Prince's Dock, Victoria Dock and Alexandra Dock, and two dry docks, Merewether Dock and Hughes Dock. Trans-oceanic passenger traffic is mostly dealt with at the Ballard Pier. Coastal and Harbour Passenger traffic is dealt with at the Ferry Wharf. There are along the harbour front a number of bunders or open wharves and basins where the traffic carried by sailing vessels is handled.

There is now a Marine Oil Terminal at Butcher Island within the Bombay Harbour for the speedy discharge and loading of oil.

The Port maintains its own railway system.

The dock expansion scheme of the Bombay Port Trust provides for four new deep berths in the Alexandra dock basin and three medium-deep berths among the harbour wall.

The scheme, estimated to cost Rs. 13.25 crores, is expected to be completed in about four years time and will result in an addition of 1.5 to 2 million tonnes to the existing dock capacity.

The Bombay Port Trust has also undertaken another scheme to extend the Ballard Pier southwards by 750 feet to provide a second passenger berth at the mole station, equipped with modern passenger terminal buildings.

**Chairman:** L. M. Nadkarni, I.C.S.; **General Manager:** P. R. Subramanian; **Secretary:** S. D. Chittar.

**Calcutta:** There are two docks Kidderpore Docks and King George's Docks. There are five dry docks two in King George's Docks and three in Kidderpore Docks.

There are nine jetties with a total length of 4,735 feet of which only five namely Nos. 2, 3, 7, 8 and 9 are available for ocean-going steamers.

Anchorage are available at Saugor Roads, Haldia, Kalpi, Diamond Harbour, Royapur, Ulubaria, Buj Buj and Garden Reach of which Royapur, Ulubaria, Buj Buj and Garden Reach are available only for deep laden vessels outward bound or in emergency. The other anchorages are used by ships on passage to and from the Port.

There are petroleum wharves at Budge Budge about 14 miles below the entrances to the docks.

There are two tea warehouses, a grain and seeds depot at Kantapur, two sheds at Jhinjerapuri, A and B sheds at Kidderpore, the Fairlie, Clive, Canning and Strand Warehouses situated close to the Calcutta jetties.

Kidderpore Dock No. 2 has six coaling berths and there is one at Garden Reach Jetty.

The port can handle a sea-borne traffic of nearly 11 million tonnes a year without congestion or delay.

The chief exports from Calcutta are coal, tea, sugar, gunnies, bone and bone-meal, bunker oil, iron and steel manufactures, lac, scrap, ores and mica. The principal imports are salt, food-grains and flour, sulphur, tinplate, machinery, petroleum, iron and steel, metals other than iron and steel, lubricating oil, cement, soda, timber,

fertilisers, bricks, chemicals, oils, railway material.

Facilities exist for lightening food ships and topping up outward bound ships by using barges at Haldia Anchorage which is about 56½ miles downstream, during the fair weather season—November to February.

Communication between the various points in the Docks and jetties is maintained by the Commissioner's Railway.

The Port is administered by a Port Commission with jurisdiction under the Calcutta Port Act from Budge Budge to Konnagar.

**Chairman:** B. B. Ghosh; **Dy. Chairman:** S. K. Ghosh; **Secretary:** T. R. Raghupathi.

**Cochin:** The Port of Cochin is open for deep water traffic in the worst monsoons and provides a splendid anchorage at all times of the year. Any ship drawing upto 30 ft. draft can enter the port even in the roughest weather.

The Cochin Harbour Railway is connected with the Broad Gauge and Metre Gauge systems of the Southern Railway. Inside the Harbour there are 12 stream berths, 2 coal berths, 8 wharf berths, 1 Boat Train Pier Jetty with facilities for discharging and loading bunker oil and two tanker berths. One of the twelve stream berths is a swinging berth capable of accommodating vessels upto 565 ft. overall in length and 28 ft. draft. The tanker berths in the Ernakulam Channel provide facilities to discharge oil direct to the shore installations. The length of each of the wharves is 2,000 ft. and vessels of the above length can be accommodated at some of the berths.

The number of vessels excluding sailing vessels, which entered the port during 1963-64 was 1,356 with a tonnage of 46.50 lakhs against 1,330 vessels with a tonnage of 44.80 lakhs the previous year. Sailing vessels, which visited the port, numbered 113 with a tonnage of 13,000 against 131 with a tonnage of about 16,000 the previous year.

The principal imports are foodgrains, mineral oils, coal, cashewnuts, hardware, chemicals and manure. The principal exports are coir and coir products, tea, rubber, cashew kernels, coconuts, spices and ores.

**Chairman:** K. P. K. Menon, I.A.S.

**Kandla:** The major port of Kandla now has the following main facilities:—

A Cargo Jetty with (a) 2,700 ft. of quayage and designed depth of 32 ft. of water alongside at L.W.O.S.T. to accommodate four large size ships or five liberty type ocean-going vessels; (b) Three single storeyed transit sheds, each 450 ft. long and 140 ft. wide, having a floor area of 63,000 sq. ft. each and with a total storage capacity of about 15,000 tons of cargo; (c) Board Wharves served with three dual gauge (BG & MG) railway lines and roads; (d) 21 electric quay cranes, the most modern type, of 3 tons, 6 tons and 10 tons capacities with 80 ft. each; (e) Spacious open stacking grounds served with railway and road sidings; (f) Four double storeyed Warehouses, each with a floor area of

1,16,678 sq. ft. and storage capacity of 15,000 tons, with overbridge connections to the roofs of the transit sheds, and provided with modern cargo lifts, chutes and loading platforms; (g) 'Grinnell' automatic sprinkler and fire alarm system has been provided in one warehouse as a measure for protection against fire, for the storage of cotton cargo in the warehouse; (h) The construction of an additional 1,125 ft. of quay, designed for a depth of 32 ft. of water at L.W.O.S.T. has been completed except for the work of dredging alongside. This additional quay will be put into operation after the requisite dredging alongside has been done.

Three circular steel tanks of a total capacity of 650 tons for the storage of vegetable oils.

Fumigation arrangements for cotton to handle 1,000 bales per day.

Six Mooring Buoy berths consisting of 3 general cargo, one salt, one explosive and (one deep draft, mooring for vessels upto 36 ft. draft) for vessels to load or discharge cargo in stream by lighters.

An oil berth capable of taking oil tankers upto 16,000 tons dead weight, with two pipe lines of 16" and 12" diameters and a Booster Pumping Station connected with the oil installations situated 7 miles away.

A tidal basin 500' x 300' for lighters and sailing vessels provided with two transit sheds having 30,000 sq. ft. total floor area, stacking platforms, 4 quay cranes—two of three tonnes and one each of six and ten tonnes and a gantry crane of 60 tons capacity for handling heavy lifts. The Bunder is well served with railway tracks and roads.

A fishing jetty for fishing crafts and trawlers with a crane is ready.

DK-168 type Vac-u-vators for discharge of food-grains in bulk.

A floating dry dock capable of taking vessels upto 200 ft. length and 30 ft. wide for carrying out repairs.

The port is equipped with the latest version of a harbour radar having a range of 20 miles with V. H. F. radio telephones and a coastal wireless station with about 500 miles range.

A steam driven, twin screw stern well and side suction, pipe trailing cutter, suction, hopper dredger for the maintenance dredging in the harbour and approaches.

One fire float in addition to the shore fire fighting facilities has been added to the fleet of vessels maintained by the Kandla Port.

Three steam driven twin screw 900-1,000 N.P. shipping tugs for assisting ships in berthing and unberthing.

Two Harbour Towing Tugs, a fleet of cargo barges and launches for efficient working of Port.

Two most modern passenger jetties for ferry services.

Separate sheds for dangerous and inflammable goods are provided 700 ft. away from the warehouses.

A large stacking area covering 15½ acres for stacking the iron ore and served by Railway sidings and roads.

The port is connected to its hinterland at present by means of metre gauge, *via* Deesa-Palanpur and broad gauge rail link to Ahmedabad is under construction.

The construction of the National Highway connecting Kandla to Ahmedabad is in progress.

A Free Trade Zone has been established at Kandla.

The chief imports are mineral oil, foodgrains, maize, chemicals, fertilizers and machinery whereas the principal items of export are iron ore, zinc concentrate, iron scrap, salt, ethyl alcohol, cotton, sugarbones and bone meals.

The Port has handled 2.5 million tonnes of cargo during 1965-66. It is expected to handle 3 million tonnes of cargo per annum when fifth berth and third pipeline are commissioned and broad gauge line is ready.

279 ships and tankers have called during 1965-66.

*Chairman* : N. C. Patel.

*Secretary* : Dr. R. P. Bhargava.

**Madras** : There is accommodation for 21 vessels inside the harbour, 3 at Moorings and 18 at Quays besides the Petrol Berth at which dangerous petroleum is discharged. The depth at moorings and quay berths ranges from 7.9 metres to 9.6 metres.

The chief imports are coal, foodgrains, mineral oils, metals, timber, textiles, machinery, hardware, paper including old newspapers, dyeing and tanning substances, chemical manures, asphalt, chemicals, cotton, etc.

Ores, piecegoods, hides and skins (raw and tanned), onions, raw tobacco, twist and yarn, mica, etc. form the principal exports.

Three oil tanks have been erected for storage of vegetable oil in bulk and three other tanks for the storage of molasses in bulk have also been installed by private shipping companies at their cost.

The affairs of the Port are administered by a Board of Trustees.

*Chairman* : T. K. Palaniappan, I.A.S.

*Secretary* : T. K. Parameswaran Namblar, B.A.

**Vishakapatnam** : Ships drawing upto 33 ft. and having a length of up to 635 ft. can enter the harbour at all times of the year.

The harbour now provides the following facilities :

The inner harbour consists of a turning basin, four quay berths of a total length of 2,300 feet long and equipped with portal electric cranes, transit sheds, and railway lines, both behind and on the quay-side of the transit sheds and three concrete jetty and wharf berths for coal and oil. Besides, there are six mooring berths which are served by a fleet of lighters owned and operated by the port authorities and shallow water channels with timber jetties for lightering work. The quay berths No. 1 and 2 are specially equipped and reserved for the expeditious handling of manganese and iron ore, ferro-manganese and pig iron : on an average, approximately 3,000 tons are loaded in a day.

A 1,200 ft. long quay berth, capable of accommodating two oil tankers simultaneously has been constructed to provide the necessary Port and Harbour facilities for the Caltex Oil Refinery at Vishakapatnam which is in full operation.

On the west of the Northern Arm, two deep drafted berths have been newly constructed for the ore carriers. Though they are constructed for berthing of 50,000-ton ships (750 ft. long and 30 ft. draft) at present, ships of 635 ft. length and 33 ft. draft can be accommodated here. A mechanical iron ore handling plant has been installed on the berths capable of loading 2,666 tons of iron ore per hour for export.

A Dry Dock 450 ft. long and 60.5 ft. wide with a depth of 18½ ft. below low water has been in use at the Port for the docking of vessels.

The Port has floating cranes capable of dealing with heavy lifts up to 60-ton capacity.

The Port Trust is administered by a Chairman appointed by the Government of India.

*Chairman*—C. B. Reddy. *Secretary*—T. S. Narasimhan.

\* The receipts and expenditure is the tentative aggregate total of Mangalore Port Fund and Mangalore Port Trust Fund.

## LABOUR

THE general position in 1962-63 was as follows :—

Total Labour Force (1961 census): 18,84,10,000.  
Estimated increase during the Third Plan 17 million.

No. employed in factories coming under the Factories Act of 1948 .. .. 43,62,000

No. of trade unions on register .. 11,679

No. of trade unions which submitted returns of membership .. .. 7,147

No. of members of trade unions submitting returns .. .. 3,565,000

The Central co-ordinating authority in India for questions connected with labour legislation is the Ministry of Labour and Employment of the Government of India with the Labour Minister in charge. The administration of matters, connected with the English and Indian Merchant Shipping Acts, the Mercantile Marine Department and Indian Seamen is with the Ministry of Transport. In respect of all the Railways, the Labour Minister is responsible for the administration of the Payment of Wages Act, 1936, trade disputes, hours of work for employees not covered by the Factories Act and regulation of employment of children. He is also responsible for regulation of labour and safety in respect of mines and oilfields; trade disputes in industries, businesses or undertakings carried on by the Central Government, and inter-State migration.

Among the more important Acts that govern labour conditions and relations in India are the following: 1. Indian Factories Act, 1948; 2. Indian Mines Act; 3. Payment of Wages Act; 4. Minimum Wages Act; 5. Workmen's Compensation Act; 6. Maternity Benefit Act (States); 7. Indian Trades Union Act; 8. Industrial Disputes Act; 9. Industrial Disputes (Appellate Tribunal) Act; 10. Tea Districts Emigrant Labour Act; 11. Shop Assistants Act (States); 12. Employees' State Insurance Act; 13. Collection of Statistics Act; 14. Employees Provident Funds Act.

## FACTORIES ACT, 1948

The Act covers all industrial establishments employing 10 or more workers and using power and establishments employing 20 or more workers and not using power. The State Governments have been empowered to apply the provisions of the Act to any premises, irrespective of the number of persons employed, where a manufacturing process is carried on with or without the aid of power, except where the work

is done by the worker solely with the aid of his family.

The Act stipulates certain conditions as regards the safety measures, working hours—both for children and adults, both men and women—health conditions, age, overtime, leave etc.

The Act was amended in 1954. Under this amendment eligibility of leave, over-time payment, night-duty in newspaper printing press etc. have been specified.

(More details have been given in the previous edition of the Directory).

## FACTORY STATISTICS

Under the provisions of the Factories Act, 1948, registered factories submit annual and half yearly returns on employment to the Chief Inspectors of Factories in the various States. All-India figures are compiled by the Labour Bureau and are published in the *Indian Labour Journal*.

The number of factories on registers in the areas covered by the States during the first half of 1963 and 1964 were 54,678 and 57,739 respectively.

The following table sets out the statistics of the average daily numbers of persons employed in factories during the half year ending 30th June 1964.

## State-wise Figures

The following para. shows the average daily employment in factories in the first half of 1964 by State :—

Andhra Pradesh 2,50,444; Assam 68,874; Bihar 2,18,446; Gujarat 4,08,136; Kerala 1,77,122; Madhya Pradesh 1,94,903; Madras 3,59,018; Maharashtra 9,21,297; Mysore 2,34,405; Orissa 41,610; Punjab 1,61,666; Rajasthan 73,131; Uttar Pradesh 3,89,540; West Bengal 8,65,952; Andaman & Nicobar Islands 2,212; Delhi 84,155; Himachal Pradesh 2,223; Manipur 652; Tripura 1,392; Total 44,55,178.

## MINES ACT

With a view to amending and consolidating the law relating to the regulation of labour and safety in mines, the Mines Act, 1952 was brought into force from July 1952. The Act extends to the whole of India except Jammu and Kashmir. The Mines Amendment Act, 1959, came into force from Dec. 16, 1960. The important features of the Amendment Act are given in the previous editions of the Directory.

## MINING STATISTICS

The average daily number of workers employed in mines in 1939, 1951, 1952, 1953, 1954, 1955, 1956, 1957, 1958, 1962, 1963 and 1964 was 698,069 and 686,761 respectively. A break-up of the figures for 1963 and 1964 is given below :—

## EMPLOYMENT IN MINES BY STATE 1963 AND 1964

| States              | Belowground Males |         | Opencast workings |         |         |         | Aboveground |         |         |         | Total   |         |
|---------------------|-------------------|---------|-------------------|---------|---------|---------|-------------|---------|---------|---------|---------|---------|

\* Figures for 1963 have been revised.

**Collieries:** During the month of Jan. 1965 the number of collieries working was 827 and the workers employed in them were 4,20,316. The average cash earnings of the workers per week for the whole of India was Rs. 28.95 and the number of working hours was 48.

## DOCK WORKERS' ACT

The Dock Workers' (Regulation of Employment) Act, 1948 passed in March 1948 has in view the elimination of hardship caused to workers on account of the casual nature of the work. It enables the Central and State Governments to frame schemes for the registration of dock workers to ensure greater regularity of employment and to regulate the employment of workers whether registered or not and the terms and conditions of such employment.

It provides for registration, rates of wages, hours of work, holidays with pay, prohibits, restricts or controls the employment of workers to whom the scheme does not apply, training

and welfare, health and safety measures, minimum payment for the period of unemployment. It also provides for the setting up of an Advisory Committee consisting of Government, labour and employers, and for the employment of Inspectors.

## PAYMENT OF WAGES ACT

The Act applies only to wages and salaries which average below Rs. 400 per month.

The Act was amended in Dec. 1964 with a view to removing difficulties experienced in the working of the Act.

Main features of the Act already appear in the previous editions of the Directory.

## MINIMUM WAGES ACT, 1948

The Act covers the following industries or types of establishments. Woollen carpet making or shawl weaving; rice, flour or dal mills; tobacco manufactories (including bidi making); plantations; oil mills; employment under any local authority; road construction or building operations; stone breaking or stone crushing; lac manufactories; mica works; public motor transport; tanneries and leather manufactories; tanneries, and agriculture. The appropriate Governments can extend the application of the Act to any industry wherein, in their opinion, minimum wages should statutorily be fixed.

The Act requires the Central or State Governments, as the case may be, to fix minimum rates of wages payable to persons employed in the industries mentioned above.

The Act provides for the fixation of minimum time rates, minimum piece rates, guaranteed time rates and overtime rates appropriate to different occupations, or localities and for adults, adolescents, children and apprentices. The minimum rate may consist of a basic rate and a cost of living allowance and/or cash value of concessions or it may be an all-inclusive rate.

The Central or the State Governments, as the case may be, can fix the number of hours of work per day, provide for a weekly holiday, etc., in regard to any employment in which minimum wages have been fixed under the Act.

### WORKMEN'S COMPENSATION ACT

Under the Act payment of compensation has been made obligatory on all employers whose employees come within its scope, and injured workmen or the dependents of those killed can obtain compensation in all cases where personal injury has been caused by accident arising out of and in the course of employment and where, except in the case of injury resulting in death, the accident is not directly attributable to the workman having been at the time of the accident under the influence of drink or drugs or to wilful disobedience of rules or orders or wilful disregard of safety devices.

An Amendment Bill—Workmen's Compensation Amendment Bill 1958—was passed by Parliament in Feb. 1959.

(Details are given in the previous editions of the Directory).

The Act has been amended since 19th Dec. 1962 to raise the applicability of the Act to persons getting Rs. 500 per month.

### STATISTICS

An annual note on the working of the Act is published regularly in the *Indian Labour Journal*.

The latest available statistics on the subject will be found in the following table :—

| Year       | Total number of cases | Total compensation paid |
|------------|-----------------------|-------------------------|
|            |                       | Rs.                     |
| 1957 .. .. | 71,908                | 61,86,746               |
| 1958 .. .. | 83,338                | 84,87,795               |
| 1959 .. .. | 76,227                | 71,43,684               |
| 1960 .. .. | 88,955                | 94,93,304               |
| 1961 .. .. | 93,738                | 79,92,996               |
| 1962 .. .. | 89,356                | 74,37,147               |
| 1963 .. .. | 1,17,250              | 1,21,86,870             |

The table below shows the accident rate per thousand workers and the average compensation paid in the main industry groups during 1963.

| INDUSTRY                    | 1963                        |                                     |

### MATERNITY BENEFIT ACT

The Government of India passed the Mines Maternity Benefit Act in 1941. Maternity Benefit Acts have been passed by all the States.

The scope, qualifying conditions and rate of benefit are not uniform under the various State Acts.

The qualifying period of service is generally 9 months.

The administration of the Acts in the States is the responsibility of the Factory Inspectorates. The enforcement of the Mines Maternity Benefit Act in the coal mines is the responsibility of the Coal Mines Welfare Commissioner. In other mines, it is administered by the Chief Inspector of Mines.

### MATERNITY BENEFIT PAID IN VARIOUS STATES, FACTORIES, PLANTATIONS AND MINES DURING 1963

| States.              | Average No. of women employed in establishments submitting returns. | No. of women who claimed maternity benefit. | No. of women who were paid maternity benefit in full or in part. | No. of cases in which bonuses were paid. | Total amount paid |

## TRADE UNIONS ACT, 1926

This Act was brought into operation with effect from 1st June 1927 and was slightly amended in 1928.

Apart from the necessary provisions for administration and penalties, the Indian Trade Unions Act, 1926, makes provision for three matters: (1) conditions governing the registration of trade unions; (2) the obligations to which a trade union is subject after registration; and (3) the rights and privileges accorded to registered unions. 'Trade Union' has been defined in such a way as to cover both combinations of workers and of employers but not of workers and employers. Persons under the age of 15 are debarred from membership of any registered union.

The administration of the Act is entirely on a State basis and each State Government is required to appoint a Registrar of Trade Unions. Any seven or more members of a union can apply for registration but no union can be registered unless at least fifty per cent of the executive consist of members actually engaged

in the unit or group of units which the union proposes to cover.

## INDUSTRIAL DISPUTES ACT

The Act provides for the setting up of two types of organisations, namely, (1) Works Committees and (2) Industrial Tribunals for the prevention or settlement of disputes. It makes conciliation compulsory in all disputes in public utility services and optional in other cases.

Important features of the main Act and amendments in 1953 and 1956 appear in the previous editions of the Directory.

The Act was further amended in Dec., 1964. The following are some of the important changes effected by the amended Act: (a) Provision for appointment of a serving or a retired district judge or additional district judge of not less than three years standing as a Presiding Officer of the Tribunal; (b) Provision for the appointment of Umpires in case of differences of opinion between an even number of arbitrators; (c) Prohibition of strikes and lock-outs during

arbitration proceedings; (d) Only a majority of workmen shall have the right to terminate a settlement or an award; (e) Provision that every application for recovery of money due from an employer shall be made within one year.

## STATISTICS

Statistics presented in this section relate to industrial disputes which have resulted in work-stoppages involving 10 or more workers and exclude sympathetic and political strikes.

The time-loss due to industrial disputes was 7.8 million man-days in 1958, it was 5.6 million in 1959, 6.5 million in 1960, 4.9 million in 1961, 6.1 million in 1962 and 3.3 million in 1963.

There were 1,471 industrial disputes during 1963 as compared with 1,491 during 1962.

As compared with 1962, there was a decrease of 45.9 per cent in time-loss due to industrial disputes in 1963. While the time-loss was generally low in the first five months of the year, the highest time-loss was recorded in Dec., 1963.

Analysis of the statistics by industries shows that the manufacturing sector accounted for 77.2 per cent of the total time-loss. Among other sectors, electricity, gas, water and sanitary services accounted for 7.2 per cent, agriculture, forestry, fishing etc. for 4.1 per cent, mining and quarrying for 3.0 per cent, transport and communications (other than workshops) for 2.5 per cent, services for 2.5 per cent, activities not adequately described for 1.6 per cent, construction for 1.4 per cent and commerce for 0.5 per cent. In the manufacturing sector, the highest time-loss was recorded by the group 'textiles' (51.3 per cent). As compared to the preceding year, the time-loss decreased in all the groups except electricity, gas, water and sanitary services, construction and commerce.

Classifying the disputes by causes, wages and allowances accounted for the highest number (408) of disputes followed by "personnel" 369 cases. Both these groups constituted together 53 per cent of the total number of disputes and accounted for 46.2 per cent of workers involved and 47 per cent of the total time-loss.

From the point of view of the employees 23.4 per cent of the total number of disputes were successful, 17.9 per cent were partially successful and 41 per cent were unsuccessful. In case of 17.7 per cent of the disputes, work was resumed without any final decision having been reached.

Distribution of the disputes according to their duration shows that 71.7 per cent lasted upto 5 days, 13.6 per cent lasted for more than 5 days upto 10 days, 6.2 per cent lasted for more than 10 days upto 20 days, 3.8 per cent for more than 20 days upto 30 days and 4.7 per cent for more than 30 days.

Of the 1,422 terminated disputes, during 1963, 610 were terminated as a result of Government intervention, 287 by mutual settlement and 453 by voluntary resumption.

The following table sets out the number of disputes in some of the years since 1953, the number of workers involved in these disputes and the total time lost in man-days:

| Year    | Number of disputes | Number of workpeople involved | Number of man-days lost |
|---------|--------------------|-------------------------------|-------------------------|
| 1953 .. | 772                | 466,607                       | 3,382,608               |
| 1954 .. | 840                | 477,138                       | 3,372,630               |

#### WORKING JOURNALISTS' ACT

(See under article on the Press)

#### THE EMPLOYEES' PROVIDENT FUNDS ACT, 1952

The Employees' Provident Funds Scheme, 1952 framed under section 5(1) of the Employees' Provident Funds Act, 1952 came into force in its entirety with effect from 1st November, 1952.

The Act applies to all establishments employing 20 or more persons. The Act, however, does not apply to: (a) any establishment registered under the Co-operative Societies Act, 1912 or under any other law relating to co-operative societies employing less than 50 persons and working without the aid of power, (b) to any other establishment employing 50 or more persons or between 20 and 49 persons until the expiry of three years in the former case and five years in the latter, from the date of their establishment, (c) The State of Jammu & Kashmir (The State Government has instituted a separate provident fund scheme on the lines of Employees' Provident Funds Scheme with effect from 1st June, 1961).

The rate of contribution is 6½ per cent of pay i.e., basic wages plus dearness allowance including cash value of food concession and retaining allowance (if any). The statutory rate of provident fund contribution has been enhanced to 8 per cent of pay in respect of the establishments employing 50 or more persons and engaged in any of the following industries with effect from the date noted against them:—

From Jan. 1, 1963: Cigarettes; Iron and Steel; Electrical, mechanical or general engineering products; and Paper other than hand made paper.

From April 1, 1963: Cement.

From Nov. 1, 1963: Textiles (made wholly or in part of artificial silk and wool); Matches; Edible oils and fats other than vanaspathi; Rubber and rubber products; Electricity including generation, transmission and distribution thereof; Tea; Printing (other than printing industry relating to newspaper establishments as defined in the Working Journalists (Conditions of Service) and Miscellaneous Provisions Act 1955) including the process of composing types for printing, printing by letter press, lithography, photogravure or other similar process or book binding; Glass; Stoneware pipes; Sanitaryware; Electrical porcelain insulators of high and low tension; Refractories; Tiles; Heavy and fine chemicals excluding fertilizers but including turpentine rosin, medical and pharmaceutical preparations; Toilet preparations; Soaps; Inks; Intermediates; Dyes; Colour lakes and toners; Fatty acids; Oxygen; Acetylene and carbon-dioxide gases; Indigo; Non-edible vegetable and animal oils and fats; Mineral oil refining; and Newspaper establishments.

From Dec. 1, 1963: Textiles (made wholly or in part of cotton).

From Feb. 1, 1965: Tea plantations (other than the tea plantations in the State of Assam); Rubber plantations; Cardamom plantations; Limestone mines; Industrial and power alcohol; Asbestos cement sheets.

From June 1, 1965: Coffee plantations; Sept. 1, 1965: Coffee curing establishments; April 1, 1966: Every establishment engaged in the manufacture of textiles made wholly or in part of natural silk.

The members and employers are allowed to contribute at any higher rate if desired by them.

Qualifications for membership:—Basic wage, dearness allowance and cash value of food concession and retaining allowance (if any) not to exceed Rs. 1,000 per month; and one

year's continuous service or 240 days' actual work during a period of 12 months or less.

Employees working outside the precincts of a covered establishment in connection with its work and also those with emoluments exceeding Rs. 1,000 per month, if they apply for membership of the Fund with the consent of their employers, have now been brought within the ambit of the Scheme.

Where an establishment has its own Provident Fund, gratuity or pension scheme and if the total quantum of benefits is not less than that under the statutory Scheme, either such an establishment could apply for exemption under section 17(1) of the Act from the provisions of the Scheme or any person or a class of persons employed in such an establishment can opt out under section 17(2) of the Act read with para. 27-A of the Scheme.

Full accumulations with interest are refunded in the event of death, permanent disability, superannuation, retrenchment or migration from India for permanent settlement abroad and also on leaving service for any reason after 15 years' membership, or ceasing to subscribe to the Fund consequent on the employer ceasing to give effect to the provisions of the Act in pursuance of the provisions of the proviso to section 1(5) of the Act. In other cases, the member's own share of contribution together with the interest thereon is refunded along with a portion of the employer's contribution depending upon the length of membership.

The Central Government have also authorised full refund of employer's contribution in the following contingencies:—Where a factory establishment is closed, the employees who are not retrenched but transferred by the employer to other establishments not covered under the Employees' Provident Funds Act; Where a member is transferred from a covered establishment to another under the same employer but not covered under the Act; Where employees are discharged and are given retrenchment compensation under the Industrial Disputes Act; where members cease to subscribe to the Fund as a result of an establishment going out of the purview of the Act under section 16(1)(a) thereof.

Non-refundable advances from the Fund can be made for payment towards a policy of life insurance of the member; for purchase of a dwelling house, a dwelling site or for construction of dwelling house privately or under the subsidised housing schemes for industrial workers, or for construction of a house under the Low Income Group Housing Scheme, or for purchasing shares of Consumers' Cooperative Societies, or in special cases to members who are thrown out of employment due to temporary closure of any factory or establishment, or in cases of (a) hospitalisation lasting one month or more or (b) major surgical operation in a hospital or (c) members suffering from T.B., leprosy, paralysis, cancer, or asthma for the treatment of which leave has been granted by the employer or in the case of an individual retrenchment pending final withdrawal of provident fund.

The Fund vests in the tripartite Central Board of Trustees. The Central Provident Fund Commissioner is the Chief Executive Officer. He is appointed by the Central Government and is subject to its general control and superintendence. He is assisted by fifteen Regional Provident Fund Commissioners one in each region.

In the following regions tripartite Regional Committees have been constituted to advise the Central Board of Trustees on matters referred to them:—Maharashtra, Bihar, Madhya Pradesh, Andhra Pradesh, Orissa, Gujarat, Madras, Uttar Pradesh and West Bengal.

A special reserve fund has been created to pay the provident fund accumulations to outgoing members or their heirs, where the employers have failed to pay the whole or a part of the provident fund contributions to the fund and which were deducted from the wages of the members. A sum of Rs. 60-18 lakhs has been paid out from this Fund till the

end of Dec. 1965 and a sum of Rs. 9.33 lakhs was recovered from the employers towards the arrears against which payment was made from this Fund.

A Death Relief Fund has been set up for affording financial assistance to nominees/heirs of deceased members whose pay (i.e. basic wages, dearness allowance, etc.) does not exceed Rs. 500 per month. This fund has been constituted on a trial basis for one year with effect from 1st January, 1964 and is being continued for a further period of one year more with effect from Jan., 1, 1966. Relief from this fund would be given in respect of deaths which take place on or after 1st January, 1964. The quantum of the benefits from this fund, will be the difference by which the amount standing to the credit of the deceased member falls short of Rs. 500 so that a minimum of Rs. 500 is assured to the nominee(s)/heir(s). The amount standing to the credit of the deceased member will comprise the sum actually credited to the member's account in the ledger card; any sum payable out of the Special Reserve Fund; the sum of non-refundable advance(s) taken by members; outstanding balance of any refundable advance and interest.

No. of industries covered: 103 (upto 31-1-1966).

No. of covered establishments (both exempted and unexempted): 32,976 (as on 31-12-1965).

No. of subscribers: Over 44.77 lakhs (as on 31-12-1965).

Amount of Provident Fund contributions as on 31-12-1965:

(i) Provident Fund Contributions collected: Rs. 732.73 crores.

(ii) Amount paid as loans, advances, in final settlement of claims, etc.: Rs. 226.97 crores.

(iii) Amount invested in Government Securities: Rs. 511.01 crores.

No. of unexempted establishments covered under the Act up to the end of December 1965: 310,555; No. of subscribers in such establishments: Over 27.86 lakhs; total accumulations of provident fund in such establishments: Rs. 326.09 crores; Amount of provident fund invested in respect of such establishments: Rs. 252.70 crores.

Rate of interest paid at present on members' accumulations: 4.75 per cent (for 1964-65).

The Central Government has accepted the recommendation of the Central Board of Trustees of the Employees' Provident Fund to raise the rate of interest from 4.25 per cent to 4.5 per cent for the year 1966-67.

The provident fund contributions are invested in defence certificates and Government of India securities. The interest received on investments during 1965 amounted to Rs. 8.01 crores.

The number of establishments covered on a voluntary basis rose from 637 to 849 upto 31-12-1965.

### TEA DISTRICTS EMIGRANT LABOUR ACT

The Tea Districts Emigrant Labour Act, 1932, was brought into effect from the 1st of October 1933.

Full details are given in the previous editions of the Directory.

### PLANTATION LABOUR ACT, 1951

The Plantation Labour Act was passed by the Government of India in 1951 with a view to ameliorating the working and living conditions of about 12 lakhs of workers employed in plantations. The Act applies to tea, coffee, rubber, cinchona and cardamom plantations and the State Governments have been empowered to extend it to any other class of plantations.

Details have been given in the previous editions of the Directory.

The following table shows the total No. of estates/plantations covered by the Act and

average daily labour employed in various States/Union Territories.

| State/Union Territory  | No. of Estates/Plantations | Average daily labour employed |
|------------------------|----------------------------|-------------------------------|
| Assam .. ..            | 665                        | 4,92,793                      |
| Bihar .. ..            | 13                         | 579                           |
| Kerala .. ..           | 450                        | 2,00,000                      |
| Madras .. ..           | 289                        | 74,738                        |
| Mysore .. ..           | 274                        | 27,229                        |
| Punjab .. ..           | 18                         | 1,528                         |
| Uttar Pradesh .. ..    | 17                         | 1,532                         |
| West Bengal .. ..      | 281                        | 1,64,454                      |
| Himachal Pradesh .. .. | 1                          | 81                            |
| Tripura .. ..          | 57                         | 2,808                         |

### SHOPS AND COMMERCIAL ESTABLISHMENTS ACTS

Subject to certain exceptions the Acts apply to shops, commercial establishments, restaurants and places of amusement in certain selected urban centres. Some employees such as those employed in a confidential capacity and those whose work is of an intermittent character are excluded from the scope of the Acts.

By the above Acts an attempt has been made to bring into force the general rules and conditions of the Factory Act to those employed in the shops and commercial establishments with suitable modifications. More important features of the Acts were given in the previous editions of the Directory.

The number of shops and commercial establishments and the number of persons employed by States for 1963 are given below.

| State/Union Territory           | No. of Establishments | No. of persons employed |
|---------------------------------|-----------------------|-------------------------|
| Andhra Pradesh .. ..            | 1,33,228              | 1,18,823                |
| Assam .. ..                     | 8,227                 | 12,525                  |
| Bihar .. ..                     | 30,202                | 36,023                  |
| Gujarat .. ..                   | 1,02,325              | 1,15,219                |
| Jammu & Kashmir .. ..           | —not available—       | —                       |

### INDUSTRIAL EMPLOYMENT (STANDING ORDERS) ACT, 1946

The Industrial Employment (Standing Orders) Act, 1946 which applies to industrial establishments employing 100 or more workers provides for the framing of Standing Orders laying down the conditions of employment of workers employed in the establishments.

The Act extends to the whole of India except the State of Jammu and Kashmir, and is administered both by the Central and State Governments.

The total number of establishments coming within the purview of the Act at the end of 1964 was 11,603 of which 9,960 establishments with 30.23 lakh workers belonged to the State sphere and 1,643 with 9.71 lakh workers, to the Central sphere. The employment strength of all these establishments was about 39.94 lakhs.

The number of establishments which had certified Standing Orders in both the spheres at the beginning of 1963 was 11,209 which formed 76.5 per cent of the total covered. Of these 9,741 were in the State sphere and 1,478 in the Central sphere.

The percentage of workers having certified Standing Orders to the total number of employees came to 83.0.

### COLLECTION OF STATISTICS ACT, 1953

This Act which replaces and embodies the main provisions of the Industrial Statistics Act is designed to facilitate the collection of statistics of certain kinds relating to industries, trade and commerce. It empowers the Statistics Authority appointed by the Central or State Govts. to collect necessary informations from different industrial and commercial concerns. More details were given in the previous editions of the Directory.

### MOTOR TRANSPORT WORKERS ACT, 1961

The Act seeks to regulate hours and limitations of employment (8 hours in a day and 48 hours in a week) with daily intervals for rest, weekly rest, provision for medical facilities, canteens, rest rooms, wages and leave of workers employed in motor transport undertakings. The Act is now in force in all States except Jammu and Kashmir.

### THE APPRENTICES ACT, 1961

The Act provides for the regulation and control of training of apprentices in trades and for matters connected therewith.

The Act also provides for the hours of work, overtime, leave and holidays of apprentices and for their health, safety and welfare.

Further details of the Act were given in the previous editions of the Directory.

### WAGES

Central Wage Boards were set up for eight industries—cotton, cement, jute, coffee plantations, tea plantations, rubber plantations, sugar, iron-ore, limestone and dolomite mining industries. All the eight Boards have made their reports. (See under individual industry.)

The function of a Wage Board is to fix a wage structure on the principle of fair wages.

A steering group consisting of representatives of Government, employers and workers is engaged in drawing up a wage map of India both industry-wise and region-wise to serve as a guide for authorities who have to fix wages.

Average Annual earnings in states of factory employees drawing less than Rs. 200 per month. Figures in Rs. for 1962 and 1963 respectively: Andhra Pradesh 1,082; 1,082; Assam 1,055; 1,262; Bihar 1,385; 1,431; Gujarat 1,666; 1,613; Kerala 1,128; 1,130; Madhya Pradesh 1,794; 1,685; Madras 1,496; 1,467; Maharashtra 1,699; 1,731; Mysore 1,210; 1,435; Orissa 1,813; 1,289; Punjab 1,180; 1,192; Rajasthan 1,310; 1,286; Uttar Pradesh 1,277; 1,278; West Bengal 1,325; 1,350; Andaman & Nicobar Islands 1,244; 1,262; Delhi 1,671; 1,577; Himachal Pradesh 1,292; 1,162; Average 1,459; 1,475.

MINIMUM WAGES AND DEARNESS ALLOWANCE IN THE COTTON MILL INDUSTRY FOR A STANDARD MONTH  
OF 26 WORKING DAYS.

DEARNESS ALLOWANCE

The scale of the allowance varies not only from centre to centre and industry to industry, but also, except where these matters are adjudicated upon, from unit to unit in the same industry at the same centre.

Several Adjudicators have granted dearness

allowance either at the Bombay Millowners' Association scale which was Rs. 127.65 in Aug. 1965 or at a percentage, varying from 66½ per cent to 85 per cent. of that scale. The rate of dearness allowance payable to Bombay City cotton mill workers itself was increased by a decision of the Labour Appellate Tribunal by 5 per cent

when the Bombay Cost of Living Index Number is between 326 and 335; by 7½ per cent when it is between 336 and 350; and by 10 per cent when it is above 350. The enhanced rate was given retrospective effect from May 1953; the average dearness allowance for a month of 26 working days comes to Rs. 127.08 for 1965.

INDEX OF EARNINGS (1951 = 100)\*

| Year | All India Consumer Price Index | Factory workers         |                        | Miners                  |                        |
|------|--------------------------------|-------------------------|------------------------|-------------------------|------------------------|
|      |                                | Index of money earnings | Index of real earnings | Index of money earnings | Index of real earnings |
| 1960 | 113.1                          | 130.1                   | 110.2                  | 189.0                   | 160.5                  |

COST OF LIVING

On the basis of the results of the fresh family living surveys, new series of consumer price index numbers for industrial workers are now being compiled by the Labour Bureau. It was decided by the Technical Advisory Committee to adopt the Calendar year 1960 as the base period for all these new series of index numbers.

Labour Bureau, Simla has published new series of Consumer Price Index for industrial workers in all the centres except the following:

| State          | Factory Centres | Mining Centres | Plantation Centres |
|----------------|-----------------|----------------|--------------------|
| Andhra Pradesh | .. Guntur       | Gudur          |                    |
| Bihar          | .. Jamshedpur   |                |                    |
| Madhya Pradesh | .. Gwalior      |                |                    |
| Madras         | .. Madras       |                | Coonoor            |
|                | .. Madurai      |                |                    |
|                | .. Coimbatore   |                |                    |
| Maharashtra    | .. Bombay       |                |                    |
|                | .. Sholapur     |                |                    |
|                | .. Nagpur       |                |                    |
| Punjab         | .. Yamunagar    |                |                    |
| Rajasthan      | .. Jaipur       |                |                    |
|                | .. Ajmer        |                |                    |

## EMPLOYMENT AND TRAINING

The Millowners' Association, Bombay conducts special classes for the training of Mill Labour Officers and actively supervises and controls the work done by all such officers where they have been appointed through the Association. Following the example of the Millowners' Association, Bombay, the University of Calcutta, in co-operation with the Indian Jute Mills Association, has a special course of social work for giving suitable training to Labour Welfare Officers engaged in jute mills. Among other institutions imparting training for Labour Officers mention may be made of the Tata Institute of Social Sciences, Bombay; Institute for Training of Welfare Workers, Bombay; Delhi School of Social Work, Delhi; Institute of Social Sciences, Banaras; Xavier Labour Relations Institute, Jamshedpur; Department of Labour and Social Welfare, Patna University; J. K. Institute of Sociology and Human Relations, Lucknow University; and the training course conducted by the Madhya Bharat Millowners' Association, Indore.

## Employment Service Techniques

The Directorate-General of Employment and Training, Government of India have set up the Central Institute for Research in Employment and Training in Oct. 1964, which conducts training course for Employment Officers. Intensive training is given during such courses in employment exchange work and procedure as well as in the techniques of collection of employment market information and administration of Vocational Guidance and Adult Counselling.

## Employment Exchanges

The number of Exchanges functioning in Dec. 1965 was 376 which includes nine Special Exchanges for the handicapped. In addition 36 University Employment Information and Guidance Bureaux were in existence at the close of 1965. Vocational Guidance facilities are available at these bureaux as well as at 166 employment exchanges.

## Employment Information

Complete information in respect of the public sector is being collected from all over the country. Employment during 1961-65 rose by 29.1 lakhs from 120.9 lakhs to 150 lakhs indicating an increase of 24.1 per cent. Of the total rise, the public sector accounted for 19.1 lakhs while establishments in the non-agricultural private sector employing 25 or more persons showed an increase of 10 lakhs.

The number of registered applicants with the Employment Exchanges was 25,85,473 at the end of Dec. 1965. During the period Jan.-Dec. 1965 on an average 47,516 persons were placed in employment each month. The monthly average number of vacancies notified during the period was 78,840. Of the placements effected, 11,754 were under the Central Government, 21,193 under the State Governments, 8,213 under quasi-Government establishments and local bodies and 6,356 under private establishments.

In 1965 on an average 29,776 women were registered with the exchanges every month and an average 4,087 women were provided jobs every month.

\* Excluding University, Employment Information and Guidance Bureaux.

\*\* Figures as on 31-12-64.

## Training of Craftsmen

The Craftsmen training facilities were expanded during the 3rd Five Year Plan by adding seats to the existing Industrial Training Institutes and also by opening new ITIs. At the end of the third Five Year Plan the number of Institutes was 357 and the total training places were 1,13,622. It is proposed to expand the training scheme further during the 4th Five Year Plan by adding about 1 lakh seats. Of these, 30,000 additional seats are proposed to be introduced at the existing ITIs./Centres during the 1st year of the 4th Five Year Plan.

## Scheme of Part-time Classes for Industrial Workers :

In order to improve the theoretical knowledge of industrial workers, a scheme of Part-time Classes for Industrial Workers had been started during the Second Five Year Plan. The classes are held in technical institutes or within the factory premises of an industrial establishment at convenient localities. The duration of the course is two years and the classes are held thrice a week. The course consists of instructions in workshop mathematics, reading of blueprints and elementary trade theory and use of precision instruments. At the end of 1965, 4,280 seats had been introduced under the scheme and 2,772 trainees were undergoing training in 34 centres where theory classes are being conducted.

## Training of Craft Instructors

The scheme for the training of Craft Instructors has been designed to improve the efficiency of the Instructors both in the public and private institutions with a view to meeting the increasing demands of the country. The Government of India in the Ministry of Labour and Employment have set up 7 Central Training Institutes for Instructors, one of which meant exclusively for women, is functioning in New Delhi while the other 6 are located at Calcutta, Bombay, Kanpur, Madras, Hyderabad and Ludhiana. The total training places at these Institutes is 2,380 at the end of the Third Plan of which 448 were being introduced as advance action of Fourth Plan Expansion Programme. During Fourth Plan 1,172 more seats are proposed to be introduced. Training is imparted in 16 engineering and 4 non-engineering trades and the duration of

training is 9 months. These Institutes provide instruction in the theoretical aspects of the various trades and also impart practical instruction in the latest techniques of workshop practice.

## Apprenticeship Training Act, 1961

The Apprentices Act, 1961 was enacted in December, 1961 to regularise the programmes of practical training in industry in such a way as to conform to standards, syllabi, period of training etc. and to utilise fully the facilities available in industry for imparting practical training.

## EMPLOYMENT IN FOREIGN COMPANIES

The position in regard to employment of Indians and non-Indians on salaries of Rs. 1,000 and above in foreign-owned/controlled concerns on the 1st of January each year was as follows:—

|              | Year | Indians | Foreigners* | Total  |
|--------------|------|---------|-------------|--------|
| 1960 .. .. . |      | 9,113   | 4,809       | 13,922 |
| 1961 .. .. . |      | 10,229  | 4,864       | 14,593 |
| 1962 .. .. . |      | 11,535  | 4,001       | 15,536 |
| 1963 .. .. . |      | 12,434  | 3,570       | 16,004 |
| 1964 .. .. . |      | 13,824  | 3,185       | 16,959 |

\* Excluding short-term foreign technicians.

Salary-group Rs.1,000-Rs. 2,000 : The number of Indians increased from 9,273 in 1963 to 10,088 in 1964.

Salary-group Rs. 2,001 to Rs. 3,000: The number of Indians increased from 2,185 in 1963 to 2,510 in 1964.

Salary-group Rs. 3,001 and above : The number of Indians increased from 972 in 1963 to 1,226 in 1964.

### ABSENTEEISM

One of the commoner complaints of Indian industrialists has been the high percentage of absenteeism and the large labour turnover in Indian factories, mines, etc.

### EMPLOYEES' STATE INSURANCE CORPORATION

Head Office: E.S.I.C. Bldg., Kotla Road, New Delhi.

Regional Offices: See under 'Govt. of India Personnel.'

The Corporation came into existence as an autonomous body in 1948, which applies to all non-seasonal factories using power wherein 20 or more persons work. All employees employed directly or through an immediate employer on any work of the factory whether in a manual or non-manual capacity, on a remuneration not exceeding Rs. 400 per month, are covered by this Act.

The Scheme at present provides for medical care for the insured persons and in some areas for their families also and sickness, maternity, disablement and dependents' benefit in cash.

The Scheme covered an additional number of about 1,86,250 employees and about 1,38,475 family (I.P.) units during 1964-65. A sum of Rs. 6,35,80,663 was disbursed by way of cash benefit during 1964-65.

Upto 31st Dec. 1965 the Act was extended to cover 30,48,300 employees, in 240 centres. 30,26,500 family (I.P.) units have been covered for medical benefit upto 31st Dec. 1965.

The Employees' State Insurance Scheme covers about 34,67,525 insured persons working in 259 centres (as on March 31, 1966).

The total number of beneficiaries entitled to medical benefit is estimated at about 1,23,69,625 including the members of families of workers (as on March 31, 1966).

The Corporation provided medical care to well over 123 lakh persons by the end of the Third Plan period.

The scheme is in force in all the States except Jammu & Kashmir.

Hospitals: The Corporation has already constructed and put into use 13 full-fledged ESI Hospitals.

The Employees' State Insurance Corporation was maintaining 5,530 beds in hospitals. Out of these, 3,600 were in general and maternity hospitals and the balance of 1,930 were T.B. beds.

During the year 1965-66, the Corporation sanctioned a sum of Rs. 526.88 lakhs for construction of hospitals, annexes and dispensaries

under the ESIC Scheme in various States. So far the Corporation sanctioned about Rs. 2,857.31 lakhs for the construction of hospitals and dispensaries.

Total receipts of Corporation for 1964-65: Rs.19,60,67,730. Total benefits: Rs.13,69,93,593. Administrative expenses: Rs. 1,87,63,568. Employees' Contribution: Rs. 9,96,74,412. Employers' Contribution: Rs. 8,87,93,177.

Budget estimates for 1965-66: Receipts Rs. 22,99,17,000; expenditure Rs. 20,68,48,000. Surplus Rs. 2,30,69,000.

Amounts (Rs.) distributed under some heads for 1964-65 are as follows:—

| States             | Maternity Benefit | Disablement             |                             | Sickness (including extended sickness) | Dependent Benefit (Capitalised value) |

## ACCIDENTS

The Indian Factories Act requires the manager to report all accidents which cause death or bodily injury whereby the person injured is prevented from returning to his work in the factory during the 48 hours next after the occurrence of the accident.

It is the duty of the Inspector of Factories to make an investigation as soon as possible into the causes of and the responsibility for a fatal or serious accident, and to take steps for the prosecution of the person concerned if

it is found that the death or serious injury resulted from any infringement of the provisions of the Act or of the rules framed under the Act.

The Department of Mines has been strengthened to facilitate more frequent inspection of mines. As an emergency measure, the Coal Mines (Temporary) Regulations, 1955 have been promulgated for the prevention of apprehended danger and for the speedy remedy of the conditions likely to cause danger. The entire codes of coal and non-coal mines regulations are being revised to provide for more comprehensive measures for safety in mines.

Figures for the years 1957 to 1963 are given in the table below.

| Year | FACTORIES |           |          | MINES |           |       |
|------|-----------|-----------|----------|-------|-----------|-------|
|      | Fatal     | Non-Fatal | Total    | Fatal | Non-Fatal | Total |
| 1957 | 346       | 1,31,149  | 1,31,495 | 261   | 3,732     | 3,993 |
| 1958 | 357       | 1,36,031  | 1,36,400 | 504*  | 3,925     | 4,429 |
| 1959 | 341       | 1,41,675  | 1,42,016 | 288   | 4,084     | 4,372 |
| 1960 | 454       | 1,44,549  | 1,45,003 | 317   | 4,661     | 4,978 |
| 1961 | 474       | 1,59,271  | 1,59,745 | 344   | 5,173     | 5,517 |
| 1962 | 528       | 1,28,935  | 1,69,283 | 308   | 4,943     | 5,313 |
| 1963 | 364       | 1,31,805  | 1,32,168 | 344   | 4,110     | 4,454 |

\* Includes those killed in two disasters (Chinakuri 173 and Central Bhowra 26).

## WELFARE ACTIVITIES

Section 47 of the Factories Act, 1948 makes it obligatory for all factories employing more than 150 workers to provide adequate shelters and a suitable lunch room for the use of workers during periods of rest. Almost all large industrial establishments had provided tiffin rooms and rest shelters for their workmen. Most concerns had also permitted the establishment of tea stalls on the premises but apart from this, little effort had been made to run co-operative canteens on the lines of those which are associated with most of the large factories in the West.

The Act of 1948 provides for the setting up of creches in factories that employ more than 50 women.

Except for the Ahmedabad Textile Labour Association, the Railwaymen's Unions, and the Mazdoor Sabha of Indore, labour unions have not done much by way of labour welfare. This has been due largely to lack of funds. Some of the Railwaymen's Unions have organised co-operative societies, and various kinds of funds for the provision of specific benefits, such as, legal defence, death and retirement benefits, unemployment and sickness benefits and life insurance, etc.

Other types of welfare work done by factories relate to the provision of recreational facilities, amenities for the education of workers and their children, the provision of cost price grain shops, the establishment of co-operative societies, etc.

On railways there are educational facilities for the children of the employees mostly free of charge. Staff Benefit Funds have also been created which give monetary help to the children and widows of the deceased employees.

Medical facilities provided by employers range from first-aid posts and dispensaries to first-class hospitals.

## WORKERS' EDUCATION SCHEME

The Scheme of Workers' Education, which is run by an autonomous Central Board, consisting of representatives of workers, employers, educational institutions and the Government comprises three stages of training. The first stage consists of training of top level instructors known as Teacher-Administrators who are post-graduates in one of the social sciences. After successfully completing the course they conduct whole-time training courses for selected workers who are called Worker-Teachers. This

course is open to whole-time trade union officials also. This is the second stage of the scheme. The workers so trained revert to their places of employment and conduct programmes at the unit level for the rank and file of workers. This constitutes the third and final stage. The medium of instruction at the regional and unit level is the regional language and the syllabi are also adjusted to suit local conditions.

The object of the Scheme is to create over a period of time, despite lack of general education, a well-informed, constructive and responsible minded industrial labour force capable of organizing and running trade unions on sound lines without leaning heavily on outsiders and without lending themselves to exploitation by extraneous interests.

By the end of March 1966, 7,384 worker-teachers were trained in 334 sessions at the various regional and sub-regional centres under the Board while 349 worker-teachers were under training during the month; and 3,25,795 workers were trained while 34,082 were under training.

Trade Union Organisations which are receiving grants-in-aid from the Board trained 2,229 workers including 68 worker-teachers. By the end of March 1966, a total number of 3,57,577 workers were trained under "Workers Education", at the various institutions under the Workers' Education Programme.

By the end of Dec. 1965, 44 booklets in English and 378 in regional languages were published by the Board.

## COAL MINES WELFARE FUND

This Fund was constituted under the Coal Mines Labour Welfare Fund Act of 1947 for financing measures for promoting the welfare of labour employed in the coal mining industry.

The main source of income to the Fund is a cess levied on all coal and coke despatched from collieries by rail and road. The cess is being levied at the rate of 49-21 Paise per metric tonne. The income of the Fund which was Rs. 3,53,16,640 during 1963-64 was expected to be Rs. 3,47,81,923 during 1964-65.

Other welfare measures include a scheme of financial assistance to the wives and school-going children of those colliery workers who die of accidents in mines, provision of a holiday home for miners at Rajgir, running of a special train for Bharat Darshan, provision of rehabilitation centres for disabled colliery workers and cured T.B. patients, for imparting training

in physical education, leadership and discipline, mass physical efficiency test for coal miners, etc.

**Mica Mines Labour Welfare Fund.**—The Mica Mines Labour Welfare Fund Act, 1946, which was designed to constitute a similar fund for the benefit of mica workers, provides for the levy of an *ad valorem* duty not exceeding 6½ per cent on all mica exported from India. The Govt. of India apportions the cess so realised annually among Bihar, Andhra Pradesh, Rajasthan and other States.

In Bihar, the Fund has provided medical, educational and recreational facilities for the welfare of mica miners.

**Andhra Pradesh:** The percentage share of cess is 18.5. The income and expenditure of the Mica Mines Labour Welfare Fund in Andhra Pradesh in 1965-66 were Rs. 5,99,681 and Rs. 6,59,872.40 respectively.

## AGRICULTURAL LABOUR

An enquiry on Income and Consumer Expenditure of rural households including agricultural labour households was conducted in 8,472 villages spread over 15 States and four Union Territories selected on the principle of stratified random sampling and staggered evenly over a period of 12 months. This enquiry was integrated with the 18th round of the National Sample Survey. Data on employment, unemployment earnings and indebtedness of rural households, including agricultural labour households were collected in the course of the 19th round of the N.S.S.

## MINIMUM WAGES

One of the protective measures to improve incomes of agricultural labourers is the Minimum Wages Act, 1948, which *inter alia* applies to employments in agriculture. In so far as agricultural employments are concerned section 3 (1) (d) of the Act lays down that the appropriate Government may, instead of fixing minimum rates of wages for the whole State, fix such rates for a part of the State or for any specified class or classes of such employments in the whole State or part thereof.

Minimum wages for agricultural workers have been fixed in most of States and by the Central Govt. in certain agricultural farms/research institutes, military farms and depots and archaeological gardens at Delhi, Agra, Lucknow, Deeg and Khajuraho.

Consumer Price Index numbers for agricultural Labour on base 1960-61 (July-June) = 100 from Sept. 1964 onwards are being published by the Labour Bureau, Govt. of India for 14 States, together with all India figures, regularly every month in the *Indian Labour Journal*.

## WORKERS' EDUCATION

A semi-autonomous body called the Central Board for Workers' Education consisting of the representatives of Government, employers, workers and educational institutions has been set up for carrying on workers' education. The Board is invested with full authority for the framing and execution of the programmes in cooperation with trade unions, educational institutions, etc. It is financed by grants-in-aid from the Government of India.

The Board has so far opened 30 Regional and 43 Sub-Regional Workers' Education Centres in different parts of the country. Of the 43 Sub-Regional Centres, six have since been converted into full-fledged Centres.

Upto the end of March 1966, 7,384 Worker-Teachers and 3,25,795 workers have been trained.

## Training-cum-Orientation Course

Under the scheme, special instructions in business management are given to the selected trainees during the last 9 months of the 18th months' institutional training under the Craftsmen Training Scheme. So far (March 1966), these revised courses have been sanctioned

n Assam, Gujarat, Kerala, Madhya Pradesh, Madras, Maharashtra, Mysore, Punjab and Uttar Pradesh.

**Trade Union Methods:** Over 3,25,000 Industrial workers have received training in trade union methods and philosophy under the three-tier country-wide scheme of workers' education. Nearly 33,730 workers are undergoing training at various centres (March, 1968).

### CODE OF DISCIPLINE

The Code of Discipline lays down certain do's and don'ts both for managements and unions with a view to ensuring better discipline in industry. Managements have undertaken not to increase work-loads unless agreed upon, not to support or encourage unfair labour practices, to take prompt action for the redress of their grievances and to recognise the unions which fulfil certain agreed conditions. Unions on the other hand have undertaken not to indulge in physical duress, non-peaceful and rowdy demonstrations, to discourage unfair labour practices. Both the managements and unions have also agreed not to take any unilateral action in an industrial matter but to settle disputes at appropriate levels, not to resort to strike or lock-out without notice or to coercion, intimidation, victimisation or go-slow tactics, to establish a mutually agreed grievance procedure for the speedy settlement of disputes and to take prompt action to implement awards, agreements and settlements. The Code applies to both the public and the private sectors.

The Central Implementation and Evaluation Committee has decided that a review of the working of the Code of Discipline in all its aspects, particularly the functioning of the State Implementation Committees, should be undertaken and placed before the next Indian Labour Conference. The eleventh meeting of the Committee was held on November 26, 1965. Besides discussing some individual cases of infringements of the Code of Discipline, the Committee took some important decisions. These are described below:

- (i) when a union is recommended for recognition by the Implementation machinery after proper verification of its membership, the employer must recognise it within a month. If he fails to do so, he should be considered responsible for infringing the Code of Discipline and action would be taken against him by the Central Organisation concerned.
- (ii) A union which is not affiliated to any of the four central organisations of workers, should wait for a period of one year after it has accepted the Code of Discipline before its claim for recognition can be considered.
- (iii) When a breach of the Code of Discipline by a union has been established by the appropriate Implementation Machinery, it would be open to the employer concerned to de-recognise it.

All public undertakings working as companies and corporations are already covered by the Code. The Reserve Bank of India, the State Bank of India, the Life Insurance Corporation and the General Insurance Companies and their employees' organisations have accepted the Code of Discipline with certain clarifications. The Port Trusts, the private banks and their employees' organisations too have accepted the Code with some clarifications except those on the criteria for Recognition of Unions. The Ministry of Railways and the Ministry of Defence are also being persuaded to adopt the Code.

During 1965 the Central Implementation and Evaluation Division received 1,399 complaints about breaches of the Code of Discipline in the Central sphere. Of these, 233 did not require action as these were referred to the Division only for information or pertained to cases which were subjudice. Of the remaining cases, 1,166 cases on which action was required to be taken by the C.I. & E. Division, 85 were not substantiated on enquiry; in 61 the parties were brought

together and mutual settlements were arrived at; in 453 the infringements were either rectified or parties were advised to avoid them in future and the rest of the cases have been taken up with the parties concerned for rectification.

**Industrial Truce Resolution:** The Truce aims at total elimination of work stoppages, improvement in production and productivity, reduction of costs to the maximum possible extent, ensuring price stability through organisation of Consumers' Cooperatives for industrial workers, increasing savings etc.

**Voluntary Arbitration:** Voluntary arbitration which the Code of Discipline advocates as a means of settling disputes has been further stressed in the Industrial Truce Resolution. Since the inception of the Industrial Truce Resolution voluntary arbitration is being agreed to in more and more cases. Of the 2,264 cases in the Central sphere, in which conciliation failed during the period Nov. 1962-Dec. 1965, voluntary arbitration was agreed to in 518 cases.

### THE SCHEME OF JOINT MANAGEMENT COUNCILS

The Industrial Policy Resolution of 1956 stated that "in a socialist democracy, labour is a partner in the common task of development and should participate in it with enthusiasm."

The essential features of the scheme are consultation, sharing of information and the delegation of some administrative responsibilities.

At present the scheme of Joint Management Councils is in operation in 116 establishments in the public, private and cooperative sectors. These include manufacturing, mining, plantation and banking industries. Efforts are being directed to extend the scheme to as many establishments as possible. The Government at the Centre and in the States have set up special agencies for expeditious implementation of the scheme.

### TRIPARTITE LABOUR MACHINERY

The Tripartite Labour Machinery at the Centre consists of (a) Indian Labour Conference, (b) Standing Labour Committee and (c) Industrial and other Committees. There is also the Labour Ministers' Conference, which though not tripartite in character, is closely associated with the tripartite labour machinery.

The Indian Labour Conference advises the Government of India on all labour matters referred to it.

The Standing Labour Committee, though originally intended to be a Standing Committee of the Indian Labour Conference and was to examine such questions as might be referred to it by the Conference or the Government, now functions as an independent body.

Many other Industrial Committees also have been set up to consider the problems peculiar to individual industries and make suitable recommendations.

### LABOUR ADMINISTRATION

Apart from the main Secretariat of the Ministry of Labour it has several attached and subordinate offices. The activities of some of these have been described in the relevant sections, such as Miners' Welfare Fund, and notes on some others are briefly given below.

**Chief Labour Commissioner** in the Ministry of Labour, Employment and Rehabilitation.—The Chief Labour Commissioner is responsible for prevention and settlement of industrial disputes, enforcement of labour laws, promotion of labour welfare and maintenance of healthy relations in the undertakings falling in the Central sphere and verification of membership of trade unions. A Central Institute for Training in Industrial Relations has also been set up under him for imparting specialised training to the officers of the industrial relations machinery at the Centre and in the States. There are two

Deputy Chief Labour Commissioners and nine Regional Labour Commissioners working under him.

**Director General of Factory Advice Services and Labour Institutes:**—The organisation functions in an advisory capacity to co-ordinate and ensure uniformity in the administration of the Factories Act and the rules framed thereunder relating to safety, health and welfare of workers in factories. It is also responsible for the administration of the Indian Dock Labourers Act 1934, the Indian Dock Labourers' Regulations Act 1948 framed thereunder and also the Dock Workers (safety, health and welfare) Scheme 1961. The organisation has under its control the Central Labour Institute at Bombay and the three Regional Labour Institutes at Calcutta, Madras and Kanpur which provide a comprehensive service to industry in the country as a whole on labour and allied problems relating to the human factor.

The organisation has been entrusted with the work of implementation of the Schemes for Shram-Vir National Awards and National Safety Awards and a scheme for the setting up of a National Safety Council to ensure the fullest participation of all the parties concerned in creating safety consciousness in industry.

### EMPLOYMENT FOR HANDICAPPED

Special Employment offices for the physically handicapped are at present functioning at Bombay, Delhi, Madras, Hyderabad, Calcutta, Kanpur, Bangalore, Ahmedabad and Jullundur.

### CENTRAL LABOUR INSTITUTE

The Institute comprises the following sections: (1) Industrial Safety, Health and Welfare Centre, (2) Industrial Hygiene Laboratory, (3) Productivity Centre, (4) Staff Training Centre, (5) Industrial Physiology Section, (6) Industrial Psychology Section, (7) Library-cum-Information Centre, (8) Training Centre, and (9) Industrial Medicine Section.

The Government of Maharashtra has made available free of cost an 18-acre plot of land near Sion in Bombay and the building for housing the Institute has been constructed at a cost of about Rs. 30 lakhs. The opening ceremony of the Institute by Dr. S. Radhakrishnan took place on Feb. 9, 1966.

### INDIA AND THE I.L.O.

India joined this organisation at the very start and since 1922 has been one of the ten countries of chief industrial importance and as such has been allotted a permanent seat on the Governing Body of the Organization. India also contributes liberally towards the finances of the Organisation. For 1966 India's contribution amounts to U.S. \$5,91,833 which is 2.91 per cent of the total contribution of all member States, as against U.S. \$5,084,468 for 1965 which is 25 per cent. of the total contribution of all member States. India's share in the appointments of the office is, however, somewhat inadequate.

At the headquarters in Geneva the number of Indian nationals employed in 1965 as PI and above is 16. The entire staff of the Indian Branch in New Delhi is Indian.

India has been the venue of two Asian Regional Conferences, the first in 1947 and the fourth in 1967.

India has been receiving technical assistance from the I.L.O. in the spheres of manpower, vocational training, Rural Employment Promotion, Productivity, and so on and experts from India have been recruited by the I.L.O. for assignments in other underdeveloped countries in such subjects as Cooperation, Cottage Industries and Employment Information.

Out of 122 Conventions adopted by the International Labour Conference, India has so far ratified 30 Conventions. She has in addition incorporated into her national legislation the essential features of many other Conventions.

**BONUS COMMISSION\***

The Commission was appointed on Dec. 6, 1961. It submitted its report to the Government in January 1964. According to the report, every worker should be guaranteed a minimum bonus of four per cent of his consolidated wage whether his employer makes a profit or not, or Rs. 40 whichever is higher, and a maximum limit of bonus at 20 per cent of the total annual earnings (basic and dearness allowance).

**Modification**

The Govt. of India has accepted the Bonus Commission's recommendations, subject to certain modifications relating to prior charges on gross profits before amounts available for distribution are computed. Such prior charges include direct taxes and fixed percentages of return on capital as well as provision for reserves.

The commission's formula is applicable also to public undertakings which compete with the private sector.

Existing agreements between managements and their employees providing for a larger amount of bonus will not be disturbed, but whenever a dispute arises, the commission's formula will prevail.

The modifications introduced by the Government are :

(1) In computing the "available surplus," all direct taxes for the time being in force will be deducted as prior charges. Tax concessions given to the industry to provide resources for development will also be accepted as prior charges. Steps are to be taken to ensure by law that the amounts involved in such concessions are used for the purposes for which they are given.

(2) The rate of return on capital to be allowed as a prior charge deductible before calculating available surpluses should be : (A) The actual rate payable on preference share capital, (B) eight per cent., taxable, on paid-up equity capital, and in the case of banks 7.5 per cent; and (C) six per cent. on reserves, in the case of banks five per cent.

(3) The Government considered it desirable that beyond a certain limit, bonus should be paid in the form of securities or investment, instead of in cash. This matter is to be discussed and decided by negotiations with the parties concerned, including labour organisations, and, if necessary, by tripartite discussions.

The President issued an ordinance embodying the Government's decision on the recommendations of the Bonus Commission on May 31, 1965.

The Bill was passed in the Lok Sabha and Rajya Sabha on Sept. 9, 1965 and Sept. 22, 1965 respectively.

The Payment of Bonus Act received the assent of the President on Sept. 25, 1965.

Subject to the maximum of 20 per cent which an employee is entitled by way of bonus, the Act protects the benefits which the employees got in the previous accounting year, as given in Section 34 of the Act. The Section reads as follows :

If in respect of any accounting year the total bonus payable to all the employees in any establishment under this Act is less than the total bonus paid or payable to all the employees in that establishment in respect of the base year under any award, agreement, settlement or contract of service, then, the employees in the establishment shall be paid bonus in respect of that accounting year as if the allocable surplus for that accounting year were an amount which bears the same ratio to the gross profits of the said accounting year as the total bonus paid or payable in respect of the base year bears to the gross profits of the base year.

\* Sections 33, 34 (2) and 36 were struck down by the Supreme Court as being "ultra vires" of Article 19.

**CHRISTIAN MISSIONS IN INDIA****CONGREGATIONAL SOCIETIES****The Evangelical Alliance Mission.**

*Western India Headquarters* :—Amalner, Jalgaon District.

**SALVATION ARMY**

The work of the Salvation Army in India and Ceylon was commenced in 1882 by the late Commissioner Booth-Tucker and was for many

years under his control, with Headquarters in India. For some time now, the areas occupied have been divided for administrative purposes into 6 Territories, (2 of which are outside India) each under a Territorial Commander; and one smaller Command.

**North-Eastern Territory.**—The area in this Territory is the Salvation Army work in the Punjab (India), Uttar Pradesh, Orissa, Bengal, Delhi, Assam, Bihar, Manipur and Cachar.

Evangelistic work is extensively carried on. There are boarding and day schools, Social Service Centre in Calcutta, a Young Women's Hostel, and orphanages for both girls and boys. A home and school for the Blind at Kalimpong. 'Red Shield' Guest House, Calcutta.

Territorial Headquarters: 37, Dharamtala Street, Calcutta 13.

Territorial Commander:—Lt. Commissioner Arthur G. Long.

**Madras and Andhra Territory.**—Embraces Madras City, the central and northern districts of Madras, Andhra Pradesh and Mysore.

Territorial Headquarters:—The Salvation Army, 1C, Bitherdon Road, P.O. Box 453, Vepery, Madras 7.

Territorial Commander:—Lt. Commissioner S. Gnanaseelan.

Chief Secretary:—Lt. Col. Clifford Draper.

**Southern India Territory.**—The Territorial Headquarter is in Trivandrum in Kerala State.

In 1,128 Corps and Centres of work, the majority of officers labour among the village population. The Army has a membership in South India of 107,222.

This territory is divided, for administrative purposes into 14 divisions, 5 among the Tamil-speaking people and 9 among those who speak Malayalam.

The Territory runs the Catherine Booth Hospital at Nagercoil and the Evangeline Booth Leper Hospital at Puthencurizu in Central Kerala.

Territorial Headquarters:—Kowdiyar, Trivandrum 3.

Territorial Commander:—Commissioner J. Dahya.

**Western India Territory.**—This territory comprises Corps 247; Outposts 515; Social Institutions 16; Day Schools 65; Boarding Schools 2; Training College 1.

Territorial Headquarters:—P.O. Box 4510, Morland Road, Byculla, Bombay 8. B. C.

Territorial Commander:—Col. Henry Warren

## ELECTRIC POWER DEVELOPMENT

(By courtesy of the Central Water and Power Commission, Power Wing.)

THE revised figures in respect of the aggregate generating capacity in kW for 1963-64 and the provisional figures for 1964-65 are given below: 1963-64: 6,228,533; 1964-65: 7,335,897.

The total installed capacity at the end of March, 1964 was 6,228,533 kW, of which 3,166,764 kW was water power; 2,696,480 kW steam and 365,289 kW oil power. Out of the total capacity of 7.6 million kW on 31st March 1964, which includes public utilities and non-utilities, electricity supply undertakings in the public sector accounted for 4.7 million kW, public limited companies 1.5 million kW and industrial establishments meeting their own requirements 1.4 kW million.

The production and sale of electric power for the years 1963-64 and 1964-65 were as follows (in million kWh):

|                       | Generated  | Sold       |
|-----------------------|------------|------------|
| 1963-64               | 25,497,772 | 21,379,664 |
| 1964-65 (Provisional) | 29,542,754 | 24,425,486 |

An analysis of electric power consumption in million kWh is given below. The figures in

brackets show the percentage of total energy consumption.

|                                                     | 1963-64                     | 1964-65<br>(Provisional)    |
|-----------------------------------------------------|-----------------------------|-----------------------------|
| Domestic or Residential light and small power .. .. | 2,062,399<br>(9.7)          | 2,314,466<br>(9.5)          |
| Commercial light and small power .. ..              | 1,179,716<br>(5.5)          | 1,497,171<br>(6.1)          |
| Industrial Power .. ..                              | 15,705,179<br>(73.5)        | 17,421,159<br>(71.3)        |
| Traction .. ..                                      | 477,923<br>(2.2)            | 873,237<br>(3.6)*           |
| Public lighting .. ..                               | 244,470<br>(1.1)            | 277,423<br>(1.1)            |
| Irrigation .. ..                                    | 1,153,180<br>(5.4)          | 1,415,847<br>(5.8)          |
| Water Works .. ..                                   | 556,797<br>(2.6)            | 626,183<br>(2.6)            |
| <b>TOTAL .. ..</b>                                  | <b>21,379,664<br/>(100)</b> | <b>24,425,486<br/>(100)</b> |

The following statement shows the number of electrified towns and villages at the end of 1963-64.

| Population              | Number of towns or villages | Number with electric supply |
|-------------------------|-----------------------------|-----------------------------|
| Over 100,000 .. ..      | 75                          | 75                          |
| 50,000 to 100,000 .. .. | 111                         | 111                         |
| 10,000 to 50,000 .. ..  | 1,272                       | 1,227                       |
| Below 10,000 .. ..      | 5,70,051                    | 39,803                      |
| <b>TOTAL .. ..</b>      | <b>5,71,509</b>             | <b>41,216</b>               |

\* 1964-65 fig. includes 409,936 mill. kWh used by Railways from their own generation in Chola Power Station.

Some individual industries have power stations of their own. The number of installations and the installed capacity are as follows (as on 31st March, 1965):

| Industry                 | No.        | Capacity (kW)  |
|--------------------------|------------|----------------|
| Aluminium (Primary)      | 5          | 22,832         |
| Aluminium (Secondary)    | 9          | 250            |
| Cement (Primary)         | 26         | 124,283        |
| Cement (Secondary)       | 24         | 630            |
| Chemicals                | 34         | 22,681         |
| Collieries               | 148        | 63,270         |
| Copper (Primary)         | 1          | 8,975          |
| Copper (Secondary)       | 1          | —              |
| Cotton Textiles          | 331        | 121,944        |
| Ferromanganese           | 6          | 32             |
| Fertilisers              | 5          | 82,403         |
| Gold                     | 1          | 6,700          |
| Iron (Primary)           | 7          | 311,794        |
| Iron & Steel (Secondary) | 16         | 800            |
| Jute                     | 75         | 27,558         |
| Oil & Petroleum          | 6          | 9,591          |
| Paper                    | 24         | 79,441         |
| Silk                     | 17         | 1,480          |
| Soap                     | 10         | 532            |
| Sugar                    | 100        | 102,229        |
| Tanneries                | 7          | 737            |
| Wool                     | 10         | 3,574          |
| Miscellaneous            | 1          | 66             |
| Engineering              | 25         | 4,454          |
| <b>TOTAL</b>             | <b>889</b> | <b>996,625</b> |

The generating plant capacity (in public utilities) by ownership is as follows:

| Capacity (kW)               |                  |                  |
|-----------------------------|------------------|------------------|
|                             | 1963-64          | 1964-65          |
| State owned (Public Sector) | 4,741,709        | 5,743,748        |
| Companies (Private Sector)  | 1,486,824        | 1,592,149        |
|                             | <b>6,228,533</b> | <b>7,335,897</b> |

The number of undertakings reckoned on ownership basis at the end of 1963-64 and 1964-65 was distributed as follows:

|                         | 1963-64    | 1964-65    |
|-------------------------|------------|------------|
| State Government        |            |            |
| State Electricity Board | 23         | 23         |
| Power Corporation       | 1          | 1          |
| Municipality            | 57         | 52         |
| Companies               | 218        | 194        |
| <b>TOTAL</b>            | <b>299</b> | <b>270</b> |

The total number of consumers at the end of 1963-64 was 6,925,750 in all (Domestic 5,110,782; Commercial 1,196,409; Industrial 241,791; Public lighting 37,316; Irrigation 335,207).

The State-wise analysis of plant, generation and sales for 1964-65 is as follows:

| State                                 | Installed capacity (kW) | Energy generated (mln. kWh) | Energy sold (mln. kWh) | Capacity in Industrial Establishments (kW) | Annual per capita consumption (excluding self-gen. industries & railways) (kWh) | Annual per capita consumption (including self-gen. industries & railways) (kWh) |
|---------------------------------------|-------------------------|-----------------------------|------------------------|--------------------------------------------|---------------------------------------------------------------------------------|---------------------------------------------------------------------------------|
| Andhra Pradesh                        | 323,851                 | 1,388,871                   | 894,075                | 48,255                                     | 23.29                                                                           | 27.62                                                                           |
| Assam                                 | 59,865                  | 73,897                      | 59,051                 | 9,516                                      | 4.46                                                                            | 6.64                                                                            |
| Bihar                                 | 505,474                 | 2,349,530                   | 1,757,265              | 291,409                                    | 35.07                                                                           | 55.54                                                                           |
| Gujarat                               | 547,499                 | 1,934,344                   | 1,577,201              | 34,699                                     | 69.66                                                                           | 74.54                                                                           |

## SOME ALL INDIA CORPORATIONS

## AGRICULTURAL REFINANCE CORPORATION

Amar Building, P.B. No. 363, Bombay-1.

The Agricultural Refinance Corporation started functioning from 1st July 1963.

**Authorised Capital:**—Rs. 25 crores divided into 25,000 shares of Rs. 10,000 each.

**Subscribed Capital:**—Rs. 5 crores consisting of 5,000 shares of Rs. 10,000 each.

**Objects:** The Agricultural Refinance Corporation is primarily a refinancing agency and its object is to provide financial accommodation of a medium-term or long-term nature to the various special schemes of agricultural development which cannot be satisfactorily financed by the existing credit agencies either on account of the volume of funds involved or the terms and conditions of repayment or because the projects as such cannot be brought within the normal rules of business under which the land mortgage banks and State Co-operative banks are functioning.

**Amount disbursed:** As at the end of March 1966 the Corporation disbursed a sum of Rs. 415.31 lakhs to the central land mortgage banks and Rs. 8.30 lakhs to the scheduled banks under the various schemes approved by it.

**Chairman:** M. R. Bhide, Deputy Governor, Reserve Bank of India; **Managing Director:** V. Sivaraman; **Secretary:** Dr. M. V. Hate.

## CEMENT CORPORATION OF INDIA LTD.

(A Govt. of India Undertaking)

National Herald Building, 5-A, Bahadur Shah Zafar Marg, New Delhi-1.

Registered under the Indian Companies Act in 1965 under the Ministry of Industry.

The Corporation is charged with the responsibility of installing additional capacity of producing 1.6 million tonnes of cement annually as soon as possible and at the latest by the end of the Fourth Plan in 1970-71.

**Chairman:**—Dr. B. V. Keskar; **Managing Director:**—H. D. Singh.

## CENTRAL ROAD TRANSPORT CORPORATION LIMITED

18, Rabindra Sarani, Calcutta 1.

The Corporation was incorporated on 6th March, 1964 with an authorised capital of Rs. 2 crores divided into 2 lakh equity shares of Rs. 100 each.

The main function of this Corporation is to supplement the transport capacity by road on inter-state routes in India, specially the eastern sector of the country. The Corporation has a fleet of about 170 Leyland and TBM trucks which was expected to rise to 200 by March, 1967. The trucks of the Corporation are at present plying on Calcutta, North Bengal-Assam, Calcutta-Delhi and Calcutta-Bombay routes.

The activities of the Corporation are expected to be extended on almost all important routes in India in future.

**Chairman:**—P. C. Mathew; **Managing Director:**—A. K. Muzumdar.

## CENTRAL WAREHOUSING CORPORATION

(A Govt. of India Undertaking)

G-10, New Delhi South Extension Part II, New Delhi 16.

The Central Warehousing Corporation started functioning from July 1957. The Corporation was reconstituted with effect from 18th March, 1963, under the new Act—the Warehousing Corporation Act, 1962.

The main aims and objects of the warehousing scheme are:—

(i) To help storage of agricultural produce and other commodities as are declared to be "Notified Commodities" by the Central Government under Entry 33 of the concurrent list of the Seventh Schedule of the constitution by notification in the Government Gazette, on modern scientific lines so as to avoid loss due to dampness, pests, etc. and (ii) To assist the depositors to secure cheap credit, avoid distress selling and sell

his produce as and when the market is favourable to him.

The notified commodities referred to in para (i) will include essential Civil Supplies such as cement, steel, textiles, leather and rubber goods, coal and coal goods etc.

**Share Capital:**—The authorised capital of the C.W.C. is Rs. 20 crores divided into two hundred thousand shares of the face value of one thousand rupees each.

**Warehousing Facility:**—The Corporation had, by the end of March 1965, 85 warehouses with a total storage capacity of 2.07 lakh tonnes.

The stocks at the end of March 1965 stood at 1.09 lakh tonnes and the percentage of occupancy of warehouses was 53. About 118 types of commodities were handled at these warehouses.

By the end of March 1965, the total built up capacity owned by the Corporation was 1,06,065 tonnes.

**Credit Facility:**—The various scheduled banks make advances against the pledge of warehouse receipts issued at the warehouses.

The total outstanding advances against the pledge of warehouse receipts issued by the Central & State warehouses was over Rs. 12 crores as at the end of March, 1965.

**General:**—The C.W.C. conducts training courses for Superintendents and Technical Assistants in which intensive training (both theoretical and practical) is given on the various aspects of warehousing business and other connected matters. By the end of March 1965, 827 candidates were trained by the C.W.C.

**State Corporations:**—The State Governments have with the approval of the Central Warehousing Corporation established a Warehousing Corporation in each State.

The 14 S. W. C. had, by the end of March 1965, set up 444 warehouses, 93 sub-warehouses and a cold storage with a total storage capacity of 5,60,712 tonnes.

**Mg. Director:** C. S. Ramachandran.

**DEPOSIT INSURANCE CORPORATION**

113, Clive Road, Masjid Bunder,  
P. Bag No. 5127, Bombay 9.

Established on the 1st of January 1962.

Main object: To give a measure of protection to depositors, in particular small depositors, from the risk of loss of their deposits in the event of a bank's inability to meet its liability.

Every functioning commercial bank covered by the Banking Regulation Act, 1949 is registered as an insured bank with the Corporation and all its depositors (except Central and State Governments, Foreign Governments and Banking Companies) get the protection afforded by the Corporation. The Corporation provides insurance to the extent of Rs. 1,500 in respect of each depositor. The limit is in respect of the total amount held by a depositor in all his deposit accounts in the same right and capacity with an insured bank at its offices in India.

The insured banks are required to pay to the Corporation a premium on their deposits at the rate of 5 paise for every one hundred rupees per annum. The amount of premium received from banks from time to time is held in the Deposit Insurance Fund which is utilised for payment of the claims of the depositors.

The Corporation has a capital of Rs. one crore which is held by the Reserve Bank of India.

*Chairman*: P. C. Bhattacharyya; *Manager*: Mangesh S. Nadkarni.

**EXPORT CREDIT & GUARANTEE CORPORATION LTD.**

(A Government of India Concern.)  
4, Rampart Row, Bombay 1.

The main object of the Corporation is to facilitate the growth of India's Export trade by providing credit insurance cover to Indian exporters and furnishing guarantees to banks with a view to assisting Indian exports to get credit facilities necessary for expanding their export trade.

In 1965, the policies and guarantees in force were 1,584 as against 1165 in the previous year. The value of risk covered amounted to Rs. 55.04 crores as against Rs. 34.96 crores in 1964. The premium income rose to Rs. 13.46 lakhs as against Rs. 8.93 lakhs in the previous year.

The authorised capital of the Corporation is Rs. 5 crores of which Rs. 1 crore is paid up.

*Chairman*: B. R. Patel I.C.S.; *Managing Director*: C. M. Ghorpade; *Secretary*: C. K. Srinivasan.

**THE FILM FINANCE CORPORATION LTD.**

"White House", 91, Walkeshwar Road,  
Bombay 6.

Established in 1960.

The authorised capital of the Corporation is Rs. one crore. The issued and paid up capital is Rs. 50 lakhs. This is wholly subscribed by the Central Government.

To supplement this capital an amount of Rs. 40 lakhs has been received by the Corporation by way of loan from the Central Government.

Profit in Rs. lakhs: 0.27 in 1961-62; 1.65 in 1962-63; 2.58 in 1963-64. In 1964-65 it suffered a loss of Rs. 1.28 lakhs.

The total loans sanctioned upto March 31, 1966 amounted to Rs. 1,35,22,067 of which a sum of Rs. 1,08,60,255 has been disbursed. The loans and advances outstanding on that date aggregated to Rs. 71,41,386.

The number of applications received and sanctioned in 1965-66 were 37 and 8 respectively. The total amount involved was Rs. 1,03,78,832 and Rs. 20,52,582 respectively. 3 applications which were accepted involving a sum of Rs. 6,95,000 were withdrawn/cancelled in 1965-66. The number of applications received and sanctioned from inception till 31st March 1966 is 161 including 87 for Hindi films and 46 respectively.

101 applications for a sum of Rs. 3,18,40,910 were rejected in full or part and 14 applications involving a sum of Rs. 27,83,250 lakhs were under consideration.

21 pictures have been released upto March 1966. Loans disbursed to them amount to Rs. 57,03,018. Out of these 21 producers, seven have paid back the loans with interest amounting to Rs. 20,66,745. Of the remaining, the amount recovered so far amounts to Rs. 11,95,730.

*Hon. Chairman*: M. D. Bhat. *General Manager*: V. C. Desai.

**THE FOOD CORPORATION OF INDIA**

153, Mount Road, Madras 2.

Established: 1st January 1965.

The head office of the Corporation is at Madras. Eight Regional offices of the Corporation have been set up at Hyderabad, Bangalore, Madras, Trivandrum, Bhubaneswar, Jaipur, Chandigarh and Ahmedabad, with jurisdiction extending over the respective States in the capitals of which they have been located. District offices are also being set up in some important centres in these States and also at Delhi.

Under the Act, the original capital of the Corporation shall be such sum not exceeding Rs. 100 crores as the Central Government may fix; however, the Central Government may from time to time increase the capital of the Corporation to such extent and in such manner as that Government may determine. *Chairman*: Naval H. Tata; *Managing Director*: Gajraj Singh.

**THE INDUSTRIAL CREDIT & INVESTMENT CORPORATION OF INDIA LTD.**

163, Backbay Reclamation, Bombay 1.

The Corporation was established in 1955 with the object of assisting industrial enterprises in the private sector by providing finance in the form of long or medium-term loans or equity participations, sponsoring and underwriting new issues of shares and securities, guaranteeing loans from other private investment sources, furnishing managerial, technical and administrative advice to Indian industry.

The authorised capital of the Corporation is Rs. 25 crores and paid-up capital Rs. 7.5 crores in 7.5 lakh ordinary shares of Rs. 100 each.

The Government of India have advanced to the Corporation 4 loans aggregating Rs. 32.50 crores. The International Bank for Reconstruction and Development has granted 6 loans aggregating U.S. \$140 million and the Agency for International Development a loan of U.S. \$6 million. Four lines of credit aggregating DM40 million have been obtained from the Kreditanstalt für Wiederaufbau (Federal Republic of Germany).

The Eleventh Annual Report for the year ending December 31, 1965, disclosed that the Corporation sanctioned financial assistance to 69 companies for a total of Rs. 2,420 lakhs (gross): Rupee assistance in the form of loans, underwriting of and direct subscriptions to Ordinary and Preference Shares and Debentures amounted to Rs. 1,240 lakhs to 34 companies and foreign currency loans for the equivalent of Rs. 1,180 lakhs to 46 companies. During the year, underwriting agreements for 22 issues for a total of Rs. 565 lakhs were signed.

The accounts for the year ended December 31, 1965, disclosed a net profit of Rs. 88,23,329, which together with the amount of Rs. 3,97,647 brought forward from the previous year made a total of Rs. 92,20,976.

*Chairman*: G. L. Mehta; *General Manager*: H. T. Parekh.

**INDUSTRIAL DEVELOPMENT BANK OF INDIA\***

Post Box No. 1241,  
Reserve Bank Building, Bombay 1.

The Industrial Development Bank of India (IDBI) was set up in July 1964, under a special statute, viz. the Industrial Development Bank of India Act, 1964. It is both an apex institution, co-ordinating the operations of banks and other financial institutions providing term finance to industry, and an agency providing direct financial assistance by filling in the gaps that remain after taking into account the assistance available from other institutions. It has been conceived as a

\* During the year 1965-66 the number of applications for assistance sanctioned in the form of refinance, direct loans, underwriting of shares and debentures, subscriptions to shares and bonds and rediscounting of bills, increased from 170 to 244 and the total assistance sanctioned from Rs. 50.5 crores to Rs. 70.1 crores. Refinance assistance sanctioned amounted to Rs. 21.8 crores against Rs. 21.9 crores in the previous year, while the disbursements totalled Rs. 22.3 crores (Rs. 21.2 crores). Direct loans amounted to Rs. 35.6 crores (Rs. 16.1 crores). While disbursement aggregated Rs. 19.9 crores (nil). The bank undertook underwriting of shares and debentures of Rs. 7.5 crores (Rs. 6.6 crores), while subscriptions to shares and bonds of financial institutions were Rs. 1.7 crores (Rs. 2.2 crores). Rediscounting of bills totalled Rs. 2.2 crores (Rs. 0.1 crore). Guarantees for loans and deferred payments amounted to Rs. 15.9 crores (Rs. 7 crores).

† Merged with India Tourism Transport undertaking from 1-10-1966 to form India Tourism Development Corporation.

financing as well as a developmental agency for locating and filling up the gaps in the industrial structure. A wholly owned subsidiary of the Reserve Bank of India, the Industrial Development Bank of India has been endowed with substantial financial resources and considerable operational flexibility.

*Authorised Capital:* Rs. 50 crores.

*Issued Capital:* Rs. 10 crores.

The operations of the IDBI fall into two broad groups: (i) assistance to other financial institutions and (ii) direct assistance to industrial concerns, either on its own or in participation with other institutions.

Since its inception on July 1, 1964 upto the end of December 1965, the IDBI sanctioned direct financial assistance on 61 applications in respect of 47 industrial concerns for a total amount of Rs. 53.70 crores, the distribution according to type of assistance being as follows: 17 loans for Rs. 35.33 crores, 40 underwriting arrangements in respect of equity, preference shares and debentures including convertible notes for Rs. 12.78 crores, and 4 guarantees for loans and deferred payments amounting to Rs. 5.59 crores. The amount of direct assistance disbursed by the Bank by way of loans and underwriting amounted to Rs. 2.78 crores. IDBI's assistance covered a wide range of industries, including such sophisticated sectors as petrochemicals, fertilisers and vital industries like alloy and special steels, cement, machinery manufacture, etc.

The IDBI took over the business of the Refinance Corporation for Industry Ltd. (RCI) on September 1, 1964.

Since the inception of RCI in 1958 upto the end of December 1965, 894 applications for refinance of loans (including export credits) for Rs. 143.5 crores were received, of which 622 applications for Rs. 97.6 crores were sanctioned. Total disbursements amounted to Rs. 74.4 crores, of which Rs. 59.8 crores were outstanding at the end of December 1965.

In addition, the IDBI also operates a scheme, introduced in April 1965, for the rediscounting bills/promissory notes arising out of sales of indigenous machinery pertaining to cotton textiles, jute, paper, cement, sugar, silk and art-silk industries on deferred payments basis. The number of institutions (including banks) eligible under the scheme now stands at 82. Total credit limits sanctioned under the scheme amounted to Rs. 15.45 crores at the end of December 1965 and the amount of bills rediscounted to Rs. 85 lakhs.

The IDBI also provides assistance to State Financial Corporations.

On 1st April 1966, the IDBI introduced a scheme for participating in industrial loans and guarantees to supplement its refinance operations with a measure of risk—sharing with other institutions on a systematic basis. The financial institutions covered under the scheme are those scheduled banks, State Co-operative banks and term-lending institutions which are eligible for refinancing facilities.

*Chairman:* P. C. Bhattacharyya; *Vice-Chairman:* Dr. B. K. Madan; *General Manager:* S. L. N. Simha.

## THE INDUSTRIAL FINANCE CORPORATION OF INDIA

(See Late Particulars)

## THE MINERALS & METALS TRADING CORPORATION OF INDIA LTD.

Express Bldg., 9 & 10, Bahadur Shah Zaffar Marg, New Delhi-1.

*Incorporated:* 29-9-1963.

*Authorised capital:* Rs. 5 crores.

The Corporation undertakes export of minerals and ores.

*Chairman:* Govind Narain; *Secretary:* Virendra.

## NATIONAL BUILDINGS CONSTRUCTION CORPORATION LIMITED

44, Ring Road, Lajpat Nagar III, Post Box, No. 3044, New Delhi-14.

The National Buildings Construction Corporation Ltd., was set up in November, 1960, with the principal objectives of reducing the cost of construction and improving the quality of work in the building industry. The Corporation has undertaken construction works to the tune of over Rs. 20 crores for the Central and State Governments, as well as for various public sector undertakings through open competitive tenders or through negotiations.

The authorised capital of the Corporation is Rs. 2 crores divided into 20,000 equity shares of Rs. 1,000 each.

*Chairman:* P. C. Malhotra; *Mg. Director:* D. Dutt; *Secretary:* V. P. Sarvaria.

## NATIONAL COAL DEVELOPMENT CORPORATION LTD.

Darbhanga House, Ranchi.

The National Coal Development Corporation was formed in September 1956, with an authorised capital of Rs. 50,00,00,000, divided into 5,00,000 equity shares of Rs. 1,000 each.

N.C.D.C. operations extend to five states viz. Bihar, Bengal, Madhya Pradesh, Orissa and Maharashtra. The total investment in the N.C.D.C. stands at Rs. 134 crores (March, '66). It produced 9.68 million tonnes of coal during the year 1965-66. It is a Government of India undertaking under the Ministry of Mines and Metals.

The collieries and projects have been divided into seven regions, each under a General Manager. These regions are: (i) Karanpura, (ii) Bokaro-Kargali and (iii) Giridih in Bihar, (iv) Korba and (v) Madhya Pradesh in the State of Madhya Pradesh, (vi) Talcher in Orissa and (vii) Nagpur in Maharashtra.

The most important of N.C.D.C. activities has been the opening of deep shaft mines for producing coking coal in the Central Jharia coalfields (Dhanbad, Bihar) with Polish collaboration. N.C.D.C. expect to produce about 14 million tonnes of coking coal by the end of the Fourth Plan. N.C.D.C. is at present operating one coal washery at Kargali. The Kathara washery being erected with Russian collaboration, having an annual capacity of three million tonnes of raw coal will be N.C.D.C.'s largest washery. It will cost Rs. 8 crores and is expected to be completed by the end of 1967.

N.C.D.C. has set up a net-work of large mechanised mines in Madhya Pradesh, Maharashtra and Orissa, which has been a great contributing factor to the industrial development of many backward areas in these regions. N.C.D.C. is one of the largest employers in the country with about 65,600 workers and staff on its pay roll.

An important scheme, under contemplation by N.C.D.C. during the Fourth Five Year Plan is the Ramgarh Chemical Complex. The scheme would be implemented in two stages at an estimated cost of Rs. 65 crores.

*Chairman:* S. Lall; *Managing Director:* S. T. Raja; *Deputy General Manager (Technical):* S. C. Dey.

## NATIONAL CO-OPERATIVE DEVELOPMENT CORPORATION

C56, South Extn. II, New Delhi-16.

The N.C.D. Corporation was set up in 1962.

The functions of the Corporation are to plan and promote programmes for the production, processing, marketing, storage, export and import of agricultural produce and notified commodities through cooperative societies. In this connection, the Corporation is specifically empowered to undertake the following activities:—

(a) to advance loans or grant subsidies to State Governments for financing co-operative societies and for employment of

staff for implementing programmes of cooperative development;

(b) to provide funds to State Governments for financing cooperative societies for the purchase of agricultural produce and notified commodities on behalf of the Central Government; and

(c) to plan and promote programmes, through cooperative societies for the supply of seeds, manures, fertilisers, agricultural implements and other articles for the development of agricultural produce.

During the financial year 1966-67, the Corporation has drawn up a programme of activities for which total financial estimate of about Rs. 20 crores has been worked out. The programme includes a variety of schemes relating to agricultural cooperatives such as subsidy to cooperative credit institutions of various types for additional managerial personnel and assistance in different forms to cooperative marketing and processing institutions. The Corporation would also be providing assistance towards a programme of cooperative godowns. The Corporation also subsidises the State Governments for strengthening the State Cooperative Departments. In addition to the schemes which are financed as part of the plan, the Corporation also utilises its owned funds for promoting a number of schemes such as technical cells in apex marketing societies, cooperative rice mills, etc. The Corporation also is assisting the National Agricultural Cooperative Marketing Federation and the All India Central Land Development Banks Cooperative Union Ltd.

*Chairman:* C. Subramaniam, Min. for Food & Agriculture, Govt. of India; *Dy. Chairman:* S. D. Misra, Dy. Minister in Charge of Co-operation, Govt. of India.

## THE NATIONAL INDUSTRIAL DEVELOPMENT CORPORATION LTD.

P.O. Box No. 458, Udyog Bhavan, Maulana Azad Road, New Delhi.

Main functions are (a) the investigation and initial processing of a number of vital projects considered necessary for filling up gap in the industrial structure of the country, (b) provision of consultancy and engineering services mainly to public sector projects and (c) the grant of special loans to certain selected industries for the purpose of modernisation, rehabilitation, etc.

The Corporation has an authorised capital of Rs. one crore of which Rs. 10 lakhs have been issued and subscribed by the Government.

The Corporation is acting as the agency of the Government of India for the grant of loans to jute and cotton textile industries for modernisation and rehabilitation and to machine tool units for expansion also. Loans sanctioned to these industries upto the end of March, 1966 amount to Rs. 28.02 crores, out of which Rs. 17.13 crores have so far been disbursed. The Corporation is not at present entertaining any fresh applications for loan.

*Chairman:* D. C. Bajjal; *Managing Director:* K. B. Rao; *Secretary:* K. C. Bhalla.

## NATIONAL MINERAL DEVELOPMENT CORPORATION LIMITED

61, Ring Road, Lajpat Nagar III, New Delhi-14.

*Administrative Ministry:* Ministry of Mines & Metals.

Started in November, 1958.

*Authorised Capital:* Rs. 15,00,00,000, divided into 1,50,000 equity shares of Rs. 1,000 each.

*Paid-up Capital:* Rs. 11,30,36,000.00. All shares are held by or in the name of the President.

The main business of the Corporation is to exploit minerals in the public sector, excluding coal, lignite, oil and natural gas, and for this purpose, the Corporation may purchase, take on lease or otherwise acquire mines for prospecting and developing, and work them for producing minerals.

The following projects have so far been assigned to the Corporation:

(i) Kiriburu Iron Ore Project, Kiriburu (Orissa); (ii) Diamond Mining Project, Panna (Madhya Pradesh); (iii) Copper Project, Khetri (Rajasthan); (iv) Iron Ore Project, Bailadila (Madhya Pradesh).

The Kiriburu Iron Ore Project has been completed. The other projects are in various stages of planning and construction.

**Chairman:** S. N. Bilgrami; **Secretary:** J. Padmanabha Iyer.

### NATIONAL PROJECTS CONSTRUCTION CORPORATION LTD.

E9, Defence Colony, New Delhi 3.

The Corporation, an enterprise in the public sector, sponsored by the Union Ministry of Irrigation & Power, was set up in 1957 with an authorised capital of Rs. 2 crores. Its paid-up capital at present amounting to Rs. 2 crores was subscribed by the Government of India and the State Governments of Madhya Pradesh, Bihar, Rajasthan, Kerala, Gujarat, Jammu & Kashmir, Punjab, Assam, Uttar Pradesh, West Bengal and Mysore. Central Government has subscribed Rs. 1 crore whereas the State Governments (except Mysore and Kerala which have subscribed Rs. 5 lakhs each) have subscribed Rs. 10 lakhs each to the Corporation.

The main object of floating this Corporation is to provide the Central and State Governments with an organisation capable of undertaking the execution of River Valley Projects and allied Civil Engineering works requiring high technical skill, mechanical execution, precision and strict adherence to specifications and quality standards.

The value of work done till the end of the financial year 1965-66 exceeded Rs. 9 crores by the Corporation.

**Managing Director:** A. R. Venkataraman; **General Manager & Chief Engineer:** Vacant; **Financial Adviser & Chief Accounts Officer:** B. L. Jain.

### NATIONAL RESEARCH DEVELOPMENT CORPORATION OF INDIA

Mandi House, Lytton Road, New Delhi 1.

The Corporation was incorporated on 31st December 1953 with an authorised capital of Rs. one crore. The paid-up capital is Rs. 34 lakhs as on 31st March 1966. All the shares are held by the President of India and/or his nominees.

The main function of the Corporation is to stimulate development and commercial exploitation of patents and inventions arising from national research efforts and where feasible, in the public interest, of patented inventions from individuals also. For this purpose, it forms a connecting link between research and industry.

Since its inception, the Corporation has successfully negotiated licences for 165 patents and processes: and out of these 90 have already gone into production by the end of March 1965. Amongst these, mention may be made particularly of carboxy methyl cellulose, infant food, synthetic pine oil, mica insulating bricks, Bituminous Emulsions, Plastipeel, Duplicating and Allied Black Inks, Carbions and ceramic capacitors. The value of production based on processes licensed by the Corporation and in production during 64-65 was Rs. 3.15 crores. The processes licensed by NRDC are all foreign exchange saver and potential foreign exchange earner.

Besides licensing of patents and processes, the Corporation's major activity is development of scientific research by arranging pilot plant and instituting developmental projects. Till now, the Corporation has instituted 17 projects at a cost of about Rs. 59 lakhs.

**Chairman:** Dr. Atma Ram, **Director General, Scientific and Industrial Research;** **Vice-Chairman:** Arvind N. Mafatlal; **Executive Director:** Dr. A. N. Kapur.

### NATIONAL SEEDS CORPORATION LIMITED

E-19, South Extension, Part II,  
Ring Road, New Delhi-16.

Incorporated as a Limited Company under the Companies Act, 1956 on March 19, 1963 with an authorised capital of Rs. 5,00,00,000. It is a Government of India Undertaking under the Ministry of Food & Agriculture (Department of Agriculture).

The Corporation aims at organising a healthy "seed" industry in the country. For this purpose it concentrates on production of Foundation Seed of promising varieties evolved by research and aims to introduce the quality concept of "certified seed" in the country. The Corporation at present produces foundation seed stocks of hybrid maize, sorghum (jowar), *bajra*, jute, berseem and other fodder crops, and some of the vegetables. It also produces certified seeds of some of these crops.

The Corporation has established two Foundation Seed Units—one at Hampur (Nainital-Tarai, U.P.) and the other at Nandikotkur (Kurnool, A.P.). The Corporation encourages progressive farmers in the production of certified seeds of various crops.

**Chairman:** I. J. Naidu; **General Manager:** Dr. Y. R. Mehta; **Secretary and Chief Administrative Officer:** J. Veeraraghavan.

### THE NATIONAL SMALL INDUSTRIES CORPORATION LTD.

(See Late Particulars).

### REHABILITATION INDUSTRIES CORPORATION LIMITED

(A Govt. of India Undertaking).

25, Free School Street, Calcutta 16.

The Corporation was incorporated in April 1959 with an authorised capital of Rs. 5 crores. All the shares are held by the President of India and/or his nominees.

The principal object of the Corporation is to create employment opportunities through industries for the large number of unemployed and partially employed displaced persons from East Pakistan as well as to promote or advance the setting up of industries to provide employment to the migrants from West Pakistan (who have entered Indian territory as a result of the recent conflict with Pakistan), repatriates from Burma & Ceylon and persons of Indian origin migrated from other countries with the intention of permanently settling in India.

In the last 42 months (May, 1966) the Corporation has organised 25 Industrial Units in different parts of India and created about 6,000 employment for the displaced persons through its own Industrial Units, assisted Industries and Industrial Estates.

**Chairman:** V. Ramakrishna; **Managing Director:** H. K. Ghosh, I.A.S.; **Jt. Managing Director and Secretary:** M. N. Chaudhuri, I.A.S.

### THE STATE TRADING CORPORATION OF INDIA LTD.

Express Bldg., 9 & 10; Bahadur Shah Zafar Marg,  
P.B. No. 79, New Delhi 1.

Incorporated on 18th May, 1956.

The authorised capital is Rs. five crores of 5,00,000 equity shares of Rs. 100 each.

The subscribed capital is Rs. two crores.

The President of India holds all the shares excepting three held by the officers of the Government of India in their official capacity.

The central aim of the Corporation is to broaden and enlarge the scope of Indian exports and to arrange for essential imports on an economical basis.

It has already helped 20 manufacturers to export 27 different products to 27 different countries.

The Corporation has significantly contributed to the development of India's trade abroad particularly with the East European countries, and has created new markets abroad for a large number of different commodities. Its total trade in 1964-65 was about Rs. 90-10 crores. The Corporation participates in international fairs and exhibitions and has trade centres-cum-depots and offices abroad.

**Chairman:** B. P. Patel; **Secretary:** Z. K. Joseph; **Financial Adviser:** M. L. Kala.

### UNIT TRUST OF INDIA

**Head Office:** Bombay Life Building, 45, Veer Nariman Road, Bombay-1.

The Unit Trust of India was established on Feb. 1, 1964 under the Unit Trust of India Act, 1963. The basic objective in establishing the Unit Trust of India is to afford the small investor a means of acquiring a share in the widening prosperity based on steady industrial growth of the country which combines the advantages of a minimum risk and a reasonable return.

A Unit Trust pools the savings of the community and invests them in securities of various types. To pool the savings, the Trust sells "units". All units rank equal for the distribution of income, no matter when they are acquired. The Trust offers one other important and unique advantage: it is always ready both to sell and buy its units at prices published by it. A Unit holder is thus assured of the liquidity of his investment.

It has an initial capital of Rs. 5 crores contributed as follows: the Reserve Bank of India Rs. 2.5 crores, the L.I.C. Rs. 75 lakhs, the State Bank and its subsidiary banks Rs. 75 lakhs and other scheduled banks and other specified financial institutions Rs. 1 crore.

The general direction and management of the affairs and business of the Trust is vested in a Board of Trustees, consisting of a Chairman appointed by the Reserve Bank, four other Trustees, also nominated by the Reserve Bank, one Trustee nominated by the L.I.C., and one Trustee nominated by the State Bank, two Trustees elected by other institutions contributing to the initial capital of the Trust. In addition, one Executive Trustee is appointed by the Reserve Bank. There is an Executive Committee consisting of the Chairman of the Board, the Executive Trustee and two other Trustees nominated in this behalf by the Reserve Bank.

Under the Unit Trust of India Act, 1963, the Trust has formulated the Unit Scheme 1964 under which units are being offered for sale to the public, from July 1, 1964.

Some salient features: Units are sold through the network of over 4,000 offices of the State Bank of India and its subsidiary banks as well as the commercial banks which have contributed to the initial capital of the Trust.

1,34,724 applications were received upto June 30, 1965, the sum subscribed to being over Rs. 19 crores.

The Trust is exempt from payment of income-tax and other taxes on income.

Income from the Unit Trust by individual unit holders upto Rs. 1,000 is free from income tax. Further, income from Unit Trust received by individuals and Hindu undivided families like interest on Government securities, will be treated as earned income for purposes of surcharge on income tax.

Units can be sold back to the Unit Trust of India any time from November 16, 1964 onwards. The sale and repurchase prices of units are determined in accordance with the provisions laid down in the Unit Scheme and are announced daily.

Transfer of units to third parties is possible after June 30, 1965. A unit holder can always transfer units in favour of a bank for purposes of borrowing.

**Board of Trustees:** B. S. Bhatt (Chairman); R. C. Sachdeva (Executive Trustee).

### THE MADRAS STATE WAREHOUSING CORPORATION

9/10, Moore Street, Madras-1.

Estd. : 2-5-1958. The State Government and the Central Warehousing Corporation are the only two shareholders having their capital on a 50 : 50 basis.

The authorised share capital of the Corporation is Rs. 2 crores.

The main functions are: (a) to acquire and build warehouses within the State; (b) to run warehouses in the State for storage of agricultural produce, seeds, manures, fertilisers and notified commodities and (c) to act as agent of the Central Warehousing Corporation or of the Government for the purposes of the purchase, sale, storage and distribution of agricultural produce, seeds etc.

The Corporation provides about 83,845 tonnes storage capacity in 27 of its warehouses of which ten are owned and constructed warehouses.

### THE MAHARASHTRA AGRO-INDUSTRIES DEVELOPMENT CORPORATION LIMITED

'AKASH-DEEP', 3rd Floor, French Bridge, Bombay-7 (WB).

Registered by Govt. of Maharashtra on 15th December 1965, under the Companies Act, 1956, as a Private Limited Company.

*Share Capital* : Its authorised capital consists of Rs. 2 crores.

*Objects* : To promote the supply of farm implements and machinery including equipment for food industries, dairy development, cattle development and thus help the process of modernisation of agriculture quickly, operating on as extensive a scale as possible.

*Chairman* : P. K. Savant, Minister for Agriculture, Govt. of Maharashtra; *Managing Director* : Dr. A. U. Shaikh, Secretary, Agriculture & Cooperation Department, Government of Maharashtra.

### MAHARASHTRA INDUSTRIAL DEVELOPMENT CORPORATION

(A Government of Maharashtra Undertaking)

Novelty Chambers, Grant Road, Bombay 7.

Estd. : Aug. 1962.

The functions of the Corporation are:—

to promote and assist in the rapid and orderly establishment, growth and development of industries;

to establish and manage industrial estates; to develop industrial areas selected by the State Government; and

to assist, financially, industries by loans to move their factories to industrial estates or areas.

The Corporation has so far undertaken development of 20 different areas and estates, including three functional estates, spread all over the State of Maharashtra. The Corporation has also undertaken major water supply schemes amounting to about Rs. six crores.

The Maharashtra Industrial Development Corporation has set up a separate division called the Maharashtra Investment Centre, which has its office on the 5th floor, Orient House, Mangalore Street, Ballard Estate, Bombay 1. The centre operates exclusively as a semi-official and non-profit making organisation, offering individual attention to specific industrial projects. Its

objects are:—to promote wider knowledge and understanding of industrial investment opportunities in Maharashtra; to guide Indian and foreign industrialists in industrial matters, to enable them to execute their projects speedily; to offer to investors Project Advisory Services; to survey industrial investment opportunities and carry out studies with respect to industries of importance to Maharashtra.

*Chairman* : G. D. Patil, (Deputy Minister, Industries, Planning and Electricity (Maharashtra State)).

*Member Secretary and Chief Executive Officer* : P. C. Nayak, I.A.S.

### MAHARASHTRA SMALL SCALE INDUSTRIES DEVELOPMENT CORPORATION LTD.

(A Govt. of Maharashtra Undertaking)

Bombay Life Building, 5th Floor, 45, Veer Nariman Road, Fort, Bombay 1.

The Corporation was registered on 19th Oct. 1962.

The objects of the Corporation are:—(i) Procurement of basic raw materials (which are in short supply) and arranging for their equitable distribution amongst the small scale industries units in the State; (ii) supply of machinery and equipment (particularly of indigenous origin) to the small scale industries on easy instalment basis; (iii) Helping the small scale industries in marketing their products of standard specifications.

The newly started Export Promotion Wing of this Corporation renders over-all assistance to the small scale manufacturers in the field of foreign trade.

*Chairman* : G. B. Newalkar; *Managing Director* : N. R. Rao.

### THE MAHARASHTRA STATE FARMING CORPORATION LTD.

## ALCOHOL INDUSTRY

INDUSTRIAL alcohol is a very valuable material in the manufacture of acetone, acetic acid, ether, chloroform, ethyl acetate, polyethylene, styrene, polystyrene, etc. It is also necessary as a solvent in the manufacture of fine chemicals, medical preparations, toilets, etc. Since the last war, its importance has increased. It is now essential in the manufacture of ammunition and of artificial rubber.

In 1964 there were as many as 62 distilleries capable of producing over 17.71 million gallons of rectified spirit alcohol. The trend of production has been as follows :

|      |                  |                  | '000 litres |  |
|------|------------------|------------------|-------------|--|
| Year | Rectified spirit | Denatured spirit |             |  |
| 1960 | 41,176.8         | 20,391.6         |             |  |
| 1961 | 51,710.8         | 42,129.6         |             |  |
| 1962 | 61,615.2         | 49,206.0         |             |  |
| 1963 | 87,000.0         | 56,400.0         |             |  |
| 1964 | 152,400.0        | —                |             |  |
| 1965 | 182,281.8        | —                |             |  |

Consumption of power alcohol in 1960 was assessed at 49.05 million litres and of industrial alcohol at 40.50 million litres.

(The details about the progress and achievements during the three plans have been fully discussed in the Directory for the year 1965-66).

It is estimated that during the Third Plan, Rs. 4.0 crores has been invested for attaining

a capacity target of 324 million litres of alcohol by 1965-66. The imported component is likely to be about Rs. 40 lakhs.

The installed capacity and actual production in thousand bulk gallons of power alcohol are given below :

|      |                    |            | (thousand litres) |  |
|------|--------------------|------------|-------------------|--|
| Year | Installed capacity | Production |                   |  |
| 1960 | 74,766.0           | 49,327.2   |                   |  |
| 1961 | 74,766.0           | 53,667.6   |                   |  |
| 1962 | 74,772.0           | 50,216.4   |                   |  |
| 1963 | 75,972.0           | 25,320.0   |                   |  |
| 1964 | —                  | 1,464      |                   |  |
| 1965 | —                  | 772        |                   |  |

Imports of alcohol are banned, but small quantities are imported along with drugs and perfumed spirits or in the form of liquors. Exports of alcohol are confined to despatches of denatured spirit to Burma and Ceylon and small quantities of rum.

The Tariff Commission was asked to inquire into the current ceiling prices of alcohol. It has recommended that the present miscellaneous state levies should be replaced by a uniform excise levy.

Power alcohol has been exempted from licensing provisions from July, 1966.

The annual drink bill of India is reported to be about Rs. 146 crores. Of this, one third is spent

on illicit liquor. Delhi stands first in the consumption of foreign styled liquor, followed by Mysore.

The fuel requirements of the industry is estimated at 2,50,000 tons of coal per annum in the final year of the Plan. The additional fixed investment is estimated at Rs. 4 crores, its foreign exchange component being about Rs. 40 lakhs. The additional employment during the Third Plan is estimated at 5,000.

Tentative 1970-71 estimates of demand versus supply of traditional raw materials. (Alcohol from Molasses).

| (1) Alcohol Demand          | Alcohol requirement (tonnes per year) |
|-----------------------------|---------------------------------------|
| Polythylene                 | 24,000                                |
| S B R                       | 80,000                                |
| Acetic Acid                 | 40,000                                |
| Butanol                     | 13,000                                |
| Styrene (excluding SBR)     | 15,000                                |
| PVC/Ethylene Dichloride     | 10,000                                |
| Butanol/Acetic Acid/Zethyl. | 20,000                                |
| Hexacol                     | 4,000                                 |
| DDT                         | 2,06,000                              |
| Miscellaneous and Potable   | 1,50,000                              |
|                             | 3,56,000                              |

## COTTAGE INDUSTRIES

### VILLAGE AND SMALL INDUSTRIES

**THIRD Plan : Rs. 264 crores.**

According to the working definition adopted by the Government, small-scale industries include all industrial units with a capital investment not exceeding Rs. 5 lakhs irrespective of the number of persons employed. Financial assistance to small industries is given by the Government, State Financial Corporations and banking institutions including the State Bank of India. Recently, measures were taken to make this assistance more effective.

The data about employment are extremely meagre. It is, however, very roughly estimated that at least 24 million persons are gainfully employed in these industries classified as under:—

| Name of Industry                                         | Persons employed in lakhs. |
|----------------------------------------------------------|----------------------------|
| Textiles .. .. .                                         | 75                         |
| Leather .. .. .                                          | 24                         |
| Wood .. .. .                                             | 21                         |
| Metals .. .. .                                           | 42                         |
| Pottery, Ceramics, Tiles, Bricks, etc.                   | 20                         |
| Vegetable Oils, Chemical Products, etc. .. .. .          | 10                         |
| Food including Hand-pounding .. .. .                     | 20                         |
| Dress and Toilet .. .. .                                 | 11                         |
| Miscellaneous including jewellery and toy making .. .. . | 17                         |
| <b>TOTAL ..</b>                                          | <b>240</b>                 |
|                                                          | (Estimated)                |

### THE KHADI AND VILLAGE INDUSTRIES COMMISSION

Established in April 1957.

Members of the Commission: U. N. Dhebar (*Chairman*); K. Arunachalam (*Vice-Chairman*); Dhawaja Prasad Sahu; Somdutt Vedalankar; Akshay Kumar Karan (*Member-Secretary*).

### STATE KHADI AND VILLAGE INDUSTRIES BOARDS

Almost in every State a statutory State Khadi and Village Industries Board has been constituted by the State legislature concerned. The Khadi and Village Industries Commission places the funds at the disposal of the State Khadi and Village Industries Board which employs the same for the development of khadi and village industries in the State. A limited number of institutions are now directly financed by the Commission. In the States where there is no statutory board an advisory board constituted by the State Government concerned advises on the measures necessary for the implementation of the programme for khadi and village industries.

The following industries, as provided in the schedule of Industries included in the Act, come under the purview of the Commission: Khadi (traditional and Ambar), Processing of Cereals and Pulses, Village Oil, Village Leather, Cottage Match, Gur and Khandisari, Palm-Gur, Non-Edible Oils and Soap Manufacture, Handmade Paper, Bee-Keeping, Village Pottery, Fibre, Carpentry and Blacksmithy, manufacture and use of manure and Methane gas from cow-dung and other waste products, and lime manufacture. The following industries are also included in the schedule recently: Manufacture of Shellac, Fruit Processing and Fruit Preservation, Manufacture of House-hold Utensils in Aluminium, Collection of Forest Plants and Fruits for Medicinal Purposes, Bamboo and Cane Work, Manufacture of Gum Resins and Manufacture of Katha.

The Khadi and Village Industries Commission provides financial assistance in the shape of grants and loans for the development of khadi and village industries.

The assistance is given in accordance with and at rates and on terms sanctioned by the Government of India in respect of each industry to the following:

(a) a State Government; (b) a board established under any law for the time being in force for the development of khadi and village industries; (c) a society registered under the Societies Registration Act, 1860 (21 of 1860) or under any other law for the time being in force in any State; (d) a cooperative society registered under the Cooperative Societies Act, 1912 (2 of 1912) or under any other law for the time being in force in any State; (e) a gram or village *panchayat* established under any State law for the time being in force; (f) an authority set up under any law for the time being in force relating to *bhoodan* or *gramdan*; (g) a trust created for public purposes of a charitable or religious nature; (h) an individual or institution engaged in research in khadi and village industries, subject to the condition that a grant or subsidy to an individual should not exceed Rs. 5,000 in any one case; and to an institution it should not exceed Rs. 50,000 in any one case. The ceiling of Rs. 5,000 for an individual and of Rs. 50,000 for an institution may, however, be exceeded with the prior approval of the Government; (i) any other individual, authority or body in accordance with the approved pattern and within the ceilings communicated by the Commission to the Government.

**Note :** 'Individual' means an artisan or any other worker undertaking activities falling under the purview of the Commission and for which grants and subsidies are given.

### INSTITUTIONAL PROGRESS

By the end of 1964-65 there were 999 registered institutions and 18,610 cooperative societies for khadi and village industries.

### Production

The production of khadi (including silk, woollen and ambar) was of the value of Rs. 22.09 crores in 1963-64 and of Rs. 20.98 crores in 1964-65. Consequent on the introduction of weaving subsidy scheme there has been a change in the calculation of cost of cotton khadi. As a result of this, there is a seeming fall in the valuation of cotton khadi (in respect of both production and sales) despite a substantial increase in its quantum of production and sales. The quantity of production actually rose from 715.07 lakh sq. metres in 1963-64 to 806.26 lakh sq. metres in 1964-65.

The value of production of village industries articles in 1964-65 was Rs. 48.06 crores as against Rs. 43.48 crores in 1963-64.

The following table shows the comparative details of production of khadi and village industries in 1963-64 and 1964-65.

| Industry                                 | (Rs. Crores) |              |
|------------------------------------------|--------------|--------------|
|                                          | 1963-64      | 1964-65      |
| Khadi .. .. .                            | 22.09        | 20.98        |
| Processing of Cereals and Pulses .. .. . | 3.08         | 3.67         |
| Village Oil .. .. .                      | 17.93        | 20.07        |
| Village Leather .. .. .                  | 2.28         | 2.37         |
| Cottage Match .. .. .                    | 0.08         | 0.08         |
| Gur and Khandisari: .. .. .              | 9.53         | 11.20        |
| Palm Gur .. .. .                         | 7.43         | 6.02         |
| Non-edible oils and Soap .. .. .         | 0.65         | 0.73         |
| Handmade Paper .. .. .                   | 0.32         | 0.36         |
| Beekeeping .. .. .                       | 0.39         | 0.49         |
| Village Pottery .. .. .                  | 0.99         | 1.13         |
| Fibre .. .. .                            | 0.61         | 0.75         |
| Carpentry and Blacksmithy .. .. .        | 0.06         | 0.13         |
| Lime .. .. .                             | 0.06         | 0.11         |
| Methane Gas .. .. .                      | 0.07         | 0.05         |
| <b>Total ..</b>                          | <b>65.57</b> | <b>69.04</b> |

### Sales

Sales of different khadi and village industries products increased from Rs. 60.98 crores in 1963-64 (Khadi Rs. 22.58 crores and village industries Rs. 38.40 crores) to Rs. 64.89 crores in 1964-65 (Khadi Rs. 21.12 crores and village industries Rs. 43.79 crores).

### Training

In all 5,84,320 persons were trained during the past 12 years under the aegis of the Khadi and Village Industries Commission. Of these 5,69,835 persons were trained in khadi and 14,485 persons in village industries.

### Research

Liberal grants have been made to promote research. The Commission's Central Research Institute for Village Industries at Wardha which is known as Jammalal Bajaj Central Research Institute for Village Industries has been in the field for some time now. As a result of financial assistance by the Commission improved implements such as ambar belni, ambar charkha, dhunal modhia, improved ghanis and chakkis have been introduced opening out possibilities of raising the productivity and income of the persons employed.

### Traditional Khadi

The Commission disbursed Rs. 16.84 crores for the development of traditional khadi industry during 1964-65 as against Rs. 15.30 crores in 1963-64.

**Production :** Production in 1964-65 was 448.19 lakh sq. mtrs. valued at Rs. 8.73 crores while in 1963-64 the figures were 354.10 lakh sq. mtrs. and Rs. 8.47 crores respectively.

### AMBAR CHARKHA PROGRAMME

During 1956-57, the Commission introduced the ambar charkha to produce better quality yarn. Since then the two schemes have been in operation side by side.

**Production :** During the year 1964-65 production of ambar cloth was 236.38 lakh sq. mtrs. valued at Rs. 5.27 crores against 228.77 lakh sq. mtrs. valued at Rs. 5.75 crores in 1963-64. The total production for the nine year period being 1,664.79 lakh sq. mtrs.

The number of Ambar Vidyalayas for training instructors and carpenters was as follows: Andhra 7, Assam 1, Bihar 3, Bombay (Bilingual) 19, Delhi 3, Kerala 4, Madhya Pradesh 3, Madras 5, Mysore 6, Orissa 1, Punjab 9, Rajasthan 6, Uttar Pradesh 10, West Bengal 2, Total 79.

### Sales of Khadi

The retail sales of khadi amounted to Rs. 21.12 crores during 1964-65 as against Rs. 22.58 crores in the previous year. The decrease in the amount of sales during 1964-65 was due to a change in the method of valuation after the introduction of weaving subsidy scheme. In terms of the old valuation, the sales value corresponding to Rs. 21.12 crores would be Rs. 24.40 crores. The bulk of the sales were effected through bhandars and bhavans.

### Employment in Khadi

During 1964-65 both the programmes together provided employment to 16.80 lakh spinners (12.80 lakh traditional and 4.00 lakh ambar) 1.50 lakh weavers and 0.86 lakh other persons employed in ancillary activities. The corresponding figures for 1963-64 were 16.25 lakh spinners (12.30 lakh traditional and 3.95 lakh ambar) 1.50 lakh weavers and 0.85 lakh other persons.

Through the programmes for village industries, employment opportunities were provided for 7.02 lakh persons.

## HANDLOOMS

As an industry providing gainful employment to a large number of rural craftsmen and helping preserve their traditional art, handloom carries its own importance in the country's economy.

## Production

The production of cotton textiles showed rise during 1963 and 1964. It increased from 6,972 million metres in 1962 to 7,303 million metres in 1963 and to 7,726 million metres in 1964, a level falling short by only some 78 million metres of the target of 8,504 million metres for the Third Plan. The estimated production of handloom and powerloom cloth was 8,874 million metres in 1963, 3,065 million metres in 1964 and 2,784 million metres in 1965 (upto November 1965.)

## Handloom Co-operatives

Against 13.88 lakh looms in the co-operative fold as on 31st March 1964, there were 13.96 lakh looms as on 31st March 1965. This is nearly 50 per cent of the known size of the industry. Similarly the number of weavers' co-operative societies has increased from 9,870 in 1957-58 to over 12,131 with 12.87 lakh weaver members at present. Under the Reserve Bank of India Scheme of Handloom Finance, the credit limits sanctioned have risen from Rs. 180.19 lakhs in 1957-58 to Rs. 589.65 lakhs in 1964-65.

The Reserve Bank of India also provided accommodation to State Co-operative Banks on behalf of Apex Weavers' Co-operative Societies under Section 17(2)(a) or (4)(c) of the R.B.I. Act at the Bank rate for purchase and sale of yarn aggregating Rs. 291 lakhs in 1963-64 and Rs. 580 lakhs in 1964-65 as compared to only Rs. 238 lakhs in 1962-63, Rs. 173.90 lakhs in 1961-62 and Rs. 42.50 lakhs in 1960-61.

## Marketing

Marketing is the crux of the problem of the handloom industry. It has to face the stiff competition from the well organised and mechanised mill sector. It is rendered all the more difficult because the handloom sector depends on the latter for its principal raw material. The All India Handloom Board has taken several steps for aiding the marketing of handloom products. Assistance is given for the opening of sales depots by State Co-operatives and primary weavers' co-operatives, for running mobile vans and push carts, for opening of inter-State depots and for arranging retail sales in the interior places through a system of hawkers, for doing publicity and propaganda and payment of a rebate on sales. Assistance for these schemes is given in the shape of grants. This aid has brought into being 1,647 sales depots, 43 inter-State sales depots, 50 central depots and 31 mobile vans. Government have also provided a subsidy in the form of rebate at the rate of 5 paise in the rupee on retail sales and 3 paise in the rupee on wholesale sale of handwoven fabrics to mitigate to a certain extent the lag between the competitive capacity of the mill industry and the handloom industry.

Publicity and Propaganda measures like holding of fashion shows, participation in exhibitions, release of press advertisements, bringing out posters, brochures, pamphlets and folders etc., setting up of kiosks at airports; erection of hoardings, issue of souvenirs on cloth etc., screening of cinema slides, documentaries and observance of the annual Handloom Week have helped to focus the attention on the industry and to create handloom mindedness.

## Exports

The products of the Indian handloom industry have been famous in many parts of the world, since a long time past, for their attractiveness as well as their utility. There has, however, emerged severe competition in the matter of export of handloom cloth not only from the products of the mill industry in this country, but also in other countries such as China and

Japan, etc., which have made considerable strides in the direction of exports. In spite of unfavourable circumstances, there is still good scope for the export of handloom cloth particularly to the European and American continents where the beauty and texture and the vast variety of shades of such cloth compel attention even from fastidious buyers. These opportunities are being exploited in a systematic and tactful manner and the handloom industry is now geared towards the production of fabrics which will sell, thereby brightening the prospects of increasing the export of handloom cloth to these countries.

The pattern of exports of Indian handloom textiles during the last four years is as follows:

|                |                  |
|----------------|------------------|
| 1961-62.. .. . | Rs. 866.82 lakhs |
| 1962-63.. .. . | Rs. 1,021.01 "   |
| 1963-64.. .. . | Rs. 1,228.08 "   |
| 1964-65.. .. . | Rs. 1,395.27 "   |

Of the total exports of Rs. 14 crores during 1964-65, no less than Rs. 9½ Crores (or 68 per cent) is accounted for by cotton fabrics of standard type. Silk fabrics occupy the next place representing roughly 17 per cent of the total exports of handloom fabrics. There has been a phenomenal increase in the exports of silk fabrics during these years, from Rs. 68.14 lakhs in 1961-62 to Rs. 237.35 lakhs in 1964-65. There has also been a significant rise in the exports of 'Bleeding Madras' variety. The value of exports rose from Rs. 193 lakhs in 1963-64 to Rs. 633 lakhs in the year 1964-65. In other words, roughly 3/4ths of our present exports of cotton fabrics of standard type are accounted for by the single item 'Bleeding Madras'. Next in importance, Madras Handkerchiefs, a staple item largely consumed in West African countries, account for about 8 per cent of the value of our total exports of cotton fabrics of standard type.

The Government of India have set up a Handloom Export Promotion Council with headquarters at Madras. This Council looks after export promotion matters in respect of all types of handloom fabrics including cotton, silk, art silk, wool, mixed fabrics, readymade garments from handloom fabrics etc.

With a view to regulating and increasing the export of Etawah stripes and Tassar silks, these two additional items have been brought under the scheme of compulsory inspection and quality control. Government have introduced floor prices and compulsory inspection for the Etawah stripes, which is being manufactured in certain areas of U.P. and Kerala. With the introduction of compulsory inspection and laying down of specifications for the different exportable varieties of Tassar silks, it is expected that the exports of this fabric will increase to a considerable extent.

## Technical improvements and Research

To increase productivity of the handloom weavers, out moded tools are being replaced by efficient ones. Financial assistance is being given to Weavers' Co-operatives for introduction of improved looms, jacquards, dobbies etc. and for setting up dye houses, finishing and calendaring plants, pattern making factories etc. 494 dye houses of different sizes, 44 pattern making and 12 finishing plants were working during 1964-65. Of the 16 co-operative spinning mills proposed, 10 mills have started production of yarn of various counts.

As a measure of assistance to enable the handloom weaver to resort to newer and newer pattern of production, the All India Handloom Board started organising weavers' service centres from 1956 onwards. At present 7 Centres are functioning namely at Bombay, Madras, Delhi, Indore, Varanasi, Calcutta and Bangalore. A sub Centre is also functioning at Kancheepuram in the Madras State. A large number of designs produced by the centres has gone into production for the export markets where our ability to cater to the sophisticated and prosperous consumer has made us earn more foreign exchange.

The Service Centres conducted experiments and introduced a variety of new textures and patterns with cotton/jute, cotton/wool, wool/tassar, cotton/waste silk, cotton/silk, throwwater etc.

The two Indian Institutes of Handloom Technology at Salem and Varanasi continued to train candidates for the Diploma course in Higher Handloom Technology. The institutes have also introduced a short term course for training of weavers in improved methods of production.

## General

In addition to the main facets of progress indicated above, the socio-economic aspects of the industry have also been sought to be improved. The two distinct methods in the development are (i) the establishment of industrial co-operative factories of handloom weavers in certain States where weavers generally worked under the master weavers and were exploited by them and (ii) the provision of housing facilities for weavers' co-operative societies on a considerable scale thereby offering the weavers convenient and comfortable places for work. Under item (i), 58 industrial co-operatives with 5,300 members and 2,321 looms produce on an average 3.14 lakh metres of cloth per month. Under item (ii), of the 7,830 houses proposed for construction in the various States, 5,107 houses had been completed and 1,812 houses were under construction.

## VILLAGE OIL

India is the second largest producer of oilseeds in the world and leads all other countries in respect of acreage under oilseeds.

Mills and ghanis are the two sectors in the oil industry in the country. According to one estimate included in the Report of the Oilseeds Crushing Industry Inquiry Committee (1956), the percentage of major oilseeds crushed in ghanis and those crushed in power mills is as follows:

| Seed                | Ghanis<br>(per cent) | Mills<br>(per cent) |
|---------------------|----------------------|---------------------|
| Groundnut .. ..     | 20                   | 80                  |
| Sesamum .. ..       | 83                   | 17                  |
| Rape and Mustard .. | 37                   | 63                  |
| Linseed .. ..       | 30                   | 70                  |
| Castor-seed .. ..   | •                    | 100                 |

\* (a small quantity is also crushed in ghanis)

According to an estimate of the oilseeds crushing Industry Inquiry Committee there are over 8,201 oil mills in the country.

The Village Oil Industry i.e. ghanis brought under its fold provided employment to 52,513 persons during the year 1963-64—27,567 full-timers and 16,985 part-timers, apart from employment provided by ghanis not brought under their fold.

During 1964-65, the expenditure incurred by the Commission for the development of the industry amounted to Rs. 125.36 lakhs thus bringing the total to Rs. 1,206.42 lakhs of which Rs. 306.18 lakhs constitute grants and Rs. 900.24 lakhs loans. Of this total expenditure Rs. 131.00 lakhs only were expended during the First Five Year Plan period while the balance of Rs. 532.49 lakhs was disbursed during the Second Plan period and the remaining during the 1st four years of the Third Plan.

There were 5,825 agencies operating various schemes under the Commission's purview of which 5,258 were co-operative organisations including 12 district co-operative federations and 3 apex bodies at the State level. During the year the Commission was able to introduce 639 improved ghanis, thus bringing their total number to 21,446.

During 1964-65, the production of oil through the registered ghanis was 5.17 lakh quintals valued at Rs. 1,666.53 lakhs and 7.45 lakh quintals of oil cake valued at Rs. 340.64 lakhs. The industry provided employment to 23,747 full-timers, 11,474 part-timers and 1,333 casual timers during 1964-65.

Under the training programme the Commission trained 4,131 telis and 453 mistris upto March 1965.

### PROCESSING OF CEREALS AND PULSES

In pursuance of the recommendations of the Rice Milling Committee, Government of India decided, in the year 1957, that licensing of all power driven rice mills should be introduced and a census of all such mills should be taken. They have further decided that no new mill should be allowed to be set up and no expansion of the existing capacity of the mills be permitted unless the State Government concerned is satisfied that it is necessary to do so for the purpose of ensuring adequate supplies and that, in such cases, the hand pounding industry is not affected. To ensure this, an Act was passed in May 1958—The Rice Milling (Regulation) Act.

The Karve Committee recommended the imposition of an excise duty on the output of mills and the payment of a subsidy to hand-pounders to reduce the price differential between hand-processed and mill-processed rice. The production subsidy has been replaced by a management grant on a sliding scale for a period of five years.

During the year, the State Governments, at the instance of the Central Government, promulgated the Foodgrains Price Control Orders. Besides, measures were taken by the State Governments to fix the prices of paddy and rice, prohibit the movement of paddy and rice and for procurement and levy on rice. All these factors affected the industry adversely. The disbursement during the year was only Rs. 63.65 lakhs which is less than that of 1963-64, i.e. Rs. 124.07 lakhs. The total expenditure incurred by the end of 1964-65 was Rs. 757.11 lakhs of which Rs. 133.57 lakhs formed grants and Rs. 559.89 lakhs loans.

Out of 2,479 centres set up till the end of 1963-64, a total of 802 centres were closed down during the year for want of basic raw material i.e., paddy. To enable the artisans obtain higher production of better rice, the Commission has introduced 1,481 chakkis, 21 dhenkis and 37 winnowing fans. Under the Atta Chakki scheme the Commission introduced 3,312 chakkis with ball bearings and 41 bullock-driven chakkis. 407 ball bearing sets were also distributed.

Under the production programme, the achievement was 6.18 lakh quintals in 1964-65 compared with 7.02 lakh quintals in 1963-64. The industry provided employment to 46,802 people in 1964-65 out of whom 7,661 were full-time workers and the rest part-time workers. During the year, the Commission organised 5 regional vidyalayas and a total of 164 persons were trained in them in addition to the 95 persons trained in the Central Vidyalaya at Wanakbori (Gujarat).

### BEE-KEEPING INDUSTRY

With a view to organising and developing collection of honey on scientific lines the Commission distributes bee-hives on a subsidised basis, finances rearing and distribution of bee-colonies, collection and marketing of honey, organises co-operative societies and trains apiarists, fieldmen, farmers and others in the art of bee-keeping.

Rs. 19.02 lakhs were disbursed in 1964-65 thus bringing the total expenditure to Rs. 140.29 lakhs of which Rs. 121.87 lakhs formed grants, the remaining being loans. There were 96 institutions in the country responsible for the implementation of the programme.

Upto the end of 1964-65, 2,05,185 Bee-hives were distributed. Under the programme 10.19 lakh kgs. of honey was collected in 1964-65 as against 7.14 lakh kgs. collected in 1963-64 and

the whole of it was marketed. During the year 136 fieldmen were trained; thus, over the period 1,781 fieldmen and 64 apiarists received training. The total number of villages covered by the end of March 1965 was 13,805.

### HAND-MADE PAPER INDUSTRY

The per capita consumption of paper has been rapidly increasing with the spread of literacy. The expansion of the mill-made paper industry is limited due to several factors, viz. non-availability of raw materials in large quantities at one place, difficulties of importing heavy intricate machinery, pulp and chemicals, transport difficulties etc. The hand-made paper industry, as being developed by the Commission, aims at utilising easily available raw materials like fibres, old gunny bags, rags, straws, grasses, waste paper etc. The programme of development consists of assisting in the setting up of big, medium, small and school units.

During 1964-65 the Commission disbursed Rs. 16.54 lakhs for the development of hand-made paper industry, thus bringing the total disbursement to Rs. 217.61 lakhs of which Rs. 91.28 lakhs were grants and the remaining Rs. 126.33 lakhs loans.

The financial disbursement to various types of units depends upon the capacity to produce paper. Upto the end of 1963-64, the Commission had allotted 12 big, 102 medium and 115 small units. In addition to this, 23 Home Units and 13 Jail units also have been allotted. In 1964-65, the Commission allotted 24 units. Of these 2 units were established on the lines of those working in Japan for the manufacture of decorative papers from vegetable fibres.

The production of paper rose from 1,612 metric tons in 1963-64 to 1,788 metric tons in 1964-65. The industry provided employment to 4,637 persons in 1964-65 as against 4,667 persons in the previous year. In 1964-65, 192 persons were trained thus bringing the total number of persons trained so far to 1,539.

### NON-EDIBLE OILS AND SOAP

India possesses large quantities of a wide variety of non-edible oilseeds, e.g., neem, karanja, maroti, dapa, castor, undi, etc. The oils extracted from these seeds are highly valued as industrial oils. These resources in vegetable are largely wasted through non-utilisation. The Commission, therefore, formulated a scheme to exploit these resources for the creation of wealth.

During the year the Commission financed the programme to the tune of Rs. 44.05 lakhs thus bringing the total expenditure to Rs. 463.30 lakhs of which Rs. 119.13 lakhs were grants and Rs. 344.17 lakhs loans.

The financial assistance extended to three types of non-edible oils and soap production units i.e. "A", "B", and "C" units, depends upon their production capacity. With a view to informing and educating school children in the method of production of soap on cottage basis the Commission introduced "D" units and attached them to schools.

Since 1958-59 the Commission has been emphasising the possibility of improving production of non-edible oils. To intensify efforts in this direction Oil Producing Units have been organised. At the end of 1964-65, the Commission had allotted 685 soap production units in addition to 160 school units.

The production of non-edible oil during the year 1964-65 was 8.77 lakh kgs. valued at Rs. 18.41 lakhs. The activity in the production of soap also registered a considerable expansion; the value of soap produced in 1964-65 was Rs. 72.53 lakhs as against Rs. 57.88 lakhs in 1963-64, the quantities being 49.15 lakh kgs. and 35.03 lakh kgs. respectively. The industry provided employment to 1,551 full-time workers and 87,004 part-time workers in 1964-65.

### PALM-GUR

In India, there are four varieties of sugar-yielding Palms—Date, Palmyra, Coconut and Sago. While the total number of tappable

palms in the country, mostly Date and Palmyra, is estimated at over five crores, only about 60 lakh palms are being tapped for the manufacture of palm-gur.

The significance of the Palm-Gur Industry in India lies in the manufacture of gur and sugar from the sweet juice of palms, popularly known as *neera*, in providing seasonal employment on a large scale, and in its effects on subsidiary occupation as in the manufacture of products from palm leaf.

The Commission has established a Central Research-cum-Training Centre at Dahanu (Maharashtra). Research in the preservation of *neera*, better processing methods and improved implements is being carried on. A monthly journal "Tad-Gur Samachar" gives information about the industry and the results of research experiments.

For the development of the industry the Commission provided Rs. 122.98 lakhs during the year 1964-65, as against Rs. 126.40 lakhs during 1963-64. The total expenditure for the industry upto the end of 1964-65 amounted to Rs. 556.74 lakhs of which Rs. 237.87 lakhs formed grants and Rs. 318.87 lakhs loans.

The emphasis being on the organisation of cooperatives, their number has been showing steady progress from year to year. As against 3,326 cooperatives at the end of 1963-64 there were 3,477 in 1964-65, with a total membership of 3.41 lakhs. The cooperative societies of 11 States have formed their State level federations also.

During 1964-65, the total number of persons trained were 787. The production of palmgur during 1964-65 was 8.56 lakh quintals valued at Rs. 692 lakhs as against the production of 8.43 lakh quintals valued at Rs. 667 lakhs in the previous year. In addition to palmgur, palm sugar and other edible and non-edible articles from palm trees were also undertaken and the total value of these during 1964-65 was Rs. 26.06 lakhs. The total sale proceeds from the industry during the year was Rs. 805.49 lakhs. The industry provided employment to 3.04 lakh persons.

### GUR AND KHANDSARI

With a view to improving the quality of Gur, production of Khandsari and the efficiency of the farmers, the Commission has schemes to introduce improved equipment like crushers, centrifugals, pans, furnaces etc. The Commission also undertakes to train honorary workers and farmers in better methods of production with the help of improved equipment. The programme aims also at the organisation of co-operative societies to take up production and marketing of Gur and Khandsari and stocking and supplying of improved implements.

During 1964-65 the Commission financed the programme to the tune of Rs. 24.83 lakhs as against Rs. 48.84 lakhs in the previous year, bringing the total expenditure upto 1964-65 to Rs. 310.16 lakhs of which Rs. 131.53 lakhs were grants and Rs. 178.63 lakhs loans.

At the end of 1964-65, there were 1,086 Co-operative Societies and 159 registered institutions engaged in the industry as against 861 Co-operative Societies and 58 registered institutions in the previous year.

The production of Gur during the year was 17.51 lakh quintals as against 11.82 lakh quintals in 1963-64 and the industry provided employment to a total number of 74,342 persons in 1964-65 as against 35,495 persons in the previous year.

### VILLAGE LEATHER INDUSTRY

The processing of hides and skins and the manufacture of leather goods are traditional village industries.

The object of the development programme of the Commission for the industry is the planned recovery and full utilisation of the various by-products of carcasses of dead animals so as to

minimise waste and provide large-scale employment. There is a vast livestock population consisting of over 21.2 crores big animals and 9.52 crores sheep and goats.

The programme consists of the establishment of flaying centres, flaying platforms, village tanneries, glue manufacturing centres, bone ashing units, chrome tanning units, retanning units, bag tanned sole leather units, foot-ware units and leather goods units. The Commission is the first organisation in the country to take up chrome tanning in the villages. Three such units have already been set up and are working properly.

To assist the Commission there is an Advisory Committee consisting of representatives of this industry and trade.

During 1964-65, Rs. 26.67 lakhs were disbursed for the development of the industry thus bringing the total disbursement during the nine-year period (1956-65) to Rs. 390.02 lakhs of which Rs. 172.88 lakhs were grants and Rs. 217.54 lakhs loans.

The Commission has financed 9 training centres, 6 in tanning and 3 in carcass utilisation during the year.

During the year 82 and 103 persons were trained in the Arts of tanning and carcass utilisation respectively. So far, the Commission has trained 891 persons in the improved methods of tanning and 1,550 in flaying. As against the production of goods valued at Rs. 228.51 lakhs in 1963-64, the production in 1964-65 was valued at Rs. 236.97 lakhs. During 1964-65, 1,168 full-timers and 8,912 part-timers were employed in this industry.

#### COTTAGE MATCH INDUSTRY

The match industry in India is classified into A, B, C and D classes according to the size and production capacity of the manufacturing units.

The programme of the Commission consists of the promotion of the 'D' class, licensed to produce a maximum of 25 gross boxes per day and capable of employing about 40 persons each.

The development programme aims at the utilisation of the bamboo resources of the country for the manufacture of matches and the elimination of the use of matchwood and timber which are becoming scarcer and also denude the country of its forest wealth to the detriment of the nation.

The programme also provides for training, research and marketing schemes.

As in the previous year, during 1964-65 also the Commission wanted to concentrate mainly on consolidation work. It expended Rs. 3.88 lakhs during 1964-65 bringing the total expenditure for the development of this industry to Rs. 76.87 lakhs of which Rs. 19.82 lakhs were expended during the First Plan period.

As a result of the Commission's intensified effort to reorganise the scheme on modern lines, the production of cottage match boxes rose from 87,733 gross boxes in 1963-64 to 1.10 lakh gross boxes in 1964-65. During the year 43 persons were trained bringing the total to 1,081 over the period ending with 1964-65.

#### VILLAGE POTTERY INDUSTRY

The Development programme for the industry is made up of schemes for the promotion of production of pottery goods of various types, marketing, research, central and regional training, organisation and promotion of co-operative societies, supply of improved equipment and approved furnaces.

The key note of the Commission's programme for the industry during the year was consolidation of the work started already. The disbursements for the year 1964-65 were Rs. 29.00 lakhs, thus bringing the total expenditure to Rs. 240.83 lakhs of which Rs. 81.42 lakhs formed grants and Rs. 154.41 lakhs loans.

The production activity for the pottery industry in 1964-65 registered a considerable rise, the value of goods produced being Rs. 112.92 lakhs as against Rs. 93.37 lakhs in 1963-64. Under the training programme the Central Institute at Khanpur trained 36 personnel during 1964-65, thus bringing the total number trained so far to 1,651. The industry provided employment to 21,681 persons during the year.

#### FIBRE INDUSTRY

With a view to utilizing various kinds of fibres like sisal, hemp, san-hemp, etc., which grow in abundance in villages, but remain mostly unprocessed, the Commission implements a development programme under which improved Charkhas are distributed, artisans are trained and model production centres are organised.

In 1964-65 Rs. 10.90 lakhs were disbursed thus bringing the total assistance under this scheme to Rs. 101.18 lakhs. During the year 230 instructors were trained who, in turn, trained 9,548 artisans. The production of fibre articles during 1964-65 and 1963-64 were Rs. 74.91 lakhs and Rs. 61.01 lakhs respectively. The industry provided employment to 22,885 persons.

#### CARPENTRY AND BLACKSMITHY

The Commission has also been implementing development programme for the village carpentry and blacksmithy industry since 1957-58 and has disbursed so far Rs. 55.21 lakhs most of which was for the organization of training-cum-production centres. The value of production during 1964-65 was to the tune of Rs. 13.37 lakhs as against Rs. 5.33 lakhs in the previous year.

#### MANUFACTURE AND USE OF MANURE AND METHANE GAS FROM COW-DUNG AND OTHER WASTE PRODUCTS

The total number of gas plants financially and technically assisted so far stood at 748 at the end of 1964-65.

The Commission has assisted 210 persons during the year with blue prints and technical guidance for construction of gas plants. During the year 1964-65 the Commission disbursed Rs. 1.85 lakhs for building plants as against Rs. 3.00 lakh in 1963-64.

#### LIME MANUFACTURING INDUSTRY

To cover the programmes under the industry, 135 centres were allotted upto the end of 1964-65.

As against a disbursement of Rs. 6.36 lakhs in 1963-64, the Commission disbursed Rs. 2.32 lakhs in 1964-65 in the form of grants and loans. The production of lime during the year amounted to Rs. 10.85 lakhs and the industry provided employment to 2,888 persons.

#### INTEGRATED DEVELOPMENT PROGRAMME

The integrated development programme is the outcome of the *naya morh* or the oriented approach adopted by the Commission. It is implemented through organising the people in a block to survey the area, prepare an integrated plan for the development of the block for attaining regional self-sufficiency, primarily in khadi and village industries goods and incidentally also in other consumer goods.

By March 1965 within a period of four years since the introduction of this programme, the total number of *ekais* stood at 1,218. During the year 1964-65 it was decided that *ekais* in future should be developed only in blocks where they were already approved of and functioning successfully. The number of blocks in which *ekais* were approved at the end of 1964-65 was 363. The *ekais* approved covered a population of 49.72 lakhs in 4,152 villages and 2,031 panchayats.

The productions of khadi and village industries articles during the year under the programme were valued at Rs. 39.72 lakhs and Rs. 141.25 lakhs respectively. Employment was provided to 1.04 lakh of persons.

#### PROGRAMME FOR HILL AND BORDER AREAS

The Commission had by the end of 1964-65 spread a network of 77 centres for development in the border areas of almost all the border States.

#### WEAVING SUBSIDY SCHEME

The Khadi and Village Industries Commission introduced weaving subsidy scheme from 6th April 1964 under which the rebate on the sale price of khadi has been replaced by a system of providing facilities for free weaving of all handspun yarn.

The new scheme benefits the spinners who get khadi at the cost of cotton while the urban consumers continue to get khadi at the rate existed under the previous Scheme; the only difference is that the amount available as rebate on the old sale price would under the new scheme be deducted from the price at an earlier stage in the form of weaving subsidy.

#### KHADI AND VILLAGE INDUSTRIES IN FOURTH PLAN

The work done so far for the development of khadi and village industries will be turned to good account in the Fourth Five Year Plan by launching a massive programme of development in order that a large number of persons who are presently unemployed and underemployed get absorbed. Part-time and full-time employment to 44.75 lakh persons will as a result be created at the end of the Fourth Plan. Besides, the programme has the main object of ensuring an increase, through higher productivity, in the per capita income in the industries covered. Even in spinning on the traditional charkhas this is expected to be at least Rs. 85 per year, and in the case of the new model ambar charkha it would be Rs. 225, in some industries it may be as high as Rs. 1,000 and above.

#### Technical Improvement

The programmes for the development of various industries are based on certain assumptions of technical improvements effected in the tools and equipment. New equipment, tools and process have been developed and many others are in the process of experimentation. It is proposed to take advantage of all the available modern scientific knowledge and experience in improving progressively the productivity and income of artisans. A new and improved model of the ambar charkha is being devised which would enhance productivity and raise the level of income.

The production target for Khadi in the entire period of five years of the Fourth Plan is 72.48 crore metres valued at Rs. 226 crores; and for various village industries products it is worth Rs. 634 crores. In the Third Plan, the total values of production for khadi and village industries during the entire period of five year were Rs. 110 crores and Rs. 120 crores respectively.

## GLASS INDUSTRY

THE more commonly used raw materials for glass industry are : sand, borax, soda ash and salt cake, dolomite, lime or limestone, salt-petre and sulphur, manganese dioxide and colouring materials.

The industry comprises the manufacture of sheet glass, blown and pressedware and bangles. There are 105 units actually working now. The production of sheet glass and the laboratory glass has nearly doubled in the last 5 years while

the output of other glasswares has risen by 3 per cent. The total production capacity has reached 3 lakh tonnes per year in 1965-66.

The production of different types of glass and glassware from 1960 onwards is given below :

|                          | Units               | 1960  | 1961  | 1962  | 1963  | 1964  | 1965<br>(January-October) |
|--------------------------|---------------------|-------|-------|-------|-------|-------|---------------------------|
| Sheet glass .. .. .      | Thousand sq. meters | 7,524 | 6,780 | 8,724 | 9,840 | 9,623 | 6,776                     |
| Laboratory Glass .. .. . | Metric tonnes       | 4,872 | 3,576 | 3,948 | 4,440 | 4,464 | 3,508                     |
| Glass shells .. .. .     | Lakh pieces         | 461   | 623   | 682   | 744   | 535   | 694                       |
| Other Glassware .. .. .  | Thousand tonnes     | 171   | 177   | 186   | 190   | 198   | 164                       |
| Thermos Flasks .. .. .   | Thousand Pieces.    | 1,382 | 1,541 | 1,542 | 1,939 | 1,936 | 1,678                     |

A number of items have been produced for the first time in the country. There is a notable improvement in the quality of glassware produced. The incentives for exports have been

increased from 20 per cent to 70 per cent.

The pilot plant project to experiment with the production of optical glass undertaken in the Central Glass and Ceramic Research Institute,

Calcutta, has shown good results. The factory which will have a capacity of 300 tonnes per annum, is likely to go into production in the beginning of the Fourth Plan.

Imports and exports are as follows :

(Rupees in lakhs)

|                 | 1961   | 1962   | 1962-63 | 1963-64 | 1964-65 | 1965-66 |
|-----------------|--------|--------|---------|---------|---------|---------|
| Imports .. .. . | 130.63 | 136.94 | 148.58  | 158.35  | 122.96  | 125.16  |
| Exports .. .. . | 23.55  | 24.05  | 24.11   | 33.33   | 63.74   | 35.04   |

On balance of all considerations it was estimated that the requirements of glass and glassware in 1965-66 would be of the order of 440,000 tons inclusive of export requirements of about 15,000 tons. An item-wise break-up of this demand among different categories of glass and glassware is broadly visualised as follows :

|                                       | (tons)          |
|---------------------------------------|-----------------|
| Bottles and vials .. .. .             | 2,00,000        |
| Table and pressedware .. .. .         | 65,000          |
| Sheet glass, plate glass etc. .. .. . | 1,00,000        |
| Lampware .. .. .                      | 30,000          |
| Scientific glassware .. .. .          | 15,000          |
| Thermos flasks .. .. .                | 2,700           |
| Shells for electric lamps .. .. .     | 3,300           |
| Miscellaneous glassware .. .. .       | 24,000          |
| <b>TOTAL .. .. .</b>                  | <b>4,40,000</b> |

The Investment Corporation of India Ltd. has entered into an agreement with the famous Pfaudler Permutit Inc. of the United States for the formation of a jointly-owned company in India to manufacture Pfaudler glassed steel alloy process equipment, Ionac water and waste treatment equipment and chemicals. This will not only help other industries but also will go a long way to save considerable foreign exchange for the country.

The project of National Investments Ltd.—an ophthalmic glass factory at Durgapur—was expected to be completed by 1966. The production schedule includes glass pressings for bifocals, lenses, coloured glass pressing for goggles, lenses and prisms for cameras, microscopes and other optical instruments. Now, most of the requirements for optical glass are being met from the pilot plant of the Central Glass and Ceramic Research Institute, Calcutta. The number of varieties of optical glass has gone up to 24 now.

## VEGETABLE OIL INDUSTRY

INDIA is one of the most important producers of oilseeds in the world and is consequently a large producer of vegetable oils as well as an exporter of oils and oilseeds.

The following figures show the average production of different varieties of oilseeds in recent years along with their share in world production :—

|                          | Average Indian Production (lakh tons) | As percentage of world Production |
|--------------------------|---------------------------------------|-----------------------------------|
| Groundnut .. .. .        | 43.54                                 | 34                                |
| Castor seed .. .. .      | 0.98                                  | 15                                |
| Linseed .. .. .          | 4.10                                  | 13                                |
| Sesamum .. .. .          | 2.88                                  | 34                                |
| Rape and mustard .. .. . | 13.80                                 | 12                                |

The following table gives the actual production—in thousand metric tons—of oilseeds during the seasons 1960-61, 1961-62, 1962-63, 1963-64 and 1964-65.

|                              | 1960-61      | 1961-62      | 1962-63      | 1963-64      | 1964-65      |
|------------------------------|--------------|--------------|--------------|--------------|--------------|
| Groundnut .. .. .            | 4,462        | 4,685        | 4,821        | 5,215        | 5,176        |
| Castor seed .. .. .          | 90           | 101          | 101          | 102          | 101          |
| Linseed .. .. .              | 305          | 450          | 433          | 379          | 466          |
| Sesamum .. .. .              | 321          | 379          | 404          | 439          | 466          |
| Rapeseed and Mustard .. .. . | 1,356        | 1,337        | 1,294        | 903          | 1,375        |
| <b>Total .. .. .</b>         | <b>6,624</b> | <b>6,958</b> | <b>7,118</b> | <b>7,038</b> | <b>8,584</b> |

The All-India Second Estimate of Groundnut for 1965-66 has put the area under the groundnut crop at 6,458.6 thousand hectares.

According to the Directorate of Economics and Statistics, Union Ministry of Food and Agriculture, this shows an increase of 0.6 per cent as compared with the corresponding adjusted estimate of 6,422.6 thousand hectares for the year 1964-65.

The increase in the area under groundnut during the year 1965-66 has been mainly in Gujarat, Uttar Pradesh, Rajasthan and Punjab and is attributed to favourable climatic conditions at the sowing time. This increase in area has, however, been offset to some extent by a small decline reported from Mysore and Madhya Pradesh.

The actual production of oil from the five major oilseeds has been estimated as follows : ('000 Tons).

|            | Groundnut | Castor | Sesamum | Rape and Mustard | Linseed | Total |
|------------|-----------|--------|---------|------------------|---------|-------|
| 1956-57 .. | 954       | 39     | 138     | 293              | 123     | 1,547 |
| 1957-58 .. | 1,007     | 28     | 111     | 264              | 79      | 1,489 |
| 1958-59 .. | 1,092     | 36     | 160     | 293              | 142     | 1,723 |
| 1959-60 .. | 895       | 35     | 112     | 299              | 136     | 1,477 |
| 1960-61 .. | 989       | 32     | 128     | 394              | 129     | 1,672 |

In March 1956, there were 2,097 oil mills registered under the Factories Act. The total crushing capacity of the mills in the country was estimated at 56 lakh tons per annum in terms of oilseeds.

There were, besides, about four lakh village *ghanis* in the country with an annual crushing capacity of about seven lakh tons of oilseeds. Thus the total crushing capacity was estimated at 63 lakh tons in terms of oilseeds. The total output of oilseeds in recent years has been of the order of 65 to 70 lakh tons.

The capital invested in the organised industry is estimated at Rs. 24.4 crores and the number of workers at 43,580. The most important oilseeds consumed in large quantities for the production of oils are groundnut, linseed, rape and mustard, castor seed and sesamum seed. Small quantities of cottonseed mohwa, and copra are also crushed.

The Third Plan target for oilseeds was put at 9.8 million tons, as against the Second Plan target of 7.5 million tons and the actual output of 6.53 million tons in 1960-61.

#### IMPORTS AND EXPORTS

The following table shows the total value of imports and exports of oil of some varieties: (Value Rs. lakhs).

|                     | 1961-62 | 1962-63 | 1963-64 | 1964-65 | 1965-66 |
|---------------------|---------|---------|---------|---------|---------|
| <b>IMPORTS</b>      |         |         |         |         |         |
| Palm Oil .. ..      | 451     | 200     | 385     | 344     | 69      |
| Coconut Oil .. ..   | Nil     | 60      | 21      | 3       | —       |
| Other Sorts .. ..   | 78      | 44      | 13      | 13      | 21      |
| <b>EXPORTS</b>      |         |         |         |         |         |
| Groundnut Oil .. .. | 103     | 783     | 1,345   | 116     | 35      |
| Linseed Oil .. ..   | 8       | 13      | 9       | 10      | 6       |
| Castor Oil .. ..    | 400     | 429     | 480     | 348     | 190     |

On the basis of the minimum *per capita* consumption of fats in this country, the total consumption of fats of the entire population would work out at 7 million tons, as against the present estimated consumption of 1.2 million tons.

The consumption of edible oils and vanaspati was said to have gone up during the Second Plan. Assuming the higher consumption at 8.8 lb. the total requirements of vegetable oils and vanaspati for 400 million people had touched about 1.62 million tons by 1960-61.

The development programme for the vegetable oil industry in the Third Plan is indicated in the following table:

('000 Tons)

|                                         | 1960-61            |                      | Targets for 1965-66 * |              |
|-----------------------------------------|--------------------|----------------------|-----------------------|--------------|
|                                         | Estimated Capacity | Estimated Production | Capacity              | Production   |
| <b>Vegetable oils :</b>                 |                    |                      |                       |              |
| a) Solvent extraction of oilcakes .. .. | 550<br>(Cake)      | 25<br>(Oil)          | 2,000<br>(Cake)       | 169<br>(Oil) |
| b) Cottonseed oil .. ..                 | 180<br>(Seed)      | 15<br>(Oil)          | 850<br>(Seed)         | 100<br>(Oil) |

(\*) As envisaged.

#### VANASPATI

The Vanaspati Industry though a minor branch of the Vegetable Oil Industry is one of the most highly organised and efficient industries. Its history is interesting. It started on a small scale in 1930.

In 1959, there were 58 factories with an annual production capacity of about 446,220 tons. Out of these, one is the Government Hydrogenation Factory at Kozhikode having an installed capacity of 3,000 tons per annum. Besides, there are seven factories with an annual

The development of soap, paints and varnish industries has stimulated the consumption of non-edible oils. Castor oil consumption as a lubricant has also registered considerable expansion. By 1960-61, the total requirements of vegetable oils for all the industrial and miscellaneous purposes were estimated at 278,000 tons. Thus internal consumption requirements were of the order of only 1.9 million tons.

**Pine Oil:** The first pine oil factory in the country has been started at Hoshiarpur in the Punjab. It produces pine oil, dipentene and pine tar. This factory is claimed to have resulted in the saving of foreign exchange to the tune of Rs. 30 to 40 lakhs annually.

**Palmarosa Oil:** India ranks first among nations producing Palmarosa oil, and is the chief supplier of this important raw material for perfumery manufacture, earning foreign exchange worth Rs. 25 lakhs annually by way of its export alone.

To ensure quality control, Government have established a special laboratory at Bombay for AGMARK grading and have banned the export of ungraded Palmarosa oil.

#### COTTONSEED

Special efforts are being made to develop the cottonseed oil industry on modern lines. From eight units equipped with delinting and dehulling machines in 1955, the number has grown to 20 units in 1965 with an annual installed capacity of 3 lakh metric tons in terms of seeds. The production in 1964 was 25,000 metric tons in terms of extracted oil. Among the steps taken to increase the consumption of cottonseed oil by vanaspati factories is a reduction of excise duty. Export of cottonseed oil as well as decorticated cottonseed oilcake was licensed freely. The policy of not licensing new mills or expansion of existing oil mills has been continued. The services of a T. C. M. expert were made available to the crushing industry to advise the crushers on the production and grading of cottonseed linters.

In regard to solvent extraction of oilcakes, there are at present 32 units, with an annual capacity of 547,500 tons in terms of oilcakes.

Production of oil by solvent extraction of oilcakes during 1960 was 23,440 tons. The rise in output was due to the commencement of operations by three more units. Considerable foreign exchange is already being earned by this industry by export of deoiled meal to U.K. and other countries. Three more units were expected to go into production by the end of 1961-62. During the year 1960-61, licences for 100 units of a capacity of 20 lakh tons per annum in terms of oilcakes, had been issued.

rated capacity of 33,000 tons. It is the Government's policy not to permit any further expansion of the industry as the present capacity is adequate to meet all the requirements of 4 lakh tons.

The aggregate installed capacity of the industry was stepped up from 521 thousand tons in 1960 to 557 thousand tons in 1962. Production during these years rose from 337 thousand tons to 363 thousand tons and consumption from 337 thousand tons to 363 thousand tons.

#### Installed Capacity, Production and Consumption ('000 tonnes)

|      | Capacity | Production | Consumption |
|------|----------|------------|-------------|
| 1960 | 521      | 337        | 337         |
| 1961 | 560      | 340        | 337         |
| 1962 | 557      | 370        | 363         |
| 1963 | 467      | 320        | —           |
| 1964 | 576      | 360        | —           |
| 1965 | 630      | 429        | —           |

#### Exports of Hydrogenated Oil

|         | Quantity (Tonnes) | Value (Rs. lakhs) |
|---------|-------------------|-------------------|
| 1960-61 | 66                | 103               |
| 1961-62 | 33                | 56                |
| 1962-63 | 30                | 45                |
| 1963-64 | 41                | 62                |
| 1964-65 | —                 | 19                |

The net capital invested in the industry is about Rs. 22 crores. Besides 10,000 workers directly employed, the industry provides indirect employment for nearly 60,000 workers.

Edible oils constitute the chief raw material of the industry.

The table below summarises the progress of development in the Second and Third Plan

|                              | 1955-56 | 1960-61            | 1960-61 Estimated | 1965-66 Target |
|------------------------------|---------|--------------------|-------------------|----------------|
| Installed Capacity .. .. .   | 445,000 | 445,000            | 434,000           | 550,000        |
| Production .. .. .           | 276,000 | 330,000            | 350,000           | 500,000        |
| Internal Consumption .. .. . | 255,000 | 375,000 to 380,000 | —                 | —              |
| Exports .. .. .              | 15,000  | 20,000 to 25,000   | —                 | —              |

Exports of vegetable oils had made considerable headway recently. Shipments increased from Rs. 540 lakhs to Rs. 1,093 lakhs during the eleven months of 1962-63. From April 1962 to Feb. 1963 exports of oil cakes and meal went up by more than Rs. 13 crores—from Rs. 15.4 crores to Rs. 28.4 crores.

**Lemongrass Oil:** Lemongrass is cultivated in Kerala. India exports about Rs. 2 crore worth of lemongrass oil annually to countries like the U.K., West Germany, U.S.A., Switzerland, Japan and Italy. Lemongrass oil is used for the manufacture of synthetic vitamins 'A' and as a base for some perfumes for soap-making industry.

## WOOLLEN INDUSTRY

THE woollen industry is more or less scattered all over the country but the major concentrations are in Maharashtra and Punjab. The Punjab occupies a very prominent position in as much as 60 per cent. of the woollen spinning mills are working in the State. Maharashtra comes second with 25 per cent. of the total mills. The remaining are situated in the rest of India. Among the livestock products, wool ranks second only to hides and skins as an earner of foreign exchange.

The Third Plan target of production of wool was fixed around 35 million yards; the actual production hovered around 20 million yards, representing a shortfall of 43 per cent. against a likely installed capacity of 14 million metres in 1965-66.

The total capital investment in the industry is reckoned at about Rs. 25 crores. The organised sector of the industry employs about 20,000 workers.

The raw material used is wool tops (imported), shoddy wool (all of which is imported), wool waste, rags etc. (imported and indigenous) and raw wool (imported and Indian). In addition, the industry uses some quantities of man-made fibres.

It is estimated that the industry requires raw materials worth Rs. 20 crores to work its installed capacity on a two-shift basis. According to calculations made by a Working Group of the Government of India, the woollen industry should have got about Rs. 14.92 crores worth of imported raw materials per year up to the end of the Third Plan period. But the actual allocation was only Rs. 5 crores. This Working Group has put the target for yarn and cloth at 36.4 million kg. and 40.0 million meters, respectively, during the Fourth Plan period.

These targets represent a rise of 15.9 million kg. and 28.0 million meters, as compared to the estimated output of 20.5 million kg. of yarn and 12 million metres of cloth in 1965-66.

There are at present about 300 organised woollen units in India of which 36 are purely spinning unit, and 30 composite.

#### The production figures were as follows

| Year | Woollen worsted yarn (million Kgs.) | Woollen worsted fabrics (million metres) |
|------|-------------------------------------|------------------------------------------|
| 1960 | 12.70                               | 13.96                                    |
| 1961 | 14.76                               | 13.20                                    |
| 1962 | 18.01                               | 18.29                                    |
| 1963 | 22.73                               | 20.40                                    |
| 1964 | 20.90                               | 11.72                                    |
| 1965 | 17.84                               | 9.87                                     |

The region-wise distribution of spindles as on 31-3-1961 was as follows:

| State        | Woollen | Shoddy | Worsted |
|--------------|---------|--------|---------|
| Delhi        | —       | —      | 864     |
| Mysore       | 9,556   | —      | —       |
| Punjab       | 18,657  | 3,751  | 43,780  |
| U.P.         | 11,287  | —      | 9,472   |
| West Bengal  | 1,380   | —      | 6,472   |
| J. & Kashmir | 2,018   | —      | 1,576   |
| M. Pradesh   | 876     | —      | —       |
| Maharashtra  | 4,500   | 7,668  | 53,132  |
| Gujarat      | 5,280   | —      | 9,168   |
| Total        | 53,554  | 11,419 | 124,664 |

If all the schemes licensed are implemented, the position will be as follows: Woollen spindles: 54,169; worsted spindles: 1,45,680; and shoddy

spindles: 20,057. There are about 4,000 looms including both registered and unregistered. The wool combing capacity now stands at 16 million lbs.

The Government of India approved a scheme of Messrs. Duncan Bros., Calcutta for establishment of Wool Tops Combing Plant in collaboration with Messrs. Isaac Hobbs & Co. Ltd., Bradford for a productive capacity of million lbs. per annum. The installation of unit has already been completed.

The Woollen Textiles (Production and Distribution Control) Order, 1960, empowering the Textile Commissioner to regulate the production of all types of woollen yarn, and to fix the price of all types of such yarn and woollen fabrics manufactured therefrom had been promulgated during 1960. The Tariff Commission's recommendation that ex-mill and retail prices of wool manufactures be fixed was rejected by the Government recently on the ground that variations in woollen industry are not normal because of emergency. A panel for the development of carpets and druggets was constituted to examine the various problems of the carpet industry and also to suggest measures to be taken for the development of the industry during the Third Plan period.

There are about 900-1,000 hosiery units in the country of which nearly 500 units are concentrated in Ludhiana. It is estimated that about 10,000 machines of different types are installed in the sector. The capital investment in the sector is estimated at about Rs. 2.5 crores. A large number of the machines employed are hand made and locally fabricated. Industry concentrates its production to the whole of the domestic market.

The quantity of yarn consumed by the hosiery industry in the country is estimated at more than 5 million pounds.

#### EXPORTS

(Figures in million)

| Item                     | Unit       | 1963-64  |        | 1964-65  |        | 1965-66  |        |

## FIVE-YEAR PLANS

Among the various measures envisaged for improvement of the industry in terms of both quantity of production and quality are the following: (1) a central sheep and wool institute at Malpura with a Plan outlay of Rs. 75 lakhs, (2) one wool research institute at Jammu, (3) wool processing plant at Virendra, and (4) two central sheep breeding farms, one at Kulu (Punjab) and the other at Kodak (Madras).

The estimated population of 40 million sheep in India produces about 70 million pounds of wool annually which forms only 1.3 per cent of the production. A wool combing plant is to be set up in Jammu and Kashmir.

The yield of wool varies from three-fourths of a pound to four pounds per sheep per year. The present average yield per sheep in India is estimated at 1.7 pounds per annum. Annually about 50 per cent of the clip, is exported. The mill industry concerned with the manufacture of superior cloth has to depend on the import of raw or semi-processed wool to the extent of 15 million pounds estimated to cost about Rs. 100 to Rs. 110 million in foreign exchange.

The latest position regarding installed capacity and production (on three shift basis) as also the production targets at the end of the Third Plan and the tentative targets for IV Plan are set out in the following table.

|                             | Installed capacity* | Production for the year 1964-65 | Target for III Plan | Tentative target for IV Plan |
|-----------------------------|---------------------|---------------------------------|---------------------|------------------------------|
| Raw wool (million lbs.)     | —                   | 74.00                           | 90.00               | 90.00                        |

\* On double shift basis.

The woollen industry may not require installation of any additional spindles and looms at the Fourth Plan target on a two-shift basis. The programme of development tentatively

drawn up by the Planning Commission is in accordance with the recommendation made by the Development Council for Woollen textiles. The Council is of the view that the present

installed capacity of the industry is more than sufficient to produce the entire requirements of woollen worsted yarn and cloth, inclusive of export demand.

The report of the working group for rehabilitation and modernisation of the woollen industry, 1960, appointed by the N.I.D.C. has indicated that the industry would require a substantial amount of rehabilitation and modernisation during the Third Plan, costing about Rs. 11.25 crores of which the foreign exchange element would be about Rs. 9.25 crores.

The weaving sector of the industry, is working, on an average, a little over 1½ shifts and the spinning sector only about one shift. The existing installed capacity of the industry (calculated on the basis of two shifts and 300 working days) is estimated at 67 million lbs. of woollen worsted yarn and 48 million yards of cloth. The production targets for the Third Plan were 52 million lbs. of yarn and 35 million yards of cloth. The productive capacity of wool tops including synthetic tops was fixed substantially higher, at 31.5 million lbs. for the Third Plan.

The Government have approved of the setting up of a synthetic wool fibre project near the Barauni refinery.

Within the next two or three years about 50 per cent of the woollen industry will be modernized in terms of a programme finalized by the Union Commerce Ministry. Imports of machinery under various credit and barter agreements have already been made.

## FAMILY PLANNING

Family planning as an official programme was launched in the First Five Year Plan, as part of Government of India's policy for population control and a sum of Rs. 1.45 million was spent.

The aims of the Family Planning Programme laid out by the Planning Commission in the First Five Year Plan are:—

1. Wide-spread education to create the necessary social background for a large Family Planning Programme; 2. Integration of Family Planning activities with the normal health services; 3. Provision of Family Planning facilities including facilities for sterilization through medical and health centres and facilities for distribution of contraceptives; 4. Development of training programmes in medical colleges, other teaching institutions; and 5. Utilization of the Family Planning campaign of local voluntary leadership to the largest extent possible.

During all these years a four-fold Family Planning Programme has been developed viz., Education, Service, Training and Research.

A sum of Rs. 257.93 million was provided for family planning work during the Third Plan against Rs. 21.55 million during the First Plan.

**Services**

The number of Family Welfare Planning Centres has been increased from 147 at the end of the First Plan to 21,000 at the end of The Third Plan (Rural 19,000 and Urban 2,000).

**Sterilization**

High priority is also being given to voluntary sterilization schemes and sterilization facilities have been provided at medical institutions on an appreciable scale.

Upto March 1966,\* a total of 14,65,381 sterilization operations have been performed in the country through hospitals, dispensaries, mobile units and special sterilization camps. This does not include operations performed by private medical practitioners.

**Contraceptives:** Contraceptives are supplied free of cost to all couples without reference to their income in rural areas. In urban areas all contraceptives are distributed free to people with low income and at subsidised rate

to higher income. At present all types of contraceptives are being manufactured in India.

Contraceptives are tested by the Government of India before being allowed to be sold in India for public use.

On the recommendation of the Indian Council of Medical Research, intra-uterine contraceptive device—IUCD—(loop) was introduced since July 1965. It has gained popularity, because it is considered to be safe, effective, easily reversible and economical. Upto March 1966 a total of 0.8 million insertions has been made.

A public sector factory at Kanpur is manufacturing 30,000 loops a day, by which self sufficiency in respect of the above contraceptive has been achieved. For 1966-67 a target of six million IUCD insertions has been distributed among the States. Target of sterilization for the same period is 1.23 million.

The off-take of contraceptives in India since 1956 has increased considerably as detailed below from the reports received from a few principal dealers.

(No. in millions)

| Year       | Diaphragm | Jellies | Condoms | Foam Tablets |
|------------|-----------|---------|---------|--------------|
| 1956 .. .. | 0.025     | 0.078   | 0.062   | 0.246        |
| 1961 .. .. | 0.343     | 0.632   | 6.863   | 15.882       |
| 1962 .. .. | 0.481     | 0.571   | 7.807   | 7.628        |
| 1963 .. .. | 0.091     | 0.611   | 12.879  | 13.500       |
| 1964 .. .. | 0.301     | 0.259   | 7.033   | 4.875        |

This does not give the total consumption.

State-wise figures for sterilization operations and IUCD insertions upto March 1966 are given in the following table.

| State/Union Territory   | Sterilizations   | IUCD Insertions |
|-------------------------|------------------|-----------------|

The Union Health Ministry has suggested to the State Governments that efforts should be made to introduce the I.U.C.D. in at least 50 per cent of the cases handled by maternity hospitals, post-natal clinics and other institutions as part of the crash programme of family planning.

† A provision of Rs. 50 million has been made for research during the VI Plan. done on a voluntary basis.

Audio-Visual equipment with projectors and mobile vans are being provided in each district for extensive educational activities.

Large number of orientation camps for education of village leaders and Panchayat members have been held. These camps have been associated with sterilisation camps and IUCD camps that persons educated and motivated during these camps could avail of the services and receive IUCD insertion or undergo sterilization operation.

As on March 31, 1966, 160 Hon. District Family Planning Education Leaders have been appointed in addition to Regional, Zonal and Institutional leaders.

**Research†**

Regular research is being conducted in demography, communication and medical and biological aspects of family planning in 9 demographic research centres, 9 communication action research centres and 8 biological and medical research centres. Some of them are: Demographic Training and Research Centre, Bombay, Demographic Research Centre, Indian Statistical Institute, Calcutta, Demographic Research Centre, Institute of Economic Growth, Delhi, Demographic Research Centre, Dharwar, Demographic Research Centre, Department of Statistics, University of Kerala, Trivandrum, Gokhale Institute of Politics and Economics, Poona and Demographic Research Centre, Indian Institute of Population Studies, Madras. Research in medical and biological aspects or reproduction is being conducted at a number of places including All India Institute of Medical Sciences, New Delhi, Central Drug Research Institute, Lucknow, Indian Cancer Research Centre, Bombay, Zoology Department of Delhi University and in various other universities and medical colleges. Communication Research is being undertaken at the Family Planning Institute, New Delhi, Demographic Research Centre, Bombay, University of Kerala, Rural Health Centre, Gandhigram, Indian Statistical Institute, Calcutta, Planning Research and Action Institute, Lucknow, Lady Harding Medical College, New Delhi, New Delhi Family Planning Association, New Delhi and All India Institute of Hygiene and Public Health, Calcutta.

**Fourth Plan:** A sum of Rs. 950 million has been provided in the Fourth Plan for implementation of the Family Planning Programme.

**Evaluation of Family Planning:** A Cabinet Committee with the Minister of Planning and Social Security as the Chairman has been formed to review periodically the progress in implementation of the family planning programme and to give necessary policy directives for the programme. The Secretary, Department of Family Planning, the Director General of Health Services and the Commissioner, Family Planning and advisers to this Committee.

A Standing Committee has also been formed in the Ministry of Health and Family Planning with the Union Health Minister as Chairman to review frequently and regularly the implementation of the family planning programme and to give necessary decisions on problems connected with implementation of the programme.

**Expert Committees:** There are 3 National Expert Committees viz. the Demographic Advisory Committee, the Communication and Action Research Advisory Committee and the Advisory Committee on Medical and Biological Aspects of Family Planning. These 3 Expert Committees consist of eminent experts in the related fields and give advice to the Ministry of Health and Family Planning about the various research schemes that are being undertaken in the country and that should be undertaken.

The Central Family Planning Board was reconstituted as the Central Family Planning Council with the Union Minister of Health as its chairman.

\* By Dec. 1966, about 1.6 million sterilization had been

## HANDICRAFTS

Also see articles on Cottage Industries and Small-Scale Industries).

About 12 lakh workers turn out over 250 crores of rupees worth handicrafts per year. Out of these goods worth about Rs. 30 crores are exported while the rest are absorbed in the home market.

The All-India Handicrafts Board studies the problems confronting the handicrafts industry and advises the government on the solution of these problems. The Board is also required to advise the government on grants and loans to be given to the state governments, private organisations and institutions for financing activities necessary for the development and improvement of handicrafts. It plans and formulates schemes for the development of handicrafts. The state governments are mainly responsible for the implementation of plans and schemes whereas the Board undertakes such developmental measures as are of national importance and of value to the over-all programme for development of handicrafts and common benefit to the States, e.g., organisation and participation in exhibitions and fairs of national importance, mobile exhibition covering several States, nation-wide publicity campaign, technological research and improvement, quality control, economic research and studies, design development on regional basis and specialised training. It also promotes the development of co-operatives and arranges credit.

For the Fourth Five Year Plan, the estimated expenditure for developmental schemes of handicrafts would be Rs. 36.55 crores of which Rs. 12.55 crores for Central programme and Rs. 24.00 for State Govt. programme.

Schemes to be undertaken during the next five years include market research, promotion of inter-state marketing, laying down standards and specifications, extension of training facilities in the management of emporia, salesmanship and display, introduction of improved techniques with particular emphasis on reducing cost of production and opening of organised production Centres.

Besides co-ordinated schemes for the expansion of exports in handicrafts, the Fourth Five Year Plan envisages orientation in production to meet the needs of customers in different income groups within the country and the promotion and development of rural crafts.

### Handicrafts and Handlooms Export Corporation of India Ltd.

(See under "All India Corporations").

The exports of handicrafts during the years 1961-62, 1962-63, 1963-64, 1964-65, 1965-66 have been Rs. 19.35, Rs. 21.53, Rs. 24.00, Rs. 25.36 and Rs. 27.79 crores respectively.

In order to strengthen and coordinate the measures taken for promotion of handicrafts, the Board has set up Regional Exporters Associations at Delhi, Bombay, Madras and Calcutta and craft Associations for Zari and Carpets. The targets of exports for the year 1970-71 has been fixed at Rs. 52.26 crores respectively.

A list of the major handicrafts is given below:—

**Textiles:** Hand-printing and traditional dyeing of textiles, brocades, himroo, carpets and druggets, rugs, gabbas and namdas, embroidery (cotton silk, wool and zari) lace and lace work including nakki and gota making, shawls; **Metalware:** Silver and goldware, bidri filigree, brass and copperware, bronze work; **Ceramics:** Pottery and earthenware; **Ivory:** Ivory carving; **Papier-mache:** Papier-mache articles; **Woodwork:** Wood-carving and inlay, lacquer work including nirmal work, decorative furniture; **Stone-work:** Stone-carving including marble work and alabaster; **Toys:** Dolls and toys other than mechanical toys; **Leather:** Leather goods (Artistic work); **Horn:** Artistic articles; **Bone:** Artistic articles; **Cane:** Bamboo, etc. Articles made of cane, bamboo, willow, straw and grass including mats and pith crafts; **Incense and perfumery;** **Flax and Fibre articles;** **Bangles & Beads:** Bangles and beads; **Musical Instruments;** **Conch-shell and semiprecious stones.**

**Miscellaneous:** Miscellaneous traditional art objects such as Orissa, Mysore and Tanjore paintings, and handicraft products specially made for ceremonies, articles of worship and theatrical requisites such as costumes, masks, puppets, etc.

Steps taken to develop handicrafts include the establishment of design centres to revive traditional designs and create new ones and training centres to better techniques. Some of these training centres are also production centres.

Mobile exhibitions are taken round the country and handicrafts weeks are held. A handicrafts museum has been established in New Delhi.

### Design Centres

The Board has four regional Design Development Centres at Delhi, Calcutta, Bangalore and Bombay to look after designing and development of the crafts in their region, survey requirements, provide training and maintain close collaboration with the State centres, marketing organisations, exporters etc. State design centres were established and are situated in Kashmir, U.P., Bihar, W. Bengal, Himachal Pradesh, Bhopal, Madras, Hyderabad, Orissa, Manipur, Tripura, Rajasthan, Punjab and Kerala.

During the III Five Year Plan over 4,000 original designs were evolved covering 12 crafts and nearly 1,500 parties were assisted.

### Development of Co-operatives

The Board encourages formation of handicraft co-operatives and provides financial, technical and marketing facilities to them.

The number of handicraft co-operatives increased from 1,000 in 1957-58 to nearly 8,000 in 1965-66. In addition 184 handicrafts emporia have also been set up to expand marketing activities.

The Board has also started a training programme for the co-operative organisers for which trainees from Government Departments and co-operative organisations are selected for training. Up to April 1966 eight such courses had been held and 150 persons trained.

Survey of associations of artisans, dealers and exporters has been completed by the Indian Co-operative Union on behalf of the Board.

### Credit Facilities

One of the main functions of the Board is to see that adequate credit facilities are made available to the handicrafts industries and trade at different stages of its production, storage, distribution and sales.

**Awards:** To bestow honour and encourage craftsmen, the Board has instituted National awards for Mastercraftsmen. In Jan. 1966, 25 persons received these awards from the President of India, and these awards carry a cash prize of Rs. 1,000 each, an inscribed brass plaque and a specially designed angavastram. These awards would be given every year during the "Republic Week" celebrations.

## BALANCE OF PAYMENTS

India's balance of payments position in 1965 has been described in the Report on Currency and Finance (1965-66) of the Reserve Bank of India as follows :

The detailed balance of payments data for the financial year as a whole are not yet available and hence the discussion on balance of payments that follows is confined to the trends during the calendar year 1965. During the year 1965, the reserves increased by Rs. 48.4 crores as compared to a decline of Rs. 52.1 crores in 1964. However, if borrowings from and repayments to the I.M.F. and the transfer of gold worth Rs. 16.0 crores to the monetary stock are excluded from the respective periods, the reserves would show a fall of Rs. 27.1 crores in 1965, which is very nearly the same as in 1964 (Rs. 28.3 crores). The recorded quarterly movement in reserves was broadly in conformity with the usual seasonal pattern, there being a net accretion during the first and last quarters and a net draft during the remaining two quarters.

Except for capital transactions pertaining to the banking and official sectors which were favourable, almost all the other major constituents had an adverse impact on the external payments position. Over the year, the deficit on current account widened by Rs. 166.7 crores to Rs. 599.9 crores due partly to an increase of Rs. 43.3 crores in the trade deficit and partly to the fact that invisible transactions (including official transfer payments) showed a net deficit

of Rs. 2.3 crores as compared with a net surplus of Rs. 137.1 crores in the preceding year (Table A). A part of this adverse impact was offset by the net inflow of Rs. 16.0 crores on account of the movement of non-monetary gold. In addition, unidentified transactions (covered by 'errors and omissions') also showed an improvement from a net outflow of Rs. 77.4 crores in the preceding year to a net inflow of Rs. 46.5 crores; a part of this improvement was of a statistical nature resulting from the revised procedure adopted for recording exports to which a reference is made later. Nevertheless, the overall deficit at Rs. 553.4 crores was higher than in 1964 by Rs. 42.8 crores. However, the net inflow from capital transactions the bulk of which comprised external assistance receipts, at Rs. 601.8 crores exceeded the overall deficit resulting in a net accretion of Rs. 48.4 crores to the reserves. In the preceding year, the overall deficit (Rs. 510.6 crores) had exceeded the net inflow of capital (Rs. 458.5 crores) from abroad necessitating a net draft of Rs. 52.1 crores on the reserves.

## Imports

Compared with the preceding year, the aggregate import bill at Rs. 1,396.3 crores was higher by Rs. 8.4 crores, but as between private and Government sectors, imports on private account declined by Rs. 12.0 crores to Rs. 610.0 crores, while those on Government account increased by Rs. 20.4 crores to Rs. 786.3 crores. The increase in Government imports and hence in the aggregate import bill would have been even higher (by about Rs. 28 crores) but for the statistical change introduced from April 1965 under which freight on P. L. 480 imports refunded by the U.S. authorities is excluded from the data on Government imports (*vide* footnote 1 to Table A). The entire increase in the aggregate import bill was financed out of the country's own resources, as there was a decline in aid-financed imports. The main items that registered a fall in imports on private account were mineral oils (Rs. 16.8 crores), machinery (Rs. 18.1 crores) and vehicles (Rs. 3.8 crores); the principal items which showed increases in imports on private account were vegetable oils (Rs. 11.6 crores), iron and steel (Rs. 3.1 crores), rayon textiles (Rs. 3.8 crores), dyes and colours (Rs. 2.1 crores) and other metals (Rs. 8.3 crores). On Government account, there was a fall in imports of food (Rs. 11.5 crores), capital equipment (Rs. 22.5 crores) and railway stores (Rs. 4.5 crores), but this was more than offset by the increase in other non-food imports (Rs. 62.1 crores).

## Exports

Exports at Rs. 782.7 crores were lower than in the preceding year by Rs. 34.9 crores. A part of this decline was purely statistical, attributable to the change in the procedure for booking exports introduced in the last quarter of the year. Exports, which were previously recorded as and when the consignments were approved for shipment irrespective of whether the actual shipment had taken place or not, are now being recorded under the new procedure on a post-shipment basis at the time when the documents are negotiated by the respective financial intermediaries. Consequently, although the new system records exports realistically from the statistical angle, there is, compared with the earlier practice, a considerable lag now in the recording of exports, which is reflected in the shortfalls in the absolute levels. The shortfalls in the absolute levels would also reflect the fact that some of the shipments which should have been recorded during this quarter on the new basis would have already been accounted for in the preceding quarter on the old basis. Exports recorded in the balance of payments statistics for 1965 are also not strictly comparable with those recorded by the D.G.C.I. & S. because, apart from differences in coverage and valuation between the two sets of data, the basis of recording of the D.G.C.I. & S. data was changed during the year from shipments approved during a month to actual shipments made. The data recorded on the new basis in the balance of payments statistics would also not be strictly comparable with the data compiled by the D.G.C.I. & S. as the date of negotiation of documents follows the date of actual shipment, though only with a short interval, thereby resulting in some lag in the former as compared to the latter.

The currently available data assembled on the new basis for the last quarter of 1965 are inadequate for want of commodity and country details, and hence the trends in the different commodities are assessed on the basis of the performance during the first three quarters of the year. During the first three quarters of the year, exports were lower by Rs. 7.1 crores. The major items that registered a fall were sugar (Rs. 8.4 crores), manganese ore (Rs. 5.7 crores), cotton yarn and manufactures (Rs. 9.1 crores), vegetable oils (Rs. 9.9 crores), oilseeds (Rs. 4.2 crores), coffee (Rs. 2.9 crores), tobacco (Rs. 2.0 crores) and iron ore (Rs. 2.1 crores). The shortfalls in these items were to a large extent offset by the improvement in the exports of jute yarn and manufactures and iron and steel.

The balance of payments for the calendar years 1964, 1965 and the four quarters of 1965 are shown in the table below :  
(Preliminary) (Crores of Rupees)

1. Beginning with April-June 1965, the data on Government imports exclude freight on P.L. 480 imports initially borne by India but subsequently refunded by U.S. authorities.
2. Beginning with the quarter Oct.-Dec. 1965, the basis for the recording of the exports data was changed from shipments approved during a month to shipments in respect of which documents were negotiated during a month. Consequently, compared with the earlier practice there is a considerable lag in the recording of exports, which gets reflected in the shortfalls in the absolute levels.
3. Beginning with April-June, 1964, receipts and payments of pensions on Government account and contributions to international organisations are included.
4. Beginning with April-June 1965, the data on receipts exclude refund of freight on P.L. 480 imports initially borne by India but subsequently refunded.
5. Beginning with April-June 1964, drawings and repayments on account of IBRD loans and other foreign Government loans to private sector are included here. Prior to April 1964, these were included under official loans.

## DEVELOPMENTS IN TRADE POLICY

According to Currency and Finance Report (1965-66), India's trade policy was conditioned, as in the past few years, by the persistent pressure on the country's foreign exchange reserves. The main objectives of trade policy were, therefore, the maximisation of export earnings and the maintenance of imports at the barest minimum, consistent with the needs of development. Efforts to boost exports were pursued vigorously by the adoption of further measures such as tax concessions, liberal credit facilities, improved transport facilities, etc. to increase the competitive capacity of India's exports and also by generally developing an export consciousness in the country. On the import side, while the austere import policy pursued for some time past was continued, increasing attention was given to

rationalisation of imports and import substitution.

The policy of progressive relaxation of controls over exports was continued during the year. Thus, the controls over the exports of cord, rope, twine and thread made out of rayon and/or synthetic fibre or yarn and glycerine were removed during the year. It was, however, necessary to impose controls on the exports of certain commodities so as to conserve scarce supplies for domestic needs and to check the rise in internal prices. Thus, exports of copper and brass in the form of ingots, slabs, cakes, cast bars or scrap, zinc ores, mercury, cinchona bark and Dioscorea roots were banned while exports of de-oiled groundnut cake (extraction), ferro-manganese/ferro-manganese slag were brought under control. Export quotas were curtailed for nux vomica

seeds and raw goat skins. Exports of a few items like manganese ore, mill-scale scrap, ethyl alcohol and footwear (the uppers of which are wholly or partly of leather) were canalised through public sector agencies during the year in order to develop larger exports of these commodities. Barring some 30 items, exports of all items numbering over 10,000 are now freely allowed without any controls or licensing formalities.

Mention was made in the last year's Report of the tax-credit scheme for exports (announced in the Budget proposals for 1965-66) which was intended to compensate exporters for a variety of taxes for which relief from taxation on exports was not available and thus to make the exports more competitive in foreign markets. The details of the scheme were announced in July 1965 according to which tax credit ranging between 2

per cent. and 15 per cent. were granted against 22 items. In October 1965, the scheme was extended to cover 6 more commodities.

With a view to enabling the Indian manufacturers in the hinterland to participate more effectively in the export effort, more rail freight concessions were granted. As against a flat concession of 25 per cent., a graded basis allowing larger concession for long distance traffic was introduced. The Freight Investigation Bureau of the Ministry of Transport continued to work in close liaison with the Ministry of Commerce and secured ocean freight concessions for a number of commodities.

Export credit facilities were liberalised further during the year. The Industrial Development Bank of India removed in June 1965 the lower limit of Rs. 1 lakh of export contract under its scheme for refinancing of medium-term export credits, with a view to allowing small exporters to get refinance facilities at concessional rates. The Reserve Bank liberalised in November 1965 the Bill Market Scheme to make refinance available at the Bank Rate in respect of advances made by commercial banks to finance packing credit to exporters.

Quality Control and Preshipment Inspection were extended to several new industries and products, particularly chemicals, minerals and engineering goods, turmeric, tendu leaves, ginger, onions, garlic, table potatoes, pulses, frog-legs, coir mats and B Twill jute-bags. As a result, currently 80 per cent. of India's export goods have been fully brought under quality control and preshipment inspection. A comprehensive programme for bringing leather, leather cloth, rubber and rubber products, paints and allied products, glass and glassware, ceramics, agro-chemicals, soaps, chemicals, carpet backing cloth, coir yarn, gum karaya and kushrooms under quality control and preshipment inspection has been drawn up.

A new export promotion council viz., the 'Council for Handlooms' was set up at Madras during the year, bringing the total number of export promotion councils to 18. The Committee appointed to review the working of export promotion councils and also the progress made in developing exports of particular groups of commodities for which the respective councils were formed (*vide* the Report on Currency and Finance 1964-65, submitted its report in May 1965. The more important recommendations of the Committee related to the (i) creation of Commodity Boards for cashew, mica, shellac, spices and tobacco, (ii) representation of various interests in the councils, (iii) consumer oriented publicity, (iv) setting up a machinery for settlement of disputes, etc. Most of the recommendations have been accepted by the Government.

A new organisation called the Indian Council of Arbitration was set up to propagate and popularise the idea of arbitration in disputes arising in international trade and business circles and to disseminate information relating to arbitration.

During the year, the Board of Trade reviewed the trend of exports from time to time and held discussions on several aspects of export promotion including the progress of quality control and preshipment inspection measures, participation of States in export promotion and review of export assistance schemes. It also appointed several committees to examine various problems concerning the country's foreign trade, like the committee to examine collaboration agreements from the export angle, and another one on the rationalisation of imports and import substitution.

The Committee set up by the Government of India, to examine the manner in which a selective approach to export promotion can be evolved in order that competent and quality conscious exporters working in co-operation could specialise in particular commodities or with particular regions, submitted its report in May 1965. The Selectivity Committee recommended a three-

tier system involving (i) the grouping of registered exporters into suitable panels, (ii) the formation of export houses to be recognised by the Government on the basis of well-defined criteria and (iii) the recognition of consortia of exporters in a product or a group of products. The Committee also recommended the adoption of a selective approach for giving necessary encouragement to exporting units which have a genuine interest in the export trade and the capacity to undertake it. The Government have now revised the scheme for recognising export houses in the light of experience and taking into account the recommendations of the Selectivity Committee.

The Indian Institute of Foreign Trade organised seminars relating to export houses and exports of cotton textiles, rayon and synthetic textiles, chemicals and allied products and spices; completed commodity studies on costume jewellery, razor blades, readymade garments, tobacco manufactures, etc. and organised six training courses.

The Indian Council of Trade Fairs and Exhibitions expanded its work and assisted in the participation in international trade fairs held in Hungary, Poland, German Democratic Republic and New York World Fair 1964 (Second Session). Participation in the First Asian Trade Fair under the auspices of the ECAFE to be held at Bangkok in November/December 1966 and the Universal and International Exhibition to be held at Montreal in April-October 1967 is also contemplated.

During the year, activities of the State Trading Corporation (STC) showed an all-round improvement. The total volume of trade handled by the STC during 1965 amounted to Rs. 104.4 crores comprising Rs. 59.7 crores of direct and Rs. 44.7 crores of indirect trade as against a total turnover of about Rs. 75 crores in 1964. The Corporation took special interest in promoting exports of products of engineering and chemical industries. The Corporation also participated in a number of exhibitions/fairs in overseas countries as a part of its export promotion drive. In addition to the existing offices at Rotterdam and Prague, the Corporation established during the year a trading centre at Moscow and a bonded warehouse-cum-sales depot at Montreal to popularise Indian goods. With a view to arresting the downward trend in exports of certain commodities to specific destinations and to ensuring the import of essential commodities for economic development of the country, the Corporation entered into barter/parallel deals. Besides, the Corporation continued its buffer stock operations which were confined to tobacco, lemon-grass oil, jute and seedlac.

The activities of the Minerals and Metals Trading Corporation (MMTC) have considerably expanded during the year. During the year, exports of manganese ore, coal by sea and ferromanganese were canalised through this Corporation. Exports of iron ore by the MMTC of which the Corporation is the sole exporter, barring exporting interests in Goa, increased to 6.04 million tonnes valued at about Rs. 26 crores in 1965 compared to 4.95 million tonnes valued at about Rs. 22 crores during 1964. Exports of manganese ore by the Corporation amounted to 1.3 million tonnes valued at Rs. 9.7 crores in 1965. The Corporation also imported some scarce industrial raw materials like certain categories of steel and non-ferrous metals.

The import policy during the year continued to be restrictive due to the persistent pressure on the country's foreign exchange reserves. On account of the uncertainty regarding the availability of aid, the import policy announcement for 1965-66 was postponed by three months, and the issue of fresh licences against free foreign exchange resources during April-June 1965 was severely restricted. However, the essential needs of the economy such as foodgrains, fertilisers and petroleum were provided for. The import policy announced in July was made applicable only for the remaining nine months of the year. Imports of about 60 items, including, among

others, spare parts of oil crushing and refining machinery, petroleum and gas engines, motor vehicle parts, well-drilling equipment etc. all indigenously produced were completely banned and quotas for a few others reduced. For the actual users, issue of import licences to manufacturing units was to be increasingly based on merit. Licensing for the imports of specified items was to be decided on the basis of the recommendations of the sponsoring authorities out of the monetary ceilings allocated to these authorities for the purpose.

A notable feature of the import policy for 1965-66 was the procedural change introduced in July 1965 in respect of import entitlements under export incentive schemes. The entitlement licences were to be issued only on production of bank certificates evidencing the actual realisation of export proceeds while previously the entitlements were issued prior to the realisation of proceeds on production of an undertaking to repatriate the proceeds within six months.

With a view to regulating the flow of imports, the Reserve Bank issued a directive on June 29, 1965 calling upon all importers to deposit with banks authorised to deal in foreign exchange, prior to the shipment of goods, an amount equivalent to 25 per cent. of the c.i.f. value of all imports of Rs. 5,000 or over. The deposits were returnable after the final remittance in respect of the relevant shipment or the expiry of two months from the date of deposit, whichever was later. The stipulation applied to all shipments (with certain exceptions) effected on or after July 1, 1965 by private sector as well as public sector undertakings and covered all areas including rupee payment areas. The Scheme was, however, withdrawn on August 20, 1965 following the levy of increased import duties from that date. The import duty changes, besides raising additional revenue, were aimed at rationalising the tariff structure so as to suit the requirements of planned development and help import substitution.

With a view to providing for the import of certain essential raw materials and components that were in acute shortage, some of these were included under the list of items permitted against bank certificates, issued under the National Defence Remittance Scheme. The items permitted to be imported under the Scheme, as announced in October 1965, included among others, pharmaceutical raw materials, chemicals, non-ferrous metals and motor vehicle parts, specified capital goods etc. The list was expanded in February to cover some additional items like sulphur, wood pulp, and raw wool.

Among other developments in the field of import control policy, the more important ones related to (i) Government's acceptance of the recommendations of the study team (headed by Shri Mathur) appointed to examine the functions and working of the Directorate General of Technical Development and to recommend steps to avoid delays and administrative failures, (ii) extension of the validity of the Imports and Exports Control Act and (iii) the setting up of an Import Substitution Committee.

Some of the important recommendations of the Mathur Committee were: (i) Licensees should be allowed to place orders up to 75 per cent. of the value of licences even during the first half of the year provided the payments within the first half of the year against the licence did not exceed 50 per cent. of the total value of the licence. (ii) Licences up to Rs. 5,000 may be allowed to be utilised in one lot as at present. (iii) The import policy should provide for only two categories of items namely 'banned' and 'open' in the case of the small-scale industrial sectors, and the restricted category should be dispensed with. In the case of large-scale industrial sector, however, the restricted category would be continued but on a realistic and non-discriminatory basis. (iv) The need to obtain non-availability certificate from the Director General of Technical Development could be dispensed with.

The Import and Export Control Act, originally enacted in 1947, was extended for another five years up to March 1971.

Recognising the importance of systematic studies on the subject of import substitution and rationalisation of imports, a Committee was set up during the year with Dr. V. K. R. V. Rao as Chairman and including representatives of the Federation of Indian Chambers of Commerce and Industry and other interests to recommend how best such studies could be undertaken.

### TARIFF COMMISSION

In 1964-65, the Tariff Commission completed seven tariff inquiries and two price inquiries. The tariff inquiries related to the continuance of protection to the industries manufacturing (1) automobile sparking plugs, (2) power and distribution transformers, (3) electric motors, (4) non-ferrous metals, (5) sheet glass, (6) ball bearings and (7) safety matches. The Commission recommended the continuance of protection for three more years at the existing rates of duty for three of the industries (the power and distribution transformer industry, electric motors industry and the non-ferrous metals industry), at enhanced rates for two of them (sheet glass and ball bearings industries) and at reduced rates for one industry (automobile sparking plugs). The Commission also recommended the widening of the scope of protection granted to the sheet glass and ball bearings industries to cover newer items like figured and wired plate glass and roller bearings along with ball bearings of dimensions hitherto not covered. The safety match industry having become strongly established and the imports of matches having been completely banned the Commission recommended the withdrawal of protection of safety matches industry. The Commission also recommended the withdrawal of protection of integral h.p. motors and their component parts manufactured by the electric motors industry.

In the light of the progress made by the seven protected industries mentioned above as also the absence of any unhealthy competition from imports and having regard to the fact that under the Finance Act (No. 2) of 1965, duties were already enhanced either to the level recommended by the Commission or more, the Government decided to withdraw protection to all these industries after December 31, 1965. The prevailing rates of customs duties were, however, to be continued as revenue duties instead of protective duties.

The price inquiries completed during the year related to the fixing of fair selling price for safety matches, and prices for preserved fruits and vegetables. As regards safety matches, the Commission recommended application of a uniform sales tax in all States subject to a ceiling of 4 per cent. on the net value of matches to ensure a uniform selling price for matches. The Commission was also asked to examine whether there was a deliberate fragmentation of 'B' and 'C' class factories in order to avail of the lower slab excise rates and, if so, to suggest remedial measures and examine whether there was a slab in order to protect the small and medium factories. The Commission came to the conclusion that, since the existing slab rate acted as a disincentive for expansion of production, induced deliberate fragmentation and led to a mushroom growth of small scale units in class 'C', the present system of slab rates should be scrapped. The Commission suggested a revised schedule based on the cost of manufacture for the various classes and recommended the continuance of protection to small and medium sized units. The Government, while accepting the desirability of having a uniform selling price for matches, took the view that there were certain practical difficulties in ensuring uniform rates of sales tax and other local taxes and decided that it was not necessary to fix any ceiling ex-factory or wholesale prices. However, steps would be taken to keep prices under control, should there be any undue increase.

In respect of preserved fruits and vegetables, the Commission concluded that, since the prescription and enforcement of statutory prices were not feasible, the price indicators given in the Commission's report should be considered as fair wholesale selling prices to be observed on a voluntary basis as ceiling prices. If control in any other form was contemplated, the producers and sellers should be persuaded to publish their wholesale and retail prices so that the consumer would not be required to pay more than the list prices. In order to cover transport and distribution expenses the Commission recommended a margin of 20 per cent. over fair ex-factory selling prices for fixing the retail prices. Since the prices suggested were not statutory, there would be scope for negotiation between supply authorities and producers. The Commission which was asked to examine the necessity and justification for reviving the tinplate subsidy as a general scheme concluded that the revival of the tinplate subsidy was not justified. The Government accepted all the recommendations of the Commission for action to the extent possible.

### TRADE AGREEMENTS

During the year, fresh trade agreements were signed with Argentina, Sudan, Uganda and Tanzania. Agreements on technical, economic and scientific co-operation were also signed by India with the Governments of Uganda and Tanzania. Existing agreements with the U.S.S.R., Hungary, Greece, France, Democratic People's Republic of Viet Nam, Chile and Morocco were renewed. Further annual trade plans under the existing agreements were finalised and revised schedules drawn up with the U.A.R., Ceylon, Czechoslovakia, Rumania, Hungary, U.S.S.R., Jordan, Tunisia, Iran, Iraq and Yugoslavia. An important feature of the annual trade plans as well as of revised trade schedules was that they provided for a significant rise in the existing level of trade with these countries. Besides, more of India's manufactured goods, particularly engineering goods found a special place in the schedules, though traditional items continue to predominate in export commodities. As at the end of March 1966 as many as 31 (these are with (1) Afghanistan, (2) Austria, (3) Bulgaria, (4) Ceylon, (5) Chile, (6) Czechoslovakia, (7) East Germany (German Democratic Republic), (8) France, (9) Greece, (10) Hungary, (11) Iran, (12) Iraq, (13) Italy, (14) Japan, (15) Jordan, (16) South Korea, (17) Morocco, (18) Pakistan, (19) Poland, (20) Rumania, (21) Sweden, (22) Switzerland, (23) Sudan, (24) Tunisia, (25) Tanzania, (26) U.A.R., (27) U.S.S.R., (28) Uganda, (29) Viet Nam, North, (30) West Germany (Federal Republic of Germany), and (31) Yugoslavia, trade and payments agreements were in force with different countries.

Trade relations between India and the U.S.S.R. entered a new expansionary phase with the conclusion of a new five-year trade agreement with the U.S.S.R. which envisages doubling of the trade at Rs. 150 crores each way by the end of 1970 from the 1964 level of Rs. 75 crores each way. A special feature of the new agreement is that consistent with their policy of increasing purchases of manufactured goods from the developing countries, the U.S.S.R. agreed to import from India an increasing range of products of engineering goods and products of other industries such as linoleum and PVC cloth, paints and varnishes, plastic goods, steel and wooden furniture, leather goods, sports goods, etc. besides the traditional items. The agreement also provided for the import, from the U.S.S.R. of machinery and equipment, spare parts and components for maintaining the production programme of various projects set up with Soviet assistance. The Soviet Union has also agreed to supply to India in increasing quantities essential raw materials for maintaining industrial production and economic growth of the country such as non-ferrous metals, newsprint, sulphur, fertilisers, etc.

The Board of Trade and Development, a subsidiary of the United Nations Conference on Trade and Development (UNCTAD), to which reference

was made in the last year's Report, held two sessions in 1965 and a third one in January 1966. At its first session, the Board constituted its Bureau and adopted its programme of work. It also appointed four committees viz., Committee on Commodities, Committee on Manufactures, Committee on Shipping and Committee on Invisibles and Financing, and laid down their terms of reference. India is a member of all the four Committees.

During the year, the Board considered the reports of the Committees on Commodities and on Manufactures. On the recommendation of the former, a United Nations Sugar Conference was convened in Geneva in September 1965 to negotiate a new comprehensive International Sugar Agreement. But due to the sharp divergence of opinion among the sugar exporting countries on the one hand and the sugar importing countries on the other, the conference failed to take any decision on the Agreement. An important outcome of the conference was the setting up by the sugar exporting countries of a Study Group to examine the Australian suggestion for withholding five per cent. of the exportable stocks from the market in 1966 in a bid to rally depressed prices. The Group was also to study the question of financing of stocks, export quotas and output restrictions and report to the Sugar Council before the second session of the Conference. On the recommendation of the Committee on Manufactures, the Board set up a Group on Preferences to pursue the question of granting and extending preferences in favour of developing countries and to study the methodological aspects and the best ways of implementing a non-reciprocal system of preferences. India is a member of this Group.

A significant achievement of the UNCTAD during the year was the adoption of the Convention on Transit Trade of landlocked countries by the United Nations Conference of Plenipotentiaries held in New York in June/July 1965.

At the 23rd session of the Contracting Parties to the General Agreement on Tariffs and Trade (GATT) held at Geneva from March 24 to April 6, 1966, a waiver from the most favoured-nation rule (Article 1) was granted to Australia for its scheme of introducing preferential rates of duty on imports of manufactured and semi-manufactured products from less developed countries. The scheme is important not so much for the likely expansion in trade of developing countries—for this is expected to be small—but for the principle of putting the manufacturing industries of the developing countries in a better position to compete with major industrial countries. Approval was given to three new free trade areas viz.—U.K.-Ireland, Australia-New Zealand and British Guiana-Antigua-Barbados. The session also approved full membership of the GATT for Switzerland and Yugoslavia which were hitherto provisional members.

India played an active role at the 22nd annual meeting of the ECAFE held at New Delhi in March/April 1966. The demands of the developing nations which were put forward by the Indian delegate were: (i) grant of preferences on a non-reciprocal basis in favour of developing countries, (ii) removal of all quota and non-tariff barriers and (iii) introduction of a system of repayment of credits in kind i.e. by export of goods to the industrialised countries. The developed countries were, however, noncommittal on these issues. India, therefore, took the initiative in calling a preparatory meeting of the 77 developing countries to prepare concrete plans of action in different fields for consideration at the second UNCTAD to be held in 1967.

The Council of International Coffee Organisation at its session in December 1965 failed to agree on the claims by various countries, including India, for an upward revision of basic export quotas. Instead, it approved temporary concessions in the form of waivers to some of the member countries allowing for an expansion of quotas for the coffee year 1965-66; India's quota was increased by 3,000 tonnes to 23,371 tonnes.

## FOREIGN TRADE BY COUNTRIES &amp; ECONOMIC REGIONS

## EMIGRATION

The following table shows the emigration figures for 1965-66. (April 1, 1965 to March 31, 1966).

| Country                           | Emigration |
|-----------------------------------|------------|
| Africa and Portuguese East Africa | 3          |
| Indonesia .. .. .                 | 6          |
| Malaysia .. .. .                  | 154        |
| Saudi Arabia .. .. .              | 358        |
| Burma .. .. .                     | 1          |
| Ceylon .. .. .                    | 10         |
| Fiji .. .. .                      | 1          |
| Guyana and West Africa .. .. .    | 3          |
| Others .. .. .                    | 2,623      |
| Total .. .. .                     | 3,165      |

## EMIGRATION LAWS

"Emigration" means the departure, by sea or by air, out of India, of Citizens of India, under an agreement to work for hire in any country beyond the limits of India, or if assisted to depart otherwise than by a relative with the intention of working for hire or engaging in agriculture.

Such emigration is governed by the Emigration Act, 1922 (7 of 1922) and the Rules made thereunder, as amended from time to time.

Emigration for the purpose of 'unskilled work' is prohibited, while emigration for the purpose of 'skilled work' is permissible on compliance with the prescribed formalities.

The functions under the Act are discharged by the Central Government through the Controller-General of Emigration and Additional Secretary

to the Government of India in the Ministry of External Affairs, New Delhi, with the assistance of the Protectors of Emigrants at the Ports and airports from which emigration is lawful.

Following are the ports and airports from which emigration is at present lawful. Each port and airport has a Protector of Emigrants.

1. Bombay port and airport (Public Relations Officer (Emi.), Regional Passport and Emigration Office, 148, Mahatma Gandhi Road, Bombay 1).
2. Okha (Port Officer).
3. Porbander (Port Officer).
4. Bedi (Port Officer).
5. Madras port and airport (Public Relations Officer (Emi.), Regional Passport and Emigration Office, 42, Nalamuthu Chetty Street, George Town, Madras).
6. Nagapattinam Port (Protector of Emigrants).
7. Tuticorin and Dhanushkodi under one Protector of Emigrants with headquarters at Mandapam Camp.
8. Calcutta port and airport (Superintendent (Emi.), Regional Passport and Emigration Office, 4, Brabourne Road, Calcutta).
9. Delhi airport (Public Relations Officer (Emi.), Regional Passport and Emigration Office, 1/2-E-7, Curzon Road, Barracks, New Delhi).

Brief notes on overseas Indians in some countries are given below :

Generally speaking fresh Indian immigration is either banned or is not permitted as a matter

of policy into South Africa, Northern and Southern Rhodesia, Nyasaland, Australia, New Zealand, Burma, Ceylon, most European and South American countries. There are some countries that admit Indians on a quota basis : Canada, U.S.A., the Philippines, Thailand and Indonesia.

## AUSTRALIA

An Indian already domiciled in Australia has full citizenship rights, including the right to introduce a spouse and minor unmarried children if they are not already there. Indian business men, *bona fide* tourists, sportsmen and entertainers may visit Australia and stay for periods not exceeding 12 months, and Indian students may be admitted with temporary residence status for education and specialised training.

Under policy revised by the Government in March, 1966, provision now exists whereby an Indian already admitted with temporary resident status (other than in a student or visitor capacity) but with the intention of indefinite stay will qualify to apply for resident status and citizenship after five years residence, in place of the fifteen years residence previously required.

Under the revised policy also, an application by an Indian who wishes to settle in Australia with his wife and children may now be considered under the provisions relating to the entry of well-qualified people. Such applications may be considered on the applicant's suitability for settlement, their ability to integrate rapidly, and their having qualifications which are in fact positively useful to Australia. After five years' stay on temporary permits, they will be able to apply for resident status and citizenship.

**BURMA**

The present population of Indians in Burma is estimated to be about 3 lakhs.

Indians in Burma were mainly agricultural, dock and casual labourers and petty traders. Some Indians were also formerly engaged in wholesale import business and also some were big landowners.

With the introduction of the Burmanisation policy, large numbers of Indians of all classes, are returning to India. During 1965 about 51,000 Indians returned from Burma to India, most of them on chartered vessels. Those Indians who leave are not allowed to repatriate their assets.

Under the Union of Burma Citizenship Act of 1955, an alien can become a Burmese citizen by naturalisation after fulfilling certain requirements of a minimum stay in that country.

**CANADA**

Under the modified Agreement entered into between India and Canada in 1957 the Canadian Government have agreed to increase the annual quota of immigrants from India from 150 to 300.

Applications from prospective immigrants to Canada from India should be addressed to The Canadian Immigration Attache, 7 Link Road, Jungpura Extension, P.O. Box 161, New Delhi-1.

Indian residents of Canada are largely comprised of labourers employed in lumbering and trucking. There are a few lumber mill owners, and some are working as clerks in various establishments. A good lumber can also be termed professionals, technicians and highly skilled workers. The majority of Indians are in British Columbia. A good many today go on to industrial centres like Montreal and Toronto. The Indian community is called the "East Indian Community".

Any person admitted to Canada as an immigrant might become a citizen of Canada after five years' continuous residence there. There is no legislation in Canada, federal or provincial which discriminates against any group of citizens on grounds of national origin, race, language or religion.

There are no disabilities on Indians in the matter of owning property, engaging in trade or profession, entering Government service or residence in any locality.

Indians can remit to India any amount earned in Canada.

Figures of Indians arriving in Canada; 1957: 324; 1958: 451; 1959: 716; 1960: 673; 1961: 744; 1962: 725; 1963: 846; 1964: 1,295; 1965: 1876.

**CEYLON**

There are about 11,46,000 persons of Indian origin in Ceylon. Out of this number, approximately 31,000 are Indian citizens, 1,40,000 are registered citizens of Ceylon and 9,75,000 are stateless persons. The large majority of these persons are employed in the tea and rubber estates in Ceylon. Merchants, petty shop keepers and employees in business establishments constitute the balance and are mainly concentrated in the urban areas.

There is no restriction on Indians acquiring property in Ceylon, but non-Ceylonese are not allotted Crown Land. Trade in certain commodities and with certain countries like Japan and Germany is exclusively reserved for Ceylonese enterprise. Certain rights like fishing rights and the ownership of industries like public transport (omnibuses) are restricted to Ceylonese. Government service is restricted to Ceylonese except that foreigners are appointed on a contract basis when no qualified or suitable Ceylonese is available. Consequently Indians who have not acquired Ceylon citizenship have severe handicaps. Indians are also denied certain privileges such as National Insurance and unemployment relief.

The rights of Indians to citizenship are governed by two Acts enacted in 1948.

An Agreement was entered into in January 1954 between the Government of India and the Government of Ceylon regarding the citizenship rights of persons of Indian origin in Ceylon.

The total number of applicants for Ceylon citizenship is estimated to be about 900,000.

Out of these, about 1,34,000 persons have till the end of Jan. 1965, been registered as Ceylon citizens. The applications of the rest have either been rejected or withdrawn.

At the end of 1954 the Government of Ceylon started implementing its policy of Ceylonization in the course of which a large number of persons holding Temporary Residence Permits of all nationalities had their periods of stay curtailed. In the result some Indians were faced with the prospect of leaving the country.

In April, 1955, the Government of Ceylon amended the Immigrants and Emigrants Act of 1948.

About 1,20,000 Indian nationals had left Ceylon either voluntarily or because of non-renewal of their visas upto the end of March, 1965 as a result of Ceylonisation programme of the Government of Ceylon.

The Prime Ministers of India and Ceylon met at Delhi in Oct. 1964 and reached an agreement regarding the future of the "stateless" persons of Indian origin resident in Ceylon, estimated at 9,75,000. According to the agreement, 3,00,000 persons will be granted Ceylonese citizenship. 5,25,000 persons will be granted Indian citizenship and repatriated to India.

A Joint Committee comprising official representatives of the Governments of Ceylon and India with headquarters at Colombo has been set up. Regular meetings are being held to formulate measures for the smooth implementation of Indo-Ceylon Agreement, 1964. Public Notices inviting applications for Indian citizenship are expected to be issued shortly.

A non-national leaving Ceylon can repatriate Rs. 1.5 lakhs in the case of those other than Indians and Rs. 75,000 for Indians.

**EAST AFRICA**

Indians came to East Africa long before the Europeans. They played an important role in Kenya's history as skilled labourers, lawyers, clerks, railway officials and contractors, thereby filling the middle sections of the civil service and bureaucracy. They also played a significant role in opening up the interior of Kenya through trade.

By protesting against the discriminatory policies of the white settlers the Indian community helped in rousing African political consciousness. They fought against racial discrimination, reservation of the Highlands for Europeans and franchise restrictions.

The Government of India has taken practical steps to promote industrial and technical collaboration and development of commerce and trade with East Africa. A loan of Rs. 25 million for buying railway equipment was offered. Indian industrialists have been encouraged to help in the development of East Africa by setting up industrial plants. Some (for instance, textiles) are already functioning. Others are under negotiation.

The present period in East Africa is one of transition in which people of Indian origin can play a notable part by thinking of the countries of their adoption as much as of themselves.

**ETHIOPIA**

Emigration to Ethiopia is neither restricted nor entirely free. Each case is judged on its merits, and there is no quota. Foreigners who wish to start new industries or go into farming are given special encouragement.

There are no constitutional, legal or any other disabilities specifically on Indian residents. Some Indians own landed property and have been living in Ethiopia for half a century, and are whole-heartedly accepted by the people.

Under the Civil Code of the Empire of Ethiopia, no foreigner may own immovable property situated in Ethiopia except in accordance with an Imperial Order.

Remittances from Ethiopia to India by Indians are restricted and regulated by rules according to which anybody who is for more than six years in Ethiopia can remit only family expenses for near relatives on the basis of affidavits from India. There is no restriction for grant of foreign exchange for importing goods.

There are nearly 3,500 Indian residents in Ethiopia. Most of them are business men from the Gujarat and Saurashtra regions of India. Almost all of them are well-to-do and are engaged in trade specially in the import of textiles. Indian traders have also taken to imports of diversified items and also exports of coffee etc. Besides, there are over 350 Indian teachers who have been recruited by the Ethiopian Government to further the cause of education. Some Indians are engaged also as Advisers to various Ministries. There are also a few Indians working as International Civil Servants in the Economic Commission for Africa whose headquarters are at Addis Ababa.

**Indo-Ethiopian Textiles Share Co.:**

Its production of cloth and yarn accounts for nearly half of the total production done in the country.

Birla Brothers, Calcutta have taken over the management of Baar Dar Textile Mills.

Local Indian residents in Ethiopia have been generously contributing from time to time for charitable purposes.

**FII**

The people of Indian descent numbered about 228,200 out of a total population of 456,200.

Generally Indians play an important part in the economic field, in the role of farmers, retail traders, land transport operators etc. They have also entered the professional ranks including Civil Service, law and medicine.

As a result of the stipulation made by the recent Constitutional Conference held in London Indians have been allotted only 12 seats in the Fiji Council. This has no relation to their numerical strength. Indians in Fiji have franchise both in respect of legislature and the local bodies.

There are no restrictions on the remittance of money from Fiji to the countries in the sterling area (except Canada). Money may not be sent outside the sterling area without a permit from the Controller of Foreign Exchange.

**GUYANA**

The bulk of the Indian settlers are sugar workers, cane farmers or rice growers and in recent years some have made good progress in professions and in business.

Entry is through a permit against a deposit of S.W.I. 2,000 issued for limited periods.

For remittance of money prior approval of the Government is necessary.

**INDONESIA**

Migration of foreigners into Indonesia is banned.

Under the law, there are no constitutional, legal or any other disabilities from which Indian residents, as such, suffer. They are not discriminated against and are treated on par with other foreign residents.

Remittance facilities which were previously available to foreigners are now very much restricted.

The economic condition of Indians here is fairly good. They mostly deal in textiles and sports goods, although a fair number of Indians in parts of Sumatra live off the land and run small dairies etc.

**MALAWI**

Malawi is a small land-locked country with an area of about 45,000 square miles and a population of about 3 million of which 12,500 are of Indian origin. India has its High Commission in Malawi at Blantyre.

**MALAYSIA & SINGAPORE**

The estimated total population of Indians and Pakistanis in these countries was 9,55,000 in 1961.

The labouring and non-labouring classes of Indians may be roughly estimated at 70 per cent and 30 per cent respectively of the entire Indian population, the former employed in rubber and in estates and the latter either employed in the clerical ranks of the various Govt. departments, mercantile firms and banks, rubber estates and oil palm plantations etc., or employed in business, trade and other professions like law and medicine.

The Indian trading community is composed of Chettis, Gujaratis (both Hindus and Muslims), Sindhis, South Indian Muslims (both from Tamil Nad and Malabar) and a few Sikhs.

Indians do not suffer from any special disabilities. They are eligible for citizenship if they fulfil the prescribed conditions.

**MAURITIUS**

People of Indian origin in Mauritius form about 67 per cent of the total population of 7,27,381 as on Oct. 31, 1964. This population is mainly composed of descendants of "Indented" labourers from Bihar, Madras, U.P., but there is a sprinkling of traders from Gujarat and Maharashtra. These people have been settled here for generations and are now known as "Indo-Mauritians". Between 35 to 40 per cent of the agricultural land in Mauritius is owned by these Indo-Mauritians. A large number of them are farm labourers in sugar plantation. The rest are engaged in commerce and trade or professions or Government service. Indo-Mauritians are coming into their own and on the whole their economic and social conditions compare favourably with people of Indian origin in other countries.

Immigration of foreigners for the purpose of settling down is not normally allowed. Only in exceptional circumstances when there is a dearth of skilled hands in a particular trade or profession, foreigners are allowed to enter and stay here for a specified period, subject to their obtaining an offer of employment from a Mauritian employer and Entry Permit from the Government of Mauritius.

**NEW ZEALAND**

Entry into New Zealand is controlled under a permit system, exemption being provided, only for New Zealand citizens. Broadly speaking, however, for persons of United Kingdom descent the procedures for entry are somewhat simplified. There is no quota system.

The applications from Indians for permanent entry have been approved at the rate of approximately 100 applications per annum over the past few years. Most of those approved have been submitted on behalf of wives and minor children of Indians already resident in New Zealand.

It is estimated that there are 5,000 Indians at present resident in New Zealand, mainly Gujaratis and Punjabis. The size of the community is, however, steadily increasing. The greater part of the Indian community is concentrated in the main urban centres, where for the most part they are engaged in small businesses such as grocery stores, importing houses or restaurants. Others, however, are employed in industry and in clerical work and the professions.

Indians enjoy the right to vote in Parliamentary and Municipal elections and do not suffer from any economic, political, legal or other disability.

Remittances made by all New Zealand residents (including Indians) from New Zealand are subject to exchange control. The maximum

amount normally approved for remittance to India for maintenance purposes in any one year is £250.

**PHILIPPINES**

Subject to compliance with prescribed requirements, Indian nationals are now admitted to the Philippines as immigrants under an annual quota not exceeding 50 for each calendar year.

**PORTUGUESE EAST AFRICA**

In Portuguese East Africa there is no colour bar as such.

Consequent on the liberation of Goa, Daman and Diu in December 1961, the Portuguese Govt. adopted a hostile attitude towards persons of Indian origin and about 2,200 Indian nationals resident in Mozambique were summarily interned, their property sealed and their bank accounts frozen. In accordance with an Agreement reached between the Governments of India and Portugal, these Indian nationals were subsequently released. The Portuguese authorities have not only adopted arbitrary methods to liquidate the assets of Indian nationals but have also made the repatriation of these assets dependent upon the availability of foreign exchange over a period of three years failing which these assets are to lapse to the State.

**REPUBLIC OF ZAMBIA**

Zambia has a total population of 3.5 million of which 2.4 million are indigenous Africans. There are 75,000 Europeans and about 7,000 people of Indian origin. India has an office of High Commissioner in Zambia at Lusaka.

**SAUDI ARABIA**

Entry visa regulations of the Govt. of Saudi Arabia are very strict and generally entry visas are issued only to those sponsored by a Saudi national or a foreign government.

No foreigner is permitted to have any business or trade of his own except under the Foreign Investment Regulation in which he may be permitted to hold a minority share, subject to other conditions. Every foreigner is required to have a Residence Permit and must obtain a work permit if he seeks employment, through his Saudi employer/sponsor.

There is no restriction on remittances sent from Saudi Arabia to any part of the world, except Israel. The financial position of Saudi Arabia is very stable and strong and there are almost no controls on import trade and foreign exchange.

Over 3,000 Indians reside in Saudi Arabia out of which about 500 are employed with the Arabian American Oil Company (ARAMCO) alone on contract basis in different capacities. Others are working in government departments and private firms. There is a systematic tendency to replace the foreigners by Saudi nationals. This applies to Indians as well.

It is very difficult for a foreigner to obtain Saudi nationality, which is granted, under the personal orders of the Minister of Interior, in exceptional cases.

**SOUTH AFRICA**

Persons of Indian origin in South Africa numbering about half a million are serving as traders, farmers, factory workers, and a small number of professionals, such as doctors, lawyers. Most of the present generation are born in South Africa and have been accepted as South African nationals.

Racial discrimination against Indians exists in South Africa in every walk of life and in the worst possible form. Persons of Indian origin are practically excluded from parliamentary and provincial franchise as well as from public services except in menial and subordinate posts.

The South African Government has abandoned its earlier policy of repatriation on which it had hitherto planned its faith as a solution to the Indian "problem". They have now created a Ministry of Indian Affairs. All matters pertaining to Indians are being dealt with by this Ministry.

The Group Areas Act which was originally enacted in 1950 has been amended several times since then. The chief sufferers under the Act continued to be the Indian property owners in Natal, Transvaal and the Cape Province.

Three "Tribal" University Colleges for Africans (Fort Hare, Turfloop and Ngeya), one for the Coloured people (Western Cape) and one for the Indians (Salisbury Island) were established early in 1961.

Under an Act passed in 1953, the South African Government banned the entry into South Africa of the wives and children of persons of Indian origin domiciled in South Africa. But certain specified categories of wives and children of persons of Indian origin were allowed to enter South Africa till 10th February 1956.

Practically all Indians domiciled in South Africa are South African citizens by law, but they are denied some of the most important rights of citizenship.

Indians are not eligible to a place in the Executive Council or Legislature, whether provincial or central.

There is no special limit to remittances by Indians to India.

South Africa has persistently refused to accept the numerous resolutions passed by the U.N. urging it to give up its policies of racial discrimination. As a result of pressure exerted by the Commonwealth of Nations, the Government of South Africa withdrew therefrom on May 31, 1961, rather than give up apartheid.

**SOUTHERN RHODESIA**

There are about 100 persons of Indian origin living in Rhodesia. S. Rhodesia, being under a white minority rebel regime at present, India has imposed a total economic boycott at considerable sacrifice to herself.

**SUDAN**

There are about 3,000 Indians in the Sudan. The Indian Community is mostly in trade of textiles, tea, jute goods, essential oils, gum arabic and dura. Almost all these traders come from Gujarat State and continue maintaining their ties with the motherland.

There are about seventy Indians working under the Government of Sudan on contract basis—a few of them are experts from the United Nations.

The Indian community in the Sudan on the whole is well off. Their relations with the people and the Government are quite good.

Further immigration into Sudan for business or private employment is not allowed. Remittances are governed by exchange control regulations.

**SURINAM**

Surinam is an autonomous part of the kingdom of the Netherlands which was formerly known as Dutch Guiana.

There are 93,000 Indians in a total population of 302,000. They form the second largest group.

The Indian community has made rapid economic progress, especially during the last 25-30 years. In medium-size enterprises they already have a strong economic position. Indians are mainly engaged in agriculture, business and trade. The majority of Indians are sugar estate workers or cane farmers. Hindi is widely spoken and understood.

Migration into Surinam is controlled. Entry permits are issued to technically trained personnel in the interest of national economy. There is no quota system and applications are considered on an *ad hoc* basis.

There are no constitutional, legal or any other disabilities on Indian immigrants.

**TANZANIA**

There are some 90,000 Indians living in Tanzania including about 5,000 Goans and about 85,000 Muslims. They are mostly engaged in wholesale and retail trade, manufacturing

industries, Public Services etc. After independence, however, scope for further employment in Government services has decreased due to Africanisation policy of the Government. Similarly due to encouragement of co-operative societies, marketing boards etc. further participation in wholesale and retail trade is also restricted. As entry to educational institutions is not easily available for non-citizens, Indians have to send their children to India for further education. As, however, Government encourages establishment of manufacturing industries, there are sufficient opportunities for foreign capital and technical know-how to take increased share in this sphere. East Africa including Tanzania is by and large a free competitive market and there is no exchange control operating at present. If the proposed East African Federation comes about bringing close political union between the three East African territories, there is good scope for Indians to start small scale and medium industries in a growing economy.

The position of Indians in Zanzibar is not very happy. Nationalisation of houses, farms, factories, export and import trade, restriction in sending savings out of the country, denial of educational facilities and various other restrictive practices have made the life of Indians very difficult and many have already left the islands for India during the past year.

#### THAILAND

The annual quota is 200 and the selection is made by the Government's Immigration Division in Bangkok. No discrimination against the Indian population prevails in Thailand. Remittances out of the country are controlled by the Bank of Thailand's rules and regulations.

#### UGANDA

At the time of 1959 Census, there were 63,130 persons of Indian origin, 5,973 Pakistanis and 2,830 Goans. In mid-1962, the total number of Asians in Uganda was 79,900. The persons of Indian origin are predominantly Hindu, but there is also a substantial and influential religious minority of Muslims; Sikhs and Parsees are also to be found. The majority of Indian settlers come from the Gujarat and Saurashtra. Gujarati is the language spoken by them, even by the Muslims. There are some settlers from the Punjab and Maharashtra also.

Apart from the Indian settlers who are mainly in business, there are Indians who are employed as teachers, doctors, nurses, engineers, etc.,

with the Uganda Government on contract or permanent terms. The Indian community in Uganda on the whole is fairly well-off.

Entry into Uganda is strictly regulated through entry passes and further immigration is not allowed. Temporary employment passes for a limited period are issued for skilled personnel to be brought from India for employment in the concerns owned by the people of Indian origin.

#### U.S.A.

The U.S.A. has fixed a quota of 100.

There are certain categories of aliens who are excludable under Section 212 of the Immigration and Nationality Act. These exclusions apply to both immigrants and non-immigrants, although there are exceptions and certain discretionary powers vested in the Attorney-General and the Secretary of State.

The following classes broadly among others are excluded: feeble-minded, insane, mentally defective, drug addicts, chronic alcoholics, those with dangerous contagious diseases like leprosy, or convicted for crimes involving moral turpitude, polygamists, anarchists, those who advocate or teach or are broadly associated with communism or those who attempt to overthrow by violence the government of the U.S.A.

Within each quota there are seven preference categories which may be stated briefly as follows: First preference — unmarried sons and daughters of U.S. citizens. Second preference — spouses and unmarried sons and daughters of aliens admitted to the United States for permanent residence. Third preference — professional or highly skilled persons. Fourth preference — married sons and daughters of U.S. citizens. Fifth preference — brothers and sisters of U.S. citizens. Sixth preference — skilled or unskilled workers in short supply in the U.S. Seventh preference — refugees.

Spouses, children and parents of American citizens are admitted on a non-quota basis. For the above preference categories, as well as for non-quota immigrants, petitions must be filed with and be approved by the Attorney-General of the U.S.

There are a variety of requirements which must be met before an immigration visa can be issued. No consideration can be given to third, sixth and non-preference applicants until they

obtain certification from the U.S. Department of Labor. The application can be made at a diplomatic or consular office of the United States. These offices are located in New Delhi, Bombay, Calcutta and Madras within India. It must be emphasized that under the Indian quota, the demands have been so high for preference visas that no numbers have been allocated to non-preference applicants for many years.

An immigrant, regardless of race, colour or creed, admitted into the United States as a permanent resident alien is eligible for American citizenship, if he fulfils the residence and other requirements laid down in the Immigration and Nationality Act of 1952, as amended.

There are no restrictions on the remittance of American funds abroad.

#### THE WEST INDIES

##### TRINIDAD AND TOBAGO:

*Capital:* Port of Spain.

The number of persons of Indian origin is the largest in Trinidad and Tobago. The total area of Trinidad and Tobago is 1,980 sq. miles and the population is 827,927 of which people of Indian descent number about 3,01,946.

The bulk of the people of Indian descent work on agricultural farms, industrial estates and in business houses. The majority of the departmental stores, petrol stations and taxi stands are owned by people of Indian descent.

Entry into the country is through permits, issued initially for limited periods against cash deposits. No visa is required for the Commonwealth citizens.

##### JAMAICA:

*Capital:* Kingston. The total area of Jamaica is 4,411 sq. miles and the population is 1,685,178 out of which Indians number over 30,000 who are mainly agriculturists.

Entry into the country is through work permits which are issued very sparingly.

**BARBADOS:** Its capital is Bridgetown. The total area is 166 sq. miles and its population is 232,100. There are a few Indians numbering about 400, majority of whom own dry goods stores. There are no restrictions for remittances to soft currency areas. Immigration is controlled through a system of work permits.

## PROHIBITION

**T**HE real impetus to the prohibition movement was given by the Indian National Congress which considered prohibition as one of the items of their programme. At the Karachi session when the Bill of Rights was passed, it laid down that even when the Congress would be called upon to frame the Constitution it would include total prohibition in the whole country except for medical purposes as one of the articles of the Constitution.

A Prohibition Enquiry Committee was appointed by the Planning Commission on December 16, 1954. The Committee recommended total prohibition in India from 1958.

In the middle of 1963, a study team on prohibition was appointed by the Planning Commission with Mr. Tek Chand as chairman. The report was placed in Parliament on May 6, 1964. It outlines a four-phased programme to accomplish complete prohibition by 1975-76 and recommends strict social, legal and penal measures to curb the drink evil.

The measures suggested to curb drinking appear fairly harsh. These include summary trial of those charged with prohibition offences which should also be declared non-bailable, a jail sentence for habitual offenders, shifting of the onus of proof to the accused, institution

of collective fines, externment, forfeiture of property and disqualification from elections and government service.

The law of evidence is sought to be suitably amended as also the provisions relating to civil damage.

Main suggestions of the team were given in the previous editions of the Directory.

#### PROHIBITION IN STATES

Some facts and figures about prohibition in some of the States for which details are available are given below. Figures within brackets indicate the date of introduction of prohibition.

**Andhra:** Prohibition has been introduced in the Andhra region comprising eleven districts namely Chittoor (1938), Cuddapah (1938), Kurnool (1946), Guntur (1947), Nellore (1947), Srikakulam (1948), Visakhapatnam (1948), East Godavari (1948), West Godavari (1948), Krishna (1948) and Banganapalli of Kurnool District (1948).

Prohibition is not being enforced in the Telangana area of the State.

**Assam:** The policy of the Assam Government has been to extend "dry laws" all over the State, in a phased manner.

Prohibition was first introduced in Barpeta subdivision, Kamrup District, on March 1, 1953, and extended to the northern portion of Gauhati subdivision from October 2, 1954. The entire Kamrup District was declared dry from January 26, 1956.

The entire Nowgong District was declared dry from April 1, 1960 and the entire Goalpara District from April 1, 1962.

Four more districts in the Plains region and all the four autonomous hill districts are yet to be covered by prohibition.

The budget allotment for enforcing prohibition was Rs. 2,47,945 during the year 1965-66 and Rs. 3,01,930 for the year 1966-67.

**Delhi:** Is committed to introduce prohibition gradually and with this aim and view, the following steps have been taken from time to time towards prohibition:—

- 1) Reduction in country liquor shops from two to one and the quota of country spirit has been gradually reduced being the strength of the spirit maintained at 50 degrees under proof;
- 2) Increase in the number of dry days to 187. On these days liquor and intoxicant vendis are closed;
- 3) Increase in the rates of duty and assessment fee;
- 4) Prohibition of import of

country spirit in any quantity within the radius of five miles inside Delhi border; 5) Enhancement of the punishment under the penal provisions of Excise Act and also prescribing a minimum sentence of imprisonment for the offence of illicit distillation; 6) Regulating the sale and possession of spirituous preparations by a licence and prescription; 7) Rationalisation of preventive staff and re-organization thereof on zonal basis.

The budget allotment for the enforcement of the above prohibitory measures and also for other expenses is Rs. 2,52,000 for the year 1966-67.

**Gujarat:** There is total prohibition throughout the State. Neera and palmgur centres with their allied industries have been started in several parts of the State so as to popularise neera as a nutritious drink and utilize the trees and the former tappers for productive and constructive purposes.

Tourist permits for consumption of foreign liquor are issued on presentation of tourist card. Liquor shops operate for such permit holders in selected cities like Ahmedabad, Surat, Rajkot and Baroda.

**Kerala:** At present prohibition is in force in Kozhikode (1947), Cannanore (1947), Palghat (1947), and Trivandrum Districts (1948 & 1949), Talappilly (1949), and part of Cranganore Taluka (1950) of Trichur District, Kottarakkara (1955) and Pathanapuram taluks of Quilon District (1950), Fort Cochin area of Ernakulam District (1947) and some enclaves of Alleppey District (1947).

Budget allotment for 1965-66: Rs. 5,27,000.

**Madhya Pradesh:** At present prohibition is in force in ten districts. Names of districts showing within brackets area under prohibition and date of enforcement respectively: Khandwa (whole district; 1946); Saugor (whole; 1938); Damoh (whole; 1938); Narsingpur (whole; 1938); Hoshangabad (whole; 1942 & 1946); Vidisha (whole excluding Sironj Sub-Divn.; 1948); Sironj (Sub-Divn.; 1957); Durg (Durg Tehsil; 1946); Bilaspur (Tehsil Janjgar; 1946); Raipur (Tehsil Raipur; Dhamtari area; Baloda Bazar area; Mahasamud area and Gariaband area; all 1949); Jabalpur (Katni town; 1946; Rest of Katni & Murwara Tehsil; 1953).

Madras was the first State to introduce prohibition in the whole country.

Prohibition in the composite State of Madras was introduced area-wise in three stages. Eight districts were made dry with effect from 1st October 1946, eight more in 1947 and in the last stage, prohibition was extended to the remaining nine districts from 2nd October 1948. Prohibition continues to be in force throughout the State.

**Maharashtra:** Total prohibition was introduced in 1950 in all districts of Western Maharashtra forming part of erstwhile Bombay State. In other regions of the State, namely Vidarbha and Marathwada, prohibition was introduced from 1957.

There is no separate budget allotment for the enforcement of prohibition.

Changes in the 14-year old prohibition policy of Maharashtra was announced by the Chief Minister on the 31st of December 1963. All the changes except the removal of the ban on the manufacture and sale of beverages with an alcoholic content up to 3.5 per cent and toddy of equal strength took effect from April 1, 1964. A liberalisation in the procedure for liquor permits has been introduced. Persons above the age of 40 are eligible for permits on straightforward declaration that they need alcoholic drinks for maintaining their health. A certificate to this effect from the applicant's medical adviser would suffice for this purpose. The rest will have to get permits under the existing system. While the maximum quota for persons above the age of 40 has been fixed at four units, it is three in the case of those between 30 and 40 years of age, and two units for those below 30. One unit would fetch one quart bottle of hard liquor (i.e. whisky, brandy, rum, gin) or four bottles of wine or 18 bottles of beer. The permit availability period will be two years in the case of those above 40 and one year for the rest.

**Mysore:** Prohibition made a beginning in Old Mysore in 1938, when it was introduced in Rural Welfare and Health Centres in the talukas of Ramanagaram and Channarayana in Bangalore District on an experimental basis. Further, as a measure of co-operation with the Madras Government, Molakalmuru taluka of Chitradurga District and Pavagada taluka of Tumkur District were declared dry in January 1947. In the middle of the same year, Ramanagaram and Channarayana in Bangalore District were declared completely dry.

Prohibition was formally introduced in five districts, out of the total of nine districts of Old Mysore, in 1948.

There was an enlargement of the dry zone in the State with the merger of Bellary District, Bijapur, Belgaum, North Kanara and Dharwar Districts of Bombay, South Kanara and Kollegal of Madras, and Coorg, which were already dry.

At present with the exception of Bangalore City and certain talukas of Bangalore District, Gulbarga and Raichur Districts, the entire State is dry. The prohibition zone covers about 81 per cent of the area and 75 per cent of the population of the State.

The Mysore Government decided in Nov. 1965, to liberalise the prohibition laws on the pattern followed more or less by the Maharashtra Government.

Permits on the basis of medical certificates will be issued to all persons over the age of 30 years. The fee fixed for getting permits would be Rs. 20 per year against the present fee of Rs. 100. An additional revenue of Rs. one crore is expected as a result of the liberalised prohibition policy.

**Orissa:** Prohibition is now in force in the districts of Puri, Cuttack, Balasore, Ganjam and Koraput excluding Kashipur P. S. area.

Status quo is at present maintained in the prohibition policy of the State.

**Rajasthan:** From 1956, drinks in hotels, restaurants, clubs, cinemas, bars, messes have been stopped. A few specified hotels serving foreign visitors and tourists have been allowed to serve foreign liquor to such persons in special rooms.

Following days are observed as dry days in the year: Republic Day; Harijan Day; Independence Day; Mahavir Jayanti; Budh Purnima; Guru Nanak birthday; Birthday of Prophet Mohammad; Krishna Janmashthmi; Mahatma Gandhi's birthday.

The printing and publications of advertisement commending the use of intoxicating liquors has been prohibited.

The former Abu area in Bombay which was integrated in Rajasthan in 1956, has been kept dry.

## GOVERNMENT INDUSTRIAL UNDERTAKINGS

IN the following pages we give short notes on Government industrial undertakings.

The total investment in 66 Govt. of India Undertakings in 1964-65 aggregated Rs. 2,037 crores. This figure was expected to go up to Rs. 2,400 crores by the end of 1965-66.

At Rs. 2,037 crores, the total investment showed an increase of Rs. 332 crores over the previous year's figures. The main increase in the Central Government contributions were in the following enterprises: Hindustan Steel (Rs. 81 crores), Oil and Natural Gas Commission (Rs. 44 crores), Heavy Engineering Corporation (Rs. 40 crores), Bharat Heavy Electricals (Rs. 23 crores), Indian Oil Corporation (Rs. 22 crores), National Coal Development Corporation (Rs. 18 crores), The Neyveli Lignite Corporation (Rs. 16 crores), Food Corporation (Rs. 15 crores).

Of the running concerns, Hindustan Steel is in a class by itself by virtue of the investment of Rs. 885 crores in it being about 43 per cent.

After providing for depreciation, amounting to Rs. 21 crores (Rs. 19 crores in 1963-64), the gross profit for the year was Rs. 34 crores against Rs. 28 crores in the previous year.

The number of persons employed by the 66 undertakings as at the end of 1964-65 was 4.1 lakhs (3.9 lakhs previous year). The total salaries and wages for the year amounted to nearly Rs. 120 crores.

A committee on the Public Undertakings, which include 10 members of the Lok Sabha and five of the Rajya Sabha has been constituted and started functioning from May 1, 1964.

The functions of the Committee is to examine reports and accounts of public undertakings, which are established by the Central Acts or the Government companies. It will examine, in the context of autonomy and efficiency of the Undertakings, whether their affairs are being managed in accordance with sound business principles and prudent commercial practices.

### ASHOKA HOTELS LIMITED

50-B, Chanakyapuri, New Delhi.

India's only 5-star de luxe hotel. It is fully airconditioned and has private swimming pool, refrigerator, telephone and bath for every room.

When started: October 30, 1956. Total cost: Rs. 2.81 crores. Expenditure as on March 31, 1966: Rs. 85.21 lakhs. Income as on March 31, 1966: Rs. 108.48 lakhs. Net profit Rs. 23.27 lakhs; No. of rooms 345; No. of beds 448. The highest and lowest charge per day: Rs. 300 to Rs. 60. Total No. of persons who stayed from April 1965 to March 1966: 1,29,025.

The average daily occupancy during 1965-66 has been 353 persons as against 403 during 1964-65. The Hotel's loan liability is Rs. 27 lakhs.

Chairman: S. Ratnam, Managing Director: N. P. Dube; Manager: George Verghese.

### ATOMIC REACTORS

(Trombay, Bombay 71)

(See under "Research")

### BHARAT EARTH MOVERS LTD.

Hindustan Aircraft Post, Bangalore-17.

Bharat Earth Movers Limited was registered as a company in the public sector, under the Ministry of Defence, Department of Defence Production on May 11, 1964 with an authorised capital of Rs. 7.5 crores.

The company has been formed in technical collaboration with Messrs. Le Tourneau-Westinghouse Company of U.S.A. for the indigenous manufacture of various types of heavy earth moving equipment for India's border roads, river valleys, irrigation and mining projects.

The railcoach division turns out its installed capacity of 25 broad gauge integral rail coaches per month.

In its Earth Movers Division, the company will manufacture heavy motorised scrapers, rear dumps, rubber tyred tractors, crawler tractor drawn scrapers, haulpaks, motor graders and cranes.

The BEM assigned with the task of manufacturing rail coaches and heavy earth moving equipment in its second year of operation, produced 276 broad-gauge integral rail coaches and 46 heavy earth moving equipment of different types. Net profit 1965-66: Rs. 31.77 lakhs.

The company has the sole distribution rights in India, Nepal and Bhutan, of the complete range of Earth Moving Equipment manufactured by Messrs. Le Tourneau Westinghouse Company, U.S.A.

*Chairman:* M. M. Philip, I.C.S. (Retired); *Managing Director:* Brig. P. R. Kumar.

#### BHARAT ELECTRONICS LTD.

Jalahalli P.O., Bangalore-13  
(Under the Ministry of Defence)

Bharat Electronics Limited was registered as a company with an authorised capital of Rs. 10 crores in April 1954 with the object of making the country self-sufficient in electronic equipment including Radar. Actual production started in 1956 in a small way with two items in the production line RU 536 — a General Purpose Communication Receiver and ET402 — Medium Power Transmitter. Since then production has been progressively diversified and expanded and the total number of electronic equipment including Measuring and Test Instruments produced or under production is now of the order of about seventy.

Various types of AF, MF, HF and VHF equipment are now in the production line of the factory.

The total foreign exchange saved by the Company is nearly Rs. 17.83 crores upto 1965-66. The present strength of the employees is 5,500. The production rose from Rs. 707.97 lakhs in 1964-65 to an estimated Rs. 972 lakhs during 1965-66.

*New Projects:* Plans are afoot for establishing the indigenous manufacture of some types of transmitting tubes under the Licensing agreement concluded by BEL with Nippon Electric Co., Japan.

Proposals are also being finalised for establishing the indigenous manufacture in BEL of X-ray tubes, Magnetrons, Silicon Transistors, TV Picture Tubes and studio equipment.

In addition production of instruments such as L.C.R. Bridges, transistorised frequency counters, Electrocardiographs are being finalised.

*Chairman:* Dr. S. Bhagavantam (Scientific Adviser, Ministry of Defence); *Managing Director:* B. V. Baliga.

#### BHARAT HEAVY ELECTRICALS LTD.

(A Govt. of India Undertaking)

*Regd. Office:* 5, Parliament Street, New Delhi-1.

Authorised capital: Rs. 50 crores. The company has under it the following four units:— (1) Ranipur Unit, Hardwar (U.P.); (2) Ramachandrapuram Unit, Hyderabad (A.P.); (3) Tiruverumbur Unit, Tiruchirappalli (Madras); and (4) Switchgear Unit, Hyderabad.

The Tiruverumbur Unit and Ramachandrapuram Unit of the company have started production and were inaugurated on May 1, 1965 and December 11, 1965 respectively. In the Ranipur Unit also, assembly of motors has already started from the end of 1965.

The Ranipur Unit is designed to produce 1.5 million kW of steam turbines and turbo-alternators, 1.2 million kW of hydro turbines and generators of sizes upto 6,600 mm runner diameter and 0.5 million kW of medium and large sized AC and DC motors.

The Ramachandrapuram Unit is designed to manufacture steam turbines, turbo-alternators and certain powerstation auxiliaries like condensate pumps, feed water pumps and circulating water pumps. The output capacity planned is about 800 MW, comprising mainly of unit sizes of 55 MW and 100 MW.

Tiruverumbur Unit will manufacture high pressure boilers complete with mills, high pressure fittings and valves. The output in the first stage of development will be sufficient to match a power generating capacity of 750 MW. It is proposed to further enlarge the scope of this Plant in the Fourth Plan period upto a production equivalent of 2,000 MW of generating capacity.

The Switchgear Unit is designed to manufacture air blast circuit breakers of 132 kW, 220 kV and 400 kV sizes in collaboration with Messrs. ASEA of Sweden and was expected to go into production by the last quarter of 1966.

*Chairman:* D. C. Baijal; *Secretary:* P. P. Khanna.

#### BOKARO STEEL LTD.

Main Administrative Bldg.,  
Bokaro Steel City.

The Union Government is setting up another steel plant in the public sector at Bokaro.

A public sector company known as Bokaro Steel Ltd. for setting up the Bokaro steel plant was registered at New Delhi on January 29, 1964. This company will have a share capital of Rs. 100 crores.

An agreement was signed on 25th January, 1965 between the Government of India and the Government of the USSR for co-operation in the construction of an integrated iron and steel works at Bokaro.

The agreement envisages that Bokaro, as Bhilai, will be Indian built, with such assistance of Soviet specialists as the Indian organisations may require for the construction, erection and commissioning of the plant. It also envisages that the Soviet organisations will assist in the training of Indian specialists and workers both in the U.S.S.R. and in India.

The Government of the U.S.S.R. are extending a credit upto 190 million roubles (Rs. 100.5 crores) for the purpose of meeting the foreign exchange cost of the plant. It bears an interest of 2.5 per cent and is repayable in twelve years.

The Project Report which was submitted by the Soviet organisations and accepted by the Govt. of India, incorporates latest developments of the Soviet and world practice in iron and steel technology, comprehensive mechanisation and automation of the technological processes and transport systems. The iron and steel works at Bokaro will have a capacity of 1.7 million tonnes at the first stage with a provision for continuous development upto 5.5 million tonnes. The first stage is to be completed by the end of 1970.

A contract was signed on 3rd May 1966 between Bokaro Steel Limited and Messrs. Tjashpromexport of USSR for the supply of equipment and materials from USSR for stage I for the plant. Stage I will have a production capacity of 1.7 million tonnes of ingot steel and 880,000 tonnes of foundry iron for sale. The main products will be hot-rolled light plates, hot-rolled coiled strips, hot-rolled sheets, cold-rolled coiled strips and cold-rolled sheets.

A separate contract was also signed on 3rd May 1966 for the designing work to be done by the USSR agency.

On an assessment of the indigenous capacity to manufacture the various items that go into the construction of the steel plant, it has been found that 63.7 per cent of the requirements of equipment for the 1st stage development can be met from the Indian sources. The figures for the steel structurals and refractories are as high as 89 per cent and 96 per cent respectively.

The work at the project site has been started. Detailed investigations aimed at the collection of data required for the preparation of working drawings and preparatory works such as site levelling in plant area, construction yard, provision of rail, road, water and power facilities construction of township etc. are in progress as per schedule.

*Chairman:* N. N. Wanchoo; *Managing Director:* K. M. George; *Secretary:* P. K. Basu.

#### CHITTARANJAN LOCOMOTIVE WORKS

(See under Late Particulars)

#### ENGINEERS INDIA PRIVATE LIMITED

C/o Ministry of Petroleum & Chemicals

Allahabad Bank Building,  
17-Parliament Street, New Delhi.

The Government of India and the Bechtel International Corporation of San Francisco, U.S.A. have jointly formed an engineering company known as Engineers India (Private) Limited.

The company will provide technical and other services in the development of petroleum, petrochemical and other industrial programmes in the public and private sectors.

The company will employ engineers from India and the U.S.A.

#### THE FERTILIZERS AND CHEMICALS, TRAVANCORE LTD.

Alwaye, Kerala State, South India.

The Fertilisers And Chemicals Travancore Limited, popularly known as FACT, started production in 1947. It was the first unit to manufacture ammonium sulphate on a commercially large scale in India. In addition to ammonium sulphate, the Company has a variety of other products like ammonium phosphate, superphosphate, ammonium chloride, sulphuric acid, anhydrous ammonia and liquid sulphur dioxide.

The second stage expansion which was completed in 1962, inaugurated for the first time in India the new Oil Gasification complex, for naphtha based ammonia production in the country. The Third State Expansion which has just been completed has added another Oil Gasification plant and a Tonnage Oxygen Plant to increase ammonia production to 220 tonnes a day.

The Company's factory at the Udyogamandal now has an annual production capacity of 70,000 tonnes of Nitrogen and 35,000 tonnes of  $P_2O_5$  in the following end products and intermediate products:

|                              | (Tonnes) |
|------------------------------|----------|
| Ammonium Sulphate .. ..      | 200,000  |
| Ammonium Phosphate .. ..     | 135,000  |
| Ammonium Chloride .. ..      | 25,000   |
| Superphosphate .. ..         | 44,000   |
| Sulphuric Acid .. ..         | 250,000  |
| Fertiliser Mixtures (NPK) .. | 350,000  |

The company has now entered into a collaboration arrangement with a leading design and engineering organisation in the U.K. for development and utilisation of know-how in certain specialised fields of fertilizer technology. FACT has developed the process to manufacture ammonium sulphate from byproduct gypsum and the first ICMA award was given to FACT in 1965.

The new expansion activity of the company will be in the form of setting up another Rs. 300 million fertilizer factory at Cochin with an annual production capacity of 330,000 tonnes of Urea.

Simultaneously a Rs. 40 million fourth stage expansion programme has also been undertaken in the Udyogamandal unit to raise ammonia production by a further 120 tonnes a day. At the end of this programme which is expected to be completed by 1969, the factory will be producing 180,000 tonnes of ammonium phosphate 20 : 20 grade as against the present capacity of 35,000 tonnes of 16 : 20 grade.

The company has built a compact distribution organisation in Kerala with more than 2,000 selling points. A similar distribution system is also being developed in the neighbouring States of Madras, Mysore and Andhra Pradesh.

**FERTILIZER CORPORATION OF INDIA LTD.**  
F-43, South Extension Area, Part I, Ring Road,  
New Delhi-3.

(Under the Ministry of Petroleum and Chemicals)

The Fertiliser Corporation of India was formed on January 1, 1961.

The constituent units of the Corporation now are the three operating fertilizer factories at Sindri in Bihar, Nangal in Punjab and Trombay in Maharashtra and two projects under implementation at Namrup in Assam and Gorakhpur in Uttar Pradesh. Another project which the Government of India has approved and entrusted to the Corporation for implementation is the Durgapur Fertilizer Project in West Bengal.

The Corporation has an authorised capital of Rs. 75 crores and issued and paid up capital of Rs. 49,45,14,000.

The Third Five-Year Plan had envisaged an installed capacity of one million tons of nitrogen and 4 lakh tons of phosphate to be achieved at the end of the Third Plan period. These targets are proposed to be raised to three million tons of nitrogen, one million tons of phosphate and 700,000 tons of potash by the end of the Fourth Plan.

With the completion of all its projects which are under construction or have now been entrusted to it for implementation, the Fertilizer Corporation in another three years will have developed an overall production capacity of 547,000 tonnes of nitrogen and 45,000 tonnes of phosphate per year.

The Corporation's operating factories have so far produced over 63 lakh tonnes of fertilizers valued at over Rs. 188 crores.

#### Sindri Unit

Sindri unit produces three types of nitrogenous fertilizers, Ammonium Sulphate, Ammonium Sulphate-Nitrate and Urea. Ammonium Sulphate contains 21 per cent nitrogen, while Ammonium Sulphate-Nitrate 28 per cent and Urea 46 per cent.

The total cost on the Sindri Factory, including the expansion plants, has been Rs. 45 crores.

The main group of plants for the production of ammonium sulphate are the Coke Oven Plant, the Gas Plant, the Ammonia Synthesis Plant and the Sulphate Plant.

The Coke Oven Plant has been designed to produce 600 tons of coke per day and various by-products of industrial importance.

The Gas Plant produces a gas mixture which is suitable for ammonia synthesis after necessary purification and can produce 33 million cft. of raw gas per day.

The Ammonia Synthesis Plant, is designed to produce 270 tons of ammonia per day.

The factory also has a power plant with a capacity of 80,000 kW. to provide it with electricity and process steam.

#### Expansion Plants

The Expansion Plants to produce two new types of fertilizer, utilising the coke oven gases, consist of a Gas Reformation Plant, Double Salt Plant and Urea Plant.

Sindri since its inception produced 43,08,093 tonnes of ammonium sulphate, 3,26,452 tonnes of double salt and 1,02,836 tonnes of urea till the end of March, 1966. This has saved the country about Rs. 146 crores in foreign exchange.

#### Nangal Unit

The second largest fertilizer factory in the public sector was built at Nangal and was successfully commissioned on February 22, 1961.

The factory has been designed to produce annually 3,88,000 tons of calcium ammonium nitrate, a nitrogenous fertilizer containing 20.5 per cent nitrogen. It has been located close to the world's highest dam, because the main raw materials for the production of fertilizer are electric power drawn from the Bhakra Hydro-electric Station and water from the Sutlej river. The full requirement of electric power for the Factory is of the order of 1,64,000 kW and 40 million gallons of water per day.

The Nangal factory has cost over Rs. 31 crores.

The following are the plants :—

**Electrolysis Plant :** In this plant, 25,000 cubic metres of hydrogen are generated every hour by the electrolysis of water.

**Ammonia Plant :** The guaranteed capacity of the plant is 307.2 tons of ammonia a day in three streams.

**Nitric Acid Plant :** The daily production capacity guaranteed is 554 tons of 100 per cent nitric acid or over 1,045 tons of 53 per cent nitric acid.

**Heavy Water Plant :** The designed capacity of the Heavy Water Plant is 14,000 kg. of heavy water annually.

Till the end of March, 1966 the Nangal Fertilizer Factory produced 15,69,467 tonnes of calcium ammonium nitrate. This has saved the country about Rs. 42 crores in foreign exchange.

#### Trombay Unit

The Trombay Fertilizer Project, which is estimated to cost about Rs. 34 crores, is designed to produce 90,000 tons of nitrogen and 45,000 tons of phosphate per year in the form of 3,30,000 tons of nitrophosphate, a complex fertilizer containing both nitrogen and phosphate in the ratio of 12.9 : 12.9 and 99,000 tons of urea.

The Trombay Fertilizer Factory went into production on 6th November, 1965. This is the largest factory so far built in India with an overall capacity of 135,000 tons of nutrients per year.

Plants attached to the above unit are :— Ammonia plant, Urea plant, Sulphuric acid plant, Nitric acid plant, Nitrophosphate plant and Methanol plant. The Methanol plant has a capacity of 30,000 tonnes of methanol per year.

#### Namrup (Assam)

The Namrup Project, which is estimated to cost about Rs. 20 crores, is designed to produce 45,000 tonnes of nitrogen per year in the form of 1,00,000 tonnes of ammonium sulphate and 55,000 tonnes of urea. The factory is expected to go into production by the middle of 1967.

#### Gorakhpur (U. P.)

The Gorakhpur Plant is designed to produce 80,000 tonnes of nitrogen per year exclusively in the form of 1,73,920 tonnes of urea and is estimated to cost about Rs. 27½ crores. The factory is expected to go into production during the second half of 1967.

#### Durgapur (U. P.)

The fertilizer factory at Durgapur, which is estimated to cost a little over Rs. 38 crores, will be the biggest of all fertilizer production units so far built in the country. Its production capacity will be 135,000 tonnes of nitrogen per year in the form of urea.

The factory is expected to go into production during 1968-69.

#### Internal Resources.

It may be stated that since the inception of the Corporation's oldest unit at Sindri, the total internal resources generated by way of revenue surpluses and contributions to the depreciation reserve amounted to Rs. 49.94 crores upto 31st March, 1965.

Chairman & Managing Director: Satish Chandra, I.C.S.

#### GARDEN REACH WORKSHOPS LTD.

43/44, Garden Reach, Calcutta 24.

It is a Limited Company owned by the Government of India.

The Workshops cover an area of 64 acres with a river frontage of half a mile. It offers slipway and dry dock facilities for craft up to 2,000 tons and building berths for vessels up to 1,200 tons launching weight. The Workshops are situated

very close to the Calcutta Port and are fully equipped to undertake all types of marine repairs for all sea-going vessels as well as inland water transport and harbour craft.

The Garden Reach Workshops Limited, which is a vital unit in the Ship-building and Ship-repairing Industry, has also become an important industrial unit in the field of general engineering, especially in connection with the manufacture of Electric Overhead Travelling Cranes, Deepwell Turbine Pumps, Mine Haulages and other Mine Machinery, Air Compressors and Diesel Road Rollers. It has extensive fabrication facilities for all types of structural work and possesses machine shops equipped with latest type of machines. The workshops are currently planning production of M.A.N. Diesel Engines of various ranges, especially those required for sea-going vessels.

The workshops now employ approximately 5,700 men and has a well organised training scheme for apprentices. The Company increased its production volume by 25 per cent during 1965-66 during which year it made a profit of Rs. 35.80 lakhs.

#### HEAVY ELECTRICALS (INDIA) LTD.

(A Government of India Undertaking)

(Piplani, Bhopal)

(Under the Ministry of Industry)

The Company's authorised, issued and paid-up Capital is Rs. 50 crores.

The production of switchgear started in the latter half of 1960 followed by that of transformers and capacitors. Subsequently, the manufacture of electric traction equipment and industrial motors was taken up. The factory commenced in 1965 the manufacture of generating plant—water and steam turbines sets—for exploiting the coal resources and hydropotential in the country. Lately the manufacture of rectifiers has also been taken up.

The factory was originally planned for an annual output of Rs. 12.5 crores to be achieved by 1968. Subsequently, it was decided to raise the production capacity of the factory to about Rs. 40 crores at the optimum level. The total strength of employees at optimum level is expected to be nearly 20,000.

**Ancillary Services :** The factory has its own blue water gas plant, boiler plant, power house, oxygen and acetylene plants and electroplating shop.

An Ancillary Industrial Estate has come up in the vicinity of the factory. Industries located in the Industrial Estate are also working as ancillaries to HEIL. In all 10 such ancillaries have been established so far. These units will produce components required for sophisticated and complicated heavy electrical equipment being manufactured in the factory.

**Production Programme :** The factory has turned out equipment worth Rs. 24 crores during the period from July 1, 1960 to March 31, 1966. The 1965-66 output was worth Rs. eight crores approximately. In 1966-67 the output worth Rs. 14 crores is expected.

**Township :** The township has a population of about 50,000.

Chairman and Managing Director : K. C. Lall;  
Secretary : R. C. Gupta.

#### HEAVY ENGINEERING CORPORATION LTD.

Administrative Building, Plant Plaza Road,  
P.O. Dhurwa, Ranchi.

Heavy Engineering Corporation Limited, a fully owned Government of India Undertaking, was incorporated in Bihar on 31st Dec., 1958 with Headquarters at Ranchi for developing the manufacture of heavy capital equipment in India. The Corporation is now engaged in establishing the following projects :—

1. Heavy Machine Building Plant at Ranchi in collaboration with U.S.S.R.; 2. Foundry Forge Plant and 3. Heavy Machine Tools Plant at Ranchi in collaboration with Czechoslovakia.

At full capacity, the plants will provide employment to a total of approximately 16,000 staff, engineers and workers.

**Heavy Machine Building Plant, Ranchi:** The plant has a production capacity of 80,000 tonnes of machinery items and 25,000 tonnes of structural steel items per year. Adequate provision has also been made for further expansion of the capacity to 1,65,000 tonnes of finished machinery items.

The plant is primarily meant to produce equipment and machinery for Iron and Steel Industry. It also possess adequate facilities and capacity to meet the requirements of machinery and equipment for other major industries like mineral, oil (oil drilling rigs), coal mining, chemical, fertilizer, cement etc., as well as for the manufacture of general engineering items like heavy cranes, excavators, crushing and grinding equipment, etc.

The plant has a programme for producing over 19,500 tonnes of plant and equipment during 1966-67 as against 10,000 tonnes produced during 1965-66. Apart from the order for 46,000 tonnes already in hand substantial quantity of plant and equipment for the Bokaro Steel Plant will also be supplied. The plant has on its rolls over 5,000 workers and staff.

**Foundry Forge Plant:** This plant with a capital outlay of Rs. 100 crores has been set up at Ranchi in collaboration with Czechoslovakia and will have the following production per year from its main production shops: Grey Iron Foundry (shaped castings) 33,345 tonnes; Steel Foundry (shaped castings) 40,182 tonnes; Non-Ferrous Foundry (castings) 700 tonnes; Forgings 50,000 tonnes; Grey Iron Steel and Forged Rolls 21,310 tonnes.

The plant has in addition, its own well-equipped pattern shop, fettling shop, battery of gas producers, Acetylene and Oxygen plants besides the power and gas services. The plant will also be equipped with a 6,000-ton press which will be the biggest so far in India.

This plant is mainly meant to supply all types of grey iron and steel castings and forgings—ranging from a few kilograms to as heavy as 100-ton piece weight—to meet the requirements of Heavy Machine Building and Heavy Machine Tools Plants. Provision has also been made for some surplus capacity to meet the demand of heavy castings and forgings from various other industries both in the private and public sectors. A fully equipped central laboratory is also being set up for quality control of its products. The Plant is expected to go into full production by 1968 when it will employ about 8,000 persons.

**Heavy Machine Tools Plant, Ranchi:** This plant will have an annual production capacity of 10,000 tons of certain diverse items of heavy machine tools. Adequate provision has been made for increasing the capacity of the plant to 20,000 tons per year or to any other intermediary stage, if considered necessary. When in full production, the plant will manufacture approximately 273 complete machine tools. The average weight of each machine will be 25/30 tons while the maximum weight of an individual machine is expected to be approximately 180 tons—the maximum weight of a single component being 50 tons.

The plant has gone into production of items like Radial Drilling Machines, Central Lathes, etc. At full production the plant will have over 2,000 staff and workers on its rolls.

**Training Programme:** A comprehensive programme of training has been worked out. Over 323 Indian engineers and technicians have received training from 6-18 months in U.S.S.R. and Czechoslovakia. Experts from USSR and Czechoslovakia, experienced in design and technology, are also being drawn for training of engineers and technicians. At Ranchi, the Corporation has set up a Central Training Institute, complete with workshop facilities, including foundry and smithy shop to provide training to workmen.

**Chairman:** T. R. Gupta.

## HEAVY VEHICLES FACTORY

Avadi, Madras 54.

The Rs. 16 crore Heavy Vehicles Factory is being geared up to manufacture tracked vehicles and other major heavy engineering equipment required for military as well as civilian purposes.

The first phase of construction work both in the factory and residential areas is almost complete and the work on the second phase is due to commence very shortly.

The first 'Vijayanta' medium tank produced in this factory rolled out on 29th Dec., 1965 on schedule, thus setting new dimensions in defence production. Production in all the shops has been well established. The ultimate employment potential of this factory is of the order of 3,000. This factory is also expected to give fillip to the ancillary industries in the Madras area.

## HINDUSTAN AERONAUTICS LTD.

(Bangalore Division)

(Hindustan Aircraft P.O., Bangalore 17, Mysore)

**Tel. & Cable address:** "Aircraft", Bangalore.

Hindustan Aeronautics Ltd., was formed on Oct. 1, 1964, implementing the decision of the Government of India to amalgamate Hindustan Aircraft Ltd., and Aeronautics India Ltd.—a Company formed to undertake the MIG manufacturing projects at Koraput, Nasik and Hyderabad and had also taken over the management of the Aircraft Manufacturing Depot, Kanpur. On amalgamation, the Hindustan Aircraft Ltd., became the Bangalore Division of Hindustan Aeronautics Ltd. The Railcoach Division, which formed part of the Hindustan Aircraft Ltd. was separated from Jan., 1965 and the work of railcoach manufacture entrusted to Bharat Earth Movers Ltd., a separate Company set up under the Ministry of Defence.

**TH-2:** In 1947-48, "All-Metal Basic Trainer Aircraft" the HT-2, was designed and developed by HAL. A number of these aircraft have since been manufactured.

**Vampire:** In March 1950, the Government of India entered into a licence agreement with the De Havilland Aircraft Co. of U.K. for the manufacture of Vampire Jet Aircraft in HAL. Production of this aircraft against orders received has been completed.

**Gnat:** The Government of India entered into an agreement in Sept. 1956 with Folland Aircraft Ltd., U.K., for the manufacture of the Gnat, under Licence, at HAL. HAL is now manufacturing the aircraft from raw materials.

**HF-24:** The Government approved in 1956 the appointment of a team of German engineers to assist HAL in the design and development of a supersonic fighter aircraft known as the HF-24. The first proto-type of the HF-24 MK.I aircraft powered by two Orpheus 703 engines made its successful flight in June 1961 and the second prototype in Oct. 1962. An initial batch of aircrafts has already been delivered to the Indian Air Force.

**Pushpak:** HAL undertook and completed the development of an ultra-light aircraft, the Pushpak, in the middle of 1958. This is an ultra-light two seater aircraft suitable for flying clubs. About 110 Pushpak aircraft have been produced so far.

**Krishak:** This is a light four seater aircraft. The first prototype made its successful first flight in Nov. 1959 and the second in Nov. 1960. Series production of this aircraft has commenced.

**Basic Jet Trainer HJT-16:** The aircraft is powered by a Viper II, turbo-jet engine. It is a single engined aircraft, fully aerobatic, with two side by side seats for basic pilot training.

**Helicopters:** The Government of India have entrusted to HAL, the manufacture of "Alouette" helicopters, under licence from Sud-Aviation of France. First phase of production has commenced.

**Artouste:** The Government of India have entrusted to HAL, the manufacture of the Artouste turbo-jet engine for the 'Alouette'

helicopters under licence from Turbomeca of France. First phase of production has commenced.

**HJE-2500:** The HJE-2500 is a turbo-jet engine designed and developed by HAL for the Basic Jet Trainer aircraft. The first prototype of the HAL is nearing completion.

**Other Development Work:** Other development work includes the design of a Pneumatic Starter for the starting of turbo-jet engines of 5,000/10,000 lbs. thrust range and installation of the Orpheus 701 engines as an auxiliary jet pack for the Fairchild Packet aircraft for high altitude flying.

**Staff Strength:** The personnel strength of the company excluding the personnel of the Railcoach Division rose from 19,952 on 31st March 1964 to 21,081 on 31st March 1965.

**Chairman:** S. S. Khara, I.C.S., **Managing Director:** Air Marshal P. C. Lal, **General Manager:** P. M. Reddy.

## HINDUSTAN ANTIBIOTICS LIMITED

(Pimpri, Poona-18)

(Under the Ministry of Petroleum and Chemicals)

Hindustan Antibiotics Limited is situated on a 200 acre land at Pimpri, 9 miles from Poona. The company was registered in 1954 with an authorised capital of Rs. 4 crores of which as of date the subscribed capital is Rs. 2.47 crores. The factory came into being as a result of the tripartite agreement between the Government of India, the World Health Organization, and the UNICEF. The factory went into production in August 1955. This 9 million Mega Unit Plant has progressively increased its production capacity to 53.29 mmu in 1964-65 as a result of technical developments. A further Rs. 25 lakhs expansion of the Penicillin Plant approved by the Government of India, will raise the Plant's capacity to 84 mmu.

The sterile finished bulk penicillin in Million Mega Units produced in the factory over the past 5 years are 40.24, 45.53, 50.17, 51.54 and 53.29 mmu. The Streptomycin Plant of the company with a rated capacity of 40 tons per annum was established with the technical collaboration of Messrs. Merck & Company Inc. U.S.A. This plant produces salts of Streptomycin. Expansion of the plant to double the production was completed.

A plant for production of 1.5 tons of broad spectrum antibiotics of the Tetracyclines group at a cost of Rs. 10 lakhs is now fully engaged on production of Chlorotetracycline.

Another important development is the discovery of antifungal antibiotics like Hamycin, and Dermostatin by the company's research laboratories.

All these schemes on completion will enable the company to produce antibiotics worth Rs. 6 crores a year.

The company has a complement of about 2,000 employees, about 50 per cent of whom are housed in the Company's residential estate having all modern amenities.

**Managing Director:** C. A. Subrahmanyam; **Works Manager:** B. V. Raman; **Fin. Adviser & Chief Accounts Officer:** M. Ram. sw. mv; **Chief Engineer:** G. C. Upadhyay; **Public Relations Officer:** C. B. Bhatu.

## HINDUSTAN CABLES LTD.

P.O. Hindustan Cables, Burdwan Dist.

(See Late Particulars).

## HINDUSTAN HOUSING FACTORY LIMITED

(Jangpura, New Delhi 14)

The Hindustan Housing Factory Ltd. is now under the control of the Ministry of Works and Housing.

The authorised share capital of the company is Rs. 75.00 lakhs of which paid-up capital is Rs. 48.99 lakhs. The Government have advanced to the company interest bearing loan aggregating Rs. 40,75,000.

Production during 1965-66 was worth Rs. 1.52 crores.

Main products of the Hindustan Housing Factory are as under :—

Prefabricated components for multistoreyed buildings; Prestressed concrete transmission line poles; Prestressed concrete street light poles; P.C.C. Beams for industrial sheds with sheeted roofs; P.C. assembled trusses for industrial sheds; P.C. Beams for composite constructions; Roofing and flooring components with prestressed concrete beams; Precast R.C.C. cladding panels; Precast prestressed units for fencing posts; R.C.C. door and window frames; Hollow blocks for roofing; Hollow blocks for walling; Overhead concrete tanks for residential uses, Large panels for large panel house construction; Precast concrete flooring slabs; Prestressed concrete railway sleepers; R.C.C. railway sleepers; Precast vibrated pipes for drains; Precast vibrated Porous Pipes; Reinforced foam concrete panels; Foam concrete blocks for cold storage and air-conditioned buildings; Foam concrete blocks for multistoreyed buildings; Machine-made doors and window frames and shutters; Flush doors; Seasoning and chemical treatment of timber.

*Chairman* : Major General Harkirat Singh; *Managing Director*, J. Dural Raj; *Secretary*, G. S. Ahuja.

#### HINDUSTAN INSECTICIDES LIMITED

Regd. Office : C-255, Defence Colony, New Delhi-3.

Incorporated in 1954 at New Delhi.

The authorised capital of the Company is Rs. 1.30 crores. The paid up capital at present is Rs. 12,547,000. Net profit for 1965-66 was Rs. 11.03 lakhs.

The Company operates two DDT manufacturing plants in the country — one situated at New Delhi and the other at Alwaye in Kerala State. Delhi factory was the first one to be set up with the aid of the United Nations Agencies. Present annual rated capacity of each of the two factories at Delhi and Alwaye is approximately 1,400 tonnes.

Both these factories are provided with formulating units capable of converting DDT into water-dispersible powder.

A number of bye-products — Hydrochloric Acid, Sulphuric Acid, Ortho DCB, Para D.C.B., Ethyl Chloride are being manufactured and successfully marketed. Plans are well in hand for the export of Chloral Hydrate. Till recently most of the requirements of Ethyl Chloride in the country was imported; but the manufacture of this chemical now would mean a very useful import substitution.

Training facilities have been provided in both the factories. Amenities like Bonus, Canteen, Dispensary, Housing etc. exist in the factories.

The Company has undertaken in 1966 a large expansion programme by which the Delhi Unit would double its capacity from 1,400 tonnes of Technical DDT per year to 2,800 tonnes. At Alwaye, a new plant for the manufacture of 3,000 tonnes of B.H.C. per year, would be set up. B.H.C. would be used as pesticide in agriculture. Total investment on these two projects, which would be completed by Nov. 67, would be approximately Rs. 1.50 crores. Staff: 658 persons.

Production of Technical D.D.T. and Formulated D.D.T. respectively during 1965 and 1966 was 2,633 and 3,668 metric tons.

*Chairman* : K. P. Madhavan Nair; *Managing Director* : Mohd. Fazal.

#### HINDUSTAN MACHINE TOOLS LIMITED

(H.M.T.P.O., Bangalore 31).

This is a limited company under the Ministry of Industry, registered in Mysore on February 7, 1953 and located in Jalahalli, Bangalore.

The authorised share capital of the company is Rs. 12 crores.

Commencing its production with one type of machine viz. High Precision Lathe (H.22) in 1956, the factory has been able to progressively diversify the production and turn out a wide range of machine tools like Milling Machines, Radial Drilling Machines, General Purpose Lathes, Turret Lathes, Grinding Machines, Special Purpose Machines, all Electric Heavy Duty Programme Controlled Milling Machines, Gear Shapers and Gear Hobbing Machines.

Recently the Company signed technical collaboration agreements with a U.S. firm for the manufacture of automatic lathes and with French and German firms for the manufacture of single-spindle automatics, copying lathes and multi-spindle lathes.

The Company employs 11,742 skilled and semi-skilled workers.

Since starting its commercial production in 1956, till the end of March 1966, the factory turned out 11,860 machines valued at Rs. 52.2 crores. During 1965-66, production came to 2,048 machines valued at Rs. 11 crores. The Bangalore factories accounted for a total production of 1,512 machines as against 2,070 machines during 1964-65. New additions to HMT's production line were gear shapers, gear hobbors and the E2 type Electrically controlled milling machine.

205 all-Electric Milling Machines were turned out by the factory's plant at Pinjore in the Punjab. Production of these machines has been introduced for the first time in India.

The fourth plant at Kalamassery in Kerala accounted for an output of 331 lathes.

The fifth unit at Hyderabad was commissioned on December 27, 1965.

During 1965-66, HMT had orders for supply of 3,382 machines against which it could despatch 1,864 machines. During 1964-65, it despatched 2,258 machines against order for 2,469 machines.

The HMT declared a net profit of Rs. 3.78 crores during 1964-65, representing a return of 39 per cent over its share capital of about Rs. 8 crores. Profits during 1963-64 came to Rs. 3 crores, representing a return of 37.5 per cent over the company's share capital. The HMT further declared a dividend of 10 per cent for the fifth consecutive year.

HMT has its own training centres where training is offered in the following trades : (1) Highly skilled operators, fitters, turners, millers, grinders, and (2) Reconditioning of machine tools and preventive maintenance.

#### Future Plans

The demand figures for the Fourth Plan had been worked out tentatively and according to these estimates machine tool requirements towards the end of the Fourth Plan i.e. by 1970-71, were placed at Rs. 131 crores per annum. To meet at least 50 per cent of this demand and be able to export some portion of its production, HMT has offered to the Government to establish five more factories during the Fourth Plan period at the rate of one factory per year and the capital expenditure for all these additional Units is planned to be met entirely by the Company from its own internal resources.

#### Watch Project

Construction of the Watch Factory on the site adjoining the Machine Tool Factories in Jalahalli near Bangalore commenced during 1961, and was completed in October 1962 in collaboration with Messrs. Citizen Watch Co., Japan. After erection of the plant and machinery, manufacture of watches with 54 per cent indigenous content commenced during April 1963.

The HMT Watch Factory turned out 1,96,110 watches during 1965-66.

The HMT Watch Factory has now a network of 13 Sales-cum-Service Centres all over the country. Besides, watches are being sold and after-sales service arranged at its factories in Bangalore, Pinjore, in the Punjab, Kalamassary in Kerala and Hyderabad in Andhra Pradesh.

*Chairman* : K. B. Mathur.

*Managing Director* : S. M. Patil.

#### HINDUSTAN ORGANIC CHEMICALS LTD.

P.O. Rasayani, Dist. Kolaba, Maharashtra.

(A Govt. of India Undertaking)

This is a Government of India Undertaking under the administrative control of the Ministry of Petroleum and Chemicals.

The Company was incorporated in Dec. 1960, with the authorised capital of Rs. 12 crores for manufacture of about 40 organic chemicals and intermediates required for the Dyestuff, Drugs and Plastic Industries.

But, early in 1965, the programme was revised and a product-programme has been selected for development in two phases so that the project becomes economically viable. The revised scheme would require an investment of Rs. 20 crores for the first stage to be completed by mid 1968 and of further Rs. 19 crores for the 2nd phase, to be taken up subsequently.

The Company has done considerable work on its factory site at Rasayani, about 56 miles from Bombay. The new production programme includes besides a large number of organic derivatives, Benzene, Toluene and Naphthalene, several inorganics such as Caustic Soda, Chlorine, Sulphuric and Nitric acids, etc.

*Managing Director* : Dr. G. S. Kasbekar.

*Secretary* : P. J. Kishinchandani.

#### HINDUSTAN PHOTO FILMS MFG. CO. LTD.

Indu Nagar, Ootacamund.

The raw film factory, located on the outskirts of the hill station of Ootacamund in South India, is a public sector project for the manufacture of a large variety of photographic sensitized materials in collaboration with the French firm, Bauchet & Co.

When the factory goes into full production, it is expected to turn out annually 5.80 million sq. m. of photographic film and photographic paper, the sale value of which would be nearly Rs. 9.25 crores per year. As an adjunct to this project, a Silver Sludge Recovery, Silver Refining and Silver Nitrate Plant, as also a plant for the manufacture of organic chemicals, which constitute important raw materials for the project, are also being set up.

The total cost of the Project excluding the Township is estimated at Rs. 9.35 crores and the cost of the Township at Rs. 1.69 crores. The Project will be manned and operated by Indian personnel, many of whom have already received training in France in the factory of the collaborators. Expected to start production by the end of 1966.

*Managing Director* : M. A. S. Rajan.

#### HINDUSTAN SALTS LTD.

Badnor House, Bhagwan Das Road, P. Box No. 146, Jaipur.

(Under the Ministry of Industry)

The Company was registered on 12th April, 1958 at Jaipur. The salt source at Khara-goda (Gujarat) and the salt mines at Mandi (Himachal Pradesh) are under the administrative control of the Company.

The authorised capital of the Company is Rs. 2 crores and the total subscribed and paid-up capital is Rs. 1,78,81,000 divided into 17,881 shares of Rs. 1,000 each which are held by the Government of India.

Production during the fiscal year ending 30th September, 1965, are as follows :—

Common Salt 1,69,441 M. Tonnes; Rock and Pan Salt 2,477 M. Tonnes.

*Chairman* : Maj. Genl. M. S. Himatsinghi; *Managing Director* : Vacant; *Secretary* : B. B. Mookerjee.

**HINDUSTAN SHIPYARD LIMITED**  
(Visakhapatnam 5, Andhra Pradesh)  
(Under the Ministry of Transport)

Foundation stone for the shipyard was laid at Visakhapatnam in 1941 and the first ship "JALA USHA" was launched in March 1948. The Government of India took over the management in 1952 under the banner of "HINDUSTAN SHIPYARD LIMITED". The authorised capital of this Company is Rs. 10 crores, while the issued and paid-up capital is Rs. 6,02,85,000.

The shipyard has four building berths with a capacity of 15,000 DWT each, besides a fifth berth for the construction of minor craft. A master plan of development worth Rs. 2 crores had already been implemented after nationali-

sation. At present, work on Dry Dock Project is fast going ahead which will facilitate undertaking large-scale repair works. This is expected to be completed by 1968. Construction of a Wet Basin is also an item of future development programme, which will improve the fitting-out accommodation besides providing supplementary facilities for ship-repairing activity.

Hindustan Shipyards has so far built 42 ships of different sizes and types aggregating more than 3,00,000 DWT. This represents about 2,30,000 GRT of ships roughly equivalent to about 15 per cent of the Indian tonnage. Efforts are now being made to build six ships a year from 1967-68 onwards.

A full-fledged Training School in the shipyard imparts training to recruits in various trades.

Uptil now, a total number of 377 apprentices have been trained in all trades, apart from 26 inplant trainees. There are about 5,600 employees in the Shipyards.

A provision of Rs. 2.44 crores had been made for further development of the shipyard in the Third Plan out of which the first phase at a cost of about Rs. 78 lakhs had already been sanctioned.

A full-fledged training school has been started in which recruits get intensive training for 4 years in batches of 100 each.

It is now decided that the second shipyard would be located in Cochin.

Chairman: Dr. Nagendra Singh, I.C.S.; Managing Director: H. C. Bant; Secretary: P. S. Prakasa Rao.

The following table gives details of the ships built at the shipyard:

|     | Name of ship                         |    |    |    |    |    |    |    |    | Date of laying keel | Date of launching | Date of completion and sailing | To whom sold                            |
|-----|--------------------------------------|----|----|----|----|----|----|----|----|---------------------|-------------------|--------------------------------|-----------------------------------------|
| 1.  | "Jala Usha" (8,000 DWT)              | .. | .. | .. | .. | .. | .. | .. | .. | 22-6-46             | 14-3-48           | 15-10-48                       | Scindia S. N. Co. Ltd.                  |
| 2.  | "Jala Prabha"                        | .. | .. | .. | .. | .. | .. | .. | .. | 22-8-46             | 20-11-48          | 31-3-49                        | "                                       |

**HINDUSTAN STEEL LIMITED**

P. O. Hinoo, Ranchi.

(Under the Ministry of Steel and Mines)

Hindustan Steel (Private) Limited was incorporated on 19th January, 1954 and in March 1959 this was renamed Hindustan Steel Ltd.

**Finance**

The company has now an authorised capital of Rs. 6,000 million, out of which the subscribed capital upto 31st March, 1966 is Rs. 5,280 million. The company has drawn from the Central Government a total loan of Rs. 4,321 million.

The net surplus of earnings before depreciation and interest in 1965-66 is Rs. 617.8 million, about Rs. 28.03 million higher than 1964-65. The stock in trade is valued at Rs. 291.5

million. So far, HSL, has shown a cash surplus of Rs. 1,315 million which has been utilised for expansion and for provision of working capital. After providing Rs. 417.74 million for depreciation and Rs. 183 million for interest, Hindustan Steel has made a net profit of Rs. 16.66 million during the year.

The sales during the current year have improved by Rs. 340 million—from Rs. 2,048 million in 1964-65 to Rs. 2,388 million in 1965-66.

Though there has been an increase of sales, the market conditions deteriorated during this year with the result that sales could not match with production and stocks of finished and semi-finished products increased by Rs. 85 million.

**Production**

During the year under review, production of the important items is given below.

**Production 1965-66**

|                   |    |    |    |    | In tonnes |           |             |

| West Germany | ..        | ..       | ..         | ..       |
| Australia    | ..        | ..       | ..         | ..       |
| Canada       | ..        | ..       | ..         | ..       |
| France       | ..        | ..       | ..         | ..       |
| Japan        | ..        | ..       | ..         | ..       |
| Total        | ..        | ..       | ..         | ..       |

About 1,000 Executives have been trained so far (March 1966) in the training institute at Ranchi in the various courses.

The total number of graduate engineers, senior and junior operatives and artisans trained so far (March 1966) in the Technical Training Institutes of Rourkela, Bhilai and Durgapur is 80,465.

**Central Engineering and Design Bureau**

The Central Engineering and Design Bureau of HSL had prepared detailed Project Reports for the expansion of Rourkela Steel Plant from its initial one million tonne capacity to 1.8 million tonne capacity and for Durgapur Steel Plant from its initial one million tonne capacity to 1.6 million tonne capacity. It has also made a detailed Project Report of Durgapur Steel Plant for expansion to 3.4 million tonnes during the Fourth Plan and is preparing the Rourkela Expansion Report for raising the Plant to 2.5 million tonnes annual capacity. Besides, the

Central Engineering and Design Bureau acts as consultant to the Government of India. At present the strength of the CEDB is 192 engineers, including 15 foreign experts, 18 graduate engineers and 90 design assistants.

**Bokaro Steel Project**

Bokaro Steel's Project is now functioning separately as a new company—Bokaro Steel Limited. (For more details see under Bokaro Steel Ltd.)

**Rourkela Steel Plant**

Hindustan Steel's first Steel Plant, Rourkela, set up with financial and technical help of West Germany is in Orissa. The present annual capacity of the Rourkela Steel Plant is one million tonnes of steel ingots capable of being turned into about 720,000 tons of finished plates, sheets, strips and tin plates. Its special feature is that it is the only plant now producing steel by L.D. process in India.

The plant consists of 3 Coke Oven Batteries of 70 ovens each, a By-product Plant and 3 Blast Furnaces each producing 1,000 tons of pig iron a day. The Steel Melting Shop consists of 4 Open Hearth Furnaces (of 80 tons capacity each) and 3 L.D. Converters (of 40 tons capacity each) which will produce 250,000 tons and 750,000 tons of ingot steel respectively.

A contract for Iron Ore Beneficiation Plant at Barsua has been entered with the Japanese firm Sumitomo Machinery Company Limited. The limestone from Purnapani quarries is being supplemented from Satna and other sources. Fully mechanised operation of the Purnapani quarries has started. A scheme for mechanisation of Gatinagar Dolomite quarry is under consideration.

Saleable products: Heavy Plates 200,000 tonnes; Medium Plates & Wide Strips 300,000 tonnes; Sheets and Strips 170,000 tonnes; Tin Plates 50,000 tonnes. In addition to different flat products, ERW Pipes, certified by American Petroleum Institute (API), ranging from diameter 8½" to 20" are produced by the pipe plant.

The By-product Plant will deal with 130 tons of tar per day and produce benzol, creosote, naphthalene and other products. The By-product Plant being extended under the expansion programme will handle 35,000 Ncbm per hour of gas to accommodate any further expansion of the Coke Oven Batteries.

In addition to by-products like benzol, toluene, xylene, solvent naphtha, creosote oil, wash oil, anthracene oil, naphthalene, crude anthracene, crude phenol etc. are also produced.

A Sintering Plant to utilise iron ore fines, coke breeze, limestone chips etc. and designed to produce 5,000 tons of sinter on an average per day has been added to Rourkela during the one million tonne stage. The second pig iron casting machine forming part of the expansion programme has already been commissioned in 1964. The new units under the Third Plan expansion are nearing completion serially and it is expected that all the units will go into production before the end of 1967.

After the expansion programme the output of finished products is expected to increase from 720,000 tons to 1,240,000 tons.

**Bhilai Steel Plant**

The Bhilai Steel Plant was set up with the help of U.S.S.R. The plant is designed to produce one million tons of ingot steel to be rolled into 770,000 tonnes of heavy and medium structural—steel and 300,000 tonnes of pig iron.

The Bhilai Steelworks comprise: 3 Coke Oven Batteries with 65 ovens each; 3 Blast Furnaces; 6 Open Hearth Furnaces (250 tons capacity each) for steel making and 4 Rolling Mills, consisting of a Blooming Mill, Continuous Billet Mill, Rail and Structural Mill and a Merchant Mill.

The entire requirements of iron ore and limestone are being met from the plant's own captive mines at Rajhara and Nandini. Dolomite, manganese and quartzite are also being obtained from the plant's captive mines at Hirri, Balaghat and Balod. Bhilai is drawing its requirement of coal from Kargali/Bokaro & Jharia Coal Fields.

Saleable production in tonnes: Rails (Standard gauge) 100,000; Rails (Narrow gauge) 10,000; Heavy Structural 284,000; Crossing Sleepers 90,000; Squares and flats 136,000 and Billets 150,000. It also produces 300,000 tonnes of pig iron for sale.

About 60,000 tonnes of various by-products like coal tar, ammonium sulphate, benzol, toluene, are being recovered annually by treatment of the coke oven gas.

**Expansion:** The capacity of the plant is being expanded to 2.5 million tonnes under the Third Five Year Plan, with the technical and financial assistance of the U.S.S.R. The expansion

is expected to be completed by 1967. Already, as part of the expansion programme two coke oven batteries, one blast furnace and four open hearth furnaces, each of 500 tonnes capacity, have been commissioned. Modification to Rail and Structural Mill and Merchant Mill are also complete.

After the present expansion, Bhilai Steel Plant will produce: Rails (standard gauge) 500,000 tonnes, Rails (narrow gauge) 20,000 tonnes, Heavy Structural 386,000 tonnes, Crossing Sleepers 82,000 tonnes, Rounds, Squares and Flats 261,000 tonnes, Billets 315,000 tonnes, and Wire Rod Mill products 400,000 tonnes. There will be 317,000 tonnes of pig iron for sale.

**Durgapur Steel Plant:** The steel plant at Durgapur in West Bengal is the third one in the public sector set up with the financial and technical help of the United Kingdom. This will produce one million tonnes of ingot steel to be rolled into about 800,000 tonnes of light and medium sections and bars, in addition to 350,000 tonnes of pig iron for internal sale and export.

The supply of iron ore is being drawn from Bolani Ore Mines. Coal is being obtained from Jharia and Boraker Fields and Limestone from Birmittapur. The plant has its own washery to wash the Jharia coal.

The Plant has the following units: 3 coke oven batteries, 3 blast furnaces, 8 open hearth furnaces, 2 blooming mills, one continuous billet mill, one 24" section mill, one continuous merchant mill, one sleeper plant and one wheel and axle plant.

**Saleable Products in Tonnes:** Forged Blooms 100,000; Merchant Sections 240,000; Sleepers 60,000; Light & Medium sections 200,000; Wheels & Axles 50,000; Billets for sale 150,000.

In addition, it produces 350,000 tonnes of foundry grade pig iron.

**Saleable Products in Tonnes:** Forged blooms and billets 70,000, Merchant sections 240,000; Sleepers 60,000; Billets 350,000; Light and medium sections 200,000; Wheels & Axles sets for Railways 93,000; Skelps 250,000; Fish Plates 11,000 and Pig iron for sale 300,000.

The various by-products include ammonium sulphate, benzole, toluene, xylene, solvent naphtha, naphthalene, road tar, wood preserving creosote.

Heads of agreement were finalised for the Fourth Plan expansion of Durgapur Steel Plant from 1.6 million tons to 3.4 million tons. This expansion will be in flat products and the agreement was signed between HSL and a British Consortium of four companies under the name British Steel-Works Equipment Ltd.

#### Alloy Steels Project

The fourth steel unit of the company—Alloy Steels Project at Durgapur is under construction with Japanese and Canadian technical assistance.

The plant will have an initial capacity of 100,000 tonnes of ingots capable of expansion to 300,000 tonnes of ingots per annum. The initial 100,000 tonnes of ingots will produce 60,000 tonnes of finished steel which would save the country nearly Rs. 20 crores worth of foreign exchange. Nearly 35 per cent of the production will consist of stainless steel. The project is being erected at a cost of Rs. 73 crores.

The product-mix of this plant would be as follows in tonnes: High Speed Steel 2,250; Carbon Tool Steel 9,500; Alloy Tool & Die Steel 3,600; Constructional 26,650; Stainless Steel 18,000.

#### Coal Washeries

The company has installed four coal washeries at Dugda, Bhojudih and Patherdih. Dugda is about 30 miles and Patherdih is about 10 miles from Dhanbad, in Bihar. Bhojudih in West Bengal, is about 20 miles from Dhanbad. Dugda I Washery with a capacity of 2.4 million tonnes of raw coal per annum was completed in the year 1962. Bhojudih Washery with a capacity of

1.2 million tonnes, has been in operation since 1962 and has been expanded to 2 million tonnes capacity in 1963. The construction of Patherdih Coal Washery has been completed. Dugda Washery is again being expanded by installation of another unit Dugda II, with a capacity of 2.4 million tonnes. It was expected to be commissioned in 1966. These coal washeries supply washed coal to Bhilai and Rourkela Steel plants and TISCO and IISCO Steel plants.

**Sales:** Sales of steel products have registered a considerable increase during the year 1965-66. During the year HSL, after having met the local demands, has exported steel and other products worth about Rs. 22.65 millions and efforts are being made to meet Rs. 300 million export target for HSL, fixed for the Fourth Plan. During the first year alone HSL aims at an export target of Rs. 90 million.

As part of the export promotion drive, HSL has opened an Export Promotion Division at the Central Sales Office at Calcutta. Recently HSL started shipment of 10,000 tonnes of H.R. Coils to the United States. During the recent months HSL has exported nearly 50,000 tonnes of pig iron to Japan and 10,000 tonnes to Italy.

The Sales Organisation of HSL is being expanded to provide better facilities to steel consumers in the country. The Central Sales Office is located in Calcutta and its Branch Offices are at Madras, Bombay, Delhi, Kanpur, Bangalore, Cochin, Hyderabad and Ahmedabad. To facilitate an uniform supply of steel and pig iron, HSL has opened Stockyards at Madras, Hyderabad, Cochin, Bangalore, Bombay and Ahmedabad.

HSL has two branch offices abroad one in the U.K., (Appollo House, 56, New Bond Street, London W.1) and another at West Germany (Linde-Mannstrasse 4, Dusseldorf, West Germany).

#### THE HINDUSTAN TELEPRINTERS LTD.

Guindy, Madras-32.

This is a private limited company under the Department of Communications registered in Madras on 14th December, 1960 and is located in Guindy, Madras.

The authorised capital of the company is Rs. 3 crores.

The Company has been set up for the manufacture of teleprinters and ancillary equipment in collaboration with Ing. C. Olivetti & C., S.p.A., of Italy, one of the leading manufacturers of teleprinters in the world. The factory now manufactures tape and page models of teleprinters, printing reperforator attachment, transmitter attachment and independent automatic tape transmitter. It produced 2,502 unit machines in the year 1965-66.

**Managing Director:** C. A. Cornelius.

#### HINDUSTAN ZINC LIMITED

(Under the Ministry of Mines and Metals)

11/221, Hospital Road, Udaipur (Rajasthan).

The Hindustan Zinc Ltd. was registered on the 10th January, 1966 at Jaipur. The authorised capital of the Company is Rs. 10 crores.

The units administered by this Company are: (i) the Zawar Mines, the only zinc mine in India and the oldest zinc mine in the world. At present the mine production is about 500 tonnes of ore containing both lead and zinc. The ore is processed in a ball mill to produce 5,000 M.T. of lead concentrates and 10,000 tonnes of zinc concentrates annually. (ii) Tundoo Lead Smelter near Katrasgarh, Dhanbad with a capacity to produce 800 M.T. of pig lead per month. The lead concentrates from Zawar Mines are smelted here to produce pig lead of 99.99 per cent purity. A little quantity of silver is recovered as by-product. (iii) An electrolytic Zinc Smelter, at present under erection at Debari. This Smelter had been designed by a French firm Messrs. Penarroya of Paris. The Zinc Smelter has been designed to produce 18,000 tonnes of zinc metal, about 29,000 tonnes of sulphuric acid to be converted into 80,000 tonnes of single super-

phosphate fertilizer and 70 to 75 tonnes of cadmium to be recovered as by-product annually.

**Chairman:** N. C. Shrivastava, I.C.S.; **Managing Director:** Nagendra Bahadur, I.A.S.; **Secretary:** A. K. Sen Gupta.

#### INDIA GOVERNMENT SILVER REFINERY (Ministry of Finance, Dept. of Economic Affairs) 47, Strand Road, Calcutta 7.

This refinery has been installed for the extraction of silver and copper from the Q.A coins minted during the World War II. Nickel Sulphate and Nickel Silver (an alloy of Cu, Ni, and Zn) are obtained as by-products.

This Silver Refinery has been engaged for the design, layout etc., of a Silver Refinery now under construction by the Hindusthan Photo Films Ltd., at Ootacamund.

The capital outlay on the Silver Refinery is about Rs. 1.44 crores.

The total number of persons employed is 481. Some of the departments of the Refinery work in three shifts round the clock.

**General Manager:** S. P. Banerjee.

#### INDIA TOURISM DEVELOPMENT CORPORATION

New Delhi

The Corporation started functioning from 1st October 1966 under the chairmanship of Mr. Naval H. Tata.

The Corporation is born out of the merger of three corporations—India Tourism Corporation, India Tourism Transport Undertaking and the Hotel Corporation of India.

It will take over all the commercial activities of the Department of Tourism, which these three corporations were carrying on since 1965.

The new corporation has an authorised capital of Rs. 5 crores. It will construct and run hotels, tourist bungalows, and guest houses, in co-ordination with the private sector, at places of tourist interest where the existing facilities are not adequate.

Duty-free shops will be opened by the corporation at Santa Cruz, Palam, Dum Dum, and Meenambakkam airports.

These shops will sell imported articles such as photographic goods, cosmetics and tobacco products against payments in foreign exchange for the convenience of foreign tourists.

#### Transport Facilities

In places of tourist interest, the corporation will arrange transport facilities for tourists. It will import luxury coaches and cars and may either sell them to private operators or operate them itself. Other modes of transport like aircraft, helicopters and launches may also be operated by it for tourists.

The corporation will produce and display publicity material for the promotion of tourism. This will include folders, booklets, guides, slides and films for the tourists and the travel agents in India and abroad.

Among the other commercial functions the corporation will take over from the Department of Tourism is the responsibility of providing entertainment for the tourists.

It will take over the Son-et-Lumiere spectacle at the Red Fort and organise some similar shows at Golconda Fort, Amber Fort and Madurai. It will also provide entertainment for tourists by way of cultural shows.

#### THE INDIAN DRUGS AND PHARMACEUTICALS LTD.

(A Government of India Undertaking)

National Insurance Buildings,

5, Parliament Street, New Delhi.

(Under the Ministry of Petroleum and Chemicals)

The Indian Drugs and Pharmaceuticals Ltd. was incorporated in April, 1961 for the establishment and management of Drugs and

**Surgical Instruments Plants in the public sector.** It has three plants under its control.

The projects have been set up with the help of the Govt. of U.S.S.R.

The authorised capital of the company is Rs. 21.50 crores. When in full production, the following three plants are expected to provide employment to over 6,000 workers of skilled and semi-skilled categories.

The location and a brief description of the production programme of each project is given below:—

1. **Antibiotics Project at Rishikesh (Uttar Pradesh):** Estimated to cost Rs. 23.32 crores. An annual production of 300 tonnes of antibiotics as penicillin, streptomycin, dihydrostreptomycin, nistatin, tetracycline, chlorotetracycline and oxytetracycline is expected from this project on completion. The pilot plant was commissioned in Nov. 1965, and the main plant was to be commissioned by the end of 1966.

2. **Synthetic Drugs Project at Hyderabad:** Estimated to cost Rs. 21.46 crores. The proposed annual production programme includes 825 tonnes of synthetic drugs such as sulphadimidine, sulphaguanidine, sulphanilamide, sodium etc. etc., and 4,560 tons of intermediate chemicals required for the production of finished drugs. The pilot plant was commissioned in Oct. 1965 and the main plant was to be commissioned by the end of 1966.

3. **Surgical Instruments Plant at Madras:** The total annual output of Surgical instruments would be about 2.5 million pieces of 168 types of surgical instruments. Estimated to cost Rs. 5.1 crores. An expansion scheme to double the capacity is already in hand.

**Chairman & Managing Director:** R. R. Bahl, I.C.S.

#### INDIAN OIL CORPORATION LIMITED

**Regd. Office:** Clarke Road, Bombay-34.

The Indian Oil Corporation came into existence on Sept. 1, 1964 with the merger of the Indian Oil Company Ltd. and the Indian Refineries Ltd. The Corporation now comprises three divisions viz. Marketing Division, Refineries Division and the Pipelines Division. The Pipelines Division of the Corporation came into existence with effect from March 11, 1965; prior to this it was a part of the Refineries Division.

Indian Oil Corporation, Refineries Division, Link House, Bahadur Shah Zafar Marg, New Delhi came into existence on Sept. 1, 1964, when it took over the entire business of the erstwhile Indian Refineries Ltd. which was incorporated on Aug. 22, 1958 in New Delhi. The Company is responsible for the construction and management of the three Government owned Refineries at Gauhati in Assam, Barauni in Bihar and Koyali in Gujarat.

Indian Oil Corporation, Pipelines Division, Link House, Bahadur Shah Zafar Marg, New Delhi, is responsible for the construction of Gauhati-Siliguri Pipelines and Haldia-Barauni-Kanpur Pipelines.

**Chairman:** N. N. Kashyap, I.C.S.

#### INDIAN RARE EARTHS LIMITED

Pil Court, 111, Queen's Road,  
Bombay 1.

This factory is now entirely owned by the Government of India.

The subscribed capital is Rs. one crore.

The factory at Alwaye in Kerala started production in July 1952. The Plant now processes 3,000 tons of Monazite per annum. The main products are Cerium Compounds, viz., Mixed Rare Earths Chloride, Mixed Rare Earths Carbonate and Crude Cerium Hydroxide, Cerium Oxide, Rare Earths Fluoride and Cerium Naphthenate are also manufactured in small quantities. Trisodium Phosphate is obtained as a by-product.

The Company also operates the Thorium Plant of the Government of India at Bombay where Thorium Compounds are manufactured from raw material obtained at the Alwaye Plant.

The Company earned foreign exchange worth Rs. 48.22 lakhs during 1965-66 by the sale of rare earths chloride abroad.

**Minerals Division (Beach Rd., Quilon, Kerala):** The Company has taken over the assets of Travancore Minerals Ltd., Quilon, which went into liquidation on 27th January 1965.

**Uranium Ore Mill:** A uranium Mill with a capacity to treat 1,000 tonnes of uranium ore per day is being set up at Jadugoda in Bihar.

**Managing Director,** G. Rajagopal Menon.

**Manager, Alwaye Establishment,** K. V. N. Nayar; **Chief Accounts Officer,** N. D. Hansotia; **Chief Executive Officer,** P. Muralidharan; **Chief Administrative Officer (Minerals Divn.),** S. Ganapathy; **Works Manager,** C. M. Mani.

#### INDIAN TELEPHONE INDUSTRIES LIMITED

(Under the administration and jurisdiction of Dept. of Communications, Govt. of India).

(Dooravani Nagar, Bangalore 16, Mysore State)  
Railway Station: Krishnarajapuram  
(Southern Railway)

**Regional Offices, Sales & Service:** "Advent", 62/63, 12-A, Foreshore Road, Bombay 1; 22; Chittaranjan Avenue, United India Life Assurance Bldg., Calcutta 13; 12-B, Netaji Subhash Marg, Daryaganj, Delhi 6; Agarchand Mansions, No. 35, Mount Road, Madras 2.

**Shipping and Clearing Office:** III Floor, 32/33, Linghi Chetty Street, Madras-1.

Established in 1948 at Bangalore as a Departmental Concern. Subsequently, converted into a Private Limited Company in 1950 for achieving flexibility in management.

**S. Lall (Chairman); U. Shankar (Managing Director); G. U. Menon (General Manager); D. V. M' Rao (Secretary).**

**CAPITAL:** Authorised: Rs. 5,00,00,000, paid-up as on 31-3-66: Rs. 4,60,86,400. (Government of India holding 77.84 per cent of the shares, Government of Mysore holding 6.78 per cent, Automatic Telephone & Electric Co. of England 3.75 per cent and the balance of 11.63 per cent by the International Standard Electric Corporation of U.S.A.).

The factory manufactures all kinds of telecommunication equipment, all kinds of telephones, transmission equipment, testing equipment, automatic road signalling equipment, etc.

#### Production (1965-66).

The factory has produced during 1965-66 amongst others, 2,01,019 telephones of various kinds and 1,44,905 Exchange Lines, which include main automatic exchanges, small automatic exchanges, private automatic branch exchanges, etc. On the transmission side, equipment worth Rs. 305.50 lakhs were produced during 1965-66.

The factory is actively engaged itself in locating indigenous sources for substitution of imported materials and components and special Department has been created for this project.

The sales of equipment made in Indian Telephone Industries Ltd. during 1965-66 exceeded Rs. 12 crores.

A suggestion scheme was introduced in the I.T.I. for encouraging initiative and new ideas among workers. As many as 82 valuable suggestions were accepted during 1965-66 and a sum of Rs. 2,290 was granted as rewards to the employees.

#### INSTRUMENTATION LTD.

(Ministry of Industry & Supply)

Annexe, Circuit House

Kota (Rajasthan)

Instrumentation Limited is a private company, registered in Jaipur (Rajasthan) on March 21, 1964 with its headquarters at Kota. The authorised capital of the company is Rs. 7 crores. The company is responsible for the establishment of Precision Instruments Plant at Kota and Mechanical Instruments Plant at Palghat. The Kota plant will manufacture electro-magnetic and electronic instruments whereas the Palghat plant is being designed for the production of mechanical, hydraulic and pneumatic instruments. Both these plants are being put up with the technical and financial assistance extended by the Soviet Union.

The projects are in a preliminary stage of implementation.

**Chairman:** Major General M. S. Himatsinhji; **General Manager:** A. R. Ravi Varma.

#### INTEGRAL COACH FACTORY

Perambur, Madras.

(Under the Ministry of Railways)

The Integral Coach Factory at Perambur, a suburb of Madras, is one of the largest Coach Building Units in the world.

Construction started in the latter half of 1952 and took about three years to be completed. The first coach was turned out on October 2, 1955.

The type of coaches manufactured in the factory, known as Integral coaches is of a modern light weight design incorporating anti-telescopic properties in the event of an accident.

Upto end of March 1966, 4,808 shells have been manufactured out of which 2,876 have been furnished in the factory itself.

During the year 1965-66, 645 coaches have been produced in the factory.

The Factory which was set up for the production of only Third Class Coaches has also manufactured Third Class-cum-Luggage and Brake-vans, Third Class Sleeper Coaches, First Class Coaches, Electrical Multiple Units, both Broad Gauge and Metre Gauge, Parcel Vans, Ward Cars, Dining Cars and Tourist Cars. A Prototype Twin Diesel Railcar was also manufactured and handed over to Southern Railway. Future programme includes manufacture of A.C. Express.

**Furnishing:** A separate furnishing unit, is now furnishing all the shells that are being turned out from the Shell Division.

**Cost of the Coach:** With increased outturn and improvement in the skill and technical know-how of the staff, the cost of production of coaches has been systematically reduced. The latest cost of production of a third class shell is only about Rs. 70,000 as against Rs. 1,86,000 in 1955. This cost is very much lower than its ex-works price at Switzerland of Rs. 107,000.

When ICF took up manufacture of Integral Coaches in 1956-57, the value of imported components was in the neighbourhood of Rs. 20,000 per Coach. During the last 7-8 years, this has been progressively brought down to Rs. 2,800 only per Coach.

The total number of employees on the rolls is 10,300 (March, 1966).

The factory is now fully equipped to take orders for exports.

**General Manager:** I. Hydari.

#### JANPATH HOTELS LIMITED

New Delhi.

The Hotel Janpath is fully air-conditioned and has 222 rooms, a large dining hall, a lounge each on the ground floor and on the first floor and provides facilities of a conference room and a small shopping arcade.

To fulfil the long felt need to cater to the requirements of persons in the middle income group, Government set up two more hotels in the Capital, Lodhi Hotel and Hotel Ranjit, as the constituent units of the Company.

**KOLAR GOLD MINING UNDERTAKINGS**

(Government of India)

Kolar Gold Fields, Oorgaum P.O., Mysore State

Established : 1880. Formerly a British company, the mines were nationalised by the Government of Mysore in 1956. They were taken over by the Government of India on 1st Dec. 1962; and are under the administrative control of the Department of Economic Affairs, Ministry of Finance, Government of India. The mines working at present are : Mysore/Champion Reef Amalgamated Mine and Nundydroog Mine.

Capital Investment (fixed): Rs. 305.32 lakhs as on 31-3-1965.

No. of workmen : about 13,400.

The gold production during 1965-66 was 30,24,162 grammes. As from 1-12-1962, being the date of take over by the Central Government, the gold is valued at IMF rate of Rs. 53.58 per 10 grammes. On this basis, the value of gold produced (38,46,104 grammes) for 1964-65 was Rs. 207.21 lakhs.

The proposed development schemes of the undertakings during the Fourth Plan period will involve an outlay of Rs. 230 lakhs.

Managing Director : M. H. Parthasarathy, I.A.S. Secretary, K. S. Nair.

**MACHINE-TOOL PROTOTYPE****FACTORY, AMBERNATH**

(Under the Ministry of Defence)

The Machine-tool Prototype Factory at Ambernath near Bombay was set up in 1953 by the Ministry of Defence, Government of India, under the Director-General, Ordnance

Factories. It was a pioneer project to design and develop ordnance weapons as well as machine tools.

Since its inception the factory has established production of several types of precision machine tools of its own design, and supplied these to various Government establishments and industry. The planning for bulk production of truck and tractor components for Shaktiman was undertaken in 1958. This is now the main production activity of the factory.

To overcome the shortage of skilled artisans necessary for the production of armaments, a Training School has been attached to M.P.F. since its inception. The school helps to meet the requirements of other ordnance factories also.

**MAZAGON DOCK LIMITED**

Mazagon, Bombay 10.

(Under the Ministry of Defence)

On 14th May 1960, one of the biggest British Marine and Industrial ventures in this country became a National Undertaking when Mazagon Dock Ltd. was acquired by the Central Government. Situated at Bombay in the State of Maharashtra, the Mazagon Dock is Western India's leading Ship-Repairing and Ship-Building concern. Its history can be traced to 18th century when the first dry dock was completed at Mazagon.

Mazagon Dock is fully equipped to carry out all types of major repairs to Passenger Ships, Tankers and Cargo Ships and maintains around the clock, 7 days-a-week repair service.

Mazagon Dock Limited has three dry docks—Ritchie, Mogul and Mazagon.

| Name of Dock    | Extreme Length | Length on Keel Blocks | Breadth at Altars | Depth of water at S.M.H.W. |
|-----------------|----------------|-----------------------|-------------------|----------------------------|
| RITCHIE .. .. . | 495'           | 468'                  | 66'               | 18'                        |
| MOGUL .. .. .   | 426'           | 406'-9"               | 59'-9"            | 16'                        |
| MAZAGON .. .. . | 152'           | 126'-3"               | 34'               | 9'                         |

Mazagon Dock Limited employs about 4,000 workers. The Supervisory Staffs number about 115.

Besides repairs, Mazagon Dock also builds ships. It has six building berths—four open and two covered. During 1965-66, Mazagon Dock delivered one launch for Port Blair, a steam tug, a fishing trawler, a ferry boat and 700 assault boats for the army.

During the first half of 1966 Mazagon Dock produced also a 400 tonne ore carrier barge, a bucket dredger and a tug.

Mazagon Dock has launched a scheme to convert the Kasara Basin in its North Yard into an impounded wet basin to provide alongside berths for ships. These berths can be used for repairing ships, as also for fitting out new ones.

Although repairing and building of ships are the major activities of Mazagon Dock, it also undertakes steel fabrication work, ferrous and non-ferrous foundry work, steel forgings, and automobile work, all types of timber construction and general engineering work.

The Mazagon Dock has been the first organization to build Burshane gas tanks of ten ton capacity. The Company also manufactures both horizontal and vertical MAZDOCK Crude Oil Cold Starting Engines with horse power ranging between six and twenty.

Managing Director : Rear-Admiral B. A. Samson.

**NAHAN FOUNDRY LTD.**

(Nahan, Sirmur District, Himachal Pradesh).

This was started in 1875 and has been continuously expanded.

The authorised capital is Rs. one crore and the paid-up capital Rs. 40 lakhs. The number of persons employed is about 600 at Nahan and about 150 in the agencies.

Production consists of improved type o cane crushers, bullock as well as power driven, mono-block pumps, improved types of ploughs, corn-sheller machines; harrows; and other miscellaneous items. The Foundry undertakes quality casting work for P & T. D. G. S. & D., Public Health and Railways. It also manufactures electric motors from  $\frac{1}{2}$  H.P. to 20 H.P. of ISI certification mark.

Casting during 1964-65 was 2,587 tonnes. During the year 402 electric motors of various sizes were also manufactured.

It is managed as a private limited company (which took over on Jan. 1, 1953) with the President and his nominees holding all the shares. General Manager, S. K. Caroli.

**NATIONAL INSTRUMENTS LTD.**

(1/1, Raja Subodh Mullick Road, Jadavpur, Calcutta 32).

Total investment Rs. 208.96 lakhs. Value of production and repair for 1965-66 : Rs. 96.95 lakhs. Number of persons employed 1,282.

Sales and miscellaneous income were Rs. 94.66 lakhs in 1965-66. The profit of the company for 1965-66 was Rs. 5.2 lakhs, after charging depreciation but before income tax.

This is a Government of India Undertaking under the Ministry of Industry manufacturing

and repairing scientific, surveying, mathematical, measuring and medical diagnostic instruments and appliances.

The principal products of the Undertaking are surveying instruments such as Theodolites and Levels of sorts, Prismatic Compasses etc., drawing office equipments such as Drafting Machines, Pantographs etc., measuring instruments such as Profile Projectors, Pressure and Vacuum Gauges, Thermometers, Hydrometers and a host of other items. Productions of Clinical Thermometer, Microscope and Optic Theodolite have been established in collaboration with some Japanese and Hungarian firms respectively.

The Ophthalmic Glass Project now under construction at Durgapur is expected to be completed by 1967. When in full production, this unit will produce 300 tons of Ophthalmic Glass and 10 million Ophthalmic lenses per annum.

Besides its own training scheme, the Company has provided training facilities under the Apprenticeship Act.

The development programme of this company is fashioned to serve as a nucleus in future for the manufacture of scientific and precision instruments, which are at present imported.

The following instruments are under development : Sphygmomanometer ; Thickness measuring gauge of various range ; Pressure gauges of various range and type ; Microscopes of various models and magnification.

Managing Director, N. Majumder, B.Sc. (Cal.), M.Sc. (Tech.) (Manch.), A.M.C.T. (Manch.).

Dy. General Manager : K. S. Rajagopalan.

**NEYVELI LIGNITE CORPORATION LTD.**

(Ministry of Mines &amp; Metals, Government of India)

Neyveli 1, South Arcot Dist.

This is a Rs. 141 crore project.

The Integrated Project now envisages the mining of 5.5 million tonnes of lignite per annum to be utilised for :

- production of 4,00,000 kW of power in a thermal power station using lignite as fuel;
- production of 1,52,000 tonnes of urea with a nitrogen content of 70,000 tonnes per annum; and
- manufacture of 7,68,000 tonnes of raw lignite briquettes per annum to be processed in a low temperature carbonising plant to yield 380,000 tonnes of carbonised briquettes per annum for use as domestic and industrial fuel, 1,29,000 tonnes of char fines, 37,000 tonnes of tar, 20,100 tonnes of middle oil, 4,800 tonnes of kerosene, 300 tonnes of light oil, 1,340 tonnes of carboric acid, 1,400 tonnes of polyvalent phenols, 580 tonnes of ortho-cresol, 1,340 tonnes of Meta and para-cresol and 585 tonnes of xyleneols; and
- production of 6,000 tonnes of washed white clay.

In the initial stages annual production was estimated at 3.5 million tonnes. The present target is 6.3 million tonnes per year.

During 1965-66, the quantity of lignite raised was 5.6 million tonnes.

**Thermal Power Station Scheme**

This is one of the schemes financed from the rouble credit offered by the U.S.S.R. The estimated cost of the scheme is Rs. 29 crores. The power station now has five units of 50,000 kW each under the first stage of development.

The Power Station is being expanded from 2,50,000 kW to 4,00,000 kW by adding in the first phase of expansion a 50,000 kW unit and a 1,00,000 kW unit to the existing station.

Upto the end of March, 1966 this power station has generated 4,360 million kW hours of power of which 3,436 million kW hours have been pumped into the Madras State Electricity Grid.

**Fertilizer Scheme**

With the collaboration of Messrs. Pintsch Bamag and Messrs. Linde of West Germany and Messrs. Ansaldo of Italy, the Fertilizer Scheme has commenced production of urea from March 66. It was expected to start full production by August 1966.

The Urea plant at Neyveli is the biggest of its kind in the world and the first to gasify lignite to produce urea—a chemical fertiliser with 46 per cent nitrogen content.

**Briquetting and Carbonising**

This plant erected by a consortium of West German firms, Buckau Wolf, Lurgi and Siemens went into commercial production in August 1965.

*Chairman:* K. N. Subbaraman; *Dy. Genl. Managers:* Ram Chander, (Establishment); R. Rama Chandran Pillai (Technical and Works); *Chief Account Officer:* S. H. Bhat.

**OPTICAL GLASS**

Central Glass and Ceramic Research Institute, Calcutta 32.

It went into production in Aug. 1960 and the major types of optical glass required in the country have already been produced and are on regular sale to consumers. The Ministry of Defence, who are the principal consumers, have undertaken inspection of optical glass produced and one of their units is located in the premises of the plant.

The country has been relieved of its dependence on imports for a vitally strategic material and it has been achieved without the association of any foreign manufacturing firm.

**PYRITES AND CHEMICALS DEVELOPMENT CO., LTD.**

Established on March 22, 1960. Registered Office: Canal Road, Dehri-on-Sone, Bihar.

Branch Offices: Amjhore, P.O. Banjarl, Dist. Shahabad, Bihar; K D Flats, Sindri, Dhanbad Dist.

Authorised Capital: Rs. 5 crores.

*Objects:* Raising, assembling and transporting of pyrites ore in such areas in India and elsewhere as the company may from time to time determine for sale or use and the manufacture of sulphur, sulphuric acid or other products requiring such ores.

*Activities:* (I) Exploitation and Mining Programme of pyrites ore.

**Reserves**

The Amjhore pyrites occurs as a sedimentary bed within the Bigalgarh Shales of Vindhyan Formations. The deposit is a bed of almost pure massive iron pyrites. The sulphur content in the raw ore is 33 per cent to 42 per cent. The total reserves and grade of ore (proved and probable) in about 123 square of pyrites bearing ground area, are estimated to be 384 million tonnes.

**Mining Programme**

Nowhere in India a thin bed like the one at Amjhore has ever been mined. A mining programme for an annual production of 2-4 lakh tons of pyrites from Amjhore mines has been planned and development work is in hand.

**Sulphuric Acid**

The Company is setting up a 400 tonnes per day capacity pyrites based sulphuric acid plant at Sindri to meet the requirement of the Fertilizer Corporation of India, Sindri Unit, Bihar State Superphosphate Factory, Sindri, and other potential consumers in that area. An agreement for the supply, erection and commissioning of the Acid Plant at Sindri on turn-key basis has already been executed.

**Sulphur**

A process known as Outokumpu Process has been found technically and economically feasible for the extraction of elemental sulphur from Amjhore pyrites. A detailed Project Report for the same is under preparation.

*Chairman:* J. N. Talukdar, I.C.S. (Retd.).

**RAJASTHAN ATOMIC POWER PROJECT**

(See under "Research")

**TARAPUR ATOMIC POWER STATION**

(See under "Research")

**WASHERIES**

The requirement of coal by the steel plants as charged to the coke ovens by the end of the Third Plan was of the order of 11.30 million tonnes. Out of this, about 6.50 million tonnes were required in terms of washed coal and the balance of 4.80 million tonnes partly in the shape of superior grades of Jharia raw coals and partly by blendable coals. The washed coal requirement of 6.50 million tonnes is equivalent to about 9.90 million tonnes of raw coal.

The washeries in which the above quantities of coal were washed are Jamadoba and West Bokaro belonging to the Tatas with a capacity to wash 1.4 and 0.45 million tonnes of raw coal respectively; the Lodna washery which supplies clean coal to the Indian Iron & Steel Company with an input capacity of 0.40 million tonnes of raw coal, the Durgapur washery which is an integral part of the Durgapur steel plant, with an input capacity of 1.5 million tonnes of raw coal; three Hindustan Steel Limited Washeries at Dugda, Bhojudih, and Pathardih with an input capacity of 2.40, 2.00 and 2.00 million tonnes respectively and the Kargali washery of the National Coal Development Corporation which can handle about 2 million tonnes of raw coal at present.

**STATE-OWNED OR STATE-AIDED****ANDHRA PRADESH****THE ANDHRA PAPER MILLS**

(Rajahmundry).

The capital investment is Rs. 29 lakhs and production capacity is 10 tons a day. A scheme to increase the present production capacity of the Mills from 10 to 60 tons of paper is under way. The production of the mills is now confined mostly to unbleached, kraft papers and it is proposed to produce white writing/printing papers and wrapping paper, after implementation of the expansion scheme. An agreement has also been entered into with Messrs. Empacel, Paris for the supply of plant and machineries under the French Credit on deferred payment terms.

**GOVERNMENT CERAMIC FACTORY**

(Gudur, Nellore Dist.).

The Government Ceramic Factory, Gudur, has been producing sanitaryware and crockery-ware only, till 1959. Production of high and low tension electrical insulators has also been commenced as an additional line of production to meet the requirements of the Government Electricity Department and the public from 1960.

There was a modest profit of Rs. 16,858 during 1964-65. The production was 5.66 lakhs kgs. valued at Rs. 8.34 lakhs. During the year 1965-66 the production is expected to increase to 6 lakhs kgs. valued at Rs. 9 lakhs.

**HYDERABAD TANNERIES LTD.**

(Hyderabad).

Andhra Pradesh is India's largest single producer of hides, producing about 2 mil. cow hides, 1.3 mil. buffalo hides, 2.3 mil. sheep-skins and 1.6 mil. goat-skins, accounting for  $\frac{1}{4}$  of India's production.

While the value of raw hide is about Rs. 5 crores, the value of finished leather is of the order of Rs. 8.7 crores. The State Government has ordered registration of two Apex societies for development of leather in Hyderabad and Vijayawada.

A sum of Rs. 21.02 lakhs has been provided for development of leather industries during 1965-66.

**NIZAM SUGAR FACTORY**

The Nizam Sugar Factory, a Govt. company with a paid-up capital of Rs. 146 lakhs, is the largest single sugar producing unit in the country. During the season 1964-65 the factory crushed 6,25,634 tonnes of cane producing 56,249.6 tonnes of sugar. The average yield was 27.09 tonnes during the year 1964-65 as compared 34.42 tonnes in 1963-64. The net profit of the Company during 1964-65 was Rs. 39 lakhs as against 56.38 lakhs during 1963-64.

**PRAGA TOOLS LIMITED**

6-6-8/32, Kavadiguda Road, Secunderabad 3.

The authorised capital exceeds Rs. 150 lakhs and the shares are held by the Government of India and the State Government in the order 52 per cent and 32 per cent respectively; the balance by the members of the public. The administrative control of the Company vests with the Ministry of Defence.

The company has registered substantial overall progress by rationalisation of production, economy in expenditure, and harmony in labour relations. The trading results for the year 1965-66 showed a net profit of Rs. 9.32 lakhs.

The Company produces machine tools and allied accessories, precision tools, forgings for auto and diesel spares and rail-road components.

*Managing Director,* A. M. Kelkar.

**SINGARENI COLLIERIES**

Coal is mined in the State by the Singareni Collieries Co. Ltd. from the coal fields at Kothagudem, Yellandu and Tandur.

Production of Coal during 1964-65 was 36.51 lakh tonnes as compared with the production of 34.7 lakh tonnes in 1963-64. The Company earned a gross profit of Rs. 2.08 crores during the year 1964-65 as against Rs. 2.05 crores in 1963-64. With the establishment of the Thermal Power Plant at Kothagudem the demand for coal is expected to increase.

**ASSAM****ASEB METER WORKS**

Short Round Road, Shillong.

A Rs. 60 lakhs factory, an Assam State Electricity Board enterprise, for the manufacture of single phase house service KWH meters and polyphase meters went into production in Jan. 1962.

The factory has produced 50,000 single phase meters upto 1965. It is expected that complete independent manufacture of all the components of the meters would be possible by the middle of 1967 with a target capacity of 1,20,000 single phase meters and 18,000 poly-phase meters.

**ASSAM GAS COMPANY LTD.**

(A Government of Assam Undertaking)

Shillong (Assam).

Authorised capital: Rs. 2 crores; paid-up capital: Rs. 51,88,900.

*Aims and objects:* Utilization of natural gas from the oil fields of Messrs. Oil India Limited at Naharkatiya and Moran in the district of

Lakhimpur, as feed stock for petrochemical industries and as industrial and domestic fuels.

**Present activity:** Construction of a 14" diameter pipeline was completed to supply 18 million cubic feet of gas per day to the Thermal Power Station of Assam State Electricity Board at Namrup for generation of 69 MW of electric power and 8 million cubic feet of gas per day to the fertilizer factory of the Fertilizer Corporation of India for the manufacture of 1,00,000 tons of ammonium sulphate and 55,000 tons of urea.

**Future programme:** Setting up Petrochemical Industries and construction of a gas pipeline net work in the Lakhimpur district for distribution of gas to tea gardens, industrial units and for domestic use, if feasible.

## BIHAR

### BIHAR STATE INSULATOR FACTORY (Near Ranchi).

The factory has started production and is manufacturing transmission line insulators upto 132 kV and Bushings and Post insulators upto 33 kV, besides L.T. Pin, Shackle, Guy and Telephone insulators. When in full production it will save foreign exchange to the extent of Rs. 35 lakhs annually as high tension insulators are being mostly imported at present.

It is planned to double this factory and also undertake manufacture of quality malleable hardwares for the insulators by the middle of Fourth Plan. The factory will eventually provide employment to nearly 800 people when the extension stage is completed.

### BIHAR STATE SUPERPHOSPHATE FACTORY

P.O. Sindri Institute, Dist. Dhanbad  
(Bihar).

The factory went into production in April 1958.

Present capacity of production: Single superphosphate — 18,000 tons per annum.

Installed capacity of plants: (i) 240 tons superphosphate per day; (ii) 25 tons of 100 per cent sulphuric acid per day. Total investment: Rs. 65 lakhs. No. of workers employed: About 180.

At present the factory produces between 20,000 and 25,000 tons of superphosphate a year. The production is expected to reach a target of 72,000 tons shortly.

**Works Manager:** S. K. Mishra.

## GUJARAT

### THE BHAVNAGAR PUBLIC DAIRY LTD.

Bhavnagar (Gujarat).

This State Government Undertaking was commissioned in 1957. It draws supplies of milk from producers co-operative societies within 30 miles radius. Apart from bottled milk, the dairy also manufactures practically all major by-products including ice-cream, on a small scale.

It handles about 5,000 litres of milk per day processed through a 220 gallons per hour pasteurising plant.

**Manager:** H. C. Mehta.

## JAMMU & KASHMIR

### COUNCIL OF SCIENTIFIC AND INDUSTRIAL RESEARCH

#### DRUG RESEARCH LABORATORIES

Raj Bagh, Srinagar.

The laboratory was started in 1956. Total investment is Rs. 6-30 lakhs and the number of persons employed is 60. The present production and the sales effected are valued at Rs. five lakhs and Rs. six lakhs respectively.

**Manager:** O. N. Channa.

### DRUG RESEARCH LABORATORIES

(Factories & Farms)

(CSIR)

(Jammu, Srinagar).

Belladonna concentrated extracts, Belladonna consumer goods, i.e., Belladonna plaster etc. Dissogenin, Menthol and Dementholised oil. Pyrethrum Oleoresin and cedarwood oil.

### GOVERNMENT SILK WEAVING FACTORY

(Raj Bagh, Srinagar).

It is the largest powerloom factory for the production of pure silk fabrics in India. The factory was started in 1938-39 with 33 looms and 1,872 spindles. It is now equipped with 124 looms and an up-to-date Throwing Plant of 6,000 spindles equipped for dyeing and printing by blocks.

Total investment: Rs. 34.27 lakhs. The factory provides employment on an average for 600 workers per day. No raw silk is produced in the factory. It produces only fabrics on an average 3-75 lakh metres per year.

### GOVERNMENT WOOLLEN MILLS

(Srinagar, Kashmir).

The mill was started in 1934-35 and purchased by the Govt. from a private firm in 1950. The total investment is Rs. 38.50 lakhs. The number of persons employed is 600. The average monthly production on the basis of 1962-63 working is — cloth 2,31,000 yards and yarn 4,54,000 lbs.

## KERALA

### COCHIN REFINERIES LTD.

P. Bag 501, Ernakulam-6.

Incorporated as a public limited company on Sept. 6, 1963.

**Capital:** Authorised Rs. 15 crores; Paid-up Rs. 7 crores.

The company has been established under an agreement entered into by the Government of India with Messrs. Phillips Petroleum Company of the State of Delaware, U.S.A. and Messrs. Duncan Brothers & Co. Ltd., Calcutta with the main object of constructing a complete modern petroleum refinery near Cochin in South India, with a design capacity to refine initially 50,000 barrels of crude oil each stream day and with an excess built in capacity upto 70,000 barrels a day.

The company has entered into a refinery construction contract with Messrs. Phillips Petroleum International Corporation, Panama and a technical service agreement with Messrs. Phillips Petroleum Company of Delaware, U.S.A. The refinery is expected to go on stream by Jan. 1966.

**N. N. Kashyap (Chairman); John W. Loy (Managing Director).**

### GOVERNMENT OIL FACTORY

(Kozhikode).

The Government Oil Factory was established in 1940 with a view to meeting the growing demands of the Defence Forces in India for Vitamin 'A & D' products. Regular production was started in 1943. The factory now produces various vitamin products such as Seagold blended shark liver oil, Adamin liquid high potency Vitamin Oil, adamin capsules, Stayfit liquid, Stayfit capsules and Veterinary Vitamin oil such as Univax and Trivax, etc. using up-to-date equipment and testing apparatus.

The capital investment as on 31st March 1965 was Rs. 4.2 lakhs and annual turnover Rs. 10.5 lakhs.

Net profit in 1964-65 amounted to Rs. 1.25 lakhs.

### KERALA GOVERNMENT CERAMICS

Kundara.

The Kerala Ceramics Ltd., Kundara consists of three working units.

**Unit I**, the New Porcelain Factory produces porcelain crockery, and low tension electric insulators. **Unit II**, the old Factory which is now being reorganised for the production of stoneware pipes and refractories. **Unit III**, China Clay Mines producing refined china clay.

Authorised capital of the Company is Rs. One crore. The Company employs about 100 employees.

Very recently the Company has entered into a long term agreement with labour whereby wages and work-load have been revised.

All the three units are having expansion schemes for substantial increase in production and foreign collaboration is sought for modernising and development of mines and mining operations. The management labour relation is cordial.

### THE KERALA PREMO PIPE FACTORY LIMITED

Chavara (P.O.), Qullon District.

**Registered Office:** Kaudiar, Trivandrum 9.

This factory is a Kerala Government undertaking registered as a Joint Stock Concern in 1961. The capital outlay is Rs. 50 lakhs. This factory prestressed high and low pressure concrete pipes and R.C.C. spun pipes are manufactured for water supply, drainage and irrigation. This factory is the only one of its kind in India. High pressure pipes can be designed and manufactured for any test pressure. The production capacity of the factory at present is 20 nos. prestressed concrete pipes and 300 nos. R.C.C. spun pipes per day.

Another section for the manufacture of mosaic tiles and prestressed transmission poles is under consideration.

**Managing Director:** K. R. Warriar.

### KERALA SOAPS AND OILS LTD.

(Soap Institute Division)

Calicut-11.

Regular operation in this institute began in the year 1923. The institute manufactures several varieties of toilet soaps including the Kerala Sandalwood, Willingdon, Vep, Rose soaps etc. as also Wash-well and other varieties of bar soaps. The work of training of students in soap making is also undertaken.

The capacity of the factory is about 45 tons per annum. But it is now being increased to 700 tons.

Turnover in 1964-65 was Rs. 17,00,000.

It is also proposed to deal with cosmetic line and to erect Mazzoni Plant in order to increase the production of soaps.

**General Manager:** U. S. Kini.

### PALLATHRA BRICKS & TILES LTD.

P.O. Thirunallore, Shertallay.

**Authorised Capital:** Rs. 1,00,00,000; **Issue Capital** Rs. 11,00,000; **Date of commencement** November 15, 1958.

The first factory of the company has been completed and it was commissioned on May 11, 1963.

The object of the Company is to produce and distribute sand lime bricks, a new architectural brick of high strength and finish. The designed capacity of the factory is 44,000 bricks per working day of 16 hours.

The total employment potential is 300 workmen.

Provision for six more units to be started in the following centres viz. Kozhikode, Cannanore, Trichur, Punnappra near Alleppey, Quilon, Kottayam (with laterite roadways in Kerala) involving a total cost of Rs. 99 lakhs is proposed to be made in the very near future.

**TRACO CABLE COMPANY**

Irimpanam, Ernakulam.

The Traco Cable Company Limited, Ernakulam, was incorporated in February, 1960 as a public limited company at Ernakulam. One of the main objects of the company is to carry on business as manufacturers and dealers in all kinds of wires and cables.

The Authorized Capital is Rs. 1,00,00,000.

The company has secured technical collaboration of Kelcey Engineering Ltd., North Vancouver, Canada.

The factory is located at Irimpanam, Ernakulam District, about 10 miles from the Cochin. The present licensed capacity is 36 million yards. It proposes to manufacture both copper and aluminium wires and cables using the best insulating materials and adopting the best techniques.

The company is manufacturing P.V.C. insulated P.V.C. or rubber sheathed steel wire and P.V.C. sheathed cables upto 50 sq. cm. in addition to ordinary P.V.C. cables both single and multicore. The company hopes to export a major portion of its products.

The Company has successfully completed one year of production.

**TRAVANCORE PLYWOOD INDUSTRIES LTD.**

Punalur.

This is now a joint stock company in the public sector. The installed capacity of the company in single shift is to produce 3-5 lakhs square metre plywood panels and 75,000 sets of utensils for the chest per annum.

Annual turnover is Rs. 14,00,000 and the average annual net profit earned by the Company for 1965-66 is Rs. 2-5 lakhs.

The main raw materials required are softwood and synthetic resin. Timber is supplied by the State Forest Department and resin is brought from indigenous sources.

The Company employs about 170 personnel in all.

Chairman: K. B. Warriar, I.A.S., General Manager & Secretary: T. J. Abraham.

**TRIVANDRUM RUBBER WORKS**

(Chackal, Trivandrum 7).

(A Kerala State Undertaking).

Trivandrum Rubber Works Ltd. is a Kerala Government owned company under which the former Travancore Rubber Works, Kerala Government Cycle Rim Factory and Kerala Rubber Works are now working as units. The Company came into being with an authorised capital of Rs. 75 lakhs on 24-2-1964. At present there are 10 employees working in the three units of the company.

The main products of the company are Rubber products such as Cycle Tyres and Cycle Tubes, hoses of all kinds, Latex goods, foams cushions etc., Cycle Rims and Cycles under the name Kerala Cycles. The Company is now exporting Cycle Rims to East African and other African countries.

Under the Fourth Five Year Plan a scheme for the modernisation and expansion of cycle tyre and cycle tube production is under implementation.

**TRIVANDRUM SPINNING MILLS LTD.**

Balaramapuram.

This first Public Sector Mill in Kerala was inaugurated in March 1962. The Mill is now owned and managed by a Government Company formed for this purpose. The installed capacity is 18,000 spindles. An expansion programme to install an additional 7,200 spindles is in progress. The Mill at present spins 20's and 40's.

**TRIVANDRUM TITANIUM PRODUCTS LTD.**

Kochu Veli, Trivandrum-7 (Kerala)

A public limited company in which the Government of Kerala holds majority interest.

The factory is the only unit in India producing Titanium Dioxide pigments, an important intermediate for paint and many other consumer products. Started regular production in 1951 with a production capacity of 5 tonnes but the production has since been stepped up to 18 M. tons per day.

Total capital investment: About Rs. two crores; annual turnover Rs. 180 lakhs; employment potential: over 600 persons. Schemes for further expansion are in progress (June 1966).

Managing Director: T. Madhava Menon, I.A.S.

**MADHYA PRADESH****MADHYA PRADESH LAGHU UDYOG NIGAM LIMITED**

Shahnaz Manzil, Sultania Road, Bhopal.

Started functioning from 1st February 1962 with an authorised capital of Rs. 20 lakhs and paid-up capital of Rs. 3 lakhs with the main object of promoting the interest of the small-scale industries and helping their speedy development in the State.

The Nigam has taken up the following activities:—(1) Running of 8 Production Units, (2) Marketing of Small Scale Industries Products, (3) Supply of machines on Hire Purchase, (4) Construction of Industrial sheds and development of Industrial areas, (5) Procurement and distribution of Raw Materials through eight depots at Indore, Gwalior, Bhopal, Satna, Jabalpur, Bilaspur, Bhilai and Bhand, and (6) Sale of Handloom and Handicrafts and SSI Products through 20 Emporia & Export Marketing.

Chairman: Devi Sahai, I.A.S., Managing Director: S. R. Bahadur.

**THE NATIONAL NEWSPRINT AND PAPER MILLS LIMITED**

(Nepanagar, Nimar Dist., Madhya Pradesh).

The mills are situated on the main Bombay-Itanagar-Delhi line about 27 miles from Khandwa and 17 miles from Burhanpur.

The Company is a limited concern with a share capital of Rs. five crores. Of the shares 51 per cent are held by the Union Government and 34 per cent by the Madhya Pradesh Government. The balance shares are held by shareholders from the public numbering about 17,000.

Newsprint production started from cent per cent indigenous raw materials from 29th December 1955. The rated capacity of the plant is 30,000 tons yearly which was attained in Dec. 1962. The production during 1964-65 was 29,250 tonnes as against 30,078 tonnes in 1963-64. The total revenue from sales during 1964-65 was Rs. 307-82 lakhs. The Project has cost about six crores of rupees. The company made a net profit of Rs. 34-54 lakhs during 1964-65.

There are 1,445 workers working on monthly salary. When the expansion programmes are completed at a cost of Rs. eight crores, production would be raised to 75,000 tons a year.

Chairman, Board of Directors: Sir A. Ramaswami Mudaliar. Managing Director: P. S. Kothari, Deputy General Manager and Secretary: P. L. Singhania.

**MADRAS****WOOL PROCESSING CENTRE**

Vinnamangalam, Minnur Post (Madras).

The Wool Processing Centre, a joint venture of the Governments of Madras and Mysore is processing tannery wool/hairs, bristles to meet the requirements of drugget, carpet and felt manufacturers of India and abroad. The production capacity is 750 tonnes per year.

The unit has been functioning since 1960 and is controlled by the Director of Industries & Commerce, Madras.

Officer-in-charge: K. A. Joseph.

**MAHARASHTRA****MANGANESE ORE (INDIA) LTD.**

3, Mount Road Extension, Nagpur.

The Manganese Ore India Ltd. started its operation of manganese mines in Nagpur, Bhandara and Balaghat districts from July 1, 1962.

Authorised capital: Rs. six crores (March 1965); subscribed capital: Rs. 2,15,45,100 (March 1965). The Government of India together with the State Governments of Maharashtra and Madhya Pradesh hold 51 per cent of the issued capital and 49 per cent of the shares have been allotted to the Central Provinces Manganese Ore Co. Ltd.

The total number of workers employed by the Company at different mines is 16,116.

The output and sales of manganese ore during 1964-65 were 3,28,599 and 2,68,330 tonnes respectively.

Managing Director: A. Chaudhuri.

**MYSORE****THE GOVERNMENT CENTRAL INDUSTRIAL WORKSHOP**

(Mysore Road, Bangalore 26).

Established: 1897.

Capital invested as on March 31, 1965: Rs. 46-18 lakhs.

No. of persons employed: 350.

Annual outturn: Rs. 22-18 lakhs.

The Workshop is engaged in General Engineering works such as manufacture of Trusses, Purlins, Ferrous and non-Ferrous castings, constructions of Machinery including concrete mixers of all types, wheel barrows, Hand carts, Tar rollers, Soap pan rollers & Pan mixers, Line Materials such as 11 K.V. pins, 33 K.V. pins, D.C. pins, Tongue pins, Ball pins etc.

In addition to the above, manufacture and repairs of Road Rollers undertaken.

**GOVERNMENT ELECTRIC FACTORY**

(Mysore Road, Bangalore).

Established: 1939.

Capital invested: 150 lakhs.

No. of persons employed: 1,000.

Annual outturn: Rs. 100 lakhs.

Main products: Transformers in sizes upto 3,000 kv A and voltages upto 33 kv to an aggregate of 2,00,000 kv A per annum.

**GOVERNMENT PORCELAIN FACTORY**

(Science Institute, Bangalore).

Established: 1932.

No. of persons employed: 1,200.

Annual outturn: Rs. 120 lakhs.

The present production capacity is 3,600 tons and steps are in progress to expand it to 5,000 tons. The factory is working in collaboration with Messrs. NGK Insulators Ltd., of Japan. The production of the GPF is produced and tested by the same rigorous methods and guaranteed for the same performance as NGK Insulators of the corresponding categories. The present range of products is upto 132 kv according to the collaboration agreement of 1954. A fresh agreement is under negotiation to expand the range of products upto 220 kv which is expected to meet all the requirements of the country till the end of the Fourth Plan period, with rare exceptions of short lengths of 380 or 400 kv lines for which imported insulators would be more economical than setting up expensive machinery on a permanent basis at such an early stage.

### GOVERNMENT SANDALWOOD OIL FACTORIES IN MYSORE

Factories at (1) Mysore, (2) Shimoga (Mysore State)

Established : Mysore 1917 and Shimoga 1944.

Capital : Rs. 33,50,000 (1964-65).

Number of persons employed : 380.

Production : 1964-65 : Qty-Kgs. 1,00,727 Kgs. of Sandalwood oil valued at Rs. 1,26,86,441.

The scheme to equip the Sandalwood Oil Factory, Mysore with new boiler is being implemented.

### GOVERNMENT SOAP FACTORY

Post Box No. 1031, Bangalore-12.

Established : 1918.

Capital invested : Rs. 1 crore.

No. of persons employed : 294.

Annual outturn : Rs. 1.46 crores.

The factory produces 2,200 tons of soap per annum. Recently Government of India has enhanced the licenced capacity from 1,500 tons to 6,000 tons per year. The factory also produces high class toilet soaps, washing soaps and C.P. Glycerine. Mysore Sandal Soap is their popular brand.

### THE HUTTI GOLD MINES CO. LTD.

Hutti P.O. (Via Raichur-Deccan).

Production was commenced in 1948 and the current production is at the rate of 10,000 tons of ore treated with a recovery of 77,000 grammes of gold per month.

Production at the expanded rate is scheduled to commence early in 1968, when 3,10,000 tons of ore will be treated per annum for a recovery of about 1,930 kg. of gold.

### MAHABOOB SHAHI GULBARGA MILLS CO. LTD.

Gulbarga (Mysore State).

The authorised share capital at present is Rs. 1.25 crores and subscribed capital is Rs. 71.2 lakhs. The mill became a Government company in 1962, as a result of the Government acquiring 51 per cent of the share capital.

The company employs a labour force of about 3,000. Its installed capacity is 35,140 spindles and 606 looms with dyeing, bleaching and finishing sections. The mill produces coarse and medium cloth.

Managing Director : C. S. Seshadri, I.A.S.; Secretary : B. Lakshmana Rao.

### THE MYSORE CHROME TANNING CO. LTD.

Mysore Road, Bangalore-26.

More than 52 per cent of the company's share capital is held by the Government of Mysore.

The company manufactures all kinds of chrome upper leathers, B.T. sole leathers, besides manufacturing leather goods such as ammunition boots for police and defence departments, air travel bags, document cases, suit cases, ladies hand bags, industrial leathers, washers for hydro-electric, turbines, safety belts and straps for hot line workers etc.

Managing Director : J. C. Lynn, I.A.S.; Secretary : S. Krishnappa, B.Com., B.L.

### THE MYSORE IRON AND STEEL LIMITED (Bhadravati, Shimoga Dist., Mysore State).

This Mysore State Government Project is now a Corporation on the lines of a Private Limited Company.

The Company produces pig iron, cast iron pipes, plate sleepers, general foundry castings, merchant steel sections, steel castings, portland cement, slag cement, ferro-silicon and ferro-manganese. The total sales during the year 1965-66 amount to about Rs. 11.04 crores.

The present annual output of several products is (in tonnes) : Pig Iron 85,000 ; Mild Steels Sections 30,000 ; Baling hoops and thin rods 11,000 ; Cast Iron Pipes 26,500 ; Ferro-Silicon 20,000 ; Cast Iron Plate Sleepers 15,000 ; Cast Iron Castings 5,000 ; Steel Castings 2,000.

The Company has a well equipped Structural Shop for fabrication of steel structures, the annual capacity being more than 2,500 tonnes.

**Expansion Schemes :** Expansion of the existing Steel Plant by installing L.D. Steel converters and additional Rolling Mills to step up the production of Mild Steel to one lakh tons per annum is completed. The scheme for conversion of the Common Steel Expansion into an Alloy and Special steel Plant with a capacity of 77,000 tons of finished Special Steels at a cost of Rs. 10.71 crores in collaboration with Messrs. Bohler & Company of Austria in respect of know-how, patent rights etc. is now under implementation. Annual capacity of pig iron will be increased from 80,000 tons to 2,00,000 tons by installing additional electric furnaces.

Total No. of employees : 9,643

Chairman : K. Mallappa, B.A., B.L., Minister for Industries and Commerce, Government of Mysore. Vice-Chairman and Managing Director : M. D. Shivananjappa, I.A.S. Secretary : K. Marulappa, M.A.

### MYSORE GOVERNMENT SILK WEAVING FACTORY

Mananthody Road, Mysore-4.

Established : 1932.

Capital invested : Rs. 24.88 lakhs, as at the end of March 1965.

Number of persons employed : 268.

Annual outturn : Rs. 22 lakhs.

The factory is engaged in the manufacture of high grade 100 per cent re-reeled pure silk fabrics such as Crepe-de-chine, Georgette, Satins, Sarees, Kerchieves, ties and other ladies wear.

New varieties such as Tom-tom, Fireplay, Navrang, Champion, Rainbow, Taffetta fabrics, Scarves, Raw Silk fabrics, Batic printed sarees, Reversible sarees etc., are also manufactured.

The factory is being modernised with the installation of 30 Tsudakoma Looms, High speed sectional warping machines cone winder HBD Type etc., being imported from Japan.

### MYSORE IMPLEMENTS FACTORY

(Hassan).

Established : 1939.

Capital invested : Rs. 42 lakhs.

No. of persons employed : 290.

Annual outturn : Rs. 40 lakhs.

The factory has been mechanised for mass production of agricultural, estate and horticultural implements and tools like munties, pick axes, sledge hammers, shovels, crowbars, sheet metalware, light structural, etc. to meet the increasing demand from several Govt. departments and private consumers. A network of agencies are functioning throughout the country. The factory shall be further mechanised and expanded during the IV Five Year Plan period with a Capital Cost of Rs. 30 lakhs.

General Manager : S. K. Kempaiah.

### NGEF LTD.

Byappanahalli, Bangalore-1.

The Government concern, New Government Electric Factory has been converted into a Public limited company, by name NGEF Ltd. The authorised capital of the company is Rs. 5 crores and the proposed issued capital would be Rs. 4 crores. The Mysore Government would subscribe 80 per cent of the said issued capital.

**Main products :** Manufacture of transformers in sizes upto 20,000 kVA and voltages upto 132 kV to an aggregate of 600,000 kVA per

annum, per single shift. (ii) Motors : Upto 1,500 HP for voltage rating upto 6.6 kV. The aggregate output will be 4,00,000 H.P. per annum, per single shift. (iii) Switchgear : Motor starters, switches, circuit breakers upto 11 kV, switchboards, distribution boards, H.R.C. fuses etc., of the value of about Rs. 85,00,000 per annum, per single shift.

### RADIO & ELECTRICALS MFG. CO. LTD. Mysore Road, Bangalore-18.

The name of Radio & Electricals Mfg. Co. Ltd. (popularly known as Remco) was adopted in 1949. The present authorised capital is Rs. 2 crores and subscribed capital is Rs. 79,86,290. Sixty two per cent of the paid-up capital is held by the Government of Mysore and the remaining 38 per cent by the public.

The company's business operations began with the sale of imported radio receivers and was followed by manufacturing activities for the production of radio receivers, electronic components, plastic insulated wires and cables, electricity meters and water meters. Among the components produced in Remco are (1) all metal parts (2) mains transformers (3) audio transformers (4) I. F. transformers (5) coils (6) wave change switches (7) paper capacitors and (8) electrolytic capacitors. The production of band switches in technical collaboration with A. B. Metal Products Ltd., U.K. commenced in May 1958. Production of loudspeakers in technical collaboration with Tokyo Shibaura Electric Co., Ltd., Tokyo, Japan, commenced in June 1966. The principal electronic equipment manufactured in Remco are (1) domestic radio receivers (2) community receivers and (3) inter-communication sets. Besides these, a large variety of test equipment utilising electronic circuits have also been designed and built by Remco mostly for its own use. The production of transistorised radio receivers has been started recently (April 1965).

The manufacture of Polyvinyl chloride covered wires and cables for use in low tension circuits was commenced in 1948. The production of single phase electricity meters was commenced in 1952 in technical collaboration with Tokyo Shibaura Electric Co. Ltd., Japan. The production of electricity meters has registered a rapid rise from 200 meters per day in 1952 to 1,000 meters per day at present. The company has been sanctioned a capacity of 2,00,000 single-phase electricity meters and 48,000 polyphase electricity meters per annum. The company is also producing polyphase electricity meters.

Remco commenced manufacture of multi-jet inferential type water meters in technical collaboration with Messrs. Aquametro Water Meter Works Ltd., Switzerland in 1956.

### TUNGABHADRA STEEL PRODUCTS LTD. Tungabhadra Dam P.O. (Bellary Dist., Mysore)

This company was founded on April 1, 1960 with an authorised capital of Rs. 2 crores and a subscribed capital of Rs. 50 lakhs. The entire subscribed capital is contributed in equal shares by the Governments of Andhra Pradesh and Mysore.

**Production :** Steel structures including gates, hoists and transmission towers 4,000 tons per annum ; penstocks 3,000 tons ; grey iron castings 500 tons ; cranes worth Rs. 18 to 24 lakhs per annum.

A galvanising plant with a capacity of 3,000 tons per annum is under installation and will be commissioned shortly (April 1966). The company has its own design branch, grey iron foundry, rubber seal section, X-ray and photographic section.

It has entered into a collaboration agreement with Messrs. Est. Neyrpic, Grenoble, France for the designing and fabrication of hydraulic gates. It has plans for securing the collaboration of some other foreign firms and expanding its lines of production.

The Board of Directors of the company comprises eight members, four of whom are nominated by the Govt. of Mysore and four by Andhra Pradesh.

*Chairman*: A. Krishnaswamy; *Managing Director*: I. P. Mallappa; *Secretary*: B. R. Shanthkumar.

## ORISSA

### CUTTACK IRON & STEEL PRODUCTS LTD.

Industrial Estate, Cuttack-3 (Orissa)

The company is a pilot project of the Government of Orissa. The shareholders of the company comprise the Governor of Orissa (holding major shares) and a private entrepreneur.

The company manufactures fabricated steel goods. It undertakes all types of fabrication work. Its products can be divided into three categories: (1) Heavy Goods (trusses, transmission towers, band cranes etc.), (2) Semi-Heavy Goods (window grill, steel window, W.I. gate, collapsible gate, garage gate, electric cross-arms, wheel barrow, scraper, drums etc.) (3) Light Goods (novelty goods like table tray, flower stand, garden chair and other types of furniture and office equipment like file tray, file rack, etc.).

*Managing Director*: A. K. Bhuyan.

### ORISSA BOARD MILLS LTD.

P.O. Jagatpur (Dist. Cuttack, Orissa).

(Regd. Office: Meria Bazar, Cuttack-1).

This is a pilot project company of the Government of Orissa. The mills are equipped with cylinder-mould machine and a jet ventilated dryer imported from West Germany. It produces monolithic quality straw boards and mill boards from 16 oz. to 48 oz.

*Managing Director*: S. Raut Roy.

### ROURKELA FABRICATIONS LTD.

Industrial Area, Rourkela-4.

Authorised capital: Rs. 5 lakhs. The factory was established in 1959 for the manufacture of quality steel window, angle roof trusses, purlins, all steel screw gear shutters, falling shutters and for any type of structural heavy, medium and light.

Turn-over for 1965-66: Rs. 9.0 lakhs.

*Managing Director*: Babubhai Patel; *Secretary-Residential Engineer*: A. N. Patel, B.E., A.M.I.E.

## UTTAR PRADESH

### GOVERNMENT CEMENT FACTORY

Churk, Mirzapur, U.P.

The Government Cement Factory was established at Churk in Mirzapur District at an initial cost of Rs. 4.68 crores. The factory went into production in September 1954. Its installed capacity is 700 tons per day.

The expansion of the project at an expenditure of Rs. 2.98 crores has been completed and the expanded plant went into production from January 1963. The rated capacity of the expanded plant is now 1,400 tonnes per day as against the initial capacity of 700 tonnes per day. Production during 1965-66 was 4,25,066 tonnes of cement.

In the factory, 1,829 persons are working and 1,455 persons are working in the quarries of the factory.

### GOVERNMENT PRECISION INSTRUMENTS FACTORY

Lucknow, P. Box 153, U.P.

The factory was established in 1950 at Lucknow for the manufacture of water meters, microscopes and other precision instruments. Its present production includes watermeters of 15 mm, 20 mm and 25 mm sizes, microscopes research, scholar and bullet comparison and pressure gauges of 4" and 6" dial size with range of 0-100 lbs/in<sup>2</sup>, 0-200 lbs/in<sup>2</sup> and 0-600 lbs/in<sup>2</sup> respectively.

The Research-cum-design centre established in the premises of G.P.I.F. for carrying out research and experimentation in the manufacture of precision and scientific instruments has already started functioning.

The work for the establishment of a separate factory for the manufacture of optical and meteorological instruments is in progress.

### THE INDIAN TURPENTINE & ROSIN CO. LTD.

P.O. Clutterbuckganj, Bareilly (U.P.)

Authorised capital: Rs. 12,00,000; subscribed capital: Rs. 9,00,000.

The Government have handed over their Turpentine and Rosin Factory in Clutterbuckganj in U.P. to this company. From crude resin, the company manufactures turpentine and rosin of international repute conforming to I.S.I. Certification marks. The gum of pine trees, the main raw material, is being obtained from the Kumaon and Tehri forests of U.P.

*General Manager*: Kuber Nath, A.I.F.C.

## WEST BENGAL

### THE KALYANI SPINNING MILLS LTD.

P.O. Kalyani, Dist. Nadia (West Bengal).

Authorised capital: Rs. 250 lakhs; paid-up capital: Rs. 158.21 lakhs. The Government of West Bengal originally paid a sum of Rs. 70.39 lakhs as loan (interest bearing) out of which the Company already repaid a sum of Rs. 32.65 lakhs till 31st March '66.

The mill has an installed capacity of 50,160 spindles.

The annual production capacity of the existing Kalyani Unit is approximately 24,00,000 lbs. manufacturing fine and superfine counts both in Hank and Cones.

The present employment potential of the mill is 1,564.

During 1964-65, the mill has earned a net profit of Rs. 19,25,889.

*Chairman*: K. N. Mookerjee; *Managing Director*: R. R. Chatterjee.

### THE DURGAPUR PROJECTS LTD.

(A Government of West Bengal Undertaking)

Registered Office: 10, Middleton Row, Calcutta-16.

Factory: P.O. Durgapur-2, Burdwan, Coke Oven Plant.

Products: Coke, Benzene (Industrial Toluol), Motor Benzol, Light Solvent Naptha and Lux Mas.

Tar Products: Carbolic oil, Solvent oil, Naphalene oil, Crude Naphalene, Wash oil (Not saleable), Anthracene oil, Timber Pickling oil, Sodium Phenolate, Pitch (Not saleable), Processed Tar, Road Tar (No. 3 & 4) and Resin (Production stopped for the present).

## BHOODAN

THE position of the Bhoodan Yagna Movement upto 31st March 1966] is shown in the table below.

Since Gramdan (the whole cultivable land in the village to be donated to the Gram Sabha) proved to be an advanced stage of Bhoodan, the Sarva Seva Sangh, by its resolution, gave a call to the country to concentrate on Gramdan. At the same time new items of Sarvodaya Patra and Shanti Sena have been added to consolidate the Gramdan Movement. Due to the above programmes the work of distribution of land was slackened.

The headquarters of the movement are at Sarva Seva Sangh, Rajghat, Varanasi—(U.P.).

## BROADCASTING

### EXPANSION OF MEDIUM WAVE

FOR the 4th Plan, AIR have an ambitious project for expansion on medium wave with high power transmitters. Already two 1,000 kW medium wave transmitters, one for the Calcutta region and the other for Saurashtra are ordered and they are expected to be erected in 1967. Additional transmitters planned are: Two of 250 kW each, short wave, at Agra/Delhi for augmenting External Services. Medium wave, 100 kW each, transmitters to be erected at Dibrugarh, Jorhat, Darjeeling, Jaisalmer, Gorakhpur, Garhwal, and Ranchi. At Trichur, there will be two such transmitters. Jammu, Imphal and Kohima will have 50 kW transmitters each, and 20 kW transmitters are proposed at Dehra Dun, Jodhpur, Jeypore, Jagdalpur, Allahabad, Varanasi, Cuddappah, while Leh, Mercara (Coorg) and Dangs will have each a 10 kW transmitter.

The Monitoring station at present in Simla is proposed to be shifted to Delhi. Additional building at Head Quarters Delhi, for News Services and External Services are proposed to be constructed. Studio facilities at many stations will be augmented and preparation for introducing TV in Bombay, Madras and Calcutta will be made during the Plan.

### CHANDA COMMITTEE'S REPORT

The most important suggestion is to make AIR an autonomous Corporation on the lines of the BBC. Advertisements may be accepted on the Vividh Bharati Channel and the External Services are to be charged to Government of India. TV to be kept a separate unit from AIR. Low powered transmitters to be erected for small cultural units. Listener Research to be undertaken on a more systematic manner. The Government of India have circulated the Report amongst its Ministries for their reaction.

The strength of All India Radio by the beginning of 1965 was: 33 principal radio stations; 14 auxiliary centres; 23 Vividh Bharati stations; and total transmitters, 103.

### BUDGET

For 1966-67, the estimates of expenditure on revenue account were Rs. 669.33 lakhs and those on capital account Rs. 187.80 lakhs.

### TELEVISION

Confined mainly to the area round about the capital, Delhi, the new more powerful transmitter (5 kW in place of 500 Watts) has expanded the radial coverage.

TV sets in Delhi now number a little over 700. The service is now for an hour daily of entertainment and education and it was made possible with assistance from West Germany. There are 184 tele-clubs with an active membership of about 20,000 viewers. Of these 126 are located in schools. More than 240 schools are equipped with TV sets. The TV programme includes items in Hindi and English, for women, children and youth, light entertainment, dances and dance-appreciation, two plays a week and a feature film edited to 90 mts. once a month.

Total budget provision for the Television Centre for 1965-66 is a little over Rs. 12.48 lakhs.

The licence fee for a domestic television set is Rs. 30 per annum. This covers sound-cum-vision sets. The commercial licence fee is Rs. 120 per annum, and for a school set Rs. 10 per annum. These licences were issued only in the Delhi Postal Circle.

AIR stations transmit for about five to ten hours a day.

Four regional stations, Bombay, Calcutta, Delhi and Madras have a non-stop broadcasting service from 6 a.m. to midnight; the service begins with *Vande Mataram* and ends with *Jana gana mana*. Additional news bulletins in English and Hindi, with local announcements are introduced in between.

This is generally split up into three transmissions, morning, afternoon and evening. There is an additional transmission for schools.

There is a Staff Training School in Delhi, where on an average 180 persons from the staff of All-India Radio, programmes and administrative sides, are trained every year. From 1958, the training facility has been extended to the engineering and technical staff with the opening of a similar training school for them.

**Programme Publicity:** All India Radio has only 8 journals (in 8 languages) for its regular internal publicity programmes. *Akashvani*, the English journal is a weekly, while the rest are fortnightly in Assamese, Bengali, Gujarati, Hindi, Tamil, Telugu and Urdu.

*Akashvani* (English), *Awaz* (Urdu), *Sarang* (Hindi), *Betar Jagat* (Bengali), *Vani* (Telugu), *Vanoli* (Tamil), *Nabhovani* (Gujarati) and *Radio Goa* (English) are for home services.

For the External Services, *India Calling*, with two versions, the Eastern and the Western, is supplemented by Arabic, Burmese, Chinese and Persian editions.

**Listener Research.**—The primary purpose of Listener Research is to determine the listening habits and programme preferences of radio listeners by ascertaining from time to time their reactions to items broadcast.

### PROGRAMMES

**Women's Programmes.**—Programmes for women in English (from important regional centres) and in Indian languages from all stations are broadcast at least twice a week. In the rural programmes too, there is a day devoted to rural women folk. Live messages from defence personnel in forward areas are broadcast in women's programme for wider circulation. Talks, dialogues, stories and songs form the composition of the programme and the topics generally are of feminine interest: child care, family planning, health hints. Group listenings are encouraged. By the end of 1964, there were about 1,500 Women's Listening Groups in India.

**Children's Programmes.**—Wherever possible the children are divided into two or three age groups. The programme is conducted or compered by an elderly character known to the children. Another elderly person usually a woman is used to assist the comper.

**School Broadcasts.**—The school broadcasts are meant to supplement the regular curriculum of the school.

**Rural Broadcasts.**—While the provision of programme is the Central responsibility, the supply of listening sets to the rural population is the responsibility of State Governments.

Supplementary or spare time occupations are suggested, and information is given on items like improved seed, new implements, sowing, crop and cattle pests and their remedies, and market rates of current agricultural produce.

Weather bulletins during the monsoon are a regular feature of the composite programme.

### BROADCAST RECEIVER LICENCES AS ON DECEMBER 31, 1964 (by Postal Circles)

| Postal Circle | Domestic Receiver Sets | Community | School  |
|---------------|------------------------|-----------|---------|
| Andhra ..     | 2,43,132               | 8,404     | 2,335   |
| Assam ..      | 56,925                 | 1,819     | 331     |
| Bihar ..      | 1,63,699               | 791       | 4,044   |
| Bombay ..     | 5,93,749               | 10,662    | 1,437   |
| Central ..    | 2,70,086               | 3,668     | 1,316   |
| Delhi ..      | 2,46,545               | 29        | 143     |
| Gujarat ..    | 3,28,761               | 3,234     | 1,730   |
| Kerala ..     | 1,03,854               | 2,693     | 1,153   |
| Madras ..     | 4,21,193               | 13,436    | 2,630   |
| Mysore ..     | 2,28,180               | 4,689     | 846     |
| Orissa ..     | 50,588                 | 2,631     | 1,323   |
| Punjab ..     | 3,21,476               | 5,595     | 2,182   |
| Rajasthan ..  | 1,27,834               | 2,727     | 1,904   |
| U.P. ..       | 3,58,491               | 11,982    | 3,688   |
| W. Bengal ..  | 5,73,193               | 1,868     | 1,753   |
| Total ..      | 40,87,506*             | 74,023*   | 26,820* |

The number of radio licences of all types at the end of 1964 was 43,15,242 as against 37,36,688 at the end of 1963. It is estimated that by the end of 1965, the licences would have crossed the 5-million mark. The total number of TV receivers in Delhi was a little over 700.

The total number of radio sets supplied to the various States and Union Territories numbered 82,442 at the end of 1963 and 3,427 more radio sets were expected to be supplied by the end of 1963-64. Including the radio receivers supplied under the other subsidy schemes, there are now nearly 1,60,000 community listening centres all over the country.

The Union Government distributed nearly 9,400 community listening sets for the different States and the Union Territories.

**Wire Broadcasting:** Started in May 1958, to enable low-income groups in Delhi to listen to the A.I.R. broadcasts, the Wire Broadcasting Service covers the Lodi Colony, Kasturba Nagar, Aliganj, Karbala and Thyagaraja Nagar localities of Delhi. The total programme coverage is about 290 hours per month in three daily transmissions. There are at present 1,426 subscribers.

### TRIBAL LANGUAGES & DIALECTS

All India Radio now broadcasts programmes regularly in 82 tribal languages, from Gauhati, Shillong, Kurseong, Kohima, Imphal, Simla, Cuttack, Calcutta, Indore, Ranchi, Hyderabad and Vijayawada. For rural programmes, 11 languages and 48 dialects are used. For news services, 20 Indian and foreign languages are used.

**National Programmes.**—The Saturday National Programmes of music lasting 90 minutes have been quite popular. It is generally so planned that Northern and Southern (Karnatic) music alternate every Saturday. Arrangements are being made to have this item originate at other places. At present most of the Saturday concerts originate from Delhi and all stations relay them.

**Talks.**—Important topics of a national character are dealt with by an accepted authority in a nation-wide broadcast on Sundays and Wednesdays at 8-30 p.m. Since its inception in 1953, this programme has featured 527 talks and discussions.

**Plays, Operas.**—On alternate Thursdays, a national programme of plays or operas is arranged in such a way that all stations have the same item, in their respective languages, prepared from one single script.

**Development Projects, Factories.**—In order to make the country plan-minded, a feature on some of the bigger national projects is arranged once a month, and it is put out on the air simultaneously from all the stations.

**Prasar Geet & Sugam Sangit.**—In order to provide all stations with standardised light and popular music, All-India Radio organised its own units in different regions for the production of songs.

**Transcription Service.**—During 1963-64, 7,844 recordings were supplied comprising 5,099 items of music including about 800 patriotic songs in all languages, 1,176 talks and 1,569 plays and features.

**Vividh Bharati.**—This all-entertainment programme, broadcast on short-wave 100 kW transmitters, from Madras and Bombay simultaneously, was introduced in October 1957. The programme is also broadcast on medium wave from 21 centres on special transmitters provided:—Bangalore, Bombay, Calcutta, Cuttack, Delhi, Hyderabad, Indore, Jaipur, Kanpur, Lucknow, Madras, Nagpur, Patna, Rajkot, Trichy, Vijayawada, Bhopal, Dharwar, Poona, Srinagar and Chandigarh.

\*These figures are inflated to the extent of renewals for 1965 which were possible since the beginning of Nov. 1964.

The duration of this recorded variety programme, mostly of music extends to 11½ hours on week days and 12½ hours on Sundays and principal festival days.

Some of the news bulletins and commentaries in Hindi are being included in the Vividh Bharati; but that is perhaps a temporary arrangement to meet the emergency. At the close of 1965, there were 26 medium-wave centres carrying the Vividh Bharati service.

**Urdu Majlis:**—Half an hour's programme daily has been introduced for Urdu speaking audiences. The item originates in Delhi and is relayed by stations interested in it. Allahabad, Lucknow, Jammu/Srinagar, Jullundur, Hyderabad and Patna are other stations which have a regular Urdu programme in their schedules.

**Competitions.**—In its ceaseless effort to find new talent, All-India Radio holds many competitions every year. They are for music, light and classical, vocal and instrumental, northern and southern (Karnatak) styles.

**Radio Sangeet Sammelan** has indeed become a regular annual feature of All-India Radio. It consists of a series of concerts before invited audiences arranged in Delhi, Bombay and Madras, and the programme is relayed by all stations.

A side-light of the Sammelan is the music competition meant to discover latent talent among younger artistes. Musicians vocal and instrumental between the ages 16 and 21 are invited to participate. The preliminary screening takes place at the respective stations within whose jurisdiction they come, and the final tests are held for Northern music at Delhi and for Karnatic music at Madras.

**Programme Libraries.**—At the headquarters of All-India Radio, New Delhi three important libraries have been built: (i) Recordings on tape and disc; (ii) Scripts of important programmes from all stations; and (iii) Tape recordings of entertainment programme items contributed by all stations of AIR.

### NEWS SERVICES DIVISION

During 1964-65 the News Services Division broadcast a total of 132 bulletins in 29 Indian and foreign languages round the clock.

Two special news bulletins in English and other languages were added, one in the early morning and the other late at night before closing down. Besides the actual news, there were many topical talks and comments that were put out regularly to boost up the morale of the public. Two overseas correspondents will soon be appointed for covering news from (i) Africa and East Asia and (ii) West Asia. More news bulletins are to be introduced.

In addition to the bulletins originating from Delhi, regional news are now broadcast in 16 languages from all State capitals, Kohima being the latest addition.

**Patriotic Songs:** In addition to the existing stock of national songs, All India Radio broadcast over one thousand new patriotic songs, composed by well-known poets in all the languages of the country and rendered by popular artistes.

**Dictionaries of Music & Folk-music:** Technical and descriptive terms of both the Karnatak and North Indian music will be explained in a compilation undertaken by All India Radio.

**Radio News Reels:** Twice a week, radio news reels of 10 mts. duration, prepared by the News Service Division are broadcast from Delhi for an all-India consumption, and once a week in Hindi. On special occasions, such as receptions to visiting dignitaries, or of our leaders visiting other countries, extra "editions" of the radio news reels are broadcast. English, Hindi and other languages are used for these "newspapers of the air."

**Regional News.**—All capitals of States, now devote ten minutes a day for covering regional news in languages other than English. The timings however are late in the afternoon.

A few minutes are set apart at each station for local announcements. This period accommodates news of purely local interest.

**External Services:**—For 22 hours and 30 minutes every day, the External Services of All India Radio broadcast programmes in 17 different languages for many parts of the world. The languages used are: Arabic, Burmese, Cantonese, English, French, Indonesian, Kuoyu, Nepali, Persian, Portuguese, Pushtu, Swahili and Tibetan. Among the Indian languages are: Hindi, Tamil, Gujarati and Konkani. Broadcasts in Sinhalese, Malay and Thai will be introduced shortly.

These broadcasts serve two purposes: they help Indians staying in different parts of the world to keep in touch with India; and to others, they help appreciate our art, culture, thought and general way of living. On the political front, the Indian viewpoint is best represented without any room for mis-interpretation.

Five more high power transmitters for external services were to be set up during the 3rd Plan.

### AIR STATIONS

Medium-Wave Stations as on May 8, 1966.

Medium wave length remains unchanged throughout the year; its coverage after sun-set gets considerably extended.

### HAMS—AMATEUR BROADCASTERS

For a wider penetration of broadcasting technique, HAMS or amateur broadcasters, with a small transmitter, are useful to pave the road for and help build an unofficial second line of technical experts. By 1962, there were just 300 Hams in India. About 100 were added to the number during 1963 and there are only 400 Hams. Even with this small number, the Hams are well organised.

### BROADCAST LICENCES & PRODUCTION OF RECEIVING SETS

Broadcast receiver licences are issued at all head and sub-post offices at a fee of fifteen rupees per year, and cover the use of receiving sets throughout India.

Broadcast Receiver Licences are issued to Municipalities or other public bodies for the reproduction of broadcast programmes in public places by the Postmaster-General of the State.

A licence issued for this purpose covers the use of one wireless receiver only.

A separate Broadcast Receiver Licence is, however, necessary in the case of clubs, institutions, messes, etc., for reproducing broadcast programmes at dances, concerts, bazaars, etc., to which the public are admitted.

Licence Books of the size of Post Office Savings Account Bank pass-books are now issued at concessional rates for three years or more. Separate books are given for each receiving set. Specially issued stamps of the value of the fee, are affixed on the book and cancelled by the licence issuing authority.

### INDIAN INSTITUTE OF MASS COMMUNICATION

Indian Institute of Mass Communication, (Ministry of Information and Broadcasting) August 17, 1965, is the first institution of its kind in India. It is registered as an autonomous body and it will ultimately form part of the Nehru University, Delhi. With a wider scope than that of schools of journalism, the institution offers practical training to information personnel in the use of different media of mass communication.

The training programme is limited to members of the Central Information Service and information personnel of States. Some places, in each training course, will be offered to candidates under the Colombo Plan and the Special Commonwealth Assistance Programme.

The first pilot course, (August 1965—February 1966) is followed by basic course of 15 month duration (March 1966) with 56 trainees.

The establishment of the Institute is in consonance with the recommendation of the team of

\* These are Vividh Bharati Relaying stations. † Transmission on short wave (also); the Changing wavelengths according to part of the day and season may be ascertained from Programme journals.

experts, sponsored by the Ford Foundation, (in India in 1963), led by Dr. Wilbur Schramm. It had suggested that an Institute for advanced study in mass communication be established in India with responsibilities for consultation, training, research and development.

The Government of India has received assistance in setting up the Institute from UNESCO and the Asia Foundation.

Director : L. R. Nair.

## LICENCES & PRODUCTION OF SETS 1955-64

Domestic receiver licences as on 31st December and Total Yearly production of receiving sets (organised sector only)\* Units.

1955 : 9,47,353 ; 2,01,204 ; 1956 : 10,75,909 ; 1,50,600 ; 1957 : 12,30,814 ; 1,90,692 ; 1958 : 14,27,421 ; 1,98,108 ; 1959 : 17,18,182 ; 2,13,864 ; 1960 : 19,79,820 ; 2,68,320 ; 1961 : 24,20,681 ; 3,26,340 ; 1962 : 28,69,739 ; 3,43,284 ; 1963 :

35,35,942 ; 4,19,460 ; 1964 : 42,13,934 (provisional).

\* This sector consists of 20 registered factories.

## FOURTH PLAN

The Ministry of Information and Broadcasting has drawn up a Rs. 39-crore scheme for the expansion of broadcasting during the Fourth Plan. This includes the setting up of 26 new stations and 21 Plan and 17 farm broadcasting cells.

# HOUSING

WORKING on the basis of the data collected in the 1961 Census and further population projections and taking into account possible new constructions and depreciation of existing houses, it has been estimated that the total shortage of urban housing in the country, by the beginning of the Fourth Plan (April 1966) was of the order of 1.14 crore dwelling units. In addition, nearly 6.27 crore houses in the rural areas are either kacha or substandard and require to be rebuilt.

The Third Plan roughly envisaged an investment of about Rs. 1,550 crores in housing—Rs. 1,125 crores in the private sector and Rs. 425 crores in the public sector. The latter figure includes Government funds to the extent of Rs. 122 crores and loan funds provided by the L. I. C. to the extent of Rs. 60 crores earmarked for the various social housing schemes administered by the Union Ministry of Works, Housing and Urban Development. The remaining investment of Rs. 303 crores in the public sector was intended for such additional housing programmes, as housing provided by the Central and State Governments, public undertakings and local bodies, for their own employees, for the labour employed in coal and mica mines, and those for the backward classes, etc. In the case of social housing schemes administered by the Housing Ministry for which alone figures are available the provisional figure of actual spending is expected to be Rs. 147.75 crores (Governmental investment being Rs. 87.75 crores as against the Plan figure of Rs. 122 crores). The outlay for housing in the Fourth Plan is likely to be of the order of Rs. 2,250 crores. This figure assumes a private investment on housing of Rs. 1,450 crores, Governmental and institutional finance of Rs. 357 crores for the social housing schemes and about Rs. 443 crores for the housing programmes for the employees of Government and semi-Government institutions at the Centre and the States. About 57 lakh houses are expected to be built during the Plan period.

The details of progress, under individual Housing Schemes administered by the Ministry of Works, Housing and Urban Development are indicated below.

## SUBSIDISED INDUSTRIAL HOUSING SCHEME

The Subsidised Industrial Housing Scheme contemplates grant of financial assistance by the Government of India to the State Governments and through them to other approved agencies, such as Statutory Housing Boards, Local Bodies, Industrial Employers and registered Co-operative Societies of industrial workers, for construction of houses for industrial workers, covered by Section 2(1) of the Factories Act, 1948, and mine workers (other than those engaged in coal and mica mines) falling within the meaning of Section 2(h) of the Mines Act, 1952. The benefits of financial assistance under the Scheme are available to workers, whose income does not exceed Rs. 350 per mensem. The Scheme is administered through the respective State Governments, within whose territorial jurisdiction the construction is contemplated.

Under the Scheme, the Government of India provides the entire cost of houses to be constructed for industrial workers by the State Governments, Statutory Housing Boards and Municipal Bodies (50 per cent as outright subsidy and the remaining 50 per cent by way of loan) subject to the maximum of the prescribed ceiling costs for various types of houses. Assistance is also given to employers and co-operatives of industrial workers in the form of 25 per cent subsidy and loans up to 50 per cent (employers) or 65 per cent (co-operatives) of the estimated cost of houses restricted to the prescribed ceiling.

The following four types of accommodation can be provided under the Scheme, depending upon various factors, such as the rent-paying capacity of the workers, the cost and availability of land and local considerations etc. :— (a) Open developed plots; (b) Skeletal houses; (c) Pucca houses; (d) Hostel and dormitory buildings.

The ceiling costs and rents prescribed under the scheme for various types of dwelling units are as follows : (1) For places outside Bombay and Calcutta and their industrial areas : Rs. 1,600 to Rs. 7,000 ; Rs. 5.50 to Rs. 26.50. (2) For places in Bombay and Calcutta and their industrial areas : Rs. 2,400 to Rs. 9,200 ; Rs. 9.50 to Rs. 41.00.

The ceiling costs and the rents indicated above can, however, be increased, in view of certain specified special considerations.

Since the introduction of the Scheme in Sept. 1952, upto the end of March 1966, a total sum of Rs. 65.10 crores has been sanctioned for the construction of 1,81,673 houses, out of which 1,54,933 houses (1,22,464 in the States' sector, 27,788 in the employers' sector and 4,681 in the co-operative sector) had been completed till then. A sum of Rs. 56.80 crores has been released to the different construction agencies.

The State-wise break-up of houses sanctioned and built is given in the table below :

| State                 | Houses sanctioned | Houses built    |
|-----------------------|-------------------|-----------------|
| Andhra Pradesh ..     | 5,213             | 4,943           |
| Assam .. ..           | 417               | 303             |
| Bihar .. ..           | 14,551            | 14,052          |
| Gujarat .. ..         | 25,909            | 20,254          |

| Madras .. ..          | 6,679             | 5,674           |
| Maharashtra .. ..     | 38,737            | 51,086          |
| Mysore .. ..          | 10,977            | 10,665          |
| Orissa .. ..          | 3,483             | 2,922           |
| Punjab .. ..          | 6,014             | 4,976           |
| Rajasthan .. ..       | 4,414             | 3,723           |
| Uttar Pradesh .. ..   | 32,632            | 28,632          |
| West Bengal .. ..     | 16,621            | 13,230          |
| <b>Total .. ..</b>    | <b>1,78,406</b>   | <b>1,51,766</b> |
| Delhi .. ..           | 3,267             | 3,167           |
| <b>Grand Total ..</b> | <b>1,81,673</b>   | <b>1,54,933</b> |

State Governments can utilise funds upto 10 per cent of their total allocation under the scheme as loans for the construction of schools, dispensaries, welfare centres, shops, etc. in industrial housing colonies in order to provide basic amenities in these colonies.

## PLANTATION LABOUR HOUSING SCHEME

Since the beginning of the Scheme in April 1956, the States have so far sanctioned projects for the construction of 1,825 houses at a cost of Rs. 40.64 lakhs out of which 1,000 houses have been completed. On the recommendation of a working group on Plantation Labour Housing set up by the Union Ministry of Labour and Employment, the Scheme has now been amended to provide for 25 per cent subsidy on the cost of each house to the planters. The State Governments have also been asked to constitute a Pool Guarantee Fund to indemnify themselves against bad debts that might arise as a result of relaxation of security provisions. The Fund is to be raised by charging an additional interest of  $\frac{1}{4}$  per cent per annum. The losses, if any, in excess of the assets of the Fund would be shared equally by the Government of India, the State Government and the Commodity Board concerned.

## LOW INCOME GROUP HOUSING SCHEME

This Scheme envisages the grant of long-term loans for construction of new houses for persons having an annual income not exceeding Rs. 6,000. The eligibility of persons and institutions for loan under the above scheme were defined in the previous editions of the Directory.

The State Governments have been authorised to utilise amounts not exceeding one-third of the allocations under the Scheme for the construction of houses for the economically weaker sections of the community. The Central Government will give a capital subsidy of 25 per cent of the cost of the houses. These houses will be given on rent to persons with an annual income not exceeding Rs. 3,000 in Bombay, Calcutta and Delhi, Rs. 2,400 in other capital towns of States and Rs. 2,100 elsewhere.

Since the introduction of the Scheme a sum of Rs. 75.95 crores had been advanced as loan to the various States (including Rs. 5.81 crores advanced to third parties in the Union Territories upto March 31, 1966. Another sum of about Rs. 3.58 crores has been provided in the budget for 1966-67 for State Governments and Union Territories. Out of a total of 1,39,894 houses sanctioned upto the end of March 1966, construction work was completed on about 1,00,340 houses.

## SLUM CLEARANCE/IMPROVEMENT SCHEME

Since the inception of the Scheme in May, 1956, upto March 31, 1966, Central assistance totalling Rs. 26.05 crores was given to all the State Governments and in the Union Territories of Delhi and Tripura. In physical terms, so far construction of 94,900 dwelling units costing Rs. 34.84 crores has been sanctioned out of which 52,984 units have been completed. The budget provision for the Scheme during 1966-67 is Rs. 4.38 crores.

**JHUGGI & JHOPRI REMOVAL SCHEME**

The Scheme aims at providing alternative accommodation on rental basis to unauthorised matters on Government and public lands in Delhi, numbering about 50,000 families, whose occupation dates from before July 31, 1960. On 31st March 1966, projects have been formulated for the laying of 42,287 plots (28,619 of 25 sq. yds. and 13,668 of 80 sq. yds.) and construction of 5,000 tenements. Out of these, 2,891 plots (19,088 of 25 sq. yds. and 3,803 of 80 sq. yds.) have already been laid. The work of construction of 3,875 tenements are at various stages of construction. Approximately 9,000 families have so far been allotted plots of land.

**VILLAGE HOUSING PROJECTS SCHEME**

The Village Housing Projects Scheme introduced in Oct. 1957, envisages the establishment of housing projects in about 5,000 selected villages all over the country. Financial assistance is given in the form of loans not exceeding Rs. 3,000 or 50 per cent of the cost of construction of the house, whichever is less. Loan assistance is also granted to villagers for improving their existing houses. The Scheme is based on the principle of aided self help, and necessary technical guidance to the beneficiaries is given by the Rural Housing Cells set up in the States.

According to the reports received so far (Dec. 1965), all the 5,000 villages allotted to States and Union Territories for development had been selected, survey had been conducted in about 3,500 villages and layout plans drawn up for 3,000 villages. About 57,923 houses have been sanctioned for construction, out of which about 28,362 houses have been completed.

**L.I.C. FUNDS FOR HOUSING**

From the financial year 1958-59, for the first time, L.I.C. funds were harnessed in a systematic manner for financing the Middle Income Group Housing Scheme and the Rental Housing Scheme for State Government Employees. From 1962-63, L.I.C. funds are also being availed of by States for Land Acquisition and Development Scheme, and for meeting expenditure over and above their Plan provision, on three other schemes, namely Low Income Group Housing Scheme, Plantation Labour Housing Scheme and Village Housing Projects Scheme.

During the period from 1958-59 to 1965-66, L.I.C. funds to the extent of Rs. 77.14 crores have been made available to State Governments through the Union Ministry of Works Housing and Urban Development. The allocation from L.I.C. fund for the year 1966-67 is Rs. 10 crores.

The fund will be distributed to the States as indicated below: Andhra Rs. 60 lakhs, Assam Rs. 20 lakhs, Bihar Rs. 60 lakhs, Gujarat

Rs. 60 lakhs, Jammu and Kashmir Rs. 10 lakhs, Kerala Rs. 50 lakhs, Madhya Pradesh Rs. 60 lakhs, Madras Rs. 100 lakhs, Maharashtra Rs. 150 lakhs, Mysore Rs. 100 lakhs, Orissa Rs. 60 lakhs, the Punjab Rs. 60 lakhs, Rajasthan Rs. 60 lakhs, U. P. Rs. 50 lakhs and West Bengal Rs. 100 lakhs.

**MIDDLE INCOME GROUP HOUSING SCHEME**

Under the Middle Income Group Housing Scheme, introduced in February, 1959, the Life Insurance Corporation advances loans to the State Governments to the extent authorized by the Central Government. The State Governments in turn, advance loans to individuals, within the income range of Rs. 6,001-15,000 per annum, or their co-operatives, for the construction of houses for their bonafide residential purposes.

The amount of loan is restricted to 80 per cent of the cost of the house subject to a maximum of Rs. 20,000. The Scheme also permits an advance out of the house building loan for completing the purchase of a developed plot of land if 50 per cent of the cost of the plot, which amount should not be less than 25 per cent of the approved loan, has already been paid from the individual's resources.

The floor area of house constructed under this scheme should not be less than 400 sq. ft. and the cost (exclusive of land) should not exceed Rs. 30,000. One-half of the allocation under the Scheme can be utilised by the State Government for construction of houses for allotment on rent. The total funds released during the Third Plan amount to Rs. 20.31 crores. According to the reports received so far (Dec. 1965), the various State Governments had sanctioned about 19,352 houses for construction, out of which 12,465 had been completed.

**RENTAL HOUSING SCHEME**

The scheme came into force in February, 1959. It envisages the grant of loan assistance to State Governments for the construction of houses for allotment to their employees on a rental basis.

The scheme is in operation in all the States except Jammu & Kashmir, Nagaland and Uttar Pradesh. The total amount of funds made available to State Governments for the Scheme during the Third Plan is Rs. 8.29 crores. According to the reports received so far (Dec. 1965), the State Governments have sanctioned projects for construction of 19,246 houses, out of which 11,419 had been completed.

**HOUSE BUILDING ADVANCES TO CENTRAL GOVERNMENT EMPLOYEES**

House building advances are made to Central Government employees for the construction of

houses, enlargement of existing accommodation and for the purchase of ready-built houses from Government, semi-Government or autonomous institutions like the improvement trusts. The maximum amount of advance admissible is 36 months' pay of the Government employee subject to a maximum of Rs. 25,000 in the case of construction or purchase of ready-built houses, and a maximum of Rs. 10,000 in the case of extension of existing accommodation. Low-paid employees can, however, be granted advance up to Rs. 4,800 irrespective of their pay.

From April 1958, when the Scheme was revived, applications for advances involving the grant of loan to the extent of Rs. 5.92 crores have been approved up to March 31, 1966.

**LAND ACQUISITION AND DEVELOPMENT SCHEME**

High land prices and general scarcity of developed plots have been responsible, in a large measure, for the slow progress in housing and slum clearance. A Land Acquisition and Development Scheme was introduced in October, 1959, to assist the State Governments to arrange bulk acquisition and development of land in large and growing towns and to make available to public, developed plots at reasonable rates. The Scheme would also help in the stabilisation of land prices, rationalisation of urban development and promotion of self-sufficient composite colonies, giving due consideration to factors like provision of essential services, shopping centres, schools, and transport and other community facilities.

During the Third Plan a total amount of Rs. 23.17 crores was allocated to the various State Governments under the above scheme. Of this, the actual withdrawal was Rs. 22.86 crores. From 1959 the State Governments are reported to have sanctioned projects for acquiring and developing 23,736 acres at a cost of Rs. 47.01 crores, out of which 12,794 acres have been actually acquired and about 7,960 acres developed.

**HOUSES FOR POLICEMEN**

The scheme was introduced in 1956 to help the States in providing better housing facilities to their police personnel.

The police housing loans advanced to State Governments are repayable in 20 equal instalments, and the interest charged is 5½ per cent per annum.

The Centre has advanced so far nearly Rs. 27.29 crores to the States for building houses for the policemen.

In 1966-67 budget also, Rs. 3 crores had been set apart for this purpose.

**PUBLIC HEALTH**

**MATTERS** connected with health fall largely in the State field.

The Centre is, however, directly responsible even for State subjects in the Union Territories of Delhi, Andaman and Nicobar Islands and Minicoy and Amindivi Islands.

The Central Health Service Rules, 1963 came into force with effect from 15th May 1963. The Service will cover all medical and public health posts under the Central Government and the Union Territories other than those under the Ministries of Railways and Defence.

**CENSUS**

Hospitals and Dispensaries 14,000 (March 1966); Beds 240,100 (1966); Primary Health Centres 3,352 (March 1963); Medical Colleges 86

(1966); Annual admission 10,620; Dental Colleges 13; Annual admission 500; Doctors 86,000 (March 1966); Vaidas 150,000 (1961); Compounders 20,801 (1961); Vaccinators, 5,872 (1961); Dentists 3,802 (1961); Nurses 45,293 (March 1964); Auxiliary Nurses/Midwives 28,000 (March 1966); Health visitors 4,350 (March 1964); Nurse dais/Dais 15,200 (Sept. 1962); Sanitary Inspectors 11,000 (March 1962); Pharmacists 65,000 (1962); Malaria Units 391 (March 1963); Filariasis units 47 (March 1962); T.B. clinics 263 (March 1963); T.B. Training Centres 13 (March 1963); T.B. Beds 27,800 (March 1963); B.C.G. Teams 174 (March 1963); T.B. tested by the teams 34 million (March 1963); B.C.G. vaccinated 13 million (March 1963); Leprosy Centres 137 (March 1963); V.D. Headquarters Clinics 5 (March 1963); V.D. District Clinics 91 (March 1963).

**VITAL STATISTICS**

The registered All-India birth rates, death rates and infant mortality rates are given below:

|         | Birth rate. | Death rate. | Infant Mortality rate. |
|---------|-------------|-------------|------------------------|
| 1960 .. | 22.8        | 10.0        | 87                     |
| 1961 .. | 23.1        | 10.1        | 83                     |
| 1962 .. | 22.9        | 9.7         | 81                     |
| 1963 .. | 22.6        | 9.0         | 78                     |

The infant and maternal death rates in some of the Indian cities are given below :

| Name of the City | Infant mortality rate per thousand live births. |      | Maternal mortality rate per 1,000 live and still berths. |      |
|------------------|-------------------------------------------------|------|----------------------------------------------------------|------|

## NATIONAL INSTITUTE OF COMMUNICABLE DISEASES

The National Institute of Communicable Diseases was inaugurated on July 30, 1963.

The objectives and functions of the new Institute are to advise State Governments on all matters pertaining to communicable diseases and initiate investigations in these diseases. It will also assist State organisations in carrying out investigations taken up by them.

The Institute will undertake research into all basic facts underlying the prevalence and spread of communicable diseases and their prevention and study of aetiological agents, vectors, mechanism of infection, including endemic and epidemic phenomena, and any zoonotic reservoirs. Another aspect of the Institute's work will involve clinical investigations in communicable diseases, including treatment and study of early diagnostic technique, relapse problems and effects of new drugs. The Institute will publish the results of its findings and bring out guides and bulletins for the use of the medical profession.

Arrangements will be made at the Institute for training research workers and teaching and training personnel in epidemiology, medical zoology and control of communicable diseases. One course of training in epidemiology (duration five months) attended by 14 medical officers was conducted in 1964. Another course (duration 3 months) commenced at the Institute with 22 candidates in April 1965.

The Institute has been recognised by ten universities for the purpose of post-graduate research degrees of Ph.D. & D.Sc. (PH).

The Institute has been entrusted with the work of evaluating the National Smallpox Eradication Programmes in the country.

**Veneral Diseases & Other Allied Treponemal Diseases:** Among communicable diseases, veneral diseases will easily rank the third major problem, next only to malaria and tuberculosis. Their prevalence is relatively higher in the larger cities, ports, industrial areas and in some of the sub-Himalayan tracts. The common veneral diseases prevalent and of public health importance are six, namely, Syphilis, Gonorrhoea, Chancroid, Granuloma, Inguinale, and Lymphogranuloma Venerum. With the increasing shift of population from rural to urban areas as a result of rapid industrialisation of the country, veneral diseases are likely to assume even greater importance in the future.

The first major step taken towards control of these diseases was the establishment of a W.H.O. V.D. Demonstration Team in Himachal Pradesh in 1949.

With the ultimate object of having a V.D. Clinic at the headquarters of each State, at the headquarters of every district and at important cities and industrial townships, a beginning was made by the inclusion of a scheme for control of Veneral Diseases in the Second Five Year Plan for the establishment of 8 State Headquarter Clinics and 75 district headquarter clinics. V.D. Training facilities were also made available at the Institute of Venereology, Madras, and at the V.D. Training & Demonstration Centre, New Delhi.

During the Third Plan upto the end of March, 1965, two State Headquarter Clinics and 30 district clinics had been established. Further requests for establishment of 8 more V.D. Clinics during 1965-66 had also been received.

Social voluntary agencies such as the Association for Moral and Social Hygiene in India and the Delhi Maternity Hospital were given financial assistance to establish V.D. Clinics as a result of which 4 and 1 V.D. Clinics respectively were established by them.

According to reports received the number of patients treated in these clinics during the year 1964 was 4,30,916.

**Yaws:** Yaws is prevalent in some areas of Andhra Pradesh, Maharashtra, Madhya Pradesh and Orissa. While the work in Andhra Pradesh

has been completed, it is expected that these teams would cover the entire area in Madhya Pradesh and Orissa shortly.

**Cancer:** The number of persons who die of cancer annually is believed to be in the neighbourhood of 2 lakhs.

The Cancer Committee appointed by the Ministry of Health, Govt. of India on June 3, 1965, under the chairmanship of the Director-General of Health Services, made certain recommendations for setting up regional cancer hospitals at Ahmedabad, Bombay, Calcutta and Madras. The recommendations are under the consideration of the Govt. of India.

There are 40 general hospitals in the country where facilities for cancer treatment are available in the form of surgical, radium or cobalt 60 units.

The location of Cobalt-Therapy Centres are as follows: Three in the Punjab (Amritsar, Gurdaspur, Patiala), four in U.P. (Agra, Lucknow, Allahabad), four in Madras (Madras and Madurai), three in Maharashtra (Bombay, Nagpur), three in Gujarat (Ahmedabad, Bhavnagar, Jamnagar), four in Mysore (Bangalore, Mysore, Mangalore), three in Kerala (Trivandrum, Ernakulam and Kozhikode), two in Assam (Dibrugarh and Shillong), four in Rajasthan (Jaipur, Bikaner, Jodhpur, Ajmer), one in Orissa (Cuttack), one in Bihar (Patna), four in West Bengal (all in Calcutta), two in Delhi and two in Andhra Pradesh (Visakhapatnam, Hyderabad).

Research is conducted at the Cancer Research Centre, Bombay, Tata Memorial Hospital, Bombay, Chittaranjan Cancer Institute, Calcutta and the Cancer Institute, Madras.

### Cobalt '60' Unit

The Govt. of Canada have donated through the Colombo Plan Capital Aid Programme 10 Cobalt '60' Therapy Units. The following are the names of the recipient institutions: Tata Memorial Hospital, Bombay (two units); Chittaranjan Cancer Hospital, Calcutta; Christian Medical College and Hospital, Vellore; Christian Medical College and Hospital, Ludhiana; Cancer Institute, Madras (two units); Medical College, Trivandrum; Medical College, Patna; Radium Institute and Cancer Hospital, Hyderabad; S.C.B. Medical College and Hospital, Cuttack; J.K. Institute of Radiology and Cancer Research, Kanpur; Medical College Hospital, Calcutta; Sawai Man Singh Hospital, Jaipur; All India Institute of Medical Science, New Delhi; P.B.S. Medical Hospital, Bikaner; Medical College, Bangalore; Institute of Post-graduate Medical Education and Research, Chandigarh; Medical College, Pondicherry.

### Medical Radiology

The following medical institutions impart training in medical radiology.

Institute of Medical Sciences, Osmania Medical College, Hyderabad; Darbhanga Medical College, Laherisara; Medical College, Baroda; B.J. Medical College, Ahmedabad; Medical College, Trivandrum; G.R. Medical College, Gwalior; Barnard Institute of Radiology, Madras; Christian Medical College, Vellore; Madras Medical College, Madras; Madurai Medical College, Madurai; Stanley Medical College, Madras; Grant Medical College, Bombay; Topiwala National Medical College, Bombay; Armed Forces Medical College, Poona; S.C.B. Medical College, Cuttack; Institute of Post-graduate Medical Education and Research, Chandigarh; S.M.S. Medical College, Jaipur; King George Medical College, Lucknow; Sarojini Naidu Medical College, Agra; Ganesh Shankar Vidyarthi Memorial Medical College, Kanpur; Maulana Azad Medical College, New Delhi; Lady Harding Medical College, New Delhi; All India Institute of Medical Sciences, New Delhi; Safdarjang Hospital, New Delhi.

### PUBLIC HEALTH AGENCIES

A Central Council of Health exists with the Union Health Minister as chairman and State Health Ministers as members.

**Executive Committee:** Chairman: Union Health Minister; Vice-Chairman: Union Dy. Health Minister; Members: Health Ministers for W. Bengal; Gujarat; Madras; Mysore; Assam; Punjab.

The body in charge of research is the Indian Council of Medical Research.

**Medical Store Depots:** There are six main medical depots — one each at Bombay, Calcutta, Hyderabad, Karnal, Madras and Gauhati. The depot at Gauhati started functioning in the month of September 1965. The depots at Bombay and Madras have pharmaceutical factories attached to them.

**List of Medical Research Institutes/Laboratories in India:** Indian Council of Medical Research, Medical Enclave, New Delhi; Indian Cancer Research Centre, Bombay; Central Research Institute, Kasauli (Himachal Pradesh); All India Institute of Hygiene and Public Health, Calcutta; School of Tropical Medicine, Calcutta; Malaria Institute of India (Central Institute for Communicable Diseases), Delhi; Central Drugs Laboratory, Government of India, 3, Kyd Street, Calcutta; Haffkine Institute, Bombay; Nutrition Research Laboratories, Tarnaka, Hyderabad-7 (Dn.); Pasteur Institute of Southern India, Coonoor; K. E. VII Memorial Pasteur Institute, Shillong; Government Vaccine Institute, Namkum (Ranchi); Regional Research Laboratory, Jammu, Tawi; B. C. G. Laboratory, Gulindy, Madras-15; Vaccine Institute, Public Health Institute, Mysore, Bangalore; Leprosy Research Centre, Madras; King Institute, Gulindy, Madras; Virus Research Centre (B. J. Medical College, Old Building), Poona; Vallabhbhai Patel Chest Institute, University of Delhi, Delhi; Pasteur Institute, School of Tropical Medicine, Calcutta-12; Cancer Institute, Madras; All India Institute of Mental Health, Bangalore; Central Drug Research Institute, Lucknow; Chittaranjan Cancer Research Centre, Calcutta; Radium Research and Cancer Hospital, Hyderabad (Andhra Pradesh); Institute of Post Graduate Medical Education and Research, Calcutta; Central Leprosy Teaching and Research Institute, Tirumani; National Chemical Laboratory, Poona; All India Institute of Medical Sciences, New Delhi; National Institute of Experimental Medicine and Biochemistry, Calcutta-13; Central Food Technological Research Institute, Mysore-2; Institute of Child Health, Calcutta; National Medical Institute, Calcutta; Institute of Ophthalmology, Aligarh; Pasteur Institute, Patna; Bose Institute, Calcutta; Institute of Venereology, Madras; Institute of Obstetrics and Gynaecology, Madras; Barnard Institute, Madras.

### CONTROL OF DISEASES

Steps are being taken to control a number of diseases that are rampant.

#### Malaria

The National Malaria Eradication Programme, which was launched in April, 1958, entered into the ninth year of its operation during 1966-67 with 393.25 units functioning all over the country, each unit covering a population of about 1.2 million. Out of 80.26 unit areas in the attack phase during 1965-66, about 35 unit areas are expected to be ready for withdrawal of spray operations and entry into consolidation phase during 1966-67, while out of 170.36 unit areas in consolidation phase about 57 unit areas are expected to enter the maintenance phase during 1966-67.

As to the over-all picture regarding the prevalence of the disease, it could be mentioned that there has been a reduction by about 99.5 per cent in the proportional rate of malaria as compared to the figures of 1953-54. The estimated expenditure on National Malaria Eradication Programme during IV Plan is Rs. 22.50 crores.

The WHO and U.S.A.I.D. are assisting the programme in India.

### Filaria

National Filaria Control Programme was launched as a large scale pilot project with the assistance of U.S.A.I.D. towards the end of 1955. A total provision of Rs. 236.61 lakhs has been made for the programme in the 3rd Plan under the States.

Under the Programme, 18 Survey Units and 47 Control Units were established.

Anti-larval measures are in operation. Wherever these measures have been adequately applied, the mosquito densities have been considerably reduced and consequently the transmission of the infection has been reduced.

A Committee was appointed in 1960 to evaluate the National Filaria Control Programme. Its recommendations still remain to be implemented due to paucity of funds.

A pilot project for the control of *B. Malayi* infection in Kerala is being established.

### Leprosy

It is estimated that there are about 2.5 million leprosy patients in India, the incidence in some places being as high as 40 per thousand. About 20 per cent of the estimated cases are in the infective type.

In India the problem of leprosy is massive in two States and is high in six States. The estimation of cases in these States has been done on the basis of available epidemiological data. In between Andhra Pradesh and Madras, it has been estimated that there are nearly half the total number of cases of leprosy in India.

The names of the States with population in millions and estimated number of cases in lakhs respectively are as follows:—

Madras 33.6-6.4; Andhra Pradesh 36.0-5.2; Bihar 46.5-2.8; Maharashtra 37.2-2.2; Mysore 17.2 (Population of endemic zones only)—1.4; Orissa 16.6-1.9; U.P. 29.2 (Population of endemic zones only)—1.4; West Bengal 35.0-2.4; Remaining States N.A.—1.3; Total of estimated no. of cases in lakhs 25.0.

Apart from clinical improvement, sulphone therapy brings about a gradual reduction in the number of leprosy bacilli in the near skin, and promotes healing of ulcers in nose and elsewhere. It also reduces in effective discharge from patients.

The Leprosy Control Programme of the Government of India continued to function satisfactorily during the Third Plan period. As on March 31, 1966, there were 179 leprosy control units functioning in the country.

At the end of the Third Plan 774 S.E.T. Centres (Survey Education and Treatment Centre) attached to Hospital, Primary Health Centre, dispensaries, etc. were functioning in the country.

During the III Plan period the Government of India decided to give cent per cent grant to suitable Voluntary Organisations for undertaking survey and domiciliary work in leprosy control. Sanction was accorded to 38 Institutions out of which 30 were working in March 1966.

Upto March, 1966 the consolidated work done by 179 Control Centres, 774 S.E.T. Centres and 30 Voluntary Agencies is as follows:—

Population covered 55.2 million; persons examined 27.0 million; cases detected 2,51,345; recorded cases 5,07,740 (inside project area 3,59,408 and outside project area 2,08,332); cases registered for treatment 5,21,946; healthy contacts registered 12,50,158; healthy contacts examined 2,27,099.

The Central Leprosy Teaching and Research Institute, Chingleput undertakes research in the various problems concerning leprosy and promotes field studies for the application of the results of the research to control the spread of leprosy. It also functions as a centre for offering technical advice and guidance for the promotion of anti-leprosy work on sound lines. This Institute makes available its services for the investigation of special problems in all parts of the country.

During the Third Plan, 10 Leprosy Training Centres have been established one each in Andhra Pradesh, Kerala, Madhya Pradesh, Madras, Maharashtra, Bihar, Orissa, Uttar Pradesh, West Bengal and Mysore for the training of Para-Medical workers. West Bengal is expected to start one shortly.

The physical targets for the Third Plan were to establish 50 Leprosy Control Units, 786 S.E.T. Centres and 10 Training Centres for Para-Medical workers and the achievements upto March 1966 were 45 Leprosy Control Units, 580 S.E.T. Centres and 10 training centres.

The WHO and the UNICEF are assisting the Government of India and the State Governments in the National Leprosy Control Programme in the shape of personnel, fellowships, transport, equipment, drugs, teaching aids and stipends for trainees.

Private bodies like the Mission to Lepers, an international society, Hind Kusht Nivaran Sangh (Indian Leprosy Association) and Gandhi Memorial Leprosy Foundation have been taking active part in controlling leprosy.

It is proposed to cover an additional 140 million population during the IV Plan. The entire endemic population of Madras and Andhra Pradesh and the population of high endemic zones of Bihar, Maharashtra, Mysore, Uttar Pradesh, Orissa and West Bengal will be covered. The estimated expenditure works out to be about Rs. 12 crores.

### Tuberculosis

The national tuberculosis survey conducted by the Indian Council of Medical Research, came to the following conclusions:—

1. The morbidity of T.B. varies from 13 to 25 per thousand persons in different areas;
2. The prevalence of T.B. in villages, small towns and cities is not so markedly different as originally expected;
3. The morbidity rates are lower for females than for males;
4. The prevalence of T.B. among the persons of the age group of 45 years and above is considerably higher than for the age group of 5 to 34 years; and
5. Bacteriologically positive cases varied from 2 to 8 per thousand persons in different areas.

Upto the end of Dec. 1965, 232.9 million persons had been tuberculin tested of whom about 88.5 million were vaccinated with BCG and thus given protection against tuberculosis.

In Dec. 1965 the number of BCG teams each containing one team leader and six BCG technicians rose to 183.

With a view to covering the younger group of population more thoroughly house to house vaccination has been started and vaccination of the new born through maternity hospitals and maternity centres has been started.

**T.B. Demonstration and Training Centres:** There is a Training and Demonstration Centre in each of the States in the country except in Assam and Madhya Pradesh, where action for the establishment of such centres is being taken.

**National Tuberculosis Institute:** This Institute runs regular courses of three months' duration to train teams each consisting of doctors, health visitors, laboratory technicians and X-ray technicians, statistical clerk and a BCG team leader. Upto December, 1965 a total of 12 regular courses were conducted in which 162 teams comprising of doctors and other para-medical personnel were trained. The Institute is also undertaking several operational research programmes in respect of the National TB Programme, Longitudinal and Baseline Surveys, Sociological surveys, studies on BCG vaccination and tuberculin test etc.

**T. B. Clinics:** As on Dec. 31, 1965 there were 426 T.B. Clinics in the country, out of which 146 are equipped with miniature X-ray and laboratory facilities.

**University Training Centres:** There are about six University Training Centres in the country which train doctors for Diploma in Tuberculosis (T.D.D.). Attached to the Delhi University is the 'Patel Chest Institute' for teaching and research in T.B. and other diseases of the chest.

**T.B. Beds:** There are about 151 TB hospitals and sanatoria in the country apart from an equal number of TB wards. The total number of beds in the country is about 34,550 of which about 12,500 are being run by voluntary organisations.

**Research in Tuberculosis:** Apart from the National TB Institute and the New Delhi TB Centre, the Tuberculosis Chemotherapy Research Unit, Madras and the Tuberculosis Research Unit, Madanapalle were conducting several research schemes regarding Chemotherapy of tuberculosis, epidemiology, casefinding, B.C.G. evaluation etc. in the year 1965.

**After-care and Rehabilitation Work Centres:** There are ten After-care and Rehabilitation Colonies in the country for giving vocational training to ex-tuberculosis patients.

During the Third Plan period 81 clinics, 8 T.B. demonstration centres and over 1,500 T.B. beds have been established.

### Goitre

Endemic goitre associated with cretinism, deaf-mutism and various other grades of physical and mental deterioration is prevalent in the northern parts of Kashmir, Punjab, Himachal Pradesh, Bihar, Uttar Pradesh, West Bengal, Assam, N.E.F.A. and Manipur. According to the latest available data, approximately 40 million people inhabit this goitrous belt of the country and at least 9 million of them suffer from goitre.

The incidence of goitre with the names of States already surveyed and the figures in percentage are as follows:—

Himachal Pradesh 20.9 to 39.9; Uttar Pradesh 26.3 to 37.0; Bihar 20.3 to 41.7; Punjab 40.3 to 52.3; Naga Hills 26.1 to 50.2; Jammu and Kashmir 31; West Bengal 30.0 to 33.0.

At present there is one iodised plant supplied by UNICEF functioning at Sambhar Lake. A spray type iodisation plant had been received from the UNICEF in 1964 and has been installed in Calcutta. At the end of 1965, 9 more spray type plants were expected to be received from the UNICEF. All these plants would process two lakh tons of iodised salt per year.

A provision of Rs. 30 lakhs has been made during the Fourth Plan to process two lakh tons of salt.

**Smallpox:** 152 Units of the National Smallpox Eradication Programme launched in 1962, performed 51,101,471 primary vaccinations and 347,178,929 revaccinations upto the end of Dec. 1965. During 1965, 31,535 cases with 8,670 deaths were reported as against 40,265 cases and 11,837 deaths in 1964.

To meet the requirements of the vaccine, the Government of the USSR have gifted 650 million doses of vaccine. This will meet the requirements of the country upto March, 1967.

Shelf driers and automatic filling and sealing machines have been denoted by the UNICEF for indigenous manufacture and these have been installed at the four Vaccine producing Centres located at Madras, Belgaum, Hyderabad, and Patwadangar.

The Plan allocation for this programme is Rs. 10.5 crores. The expenditure on the programme has been reimbursed by the U.S.A.I.D. under P.L. 480, and for this purpose a total sum of Rs. 10.29 crores has already been made available.

**Cholera:** The incidence of cholera is of a considerable magnitude in the States of West Bengal, Bihar, Uttar Pradesh, Orissa, Andhra Pradesh, Madhya Pradesh, Gujarat, Maharashtra, Madras and Mysore. For some years the incidence is low in the Punjab, Assam and Kerala and is not a major public health problem in Rajasthan and Jammu and Kashmir. The incidence is more marked in most States in the second half of the year in contrast to smallpox which is prevalent in the first half of the year.

The Indian Council of Medical Research has established a Cholera Research Centre in the Central Food Laboratory building at 8, Kyd

## PUBLIC HEALTH

Street, Calcutta, to carry out continuous research on various aspects of the problem of cholera with a view to developing ultimately practical measures for the control and prevention of the disease.

Researches on immunochemical, genetic and other aspects of cholera are also being conducted at various institutions under the auspices of the Council.

## Maternity

Maternity and Child Welfare are very important components of health service. 15 States and two Union Territories have established posts of Assistant Directors of Health Services to direct Maternity & Child Welfare Services. The Union Government has an officer in the Directorate General of Health Services who advises States and Union Territories on Maternity and Child Welfare activities.

Non-official bodies engaged in welfare work are the Indian Council for Child Welfare, New Delhi; The Kasturba Gandhi Memorial Trust; The Central Social Welfare Board; and the Indian Red Cross Society.

In the rural areas maternity and child welfare services are incorporated as a function of the primary health centres. Up to Dec. 31, 1965, 4,795 primary health centres and 13,072 sub-centres—attached to the Primary Health Centres—have been established.

With a view to improving maternity and paediatric services the Govt. of India included in the IIInd Five Year Plan, projects relating to the training of dais, auxiliary nurse—midwives and health visitors for assistance to establishment of paediatric centres in medical colleges. The scheme for training of dais has been continued in the Third Five Year Plan. The achievement by the end of the Third Plan is estimated to be 12,000 dais.

In Urban areas M.C.W. services are available at M.C.H. Centres established by voluntary organisations, local bodies and State Govts. By the end of Third Five Year Plan, 45,077 maternity beds and 8,393 Paediatric beds were available in major hospitals situated in most cities and towns.

During the Fourth Plan, a provision of Rs. 4.35 crores has been made to train 2,50,000 dais.

At the end of December 1965, 4,554 candidates qualified as health visitors and 1,000 were under training. 2,000 health visitors are to be trained in the Fourth Plan period.

## Defectives

It is estimated that the total number of blind is about 2,000,000 and the deaf about 700,000 (1961).

There is a Training Centre for the Adult Blind at Dehra Dun to impart training in engineering and non-engineering trades. There is also a common Braille code for Indian languages known as Bharati Braille. The Central Braille Printing Press at Dehra Dun has already published several Braille books in English, Hindi and other regional languages. At Dehra Dun the Govt. of India have also established a Model School for Blind Children.

There are in all 109 institutions for the blind and 68 for the deaf and 22 for the mentally handicapped. 19 institutions cater for the orthopaedically handicapped children.

The Government of India give scholarships to blind and deaf persons between the age of 16 and 30 in order to help them to undertake higher academic education, or, professional, vocational or technical training in normal institutions of learning. Scholarships are also awarded to orthopaedically handicapped children and adults who fall in the age-group of 12-30.

The number of scholarships awarded upto 1962-63 was 1,278. During 1963-64, 517 scholarships were awarded.

There are special employment exchanges for the physically handicapped at Bombay, Delhi, Madras, Hyderabad, Bangalore, Calcutta, Ahmedabad and Chandigarh and the total number of placements made by these exchanges since their inception upto 31st Dec. 1964 is 1,500.

A training centre for the adult deaf has been set up at Hyderabad during 1962-63 to provide facilities for training in engineering and non-engineering occupations.

There are also Centres at Bombay, Delhi and Narendrapur (W. Bengal) for the Training of Teachers of the Blind on regional basis.

## Mental Disease

The number of mentally ill persons in India who need institutional treatment is estimated at 1.5 million, and of psycho-neurotics about 3 million. The number of hospital beds is a little less than 15,000. Qualified psychiatrists number about 175, and those practising but formally unqualified about 1,000.

There are at present 27 institutions for mentally retarded and handicapped.

Major centres are in: Chandigarh (1); Dehra Dun (1); New Delhi (4); Bombay (9); Trivandrum (1); Bangalore (1); Hyderabad (1).

At present there are 32 mental hospitals with accommodation for about 20,000 patients.

The Mysore Government Mental Hospital at Bangalore and the Hospital for Mental Diseases at Ranchi are the ones which are best equipped.

The following is a list of mental hospitals in India:

Mental Hospital, Tezpur; Hospital for Mental Diseases, Ranchi; Ranchi Manasika Arogya-shala (Ranchi); N. M. Mental Hospital, Thana (Bombay); Mental Hospital, Ratnagiri (Maharashtra); Central Mental Hospital, Yeravda; Mental Hospital, Ahmedabad; Mental Hospital, Dharwar; Mental Hospital, Baroda; Mental Hospital, Nagpur; Government Mental Hospital, Madras; Government Mental Hospital, Waltair; Government Mental Hospital, Kozhikode; Punjab Mental Hospital, Amritsar; Mental Hospital, Agra; Mental Hospital, Bareilly; Mental Hospital, Banaras; Mental Hospital, Mankunda, Calcutta; Lambini Park Mental Hospital, P.O. Tiljala, 24 Parganas; Bangiyannmad Ashram, 29-A, Vivekananda Road, Dum Dum; Mental Observation Ward, Bhawani-pur, Calcutta; Mental Hospital, Jalna; Mental Hospital, Srinagar; Mental Hospital, Lashkar; Mental Hospital, Bonganga, Indore; Mental Hospital, Bangalore; Mental Hospital, Jaipur; Mental Hospital, Jodhpur; Mental Hospital, Udaipur; Mental Hospital, Bhavnagar; Mental Hospital, Trivandrum; Mental Hospital, Trichur.

The All-India Institute of Mental Health, Bangalore conducts the various post-graduate courses in Diploma in Psychological Medicine (D.P.M.) and Diploma in Medical and Social Psychology (D.M. & S.P.). The M.D. in Psychiatry will be started in the near future. The University of Bangalore to which the institute is affiliated and the Governing Body of the institute have approved of the introduction of this course. A post-graduate Diploma in Psychiatric Social Work (M.P.S.W.) has also been approved for introduction at this institute.

Post-certificate course in Psychiatric Nursing is also conducted at the institute. The diploma awarded by the institute is recognised by the Government of India and the Indian Nursing Council.

## PUBLIC HEALTH MEASURES

There were 4,500 primary health centres functioning in the country on March 31, 1965.

The aim was to have one primary health centre in each of the 5,200 blocks by the end of the Third Plan period.

Total number of primary health centres as on March 31, 1965 (Statewise): Andhra Pradesh 302; Assam 77; Bihar 582; Gujarat 267; Jammu and Kashmir 47; Kerala 146; Madhya Pradesh 374; Madras 144; Maharashtra 414; Mysore 419; Orissa 206; Punjab 220; Rajasthan 187; Uttar Pradesh 733; West Bengal 193; Delhi 8; Himachal Pradesh 41; Manipur 10; Tripura 16; Pondicherry 9; Laccadive, Minicoy and Amin-divi Islands 7; NEFA 96.

## Water Supply and Sanitation

The National Water Supply and Sanitation Programme initiated by the Ministry of Health in August 1954 was continued during the Third Five Year Plan period with a provision of Rs. 88.95 crores and Rs. 16.33 crores for water supply and sanitation schemes under the urban and rural phases of the Programme.

**National Water Supply and Sanitation Programme (Urban):** Most of the 402 water supply schemes and 103 sewerage schemes have been completed. In addition, 369 water supply schemes and 106 sewerage schemes, estimated to cost Rs. 62.33 crores and Rs. 25.93 crores respectively, had been approved during the Third Plan upto June, 1965. A budget provision of Rs. 15 crores was made for 1965-66.

**National Water Supply and Sanitation Programme (Rural):** The 349 rural water supply and sanitation schemes have been mostly completed. During the Third Plan period, 753 schemes estimated to cost Rs. 13.32 crores had been approved upto March, 1965. A budget provision of Rs. 1.50 crores had been made for 1965-66 for the execution of the schemes.

## DRUGS\*

The control over imported drugs is exercised by the Central Government through its offices at the ports of Bombay, Calcutta, Cochin and Madras.

Manufacture by units employing capital exceeding Rs. 10 lakhs is regulated by the Directorate-General of Technical Development, Central Government. Manufacture by units with capital less than Rs. 10 lakhs is regulated by the respective State Directorates of Industries. Condition, manufacture, standard of drugs, etc. in both cases, are governed by the Drugs Act and Rules 1940, enforced by the respective State Governments through their Drug Central Administration.

The Drugs and Cosmetics Act has been amended empowering the Central Government to assist State Governments in exercising control over the quality of drugs and cosmetics manufactured in the country. Ayurvedic and Unani medicines have been brought under the purview of the Drugs and Cosmetics Act. Rules for the control of Homoeopathic medicines under the Drugs and Cosmetics Rules have been published and have been brought into force.

The Government of India have set up two Pharmacopoeia Committees—one for Ayurvedic and the other for Unani for laying down standards of single drugs and compound preparations of these systems.

## AUXILIARY WORKERS

In order to meet extreme shortage of doctors in the country as a whole and particularly in the rural areas it was proposed to introduce a new type of Auxiliary Medical and Public Health Worker. For this purpose the Government of India have approved the establishment of training centres at the following institutions:—Public Health Institute, Patna (Bihar), Medical College, Visakhapatnam (Andhra), S.M.S. Medical College, Jaipur (Rajasthan).

\* The Drugs and Equipment Standard Committee, constituted by the Centre, has recommended the setting up of an "intelligence-cum-legal authority" in each State for tracking down sub-standard and spurious drugs.

## NURSING

At the end of the year 1964 there were 45,293 registered nurses, 52,440 registered midwives, 2,498 registered health visitors and 8,213 auxiliary nurse-midwives. The total number of qualified health visitors in India on 31st Dec. 1964 was about 4,350. Separate figures for urban and rural areas are not available.

The number of training institutions for nursing personnel and of students under training at the end of 1964 were as follows (The figure in brackets shows the number of students):—

Nurses 234 (16,694); Midwives 220 (2,983); Health Visitors 18 (1,110); Auxiliary Nurse Midwives 273 (8,952).

During Third Plan period an amount of Rs. 74,54,065 for training of Nurses and Rs. 1,14,69,500 for training of Auxiliary Nurse Midwives respectively was spent.

## FIVE-YEAR PLANS

The Health Programmes in the Third Five Year Plan involved a total outlay of about Rs. 341.80 crores (Rs. 296.80 crores being in the States and the rest at the Centre). The following table shows under broad headings the progress

The table given below shows the facilities which existed at the end of the Second Plan and facilities expected at the end of the Third Plan for training of health and medical personnel.

| Category                             | 1960-61      |        |         | 1965-66      |        |         |
|--------------------------------------|--------------|--------|---------|--------------|--------|---------|
|                                      | Institutions | Intake | Outturn | Institutions | Intake | Outturn |
| Doctors .. .. .                      | 57           | 5,800  | 3,200   | 87           | 10,625 | 5,000   |
| Nurses .. .. .                       | 250          | 4,000  | 2,800   | 234          | 6,687  | 5,000   |
| Auxiliary Nurse-Midwives/Midwives .. | 420          | 5,200  | 4,000   | 273          | 8,500  | 4,000   |
| Health Visitors ..                   | 30           | 650    | 375     | 18           | 455    | 270     |
| Sanitary Inspectors ..               | 20           | 2,250  | 2,250   | 34           | 2,477  | 2,277   |
| Pharmacists .. ..                    | 10           | 550    | 480     | 21           | 1,100  | 1,000   |

**Doctors, Nurses, etc.:**—The achievement at the end of the Second Plan and the target at the end of the Third Plan respectively were: Nurses 27,000; 45,000; Doctors 70,000; 86,000; Auxiliary Nurses/Midwives 19,900; 36,000; Health Visitors 1,500; 4,200; Nurse/Dais 11,500; 25,000; Sanitary Inspectors 6,000; 18,000; Pharmacists 42,000; 48,000.

**Hospitals & Dispensaries:**—The number of hospitals and dispensaries has increased from 12,600 in 1960-61 to 14,600 in 1965-66 and of beds from 1,85,600 to 2,40,100. A basic type of health organisation providing an integrated preventive and curative service has been established and 4,920 Primary Health Centres are functioning in the country.

## The Countess of Dufferin's Fund

The Fund which is now a Govt. of India body grants scholarship to Lady Post-graduate and Under-graduate Medical students and B.Sc. (Nursing) and Public Health Nursing students studying in Medical and Nursing Colleges respectively in India.

During the year 1965, 12 Post-graduate, 75 Under-graduate, 8 B.Sc. (Nursing) and 2 P.H. Nursing Scholarships have been awarded.

## President's Silver Medal

In 1965, 17 medals have been awarded to women candidates who stood first in M.B.B.S. examination and one medal for B.Sc. Nursing Course.

## President's Gold Medal

From the year 1965, the President of India has been pleased to award two Gold Medals—one each to the best lady student of the Lady Hardinge Medical College, New Delhi and of the Jawahar Lal Institute of Postgraduate

of expenditure during the Third Five Year Plan:—

| Programme                                          | (Rs. in Crores)   |                    |
|----------------------------------------------------|-------------------|--------------------|
|                                                    | Third Plan Outlay | Actual expenditure |
| Water Supply and Sanitation                        | 105.30            | 104.47             |
| Primary Health Centres, Hospitals and Dispensaries | 61.70             | 49.49              |
| Control of Communicable Diseases .. .. .           | 70.50             | 97.11              |
| Medical Education, Training and Research .. ..     | 56.30             | 66.82              |
| I.S.M. .. .. .                                     | 9.80              | 5.07               |
| Family Planning .. ..                              | 27.00             | 22.80              |
| Other Schemes .. ..                                | 11.00             | 7.37               |
| <b>TOTAL .. .. .</b>                               | <b>341.60</b>     | <b>353.13</b>      |

A sum of Rs. 3.5 crores was provided for research programmes under the Council for the 3rd Plan. The tentative Fourth Plan outlay for medical research is Rs. 10 crores.

Medical Education and Research and Dhanyantari Medical College, Pondicherry for showing maximum kindness, consideration and courtesy to the patients and their relatives during the period of the Student's internship and house surgency.

## National School Health Council

The Council set up in 1963 has been reconstituted in April 1966. The functions of the Council are mentioned below:—

(i) To assist in the formulation of National School health policies and to review the same periodically; (ii) To encourage and assist the States in the establishment of school health services and school meal programmes and to co-ordinate them; (iii) To initiate and guide studies, research and training on problems connected with school health administration and services; (iv) To assist in the formulation of standards for school health services and to lay down minimum uniform procedures; (v) To advise the Central Government in the allocation of grants and other resources to the States for School Health Programme; (vi) To take steps to enlist the active participation of the people in the implementation of the programme; and to consider the problems raised by the State Advisory Committee, Ministries or individual members.

The student health programme has been included in the Fourth Plan as a Centrally-aided scheme and a provision of Rs. 36.99 crores has been proposed.

## DENTAL EDUCATION

Dental Education in the country is making rapid progress. There are now 18 Dental Institutions all affiliated to Universities training students for the degree in dental surgery, viz.: B.D.S. (Bachelor of Dental Surgery) having

facilities for over 500 admissions per year. Two more dental colleges (one in Mysore and another in Maharashtra) are expected to start functioning shortly.

Facilities for Dental Mechanics training are available at Lucknow, Madras, Hyderabad, Trivandrum, Bombay for civilians and at the various centres of the Armed Forces for Army personnel; while Dental Hygienists training is available for civilians at Madras, Hyderabad, Trivandrum, Bombay and at the Armed Forces Medical College, Poona for Army personnel.

In addition to the two Post-graduate centres at the Government Dental College, Bombay-1 and the Nair Hospital Dental College, Bombay-8, where Post-graduate courses in seven specialities were established in 1959, Post-graduate Departments have now been established under advance action for the 4th Plan at the following dental institutions:—(1) Dental College & Hospital, Lucknow; (2) Dental College, Bangalore; (3) Dental College, Amritsar; (4) Dental Wing, Madras Medical College, Madras and (5) Dental College, Trivandrum.

Considerable progress has been made in the field of Dental Research during the last few years. The Indian Council of Medical Research and the Government of India have sanctioned at Lucknow Dental College and Hospital a Research Project under PL 480 Grant in (i) Prophylaxis Procedures on the Control of Periodontal Diseases for Rs. 7,62,377 for three years, and (ii) another Research Project under PL 480 Grant for Rs. 6,54,580 for five years on Sodium Fluoride Intake and Dental Caries. There is already a permanent Research Unit in Periodontology at Lucknow sanctioned by the I.C.M.R. for five years for about Rs. 5,00,000. The Dental College at Ahmedabad has also been sanctioned a Research Project in 'Oral Cancer' by the I.C.M.R. under PL 480 Grant for Rs. 10,74,799 for six years. A PL 480 Grant Research Project on 'Oral Calculus' is already in operation at Madras for Rs. 4,01,290 for five years. During the current year the I.C.M.R. has approved Research Grants for Rs. 3,05,165 for 20 old and new research schemes. One important work is at Lucknow on "Sodium Fluoride Tooth Pastes and Luride Phosphate Solution" to arrest Dental Caries in children.

There are at present roughly 200 Dental Clinics, mostly at District Hospitals, and during the next five years, more and more such clinics are expected to be opened at District and Tehsil Hospitals of which some are to be mobile clinics. Besides this, a sizeable number of School Dental Clinics are expected to be opened in various parts of the country. Each School Dental Clinic shall be designed to look after 3,000 school-going children between the age of 5-16 years.

The total number of registered dentists in the country as on 1st April 1965 was 4,791 excluding those who could not renew their registration at the close of the year.

## MEDICAL EDUCATION

The admission capacity of the medical colleges as in December 1965 was about 10,620. At the end of 1965-66 there were 86 medical colleges in the country.

Below we give a list of medical colleges in India:

**Andhra Pradesh:** Andhra Medical College, Visakhapatnam; Guntur Medical College, Guntur; Kurnool Medical College, Kurnool; Osmania Medical College, Hyderabad-Dn.; Gandhi Medical College, Hyderabad-Dn.; Rangaraya Medical College, Kakinada; Kakatiya Medical College, Warangal; S. V. Medical College, Tirupati, Dist. Chittoor.

**Assam:** Assam Medical College, Dibrugarh; Gauhati Medical College, Gauhati; Medical College, Silchar.

**Bihar:** Prince of Wales Medical College, Patna; Darbhanga Medical College, Laheria-sarai; Rajendra Medical College, Ranchi; Medical College, Damodar Road, Jamshedpur.

**Gujarat :** B. J. Medical College, Ahmedabad; Medical College, Baroda; M. P. Shah Medical College, Jamnagar; Municipal Medical College, Ahmedabad; Govt. Medical College, Surat.

**Jammu & Kashmir :** Medical College, Srinagar.

**Kerala :** Medical College, Trivandrum; Medical College, Calicut; Medical College, Kottayam; T.D. Medical College, Alleppey.

**Madhya Pradesh :** Medical College, Jabalpur; M. G. M. Medical College Indore; G. R. Medical College, Gwalior; Gandhi Medical College, Bhopal; Medical College, Rewa; Medical College, Raipur.

**Madras :** Medical College, Madras; Stanley Medical College, Madras; Kilpauk Medical College, Kilpauk, Madras-10; Christian Medical College, Vellore; Madurai Medical College, Madurai; Thanjavur Medical College, Thanjavur; Medical College, Chingleput; Tirunelveli Medical College, Tirunelveli.

**Maharashtra :** Grant Medical College, Bombay; Seth G. S. Medical College, Parel, Bombay; Topiwala National Medical College, Bombay; B. J. Medical College, Poona; Medical College, Nagpur; Govt. Medical College, Aurangabad; Armed Forces Medical College, Poona; Medical College, Miraj; Medical College, Sholapur; Medical College, Slon, Bombay.

**Mysore :** Kasturba Medical College, Manipal; Medical College, Mysore; Bangalore Medical College, Bangalore; Medical College, Bellary; Karnatak Medical College, Hubli; St. John's Medical College, Bangalore; Medical College, Belgaum; Medical College, Gulbarga; Mysore Medical College, Mysore; Medical College, Bellary.

**Orissa :** S. C. B. Medical College, Cuttack; Medical College, Burla (Sambalpur); Medical College, Berhampur (Cuttack).

**Punjab :** Medical College, Amritsar; Christian Medical College, Ludhiana; Government Medical College, Patiala; Medical College, Rohtak; Dayanand Medical College, Ludhiana.

**Rajasthan :** S. M. S. Medical College, Jaipur; S. P. Medical College, Bikaner; B. N. T. Medical College, Udaipur; Medical College, Jodhpur; Medical College, Ajmer.

**Uttar Pradesh :** K. G. Medical College, Lucknow; S. N. Medical College, Agra; G. S. V. M. Medical College, Kanpur; College of Medical Sciences, Banaras Hindu University, Varanasi; Motilal Nehru Medical College, Allahabad; Medical College, Muslim University, Aligarh.

**West Bengal :** Medical College, Calcutta; B. G. Kar Medical College, Belgachia Road,

Calcutta-4; Nilratan Sircar Medical College, Calcutta; Calcutta National Medical Institute, 32, Gorachand Road, Calcutta; Bankura Tamraloni Medical College, Bankura; B. S. Medical College, Bankura.

**Delhi :** Lady Hardinge Medical College (for women), New Delhi; All India Institute of Medical Sciences, New Delhi; Maulana Azad Medical College, New Delhi.

**Goa :** Medical College, Panjim, Goa.

**Pondicherry :** Medical College, Pondicherry.

**Pharmacy :** Thirty-two institutions in the country provide course of study in Pharmacy. In addition to the above 20 more institutions are intending to start courses for diploma and degree in pharmacy in the near future. The names of States and the course offered respectively are shown within brackets :

J.V.D. College of Science and Technology, Waltair (Andhra Pradesh; B. Pharm.); Kamala Nehru Girls' Polytechnic, Hyderabad (Andhra Pradesh; Dip. Pharm.); Rangaraya Medical College, Kakinada (Andhra Pradesh; Dip. Pharm.); Govt. Polytechnic for Girls, Kakinada (Andhra Pradesh; Dip. Pharm.); Assam Medical College, Dibrugarh (Assam; Dip. Pharm.); L. M. College of Pharmacy, University Campus, Ahmedabad (Gujarat; Dip. Pharm.; B. Pharm.; M. Pharm.; Ph.D.); Pharmacy School, Gulzar Bagh, Patna (Bihar; Dip. Pharm.); Department of Chemical Technology, Bombay University, Bombay (Maharashtra; B. Pharm.); Bombay College of Pharmacy, 213-219, Frere Road, Bombay-1 (Maharashtra; Dip. Pharm.); Armed Forces Medical College, Poona (Maharashtra; Dip. Pharm.); Poona College of Pharmacy, Poona (Maharashtra; Dip. Pharm.); Nagpur University, Nagpur (Maharashtra; B. Pharm.); Madras Medical College, Madras (Madras; Dip. Pharm.; B. Pharm.); Madurai Medical College, Madurai (Madras; Dip. Pharm.; B. Pharm.); Christian Medical College, Vellore (S. India) (Madras; Dip. Pharm.); Govt. College of Pharmacy, Bangalore (Mysore; Dip. Pharm.; B. Pharm.); The Kasturba Medical College, Manipal (Mysore; Dip. Pharm.); S.C.B. Medical College, Cuttack (Orissa; Dip. Pharm.); Department of Pharmacology, Medical College, Burla, Sambalpur (Orissa; Dip. Pharm.); Medical College, Amritsar (Punjab; Dip. Pharm. and Dressers' Course); Govt. Medical College, Patiala (Punjab; Dip. Pharm.); Department of Pharmacy, Punjab University, Chandigarh-3 (Punjab; B. Pharm.; M. Pharm.; Ph.D.); Govt. Polytechnic for Women, Chandigarh (Punjab; Dip. Pharm.); S. M. S. College, Jaipur (Rajasthan; M. Pharm.; Pharmacology); Department of Pharmacy, Saugar University, Saugar (Madhya Pradesh; B. Pharm.; M. Pharm.; Ph.D.); Birla Institute

of Technology and Science, Pilani (Rajasthan; B. Pharm.; M. Pharm.); College of Technology, Banaras Hindu University, Varanasi-5 (Uttar Pradesh; B. Pharm.; M. Pharm., Ph.D.); G.S.V.M. Medical College, Kanpur (Uttar Pradesh; Dip. Pharm.); Pharmacy Training Centre, Jalpaiguri (West Bengal; Dip. Pharm.); Kashmir Gate Polytechnic (Delhi; Dip. Pharm.); Govt. College of Pharmacy, Panjim (Goa; Dip. Pharm., B. Pharm.).

In addition to this the following institutions also intend to start Diploma course in Pharmacy shortly in accordance with the Education Regulations of the Pharmacy Council of India :— Andhra Univ., Waltair; Guntur Medical College, Guntur; Kakatiya Medical College, Warangal; Rangarsya Medical College, Kakinada; Mahila Seva Samaj, Nagpur; Grant Medical College, Bombay; G. B. Pant Polytechnic, Okhla, New Delhi; Women's Polytechnic, New Delhi; Govt. Girls' Polytechnic, Lucknow; V. M. Hospital, Agartala (Tripura); Osmania Medical College, Hyderabad; Assam Medical College, Dibrugarh; Govt. Medical College, Calicut; Kurnool Medical College, Kurnool.

### Pharmacy Council

During 1964-65 the Pharmacy Council of India continued its efforts towards the (a) complete enforcement of Pharmacy Act, 1948; (b) furtherance of training facilities for Diploma in Pharmacy course; (c) revision of the Education Regulations; (d) educating public about the profession and prospects in Pharmacy.

**Enforcement of the Pharmacy Act, 1948 :** The Pharmacy Act 1948 is enforced throughout the country except for the State of Jammu and Kashmir. The State Pharmacy Councils have been formed in the States of Andhra Pradesh, Assam, Bihar, Maharashtra, Madras, Orissa, Punjab, Uttar Pradesh, West Bengal, Bhopal, Kerala, Mysore, Pharmacist Registration Tribunal, Gujarat and the Union Territory of Delhi. The State Pharmacy of West Bengal is also functioning for the Union Territory of Tripura. The Manipur Administration is contemplating the formation of a joint State Council with the Assam Pharmacy Council.

The Registration Tribunals have been set up in the States of Mysore and Kerala.

**Approval of the Practical Training Institutions :** After completion of the regular course, the student pharmacists are required to undergo a practical training for 750 hours in recognised Institutions/Hospital/Pharmacy/Dispensary.

**Registration of Pharmacists :** The registration of pharmacists is the responsibility of the State Pharmacy Council. There are 73,000 registered pharmacists upto 31st December, 1964.

## EDUCATION

**SINCE** August 16, 1947 Education at the Centre has been constituted into a separate Ministry of Education. The State Governments are fully autonomous in regard to educational matters except in respect of educational development programmes for which they receive grants-in-aid from the Central Government after they are approved by the Central Government. The expenditure on education was Rs. 600 crores in 1965.

The Ministry is also responsible for the four Central Universities of Aligarh, Banaras, Delhi and Visva Bharati and some Institutions of higher learning. The Ministry is also responsible for cultural relations with foreign countries and UNESCO.

The Education Commission which was set up in Oct. 1964 to survey the entire field of educational development and to have a comprehensive review of the country's educational system, submitted its report on 29th June 1966. The report is being examined by the Ministry of Education.

Some of the other educational bodies associated with the Ministry are :

All-India Council for Elementary Education, All-India Council for Secondary Education, National Council for Women's Education and the University Grants Commission.

For secondary education, there is a division in the Ministry itself, and a subordinate office called Directorate of Extension Programmes for Secondary Education which performs advisory as well as executive functions. The National Council of Educational Research and Training which has been set up as an autonomous organization also performs advisory and executive functions. Education in the Union Territories is also one of the responsibilities of this division.

The Government of India is responsible for education in Union Territories. In case of Territories which have their own Legislatures, some of the powers are enjoyed by the respective Governments.

The authority of Government in controlling the system of public instruction is in part shared with and in part delegated to Universities and Boards of Secondary and Intermediate Education as regards secondary education, and to local bodies as regards elementary education in some States.

The control over higher education is exercised through the University Grants Commission.

In 1965 there were 62 universities, nine deemed to be universities and 15 Boards of Secondary Education.

Scientific Research, Technical Education and Cultural activities also come within the purview of the Ministry of Education.

Institutions under private management are controlled by Government and by local bodies by "recognition" and by the payment of grants-in-aid, with the assistance of the inspecting staff employed by Government and by local bodies.

During 1962-63, the expenditure on education in the States was highest in Maharashtra, followed by Uttar Pradesh, Madras and West Bengal. Among the Union Territories Delhi topped the list.

The average annual cost per capita (of population) was Rs 12 in 1965 as against Rs. 3.2 in 1950-51. In 1965 the expenditure on education was Rs. 600 crores.

It is found that 4,623 foreign students were studying in Indian Univs. and Colleges on March 31, 1963. Of these, 789 were in receipt of Govt. of India scholarships.

### NATIONAL FITNESS CORPS

The National Fitness Corps is a comprehensive youth programme adopted on a national scale combining activities designed to develop the total personality of Indian youth.

On the basis of the recommendations of an expert committee set up by the Union Ministry of Education under the Chairmanship of Shri H. N. Kunzru it was decided to integrate the old schemes of Physical Education, National Discipline Scheme and A.C.C. into the unified scheme of National Fitness Corps.

The broad aspects of the integrated scheme are :—

(1) *Objects* : (a) to make youth physically strong and resilient by developing in them physical efficiency, toughness, endurance, courage, discipline and patriotic fervour; (b) to develop among students a sense of appreciation for the democratic values of life and love for their country, its past history and future destiny.

(2) *Programme consists of* : (i) Exercise Tables (ii) Drill and Marching; (iii) Lezium; (iv) Track and Field Events; (v) Games and Relays; (vi) Gymnastics for boys/Folk Dances for girls; (vii) Simple Combats, Wrestling, Judo; (viii) Hiking and Cross-country; (ix) Instruction and Practice in Tests; (x) Field Craft (for boys)/Home Nursing (for girls); (xi) Information on Indian Constitution and Democratic set-up, Practical Projects and Community singing.

### School Curriculum

The programme of National Fitness Corps is a compulsory subject for all children of the age group 9-16 plus in Middle, High and Higher

Secondary Schools. There is a compulsory or core group of activities which every child must do as part of the N.F.C. activities, while there are also a few optional items meant for children having a special flair for them.

### Teacher Training

Two Central Training Institutes of the National Fitness Corps, situated at Sariska near Alwar in Rajasthan and Barwaha near Indore in Madhya Pradesh each offer a nine-month vigorous training schedule to a batch of about 400 fresh trainees. Matriculates take the Certificate Course in Physical Education and degree holders the Diploma Course in Physical Education. The selection of trainees is done on an all India basis through the State Education Departments. The age limits for admission are 17 to 25 years. Candidates admitted to the courses receive an all inclusive stipend of Rs. 85 p.m. each from the Union Government.

### Reorientation

The trained physical education teachers and ex-A.C.C. teachers are reoriented to the N.F.C. programme in six-weeks courses conducted at *ad-hoc* and permanent centres run by the National Fitness Corps located at Choki in Gujarat and Habra near Calcutta. Reorientation is also given to ex-National Discipline Scheme Instructors in such aspects of the N.F.C. programme which were not covered by them.

The teachers deputed to the reorientation centres are paid travelling allowances and a stipend of Rs. 60 p.m. each in addition to their pay and allowances that they get from their schools. On successful completion of training they are employed as whole-time teachers in implementing the N.F.C. syllabus.

The number of Physical Education Teachers, ex-National Discipline Scheme Instructors and ex-A.C.C. teachers reoriented to the N.F.C. Programme, so far, is about 16,000.

Third Plan allocation for the National Fitness Corps Programme was Rs. 8-10 crores.

### PRIMARY EDUCATION

Primary Education in India has made considerable progress since the attainment of Independence. Under Article 45 of the Constitution,

the State is required to provide free and compulsory education for all children up to the age of 14 years. In 1947, only about 35 per cent of the children in the age-group 6-11 were in schools. The percentage rose to 62 at the end of the Second Plan and 79.8 (estimated) at the end of the Third Plan. The percentage is expected to rise to 91.2 in the Fourth Plan. The total enrolment in this age-group has increased from about 141 lakhs in 1947-48 to 350 lakhs in 1960-61. It is estimated that by the end of the Third Five Year Plan, the total enrolment in classes I-V would be 523.69 lakhs or 79.8 per cent of the population of the corresponding age-group. Of these, the number of girls will be 188.35 lakhs.

The increase of enrolment in the age-group 11-14 has also been equally satisfactory. In 1946-47 only 12 per cent of children in this age-group were at school. At the end of the Third Five Year Plan it was about 31.8 (estimated) with about 108.38 lakh children at school. It is expected that the percentage will rise further to 43.4 during the Fourth Five Year Plan.

The proportion of trained teachers in primary schools has increased from 58.8 per cent in 1950-51 to 64.3 per cent in 1961-62. As against 3,16,124 trained primary school teachers in 1951, the number has gone upto 5,11,246 in 1961-62. During the Third Five Year Plan, there will be 70.2 per cent trained teachers in primary schools.

The outlay on primary education alone will be Rs. 209 crores during the Third Plan. The number of primary schools is likely to increase from about 210,000 in 1950-51 to 415,000 in 1965-66.

During the Third Five Year Plan, intensive efforts have been made, particularly in the backward States, to organise annual enrolment drives and increase the enrolment of children. Special attention will be paid to increasing the enrolment of girls and a number of programmes have been drawn up for this purpose.

**Basic Education** : The objective of this scheme is to develop the entire personality of the child by imparting instruction in a correlated manner through a useful and productive craft. A good deal of progress has already been made in this sector and a fair percentage of schools has already been converted to the basic pattern.

## SECONDARY EDUCATION

No. of secondary schools in 1964-65 : 24,740.

At the beginning of the Third Plan 11.7 per cent of the boys and girls in the age group of 14-17 were going to schools. This percentage was expected to increase to 17.6 at the end of the Third Plan.

No. of multi-purpose schools upto July 1965 : 3,907.

No. of Higher Secondary Schools in 1964-65 : 6,100 (including 1,216 Intermediate Colleges of U.P. called Higher Secondary Schools).

Third Plan allotment for reorganization of secondary education : Rs. 88 crores.

Under the Third Five Year Plan the Centre bears 50 per cent of the cost of the conversion of high schools into higher secondary schools and 75 per cent of the cost for improvement of science teaching in secondary schools, 100 per cent for teacher training and 50 per cent for improvements in emoluments of teachers. In addition, there are centrally sponsored schemes for setting up State Bureaux of Educational and Vocational Guidance, State Education Evaluation Units, strengthening of selected multi-purpose schools and improvement of secondary education.

The accepted pattern of education comprises eight years of elementary (Basic) education; three years of secondary education with diversified courses to give it a vocational bias and make it a terminal point for entry into trade

or profession; and three years of university education leading to the first degree. Some of the States have adopted a pattern of seven years of elementary (Basic) education followed by four years of secondary education.

At the secondary stage, a child in a multi-purpose school should in addition to the core curriculum which would include languages, social studies, general science and one compulsory craft, opt for one of the following diversified courses to be provided in reorganized multi-purpose schools :—humanities, science, technical, commerce, agriculture, fine arts or home science.

Except science, humanities and commerce, the groups are relatively new to secondary schools. Multi-purpose schools are schools in which these have been introduced.

### Strengthening of Multi-purpose Schools

Multi-purpose schools have grown rapidly. The schemes to consolidate and improve their working are provided in the State sector of the Third Plan. The Ministry is helping the State Governments to develop a few selected schools to a high level of effectiveness so that they may serve as models for future plans. A scheme in this regard had been finalised and was being implemented from 1963-64.

The three-language formula now generally accepted is as follows :—

(1) Regional language and mother tongue when the latter is different from the regional

languages; (2) Hindi or in Hindi-speaking areas another modern Indian language; and (3) English or any other modern European language.

### Examination Reform

The Reform envisages to bring about a parallel improvement both in teaching techniques as well as in the examination procedures by emphasising the close relationship between them and which each of these aspects of education has with the objectives of teaching. To accomplish this, the Examination and Evaluation Unit operates as a department of the National Council of Educational Research and Training, New Delhi.

During the past eight years of its existence, the Examination and Evaluation Unit has worked extensively with the State Boards of Secondary Education, the Teachers Training Colleges and Secondary School teachers in several conferences, seminars, workshops, training courses and working groups for the purposes of orientation and training as well as the production of evaluation material.

The Examination and Evaluation Unit has launched upon an accelerated programme of examination reforms during the Fourth Five-Year Plan embracing all the stages of education viz., elementary, secondary, teacher-training and university. The programmes of examination reforms at the elementary and the university

stages will be undertaken in collaboration with the State Institutes of Education and the U.G.C. respectively from 1967 onwards. Examination reform will also be undertaken at the Teacher Education Stage, both elementary and secondary from 1967 onwards. Preliminary studies with respect to the examinations at these stages have already been completed.

### Crash Programme

A centrally sponsored scheme known as "Crash Programme" was formulated in Sept., 1964 with the object of strengthening science laboratories, school libraries and science teaching in secondary schools. Central assistance is given at 100 per cent basis for all these programmes to the State Government through whom the scheme is being implemented.

### Educational and Vocational Guidance

The Central Bureau of Educational and Vocational Guidance was set up by the Ministry of Education, Government of India in Oct. 1954 to foster the Guidance Movement in the country and to provide leadership at the national level to help develop it along right lines. The Central Bureau of Educational and Vocational Guidance is now functioning under the National Council of Educational Research and Training. The various activities of the Central Bureau include promoting awareness of the nature of guidance services and the need for them, offering Consultative and field guidance, undertaking research, preparation of guidance tools and occupational information materials. To meet the needs of the nation during the present emergency, the Central Bureau has brought out a number of publications giving detailed information about the defence services and held short term training courses for Delhi school teachers to help in the dissemination of occupational information about the defence services in the schools. The Central Bureau has also conducted a number of seminars and workshops for the in-service education of guidance personnel.

To develop the guidance movement and to give a uniform direction to the guidance services in the schools, a centrally sponsored scheme has been drawn up in the Fourth Five Year Plan. It aims at: establishing bureaus in other States; and providing guidance services in 120 multi-purpose schools as a preliminary stage in extending such services in future.

The Third Plan provision for the implementation of this scheme was Rs. 30 lakhs.

### Science

The Secondary Education Commission made two recommendations with regard to the provision of science: 1. That every secondary school should provide general science as a core subject. 2. That elective science should be provided in as many secondary schools as possible to encourage students with a special talent in the subject to pursue further study.

To strengthen science education in schools, a Department of Science Education has been created. This Department is working in the following directions:—

#### (i) Curricular Development:—

Based on the syllabus of general science for elementary schools, classes I–VIII, guide-books for classes VI–VIII, indicating the activities for teachers and pupils have been prepared. Similar guide books for classes I–V, are under preparation.

#### (ii) Text-books:—

Three expert panels of scientists, professors and teachers have been set up to prepare model text-books for elective sciences (Biology, Physics and Chemistry). The books were expected to be ready in 1964.

A series of text-books for classes VI–VIII based on the new draft syllabus are also under preparation.

Forty-nine Summer Institutes in elective sciences for teachers are proposed to be held

during the summer of 1965-66, against sixteen Summer Institutes during the previous year.

### Higher Secondary Pattern

Below we describe the position in regard to the reorganisation of secondary education in the various States.

Nine States and two Union Territories (Assam, Jammu & Kashmir, Madhya Pradesh, Maharashtra, Mysore, Orissa, Punjab, Rajasthan, West Bengal, Delhi and Tripura) have already introduced the revised pattern of Secondary Education. However, Andhra Pradesh and Kerala States have decided to hold over the implementation of the higher secondary pattern of education.

At the end of the Third Plan it was expected that 6,735 Secondary Schools would have been converted to the new pattern.

### Text Books

All the State Governments except Gujarat have introduced the programme of nationalisation of text books upto different stages of education.

**Midday Feeding:** The States of Andhra Pradesh, Gujarat, Kerala, Madhya Pradesh, Madras, Maharashtra, Mysore, Orissa, Punjab, U. P. and West Bengal have adopted the scheme of midday feeding of children in schools.

The Governments of Madhya Pradesh and Uttar Pradesh were expected to implement this scheme from 1965-66.

**UNESCO Aid for Technical Education:** UNESCO had approved assistance to the extent of \$ 1,871,200 for the period 1967-68 for technical education and scientific research programmes in India.

**Assistance to Blind and Dumb Students:** During 1960-61, about Rs. 1,27,000 had been distributed by way of scholarships for the blind, deaf and dumb. Over Rs. 2½ lakhs had been spent on the Training Centre for the Adult Blind at Dehra Dun and about Rs. 97,000 on the Model School for Blind Children in the same city.

### UNIVERSITY GRANTS COMMISSION

(Bahadur Shah Zafar Marg, New Delhi)

The University Grants Commission was set up in December 1953.

For composition of the Commission see under Ministry of Education, "Government of India Personnel".

**Grants paid:** The statement given below shows the grants paid to the Universities during 1964-65:

**Central Universities:** Maintenance grants (in Rs.): Aligarh Muslim University, 73,00,000; Banaras Hindu University, 96,00,000; Delhi University 1,45,64,000\*; Visva Bharati University 31,00,000; Gujarat Vidyapith, 50,000; Gurukul Kangri Vishwavidyalaya, 80,000; Indian Institute of Science, Bangalore, 56,02,000; Kashi Vidyapith, 1,75,000; Total: 4,10,91,000.

The Grants paid† to the universities for development schemes during 1964-65: Rs. 6,94,33,999.

The grants paid towards Engineering and Technological education in universities during the year 1964-65: Rs. 1,06,04,840.

The development grants paid to colleges during 1964-65: Rs. 1,52,86,845.

The grants paid during 1964-65 for the implementation of the Three-Year Degree Course scheme in Universities and their colleges: Rs. 77,38,198.

The grants paid to affiliated colleges for the development of Post-Graduate studies in Science subjects during 1964-65: Rs. 29,12,083.

The grants paid to the Universities towards the revision of salary scales of college and university teachers during 1964-65: Rs. 39,06,338.

The total grants paid under Plan and Non-Plan Projects during 1964-65: Rs. 14,10,80,869.

### Committee on Area Studies

The commission has appointed a standing committee to advise it regarding the development of area studies.

### Fellowships & Scholarships

Senior and Junior research fellowships in science subjects and the humanities (including social sciences) are being provided to enable deserving scholars to pursue advanced study and research.

During 1964-65, 36 senior fellowships and 82 junior fellowships were awarded for advanced study and research in the humanities and social sciences. Grants amounting to Rs. 8.93 lakhs were paid to the universities concerned during the year for these fellowships.

For research in science subjects, 36 senior fellowships and 106 junior fellowships were awarded in 1964-65. An amount of Rs. 6.99 lakhs was paid to the universities concerned for this purpose. A junior research fellowship is of the value of Rs. 300 p.m. and a senior fellowship of Rs. 500 p.m.

During 1964-65, the Commission awarded 29 fellowships each of the value of Rs. 400 p.m. for advanced study and research in engineering and technology. Each fellowship, junior or senior, carries a grant of Rs. 1,000 per annum for contingent expenditure relating to the research undertaken. A further sum of Rs. 1,000 per annum is available with each fellowship to enable the scholars concerned to publish their research work and meet the necessary expenditure on field work. The normal tenure of a fellowship is two years which may be extended by one year in special cases.

**Scholarships:** Scholarships each of the value of Rs. 200 per month are provided every year for promoting advanced study and research in humanities and science subjects. During 1964-65, 265 research scholarships were allocated to 42 universities. The Commission paid Rs. 3.59 lakhs to the universities for scholarships in science and Rs. 6.71 lakhs for those in the humanities and social sciences.

### Three Year Degree Course

For implementing the three year degree course scheme an expenditure of Rs. 23.65 crores in 41 universities and 733 colleges had been approved. The Commission's share of this expenditure is estimated to be Rs. 12.02 crores.

### Revision of Salary Scales of Teachers

Over 4,000 university teachers in 42 universities have received the benefit of the enhanced scales of pay upto 1964-65.

So far about 15,000 teachers working in 494 colleges affiliated to 24 universities have received the benefit of the above-mentioned scales of pay.

### Agricultural Education

Besides Indian Agricultural Research Institute, New Delhi, seven agricultural universities are at present functioning in the country. These are the U.P. Agricultural University, Pantnagar; Punjab Agricultural University, Ludhiana; Udaipur University, Udaipur; Orissa University of Agriculture and Technology, Bhubaneswar; Andhra Pradesh Agricultural University, Rajendranagar, Hyderabad; University of Agricultural Science, Hebbal, Bangalore; Jawaharlal Nehru Krishi Vishwavidyalaya, Jabalpur.

In 1964-65, 48 agricultural colleges were functioning in the country. Facilities for education in agriculture at the degree level were also available in 18 multi-faculty colleges.

Funds for higher education in agriculture are placed at the disposal of the Central Ministry and State Departments of Agriculture.

### BASIC FACTS & FIGURES

During 1964-65, the total number of universities that were functioning in the country was 62. The total enrolment in the universities and colleges including Intermediate classes was

\* Including maintenance grants paid to constituent/affiliated colleges of Delhi University.

† Which has since become a multi-faculty university.

‡ Exclusive of grants paid for Engineering and Technological education, revision of scales of pay of teachers and introduction of three-year degree course.

15.28 lakhs as against 13.85 lakhs during 1963-64. In 1964-65, the number of affiliated and university colleges in the country was 2,360 as against 2,111 in 1963-64 (These figures do not include Intermediate colleges under the Board of Intermediate Education, U.P.). During 1964-65, 197 new Arts, Science and Commerce colleges were established and the number of women's colleges rose from 254 in 1963-64 to 278 in 1964-65. There were 290 colleges affiliated to various universities which provided facilities for postgraduate courses in arts, science, commerce, education and law in 1964-65.

#### Engineering and Technological Education †

Against a provision of Rs. 6.50 crores for the Third Plan made for the development of engineering and technological education in the universities and the institutions maintained by them, the Commission has sanctioned development grants amounting to Rs. 3.29 crores. In addition to the grants mentioned above, there was a spill-over of about Rs. 3.35 crores in respect of the schemes approved during the Second Plan but carried over to the next Plan period. The total commitment amounts to Rs. 6.63 crores.

#### RURAL HIGHER EDUCATION

On the recommendation of the Rural Higher Education Committee, a National Council for Rural Higher Education was established in 1956 to advise Govt. on all matters relating to the development of rural higher education.

Under the scheme, 14 Rural Institutes are at present functioning in different parts of the country. These are Gandhi Gram Rural Institute† Gandhigram, Madurai; Ramakrishna Mission Vidyalaya Rural Institute†, Coimbatore; Lok Bharati Rural Institute, Sanosara; Rural Institute, Amravati; Karmaveer Hire Rural Institute, Gargoti; Vidya Bhavan Rural Institute, Udaipur; Balwant Vidyapeeth Rural Institute,† Bichpuri, Agra; Rural Institute, Jamia Millia, New Delhi; Rural Institute of Higher Studies, Birouli, Bihar; Kasturba Rural Institute, Rajpura, Punjab; Rural Institute, Wardha; Rural Institute at Hanumanamatti, Mysore State; Kasturba Rural Institute, Indore, and Rural Institute, Thavanoor.

The courses, as approved by the Council and adopted by the Rural Institutes, are:

(i) a three-year Diploma Course in Rural Services; (ii) a three-year Diploma Course in Civil and Rural Engineering; (iii) a two-year Certificate Course in Agricultural Science; (iv) a one-year Sanitary Inspectors' Course; (v) a one-year Advanced Course for Sanitary Inspectors; (vi) a two-year Post-Diploma Course in Rural Sociology and Community Development; (vii) a two-year Post-Diploma Course in Rural Economics and Cooperation; (viii) a three-year Diploma Course in Rural Services (Education) and (ix) a one-year Preparatory Course to initiate matriculates into the three-year Diploma Course in Rural Services.

#### CENTRAL SCHOOLS

The Central Schools Scheme has been implemented by the Government of India in pursuance of the recommendation of the Second Pay Commission to provide educational facilities to the children of transferable Central Government employees. Under this scheme, 100 higher secondary schools have been established, with a common syllabus, with a common medium of instruction Hindi/English and preparing students for a common examination viz. the all-India higher secondary examination of the Central Board of Secondary Education, New Delhi. These schools are being developed as quality schools, at a moderate cost to the parent. The children of the following categories of personnel liable to transfer are eligible for admission in the following order of priority: Central Government employees including Defence personnel; All-India Services; employees of autonomous and semi-autonomous bodies fully financed by the Central Government; floating and local population.

At the beginning of the School Year 1966-67, about 45,000 children were studying in these schools.

The entire expenditure on the schools is borne by the Ministry of Education, through grants. No tuition fee is charged in classes I to VIII. Tuition fee at the rate of Rs. 6, Rs. 7 and Rs. 8 per month is charged in classes IX, X and XI respectively. Scheduled Caste/Tribe students are exempted from payment of tuition fee.

The schools are located at the following places:

**Andhra Pradesh:** Secunderabad (2 schools), Golconda, Vishakhapatnam, Tirupathi; **Assam:** Ganhati, Jorhat, Shillong; **Bihar:** Dinapore Cantt, Patna, Jawahar Nagar, Ranchi; **Gujarat:** Jamnagar, Ahmedabad, Baroda, Rajkot, Surat; **Jammu and Kashmir:** Udhampur; **Kerala:** Cochin, Trivandrum, Ernakulam, Kozhikode; **Madhya Pradesh:** Amla, Saugor, Pachmarhi, Bhopal, Indore, Gwalior, Jabalpur; **Madras:** Avadi (2 schools), Madras (2 schools), Tambaram, Coimbatore, Madurai, Tiruchi; **Maharashtra:**

Ahmednagar, Bombay (3 schools), Dehu Road, Kirkee, Khadakvasla, Lonavla, Nasik Road, Camp, Ambarnath, Devlali, Nagpur, Poon (2 schools), Pulgaon Camp; **Mysore:** Bangalore (5 schools), Hubli, Mangalore; **Orissa:** Puri; **Sambalpur:** **Punjab:** Ambala (2 schools), Ferozepur, Jullundur, Simla, Adampur, Halwa; **Chandigarh:** **Rajasthan:** Bikaner, Jaipur, Jodhpur, Kotah, Udaipur, Alwar; **Uttar Pradesh:** Agra (2 schools), Bareilly (2 schools), Dehra Dun (2 schools), Jhansi Cantt., Kanpur (2 schools), Ranikhet, Lansdowne, Lucknow Cantt., Manaur; **Meerut** (3 schools), Roorkee, Babina Cantt., Fatehgarh, Mathura, Varanasi; **West Bengal:** Barrackpore, Panagarh; **Delhi:** Delhi Cantt., New Delhi; **Manipur:** Imphal.

#### FOREIGN ASSISTANCE

Statement of foreign assistance in the form of services of foreign experts at Indian Institutions, training facilities for Indian trainees abroad and equipment obtained under various foreign aid programme till Dec. 1963.

| Programme                 | Foreign Experts | Fellowships abroad | Equipment (Rs. in lakhs) |
|---------------------------|-----------------|--------------------|--------------------------|
| T.C.M. (U.S.A.) .. .. .   | 86              | 298                | 50.43                    |
| Colombo Plan .. .. .      | 22              | 38                 | 15.52*                   |
| UNESCO/UNTAA .. .. .      | 88              | 43                 | 102.50@                  |
| Indo-French .. .. .       | 3               | 2                  | —                        |
| Indo-West Germany .. .. . | 14              | 23                 | 57.32                    |
| Indo-U.S.S.R. .. .. .     | 16              | —                  | 5.73                     |
| Total .. .. .             | 229             | 404                | 249.50                   |

\* Includes equipment worth Rs. 1.80 lakhs received from Federation of British Industries.  
@ Includes assistance obtained by the Indian Institute of Technology, Bombay.  
N. B.—These figures relate to aid received for expansion of technical education.

About 40 million (Canadian) dollars from the Counterpart Fund of the Colombo Plan could be utilised by India for its educational advancement.

Canada had already contributed 10 million dollars for the setting up of Engineering Colleges in India under the Colombo Plan.

#### Central Training Institute

The Institute was inaugurated in March 1963.

Technical assistance was made available to the Institute through a cooperative programme between the United States Agency for International Development and the Government of India.

The U.S.A.I.D. have provided the services of a team of seven Technical Advisers, equipment and technical books worth \$356,000 and training facilities to sixteen technical officers of the Institute in U.S.A. for a period of six months each.

This Training Institute will be one of the most modern craft-instructor training institutes in the country. Latest techniques in teaching is employed at the Institute, including audio-visual aids such as films, film-strips, tape recordings, charts and models of all kinds.

The Institute provides a training capacity for 392 craft instructors. The main objectives of the Institute are to provide instruction in various trades and in the art of teaching these trades; to train the instructors required for the craft-training institutions; and to provide refresher courses to enable trade-instructors to keep abreast of the latest industrial techniques and advances in teaching their respective trades.

Training is offered in 15 trades and the duration of the course in each trade is 9 months which will be raised to 12 months w.e.f. 1st August 1966. The Institute operates all the year round.

#### LOAN SCHOLARSHIPS

Besides giving financial assistance to needy and meritorious students for completing their education, this scheme will encourage students to enter the teaching profession.

The loan will be written off at the rate of ten per cent every year, if the holder of a loan-scholarship takes to teaching at the end of his studies.

A meritorious student whose parent's income does not exceed Rs. 600 per month will be eligible for a loan-scholarship. The maximum limit of loans will vary from Rs. 720 to Rs. 1,500 per annum, according to the course of study and it will be raised by Rs. 250 in the case of students of engineering and other similar technical and professional courses. Candidates in full time employment are not eligible.

**Scope:** The loan scholarships are available for studies in India only. These will be given for all recognised full time courses of education and training after the Matriculation or School Leaving Stage on the basis of the results of any examination conducted by a Board of Education or a University or a recognised Education Authority.

The Scheme was started in 1963-64 and 66,900 awards were made during the Third Plan. During 1966-67 18,500 loan scholarships will be offered.

**Repayment Date:** The repayment of a loan will be by monthly instalments commencing one year after the loanee secures employment or after 3 years of the termination of the scholarship whichever is earlier. No interest will be payable on the loans so long as the monthly instalments are paid on the due dates. Interests will be chargeable for default.

The loan will be given without any security or surety, except in the case of minors. Each recipient will be issued a loan scholarship book wherein all amounts given to him and repaid by him will be entered.

† The University Grants Commission has recommended to the Central Govt. that these institutes are to be deemed as Universities under Sec. 3 of the U.G.C. Act for a period of three years in the first instance. ‡ During 1965-66, there were 133 institutions in the country conducting courses in engineering and technology for the first year degree.

The Union Ministry of Education will advance loans to the State Governments for paying loans on the basis of total population of each State.

The procedure for applying for loans has been simplified so that a selected candidate is enabled to obtain loan-scholarship immediately on joining institution, as full-time student.

### FOREIGN-TRAINED TECHNICIANS AND TECHNICAL PERSONNEL

Among the scientific and technical personnel who have been abroad after Jan. 1, 1957 for studies, training or employment 11,215 are registered in the Indians Abroad Section of the Directorate of Scientific and Technical Personnel, formerly National Register by March 1966. Of these 5,475 had already reported for return.

The broad distribution of the registrants abroad as on March 1, 1966 by country and category is shown below :

| Country                    | Science | Engg. | Technology | Medicine | Total  |
|----------------------------|---------|-------|------------|----------|--------|
| U.S.A. .. .. .             | 1,844   | 1,518 | 262        | 360      | 3,984  |
| Canada .. .. .             | 336     | 140   | 23         | 76       | 575    |
| U.K. .. .. .               | 572     | 1,888 | 305        | 1,356    | 4,121  |
| Germany .. .. .            | 208     | 887   | 168        | 30       | 1,293  |
| Other European countries   | 205     | 307   | 63         | 34       | 609    |
| Australia & New Zealand .. | 49      | 38    | 25         | 10       | 122    |
| American countries .. .. . | 65      | 47    | 13         | 17       | 142    |
| India & Ceylon .. .. .     | 30      | 54    | 10         | 15       | 109    |
| Other countries .. .. .    | 104     | 121   | 23         | 12       | 260    |
| Total .. .. .              | 3,413   | 5,060 | 892        | 1,910    | 11,215 |

In addition, 555 persons in the field of Business Administration and Accountancy and 83 persons in various Social Sciences have been registered by March 1, 1966 who have been abroad for studies or training.

### SOCIAL EDUCATION

The new concept of social education is embodied in a five point programme; literacy, education in health and hygiene, training for trade, profession or calling, citizenship, and healthy recreation.

The programme of Social Education is put through literacy classes, Community Centres, Youth Clubs, including Gram Raksha Dal, Farmers' Clubs and Mahila Samities and libraries which are an essential agency of mass education.

The number of State, Central and District Libraries has steadily increased. There are now 10 State Central and 205 District Libraries in the country.

Radio listening and Discussion Groups, demonstrations and excursions have been effectively used. Besides radio, visual aids and printed literature have served as means of imparting education to the masses.

The Ministry of Community Development, Panchayat Raj and Co-operation conducts a number of Social Education Organisers Training Centres under their scheme. So far (July 1965), 12 District Social Education Officers, 125 Adult Literacy Instructors of Indo-Tibetan Border Force under the Ministry of Home Affairs and Educational Officers of the Central Board for Workers' Education under the Ministry of Labour and Employment have been trained at the National Educational Fundamental Centre.

To encourage production of suitable literature for neo-literates and the new reading public, the Ministry has organized a number of schemes, including the award of prizes to authors, and bulk purchase of good books and holding Sahitya Shivirs (literary workshops) in different parts of the country.

The position in each field is briefly indicated below :

Registration and return of Indians Abroad as on March 1, 1966.

| Subjects                  | Returned | Abroad |
|---------------------------|----------|--------|
| Scientists .. .. .        | 1,730    | 3,413  |
| Engineers .. .. .         | 2,330    | 5,000  |
| Technologists .. .. .     | 473      | 892    |
| Medical Personnel .. .. . | 942      | 1,910  |
| Total .. .. .             | 5,475    | 11,215 |

The Ministry has also a programme of publishing literature for social education workers and neo-literates. The Workers' Social Education Institute established at Indore in 1960 as a pilot project of social education for industrial workers continues to function.

The Central Government assists Voluntary Educational Organisations for development of their activities in the field of Social Education. A provision of Rs. 26 lakhs had been made for the Third Five Year Plan period including Mysore Vidyapeeth Programme assisted by the Ford Foundation. Out of this, 55 institutions have been assisted so far (March 1966) to the extent of Rs. 14.67 lakhs.

### VIJNAN MANDIRS

The Vijnan Mandir scheme was launched in 1953 by the Council of Scientific and Industrial Research, to make the rural people science conscious and to make them familiar with the scientific principles involved in the day-to-day problems arising in agriculture and village sanitation.

Upto the end of Third Plan period 52 Vijnan Mandirs have been set up.

A Vijnan Mandir consists of a scientific wing, a library and a museum.

The scientific wing has a laboratory for analysis of soil, water and food and gives demonstrations about common insects and pests, health and hygiene, common diseases and general scientific principles.

The library contains books on science in simple language.

The Museum displays specimens regarding the structure of the human body, the local flora, fauna, minerals, shells, corals, archaeological relics as also improved models of utensils, ploughs, domestic implements etc.

To foster interest competitions are organized—such as essay writing, modelling, etc., and prizes are awarded.

The Vijnan Mandirs are now under the administrative control of the State Governments.

Below we give a State-wise list of Vijnan Mandirs :

**Andhra Pradesh :** Amadalavalasa (Distt. Srikakulam); Rajahmundry (Distt. East Godavari); Vicarabad (Distt. Hyderabad); Kodur (Distt. Cuddappah).

**Assam :** Dimoria (Distt. Kamrup); Hallakandi (Distt. Cachar).

**Bihar :** Haveli-Kharagpur (Distt. Monghyr); Ormanjhi (Distt. Ranchi); Vaishali (Distt. Muzaffarpur); Pusa (Distt. Darbhanga).

**Delhi :** Najafgarh.

**Gujarat :** Shapur (Distt. Junagadh); Valod (Distt. Surat).

**Himachal Pradesh :** Sundarnagar-2 (Bhojpur), (Distt. Mandi).

**Jammu and Kashmir :** Ranbir Singh Pura (Distt. Jammu Tawi).

**Kerala :** Chengannur (Distt. Alleppey); Ramavaramapuram, Pudur (Distt. Palghat); Tirur (Distt. Kozhikode).

**Madhya Pradesh :** Nowgong (Distt. Chattarpur); Sehore (Distt. Sehore).

**Madras :** Ariyagoundampatti (Distt. Salem); Shri Ramakrishna Mission Vidyalaya, Perianaickenpalayam (Distt. Coimbatore); S. V. Nagam (Distt. North Arcot); T. Kallupatti (Distt. Madurai); Korukathi (Distt. Thanjavur); Valavanur (Distt. South Arcot).

**Maharashtra :** Amravati (Shivajinagar) (Distt. Amravati).

**Mysore :** Devaraya Samudram (Distt. Kolar); Mayasandra (Distt. Tumkur); Moodbidri (Distt. South Kanara); Konanur (Distt. Hassan); Shraikoppa (Distt. Shimoga); Ilkal (Bijapur Distt.); Hansbhavi (Bijapur Distt.); Basavakalyan (Bidar Distt.).

**Orissa :** Angul (Distt. Dhenkanal); Bhadrak (Distt. Balasore); Hinjlicut (Distt. Ganjam).

**Punjab :** NQokheri (Distt. Karnal).

**Rajasthan :** Dabok (Distt. Udaipur); Pilsangan (Distt. Ajmer); Sardarshahr (Distt. Churu); Sumervur (Distt. Pali).

**Uttar Pradesh :** Masauli (Distt. Barabanki); Bachhrawan (Distt. Rae Bareilly); Ratsand (Distt. Ballia); Pitauna (Distt. Farukhabad).

**West Bengal :** Barsul (Distt. Burdwan); Ergoda (Distt. Midnapur); Haroa (Distt. 24-Parganas); Itachuna (Distt. Hooghly); Jhillimili (Distt. Bankura).

### FREE AND COMPULSORY EDUCATION

In accordance with the Directive Principle of State policy contained in Article 45 of the Constitution, the State (this expression includes the Government of India, the State Governments and the local bodies) has to endeavour to provide for free and compulsory education to all children until they complete the age of 14 years. The progress so far achieved in this sector is indicated below :—

**Free Elementary Education :** During the last 16 years, considerable progress has been made in reaching the target set before the country by the Constitution. Primary education (classes I-IV in some States and I-V in others) is now free throughout the country. Middle school education is also free in a large number of States such as Andhra Pradesh, Jammu & Kashmir, Kerala, Madhya Pradesh, Maharashtra, Mysore and Punjab. In Gujarat, fee is charged in High Schools corresponding classes V to X. In those States where it is not wholly free as yet, steps have been taken to provide very liberal concessions in fees. Education at primary and middle stages is free for girls and students coming from Scheduled Castes and Scheduled Tribes.

**Compulsory Primary Education :—**Progress in compulsory education is usually measured by the ratio which the enrolment in Classes I to VIII

bears to the total number of children in the age-group 6-14. The ultimate goal is to reach an enrolment in classes I-V which would be about 120 per cent of the population of children in 6-11 age-group (because a number of children below 6 or above 11 will also attend these classes). Similarly, the target for enrolment in classes VI-VIII is about 90 per cent of the children in the

age-group 11-14 because, although a few children of 11 or 14 will attend these classes, a large number of children in the age-group 11-14 will be attending classes I-V. On this basis, the progress made at the end of the Second Plan as well as that which was proposed to be achieved at the end of the Third Plan (revised targets) is given below:—

Classes I-V                      Classes VI-VIII

| Name of the State               | Enrolment at the end of 1960-61 | Targets for 1965-66 | Enrolment at the end of 1960-61 | Targets for 1965-66 |
|---------------------------------|---------------------------------|---------------------|---------------------------------|---------------------|
| Andhra Pradesh .. .. .          | 68.3%                           | 76.1                | 16.8%                           | 25.09               |
| Assam .. .. .                   | 67.7%                           | 76.8                | 25.8%                           | 31.1                |
| Bihar .. .. .                   | 50.7%                           | 59.8                | 17.1%                           | 20.3                |
| Gujarat .. .. .                 | 72.1%                           | 88.2                | 26.3%                           | 35.7                |
| Jammu and Kashmir .. .. .       | 46.6%                           | 72.8                | 24.6%                           | 36.4                |

| Other Union Territories .. .. . | 78.6%                           | —                   | 28.4%                           | —                   |
| All India .. .. .               | 62.4%                           | 79.8                | 22.6%                           | 31.8                |

As against the target enrolment of 22.5 lakh additional children in classes I to V in 1961-62, the actual additional enrolment was 39.92 lakhs. The Third Plan target of 152.2 lakhs additional enrolment has been revised to 173.69 lakhs in classes I to V.

#### WOMEN'S EDUCATION

The percentage of literacy according to the 1961 census is 12.9 for women as against 34.4 for men.

In 1961 total enrolment of girls at all stages was 1,66,44,758 or 45 for every 100 boys. During the same period the number of women teachers was 3,26,433. Out of these 1,39,094 were in

primary schools, 94,264 in middle schools, 71,284 in High/Higher Secondary schools, 8,928 in universities and colleges and the remaining in other types of schools.

In accordance with the recommendations of the National Committee on Women's Education the Government set up the National Council for Women's Education in 1959. Since then, 20 State Councils for Women's Education have also been set up in all the States (except Nagaland) and Union Territories of Delhi, Himachal Pradesh, Manipur, Tripura and Pondicherry.

It has been estimated that resources to the extent of Rs. 175 crores including Rs. 12 crores for special programmes were available for girls' education during the Third Plan. On this Rs. 112 crores were for the education at Elementary stage. The estimated achievement in the enrolment upto the Third Plan will be 56.2 per cent of girls as against 99.6 per cent for boys at the primary stage, 16.7 per cent as against 47.1 at the middle stage, and 7.8 per cent as against 27.3 at the secondary stage. In absolute numbers according to revised estimates, this would mean enrolling additionally 85.4 lakhs of girls out of a total of 230.80 lakhs of children upto the secondary stage.

The percentage increase for boys at the Primary stage is 18.2 as against 14.3 for girls, at the middle stage it would be 11.2 for the boys as against 4.6 for girls, and at the secondary stage it would be 8.8 for boys as against 3.4 for girls. While in terms of enrolment the progress has been remarkable, there have been shortfalls with reference to the targets set at Primary and Middle stages. At the secondary stage however, the targets will be exceeded.

With a view to educating public opinion and organising propaganda for the spread of women's education, it is proposed to hold 22 seminars every year in all the States (except Nagaland) and the Union Territories of Delhi, Tripura, Himachal Pradesh and Manipur. During 1965-66 however, only 4 seminars were proposed to be held in various States and Union Territories.

Keeping in view the long term objectives of providing education for girls, it is proposed that 52.4 per cent at Primary, 29.1 per cent at Middle and 13.0 per cent at Secondary stages should be in school at the end of the Fourth Plan.

As a preparatory step for the preparation of women teachers for the Fourth Plan, a sum of Rs. 26.10 lakhs was allocated to States and Union Territories during 1965-66 under the Advance Action Programmes for the construction of girls' hostels and women teachers' quarters.

To encourage girls' education, a provision of Rs. 32.20 crores has been proposed under States Sector in the Fourth Plan for the special schemes relating to girls' education. The amounts spent by the State Governments will be reimbursed to them on a pattern of Central assistance to be determined. The schemes are: Construction of quarters for women teachers; village allowances for women teacher, appointment of school mothers, construction of hostels for girls, construction of sanitary blocks for girls, etc.

Also the National Council for Women's Education at the Central level and the State Councils for Women's Education at State level, which were set up to advise the governments on matters relating to the education of girls and women, will continue during the Fourth Plan. 100 per cent Central assistance will be continued to be given to the States for organizing seminars on girls' education. A publicity programme consisting of production of two films on Women's Education has been taken up.

#### Plan and Education

The total outlay for General Education in the Third Five Year Plan is Rs. 408 crores. This is nearly double the anticipated expenditure during the Second Plan. The distribution of the outlays during the First, Second and Third Plan is given in the following table:

(Rs. in Crores)

| Group                             | First Plan (Actual Expenditure) | Second Plan (Estimated Expenditure) | Third Plan Outlay |
|-----------------------------------|---------------------------------|-------------------------------------|-------------------|
| Elementary Education .. .. .      | 85                              | 87                                  | 209               |
| Secondary Education .. .. .       | 20                              | 48                                  | 88                |
| University Education .. .. .      | 14                              | 45                                  | 82                |
| Other Educational Schemes .. .. . | 14                              | 24                                  | 29                |
| <b>Total</b> .. .. .              | <b>133</b>                      | <b>204</b>                          | <b>408</b>        |

The achievements under the First Plan and Second Plan and targets aimed at under the Third Plan are indicated below :

| Activity                                                                         | 1950-51  | 1955-56  | 1960-61  | 1965-66<br>(Targets) |
|----------------------------------------------------------------------------------|----------|----------|----------|----------------------|

**Primary School Education:** In the field of primary education, the number of schools in 1946-47 was 1,34,967 as against 3,51,530 in 1961-62. By the end of 1965-66, it is expected to touch four lakhs, which would include 25,000 schools for girls.

**Enrolment:** Enrolment in primary/junior basic schools in 1946-47 was 1,00,47,375 as against 295 lakhs in 1961-62. It is expected to reach 406 lakhs including 136 lakhs girls in 1965-66.

**Teachers:** In 1946-47, the primary/junior basic schools had 3,20,097 teachers as against 7,94,775 in 1961-62. It is estimated to have 10,50,000 teachers including two lakh female teachers in 1965-66.

**Expenditure:** In 1946-47, expenditure on primary education was Rs. 15.26 crores as against Rs. 82.36 crores in 1961-62. In 1965-66, it is expected to be round about Rs. 122 crores which would include 11 crores for girls' education.

**Middle School Education:** The number of middle schools was 8,294 in 1946-47 as against 55,915 in 1961-62. In 1965-66, it is estimated to have 78,000 such schools, which will include 8,000 schools for girls.

**Enrolment:** In middle/senior basic schools, the total number of enrolment in 1946-47 was about 11 lakhs as against 121 lakhs in 1961-62. It is estimated to touch 160 lakhs including 55 lakhs for girls in 1965-66.

**Teachers:** The total number of teachers in middle schools was 48,224 in 1946-47 as against 3.82 lakhs in 1961-62. It is expected to be about 5,20,000 in 1965-66 including 1,40,000 female teachers.

**Expenditure:** In 1946-47, the expenditure on middle school education amounted to Rs. 3.01 crores as against Rs. 48.84 crores in 1961-62. It is expected to be round about Rs. 71.75 crores including Rs. 8.70 crores for females in 1965-66.

**Higher Secondary Education:** The number of institutions at this level in 1946-47 was 3,659 as against 19,306 in 1961-62. It is estimated to touch 26,000 including 4,000 for girls in 1965-66.

**Enrolment:** In high/higher secondary schools, the enrolment was 15.71 lakhs in 1946-47 as against 84.30 lakhs in 1961-62. It is estimated to be 110 lakhs, including 30 lakh girls in 1965-66.

**Teachers:** In 1946-47, there were 64,806 teachers in all high/higher secondary schools as against 3,30,570 in 1961-62. The total number of teachers in these institutions was likely to reach 4,40,000 including 95,000 females in 1965-66.

**Expenditure:** The total expenditure on high/higher secondary education was Rs. 8.92 crores in 1946-47 as against Rs. 79.12 crores in 1961-62. In 1965-66, it was expected to be Rs. 118 crores, including Rs. 24 crores for girls.

**Arts and Science Colleges:** In 1946-47, there were 420 arts and science colleges as against 1,138 in 1961-62. In 1965-66, the number of these colleges is estimated to touch 1,500 including 200 colleges of girls.

**Enrolment:** In 1946-47, enrolment in these colleges was 1.59 lakhs as against 7.25 lakhs in 1961-62. The total enrolment is estimated to touch 10 lakhs, including 1.8 lakh girls during 1965-66.

**Teachers:** The number of teachers was 15,312 in 1950-51 as against 39,068 in 1961-62. It is estimated to have 50,000 teachers including 8,000 women in all the arts and science colleges in 1965-66.

**Expenditure:** In 1950-51, the total expenditure on arts and science education was Rs. 7.17 crores as against Rs. 23.38 crores in 1961-62. It is estimated to touch Rs. 33 crores, including Rs. 4 crores on girls' education in 1965-66.

**Professional Educations:** In 1946-47, the number of professional colleges was 118 as against 961 in 1961-62. It is estimated to have 1,350 professional colleges including 150 colleges for girls in 1965-66.

**Enrolment:** The total enrolment in professional colleges was 41,693 in 1946-47 as against 2,25,574 in 1961-62. It is estimated to be three lakhs including 52,000 girls in 1965-66.

**Teachers:** The total number of teachers in professional colleges was 20,418 in 1961-62. It is estimated to be about 27,300 including 2,750 women teachers during 1965-66.

**Expenditure:** The expenditure on professional colleges amounted to Rs. 1.61 crores in 1946-47 as against Rs. 18.65 crores in 1961-62 while the estimates in 1965-66 were Rs. 35 crores.

### EDUCATION OF THE HANDICAPPED

The Government of India has been making special efforts to promote services for the education, training and rehabilitation of the handicapped. Some of the activities that have been undertaken are : Model school for blind children ; Training centre for the adult blind ; Sheltered workshop ; National library for the blind ; Training centre for the blind and deaf ; school for the mentally deficient children ; central rehabilitation centre for the orthopaedically handicapped ; Training of teachers of the handicapped ; Training in crafts ; Awards of fellowships to teachers of the handicapped ; Special employment exchanges ; scheme of assistance to voluntary organisations for the handicapped ; and scholarships for the handicapped.

### NATIONAL SCHOLARSHIP SCHEME

This scheme was initiated in 1961-62 as a Third Plan scheme and 2,650 awards were made every year during the Third Plan. The scheme is being continued during the Fourth Plan with 4,000 awards a year. 2,800 awards being made on the basis of school Leaving Examination and 1,200 on the results of First degree examination.

The awards made on the results of the school Leaving Examinations will terminate on the completion of the first degree examination and those made on the results of first degree examination will terminate on the completion of the next degree or diploma.

The rate of scholarship for inter/P.U.C. or first year of 3 years course is Rs. 50 per month ; for B.A./B.Sc. etc. and second and third year of 3 years course Rs. 75 per month and for professional courses Rs. 100 per month ; for M.A./M.Sc. studies also the rate is Rs. 100 per month. Those who stay in the hostel are paid Rs. 10 in addition.

**Means Test :** Rates of scholarship are subject to a means test which prescribes that full rate will be paid if the income of the parents is upto Rs. 500 per month ; at half the rate if the income is between Rs. 500 to 1,000 per month. If the income is above Rs. 1,000 per month no scholarship is paid but a certificate of merit is issued.

### SCHOLARSHIPS FOR TEACHERS' CHILDREN

A scheme on the pattern of National Scholarships was introduced from 1961-62 for the meritorious children of primary and secondary school teachers. The number of scholarships was 500 every year during the Third Plan. The Scheme is being continued during the Fourth Plan and 750 awards will be made every year. The child of a teacher, who secures at least 60 per cent marks in the school-leaving or pre-university examination is eligible to apply against the quota of a State/Territory. The rates under the scheme are the same as under the National Scholarships Scheme except that the additional allowance of Rs. 10 per month to resident scholar is not payable under this scheme.

### NATIONAL COUNCIL OF EDUCATIONAL RESEARCH AND TRAINING

With a view to promoting advanced study and research in educational problems and providing training for educational personnel the Govt. of India set up with effect from Sept. 1, 1961 a National Council of Educational Research and Training, an autonomous body recognised under the Societies Registration Act (Act XXI of 1960), with the Union Minister of Education as Ex-Officio President.

The main objectives of the Council are : (i) Promoting, organising and fostering research in all branches of education ; (ii) Organising pre-service and in-service training at an advanced level ; (iii) Organising extension services in the

training institutions in the country in association with the State Governments and other authorities concerned and in other ways disseminating improved techniques and practices in the educational institutions in the country; (iv) Establishing institutes for research and training, particularly for the teaching of vocational and scientific subjects in schools and such other subjects as are required for the development of multi-purpose education; (v) Acting as a clearing house for ideas and information on educational research and training; (vi) Undertaking publication of such books, periodicals and other literature as may be necessary for the furtherance of its objectives; and (vii) Rendering advisory and consultative services.

The Council set up a Central Committee on Educational Literature with the following objectives: (a) To prepare and publish or assist in the preparation and publication of books, supplementary educational material for use in educational institutions, in languages in use in such institutions; (c) To promote and conduct research in the production of text books and other educational literature; (d) To commission writers, illustrators and other experts for preparing specific books; (e) To prepare and bring out book lists, arrange exhibitions and organise effective dissemination of improved techniques to text books production; (f) On behalf of the National Council of Educational Research and Training, to advise the Government of India, the State Governments and other educational organisations and institutions on matters relating to the production of text books and educational literature and to collaborate with them in the furtherance of the objects for which the Committee is set up.

The Committee has in turn set up subject panels/Educational Boards for the preparation of model text books for various subjects. The field in which the panels and Boards work are: Agriculture, Chemistry, Commerce, General Science, Geography, Hindi, History, Maths, Physics, Sanskrit, Social Studies and Technology (for secondary schools), Technology (for technical and vocational schools).

### SCIENCE TALENT SEARCH SCHEME

In order to identify and nurture talented students in science and enable them to use their potentialities to the maximum and help them develop into future scientists, the Science Talent Search Scheme was launched in 1963. In the first year, the scheme was confined to Delhi territory, but since 1964 it has been extended to the country as a whole, except the States of Kerala and Jammu and Kashmir. The examinations are therefore held at District centres in order to select the candidates for the award of scholarships and certificates of merit.

During 1965-66, 325 students were selected for the award of scholarship and another 190 for the award of certificate of merit.

The Science Talent Search Scheme has helped not only in spotting talented students, but more vitally in encouraging various schools to train their boys to take this examination. In this way, the scheme serves to improve science teaching in secondary schools.

The Central Science Workshop has been established with UNESCO assistance.

One of the main functions of the National Council is to promote research by training research workers in different fields of education. For this purpose the Council has instituted a scheme of awarding research fellowships—Junior fellowships of the value of Rs. 300.00 p.m. and senior fellowships of Rs. 500.00 p.m. The Junior Fellowships will be awarded for research at the post-Master's Degree and Senior Fellowships at post-doctoral stage. During 1966-67 it is proposed to award 15 Senior Fellowships and 60 Junior Fellowships.

The National Council of Educational Research and Training has undertaken to conduct various short-term and in-service training courses for research workers, educators and educational Administrators.

The training programmes of the Council are as follows:—

Course in Early Childhood Education; Course in Educational and Vocational Guidance; Course in Research Methodology; Course in Evaluation; Course for Paper Setters and Examiners; Course in Introduction to Programmed Learning; Course for Principals and Heads of Training Institutions; Course for Inspectors of Secondary Education; Course in Laboratory Crafts for Science Teachers; Course in Audio-Visual Education; Course for Craft Teachers; Course for District officers in charge of Social Education.

### BASIC EDUCATION

Basic Education has been adopted as national pattern for elementary stage of education. As a result of this all elementary schools are to be ultimately brought under basic system. About 20 per cent schools have already been converted to basic pattern. The rest are being gradually brought under this system through a programme of 'Orientation'.

### TRAINING COLLEGES

The Government of India also proposed setting up four regional teachers' training colleges as a Central Scheme in the Third Plan. The output of these training colleges would be 200 trained teachers per college a year. The Extension Service centres would be attached to another 25 training colleges in the Third Plan.

### CATERING COLLEGE

The Union Government has started one Catering College at Delhi. There is an Institute of Catering Technology and Applied Nutrition at Bombay. Two colleges one each at Calcutta and Madras started functioning from December 1963. All the four Institutes of Catering Technology and Applied Nutrition, included in the Third Plan, have commenced courses. Arrangements are nearing completion for the establishment of food polytechnics in Uttar Pradesh and Kerala.

### DEVELOPMENT OF HINDI, SANSKRIT AND MODERN INDIAN LANGUAGES

**HINDI:** The programme for the propagation of Hindi includes grant of financial assistance to voluntary Hindi organisations, appointment of Hindi teachers in primary, middle and higher secondary schools in non-Hindi speaking States, establishment of Hindi teachers' training colleges in non-Hindi speaking States, maintenance of an institute of research and training of Hindi teachers, free supply of Hindi books to school and college libraries particularly in non-Hindi speaking areas, award of scholarships for Post-matric Studies in non-Hindi speaking States and award of prizes to Hindi writers and poets belonging to non-Hindi speaking areas. The programme of enrichment and development of Hindi includes schemes of preparation, translation and publication of standard books of university level in Hindi through official and voluntary agencies as well as universities and learned societies, preparation, and translation of books in Hindi with the assistance of private publishing concerns and preparation and publication of encyclopaedias, dictionaries and translation of official literature and evolution of scientific and technical terminology in Hindi.

**SANSKRIT:** Various schemes for propagation and development of Sanskrit are being continued. They include financial assistance to voluntary Sanskrit organisations, gurukulas and Sanskrit pandits in indigent circumstances; maintenance of Kendriya Sanskrit Vidyapeetha; reprinting of important out of print Sanskrit books; scholarships to the products of Sanskrit pathashalas and Sanskrit students in high/higher secondary schools. This is in addition to what is being done by the State Govts. in this regard.

**MODERN INDIAN LANGUAGES:** A separate programme is implemented for the development of modern Indian languages (other than Hindi) under which grants are given to various

State Governments, voluntary organisations, institutions for bringing out suitable publications e.g. encyclopaedias, bilingual dictionaries, books of knowledge and books bringing out similarities among different languages.

The Fourth Five Year Plan envisages an outlay of Rs. 12 crores in the Central Sector, for schemes relating to Development of Hindi, Sanskrit and Modern Indian Languages. In addition to the existing programmes several new schemes are proposed to be undertaken.

**Financial provisions for the propagation and Development of Hindi during 1965-66:** Appointment of Hindi teachers Rs. 15 lakhs; Hindi Teachers' Training Colleges Rs. 10 lakhs; Kendriya Hindi Shikshan Mandirs Rs. 6.50 lakhs; Grants to Voluntary Hindi Organisations Rs. 12 lakhs; Free gift of Hindi books to Non-Hindi Speaking States Rs. 2 lakhs; Hindi Encyclopaedia Rs. 2 lakhs; Prizes on Hindi Books Rs. 0.20 lakhs; Commission Schemes Rs. 27.90 lakhs; Directorate Schemes Rs. 14.49 lakhs; Total Rs. 90.13 lakhs.

Provision for Development of Sanskrit for 1965-66: Rs. 27.17 lakhs; Provision for Modern Indian Languages for 1965-66: Rs. 10 lakhs.

### CENTRAL BOARD OF SECONDARY EDUCATION

17-B, Indraprastha Marg, New Delhi 1.

The Central Board of Secondary Education has been constituted with a purpose to bring in some uniformity in the pattern of Secondary Education and also to meet the educational needs of the students whose parents have to move from one State to another from time to time.

The Board conducts All-India Higher Secondary, Higher Secondary (3-year Course), Higher Secondary Multipurpose and Higher Secondary (1-year Course) Examinations.

Any educational institution situated in or outside India can get itself affiliated to the Board. All the Higher Secondary schools of Delhi, Central Schools run by Central Schools Organization, Govt. of India, Ministry of Education, Military schools, run by Ministry of Defence, Demonstration Multipurpose Higher Secondary schools attached to the Regional Colleges of Education, National Council of Educational Research & Training are affiliated to this Board. The Union Territory of Manipur has decided to follow the courses and syllabi of the Board. The schools in Andaman & Nicobar and Laccadive Islands as well as the Govt. Higher Secondary School of Panjim, Goa and the Tibetan refugee school, Mussoorie run by the Tibetan Society, Ministry of Education, Govt. of India are also affiliated to the Board besides the Indian School in Teheran (Iran). The Board has under consideration a proposal to introduce correspondence courses at the higher secondary stage for the benefit of such students as are unable to join any institution.

### UNIVERSITY EDUCATION

Position on 31st December 1963:—

No. of Universities: 55.

No. of Institutions deemed to be Universities: 7. Arts, Science & Commerce colleges 1,418. Total no. of students (excluding Intermediate Board of Education in U.P.): 11,84,697. No. of professional colleges: 693.

Figures as on March 31, 1963:

No. of Colleges 1,938 (university colleges 133; affiliated colleges 1,805). These figures do not include colleges under Intermediate Boards. Number of Arts, Science and Commerce colleges 1,283 (university colleges 73; affiliated colleges 1,210).

The total number of Women's colleges that came up in 1962-63 was 24 thus raising the total of such colleges to 235.

Total enrolment of students in the universities and colleges rose to 12,72,666 which showed an increase of 10.5 per cent (i.e. 1,17,266 over the enrolment for 1961-62. Out of 12,72,666 about

2.23 lakhs were women students. Total number of teachers in the universities and colleges: 66,370 including tutors and demonstrators but exclusive of teachers in intermediate colleges.

The Third Plan allotment, for development of University Education, to be placed at the disposal of Univ. Grants Commission, was Rs. 37 crores. This is exclusive of the allocation for Engineering and Technology at the Universities.

The policy in regard to university education is largely the one recommended by the Indian University Education Commission which made a report in 1949. (This report is summarized in a previous edition.)

There is now a University Grants Commission. (See also the note below.) Its duty is to take such steps as it thinks fit for the promotion and co-ordination of university education and for the determination and maintenance of the standards of teaching, examination and research.

The U.G.C. continued its grant giving activities during 1963-64 and grants were released not only for development schemes in the various fields under Humanities, Science and Technology, but also assistance was given to universities and colleges towards the implementation of minor projects like establishment of Students Aid Fund, Hobby Workshop, construction of Health Centres, Non-resident student centres, purchase of library books, etc.

**Admissions:** The U.G.C. has suggested to the universities that for the present, as a first step, the minimum age of 16 might be prescribed for admission to the first degree course in arts, science and commerce. A majority of the universities have accepted the suggestion.

### Universities

There are in all 62 universities in India. The University Grants Commission has appointed a committee to prepare a broad outline plan for the new Universities to be established during the Third Plan period, taking into account the requirements of the country and the resources available for the purpose.

The Central Universities are four: Aligarh, Banaras, Visva Bharati and Delhi.

It may be mentioned here that for purposes of employment under the Central Government the degrees and diplomas of various institutions besides the universities mentioned below are recognized.

Among the institutions are: Gurukul Vishwa Vidyalya, Hardwar; Jamia Millia Islamia, Delhi; Kaashi Vidyapith, Varanasi; Gujarat Vidyapith (degrees awarded during 1920-22); Tilak Maharashtra Vidyapith, Poona (degrees awarded prior to 1932); Tata Institute of Social Sciences, Bombay; National Council of Rural Higher Education; and Qanuni Vidyapith, Lahore (degrees awarded upto 1927).

The names of the Universities with the names of Vice-Chancellors are given below:—

**Agra University.**—Dr. Ranjan.  
**Aligarh University.**—Dr. Nawab (Mirza Ali Yar Khan) Ali Yavar Jung Bahadur, B.A. (Hons.), (Oxford.), Padma Bhushan.  
**Allahabad University.**—R. K. Nehru.  
**Andhra University.** (Waltair).—Dr. K. R. Srinivasa Iyengar.  
**Andhra Pradesh Agricultural University** (Hyderabad): O. Pulla Reddy, I.C.S. (Rtd.).  
**Annamalai University** (Annamalainagar).—Prof. S. P. Adinarayanan (Acting).  
**Banaras Hindu University.**—Dr. Triguna Sen.  
**Bangalore University.**—Prof. V. K. Gokak.  
**Bhagalpur University.**—Dr. B. N. Singh.  
**Bihar University** (Muzaffarpur).—B. M. K. Sinha.  
**Bombay University.**—Dr. P. B. Gajendragadkar, M.A., LL.B.  
**Burdwan University.**—Dr. D. M. Sen.  
**Calcutta University.**—Dr. Bidhubhusan Mallik.  
**Delhi University.**—Dr. C. D. Deshmukh.  
**Dibrugarh University** (Dibrugarh).—Dr. B. B. Seth.  
**Gauhati University.**—Dr. M. N. Goswami.  
**Gorakhpur University.**—Prof. Madan Mohan.

**Gujarat University** (Ahmedabad).—Lalbhai Ratanji Desai, B.A., B.T., T.D. (Lond.).

**Indira Kala Sangeet Vishwavidyalaya** (Khairagarh).—P. N. Chinchore, M.A.M. Mus.

**Indore University.**—H. S. Kamath.

**Jabalpur University** (Jabalpur).—Dhirendra Verma.

**Jadavpur University** (Calcutta 32).—Prof. Hem Chandra Guha.

**Jammu & Kashmir University** (Srinagar).—T. M. Advani, M.A., LL.B.

**Jawaharlal Nehru Krishi Vishwavidyalaya**, Jabalpur.—Dr. J. S. Patel.

**Jiwaji University, Gwalior.**—S. S. Bhandarkar.

**Jodhpur University.**—Dr. M. L. Roonwal.

**Kalyani University.**—Dr. S. N. Das Gupta.

**Kameshwar Singh Darbhanga Sanskrit Vishwavidyalaya** (Darbhanga).—Mahamahopadhyaya S. V. Sohoni.

**Kanpur University**, Kanpur.—Acharya Jugal K. Shore.

**Karnatak University** (Dharwar).—D. C. Pavate, M.A. (Cantab.).

**Kerala University** (Trivandrum).—V. Narayana Pillai.

**Kurukshetra University** (Kurukshetra).—Deep Chand Varma.

**Lucknow University.**—Dr. A. V. Rao.

**Madras University.**—Lt.-Col. Diwan Bahadur Sir A. Lakshmanaswami Mudaliar, B.A., M.D., LL.D., D.Sc., B.C.L. (Oxon.), D.Litt., F.R.C.O.G., F.A.C.S.

**Madurai University.**—T. P. Meenakshi Sundaram.

**Magadh University.**—Zawar Hussain.

**Maharaja Sayajirao Univ. of Baroda.**—Dr. C. S. Patel, B.A., M.Sc. (Bom.), Ph.D. (Leeds.).

**Marathwada University** (Aurangabad).—Dr. N. R. Tawde, B.A. (Hons.), B.Sc. (Bom.), M.Sc. (Bom.), Ph.D. (Lond.), F. Inst. P., F.N.I., F.A.Sc.

**Meerut University.**—Dr. R. K. Singh.

**Mysore University.**—Dr. K. L. Shrimall, M.A., Ph.D.

**Nagpur University.**—Dr. V. B. Kolte.

**North Bengal University** (Siliguri).—Prof. A. C. Roy.

**Orissa University of Agriculture and Technology** (Bhubaneswar).—K. Ramiah.

**Osmania University** (Hyderabad).—Dr. D. S. Reddi, M.A. (Oxon.).

**Punjab University** (Chandigarh).—Suraj Bhan, M.A. (Pb.), M.A. (Lond.).

**Patna University.**—Dr. K. K. Datta.

**Poona University.**—Prof. D. R. Gadgil.

**Punjab Agricultural University** (Ludhiana).—P. N. Thapar.

**Punjab University** (Patiala).—Klripal Singh Narang.

**Rabindra Bharati** (Calcutta).—H. Banerji.

**Rajasthan University** (Jaipur).—Prof. M. V. Mathur.

**Ranchi University.**—A. F. Markham.

**Ravishanker University**, Raipur.—Dr. B. R. Saxena.

**Roorkee University.**—M. R. Chopra.

**Sardar Vallabhbhai Vidyapeeth** (Vallabh Vidyanagar, Kaira Dist., Gujarat).—I. J. Patel, M.A., B.T.

**Saugar University.**—Dr. M. P. Sharma.

**Saurashtra University**, Ahmedabad.—D. R. Mankad.

**S. N. D. T. Women's University** (Bombay).—Dr. (Smt.) Premilla V. Thackersey, D.Litt. (Banaras).

**Shivaji University** (Kolhapur).—Dr. A. G. Pawar.

**South Gujarat University**, Ahmedabad.—C. C. Shah.

**Sri Venkateswara University** (Tirupati, Andhra).—Dr. V. C. Vaman Rao, M.A., Ph.D. (Dublin).

**U. P. Agricultural University** (Pant Nagar).—D. P. Singh.

**Udaipur University** (Udaipur).—Dr. G. S. Mahajan, B.A. (Bom.), M.A. (Cantab.), Ph.D. (Cantab.).

**University of Agricultural Science, Hebbal, Bangalore.**—Dr. K. C. Nalk.

**Utkal University** (Bhubaneswar).—Dr. Soda Siva Misra.

**Varnaseya Sanskrit Vishwavidyalaya** (Varanasi).—Prof. Surendra Nath Shastri.

**Vikram University** (Ujjain).—N. D. Vajpeyi.

**Visva Bharati University** (Santiniketan).—Dr. K. Bhattacharya.

Names of institutions deemed to be universities:

**Birla Institute of Technology and Science, Pilani.**—Director: Prof. V. Lakshmi Narayanan.

**Gujarat Vidyapith** (Ahmedabad): Vice-Chancellor: Thakorbhai Desai.

**Gurukul Kangri Vishwavidyalaya** (Hardwar): Vice-Chancellor: Col. Satyavrata Sidhantankar.

**Indian Agricultural Research Institute** (New Delhi): Director: Dr. M. S. Swaminathan.

**Indian Institute of Science** (Bangalore): Director: Dr. S. Dhawan.

**Indian School of International Studies** (New Delhi): Director: Dr. M. S. Rajan.

**Jamia Millia Islamia** (New Delhi): Vice-Chancellor: Prof. M. Mujeeb.

**Kashi Vidyapith** (Varanasi): Vice-Chancellor: Birbal Singh.

**Tata Institute of Social Sciences** (Bombay): Vice-Chancellor: Dr. M. S. Gore.

The following are some of the major Schemes, being implemented during the Third Plan period out of assistance from the University Grants Commission.

(1) Institution of permanent Chairs or Lecturerships named after Dr. Rabindra Nath Tagore in selected Universities; (2) Setting up of Film Clubs in Universities; (3) Schemes for teaching languages of other regions; (4) Research in Social Tensions; (5) Research in Social Welfare; (6) Collection, preservation and utilisation of manuscripts in university libraries; (7) Scheme for publication of approved research or learned research works; (8) Extension work by University teachers; (9) Establishment of Priority Presses in Universities; (10) Construction of staff clubs-cum-guest houses; (11) Development of Museology in Indian Universities; (12) Development of Department of Archaeology in selected universities; (13) Development of Linguistic Studies in Universities; (14) Establishment of Advance Centre of Studies; (15) Organisation of Summer Institutes and Seminars; (16) Establishment and improvement of Central Workshops in Universities; (17) Development of Post-graduate Education in Science subjects in selected affiliated Colleges; (18) Scheme for setting up Industrial Estates in selected universities; (19) Construction of Gandhi Bhawans in selected universities; (20) Scheme for scholarships for study of regional languages; (21) Grants to affiliated Colleges for:—(a) Non-Resident Students' Centres (Maximum Rs. 35,000); (b) Hobby Workshops (Maximum Rs. 20,000); (c) Construction of Hostels (50: 50); (d) Extension of Libraries, including purchase of books (2/3: 1/3); (e) Extension of Laboratories and purchase of equipment after taking into account the assistance that may have been given or may be given under the Three-Year Degree Course Scheme (2/3: 1/3); (f) Construction of staff quarters (50: 50); and Revision of salary scales of teachers in Universities and affiliated colleges.

Under a programme jointly sponsored by the Gandhi Smarak Nidhi and University Grants Commission, Gandhi Bhawans are to be set up in universities to promote and facilitate the study of Gandhiji's ideals and his way of life. Initially, construction of Gandhi Bhawans is to be undertaken in nine universities including Delhi, Kerala, Allahabad, Andhra, Karnatak, Mysore, Punjab, Nagpur and Rajasthan.

The total cost of the building at Delhi University, which has been designed by Stein, Chatterjee and Polk, architects, is estimated at Rs. 1,60,000 which will be shared between the Gandhi Smarak Nidhi and University Grants Commission.

The main object in establishing these Bhawans is to provide within the university campus a suitable place to keep Gandhian literature; to hold study classes and discussions on the life, ideals and work of Mahatma Gandhi; to arrange for lectures on these topics and to encourage students to undertake such items of constructive work as can be done inside or close to the campus, which will reflect the ideas and methods of work indicated by Mahatma Gandhi.

The University Grants Commission has selected 39 colleges from 17 universities, which fulfil the prescribed conditions, for introducing the scheme of hobby workshops.

The universities are: Agra, Andhra, Bombay, Calcutta, Delhi, Gauhati, Gorakhpur, Gujarat, Kerala, Madras, Mysore, Nagpur, Punjab, Poona, Rajasthan, Saugar and S. V. Vidyapeeth.

So far, assistance has been given for the establishment of 13 workshops in universities and 68 in colleges. During 1962-63, the U.G.C. paid

Rs. 1,82,840 to colleges and Rs. 29,767 to universities for the establishment of hobby workshops.

#### Medium of Regional Languages in Universities

The progress made so far (Aug. 1962) in respect of imparting education through the medium of the regional languages in the universities:

Out of 58 universities, 34 provided facilities for teaching through the medium of Hindi or regional languages. Students of these universities were allowed to answer question papers in Hindi or in the regional languages.

Four universities—Agra, Banaras, Jabalpur and Vikram—offered courses in Hindi up to M.A. and M.Com. standards. Seventeen universities—Aligarh, Allahabad, Bhagalpur, Bihar-Delhi, Gorakhpur, Indra Kala Sangeet, Kurukshetra, Lucknow, Magadh, Osmania, Patna, Punjab, Rajasthan, Ranchi, Varanaseya Sanskrit Vishwavidyalaya and Saugar—provided facilities for examinations in Hindi up to the degree level.

Thirteen other universities—Bombay, Burdwan, Calcutta, Gujarat, Kalyani, Madras, Marathwada, M. S. University of Baroda, Nagpur, Poona, Sardar Vallabhbhai Vidyapith, S.N.D.T. and Visvabharati—permitted the use of

regional languages for instructions up to the degree level.

Twelve universities—Andhra, Annamalai, Gauhati, Jadavpur, Jammu and Kashmir, Karnatak, Kerala, Mysore, Roorkee, Sri Venkateswara, U.P. Agricultural and Utkal—continue to provide teaching examination through the medium of English.

Information on the medium of instruction was still awaited from 12 universities—Agricultural University, Ludhiana, Punjabi University, Patiala, Jodhpur University, Jodhpur, Rajasthan Agricultural University, Udaipur, Rabindra Bharati, Calcutta, North Bengal University, Siliguri, K. S. Darbhanga Sanskrit University, Indian Institute of Science, Bangalore, India Agricultural Research Institute, New Delhi, Indian School of International Studies, New Delhi, Gurukula Kangri Vishwavidyalaya, Haridwar and Jamia Millia Islamia, New Delhi.

Thirteen universities had adopted Hindi as the medium of instruction in different courses, the names of which are Banaras, Bhagalpur, Bihar, Indra Kala Sangeet Vishwavidyalaya, Jabalpur, Jodhpur, Lucknow, Magadh, Patna, Ranchi, Sardar Vallabhbhai Vidyapeeth, Saugar and Vikram.

## POPULATION

**Note:**—Unless otherwise stated the following article is based on the 1961 census which is the latest.

Preparations for the 1961 Census began in July 1958. There were six stages in the census operations beginning with the checking of the boundaries of States and Union Territories and their constituents and ending with the actual census count which ended at sunrise on March 1, 1961. The count started on the morning of February 10, 1961.

India constitutes only 2.4 per cent of land of world surface but accounts about 15 per cent of the world's population. India's population is larger than the combined population of Africa and South America.

The 1961 census covered the whole country except portions of Jammu & Kashmir currently under the occupation of Pakistan and China. The 1951 census did not cover Jammu and Kashmir, N.E.F.A. and Nagaland.

The census closed on the evening of March 5 and the first results began to flow in on 6th March.

About a million persons were employed as census agency—both enumeration and supervisory—in about 800,000 blocks.

The population of India has registered an unprecedented increase of 21.5 per cent from 359 million in 1951 to 439 million in 1961 according to the 1961 census figures.

The increase is in excess of the upper limit of all the recent projections and is eight million more than the projected population of 431 million in 1961 on which the Third Plan is based.

The number of cities with a population of more than a million has gone up from five to six or seven, the number and the order of precedence varying with the definition adopted.

#### URBAN DENSITY

Greater Bombay ranks first with 4.15 million and Calcutta second with 2.93 million, Delhi (including New Delhi, Shahdara and the Cantonment) third with 2.34 million, Madras fourth with 1.73 million, Hyderabad fifth with 1.25 million, and Ahmedabad sixth with 1.15 million.

If, however, the population of Calcutta (including 34 contiguous urban townships in a compact area of 164 sq. miles) is aggregated, "Greater Calcutta" ranks first with 5.55 million inhabitants. Similarly, "Metropolitan Bangalore" has a population of 1.21 million.

The density of population for the country works out to 370 per square mile as against 812 in 1951.

The highest urban density is to be found in Calcutta city (75,038). This compares with

22,293 per square mile in Greater Bombay and 55,208 in Madras.

The City-Sadar-Paharganj area of Delhi, however, has a density of 143,185 persons per sq. mile and the Karolbagh-Patel Nagar area of Delhi a density of 74,195. According to the final census reports these two areas "can be counted in the forefront of the world's highest density areas."

The highest increase in urban population during the last ten years has been recorded in Assam (116.69 per cent). Orissa comes next with 87.02 per cent, followed by Bihar, 49.08 per cent. Madhya Pradesh showed an increase of 47.76 per cent while Kerala 42.44 per cent.

India's population is estimated at 498.9 million in the middle of 1966.

#### SEX RATIO

The sex ratio—the number of females per 1,000 males—is now 941 as compared with 946 in 1951. There has been a steady decline in this ratio since 1901.

Another odd feature is that the sex ratio is above unity in distinct bands of territory, especially, along the coast. The State-wise sex ratio is also appreciably lower north of latitude 22 degrees.

Literacy has registered a small increase from 16.6 per cent in 1951 to 23.7 per cent in 1961.

The test for literacy is satisfied if a person can both read and write with understanding.

#### LITERACY RATE

The literacy rate is highest in Delhi, Kerala, the Andamans, Gujarat, Madras and Maharashtra in that order and lowest in Kashmir, Himachal Pradesh, Rajasthan, Madhya Pradesh, Uttar Pradesh, and Bihar in that order.

Female literacy continues to be far below male literacy, but again, oddly enough, the coastal belt generally exhibits a higher rate of female literacy than other areas.

Of the enumerated population (of 439 million), 82.16 per cent is rural and 17.84 per cent urban. This compares with 82.62 per cent and 17.38 per cent in 1951.

The growing rate of literacy is being outpaced by illiteracy.

This is because of the unchecked increase in population.

Literacy increased from 17 per cent in 1951 to 24 per cent in 1961, the last census year.

The number of illiterates also increased from 298 million to 334 million.

#### INCREASE IN RATE OF SURVIVAL

The answer to the high population increase over the last four decades is not far to seek. In 1881 the Census Actuary computed a birth rate of 50.5 for Bombay, 47.9 for Bengal and 50.8 for Central Provinces and effective death rates of 42.5, 39.9 and 42.8 for the general population. He estimated expectation of life at birth at 23.67 for males and 25.58 for females (24.63 for general). In 1891, the rates did not show any marked change, the overall figures for India being a birth rate of 48.8 and a death rate of 39.6, expectation of life at birth for males being 24.59 and for females 25.54. In 1911 the birth rate for combined provinces was still estimated at 51.3 and the death rate at 43.1 while the expectation of life at birth had decreased to 22.59 for males and 23.31 for females from 23.63 and 23.96 respectively in 1901. In 1921, as a result of minor epidemics culminating in the great influenza epidemic of 1918, the birth and death rates stood very close to each other at 49.2 and 48.6. These rates diminished to 46.4, 45.2 and 39.9 for birth, 36.3, 31.2 and 27.4 for deaths in 1931, 1941 and 1951 respectively. The expectation of life at birth in 1931 was estimated at 26.91 for males and 26.56 for females; for 1951 the corresponding figures were 32.45 and 31.66. While close estimates of birth and death rates for the decade 1951-61, must await detailed age tabulations there are reasons to assume that the birth rate will be around 18 or still lower, for there is little doubt that the rate of natural increase has been steadily accelerating from year to year. Although the current infant mortality rate is still quite high the expectation of life at birth in 1961 would be a little more than 45. In other words, over the last decade, the expectation of life must have increased by more than a year every year.

#### GROWTH OF POPULATION FROM 1901-1961

| Years | Persons     | Percentage (Approx.) |
|-------|-------------|----------------------|
| 1901  | 236,281,245 | ..                   |
| 1911  | 252,122,410 | + 5.73               |
| 1921  | 251,352,261 | - 0.31               |
| 1931  | 279,015,498 | + 11.01              |
| 1941  | 318,701,012 | + 14.22              |
| 1951  | 361,129,622 | + 13.31              |
| 1961  | 439,235,082 | + 21.50              |

+ denotes increase; — denotes decrease.

## POPULATION, AREA, DENSITY, SEX RATIO BY STATE

| States/Union Territories                 | Area in Sq. miles | Population         |                    |                    | Variation 1951-61 | Percentage increase 1951-61 | Females per 1,000 males 1961 | Females per 1,000 males 1951 | Population per Sq. mile 1961 | Population per Sq. mile 1951 |

Names of districts showing within brackets the names of talukas and their area in square miles respectively under each district:

**Bankura Dist.** (Sadar, 1,933; Vishnupur, 714); **Birbhum Dist.** (Rampurhat, 606; Sadar, 1,137); **Burdwan Dist.** (Asansol, 624; Kalna, 385; Katwa, 409; Sadar, 1,287); **Calcutta Dist.** (Calcutta Municipal Area, 28 Acres); **Cooch Behar Dist.** (Dinhata, 272; Mathabhanga, 343; Mekliganj, 199; Sadar, 285; Tufanganj, 224); **Darjeeling Dist.** (Kalimpong, 408; Kurseong, 164; Sadar, 361; Siliguri, 266); **Hooghly Dist.** (Arambag, 413; Chandernagore, 388; Sadar, 446; Serampur, 160); **Howrah Dist.** (Sadar, 174; Uluberia, 386); **Jalpaiguri Dist.** (Alipur Duars, 1,079; Sadar, 1,296); **Malda Dist.** (Sadar, 1,296); **Midnapur Dist.** (Contai, 912; Ghatal, 369; Jhargram, 1,186; Sadar, 2,038; Tamluk, 749); **Murshidabad Dist.** (Jangipur, 437; Kandi, 454; Lalbagh, 522; Sadar, 659); **Nadia Dist.** (Ranaghat, 540; Sadar, 969); **Purulia Dist.** (2,408); **24 Parganas Dist.** (Bangaon, 320; Barasat, 384; Barrackpur, 119; Basirhat, 818; Diamond Harbour, 1,262; Sadar, 1,107); **West Dinajpur Dist.** (Balurghat, 580; Islampur, 759; Raiganj, 865).

**Himachal Pradesh:** **Bilaspur Dist:** Bilaspur Sadar: 215; 79,043; Ghumarwin: 236; 79,501.

**Chamba Dist:** Chamba: 791; 69,034; Bhattiyat: 250; 48,089; Churah: 669; 56,118; Bharmour: 638; 5,582; Pangl: 787; 11,644.

**Kinnaur Dist:** Nichar, Kalpa, Pooh Sub-Divisions: 2,500; 40,640.

**Maharash Dist:** Rampur: 853; 43,757; Jubbal: 105; 17,636; Arki: 156; 38,688; Chopal: 375; 40,384; Rohru: 580; 51,805; Kumbharsain: 134; 23,822; Solan: 108; 34,938; Kusumpti: 151; 27,098; Theog: 163; 41,014; Suni: 93; 18,750; Kotkhal: 69; 20,545.

**Mandi Dist:** Mandi Sadar: 202; 92,924; Joginder Nagar: 445; 68,412; Sarkaghat: 202; 84,360; Chachlot: 351; 57,518; Sunder Nagar: 168; 42,415; Karsog: 252; 37,978.

**Sirmur Dist:** Nahan: 214; 32,519; Paonta: 231; 61,336; Renuka: 380; 63,642; Pachhad: 316; 40,087.

**Manipur\*:** Names of Districts with Sub-Divisions with area in square miles and population respectively within brackets of the latter are as follows:

**Manipur Plains District** (Bishenpur: 196; 79,031; Imphal West (including Imphal town): 292; 2,99,863; Jiribam: 264; 18,143; Hills District (Mao: 982; 70,102; Tamenglong: 1,772; 36,554; Tengnongpa: 1,352; 27,651; Thonbal: 200; 1,35,133; Ukhrul: 1,832; 48,475; Churachandpur: 1,738; 63,276).

**Pondicherry\*:** Area and population by Communes: Pondicherry: 113.4 sq. miles; 2,58,590; Karaikal: 57.6 sq. miles; 88,986; Mahe: 3.2 sq. miles; 19,478; Yanam: 6.7 sq. miles; 7,029.

**Estimated population:** 1966: 4,14,335; 1971: 4,67,612; 1976: 5,26,959.

**Tripura\*:** Names of the Sub-Divisions with area in square miles and population respectively are as follows:

Amarpur: 1,365; 56,289; Belonia: 1,020; 76,133; Dharmanagar: 662; 1,14,370; Kailashahar: 1,202; 1,04,247; Kamalpur: 622; 61,737; Khowal: 1,393; 1,29,935; Sabroom: 616; 43,361; Sadar: 1,559; 3,65,827; Sonamura: 531; 77,932; Udulpur: 637; 90,119.

The average birth rate, on the basis of incomplete data, was estimated to be about 34 per 1,000 in 1941-50, and apart from fluctuations usual for such a high figure, has not registered any serious decline during the last few years.

The estimated death rate shows a steady decline from 42.6 per 1,000 in 1901 to 27.4 in 1951 and 21.6 in 1961. Infant mortality has dropped from 232 in 1901 to 98 in 1960.

The expectation of life at birth has increased from 23 years in 1931 to 42 in 1961.

#### Registered Foreigners in India

As many as 59,744 registered foreigners were reported to be resident in India on December 1, 1962, as against 61,705 in 1961.

The principal nationalities were: Tibetan—14,988; Chinese—10,627; Iranian—4,501; American—4,421; Afghan—3,648; German—2,930; Burmese—1,623; Russian—1,581; French—1,047; Italian—1,044; Japanese—937.

These figures do not include children below the age of 16 years and nationals of Commonwealth countries.

Consequent on the expiry of the Sino-Indian Agreement, exemptions from the provisions of the Indian Passport Rules, 1950, and the Foreigners (Protected Areas) Order, 1958, allowed to certain categories of Tibetans have been withdrawn.

The number of visas granted to foreigners during 1962 totalled 63,529.

#### WORKING CLASS—SCH. CASTES & SCH. TRIBES.

Statewise population of Scheduled Castes & Scheduled Tribes Workers (male and female) respectively is:—

**Sch. Castes:** Andhra Pradesh 2,512,325; 2,461,291; Assam 389,271; 343,485; Bihar 3,218,935; 3,317,940; Gujarat 693,436; 673,819; Jammu & Kashmir 134,765; 133,756; Kerala 705,709; 716,348; Madhya Pradesh 2,155,875; 2,097,875; Madras 8,047,613; 3,024,923; Maharashtra 1,135,191; 1,091,723; Mysore 1,586,547; 1,530,685; Orissa 1,371,410; 1,392,448; Punjab 2,208,473; 1,930,633; Rajasthan 1,747,476; 1,612,164; Uttar Pradesh 7,944,364; 7,472,881; West Bengal 3,629,182; 3,321,544.

Andaman & Nicobar Islands (Nil); Delhi 189,470; 152,085; Himachal Pradesh 191,429; 178,487; L. M. and A. Islands (Nil); Manipur 6,886; 6,490; Tripura 62,069; 57,656; Dadra and Nagar Haveli 498; 686; Goa, Daman & Diu (Nil); NEFA (Nil); Nagaland 80; 46; Pondicherry 28,804; 28,057. Note: R = Rural. U = Urban.

The percentage of religionwise population to the total population in the country and the percentage increase during 1951-61 in brackets are : Buddhists 0.74 (16.71) ; Christians 2.44 (27.33) ; Hindus 83.51 (20.29) ; Jains 0.46 (27.17) ; Muslims 10.69 (25.61) ; Sikhs 1.79 (25.13) ; others 0.37 (—13.07).

# RESEARCH

**R**ESearch in pure science is carried out mainly in the universities, scientific surveys of the Government, and in some research institutes such as the Tata Institute of Fundamental Research. The Council of Scientific & Industrial Research (C.S.I.R.) and the Department of Atomic Energy provide facilities for fundamental or basic research in their laboratories and institutes, and also sponsor such research in universities and research institutions all over the country.

Research in applied science and for industrial development is done mainly under the auspices of the C.S.I.R., the Co-operative Industrial Research Associations, institutes functioning under various Ministries and the laboratories attached to a few industrial concerns.

The Shri Ram Institute for Industrial Research, Delhi, undertakes, on a 'non-profit' basis, researches on projects sponsored by industrial concerns, groups of companies, individuals and Government agencies.

Research in engineering subjects is undertaken in some of the C.S.I.R. laboratories and institutes, the Indian Institute of Science, Bangalore, Central and State Hydraulic Engineering Research Stations, higher technological institutions, like the Indian Institute of Technology, Kharagpur, and in a few engineering colleges, such as the College of Engineering and Technology, Jadavpur.

The Council of Scientific & Industrial Research, also sponsors engineering research in various institutions through its research committees.

Agricultural research is looked after by the Indian Council of Agricultural Research, New Delhi, The Indian Agricultural Research Institute, New Delhi, and the various Central Committees for agricultural commodities like the Indian Central Cotton Committee, Indian Central Jute Committee, etc. and the research institutes functioning under the Ministry of Food and Agriculture. (See article on Agriculture.)

The Indian Veterinary Research Institute, Izatnagar (U.P.) is concerned with veterinary diseases. The National Dairy Research Institute at Karnal in the Punjab works on dairy research.

Research in forestry and forest products is undertaken by the Forest Research Institute and Colleges at Dehra Dun.

Medical research is carried out under the auspices of the Indian Council of Medical Research, institutes functioning under the Ministry of Health, and the Council of Scientific and Industrial Research.

Research in the humanities—literature, language, the arts, etc.—is done at individual institutions scattered throughout the country.

Research in social problems such as social tensions, social welfare and labour welfare is conducted as part of their work at many universities.

About 275 research journals (English) are published in India. These cover a wide range of subjects, grouped as follows: General science, 31; Engineering, including civil, electrical, telecommunication and aeronautical, 31; Chemistry, including biochemistry, chemical technology, plastics, paint, oils and fats, soap, and food, 21; Agriculture, including forestry, 25; and Medical sciences, 64.

The Third Plan outlays for the development in Scientific and Technological Research under different categories were as follows (Rs. crores):—Council of Scientific and Industrial Research (incl. field experiments) and Ministry of Scientific Research and Cultural Affairs 35.00; Department of Atomic Energy 35.00; Agricultural Research 26.40; Medical Research 3.50; Research under other Central Ministries (other than Defence) 30.89. Total 180.00.

## SCIENTIFIC SOCIETIES

*Role of Scientific Societies:* The part played by scientific societies has varied with social factors involved in their formation, the stage of development of science and the problems engendered by it and the particular objective set by a specific group of scientists. Broadly, the role of scientific societies has been:

(i) Bringing together of scientists specialized in the same area of knowledge; (ii) Affording them an opportunity for inter-communication of ideas within a discipline or between various disciplines through conferences, special discussions and publication of journals; (iii) Serving as a platform for discussing general problems of science, such as organization, education, problems of manpower; (iv) Acting as a forum for crystallization of ideas regarding the relation of science to society and as a centre for disseminating and popularizing science; (v) Recognizing contributions to science of its members by conferring distinctions on them.

## PHYSICAL SCIENCE SOCIETIES

*Indian Mathematical Society:* Hansraj College, Delhi-6; *Indian Geographical Society:* University Centenary Buildings, Madras-5; *Institution of Chemists (India):* Chemical Department, Medical College, Calcutta-12; *The Indian Physical Society:* 2 and 3, Raja Subhod Mallik Road, Jadavpur, Calcutta-32; *Calcutta Statistical Association:* Calcutta University, Asutosh Building, Calcutta-12; *National Geographical Society of India:* Department of Geography, B.H.U., Varanasi-5; *Hyderabad Science Society:* 12-2-460, Malkapur, Asifnagar, Hyderabad-6 (A.P.); *Deccan Section of the Royal Institute of Chemistry:* Indian Institute of Science, Bangalore; *Indian Society of Agricultural Statistics:* Library Avenue, P.B. No. 310, New Delhi-12; *Bharat Ganita Parishad:* Department of Mathematics, Lucknow University, Lucknow; *Geographical Society of India:* C/o Geography Department, Calcutta University, 35, Ballyganj, Circular Road, Calcutta-19; *The Electrochemical Society of India:* Department of Inorganic & Physical Chemistry, Indian Institute of Science, Bangalore-12; *The Indian Society of Theoretical and Applied Mechanics:* Indian Institute of Technology, Kharagpur; *Indian Meteorological Society:* Meteorological Office, Lodi Road, New Delhi-3; *Geological Society of India:* Race Course Road, Bangalore-1; *Indian Interplanetary Society:* 9, Hastings Street, Calcutta-1.

## MEDICAL SCIENCE SOCIETIES

*Ahmedabad Medical Society:* (Branch of Indian Medical Association) Opp. H. K. Arts College, Ashram Road, Ahmedabad-9; *Bombay Sanitary Association:* Public Health Department, Municipal Offices Building, Bombay-1; *Association of Medical Women in India:* New Hospital for Women, New Queen's Road, Bombay-4; *Mysore Medical Association:* Fort, Bangalore-2; *No. of Branches:* 28; *All India Ophthalmological Society:* Bombay Mutual Building, Sir P. Mehta Road, Bombay-1; *Gujarat Research Society:* Samsodhan Sadan, South Avenue, Khar, Bombay-52; *Indian Psychoanalytical Society:* 14, Parsibagan Lane, Calcutta-9; *Association of Surgeons of India:* Madras; *Madras Psychology Society:* Department of Psychology, Madras-5; *All India Dental Association:* India House, Cumballa Hill, Bombay-26; *Society for the Study of Industrial Medicine:* 243, Khetwadi Main Road, Bombay-4; *Indian Society of Anaesthetists:* K. E. M. Corner, Indore (GPO), M.P.; *Cardiological Society of India:* 67, Dharamtala Street, Calcutta-13; *Federation of Obstetric & Gynaecological Societies of India:* Purandare Griha, Chowpatty Sea Face, Bombay-7; *The National Society of India for Malaria & Other Mosquito Borne Diseases:* 22, Alipore Road, Delhi-6; *Neurological Society of India:* (Temporary address) C/o Dr. Anil D.

Desai, 534, Sandhurst Bridge, Bombay 7; *Indian Cancer Society:* Hospital Avenue, Parel, Bombay-12; *The Indian Association of Physio-Therapists:* Patel Chambers, 5th Floor, French Bridge, Bombay-7; *Indian Public Health Association:* 110, Chittaranjan Avenue, Calcutta-12; *Indian Association of Leprologists:* Govt. Leprosy Subsidiary Centre, Attur (Salem district), Madras State; *Indian Society of Haematology:* Secretary's Office: 28, Lady Hardinge Road, New Delhi; *The Indian Association of the Chest Diseases:* C/o The Patel Chest Institute, University Campus, Delhi-6; *Indian Academy of Dentistry:* Govt. Dental College Hospital, Bombay-1; *The Anatomical Society of India:* Department of Anatomy, B. J. Medical College, Poona; *Indian Academy of Medical Sciences:* I.C.M.R. Building, Ansari Nagar, New Delhi-16; *Indian Association of Dermatologists and Venereologists:* (Western India Branch), Queen's Road, Bombay-4.

## BIOLOGICAL SCIENCE SOCIETIES

*The Royal Agri-Horticultural Society of India:* 1, Alipore Road, Alipore, Calcutta-27; *Indian Botanical Society:* School of Plant Morphology, Meerut College, Meerut; *The Indian Veterinary Association:* 7, First Street, Vidyodaya East, T. Nagar, Madras-17; *The Bengal Natural History Society:* Natural History Museum, Darjeeling; *Bombay Natural History Society:* 91, Walkeshwar Road; Bombay-6 W.B.; *Indian Society of Soil Science:* Indian Agricultural Research Institute, New Delhi-12; *Botanical Society of Bengal:* 35, Ballygunge Circular Road, Calcutta-19; *The Physiological Society of India:* 50/2, Dharamtolla Street, Calcutta-13; *The Entomological Society of India:* Indian Agricultural Research Institute, New Delhi-12; *The Palaeobotanical Society:* Lucknow; *Maharashtra Association for the Cultivation of Science:* Servants of India Society Building, Poona-4; *Ethnographic and Folk Culture Society:* Department of Anthropology, University of Lucknow, Lucknow; *Indian Phytopathological Society:* Indian Agricultural Research Institute, New Delhi-12; *Palaeontological Society of India:* Lucknow; *The Bombay Aquarium Society:* Taraporewala Aquarium, Bombay-2; *International Society of Plant Morphologists:* Department of Botany, University of Delhi, Delhi-6; *The Bombay Biological Association:* 92, Waterfield Cross Road, Bandra, Bombay-50; *Mycological Society:* Department of Botany, University College of Science, 35, Ballygunge Circular Road, Calcutta-19; *International Society of Tropical Ecology:* Department of Botany, B.H.U., Varanasi-5; *Society of Biological Chemists, India:* Indian Institute of Science, Bangalore-12; *Indian Society for Plant Physiology:* Division of Botany, Indian Agricultural Research Institute, New Delhi-12; *Association of Microbiologists of India:* P-27, Prinsep Street, Calcutta-13; *Marine Biological Association of India:* Mandapam Camp, Madras State; *The Zoological Society:* 35, Ballygunge Circular Road, Calcutta-19; *Society of Indian Foresters:* F. R. I., Dehra Dun, U.P.; *Zootomical Society of India:* G/14, Beyond Ladies Colony, Banaras Hindu University, Varanasi-5; *Bihar Academy of Agricultural Science:* P. O. Sabour, Bhagalpur; *Indian Society of Genetics & Plant Breeding:* Division of Botany, Indian Agricultural Research Institute, New Delhi-12.

## ENGINEERING AND TECHNOLOGICAL SOCIETIES

*Indian Engineering Association:* 6, Netaji Subhash Road, Calcutta-1; *The Bombay Textile & Engineering Association:* 343, Satar Building, Grant Road, Bombay-7; *Mining, Geological & Metallurgical Institute of India:* 29, Chowringhee Road, Calcutta-16; *The Mechanical Engineers' Association (India):* Janmahoomi Chambers, 29, Fort Street, Ballard Estate, Fort, Bombay-1; *The Institution of Engineers (India):* 8, Gokhale

\* This has been included in this group for want of a separate grouping for this discipline.

Road, Calcutta-20; *The Association of Engineers*: 24, Netaji Subhash Road, Calcutta-1; *Electrical Engineering Society*: Indian Institute of Science, Bangalore-12; *The Sugar Technologists' Association of India*: P.O. Kalyanpur, Kanpur; *Indian Ceramic Society*: C/o Banaras Hindu University, Varanasi-5; *The Indian Institute of Architects*: Prospect Chambers Annexe, Dr. Dadabhai Naoroji Road, Bombay; *The Geological, Mining & Metallurgical Society of India*: Geology Department, Presidency College, Calcutta-12; *The Oil Technologists' Association of India*: Nawabganj, Kanpur; *Indian Society of Engineers*: 12-B, Netaji Subhash Road, Calcutta-1; *The Indian Institute of Metals*: 31, Chowringhee Road, Calcutta-16; *The Textile Association*: "Santosh", 72-A, Shivaji Park, Bombay-28; *Gujarat Institute of Civil Engineers & Architects*: Law College Road, Ahmedabad-6; *The Aeronautical Society of India*: 13/B, Indraprastha Estate, New Delhi-1; *Institution of Surveyors*: Kashmir House, King George's Avenue, New Delhi; *Quality Control Association*: 4, Richmond Road, Bangalore-25; *Indian Institute of Chemical Engineers*: Jadavpur University Campus, Calcutta-32; *The Institution of Telecommunication Engineers*: F/12, South Extension Part II, Ring Road, New Delhi; *Indian Society of Rayon Technologists*: 144, Dharavi Road, Bombay-17; *Indian Leather Technologists' Association*: Mercantile Buildings, Lal Bazar, Calcutta-1; *Essential Oil Association of India*: H. B. Technological Institute, Kanpur; *Institute of Consulting Engineers*: Central Office, 9, Hastings Street, Calcutta-1; *International Commission on Irrigation and Drainage*: Golf Links, New Delhi-3; *The Society of Power Engineers*: 'Clermont', Simla-4; *The Chemical Engineering Association*: Indian Institute of Science, Bangalore-12.

#### GENERAL SOCIETIES

*Asiatic Society*: 1, Park Street, Calcutta-16; *Indian Association for the Cultivation of Science*: Jadavpur, Calcutta-32; *Indian Science Congress Association*: 64, Dilkhusa Street, Calcutta-17; *Vijnana Parishad*: Muir College Compound, Thorahill Road, Allahabad-2; *The National Academy of Sciences*: 5, Lalpatral Road, Allahabad-2; *National Institute of Sciences of India*: Mathura Road, New Delhi-1.

*Indian Science News Association*: 92, Acharya Prafulla Chandra Road, Calcutta-9; *The Current Science Association*: Bangalore; *Science Club*: 1110, S. N. #### OTHER RESEARCH SOCIETIES

**Physical Science**: Association of Applied Physicists, 92, Acharya P. C. Ray Road, Calcutta-9; Calcutta Mathematical Society, 92, Acharya P. C. Ray Road, Calcutta-9; Indian Chemical Society, 92, Acharya P. C. Ray Road, Calcutta-9; Bombay Geographical Association, Parle College Mablon, Bombay-57; Association of Indian Geographers, P.B. No. 644, New Delhi.

**Medical Science**: Association of Pediatricians of India, Back-Bay View, New Queen's Road, Bombay-4; Association of Physicians of India, "Dream Lands", New Queen's Road, Bombay-4; Helminthological Society of India, School of Tropical Medicine, Calcutta-12; Indian Medical Association, Shri Niwas, S. V. Patel Road, Bombay-4; Society of Experimental Medical Science (India), P-27, Prinsep Street, Calcutta-13; Tropical Diet Research Society, 1/6, Fakir Chakravarti Lane, Calcutta-6; Indian Society of Gastroenterology, D/3, Ansari Nagar, New Delhi-16; Association of Otolaryngologists of India, Lampert's Hospital, Marshal's Road, Egmore, Madras-8; The Indian Radiological

Association, 148, Big Street, Madras; Madras Medical Association, Madras Medical College, Madras; Bombay Veterinary Medical Association, Rani Nagar, H. No. A-7/1, Nagpur.

**Biological Science**: Horticultural Society of India, Indian Agricultural Research Institute, Pusa Road, New Delhi-12; Indian Dairy Science Association, Hosur Road, Bangalore-1; Indian Ecological Society, I.A.R.I., Pusa Road, New Delhi-12; Indian Society of Agronomy, I.A.R.I., Pusa Road, New Delhi-12; South India Horticultural Association, Lawley Road, P.O. Colmbatore; Zoological Society of India, Zoological Survey of India, Calcutta.

**Engineering & Technological**: Engineering Association of Northern India, G.T. Road, Batala (Gurdaspur), Punjab; Indian Metallurgical Association, 20, Strand Road, Calcutta-1; Indian Pharmaceutical Association, Bharati Bhavan, 3rd Floor, 213-219, Frere Road, Fort, Bombay-1; Institute of Industrial Engineers, Hindustan Lever Ltd., Bombay; Society for Corrosion and Coating Technology, Govt. Test House, Alipore, Calcutta; Society of Electronics Engineers, Electronics Research and Development Establishment, P.O. Box No. 108, Bangalore-1; Institution of Electrical Engineers, 1, Forbes Street, Fort, Bombay-1; Technological Association, Dept. of Chemical Technology, Matunga Road, Bombay-19; Indian Roads Congress, Jamnagar House, Mansingh Road, New Delhi; Mineralogical Society of India, A.C. College Building, Guindy, Madras-25; Indian National Society of Soil Mechanics and Foundation Engineers, New Delhi.

**General**: Indian Academy of Sciences, Hebbal P.O., Bangalore.

#### COUNCIL OF SCIENTIFIC & INDUSTRIAL RESEARCH

Scientific research under state auspices in India is carried out mainly through the Council of Scientific and Industrial Research and the various National Laboratories/Institutes set up under its control and in the universities and research institutes aided by the Council.

The Council has a liberal system of grants-in-aid through which scientists in other technical institutions, industrial laboratories and universities are supported to pursue fundamental and applied research and develop their own specialised fields of research. It also grants fellowships to qualified persons who wish to pursue science as career.

The Research Survey and Planning Organization of the Council undertakes investigations in the problems of planning, organisation and management of scientific research and conducts operational research studies on research problems. The International Scientific Collaboration Bureau constituted recently proposes to carry out regular assessment studies on scientific and technological developments in various developing countries.

The Directorate of Research Coordination and Industrial Liaison coordinates research programmes of the CSIR Laboratories and Institutes and also with other scientific and research organisations; maintains contact with user government departments including Defence with a view to identifying their problems and ensuring their follow up with the laboratories; organises Cooperative Research Associations; assists the laboratories in filing of patents and maintaining of patents records and takes steps to stimulate proper utilisation of results of research.

The Central Design and Engineering Organisation at the CSIR Headquarters undertakes process design, complete industrial plan design and project engineering work for processes evolved at the National Laboratories.

#### National Research Development Corporation (See under All India Corporations).

#### NATIONAL LABORATORIES

There are 37 National Laboratories/Institutes/Units and three museums functioning under the

Council of Scientific and Industrial Research. There are a number of regional foundry stations, drug farms and factories and other regional centres functioning under the various laboratories and institutes.

The names of the Laboratories/Institutes and Units with their locations (in *italics*), at various centres in the country and the functions entrusted to them are as follows:—

**National Physical Laboratory, New Delhi**:—Research in problems relating to Physics, both fundamental and applied. Maintenance of Standards Testing facilities are also available.

**National Chemical Laboratory, Poona**:—Fundamental and applied research covering the whole field of chemistry for which other specialised institutes have not been set up. The National Collection of Type Cultures is housed in the Laboratory.

**Central Fuel Research Institute, Jealgora (Bihar)**:—Fundamental and applied research on fuels—solid, liquid and gaseous. Physical and Chemical surveys of Indian coals are conducted through seven coal survey stations under the Institute. It maintains seven coal survey stations.

**Central Glass and Ceramic Research Institute, Jadavpur**:—Research on different aspects of glass and ceramics, pottery, porcelain, refractories and enamels; development of processes for manufacture of glass and ceramic articles; standardisation of raw materials used in the ceramic industry. It also maintains a glass, ceramic and mineral field research unit at Regional Research Laboratory, Jammu-Tawi.

**Central Food Technological Research Institute, Mysore**:—Food processing and conservation of food, food engineering and all aspects of fruit technology. Regional Fruit and Vegetable Preservation Stations at Trichur, Nagpur, Bombay, Lucknow, Mangalore, Simla, Jammu-Tawi and Cudappah have been recently established.

**National Metallurgical Laboratory, Jamshedpur**:—Fundamental & applied metallurgical research. It maintains four regional foundry research stations; located at Punjab, Howrah, Madras and West Bengal.

**Central Drug Research Institute, Lucknow**:—All aspects of drug research including evaluation & standardisation of crude drugs, discovery of substitutes for pharmacopoeial drugs and plants, pharmaceutical and synthetic chemicals, biochemistry and biophysics, infection, immunisation, pharmacology, chemotherapy & experimental medicine.

**Central Road Research Institute, New Delhi**:—Research on road materials, testing of road materials and road surfaces.

**Central Electro-Chemical Research Institute, Karaikudi (Madras)**:—Research on different aspects of electro-chemistry, including electro-metallurgy, electro-deposition and allied problems. The Institute has two testing centres at Madras and Ramanathapuram.

**Central Leather Research Institute, Madras**:—Fundamental and applied aspects of leather technology. The Institute has five extension centres at Calcutta, Rajkot, Jullundur, Kanpur and Bombay.

**Central Building Research Institute, Roorkes**:—Engineering and structural aspects of building and human comforts in relation to buildings.

**Central Electronics Engineering Research Institute, Pilani (Rajasthan)**:—Design and construction of electronic equipment and components and test equipment.

**National Botanic Gardens, Lucknow**:—Collection & large-scale cultivation of economic and medicinal plants of industrial importance.

**Central Salt & Marine Chemical Research Institute, Bhavnagar**:—Investigation of production of pure salts, reduction in cost of production; economic utilisation of by-products of salt manufactures, development of new methods and technique for the recovery, production & utilization of various marine & allied chemicals.

**Central Mining Research Station, Dhanbad :—** Research in methods of mining, safety in mines and mine machinery.

**Regional Research Laboratory, Hyderabad :—** Research in problems relating to the industries and raw materials of the region.

**Indian Institute of Experimental Medicine, Calcutta :—** Research in various aspects of biochemistry as applied to medicine, Bacteriology, etc.

**Birla Industrial & Technological Museum, Calcutta :—** A museum to depict scientific and technological advancement.

**Regional Research Laboratory, Jammu-Tawi (Jammu & Kashmir) :—** Research in problems relating to the industries and raw materials of the region & research specially directed to medicinal plants of the Himalayas (Kashmir Region).

**Central Mechanical Engineering Research Institute, Durgapur (W. Bengal) :—** Research in Mechanical Engineering in all its aspects. It maintains mechanical Engineering Research and Development Centres at Ludhiana, Poona and Madras.

**Central Public Health Engineering Research Institute, Nagpur :—** Research in all aspects of public health engineering and co-ordination of work of all interested agencies in this field in the country. A number of Field Centres and Units at various places have also been established by the Institute. The field centres are located at Sewage Farm Road, Ahmedabad and Dr. Annie Besant Road, Worli, Bombay.

**National Aeronautical Laboratory, Bangalore :—** Scientific investigations of the problems of flight with a view to their practical application to the design, construction and operation of aircraft in India.

**Regional Research Laboratory, Jorhat :—** Research problems relating to more efficient utilisation and better conservation of important national resources of Assam and surrounding areas with a view to aiding the industrial development of the region.

**Regional Research Laboratory, Bhubaneswar :—** Identification and exploration of problems of the region, bringing projects of potential local application to the attention of local industries and providing assistance to associated local industries in the testing of their products and quality control.

**Central Indian Medicinal Plants Organisation, 4, Sapru Marg, Lucknow :—** Co-ordination of activities in the development of cultivation and utilisation of medicinal plants and to develop the vegetable drug resources of the country. It has two zonal centres located at Bangalore and Haldwani (U.P.), and maintains four drug farms and factories in Jammu and Kashmir.

**Central Scientific Instruments Organisation, Chandigarh :—** Promotion and development of indigenous manufacture of scientific instruments for teaching, research and industry. Its service centres are located in New Delhi and Madras.

**Indian Institute of Petroleum, Dehra Dun :—** Research in petroleum refining and processing of natural gas, petro-chemicals, etc., and providing facilities for the training of personnel for oil and petroleum industries.

**National Geophysical Research Institute, Hyderabad :—** Gravitational, magnetic, electrical and seismic surveys for understanding the crustal structure of India and also study and improvement of methods and techniques of exploration.

**National Institute of Oceanography, New Delhi :—** Research on various aspects of physical biological, geological and chemical oceanography including prospecting for petroleum and minerals in sea bed. The Institute maintains Indian Biological Centre, Indian Ocean Physics Oceanographic Centre at Ennakulam. The International Biological Programme also functions at I.O.P.O. Centre, Ennakulam.

**National Biological Laboratory (in planning), Palampur (Kangra Valley), Punjab :—** Both fundamental and applied research in modern aspects of biological sciences.

**Structural Engineering Research Centre, Roorkee :—** Research in specialised design and development work in structural problems connected with buildings, bridges and other structures.

**Industrial Toxicological Research Centre, Lucknow :—** To study the harmful effects of industrial toxins on skin, blood, gastro-intestinal tract, central nervous system, bones, etc.

**Viveśvaraya Industrial & Technological Museum, Bangalore :—** A museum to depict scientific & technological advancement.

**Central Design and Engineering Organisation :—** Undertakes preparation of feasibility and project reports, process design and development of industrial equipment, complete industrial plant design and project engineering, primarily based on the processes developed at the National Laboratories. Similar services are also provided wherever the process know-how is available. Assistance is provided for both private and public sector industries.

**Research Survey and Planning Organisation :—** The R.S.P.O. carries out investigations in the problems of planning, organisation and management of scientific research; studies the socio-economic problems of science and scientific research; conducts studies in the current trends of research in India in various disciplines; indicates the broad areas and gaps that may exist in scientific research in India on the basis of such studies and suggests remedial measures. It also studies research financing in India and suggests how and where emphasis should be given.

The Organisation conducts operational research studies on research problems and train scientists from CSIR laboratories, other institutions and neighbouring developing countries in this field.

**Research Coordination and Industrial Liaison :—** The Directorate of Research Coordination and Industrial Liaison has been set up at the Headquarters to (i) coordinate research programmes of the CSIR Laboratories and Institutes among themselves and also with other scientific and research organisations; (ii) promote exploitation of indigenous know-how developed in the National Laboratories; (iii) maintain close contacts with user Government Departments including Defence with a view to identifying their problems and ensuring their follow up with the laboratories; (iv) organise Co-operative Research Associations; (v) assist the laboratories in filing of patents and maintenance of patent records; (vi) disseminate scientific and technical information and (vii) take other steps to stimulate proper utilisation of results of research. It participates in the working of the Licensing and Foreign Agreements Committee of the Ministry of Industry.

**Scientific and Technical Personnel :—** The National Register Unit of the Council acts as a manpower research organisation and a clearing house of information regarding availability and utilisation of Indian scientific and technical personnel in India and abroad. The unit helps evolve scientific personnel policy, recruitment, assessment of use and wastage of manpower and manpower planning.

The Council operates a scientific pool scheme to provide employment assistance and temporary placement to highly qualified scientists and technologists, particularly those returning from abroad, until they secure suitable employment.

A major publication of the Directorate is the Dictionary of Indian Raw Materials and Industrial Products published under the title "Wealth of India";

A monthly science journal entitled "Science Reporter" is brought out from 1964.

**Documentation :—** The Indian National Scientific Documentation Centre (INSDOC), New Delhi, established with technical assistance from UNESCO, provides a complete range of documentation services to individuals and institutions all over the country.

**Sponsored Research :—** Through a liberal system of grants-in-aid, scientists in other technical institutes, industrial laboratories and universities are enabled to pursue fundamental and applied research and develop their own special fields. There are, at present, more than 720 such schemes in progress at more than 100 centres. Apart from the practical results achieved, the schemes provide opportunities of training for young research workers and develop centres of independent research. Junior and senior fellowships tenable in the universities as well as in national laboratories are also being awarded to talented young persons, besides financial aid to retired scientists. At present more than 1,450 such fellowships are tenable at universities, laboratories, and other research organisations.

**Co-operative Research Associations :—** Co-operative research associations in different industrial fields are being assisted in their capital and recurring expenditure and by way of technical advice, preparation of plans and procurement of experts and materials. Ten such associations now functioning are catering to the textiles, rubber, silk, art silk and paint, plywood, wool, tea and cement industries. Similar associations are in the process of being formed for foundry, automobile, radio and electronic industries.

**Liaison & Extension Services :—** Active Industrial Liaison & Information Units have been set up in most of the National Laboratories to make direct contact with the industry, trade associations and users of research to identify the problems of industry and formulate them into research projects for the laboratories.

The unit at the Headquarters, Research Co-ordination, Industrial Liaison and Extension Services Unit supplements the efforts of Laboratory in research utilisation by maintaining day to day contact with various government agencies responsible for research development and planning such as Planning Commission, Department of Technical Development, Ministry of Industry, etc. This unit also maintains a system of research intelligence so that information on research in all institutes, is available at hand in the Central Office. The extension service provided by this unit includes dissemination of information on processes developed in the laboratories which might be of interest to rural and suburban development.

## NUCLEAR RESEARCH AND ATOMIC ENERGY

Pioneering work in this field was done by the Tata Institute of Fundamental Research, Bombay, established in 1945.

This Institute has since been recognised as the National Centre for advanced study and fundamental research in nuclear physics and mathematics and consists of a school of physics and a school of mathematics with a staff of 300.

The Institute is the largest centre for cosmic ray research in India and has made notable contributions to the theory of elementary particles. Its nuclear emulsion group for the study of elementary particles is probably the second largest in the world. The Institute also houses, as a national facility, an advanced and modern computer CDC 3600-160A. It also has a 1 MeV Cascade Generator. A high resolution radiotelescope for solar studies has been installed at Kalyan, near Bombay.

During the years preceding the establishment of the Atomic Energy Commission, the Institute was instrumental in setting up a group of scientists for advanced studies and research in nuclear physics who later joined the Atomic Energy Commission for implementation of some of the early projects of the Commission when it was set up in 1948.

Two other important institutions conducting research in nuclear physics are the Saha Institute of Nuclear Physics, Calcutta and the Physical Research Laboratory, Ahmedabad.

Considerable fundamental research in nuclear science and cosmic rays is also being conducted at various universities and research institutions all over India with financial assistance from the Department of Atomic Energy.

During 1965-66 a sum of Rs. 10.5 lakhs was sanctioned as assistance.

The development and control of atomic energy in India is regulated by the Atomic Energy Act (Act No. 33 of 1962) and the Department of Atomic Energy handles all business of the Government of India relating to atomic energy and functions of the Central Government under the Act.

The Atomic Energy Commission which assumed authority on June 23, 1958, is responsible for (a) formulating the policy of the Department of Atomic Energy, (b) preparing the budget of the Department for each financial year and getting it approved by the Government, and (c) implementing Government's policy in all matters concerning atomic energy.

The Commission's programme envisages that India should be able to produce for the maximum extent possible all the basic materials required for the production of atomic energy, promote its use in agriculture, biology, industry, research and medicine, prepare a long-range plan for the generation of electric power and set up power stations.

The scientific and technical work of the Department is carried out by the Atomic Minerals Division and the Atomic Energy Establishment at Trombay near Bombay.

Some of the more important functions of the Atomic Minerals Division are: (a) geological survey for and development of atomic minerals, (b) geographical survey, (c) geochemical survey, (d) mineral technology, (e) drilling, (f) mining, (g) stockpiling, (h) conservation of minerals and (i) technical assistance and training.

#### Trombay Establishment

The Atomic Energy Establishment, Trombay, is India's principal centre for research and development in the field of atomic energy. Located about 15 miles from Bombay, the establishment employs over 8,000 persons of whom 4,800 are scientific and technical personnel, about 1,600 administrative and the rest general maintenance and auxiliary staff. The Establishment is by far the largest scientific centre in the country.

The work of the Establishment is organised under six major groups, viz. Physics, Engineering, Electronics, Metallurgy, Biology and Administration. Each group is under the charge of a Director and comprises two or more divisions. There is also a directorate of Radiation Protection.

To ensure a steady supply of trained scientific and technical personnel, the Establishment started a training school in 1957 where, every year about 150 graduates and engineers are recruited and given intensive training for one year. Later they are assessed and absorbed in the Trombay Establishment, The Tata Institute of Fundamental Research and other projects of the Deptt. of Atomic Energy.

**Research Facilities:** The research facilities available in the Trombay Establishment are such that advanced research, both fundamental and applied, in several scientific fields can be undertaken. Besides the reactors mentioned elsewhere, the following principal facilities exist: (1) A 5.5 MeV Van de Graaff accelerator, (2) Mass spectrometers, (3) A 200 kv electron diffraction camera fabricated in the Establishment, (4) A slow chopper built in the Establishment, (5) A mechanical monochromator built in the Establishment, (6) Crystal spectrometers and a double crystal spectrometer, (7) Spectrometers including double beam and vacuum grating ones, (8) Plasma Torch built at Trombay, (9) Cloud chambers, (10) Magnetometers, (11) Various types of electronic instruments, (12) A multi-arm spectrometer built at Trombay, (13) Electronic magnetic isotope separator, (14) Experimental Electrolyser to produce very pure hydrogen, (15) Various instruments used in chemical analysis such as fluorimeters, polarimeters, spectro-photometers, calorimeters etc., (16) Freeze drying units for units for blood plasma etc., etc.

The use of laser communication was successfully developed in the Electronics Division and

demonstrated for the first time in 1965 in the country.

A Seismic Station was set up near Bangalore to detect underground nuclear explosions.

A Gamma Garden went into trial operations in August 1965 at Trombay for carrying out investigations and studies on induction of mutations in plants.

The Radiation Medicine Centre is now adopting most of the recognized methods for the diagnosis and treatment of diseases with the aid of radioisotopes.

**Production Facilities:** (1) Uranium Metal Plant, (2) Fuel Element Fabrication Plant, (3) Radioisotope Production Facilities, (4) Heavy Water Pilot Plant, (5) Heavy Water Reconciliation Plant, (6) Plutonium Plant, (7) Electronic Instruments, (8) Vacuum equipment, mass spectrometers etc., etc.

A Uranium Mill at Jaduguda was expected to go on stream later in 1966. It is capable of treating 1,000 tonnes of uranium ore per day.

Planning is under way for establishing a uranium oxide plant, ceramic fuel fabrication plant and zirconium plant to meet the requirements of future power reactors.

**Industrial Operations:** With the object of exploiting fully the indigenous raw materials for the speedy and successful implementation of its programme, the Commission has already set up a number of plants, while others are in the process of being set up. They are:

**Rare Earth Plant:** This plant which was set up in 1952 at Alwaye is now owned by the Govt. of India. Its capacity for processing 1,800 tons of monazite has been increased to 3,000 tons annually. It produces rare earths (chiefly cerium) compounds and a cake containing thorium and uranium. Trisodium phosphate obtained as a by-product, has a good market. The rare earths compounds (mixed rare earths chloride, carbonate and hydroxide) are sold in the world market. Small amounts of naphthenate, fluoride and oxide of cerium are also produced.

A plant, for the manufacture of rare earths fluoride (Cerium Fluoride) has been designed and erected by the Company at Alwaye. The plant has gone into production since June 1965.

This plant would be able to meet the country's entire requirement of rare earths fluoride for the manufacture of arc carbons.

**Thorium Plant:** This plant, built entirely by Indian scientists and engineers, for processing the thorium concentrates from the Rare-Earths Plant at Alwaye, went into production at Trombay in September 1955. Its capacity was increased six fold in 1958. The plant is one of the largest in the world for the production of thorium nitrate. Besides supplying virtually the entire requirements of the gas mantle industry in India, it also supplies markets in Europe and America, Hong Kong, Pakistan, Iran, U.A.R., etc. It also produces nuclear grade thorium oxide which is being used by Canada-India Reactor for the production of Uranium-233.

**Minerals Division:** The Company has taken over the assets of Travancore Minerals Ltd., Quilon, which has gone into liquidation on 27th January 1965. The Company has taken over the operation of the mineral sand industry which was being run by Travancore Minerals Ltd.

**Uranium Ore Mill:** A uranium mill with a capacity to treat 1,000 tonnes of uranium ore per day is being set up at Jaduguda in Bihar. The process to be employed has been developed in the Atomic Energy Establishment Laboratories at Trombay. The mill was expected to go into operation by the middle of 1966.

**Mineral Sand Industry:** Travancore Minerals Ltd., a public sector undertaking which was incorporated in October 1956 and the shares of which were held by the Government of India and the Governments of Kerala and Madras, went into voluntary liquidation in January 1965.

Indian Rare Earths Ltd., a wholly Central Government undertaking at present engaged mainly in the production of rare earths chloride and trisodium phosphate, has however taken over the lands, buildings, plants and equipment originally belonging to Travancore Minerals Ltd. Indian Rare Earths Ltd. is currently operating two plants in Manavalakurichi (on the West Coast of Madras State) for the separation of ilmenite, monazite, rutile and zircon.

F.X.P. Minerals, presently functioning in Chavara, Quilon which is managed by the Kerala Government, produces rutile and some ilmenite.

**Uranium Metal Plant:** This plant, designed and built entirely by the Establishment's personnel, was commissioned in January 1959. It has an annual capacity of about 30 tonnes of nuclear grade Uranium. A process for the production of ceramic grade uranium dioxide has been successfully developed on the basis of which design of a 250 tonnes uranium oxide plant has been completed.

**Heavy Water Reconciliation Plant:** The plant designed entirely by Indian engineers for the reconciliation of down-graded heavy water has been operating continuously since early part of 1962.

A small scale electrolyser assembly for reconciliation of down-graded heavy water has also been developed and designed by Indian engineers and has been taken into operation.

A pilot plant for producing enriched Boron-10 used in neutron counters has been designed, fabricated and installed at Trombay. The plant has been operating continuously since the middle of 1964.

**Heavy Water Plant:** The first Heavy Water Plant in Asia designed to produce 15 tonnes of heavy water annually in conjunction with the Fertilizer Corporation of India's Nangal Unit went into operation and has started producing nuclear grade heavy water since December 1962. This plant has been operating continuously without any break.

#### ATOMIC MINERALS

The Atomic Minerals Division of the Department of Atomic Energy has been engaged in country-wide exploration, prospecting and development of atomic minerals, particularly those of uranium, thorium, beryllium, columbium-tantalum, lithium, etc. Surface investigations are carried out by radiometric and other geophysical methods, and in some selected areas by emanometric, geochemical and geobotanical techniques; sub-surface investigations by bore-hole drilling, geophysical logging of boreholes, and underground development of deposits. Field operations are supported by investigations in the physics, petrology, chemical, geochemical and mineral technology laboratories.

As a result of the investigations carried out, several uranium occurrences of variable grade, size and importance have been located in different parts of the country, the major deposits being those at Jaduguda, Narwapahar and Bhatin in the Singhbhum Copper Belt of Bihar. Favourable indications of uranium recently located in the Himalayan region in Kulu, Rampur-Bushahr and Garhwal, are currently under investigations.

The coastal tracts of India, together with several island areas, particularly those of Ranchi (Bihar) and Purulia (West Bengal) are sources of large amounts of monazite and provide India with the largest thorium deposits in the world. Indian monazite contains 8 to 10 per cent ThO<sub>2</sub> and upto 0.3 per cent U<sub>2</sub>O<sub>3</sub>. Total reserves of monazite are estimated at some 5 million tons with ThO<sub>2</sub> content of 0.45 million tons and U<sub>2</sub>O<sub>3</sub> content of 15,000 tons.

Ilmenite which is associated with monazite, forms reserves of about 100-150 million tons, of which 65-32 million tons are measured reserves, the rest accounting for indicated and inferred reserves. Reserves of zircon, which is also found in association with monazite-bearing

sands, are estimated at about 10 million tons, of which 3.34 million tons constitute measured reserves and the rest indicated and inferred reserves.

Intensive prospecting has also led to the location of several new occurrences of beryllium, columbium-tantalum and lithium minerals, in addition to those already known in the mica belts of Bihar, Rajasthan, Madhya Pradesh and Andhra Pradesh, besides smaller ones in Madras and Mysore.

The Division also helps private parties including universities and institutions interested in prospecting and mining atomic minerals by providing technical advice, loan of G.M. counters, analysing samples free of charge and by extending such other help as would promote and widen the field of exploration.

### NUCLEAR REACTORS

**Apsara:** The first nuclear research reactor in Asia, outside the USSR, attained criticality on August 4, 1956. It is an enriched uranium light water moderated and cooled pool type reactor and was designed and built entirely by Indian scientists and engineers. The fuel elements have been hired from the United Kingdom Atomic Energy Authority under a bilateral agreement. The reactor is designed for a maximum power level of 1 MW.

A number of experimental facilities have been provided in the reactor which has proved to be extremely useful for fundamental and applied research in basic sciences and engineering, radioisotope production and training of personnel.

The first fuel charge was removed from the reactor in December, 1964 since it had attained its maximum burn-up. Maintenance of various reactor components as well as improvements in cooling and control systems, were carried out in the first quarter of 1965. The reactor was started up with the second charge of fuel elements—also hired from United Kingdom—in June 1965.

The standard element of second fuel charge contains 140 gms. of U-235 (80 per cent enriched uranium). For normal operation the reactor core contains about 25 fuel elements.

**Cirus:** (formerly known as CIR) is India's second research reactor, built as a joint Indo-Canadian project under the Colombo Plan. Work on this project was taken up in February 1956 and the reactor attained criticality on July 10, 1960. The total cost of the project is approximately Rs. 10 crores, being shared in roughly equal proportions by the two countries.

Cirus is a natural uranium heavy water moderated and light water cooled high flux research reactor with a thermal power of 40,000 KW. It is operated round the clock and is one of the most powerful reactors in the world. The reactor is used for basic and applied research in physics, chemistry, biology, metallurgy and reactor technology, for the production of large quantities of high activity radioisotopes as well as plutonium-239 and uranium-233 and for the training of personnel for future reactor programmes.

The standard fuel rod contains about 55 kg. of natural uranium. For normal operation the reactor core contains about 185 fuel rods and 20 tonnes of heavy water.

**Zerlina:** Is India's third research reactor. It is a zero energy reactor for lattice investigations and new assembly studies. Designed and built by Indian scientists and engineers, the reactor attained criticality on January 14, 1961 with a natural uranium—heavy water loading. The reactor is operated on a two shift basis upto a maximum power of 100 W and is being extensively used for physics studies of uranium—heavy water lattices.

The standard fuel rod contains about 45 kg. of natural uranium. The standard core contains 80 fuel rods and about 8 tonnes of heavy water.

The natural uranium fuel elements for CIRUS and ZERLINA are fabricated in Trombay.

While the initial heavy water required for the start-up of these reactors was obtained from the United States under a bilateral agreement, additional heavy water required for day-to-day operation is supplied from the Nangal heavy water plant.

### Directorate of Radiation Protection

Under the Atomic Energy Act of 1962, the responsibility for country-wide radiation safety vests in the Department of Atomic Energy. The Directorate of Radiation Protection has been set up to discharge this responsibility.

A country-wide film badge service is being conducted by the Directorate for persons working with radiation sources. In addition, mobile teams of scientists have visited more than three hundred medical, industrial and other institutions on invitation, assessed the adequacy of radiation safety measures and made appropriate recommendations. Nearly two hundred X-ray and tele-therapy installations and radioisotope laboratories have also been planned on request. It is expected that the film badge service, radiological protection surveys and prior approval of plans for radiation installations will be made compulsory in the near future.

The Directorate conducts (i) a one year post-graduate course in radiological physics; and (ii) four short-term courses every year on the industrial, medical and other applications of radiation and the associated safety aspects. It does research and development in fields such as hospital physics, radiation dosimetry and instrumentation, radiation applications and radiation bio-physics. It is also responsible for the formulation and promulgation, under the Atomic Energy Act, of various rules and regulations relating to radiation safety.

### Fuel Element Fabrication Facility

This Facility, the first of its kind in Asia outside USSR and one of the half-a-dozen in the world, was designed and built entirely by Indian engineers and metallurgists. It went into operation in June 1959. The entire charge of fuel elements used for CIRUS and for ZERLINA was fabricated here. The present capacity of this plant is about 30 to 40 tonnes to fuel elements per year.

It has been decided to set up an industrial plant for the fabrication of fuel elements for power reactors. The plant will be set up outside Trombay, but a good deal of development work has been carried out in the existing facility at Trombay for the fabrication of power reactor fuel elements, which consist of sintered uranium oxide pellets clad in the zircaloy.

### Central Workshops

A manufacturing facility for the production of specialised equipment and apparatus required for the country's nuclear research and development programme has been set up at Trombay at an approximate cost of Rs. 2.3 crores. The value of routine work-load on these shops is expected to be over Rs. 50 lakhs a year excluding work-load on major projects and large scale fabrication of prototype equipment and experimental set ups. The workshops have already started fabrication equipment for the Rajasthan Atomic Power Project. Similar fabrication will be undertaken for other projects in the near future, resulting in savings in cost and foreign exchange. The workshops when in full operation will also expedite development work.

### Graphite Shop

This is a facility set up for the purpose of machining graphite of grades of nuclear purity. This shop has undertaken during the course of the last few years the machining of over 300 tons of graphite required for the three reactors viz., the Apsara, the CIRUS and the ZERLINA besides numerous other works such as graphite moulds, crucibles and other components required by the various Divisions of the Trombay Establishment for their research and development work.

### Radiochemistry Laboratory

This laboratory was commissioned in 1957 to train chemists in the handling of highly radioactive substances. It is equipped with the most modern facilities for handling plutonium and other higher radioactive elements. Here, the chemistry of actinide elements is studied. Research on various aspects of the fission of heavy elements is being carried out using radiochemical techniques. Fission product isotopes are being supplied to various customers. A large number of scientists from the establishment as well as outside institutions including those from outside India have been trained in radiochemical techniques.

### Isotope Laboratory

This Laboratory which was set up at its present site at Trombay in 1960, is responsible for the production and processing of radioisotopes like iodine-131, phosphorus-32, chromium-51, iron-59 etc. The laboratory has also facilities for the production of radiopharmaceuticals required for diagnostic purposes in nuclear medicine, and for the production of organic compounds labelled with carbon-14 and tritium. Facilities have been provided for the fabrication of multicurie sealed radiation sources of cobalt-60 and iridium-192 required for industrial use and also for development work connected with the applications of radioisotopes to industrial problems such as gamma radiography, siltation studies, etc.

### Plutonium Plant

The irradiated fuel contains a small amount of plutonium, a valuable nuclear material along with a large quantity of radioactive fission products. Investigations have been conducted on the separation of plutonium from the irradiated fuel. A plant has been built at Trombay for treating primarily the natural uranium fuel rods irradiated in the Canada-India Reactor for recovering plutonium from them. The plant was commissioned for trial operation in April 1964 and highly irradiated fuel was fed to the plant in August 1964. The plant was formally inaugurated by the Prime Minister on January 22, 1965.

An auxiliary plant, has been built that will reduce considerable quantity of the radioactive waste resulting from the plutonium Plant to a small bulk so that it can be stored in underground tanks.

All parts of the Plutonium Plant complex are in continuous operation at present.

### Electronic Instruments and Components

The Electronics Group of Trombay Establishment have designed, developed and fabricated a variety of nuclear and industrial instruments which include Geiger Counters, Radiation Survey Meters, Contamination Monitors, High and Low Voltage Units, Scalers, Single Channel Analysers, Pulse Amplifiers, PH Meters, Electronic Multimeters, Oscilloscopes, Strain Gauge Amplifiers, Magnetic amplifiers, Servo Amplifiers, Moisture Gauges, Density Gauges, Analog computer, Medical Spectrometers and Counting Systems. These instruments are being fabricated for use in the Trombay Establishment, Universities and Colleges and Medical Institutions using radiation sources and also for use of the Tarapur Atomic Power Station.

In addition to the above instruments, the Group have also produced High Stability Film Resistors which have been type approved by the Defence authorities in India. Regular batch production of Semi-conductor devices including Germanium Power Transistors, Zener Diodes, Silicon Rectifiers and Thermo Electric Coolers, has been undertaken.

### Tarapur Atomic Power Station

The work on India's first atomic power station at Tarapur on the west coast of India, is now in full swing and the 380 MWE station is expected to be on full power operation by the end of "October" 1968. The cost of power from this station will be cheaper than that of thermal

power in this region. The station will consist of two reactors of the boiling water type, and is being built by the General Electric Company of the U.S.A. under a turn-key contract. On the basis of specifications provided by the Tarapur Atomic Power Project of the Department of Atomic Energy, which is supervising the design and construction and has the over all responsibility for the project.

#### Rajasthan Atomic Power Project

Work on the first unit (200 MW) of Rajasthan Atomic Power Project has commenced and the construction of temporary facilities like offices, workshop, stores, power supply, temporary colony etc. has been completed. Orders for major equipment have been placed and contract for main civil works has been awarded and excavation is in progress.

The Planning Commission have approved expansion of the Station by installation of a similar second unit.

The first unit of the station is expected to be in commercial operation by 1969.

#### SPACE RESEARCH

The Thumba Equatorial Rocket Launching Station (TERLS) has been established near Trivandrum, Kerala, by the Indian National Committee for Space Research (INCOSPAR) of the Department of Atomic Energy. The rocket launching facility became operational on Nov. 21, 1963 when the first Nike-Apache Rocket carrying a Sodium Vapour Payload was fired.

Since then, 42 experimental rockets have been fired. The scientific programme at TERLS is conducted on the basis of bilateral collaborative agreements between India and France, the USA and the USSR. The objective of the programme is to provide better understanding of problems of Equatorial Aeronomy including meteorology, particularly in the region up to 170 km.

The 20th session of the United Nations General Assembly has accorded sponsorship for the continuing operation of the Thumba International Equatorial Sounding Rocket Launching Facility by its resolution 2130 (XX) of December 21, 1965.

There is a Satellite Telemetry Station in operation, since 1961, at the Physical Research Laboratory, Ahmedabad. Currently, it is monitoring X-ray data from NRL Solar Radiation Satellite. It is also participating in a world-wide programme of ionospheric studies with S-66 ionospheric beacon satellites.

An Experimental Satellite Communications Earth Station is being set up with UN assistance at Ahmedabad. It is expected that the Station will be operational during January-March 1967. The Centre will provide facilities for research and training in communications via satellites using particularly the ATS satellites planned by NASA.

#### RESEARCH IN HUMANITIES

Research in the humanities—literature, language, arts, etc.—is engaging the attention of individual institutions scattered throughout the country.

Anjuman-i-Islam Urdu Research Institute, D. Naoroji Road, Bombay 1; Anthropological Society of Bombay, C/o K. R. Cama Oriental Research Institute, 136, Apollo Street, Bombay; Bangiya Sahitya Parishad, 243-1, Upper Circular Road, Calcutta; Bhandarkar Oriental Research Institute, Poona; Bharatiya Itihasa Samshodhaka Mandal, Sadashiv Peth, Poona; Bharatiya Vidya Bhawan, Chowpatty, Bombay; B. J. Institute of Learning and Research, Bhadra, Ahmedabad; B. M. Institute of Child Development, Pharmacy College, Navrangpura, Ahmedabad; Bureau of Psychology, Allahabad; D. A. Memorial Institute, C/o Bharatiya Itihasa Samshodhaka Mandal, Poona; Deccan College of Post-Graduate and Research Institute, Poona; Department of Anthropology, Indian Museum, 27, Chowringhee Road, Calcutta; Department of Archaeology, Ministry of Education, New

Delhi; Department of Historical and Antiquarian Studies, Gauhati; Dharmakosha Mandal (Vedic Research Institute), C/o Prajna Pathshala, Wal, District Satara; Ganganath Jha Research Institute, Allahabad; Gokhale Institute of Politics and Economics, Poona; Gujarat Research Society, Bombay; Hindi Vidya Pith, Deoghar, Bihar; Indian Institute of Education, 11, Horniman Circle, Bombay; Indian Institute of Philosophy, Amalner, Dt. Jalgaon, Maharashtra; Kannada Research Institute, Dharwar; Karnatak Research Society, Dharwar; K. P. Jayaswal Research Institute, Patna; K. R. Cama Oriental Institute, 136, Apollo Street, Bombay; Kuppaswami Sastri Research Institute, Mylapore, Madras; Mandir Vidya Pith, Bhagalpur, Bihar; Marathi Samshodhan Mandal, Mumbai Marathi Granth-sangrahalaya, Thakurdwar, Bombay; Mithila Institute of Post-Graduate Studies and Research in Sanskrit Learning, Darbhanga, Bihar; Nalanda Pali Institute, P.O. Nalanda, Patna; National Archives of India, Ministry of Education, New Delhi; Oriental Research Institute, Mysore; Rajasthan Vishva Vidya Peeth, Udaipur; Rajwade Samshodhan Mandal, Dhulia, Maharashtra; Scindia Research Institute, Ujjain; Shri G. K. Institute of Rural Education, Gargoti, Kolhapur District; Sheth Bholabhai Jeshingbhai Institute of Learning and Research, Bhadra, Ahmedabad; Shri Farbes Gujarati Sabha, Bombay; Tata Institute of Social Sciences, Chembur, Bombay; The Asiatic Society, 1, Park Street, Calcutta; Vachan Mantapa (Kannada Research Institute), Belgaum; Venkateswara Research Institute, Tirupati; Validika Samshodhana Mandal, Tilak Memorial, Poona; Valshali Prakrit Institute, Muzaffarpur; Vishveshwaranand Vedic Research Institute, Hoshiarpur, Punjab.

#### Satellite Communication Station

The Government of India in the Department of Atomic Energy in collaboration with the United Nations is in the process of setting up an Experimental Satellite Communication Earth Station at Ahmedabad in the area known as Jodhpur Tekra for the purpose of research and training in communications via satellites.

With the rapid plans for the industrialisation of India, it is essential that the communication system between distant countries and continents be modernised to meet the growing demands. Hence, in order to achieve a better system of communication, it has been found that space communication via satellites offers the most favourable means. It is also observed that before establishing a commercial station in India, it is necessary to train our engineers and scientists in the field of space technology and science and also to provide a centre for research in this field. With this objective in view, the Government of India in collaboration with the United Nations Special Fund authority have appointed a team of Indian and Foreign experts to design, instal and operate a complete Experimental Satellite Communication Earth Station at the above mentioned site.

A suitable piece of land has already been acquired and the work of building construction is pushing ahead. The special Electronics apparatus is has been ordered from abroad; all the Telephone & Telegraph Multiplex Equipment are being supplied from the Bangalore Factory of Indian Telephone Industries.

It is expected that the Station will be in operation during the first half of 1967.

#### OTHER RESEARCH BODIES

There is a whole host of research organizations (besides the ones mentioned above) engaged in scientific research of one sort or another.

The Geological Survey of India in Calcutta maps out the mineral resources of the country. The Indian Bureau of Mines and the Mineral Information Bureau at Delhi help in the prospecting and working of minerals.

The Oil and Natural Gas Commission is responsible for the prospecting and exploitation of mineral oil resources.

A Central Institute of Petroleum is being set up at Dehra Dun.

Cartographic work is in progress under the National Atlas Organization in Calcutta.

The Survey of India with its headquarters at Dehra Dun is engaged in large-scale mapping of river basins and in the preparation of topographical maps.

The Botanical and Zoological Surveys both in Calcutta conduct systematic surveys of the animal and plant resources of the country.

The Meteorological Departments of the Government of India at Delhi and Poona are concerned with meteorological, climatological, hydro-meteorological and snow surveys.

The Department of Anthropology in Calcutta is concerned with ethnographic surveys and a variety of other studies in anthropology.

The Indian Association for the Cultivation of Science in Calcutta is engaged in physical and chemical research, both in its theoretical and applied aspects.

Research in radio physics and electronics is in progress at the Indian Institute of Radio Physics and Electronics in Calcutta, while research in cosmic rays and theoretical physics is carried on at the Physics Research Laboratory in Ahmedabad.

The Bose Research Institute in Calcutta conducts research in physics, chemistry, zoology and plant breeding.

The Birbal Sahani Institute at Lucknow carries on research in plant fossils.

The Institute of Mathematical Sciences at Madras carries on research in mathematics, applied mathematics, theoretical physics.

#### ENGINEERING RESEARCH

The Indian Standards Institution at New Delhi lays down specifications for materials, tools and products.

Among engineering institutions providing facilities for research the following may be mentioned:

All India Institute of Hygiene and Public Health, Calcutta: Sanitary engineering.

Central Building Research Institute, Roorkee (U.P.): Building engineering, prestressed concrete engineering, etc.

Central Electronics Engineering Research Institute, Pilani (Rajasthan): Electronics and telecommunication engineering.

Central Mechanical Engineering Research Institute, Durgapur (W. Bengal): Mechanical engineering.

Central Public Health Engineering Research Institute, Nagpur: Public Health and sanitary engineering.

Central Road Research Institute, New Delhi: Road engineering.

Concrete Research Laboratory, Chepauk, Madras: Structural engineering.

Indian Institute of Science, Bangalore: Aeronautical engineering, internal combustion engines, and power, hydraulic and electrical communication engineering.

National Aeronautical Laboratory, Bangalore: Aeronautical engineering.

Indian School of Mines and Applied Geology, Dhanbad: Mining engineering.

M. S. University, Baroda: Civil, mechanical and telecommunication engineering.

P.S.G. & Sons Charities College, Coimbatore: Civil, mechanical and electrical engineering.

Government College of Technology, Coimbatore: Heat engineering, hydraulic engineering, soil mechanics.

Indian Institute of Technology, Kharagpur: Mechanical engineering.

Madras Institute of Technology, Madras: Aeronautical and automobile engineering and soil mechanics.

University College of Science and Technology, University of Calcutta: Heat and illumination engineering.

A number of Ministries and Departments of the Government of India have development and research sections in engineering.

The Indian Agricultural Research Institute, New Delhi has a Division of Agricultural Engineering which is concerned with agricultural equipment.

The Ministry of Communications has a Research and Development Directorate which sees to the specifications, certification and manufacture of aircraft and aircraft material.

The Ministry has a Telecommunications Research Centre in Delhi.

The Technological Development Wing of the Ministry of Industries offers advice on engineering equipment in general and more especially on machine tools and internal combustion engines.

The Central Board of Irrigation and Power conducts eleven research stations the chief of which are in Poona, Amritsar and Poondi (Madras State). The one at Khadakvasla near Poona is the most important. It conducts research in hydraulic engineering, soil mechanics, concrete materials and navigation.

The All India Radio has a research unit of its own in New Delhi.

The Railway Board has centres in Lucknow, Lonavla and Chittaranjan to investigate problems connected with railways.

Research projects connected with roads, bridges, ports, harbours are taken up for investigation by the Roads Organization under the Ministry of Transport.

It may be added that two Power Engineering Research Organizations in Bangalore and Bhopal, are being set up with the assistance of the U.N. Special Project Fund with UNESCO acting as the executive agency.

### MEDICAL RESEARCH

Medical Research is conducted chiefly under the auspices of the Indian Council of Medical Research, New Delhi. The Council also grants research fellowships. There is a Scientific Advisory Board which deals with technical questions and publishes reports of research carried on under the auspices of the Council.

The Council spent about Rs. 1.6 crores in the year 1965-66. In 1966-67 the expenditure is expected to Rs. 1.5 Crores.

The more prominent research institutions in medicine are:

School of Tropical Medicine, Calcutta: Diseases peculiar to tropical climate.

All India Institute of Hygiene and Public Health, Calcutta: Preventive and social medicine.

Indian Cancer Research Centre, Bombay: Cancer.

Vallabhbhai Patel Chest Institute, Delhi: Tuberculosis and diseases of chest.

Central Leprosy Teaching and Research Institute, Tirumani (Chingleput): Leprosy.

Haffkine Institute, Bombay: Plague, malaria, virus diseases, nutrition. It also manufactures vaccines and sera.

Central Research Institute, Kasauli: Microbiology, biochemistry, serology.

Pasteur Institute, Coonoor: Rabies, influenza, tropical eosinophilia, anti-venom serum, serological reactions.

King Institute of Preventive Medicine, Guindy, Madras: Vaccines, specially against smallpox and therapeutic sera.

Bengal Immunity Research Institute, Calcutta (Private): Prevention, control and cure of disease, and anti-malarial drugs.

Central Drug Research Laboratory, Calcutta: Biological and chemical assays of drugs. It also gives technical advice to drug manufacturing firms.

Drug Research Laboratory, Jammu: Research in medicinal plants. Has two farms. Promotes standardization of indigenous drugs.

Virus Research Centre, Poona: Virus-caused diseases.

Central Drug Research Institute, Lucknow: Work on drugs.

National Institute of Communicable Diseases, Delhi: Malaria.

Cholera Research Centre, Calcutta: To study various aspects of Cholera.

Nutrition Research Laboratories, Hyderabad: Nutrition and allied subjects.

Tuberculosis Chemotherapy Centre, Madras: Research on Tuberculosis.

The Indian Council of Medical Research initiates research in a large number of specific problems at medical colleges and hospitals in the country including the institutions mentioned above.

## ROADS

IT is estimated that India in 1914 had 1273,000 Km. of roads. Against this, the length in April 1966 was 598,700 miles made up of 177,300 miles of metalled roads, and 421,400 miles unmetalled roads. Included in this, however, are roads constructed in Community Development and N.E.S. Blocks, amounting to about 200,000 miles which are generally mere tracks and are often not properly maintained.

### ROAD FUND

Up to the end of March 1964 total receipts in the Central Road Fund since its inception were about Rs. 84.90 crores and those in the Central Road Fund Reserve since its inception were about Rs. 13.46 crores.

At present the annual revenue accruing to the Fund amounts to roughly Rs. 4 crores. For the first 15 years after its inauguration, the Central Road Fund was the main source of revenue for the construction of new roads or the improvement and modernisation of existing ones. However at present this fund represents hardly 2 per cent of the total tax revenue from motor transport, 5 per cent of the total expenditure on original road works provided for in the 3rd Five Year Plan and 4 per cent of the gross expenditure on roads inclusive of the maintenance cost of the road system.

On the administrative side roads except for the small mileage of National Highways described later are a State subject and may be divided into two main classes, State Roads under the Public Works Department and Local Roads in charge of local bodies.

At the beginning of the First Five Year Plan, India had 248,512 miles of roads, of which 97,567 miles were metalled and the remaining 150,945 miles unmetalled.

At the beginning of the Five Year Plan, the lengths remaining to be constructed, were

40,970 km. of metalled roads and 91,792 km. unmetalled roads, making a total of 132,762 km. in all.

### Extra-Municipal Road Length, Km.

| Year ending March | Surfaced Roads | Unmetalled Roads | Total   |
|-------------------|----------------|------------------|---------|
| 1957 ..           | 191,470        | 324,084          | 515,554 |
| 1958 ..           | 201,889        | 370,001          | 571,890 |
| 1959 ..           | 210,517        | 408,401          | 618,918 |
| 1960 ..           | 220,426        | 444,025          | 665,351 |
| 1961 ..           | 235,790        | 473,330          | 709,120 |
| 1962 ..           | 244,552        | 473,508          | 718,060 |
| 1963 ..           | 251,961        | 504,250          | 756,211 |

### 1st, 2nd & 3rd FIVE YEAR PLANS

The progress of road development during the past three Plan periods has been as follows:

| 31st March          | Surfaced | Miles Unsurfaced | Total   |
|---------------------|----------|------------------|---------|
| 1951 ..             | 97,567   | 150,945          | 248,512 |
| 1956 ..             | 113,725  | 195,931          | 309,656 |
| 1961 ..             | 146,513  | 294,113          | 440,626 |
| 1966 .. (Estimated) | 177,300  | 421,400          | 598,700 |

Although the table shows that over 350,000 miles of roads have been constructed, about 80 per cent of the construction represents unmetalled substandard roads principally in community development blocks which do not deserve to be called roads.

The financial allocations for road development during these 15 years have totalled a sum of Rs. 839.27 crores, distributed among the three Plan periods as under.

|                                | Rs. Crores |
|--------------------------------|------------|
| First Plan .. .. .             | 134.47     |
| Second Plan .. .. .            | 245.80     |
| Third Plan (Estimated) .. .. . | 459.00     |
| Total .. .. .                  | 839.27     |

The road mileage in the country compares very poorly with that of other countries in relation to the area of the land and its population. Seventy per cent of India's mileage is unmetalled and unsuited for all-weather traffic.

### NATIONAL HIGHWAYS

National Highways include the following roads:—1. The Grand Trunk Road from Calcutta to Amritsar via Banaras, Kanpur, Agra and Delhi; 2. The Agra-Bombay Road; 3. The Bombay-Bangalore-Madras Road; 4. The Madras-Calcutta Road; 5. The Calcutta-Nagpur-Bombay Road; 6. The Banaras-Nagpur-Hyderabad-Bangalore-Cape Comorin Road; 7. The Delhi-Ahmedabad-Bombay Road; 8. The Road from Ahmedabad to Kandla with a branch Road to Porbandar; 9. The Hindustan-Tibet Road from Ambala to Tibet border via Simla; 10. The Delhi-Lucknow-Gorakhpur-Muzaffarpur Road with a branch Road to Nepal border; 11. The Assam Access Road; 12. The A-sam Trunk Road on the South Bank of the Brahmaputra; 13. The Road branching off from the Assam Trunk Road towards the Burma border through the State of Manipur.

In 1961 three additional Roads were classed as National Highways. They are Jabalpur-Bhopal-Bilari Road, Agra-Jaipur-Bikaner Road and Sholapur-Chitradurg Road. Consequently the

length of the National Highway system has now increased to 14,880 miles.

Owing to the general inadequacy of the funds allotted for road development the deficiencies in the National Highway System have not been set right during the 19 years since independence. In April 1966 there were still 400 Km. of missing links on this road system. Fifty major bridges are still to be built and 19,200 Km. of these highways still lack dual carriageways.

Some of the important works completed on national highways so far are the Barakar and Poon bridges and the rail-road bridge over the Ganga near Mokameh in Bihar, the Kathjuri and Kuskhali bridges in Orissa, the Mahi bridge in Bombay, the Pennar and Champavati bridges in Andhra Pradesh, Pugalur and Palar bridges in Madras, Beyne and Ghagger bridges in the Punjab, Gheesh and Leesh bridges in West Bengal, Bygool, Bhakra and Betwa bridges in U.P., the Chambal bridge near Dholpur in Madhya Pradesh and the bridge over the Ganga at Garhmukteshwar in U.P.

Among the important projects in progress are the construction of National Highway No. 28 from Daisingsarai to Barauni and Pipra to Kasia (Salemgarh) in Bihar, construction and improvement of roads in the Dandakaranya area in Madhya Pradesh, improvement of National Highway No. 2 from Mathura to Agra District border in U.P. and construction of the following bridges costing over Rs. one crore each: (a) across Gowthami branch of the river Godavari in Andhra; (b) across Kosi river at Kurda in Bihar; (c) across Beas river near Mirthal on Jullundur-Pathankot road; (d) across Sutlej river on mile 99 of Grand Trunk Road; and (e) over the Ganga river at Allahabad.

The west coast road, though under construction mainly at the cost of the Central Government, has not yet been declared a National Highway. Passing through the States of Maharashtra, Mysore, Goa and Kerala this 763 mile road from Panvel in Maharashtra to Chalissery in Kerala is expected to be completed during the Fourth Plan. Against the total estimated cost of Rs. 23.15 crores, an expenditure of roughly Rs. 13.36 crores was incurred upto April 1966.

The National Highways are distributed over the length and breadth of the country on a fairly uniform basis. The actual National Highway mileages in the various States in 1961 were as follows:—

States: Andhra 1,351, Assam 723, Bihar 935, Gujarat 579, Maharashtra 1,431, Jammu & Kashmir 338, Kerala 250, Madhya Pradesh 1,669, Madras 1,033, Mysore 820, Orissa 852, Punjab

Statement showing how the allotments in the scheme are made—for Highways, District Roads and Village Roads.

|                            | Mileage                 |                              | Cost in Rs. crores (improvement and new construction) |
|----------------------------|-------------------------|------------------------------|-------------------------------------------------------|
|                            | As expected on 1-4-1964 | Targets proposed in the Plan |                                                       |
| National Highways          | 14,880                  | 32,000                       | 980                                                   |
| State Highways             | 35,000                  | 70,000                       | 1,580                                                 |
| Major District Roads       | 95,200                  | 1,50,000                     | 1,360                                                 |
| Other District Roads       | 78,300                  | 1,80,000                     | 650                                                   |
| Village Roads (Classified) | 1,86,520                | 2,25,000                     | 630                                                   |
| Total                      | 4,09,900                | 6,57,000                     | 5,200                                                 |

A sum of Rs. 459 crores had been spent for the development of roads in the country during the 3rd Plan period out of Rs. 590 crores suggested by the Chief Engineers. Consequently India's progress towards an adequate road system for the country is slow.

### INTERNATIONAL HIGHWAYS

A major development which took shape during the Third Plan period is the linking up of

879, Rajasthan 620, Uttar Pradesh 1,402, West Bengal 742.

Union Territories: Delhi 50, Himachal Pradesh 151, Manipur 132, NHTA 69, Sikkim 30. Total mileage excluding missing links 14,065.

### EXPRESS HIGHWAYS

Four express highways designed for fast motor traffic form part of the current road schemes. Two of these are at the northern outskirts of Bombay City known as the Western and Eastern Express Highways. A portion of the former leading to the Bombay airport was thrown open to traffic in 1963. While the latter, leading from Bombay to Thana was opened to light traffic early in 1964. Work on the remaining two express highways, which are comparatively longer, being roughly 100 miles each, is in progress. They connect Calcutta to Durgapur in West Bengal and Sukinda mines to Paradip port in Orissa. These express highways as well as the new roads in the coal areas are expected to give a fillip to the use of heavy vehicles and truck-trailer combinations for the transport of coal and mineral ores.

### NEW ROAD PLAN

After the completion of the Nagpur Roads Plan of 1943, a new assessment of India's needs for the next 20 years was undertaken by the Chief Engineers at the instance of the Government of India and a new Road Plan prepared for execution during the 20-year period from 1961 to 1981.

The broad outline of the plan is to raise the mileage of roads from 4.10 lakhs in 1961 to 6.57 lakhs by 1981 with provision for two lane carriage-ways on National Highways. The Plan aims at increasing the intensity of roads from 0.32 to 0.52 per square mile of territory. When the plan is completed the average distance from a village in an agricultural area to a metalled road will be reduced from five to three miles and the distance to an unmetalled road will be reduced from two to 1½ miles.

There is also a provision to have 1,000 miles of Expressways with limited access and also grade separation at most of the crossings.

The cost of this scheme is estimated at Rs. 5,200 crores and it is recommended should be split up between four 5-year periods as under:—

|                    |                |
|--------------------|----------------|
| 1961-62 to 1965-66 | Rs. 590 crores |
| 1966-67 to 1970-71 | Rs. 1,075 "    |
| 1971-72 to 1975-76 | Rs. 1,545 "    |
| 1976-77 to 1980-81 | Rs. 2,000 "    |

a part of the main international system by linking India with Lahore in Pakistan and Mandalay in Burma the main arterial highway through India is the Amritsar-Delhi-Agra-Calcutta-Golaghat-Imphal road. Next in importance are two routes, Agra via Gwalior, Hyderabad and Bangalore to Danushkodi and Barhi to Kathmandu. Highways of the second category in India will include roads such as Agra-Bombay, Delhi-Multan, Bangalore-Madras, Golaghat-Ledo etc.

While in most cases the national highways satisfy the minimum standards of international roads, a few sections will have to be constructed or up-graded. Besides the geometrical and structural requirements, there are certain other facilities which have to be provided along these international roads. These include the provision of service stations and petrol filling stations, hotels, rest-houses, telephone booths, first aid posts etc. and water tanks in dry areas.

Through the international highways in Turkey, the Asian highway will link up with the European highways on the west, while on the east the highway will extend to Rangoon, Bangkok, Saigon and Singapore. Road travel between Asian and European countries will thus lose its hazards in due course.

### BORDER ROADS

A "Border Roads Development Board" was formed in March 1960 to accelerate the economic development of the North and North Eastern border areas. Its programme includes improvement of certain existing roads and tracks and construction of new ones. While all road agencies like the State P.W.D. and the Central P.W.D. cooperate with the Board, work is being carried out directly by the Board in the most forward areas and especially at high altitudes and in difficult terrain. The Board has taken over overall responsibility for the maintenance and improvement of the Pathankot Jammu-Srinagar-Uri National Highway.

Owing to the national emergency some special roads might also be constructed for defence purposes.

LENGTH OF EXTRA-MUNICIPAL ROADS MAINTAINED BY P. W. D. AND LOCAL BODIES AND ROADS CONSTRUCTED IN C. D. & N. E. S. BLOCKS IN INDIA AS ON 31st MARCH 1963.

\*\* Includes 63 kilometres of national highway length in Sikkim as on 31st March 1961.

our national highways with the international highways as proposed by the ECAFE. These international roads have to be of certain minimum standards which have been laid down after discussion among experts of the countries concerned.

These highways are divided into two categories, the first consisting of main arterial routes joining the capitals of the countries and the second consisting of other routes joining main cities, ports etc. with the arterial network. Constituting

## REVENUE FROM MOTOR TRANSPORT

In 1965-66 the expenditure on roads is estimated at Rs. 143.59 crores made up of Rs. 90 crores on road construction or improvements and Rs. 53.59 crores on road maintenance. The Governments at the Centre and in the States realized in the year an amount of Rs. 331.85 crores from motor transport, as under :—

## MOTOR VEHICLES

The number of motor vehicles in use in India in March 1964 was 899,675. In terms of the population of the country, this represents about 160 vehicles per lakh of inhabitants.

The 899,675 vehicles operating in India in March 1964 were distributed among the various States as in the table shown on this page. The growth of motor vehicles in India in the past nine years is about 140 per cent, the total number having increased from 3.76 lakhs in March 1955 to 8.99 lakhs in March 1964.

<sup>1</sup> Of these, scooters and scooterettes are 8,727 in Maharashtra, 3,184 in Mysore and 4,756 in West Bengal. <sup>a</sup> Includes jeeps. <sup>b</sup> Includes auto rickshaws. <sup>c</sup> Includes 508 tractor-trailers. <sup>d</sup> Made up of 2,005 buses of S.T.C. and 3,553 buses of private operators. <sup>e</sup> Made up of 12,568 private carriers, 17,562 public carriers and 3,062 vans. <sup>f</sup> Includes 1,856 contract carriages. <sup>g</sup> Includes 1,001 tractors. <sup>h</sup> This includes tractors 2,461, trailers 1,929. <sup>i</sup> Figures from Indian Institute of Road Transport. <sup>j</sup> Estimated. <sup>k</sup> Includes 53 buses other than petrol and diesel. <sup>l</sup> Includes 65 goods vehicles other than petrol and diesel. <sup>m</sup> Includes 11 goods vehicles other than petrol and diesel. <sup>n</sup> Includes 2,113 miscellaneous vehicles other than petrol and diesel. <sup>o</sup> Includes 2,498 miscellaneous vehicles other than petrol and diesel. <sup>p</sup> Includes 143 miscellaneous vehicles other than petrol and diesel. <sup>q</sup> Includes 895 miscellaneous vehicles other than petrol and diesel.

**NATIONALISED TRANSPORT**

Nationalised bus services covered in 1961 almost the major parts of Gujarat, Maharashtra, Orissa, Delhi, Manipur and Himachal Pradesh.

No nationalisation has taken place in Tripura but in the remaining parts of the country the

extent to which services have been nationalised varies from one State to another, some having started only experimental nationalisation while in some others more than 90 per cent of the bus services are under State ownership as is shown in the following table:

**PRIVATE AND NATIONALISED BUSES AT BEGINNING OF THIRD PLAN, 1ST APRIL 1961**

| Name of State/Union Territory       | Number of buses in public sector | Number of buses in private sector | Total         | Percentage of 2 to 4 |
|-------------------------------------|----------------------------------|-----------------------------------|---------------|----------------------|

Freight transport is operated by certain State Transport organisations such as those in Assam, Maharashtra, Uttar Pradesh, Jammu & Kashmir and Himachal Pradesh. While these freight lorries as a rule operate on charter basis or on scheduled parcel services without monopoly, the State Transport in Assam has a monopoly of the truck traffic on 68 miles of roads and the entire goods traffic in Himachal Pradesh is a State monopoly. The number of goods lorries operated by nationalised concerns is however not more than two per cent of the total goods vehicles in India.

Expansion of nationalisation during the Third Plan 1961/66 was confined as in the Second Plan to passenger services. The Third Plan envisaged the addition of 5,000 vehicles so as to increase the nationalised fleet of buses to 23,000 by March 1966.

**TRANSPORT BODIES**

The department in the Central Government which deals with the overall direction of the roads plan and co-ordination of State planning is the Roads Wing under the Ministry of Transport.

The Roads Wing gives technical advice and arranges for the allocation of Central Road Fund reserves among the States.

An Inter-State Transport Commission has been set up to develop, co-ordinate and regulate operation of motor vehicles in areas or routes common to two or more States.

For proper and planned development of transport as a whole and to ensure co-ordination between the various modes of transport on the one hand and the Central and State transport policies on the other, Government of India in 1958 set up three transport bodies. They are the *Transport Development Council*, the *Road and Inland Water Transport Advisory Committee*, and the *Central Transport Co-ordination Committee*.

The Transport Development Council is a high-level body to advise the Government of India on all matters of policy relating to roads, road transport as well as inland water transport. The Council will also advise on problems relating to co-ordination between different forms of transport that may be referred to it by the Government of India.

The Road and Inland Water Transport Advisory Committee has been set up to discuss problems relating to roads, road transport and inland water transport and to make recommendations to the Transport Development Council for final decisions.

The Central Transport Co-ordination Committee has been constituted in the place of the Standing Committee of the Central Board of Transport and deals with the day-to-day transport problems confronting the different ministries of the Government of India.

The Government of India has also prepared a pilot scheme for setting up transport co-operative societies. To begin with, two such societies have been set up one each in Delhi and Kerala. Other States in which such societies are to be formed are West Bengal, Orissa and Madras.

The objective of the scheme is twofold; to bring more vehicles on the road; and to find employment for the educated unemployed.

The co-operative societies will be under the control of the State Government. Financial assistance by way of loans will be granted to the societies by the Government of India. The cost of training of the members of the co-operative societies would also be borne by the Central Government.

The membership of the co-operative societies will be restricted to workers, like drivers, mechanics, booking clerks, depot managers, etc.

On the basis of five persons to man one vehicle, each co-operative society will have 50 members. Each member will be required to contribute Rs. 1,000 towards the capital of the society.

**Road Transport Reorganisation Committee**

The Government of India in 1958 appointed a Road Transport Reorganisation Committee to recommend changes in the machinery of transport administration in the States so that road transport might be developed to meet the demands created by the country's plans of economic development.

The recommendations were given in the 1960-61 Directory.

The Government appointed another committee to study and recommend on the problem of transport policy and co-ordination. The report, which was released in Feb. 1966, envisages transport co-ordination through regulation of investments in the different modes. Regional transport surveys are now in progress to assess the quantum of transport which each mode of transport will be called upon to carry at the end of each Five Year Plan.

In 1965 the Government of India appointed two additional enquiry committees. One known as the Study Group on viable units is expected to recommend the steps to be taken to encourage the formation of large and efficient operating units. The other body known as the Road Transport Taxation Enquiry Committee is investigating the complaint that the incidence of present taxation constitutes a disincentive to the growth of road transport.

**SHIPPING COMPANIES AND AIRWAYS****SHIPPING COMPANIES****AMERICAN EXPORT ISBRANDTSEN LINES INC., NEW YORK**

*Agents:—*Lionel Edwards Ltd., 41, Nicol Road, B. Estate, Bombay; Pierce Leslie & Co., Ltd., Beach Road, Alleppey; Peirce Leslie & Co., Ltd., Ballard Road, Cochin; Pierce Leslie (C) & Co., Ltd., Bunder Road, Mangalore; Peirce Leslie & Co., Ltd., Kozhikode; Peirce Leslie & Co., Ltd., Quilon; The Bombay Co.
